

Pacira BioSciences Reports Inducement Grants Under Nasdaq Listing Rule 5635(C)(4)

October 7, 2024

TAMPA, Fla., Oct. 07, 2024 (GLOBE NEWSWIRE) -- Pacira BioSciences, Inc. (Nasdaq: PCRX), the industry leader in the delivery of innovative, non-opioid pain therapies, today announced the granting of inducement awards on October 2, 2024 to 55 new employees under Pacira's Amended and Restated 2014 Inducement Plan as a material inducement to each employee's entry into employment with the company. In accordance with Nasdaq Listing Rule 5635(c)(4), the awards were approved by the Compensation Committee of the Board of Directors.

10 employees received stock options to purchase an aggregate of 68,900 shares of Pacira common stock and 54 employees received restricted stock units for an aggregate of 127,700 shares of Pacira common stock.

The stock options have a 10-year term and a four-year vesting schedule with 25 percent of the underlying shares vesting on the first anniversary of the recipient's first day of employment and in successive equal quarterly installments over the 36 months thereafter. The stock options have an exercise price of \$15.53 per share, the closing trading price of Pacira common stock on the Nasdaq Global Select Market on the date of grant. Each restricted stock unit represents the contingent right to receive one share of Pacira common stock and the restricted stock unit awards vest annually in four equal installments beginning on the first anniversary of October 1, 2024.

Vesting of the equity awards is subject to the employee's continued employment with Pacira. Each equity award is also subject to the terms and conditions of an award agreement.

About Pacira

Pacira delivers innovative, non-opioid pain therapies to transform the lives of patients. Pacira has three commercial-stage non-opioid treatments: EXPAREL® (bupivacaine liposome injectable suspension), a long-acting local analgesic currently approved for infiltration, fascial plane block, and as an interscalene brachial plexus nerve block for postsurgical pain management; ZILRETTA® (triamcinolone acetonide extended-release injectable suspension), an extended-release, intra-articular injection indicated for the management of osteoarthritis knee pain; and iovera®@, a novel, handheld device for delivering immediate, long-acting, drug-free pain control using precise, controlled doses of cold temperature to a targeted nerve. The company is also advancing the development of PCRX-201, a novel locally administered gene therapy with the potential to treat large prevalent diseases like osteoarthritis.
