

Pacira BioSciences, Inc. Announces Proposed Offering of \$250.0 Million Aggregate Principal Amount of Convertible Senior Notes

May 8, 2024

TAMPA, Fla., May 08, 2024 (GLOBE NEWSWIRE) -- Pacira BioSciences, Inc. (Nasdaq: PCRX) today announced that it intends to offer, subject to market and other conditions, \$250.0 million aggregate principal amount of convertible senior notes due 2029 (the "notes") in a private placement to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933, as amended (the "Securities Act"). Pacira also intends to grant the initial purchasers of the notes an option to purchase, for settlement within a period of 13 days from, and including, the date the notes are first issued, up to an additional \$37.5 million aggregate principal amount of notes.

The terms of the notes, including the interest rate, initial conversion rate and other terms, will be determined by negotiations between Pacira and the initial purchasers of the notes.

Pacira intends to use a portion of the net proceeds from the offering to (i) repurchase a portion of its outstanding 0.750% Convertible Senior Notes due 2025 (the "2025 Notes") concurrently with the pricing of the offering in privately negotiated transactions effected through one of the initial purchasers of the notes or its affiliate, as Pacira's agent, (ii) fund the cost of entering into the capped call transactions described below and (iii) repurchase up to \$50.0 million worth of shares of Pacira's common stock concurrently with the pricing of the offering in privately negotiated transactions. Pacira intends to use the remainder of the net proceeds from the offering for general corporate purposes, including working capital, and research and development expenditures. If the initial purchasers exercise their option to purchase additional notes, Pacira intends to use a portion of the net proceeds from the sale of the additional notes to pay the cost of entering into the additional capped call transactions. Holders of the 2025 Notes that are repurchased in the concurrent repurchases described above may purchase shares of Pacira's common stock in the open market to unwind any hedge positions they may have with respect to the 2025 Notes. These activities may affect the trading price of Pacira common stock and, if conducted concurrently with this offering, may result in a higher initial conversion price for the notes Pacira is offering.

In connection with the pricing of the notes, Pacira expects to enter into privately negotiated capped call transactions with one or more of the initial purchasers and/or their respective affiliates and/or other financial institutions (the "option counterparties"). The capped call transactions are expected to cover, subject to anti-dilution adjustments substantially similar to those applicable to the notes, the number of shares of Pacira's common stock underlying the notes. If the initial purchasers exercise their option to purchase additional notes, Pacira expects to enter into additional capped call transactions with the option counterparties.

The capped call transactions are expected generally to reduce the potential dilution to Pacira's common stock upon any conversion of the notes and/or offset any potential cash payments Pacira is required to make in excess of the principal amount of converted notes, as the case may be, upon any conversion of the notes, with such reduction and/or offset subject to a cap.

In connection with establishing their initial hedges of the capped call transactions, the option counterparties and/or their respective affiliates expect to enter into various derivative transactions with respect to Pacira's common stock and/or purchase shares of Pacira's common stock concurrently with or shortly after the pricing of the notes. This activity could increase (or reduce the size of any decrease in) the market price of Pacira's common stock or the notes at that time.

In addition, the option counterparties and/or their respective affiliates may modify their hedge positions by entering into or unwinding various derivatives with respect to Pacira's common stock and/or purchasing or selling Pacira's common stock or Pacira's other securities in secondary market transactions following the pricing of the notes and prior to the maturity of the notes (and (x) are likely to do so during any observation period related to a conversion of notes or following redemption of the notes by Pacira or following any repurchase of the notes by Pacira in connection with any fundamental change and (y) are likely to do so following any repurchase of the notes by Pacira other than in connection with any such redemption or fundamental change if Pacira elects to unwind a corresponding portion of the capped call transactions in connection with such repurchase). This activity could also cause or avoid an increase or a decrease in the market price of Pacira's common stock or the notes, which could affect the ability to convert the notes and, to the extent the activity occurs during any observation period related to a conversion of notes, it could affect the number of shares of Pacira's common stock and value of the consideration that noteholders will receive upon conversion of such notes.

This offering is being made to qualified institutional buyers pursuant to Rule 144A under the Securities Act. The offer and sale of the notes and the shares of Pacira common stock, if any, issuable upon conversion of the notes have not been and will not be registered under the Securities Act or any state securities laws, and, unless so registered, the notes and such shares may not be offered or sold in the United States or to U.S. persons except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable state securities laws.

This press release does not constitute an offer to sell or the solicitation of an offer to buy any securities, nor shall it constitute an offer, or the solicitation of any sale, of any securities in any jurisdiction in which such offer, solicitation or sale is unlawful.

About Pacira

Pacira BioSciences, Inc. (Nasdaq: PCRX) is committed to providing non-opioid pain management options to as many patients as possible to redefine the role of opioids as rescue therapy only. Pacira has three commercial-stage non-opioid treatments: EXPAREL® (bupivacaine liposome injectable suspension), a long-acting local analgesic currently approved for infiltration, fascial plane block, and as an interscalene brachial plexus nerve block for postsurgical pain management; ZILRETTA® (triamcinolone acetamide extended-release injectable suspension), an extended-release, intra-articular injection indicated for the management of osteoarthritis knee pain; and iovera®®, a novel, handheld device for delivering immediate, long-acting, drug-free pain control using precise, controlled doses of cold temperature to a targeted nerve.

Forward-Looking Statements

Certain of the statements made in this press release, such as those, among others, relating to our expectations regarding the completion of the proposed offering, the repurchases of our 2025 Notes, the repurchases of shares of our common stock, and other statements containing the words “anticipates,” “believes,” “estimates,” “expects,” “intends,” “may,” “plans,” and similar expressions, constitute forward-looking statements. Actual results or developments may differ materially from those projected or implied in these forward-looking statements. Factors that may cause such a difference include, without limitation, risks and uncertainties related to whether or not we will be able to raise capital through the proposed offering, the final terms of the proposed offering, market and other conditions and the satisfaction of customary closing conditions related to the proposed offering. There can be no assurance that we will be able to complete the proposed offering and/or the related transactions on the anticipated terms, or at all. Additional risks and uncertainties relating to Pacira and our business are discussed in the “Risk Factors” section of our most recent Annual Report on Form 10-K for the fiscal year ended December 31, 2023 and in other filings that we periodically make with the SEC. In addition, the forward-looking statements included in this press release represent our views as of the date of this press release. Important factors could cause our actual results to differ materially from those indicated or implied by forward-looking statements, and, as such, we anticipate that subsequent events and developments will cause our views to change. However, while we may elect to update these forward-looking statements at some point in the future, we specifically disclaim any obligation to do so, except as may be required by law. These forward-looking statements should not be relied upon as representing our views as of any date subsequent to the date of this press release.
