Overview

We are an emerging specialty pharmaceutical company focused on the development, commercialization and manufacture of proprietary pharmaceutical products, based on our proprietary DepoFoam drug delivery technology, for use in hospitals and ambulatory surgery centers. In September 2010, we filed a New Drug Application, or NDA, for our lead product candidate, EXPAREL, a long-acting bupivacaine (anesthetic/analgesic) product for postsurgical pain management. Our clinical data demonstrates that EXPAREL provides analgesia for up to 72 hours post-surgery, compared with seven hours or less for bupivacaine.

We believe EXPAREL will address a significant unmet medical need for a long-acting non-opioid postsurgical analgesic, resulting in simplified postsurgical pain management and reduced opioid consumption, leading to improved patient outcomes and enhanced hospital economics. We estimate there are approximately 39 million opportunities annually in the United States for EXPAREL to be used. EXPAREL will be launched by certain members of our management team who have successfully launched multiple products in the hospital market.

EXPAREL consists of bupivacaine encapsulated in DepoFoam, both of which are used in FDA-approved products. DepoFoam, our extended release drug delivery technology, is the basis for our two FDA-approved commercial products, DepoCyt(e) and DepoDur, which we manufacture for our commercial partners. DepoFoam-based products have been manufactured for over a decade and have an extensive safety record and history of regulatory approvals in the United States, European countries and other territories. Bupivacaine, a well-characterized, FDA-approved anesthetic/analgesic, has an established safety profile and over 20 years of use in the United States.

EXPAREL has demonstrated efficacy and safety in two multicenter, randomized, double-blind, placebo-controlled, pivotal Phase 3 clinical trials in patients undergoing soft tissue surgery (hemorrhoidectomy) and orthopedic surgery (bunionectomy). In our pivotal Phase 3 hemorrhoidectomy clinical trial, EXPAREL achieved its primary endpoint by providing a statistically significant 30% reduction in pain, as measured by the area under the curve, or AUC, of the NRS-R pain scores, a commonly used patient reported measurement of pain, at 72 hours and all additional time points measured up to 72 hours. In addition, EXPAREL achieved its secondary endpoints in reducing the use of opioid rescue medication, including 45% less opioid usage compared to the placebo treatment group at 72 hours. In our pivotal Phase 3 bunionectomy clinical trial, EXPAREL also met its primary endpoint, demonstrating a statistically significant reduction in pain at 24 hours, and this reduction was also statistically significant at 36 hours. The trial also met secondary endpoints related to pain measurement and the use of opioid rescue medication. Overall, EXPAREL has demonstrated safety in over 1,300 subjects.

We are initially seeking FDA approval of EXPAREL for postsurgical analgesia by local administration into the surgical wound, or infiltration, a procedure commonly employing bupivacaine. Under the Prescription Drug User Fee Act, or PDUFA, guidelines, the FDA has a goal of ten months from the date of NDA filing to make a decision regarding the approval of our filing. We are also pursuing several additional indications for EXPAREL and expect to submit a supplemental NDA, or sNDA, for nerve block and epidural administration.

Our current product portfolio and product candidate pipeline is summarized in the table below:

Product(s) / Product Candidate(s)	Primary Indication(s)	Status	Commercialization Rights
EXPAREL	Postsurgical analgesia by infiltration	NDA (submitted)	Pacira (worldwide)
	Postsurgical analgesia by nerve block	Phase 2/3 (planning)	Pacira (worldwide)
	Postsurgical analgesia by epidural administration	Phase 1 (completed)	Pacira (worldwide)
DepoCyt(e)	Lymphomatous meningitis	Marketed	Sigma-Tau Pharmaceuticals Mundipharma International
DepoDur	Post-operative pain	Marketed	EKR Therapeutics Flynn Pharmaceuticals
DepoNSAID	Acute pain	Preclinical	Pacira (worldwide)
DepoMethotrexate	Rheumatoid arthritis Oncology	Preclinical Preclinical	Pacira (worldwide) Pacira (worldwide)

Limitations of Current Therapies for Postsurgical Pain

Substantially all surgical patients experience postsurgical pain, with approximately 50% of surgical patients reporting inadequate pain relief according to certain epidemiological studies. Local anesthetics, such as bupivacaine, are usually effective for seven hours or less, and opioids, the mainstay of postsurgical pain management, have a range of potentially severe side effects. The use of opioid-based patient controlled analgesia, or PCA, systems further adds cost and complication to the process of postsurgical pain management.

Non-steroidal anti-inflammatory drugs, or NSAIDS, are commonly used in an attempt to minimize opioid usage, but increase the risk of bleeding and gastrointestinal and renal complications. Elastomeric bags, which are often used to extend the delivery of bupivacaine using a catheter system, are clumsy, difficult to use and may introduce catheter-related issues, including infection.

EXPAREL

Based on our clinical trial data, EXPAREL provides continuous and extended postsurgical analgesia for up to 72 hours and reduces the consumption of supplemental opioid medications. We believe this will simplify postsurgical pain management, minimize breakthrough episodes of pain and result in improved patient outcomes and enhanced hospital economics.

Our EXPAREL strategy has four principal elements:

Replace the use of bupivacaine in postsurgical infiltration. We believe EXPAREL:

- extends postsurgical analgesia for up to 72 hours, from seven hours or less;
- utilizes existing postsurgical infiltration administration techniques;
- dilutes easily with saline to reach desired volume;
- is a ready-to-use formulation; and
- facilitates treatment of both small and large surgical wounds.

Become the foundation of a postsurgical pain management regimen in order to reduce and delay opioid usage. We believe EXPAREL:

- significantly delays and reduces opioid usage while improving postsurgical pain management as demonstrated in our Phase 3 hemorrhoidectomy trial, in which EXPAREL demonstrated the following:
  - delayed first opioid usage to approximately 14 hours post-surgery, compared to approximately one hour for placebo;
  - significantly increased percentage of patients requiring no opioid rescue medication through 72 hours post-surgery, to 28% compared to 10% for placebo;
  - 45% less opioid usage at 72 hours post-surgery compared to placebo; and
  - increased percentage of patients who are pain free at 24 hours post-surgery compared to placebo; and
- may reduce hospital cost and staff monitoring of PCA systems.

Improve patient satisfaction. We believe EXPAREL:

- reduces the need for patients to be constrained by elastomeric bags and PCA systems, which are clumsy, difficult to use and may introduce catheter-related issues, including infection;
- promotes maintenance of early postsurgical pain management, thereby reducing the time spent in the intensive care unit; and
- promotes early ambulation, which potentially reduces the risk of life-threatening blood clots, and allows quicker return of bowel function, thereby leading to a faster switch to oral nutrition and medicine, and thus a faster discharge from the hospital.

Develop and seek approval of EXPAREL for nerve block and epidural administration. We believe these additional indications for EXPAREL:

- present a low-risk, low-cost opportunity for clinical development; and
- will enable us to fully leverage our manufacturing and sales infrastructure.

Manufacturing and Intellectual Property

We manufacture all our DepoFoam-based products, including commercial supplies of DepoCyt(e) and DepoDur for our commercial partners. We currently manufacture clinical supplies of EXPAREL and intend to manufacture and commercialize EXPAREL upon its approval.

We have developed significant know-how regarding our manufacturing process and protect our technology through trade secrets and patents. We have over 15 families of patents and patent applications relating to various aspects of DepoFoam delivery technology. Issued U.S. patents protect the composition of EXPAREL and methods for modifying its rate of drug release. We have also submitted additional patent applications related to the composition of, and manufacturing process for, EXPAREL. Recently, we filed a provisional patent relating to a new process to manufacture EXPAREL and other DepoFoam-based products, which, if granted, could prevent others from using this process until 2031.

Our Strategy

Our goal is to be a leading specialty pharmaceutical company focused on the development, commercialization and manufacture of proprietary pharmaceutical products principally for use in hospitals and ambulatory surgery centers. We plan to achieve this by:

- obtaining FDA approval for EXPAREL in the United States for postsurgical analgesia using local infiltration;
- building a streamlined commercial organization concentrating on major hospitals and ambulatory surgery centers in the United States and targeting surgeons, anesthesiologists, pharmacists and nurses;
- working directly with managed care payers, quality improvement organizations, key opinion leaders, or KOLs, in the field of postsurgical pain management and leading influence hospitals with registry programs to demonstrate the economic benefits of EXPAREL;
- securing commercial partnerships for EXPAREL in regions outside of the United States;
- obtaining FDA approval for nerve block and epidural administration indications for EXPAREL;
- manufacturing all our DepoFoam-based products, including EXPAREL, DepoCyt(e) and DepoDur, in our current Good Manufacturing Practices, or cGMP, compliant facilities; and
- continuing to expand our marketed product portfolio through development of additional DepoFoam-based hospital products utilizing a 505(b)(2) strategy.

Recent Developments

On November 24, 2010, we entered into a $26.25 million credit facility with Hercules Technology Growth Capital, Inc. and Hercules Technology III, L.P., as lenders, or the Hercules Credit Facility. At the closing of the Hercules Credit Facility, we entered into a term loan in the aggregate principal amount of $26.25 million, which was the full amount available under the Hercules Credit Facility. As of November 30, 2010, the entire term loan of $26.25 million was outstanding. As further consideration to the lenders to provide the term loan under the Hercules Credit Facility, we issued to the lenders a warrant to purchase 1,925,000 shares of our Series A convertible preferred stock. If after the closing date of the Hercules Credit Facility and prior to the completion of this offering, we issue equity securities in a private placement then the lenders may, at their option, exercise the warrant for the same class and type of equity securities that we issue in such private placement in lieu of Series A convertible preferred stock. On November 24, 2010, all borrowings under our credit facility with General Electric Capital Corporation, or the GECC Credit Facility, were repaid in full from proceeds of the Hercules Credit Facility, and the GECC Credit Facility was terminated and any and all liens in favor of the lenders under the GECC Credit Facility were released.

Risk Factors

Our business is subject to a number of risks of which you should be aware before making an investment decision. These risks are discussed more fully in the “Risk Factors” section of this prospectus immediately following this prospectus summary. These risks include the following:

- We are dependent on the success of our lead product candidate, EXPAREL, and cannot guarantee that this product candidate will receive regulatory approval or be successfully commercialized.
- If we are unable to establish effective marketing and sales capabilities or enter into agreements with third parties to market and sell our product candidates, if they are approved, we may be unable to generate product revenues.

- If EXPAREL is approved and we fail to manufacture the product in sufficient quantities and at acceptable quality and pricing levels, or to fully comply with cGMP regulations, we may face delays in the commercialization of this product candidate or be unable to meet market demand, and may lose potential revenues.
- We may not be able to manage our business effectively if we are unable to attract and retain key personnel.
- Our independent registered public accounting firm has expressed substantial doubt about our ability to continue as a going concern, which may hinder our ability to obtain future financing.
- We may not receive regulatory approval for EXPAREL or any of our other product candidates, or the approval may be delayed for various reasons, including successful challenges to the FDA's interpretation of Section 505(b)(2), which would have a material adverse effect on our business and financial condition.

RISK FACTORS

Investing in our common stock involves a high degree of risk. Before you decide to invest in our common stock, you should consider carefully the risks described below, together with the other information contained in this prospectus, including our financial statements and the related notes appearing at the end of this prospectus. We believe the risks described below are the risks that are material to us as of the date of this prospectus. If any of the following risks actually occur, our business, financial condition, results of operations and future growth prospects would likely be materially and adversely affected. In these circumstances, the market price of our common stock could decline, and you may lose all or part of your investment.

Risks Related to the Development and Commercialization of our Product Candidates

We are dependent on the success of our lead product candidate, EXPAREL, and cannot guarantee that this product candidate will receive regulatory approval or be successfully commercialized.

We have invested a significant portion of our efforts and financial resources in the development of our most advanced product candidate, EXPAREL. Our ability to generate revenues in the near term is substantially dependent on our ability to develop and commercialize EXPAREL. In September 2010, we submitted a new drug application, or NDA, with the U.S. Food and Drug Administration, or FDA, seeking approval to commercialize EXPAREL for treatment of postsurgical pain. We cannot commercialize EXPAREL prior to obtaining FDA approval. Even though EXPAREL has completed two pivotal Phase 3 clinical trials with positive results, EXPAREL is still, nonetheless, susceptible to the risks of failure inherent at any stage of product development, including the appearance of unexpected adverse events, the FDA's determination that EXPAREL is not approvable or failure to achieve its primary endpoints in subsequent clinical trials. For example, in 2009, we completed two Phase 3 clinical trials of EXPAREL that did not meet their primary endpoints.

If we do not receive FDA approval for, and commercialize, EXPAREL, we will not be able to generate revenue from EXPAREL in the foreseeable future, or at all. Any significant delays in obtaining approval for and commercializing EXPAREL will have a substantial adverse impact on our business and financial condition.

If approved, our ability to generate revenues from EXPAREL will depend on our ability to:

- create market demand for EXPAREL through our own marketing and sales activities, and any other arrangements to promote this product candidate we may later establish;
- hire, train and deploy a sales force to commercialize EXPAREL in the United States;
- manufacture EXPAREL in sufficient quantities and at an acceptable quality and at an acceptable manufacturing cost to meet commercial demand at launch and thereafter;
- establish and maintain agreements with wholesalers, distributors and group purchasing organizations on commercially reasonable terms;
- create partnerships with, or offer licenses to, third parties to promote and sell EXPAREL outside the United States; and
- maintain patent and trade secret protection and regulatory exclusivity for EXPAREL.

We face significant competition from other pharmaceutical and biotechnology companies. Our operating results will suffer if we fail to compete effectively.

The pharmaceutical and biotechnology industries are intensely competitive and subject to rapid and significant technological change. Our major competitors include organizations such as major multinational pharmaceutical companies, established biotechnology companies and specialty pharmaceutical and generic drug companies. Many of our competitors have greater financial and other resources than we have, such as larger research and development staff, more extensive marketing, distribution, sales and manufacturing organizations

and experience, more extensive clinical trial and regulatory experience, expertise in prosecution of intellectual property rights and access to development resources like personnel generally and technology. As a result, these companies may obtain regulatory approval more rapidly than we are able to and may be more effective in selling and marketing their products. Smaller or early stage companies may also prove to be significant competitors, particularly through collaborative arrangements with large, established companies. Our competitors may succeed in developing, acquiring or licensing on an exclusive basis technologies and drug products that are more effective or less costly than EXPAREL or any other product candidate that we are currently developing or that we may develop, which could render our products obsolete and noncompetitive or significantly harm the commercial opportunity for EXPAREL.

As a result of these factors, our competitors may obtain regulatory approval of their products more rapidly than we are able to or may obtain patent protection or other intellectual property rights that limit our ability to develop or commercialize EXPAREL. Our competitors may also develop drugs that are more effective, useful or less costly than ours and may be more successful than us in manufacturing and marketing their products.

EXPAREL will compete with well-established products with similar indications. Competing products available for postsurgical pain management include opioids such as morphine, fentanyl, meperidine and hydromorphone, each of which is available generically from several manufacturers, and several of which are available as proprietary products using novel delivery systems. Ketorolac, an injectable non-steroidal anti-inflammatory drug, or NSAID, is also available generically in the United States from several manufacturers, and Caldolor (ibuprofen for injection), an NSAID, has been approved by the FDA for pain management and fever in adults. In addition, EXPAREL will compete with non-opioid products such as bupivacaine, Marcaine, ropivacaine and other anesthetics/analgesics, all of which are also used in the treatment of postsurgical pain and are available as either oral tablets, injectable dosage forms or administered using novel delivery systems. Additional products may be developed for the treatment of acute pain, including new injectable NSAIDs, novel opioids, new formulations of currently available opioids and NSAIDS, long-acting local anesthetics and new chemical entities as well as alternative delivery forms of various opioids and NSAIDs.

We also expect to compete with an extended release bupivacaine product in development by Durect Corporation which has been licensed to Hospira in North America (Posidur) and to Nycomed for Europe (Optesia).

We also anticipate that EXPAREL will compete with elastomeric bag/catheter devices intended to provide bupivacaine over several days. I-FLOW Corporation (acquired by Kimberly-Clark Corporation in 2009) has marketed these medical devices in the United States since 2004.

If we are unable to establish effective marketing and sales capabilities or enter into agreements with third parties to market and sell our product candidates, if they are approved, we may be unable to generate product revenues.

We currently do not have a commercial infrastructure for the marketing, sale and distribution of pharmaceutical products. In order to commercialize our products, we must build our marketing, sales and distribution capabilities or make arrangements with third parties to perform these services. If EXPAREL is approved by the FDA, we plan to build a commercial infrastructure to launch EXPAREL in the United States, including a specialty sales force of approximately 100 people within three years from launch. We may seek to further penetrate the U.S. market in the future by expanding our sales force or through collaborations with other pharmaceutical or biotechnology companies or third-party manufacturing and sales organizations. We may also seek to commercialize EXPAREL outside the United States, although we currently plan to do so with a marketing and sales collaborator and not with our own sales force.

The establishment and development of our own sales force and related compliance plans to market any products we may develop will be expensive and time consuming and could delay any product launch, and we

may not be able to successfully develop this capability. We, or our future collaborators, will have to compete with other pharmaceutical and biotechnology companies to recruit, hire, train and retain marketing and sales personnel. In the event we are unable to develop a marketing and sales infrastructure, we would not be able to commercialize EXPAREL or any other product candidates that we develop, which would limit our ability to generate product revenues.

Although our current plan is to hire most of our sales and marketing personnel only if EXPAREL is approved by the FDA, we will incur expenses prior to product launch in recruiting this sales force and developing a marketing and sales infrastructure. If the commercial launch of EXPAREL is delayed as a result of FDA requirements or other reasons, we would incur these expenses prior to being able to realize any revenue from sales of EXPAREL. Even if we are able to effectively hire a sales force and develop a marketing and sales infrastructure, our sales force and marketing teams may not be successful in commercializing EXPAREL or any other product candidates that we may develop.

To the extent we rely on third parties to commercialize any products for which we obtain regulatory approval, we may receive less revenues than if we commercialized these products ourselves. In addition, we would have less control over the sales efforts of any other third parties involved in our commercialization efforts. In the event we are unable to collaborate with a third-party marketing and sales organization, our ability to generate product revenues may be limited either in the United States or internationally.

If EXPAREL does not achieve broad market acceptance, the revenues that we generate from its sales will be limited.

Other than DepoCyt(e) and DepoDur, we have never commercialized a product candidate for any indication. Even if EXPAREL is approved by the appropriate regulatory authorities for marketing and sale, it may not gain acceptance among physicians, hospitals, patients and third-party payers. If our products for which we obtain regulatory approval do not gain an adequate level of acceptance, we may not generate significant additional product revenues or become profitable. Market acceptance of EXPAREL, and any other product candidates that we develop, license or acquire, by physicians, hospitals, patients and third-party payers will depend on a number of factors, some of which are beyond our control. The degree of market acceptance of EXPAREL will depend on a number of factors, including:

- limitations or warnings contained in the product's FDA-approved labeling, including potential limitations or warnings for EXPAREL that may be more restrictive than other pain management products;
- changes in the standard of care for the targeted indications for EXPAREL, which could reduce the marketing impact of any claims that we could make following FDA approval, if obtained;
- the relative convenience and ease of administration of EXPAREL;
- the prevalence and severity of adverse events associated with EXPAREL;
- cost of treatment versus economic and clinical benefit in relation to alternative treatments;
- the availability of adequate coverage or reimbursement by third parties, such as insurance companies and other healthcare payers, and by government healthcare programs, including Medicare and Medicaid;
- the extent and strength of our marketing and distribution of EXPAREL;
- the safety, efficacy and other potential advantages over, and availability of, alternative treatments, including, in the case of EXPAREL, a number of products already used to treat pain in the hospital setting; and
- distribution and use restrictions imposed by the FDA or to which we agree as part of a mandatory risk evaluation and mitigation strategy or voluntary risk management plan.

Our ability to effectively promote and sell EXPAREL and any other product candidates that we may develop, license or acquire in the hospital marketplace will also depend on pricing and cost effectiveness, including our ability to produce a product at a competitive price and achieve acceptance of the product onto hospital formularies, and our ability to obtain sufficient third-party coverage or reimbursement. Since many hospitals are members of group purchasing organizations, which leverage the purchasing power of a group of entities to obtain discounts based on the collective buying power of the group, our ability to attract customers in the hospital marketplace will also depend on our ability to effectively promote our product candidates to group purchasing organizations. We will also need to demonstrate acceptable evidence of safety and efficacy, as well as relative convenience and ease of administration. Market acceptance could be further limited depending on the prevalence and severity of any expected or unexpected adverse side effects associated with our product candidates. If our product candidates are approved but do not achieve an adequate level of acceptance by physicians, health care payers and patients, we may not generate sufficient revenue from these products, and we may not become or remain profitable. In addition, our efforts to educate the medical community and third-party payers on the benefits of our product candidates may require significant resources and may never be successful.

In addition, even if the medical community accepts that EXPAREL is safe and effective for its approved indications, physicians and patients may not immediately be receptive to EXPAREL and may be slow to adopt it as an accepted treatment of postsurgical pain. It is unlikely that any labeling approved by the FDA will contain claims that EXPAREL is safer or more effective than competitive products or will permit us to promote EXPAREL as being superior to competing products. Further, the availability of inexpensive generic forms of postsurgical pain management products may also limit acceptance of EXPAREL among physicians, patients and third-party payers. If EXPAREL is approved but does not achieve an adequate level of acceptance among physicians, patients and third-party payers, we may not generate meaningful revenues from EXPAREL and we may not become profitable.

We may rely on third parties to perform many essential services for any products that we commercialize, including services related to warehousing and inventory control, distribution, customer service, accounts receivable management, cash collection and adverse event reporting. If these third parties fail to perform as expected or to comply with legal and regulatory requirements, our ability to commercialize EXPAREL will be significantly impacted and we may be subject to regulatory sanctions.

We may retain third-party service providers to perform a variety of functions related to the sale and distribution of EXPAREL, key aspects of which will be out of our direct control. These service providers may provide key services related to warehousing and inventory control, distribution, customer service, accounts receivable management and cash collection, and, as a result, most of our inventory may be stored at a single warehouse maintained by one such service provider. If we retain this provider, we would substantially rely on them as well as other third-party providers that perform services for us, including entrusting our inventories of products to their care and handling. If these third-party service providers fail to comply with applicable laws and regulations, fail to meet expected deadlines, or otherwise do not carry out their contractual duties to us, or encounter physical or natural damage at their facilities, our ability to deliver product to meet commercial demand would be significantly impaired. In addition, we may engage third parties to perform various other services for us relating to adverse event reporting, safety database management, fulfillment of requests for medical information regarding our product candidates and related services. If the quality or accuracy of the data maintained by these service providers is insufficient, we could be subject to regulatory sanctions.

Distribution of our DepoFoam-based products requires cold-chain distribution provided by third parties, whereby a product must be maintained between specified temperatures. We and our partners have utilized similar cold-chain processes for DepoCyt(e) and DepoDur. If a problem occurs in our cold-chain distribution processes, whether through our failure to maintain our products or product candidates between specified temperatures or because of a failure of one of our distributors or partners to maintain the temperature of the products or product candidates, the product or product candidate could be adulterated and rendered unusable. This could have a material adverse effect on our business, financial condition, results of operations and reputation.

We will need to increase the size of our organization, and we may experience difficulties in managing growth.

As of November 30, 2010, we had 81 employees. We will need to substantially expand our managerial, commercial, financial, manufacturing and other personnel resources in order to manage our operations and prepare for the commercialization of EXPAREL, if approved. Our management, personnel, systems and facilities currently in place may not be adequate to support this future growth. In addition, we may not be able to recruit and retain qualified personnel in the future, particularly for sales and marketing positions, due to competition for personnel among pharmaceutical businesses, and the failure to do so could have a significant negative impact on our future product revenues and business results. Our need to effectively manage our operations, growth and various projects requires that we:

- continue the hiring and training of an effective commercial organization in anticipation of the potential approval of EXPAREL, and establish appropriate systems, policies and infrastructure to support that organization;
- ensure that our consultants and other service providers successfully carry out their contractual obligations, provide high quality results, and meet expected deadlines;
- continue to carry out our own contractual obligations to our licensors and other third parties; and
- continue to improve our operational, financial and management controls, reporting systems and procedures.

We may be unable to successfully implement these tasks on a larger scale and, accordingly, may not achieve our development and commercialization goals.

We may not be able to manage our business effectively if we are unable to attract and retain key personnel.

We may not be able to attract or retain qualified management and commercial, scientific and clinical personnel due to the intense competition for qualified personnel among biotechnology, pharmaceutical and other businesses, particularly in the San Diego, California and Northern New Jersey areas. If we are not able to attract and retain necessary personnel to accomplish our business objectives, we may experience constraints that will significantly impede the achievement of our development objectives, our ability to raise additional capital and our ability to implement our business strategy.

Our industry has experienced a high rate of turnover of management personnel in recent years. We are highly dependent on the development and manufacturing expertise for our DepoFoam delivery technology and the commercialization expertise of certain members of our senior management. In particular, we are highly dependent on the skills and leadership of our management team, including David Stack, our president and chief executive officer. If we lose one or more of these key employees, our ability to successfully implement our business strategy could be seriously harmed. Replacing key employees may be difficult and may take an extended period of time because of the limited number of individuals in our industry with the breadth of skills and experience required to develop, gain regulatory approval of and commercialize products successfully. Competition to hire from this limited pool is intense, and we may be unable to hire, train, retain or motivate additional key personnel.

Mr. Stack, our chief executive officer, is also a managing director at MPM Capital and a managing partner of Stack Pharmaceuticals, Inc. Although Mr. Stack has devoted substantially all of his time to our company over the past 12 months, Mr. Stack’s responsibilities at MPM Capital and Stack Pharmaceuticals, Inc. might require that he spend less than all his time managing our company in the future.

Under our consulting agreement with Gary Patou, M.D., our chief medical officer, he is not required to devote all of his time to our company. We cannot assure you that Dr. Patou’s time commitment to us will be sufficient to perform the duties of our chief medical officer.

We face potential product liability exposure, and if successful claims are brought against us, we may incur substantial liability for DepoCyt(e), DepoDur, EXPAREL or other product candidates that we may develop and may have to limit their commercialization.

The use of DepoCyt(e), DepoDur, EXPAREL and any other product candidates that we may develop, license or acquire in clinical trials and the sale of any products for which we obtain regulatory approval expose us to the risk of product liability claims. Product liability claims might be brought against us by consumers, health care providers or others using, administering or selling our products. If we cannot successfully defend ourselves against these claims, we will incur substantial liabilities. Regardless of merit or eventual outcome, liability claims may result in:

- loss of revenue from decreased demand for our products and/or product candidates;
- impairment of our business reputation or financial stability;
- costs of related litigation;
- substantial monetary awards to patients or other claimants;
- diversion of management attention;
- loss of revenues;
- withdrawal of clinical trial participants and potential termination of clinical trial sites or entire clinical programs; and
- the inability to commercialize our product candidates.

We have obtained limited product liability insurance coverage for our products and our clinical trials with a $10.0 million annual aggregate coverage limit. However, our insurance coverage may not reimburse us or may not be sufficient to reimburse us for any expenses or losses we may suffer. Moreover, insurance coverage is becoming increasingly expensive, and, in the future, we may not be able to maintain insurance coverage at a reasonable cost or in sufficient amounts to protect us against losses due to liability. We intend to expand our insurance coverage to include the sale of additional commercial products if we obtain FDA approval for our product candidates in development, but we may be unable to obtain commercially reasonable product liability insurance for any products approved for marketing, or at all. On occasion, large judgments have been awarded in class action lawsuits based on drugs that had unanticipated side effects. A successful product liability claim or series of claims brought against us could cause our stock price to fall and, if judgments exceed our insurance coverage, could decrease our cash and adversely affect our business.

We are the sole manufacturer of DepoCyt(e) and DepoDur and we only have two FDA approved manufacturing facilities. Our inability to continue manufacturing adequate supplies of DepoCyt(e) and DepoDur could result in a disruption in the supply of DepoCyt(e) and DepoDur to our partners.

We are the sole manufacturer of DepoCyt(e) and DepoDur. We develop and manufacture DepoCyt(e) and DepoDur at our facilities in San Diego, California, which are the only FDA approved sites for manufacturing DepoCyt(e) and DepoDur in the world. Our San Diego facilities are subject to the risks of a natural or man-made disaster, including earthquakes and fires, or other business disruption. There can be no assurance that we would be able to meet our requirements for DepoCyt(e) and DepoDur if there were a catastrophic event or failure of our current manufacturing system. If we are required to change or add a new manufacturer or supplier, the process would likely require prior FDA and/or equivalent foreign regulatory authority approval, and would be very time consuming. An inability to continue manufacturing adequate supplies of DepoCyt(e) and DepoDur at our facility in San Diego, California could result in a disruption in the supply of DepoCyt(e) and DepoDur to our partners and breach of our contractual obligations.

If we fail to manufacture DepoCyt(e) and DepoDur we will lose revenues and be in breach of our licensing obligations.

We have licensed the commercial rights in specified territories of the world to market and sell our products, DepoCyt(e) and DepoDur. Under those licenses we have obligations to manufacture commercial product for our commercial partners. If we are unable to timely fill the orders placed with us by our commercial partners, we will potentially lose revenue and be in breach of our licensing obligations under the agreements. In addition, we would be in breach of our obligations to comply with our supply and distribution agreements for DepoCyt(e) and DepoDur, which would in turn be a breach of our obligations under our amended and restated royalty interests assignment agreement, or the Amended and Restated Royalty Interests Assignment Agreement, with Royalty Securitization Trust I, an affiliate of Paul Capital Advisors, LLC, or Paul Capital. See "Risk Factors—Risks Related to Our Financial Condition and Capital Requirements—Under our financing arrangement with Paul Capital, upon the occurrence of certain events, Paul Capital may require us to repurchase the right to receive royalty payments that we assigned to it, or may foreclose on certain assets that secure our obligations to Paul Capital. Any exercise by Paul Capital of its right to cause us to repurchase the assigned right or any foreclosure by Paul Capital would adversely affect our results of operations and our financial condition."

We rely on third parties for the timely supply of specified raw materials and equipment for the manufacture of DepoCyt(e) and DepoDur. Although we actively manage these third-party relationships to provide continuity and quality, some events which are beyond our control could result in the complete or partial failure of these goods and services. Any such failure could have a material adverse effect on our financial condition and operations.

The manufacture of pharmaceutical products requires significant expertise and capital investment, including the development of advanced manufacturing techniques and process controls, and the use of specialized processing equipment. We must comply with federal, state and foreign regulations, including current Good Manufacturing Practices, or cGMP, regulations and in the case of the manufacturing of DepoDur required government licenses regarding the storage and use of controlled substances. Any failure to comply with applicable regulations may result in fines and civil penalties, suspension of production, suspension or delay in product approval for sale, product seizure or recall, or withdrawal of product approval, and would limit the availability of our product. Any manufacturing defect or error discovered after products have been produced and distributed could result in even more significant consequences, including costly recall procedures, re-stocking costs, damage to our reputation, product liability claims and litigation.

Our future growth depends on our ability to identify, develop, acquire or in-license products and if we do not successfully identify develop, acquire or in-license related product candidates or integrate them into our operations, we may have limited growth opportunities.

An important part of our business strategy is to continue to develop a pipeline of product candidates by developing, acquiring or in-licensing products, businesses or technologies that we believe are a strategic fit with our focus on the hospital marketplace. However, these business activities may entail numerous operational and financial risks, including:

- difficulty or inability to secure financing to fund development activities for such development, acquisition or in-licensed products or technologies;
- incurrence of substantial debt or dilutive issuances of securities to pay for development, acquisition or in-licensing of new products;
- disruption of our business and diversion of our management's time and attention;
- higher than expected development, acquisition or in-license and integration costs;
- exposure to unknown liabilities;

- difficulty and cost in combining the operations and personnel of any acquired businesses with our operations and personnel;
- inability to retain key employees of any acquired businesses;
- difficulty in managing multiple product development programs; and
- inability to successfully develop new products or clinical failure.

We have limited resources to identify and execute the development, acquisition or in-licensing of products, businesses and technologies and integrate them into our current infrastructure. We may compete with larger pharmaceutical companies and other competitors in our efforts to establish new collaborations and in-licensing opportunities. These competitors likely will have access to greater financial resources than us and may have greater expertise in identifying and evaluating new opportunities. Moreover, we may devote resources to potential development, acquisitions or in-licensing opportunities that are never completed, or we may fail to realize the anticipated benefits of such efforts.

Our business involves the use of hazardous materials and we must comply with environmental laws and regulations, which can be expensive and restrict how we do business.

Our manufacturing activities involve the controlled storage, use and disposal of hazardous materials, including the components of our products, product candidates and other hazardous compounds. We are subject to federal, state and local laws and regulations governing the use, manufacture, storage, handling, release and disposal of, and exposure to, these hazardous materials. Violation of these laws and regulations could lead to substantial fines and penalties. Although we believe that our safety procedures for handling and disposing of these materials comply with the standards prescribed by these laws and regulations, we cannot eliminate the risk of accidental contamination or injury from these materials. In the event of an accident, state or federal authorities may curtail our use of these materials and interrupt our business operations. In addition, we could become subject to potentially material liabilities relating to the investigation and cleanup of any contamination, whether currently unknown or caused by future releases.

Our business and operations would suffer in the event of system failures.

Despite the implementation of security measures, our internal computer systems are vulnerable to damage from computer viruses, unauthorized access, natural disasters, terrorism, war and telecommunication and electrical failures. Any system failure, accident or security breach that causes interruptions in our operations could result in a material disruption of our product development programs. For example, the loss of clinical trial data from completed clinical trials for EXPAREL could result in delays in our regulatory approval efforts and significantly increase our costs to recover or reproduce the data. To the extent that any disruption or security breach results in a loss or damage to our data or applications, or inappropriate disclosure of confidential or proprietary information, we may incur liability and the further development of our product candidates may be delayed.

Any collaboration arrangements that we may enter into in the future may not be successful, which could adversely affect our ability to develop and commercialize our product candidates.

Our business model is to commercialize our product candidates in the United States and generally to seek collaboration arrangements with pharmaceutical or biotechnology companies for the development or commercialization of our product candidates in the rest of the world. Accordingly, we may enter into collaboration arrangements in the future on a selective basis. Any future collaboration arrangements that we enter into may not be successful. The success of our collaboration arrangements will depend heavily on the efforts and activities of our collaborators. Collaborators generally have significant discretion in determining the efforts and resources that they will apply to these collaboration arrangements.

Disagreements between parties to a collaboration arrangement regarding clinical development and commercialization matters can lead to delays in the development process or commercializing the applicable product candidate and, in some cases, termination of the collaboration arrangement. These disagreements can be difficult to resolve if neither of the parties has final decision making authority.

Collaborations with pharmaceutical companies and other third parties often are terminated or allowed to expire by the other party. Any such termination or expiration would adversely affect us financially and could harm our business reputation.

Regulatory Risks

We may not receive regulatory approval for EXPAREL or any of our other product candidates, or the approval may be delayed for various reasons, including successful challenges to the FDA's interpretation of Section 505(b)(2), which would have a material adverse effect on our business and financial condition.

We may experience delays in our efforts to obtain regulatory approval from the FDA for EXPAREL or any of our other product candidates, and there can be no assurance that such approval will not be delayed, or that the FDA will ultimately approve these product candidates.

The FDA may require additional data or information as part of its review of our NDA. If additional stability data or other manufacturing data is required, such data may not be available for a significant amount of time, which could further delay the approval of our NDA for EXPAREL and cause us to incur significant additional expenses. The FDA may also require us to study EXPAREL in pediatric patients. Although we have requested a waiver for patients under two years of age and a deferral for patients under 18 years of age, there can be no assurance that the FDA will grant our waiver or deferral and we may be required to perform these additional pediatric trials, which could be expensive and time consuming.

Our NDA approval is subject to a pre-approval inspection of our production facilities for manufacturing for EXPAREL. Our NDA approval for EXPAREL could be delayed if the FDA does not agree that the registration batches submitted in our NDA are fully representative of the manufacturing process and thus meet the requirements for batches that may be used to provide evidence of stability for this product candidate. In such an event, we would be required to potentially manufacture new batches in order to provide the necessary stability data which could delay FDA approval and cause us to incur significant additional expenses.

Additionally, our NDA for EXPAREL may not be approved, or approval may be delayed, as a result of changes in FDA policies for drug approval. For example, although many products have been approved by the FDA in recent years under Section 505(b)(2) under the Federal Food, Drug and Cosmetic Act, objections have been raised by certain brand-name pharmaceutical companies and others to the FDA's interpretation of Section 505(b)(2). If challenges to the FDA's interpretation of Section 505(b)(2) are successful, the agency may be required to change its interpretation, which could delay or prevent the approval of our NDAs for EXPAREL or any of our other product candidates.

Any significant delay in re-submitting an NDA and obtaining FDA approval for EXPAREL, or a non-approval, could negatively impact our ability to ultimately obtain marketing authorization for this product candidate and would have a material adverse effect on our business and financial condition.

If EXPAREL is approved and we fail to manufacture the product in sufficient quantities and at acceptable quality and pricing levels, or to fully comply with cGMP regulations, we may face delays in the commercialization of this product candidate or be unable to meet market demand, and may lose potential revenues.

The manufacture of pharmaceutical products requires significant expertise and capital investment, including the development of advanced manufacturing techniques and process controls, and the use of specialized processing equipment. In order to meet anticipated demand for EXPAREL if this product candidate is approved,

we plan to install additional specialized processing equipment to expand the manufacturing capacity for EXPAREL in our facilities. This processing equipment is designed based on our specifications and is not generally commercially available. If we are not able to expand our capacity to manufacture EXPAREL on time or at all, our ability to meet our customers' product demands may be materially and adversely impacted.

We purchase raw materials and components from various suppliers in order to manufacture EXPAREL. If we are unable to source the required raw materials from our suppliers, we may experience delays in manufacturing EXPAREL and may not be able to meet our customers' demands for EXPAREL.

In addition, we must comply with federal, state and foreign regulations, including cGMP requirements enforced by the FDA through its facilities inspection program. Any failure to comply with applicable regulations may result in fines and civil penalties, suspension of production, suspension or delay in product approval, product seizure or recall, or withdrawal of product approval, and would limit the availability of our product. Any manufacturing defect or error discovered after products have been produced and distributed could result in even more significant consequences, including costly recall procedures, re-stocking costs, damage to our reputation and potential for product liability claims.

If we are unable to produce the required commercial quantities of EXPAREL to meet market demand for EXPAREL on a timely basis or at all, or if we fail to comply with applicable laws for the manufacturing of EXPAREL, we will suffer damage to our reputation and commercial prospects and we will lose potential revenues.

The FDA may determine that EXPAREL or any of our other product candidates have undesirable side effects that could delay or prevent their regulatory approval or commercialization.

If concerns are raised regarding the safety of a new drug as a result of undesirable side effects identified during clinical testing, the FDA may decline to approve the drug at the end of the NDA review period or issue a letter requesting additional data or information prior to making a final decision regarding whether or not to approve the drug. The number of such requests for additional data or information issued by the FDA in recent years has increased, and resulted in substantial delays in the approval of several new drugs. Undesirable side effects caused by EXPAREL or any other product candidate could also result in the inclusion of unfavorable information in our product labeling, denial of regulatory approval by the FDA or other regulatory authorities for any or all targeted indications, and in turn prevent us from commercializing and generating revenues from the sale of EXPAREL or any other product candidate.

For example, the side effects observed in the EXPAREL clinical trials completed to date include nausea and vomiting. In addition, the class of drugs that EXPAREL belongs to has been associated with nervous system and cardiovascular toxicities at high doses. We cannot be certain that these side effects and others will not be observed in the future, or that the FDA will not require additional trials or impose more severe labeling restrictions due to these side effects or other concerns. The active component of EXPAREL is bupivacaine and bupivacaine infusions have been associated with the destruction of articular cartilage, or chondrolysis. Chondrolysis has not been observed in clinical trials of EXPAREL, but we cannot be certain that this side effect will not be observed in the future.

If EXPAREL or any of our other product candidates receives regulatory approval and we or others later identify undesirable side effects caused by such products:

- regulatory authorities may require the addition of unfavorable labeling statements, specific warnings or a contraindication;
- regulatory authorities may suspend or withdraw their approval of the product, or require it to be removed from the market;
- regulatory authorities may impose restrictions on the distribution or use of the product;

- we may be required to change the way the product is administered, conduct additional clinical trials or change the labeling of the product;
- we may be subject to product liability claims and litigation; and
- our reputation may suffer.

Any of these events could prevent us from achieving or maintaining market acceptance of EXPAREL or any of our other product candidates and could substantially increase our commercialization costs and expenses, which in turn could delay or prevent us from generating significant revenues from its sale.

Regulatory approval for any approved product is limited by the FDA to those specific indications and conditions for which clinical safety and efficacy have been demonstrated.

Any regulatory approval is limited to those specific diseases and indications for which a product is deemed to be safe and effective by the FDA. In addition to the FDA approval required for new formulations, any new indication for an approved product also requires FDA approval. If we are not able to obtain FDA approval for any desired future indications for our products and product candidates, our ability to effectively market and sell our products may be reduced and our business may be adversely affected.

While physicians may choose to prescribe drugs for uses that are not described in the product's labeling and for uses that differ from those tested in clinical studies and approved by the regulatory authorities, our ability to promote the products is limited to those indications that are specifically approved by the FDA. These "off-label" uses are common across medical specialties and may constitute an appropriate treatment for some patients in varied circumstances. Regulatory authorities in the United States generally do not regulate the behavior of physicians in their choice of treatments. Regulatory authorities do, however, restrict communications by pharmaceutical companies on the subject of off-label use. If our promotional activities fail to comply with these regulations or guidelines, we may be subject to warnings from, or enforcement action by, these authorities. In addition, our failure to follow FDA rules and guidelines relating to promotion and advertising may cause the FDA to issue warning letters or untitled letters, suspend or withdraw an approved product from the market, require a recall or institute fines or civil fines, or could result in disgorgement of money, operating restrictions, injunctions or criminal prosecution, any of which could harm our business.

If we are unable to complete pre-commercialization manufacturing development activities for EXPAREL on a timely basis or fail to comply with stringent regulatory requirements, we will face delays in our ability to obtain regulatory approval for, and to commercialize, this product candidate, and our costs will increase.

As part of the process for obtaining regulatory approval, we must demonstrate that the facilities, equipment and processes used to manufacture EXPAREL are capable of consistently producing a product that meets all applicable quality criteria, and that is comparable to the product that was used in our clinical trials. We must also provide the FDA with information regarding the validation of the manufacturing facilities, equipment and processes and data supporting the stability of our product candidate. If we are not in compliance with cGMP requirements, the approval of our NDA may be delayed, existing product batches may be compromised, and we may experience delays in the availability of this product candidate for commercial distribution.

Even if EXPAREL receives regulatory approval, it and any other products we may market, including DepoCyt(e) and DepoDur, will remain subject to substantial regulatory scrutiny.

EXPAREL, DepoCyt(e) and DepoDur and any other product candidates that we may develop, license or acquire will also be subject to ongoing FDA requirements with respect to the manufacturing, labeling, packaging, storage, distribution, advertising, promotion, record-keeping and submission of safety and other post-market information on the drug. In addition, the subsequent discovery of previously unknown problems with a product may result in restrictions on the product, including withdrawal of the product from the market.

If EXPAREL, DepoCyt(e) and DepoDur or any other product that we may develop, license or acquire fails to comply with applicable regulatory requirements, such as cGMP regulations, a regulatory agency may:

- issue warning letters or untitled letters;
- require us to enter into a consent decree, which can include imposition of various fines, reimbursements for inspection costs, required due dates for specific actions and penalties for noncompliance;
- impose fines and other civil or criminal penalties;
- suspend regulatory approval;
- suspend any ongoing clinical trials;
- refuse to approve pending applications or supplements to approved applications filed by us;
- impose restrictions on operations, including costly new manufacturing requirements; or
- seize or detain products or require a product recall.

For example, the FDA informed us that certain adverse event reports related to DepoCyt(e) and DepoDur submitted to us during the previous two years were not submitted by us to the FDA within the required 15-day timeframe for reporting such events. In response to the FDA's observations, we enhanced our reporting procedures and hired additional personnel to support our pharmacovigilance efforts.

If we fail to comply with federal and state healthcare laws, including fraud and abuse and health information privacy and security laws, we could face substantial penalties and our business, results of operations, financial condition and prospects could be adversely affected.

As a pharmaceutical company, even though we do not and will not control referrals of healthcare services or bill directly to Medicare, Medicaid or other third-party payers, certain federal and state healthcare laws and regulations pertaining to fraud and abuse and patients' rights are and will be applicable to our business. We would be subject to healthcare fraud and abuse and patient privacy regulation by both the federal government and the states in which we conduct our business. The laws that may affect our ability to operate include:

- the federal Anti-Kickback Statute, which constrains our marketing practices, educational programs, pricing policies, and relationships with healthcare providers or other entities, by prohibiting, among other things, soliciting, receiving, offering or paying remuneration, directly or indirectly, to induce, or in return for, the purchase or recommendation of an item or service reimbursable under a federal healthcare program, such as the Medicare and Medicaid programs;
- federal civil and criminal false claims laws and civil monetary penalty laws, which prohibit, among other things, individuals or entities from knowingly presenting, or causing to be presented, claims for payment from Medicare, Medicaid, or other third-party payers that are false or fraudulent;
- the federal Health Insurance Portability and Accountability Act of 1996, or HIPAA, which created new federal criminal statutes that prohibit executing a scheme to defraud any healthcare benefit program and making false statements relating to healthcare matters;
- federal physician self-referral laws, such as the Stark law, which prohibit a physician from making a referral to a provider of certain health services with which the physician or the physician's family member has a financial interest, and prohibit submission of a claim for reimbursement pursuant to a prohibited referral;
- HIPAA, as amended by the Health Information Technology and Clinical Health Act, or HITECH, and its implementing regulations, which imposes certain requirements relating to the privacy, security and transmission of individually identifiable health information; and
- state law equivalents of each of the above federal laws, such as anti-kickback and false claims laws which may apply to items or services reimbursed by any third-party payer, including commercial

insurers, and state laws governing the privacy and security of health information in certain circumstances, many of which differ from each other in significant ways and may not have the same effect, thus complicating compliance efforts.

Because of the breadth of these laws and the narrowness of the statutory exceptions and safe harbors available under the U.S. federal Anti-Kickback Statute, it is possible that some of our business activities could be subject to challenge under one or more of such laws. Recently, several pharmaceutical and other healthcare companies have been prosecuted under the federal false claims laws for allegedly inflating drug prices they report to pricing services, which in turn are used by the government to set Medicare and Medicaid reimbursement rates, and for allegedly providing free product to customers with the expectation that the customers would bill federal programs for the product. In addition, certain marketing practices, including off-label promotion, may also violate false claims laws. To the extent that any product we make is sold in a foreign country, we may be subject to similar foreign laws and regulations. If we or our operations are found to be in violation of any of the laws described above or any other governmental regulations that apply to us, we may be subject to penalties, including civil and criminal penalties, damages, fines, exclusion from participation in U.S. federal or state health care programs, and the curtailment or restructuring of our operations. Any penalties, damages, fines, curtailment or restructuring of our operations could materially adversely affect our ability to operate our business and our financial results. Although compliance programs can mitigate the risk of investigation and prosecution for violations of these laws, the risks cannot be entirely eliminated. Any action against us for violation of these laws, even if we successfully defend against it, could cause us to incur significant legal expenses and divert our management's attention from the operation of our business. Moreover, achieving and sustaining compliance with applicable federal and state privacy, security and fraud laws may prove costly.

The design, development, manufacture, supply, and distribution of DepoCyt(e) and DepoDur is highly regulated and technically complex.

The design, development, manufacture, supply, and distribution of our products DepoCyt(e) and DepoDur is technically complex and highly regulated. We, along with our third-party providers, must comply with all applicable regulatory requirements of the FDA and foreign authorities. In addition, the facilities used to manufacture, store, and distribute our products are subject to inspection by regulatory authorities at any time to determine compliance with applicable regulations.

The manufacturing techniques and facilities used for the manufacture and supply of our products must be operated in conformity with cGMP. In complying with cGMP requirements, we, along with our suppliers, must continually expend time, money and effort in production, record keeping, and quality assurance and control to ensure that our products meet applicable specifications and other requirements for safety, efficacy and quality. In addition, we, along with our suppliers, are subject to unannounced inspections by the FDA and other regulatory authorities.

Any failure to comply with regulatory and other legal requirements applicable to the manufacture, supply and distribution of our products could lead to remedial action (such as recalls), civil and criminal penalties and delays in manufacture, supply and distribution of our products. For instance, in connection with routine inspections of one of our manufacturing facilities in April and May 2008, the FDA issued a Form 483 Notice of Inspectional Observations identifying certain deficiencies with respect to our laboratory control system for Depocyt(e). As a result, we did not release new lots of Depocyt(e) for a limited time period as we validated a new assay. We also submitted the new assay to the FDA in July 2008 and in August 2008 we began releasing new lots of DepoCyt(e).

If we fail to comply with the extensive regulatory requirements to which we and our products DepoCyt(e) and DepoDur are subject, such products could be subject to restrictions or withdrawal from the market and we could be subject to penalties.

The testing, manufacturing, labeling, safety, advertising, promotion, storage, sales, distribution, export and marketing, among other things, of our products DepoCyt(e) and DepoDur are subject to extensive regulation by

governmental authorities in the United States and elsewhere throughout the world. Quality control and manufacturing procedures regarding DepoCyt(e) and DepoDur must conform to cGMP. Regulatory authorities, including the FDA, periodically inspect manufacturing facilities to assess compliance with cGMP. Our failure or the failure of our contract manufacturers to comply with the laws administered by the FDA or other governmental authorities could result in, among other things, any of the following:

- product recall or seizure;
- suspension or withdrawal of an approved product from the market;
- interruption of production;
- operating restrictions;
- warning letters;
- injunctions;
- fines and other monetary penalties;
- criminal prosecutions; and
- unanticipated expenditures.

If the government or third-party payers fail to provide coverage and adequate coverage and payment rates for DepoCyt(e), DepoDur, EXPAREL or any future products we may develop, license or acquire, if any, or if hospitals choose to use therapies that are less expensive, our revenue and prospects for profitability will be limited.

In both domestic and foreign markets, sales of our existing products and any future products will depend in part upon the availability of coverage and reimbursement from third-party payers. Such third-party payers include government health programs such as Medicare and Medicaid, managed care providers, private health insurers and other organizations. Coverage decisions may depend upon clinical and economic standards that disfavor new drug products when more established or lower cost therapeutic alternatives are already available or subsequently become available. Assuming coverage is approved, the resulting reimbursement payment rates might not be adequate. In particular, many U.S. hospitals receive a fixed reimbursement amount per procedure for certain surgeries and other treatment therapies they perform. Because this amount may not be based on the actual expenses the hospital incurs, hospitals may choose to use therapies which are less expensive when compared to our product candidates. Accordingly, DepoCyt(e), DepoDur, EXPAREL or any other product candidates that we may develop, in-license or acquire, if approved, will face competition from other therapies and drugs for these limited hospital financial resources. We may need to conduct post-marketing studies in order to demonstrate the cost-effectiveness of any future products to the satisfaction of hospitals, other target customers and their third-party payers. Such studies might require us to commit a significant amount of management time and financial and other resources. Our future products might not ultimately be considered cost-effective. Adequate third-party coverage and reimbursement might not be available to enable us to maintain price levels sufficient to realize an appropriate return on investment in product development.

Third party payers, whether foreign or domestic, or governmental or commercial, are developing increasingly sophisticated methods of controlling healthcare costs. In addition, in the United States, no uniform policy of coverage and reimbursement for drug products exists among third-party payers. Therefore, coverage and reimbursement for drug products can differ significantly from payer to payer.

Further, we believe that future coverage and reimbursement will likely be subject to increased restrictions both in the United States and in international markets. Third-party coverage and reimbursement for our products or product candidates for which we receive regulatory approval may not be available or adequate in either the United States or international markets, which could have a negative effect on our business, results of operations, financial condition and prospects.

The FDA may not approve our proposed trade name, EXPAREL.

EXPAREL, or any other trade name that we intend to use for extended-release liposome injection of bupivacaine, must be approved by the FDA irrespective of whether we have secured a formal trademark registration from the U.S. Patent and Trademark Office. The FDA conducts a rigorous review of proposed product names, and may reject a product name if it believes that the name inappropriately implies medical claims or if it poses the potential for confusion with other product names. The FDA will not approve this trade name until the NDA for EXPAREL is approved. If the FDA determines that the trade names of other products that are approved prior to the approval of extended-release liposome injection of bupivacaine may present a risk of confusion with our proposed trade name, the FDA may not ultimately approve EXPAREL. If our trade name, EXPAREL, is rejected, we will lose the benefit of any brand equity that may already have been developed for this product candidate, as well as the benefit of our existing trademark applications for this trade name. If the FDA does not approve the EXPAREL trade name, we may be required to launch this product candidate without a brand name, and our efforts to build a successful brand identity for, and commercialize, this product candidate may be adversely impacted.

We are subject to new legislation, regulatory proposals and healthcare payer initiatives that may increase our costs of compliance and adversely affect our ability to market our products, obtain collaborators and raise capital.

In March 2010, the President signed the Patient Protection and Affordable Care Act, as amended by the Health Care and Education Affordability Reconciliation Act, which we refer to collectively as the Health Care Reform Law. The Health Care Reform Law makes extensive changes to the delivery of health care in the United States. Among the provisions of the Health Care Reform Law of greatest importance to the pharmaceutical industry are the following:

- an annual, nondeductible fee on any entity that manufactures or imports certain branded prescription drugs and biologic agents, apportioned among these entities according to their market share in certain government healthcare programs, beginning in 2011;
- an increase in the statutory minimum rebates a manufacturer must pay under the Medicaid Drug Rebate Program, retroactive to January 1, 2010, to 23.1% and 13% of the average manufacturer price for most branded and generic drugs, respectively;
- a new Medicare Part D coverage gap discount program, in which manufacturers must agree to offer 50% point-of-sale discounts off negotiated prices of applicable brand drugs to eligible beneficiaries during their coverage gap period, as a condition for the manufacturer's outpatient drugs to be covered under Medicare Part D, beginning in 2011;
- extension of manufacturers' Medicaid rebate liability to covered drugs dispensed to individuals who are enrolled in Medicaid managed care organizations, effective March 23, 2010;
- expansion of eligibility criteria for Medicaid programs by, among other things, allowing states to offer Medicaid coverage to additional individuals beginning in April 2010 and by adding new mandatory eligibility categories for certain individuals with income at or below 133% of the Federal Poverty Level beginning in 2014, thereby potentially increasing both the volume of sales and manufacturers' Medicaid rebate liability;
- expansion of the entities eligible for discounts under the Public Health Service pharmaceutical pricing program, effective in January 2010;
- new requirements to report certain financial arrangements with physicians and others, including reporting any "transfer of value" made or distributed to prescribers and other healthcare providers and reporting any investment interests held by physicians and their immediate family members during each calendar year beginning in 2012, with reporting starting in 2013;
- a new requirement to annually report drug samples that manufacturers and distributors provide to physicians, effective April 1, 2012;

- a licensure framework for follow-on biologic products;
- a new Patient-Centered Outcomes Research Institute to oversee, identify priorities in, and conduct comparative clinical effectiveness research, along with funding for such research;
- creation of the Independent Payment Advisory Board which, beginning in 2014, will have authority to recommend certain changes to the Medicare program that could result in reduced payments for prescription drugs and those recommendations could have the effect of law even if Congress does not act on the recommendations; and
- establishment of a Center for Medicare Innovation at the Centers for Medicare & Medicaid Services to test innovative payment and service delivery models to lower Medicare and Medicaid spending, potentially including prescription drug spending, beginning by January 1, 2011.

These measures could result in decreased net revenues from our pharmaceutical products and decrease potential returns from our development efforts. Many of the details regarding the implementation of the Health Care Reform Law are yet to be determined, and at this time, the full effect that the Health Care Reform Law would have on our business remains unclear.

In addition, there have been a number of other legislative and regulatory proposals aimed at changing the pharmaceutical industry. In particular, California has enacted legislation that requires development of an electronic pedigree to track and trace each prescription drug at the saleable unit level through the distribution system. California's electronic pedigree requirement is scheduled to take effect in January 2015. Compliance with California and future federal or state electronic pedigree requirements may increase our operational expenses and impose significant administrative burdens. As a result of these and other new proposals, we may determine to change our current manner of operation, provide additional benefits or change our contract arrangements, any of which could have a material adverse effect on our business, financial condition and results of operations.

Public concern regarding the safety of drug products such as EXPAREL could delay or limit our ability to obtain regulatory approval, result in the inclusion of unfavorable information in our labeling, or require us to undertake other activities that may entail additional costs.

In light of widely publicized events concerning the safety risk of certain drug products, the FDA, members of Congress, the Government Accountability Office, medical professionals and the general public have raised concerns about potential drug safety issues. These events have resulted in the withdrawal of drug products, revisions to drug labeling that further limit use of the drug products and the establishment of risk management programs that may, for example, restrict distribution of drug products after approval. The Food and Drug Administration Amendments Act of 2007, or FDAAA, grants significant expanded authority to the FDA, much of which is aimed at improving the safety of drug products before and after approval. In particular, the FDAAA authorizes the FDA to, among other things, require post-approval studies and clinical trials, mandate changes to drug labeling to reflect new safety information and require risk evaluation and mitigation strategies for certain drugs, including certain currently approved drugs. It also significantly expands the federal government's clinical trial registry and results databank, which we expect will result in significantly increased government oversight of clinical trials. Under the FDAAA, companies that violate these and other provisions of the new law are subject to substantial civil monetary penalties, among other regulatory, civil and criminal penalties. The increased attention to drug safety issues may result in a more cautious approach by the FDA in its review of data from our clinical trials. Data from clinical trials may receive greater scrutiny, particularly with respect to safety, which may make the FDA or other regulatory authorities more likely to require additional preclinical studies or clinical trials. If the FDA requires us to conduct additional preclinical studies or clinical trials prior to approving EXPAREL, our ability to obtain approval of this product candidate will be delayed. If the FDA requires us to provide additional clinical or preclinical data following the approval of EXPAREL, the indications for which this product candidate is approved may be limited or there may be specific warnings or limitations on dosing, and our efforts to commercialize EXPAREL may be otherwise adversely impacted.

Our product, DepoDur, is subject to regulation by the Drug Enforcement Agency and such regulation may affect the sale of DepoDur.

Products used to treat and manage pain, especially in the case of opioids, are from time to time subject to negative publicity, including illegal use, overdoses, abuse, diversion, serious injury and death. These events have led to heightened regulatory scrutiny. Controlled substances are classified by the DEA as Schedule I through V substances, with Schedule I substances being prohibited for sale in the United States, Schedule II substances considered to present the highest risk of abuse and Schedule V substances being considered to present the lowest relative risk of abuse. DepoDur contains morphine, and it is regulated as a Schedule II controlled substance. Despite the strict regulations on the marketing, prescribing and dispensing of such substances, illicit use and abuse of morphine does occur. Thus, the marketing of DepoDur by our partners may generate public controversy that may adversely affect sales of DepoDur and decrease the revenue we receive from the sale of DepoDur.

In addition, we and our contract manufacturers are subject to ongoing DEA regulatory obligations, including, among other things, annual registration renewal, security, recordkeeping, theft and loss reporting, periodic inspection and annual quota allotments for the raw material for commercial production of our products. The DEA, and some states, conduct periodic inspections of registered establishments that handle controlled substances. Facilities that conduct research, manufacture, store, distribute, import or export controlled substances must be registered to perform these activities and have the security, control and inventory mechanisms required by the DEA to prevent drug loss and diversion. Failure to maintain compliance, particularly non-compliance resulting in loss or diversion, can result in regulatory action that could have a material adverse effect on our business, results of operations, financial condition and prospects. The DEA may seek civil penalties, refuse to renew necessary registrations, or initiate proceedings to revoke those registrations. In certain circumstances, violations could lead to criminal proceedings.

Individual states also have controlled substances laws. Though state controlled substances laws often mirror federal law, because the states are separate jurisdictions, they may separately schedule drugs, as well. While some states automatically schedule a drug when the DEA does so, in other states there has to be rulemaking or a legislative action. State scheduling may delay commercial sale of any controlled substance drug product for which we obtain federal regulatory approval and adverse scheduling could have a material adverse effect on the commercial attractiveness of such product. We or our partners must also obtain separate state registrations in order to be able to obtain, handle, and distribute controlled substances for clinical trials or commercial sale, and failure to meet applicable regulatory requirements could lead to enforcement and sanctions from the states in addition to those from the DEA or otherwise arising under federal law.

Risks Related to Intellectual Property

The patents and the patent applications that we have covering our products are limited to specific injectable formulations, processes and uses of drugs encapsulated in our DepoFoam drug delivery technology and our market opportunity for our product candidates may be limited by the lack of patent protection for the active ingredient itself and other formulations and delivery technology and systems that may be developed by competitors.

The active ingredients in EXPAREL, DepoCyt(e) and DepoDur are bupivacaine, cytarabine and morphine, respectively. Patent protection for the bupivacaine, cytarabine and morphine molecules themselves has expired and generic immediate-release products are available. As a result, competitors who obtain the requisite regulatory approval can offer products with the same active ingredients as EXPAREL, DepoCyt(e) and DepoDur so long as the competitors do not infringe any process, use or formulation patents that we have developed for these drugs encapsulated in our DepoFoam drug delivery technology.

For example, we are aware of at least one long acting injectable bupivacaine product in development which utilizes an alternative delivery system to EXPAREL. Such a product is similar to EXPAREL in that it also extends the duration of effect of bupivacaine, but achieves this clinical outcome using a completely different drug delivery system compared to our DepoFoam drug delivery technology.

The number of patents and patent applications covering products in the same field as EXPAREL indicates that competitors have sought to develop and may seek to market competing formulations that may not be covered by our patents and patent applications. The commercial opportunity for EXPAREL could be significantly harmed if competitors are able to develop and commercialize alternative formulations of bupivacaine that are long acting but outside the scope of our patents.

If EXPAREL is approved by the FDA, one or more third parties may challenge the patents covering this product, which could result in the invalidation or unenforceability of some or all of the relevant patent claims. For example, if a third party files an Abbreviated New Drug Application, or ANDA, for a generic drug product containing bupivacaine and relies in whole or in part on studies conducted by or for us, the third party will be required to certify to the FDA that either: (1) there is no patent information listed in the FDA's Orange Book with respect to our NDA for EXPAREL; (2) the patents listed in the Orange Book have expired; (3) the listed patents have not expired, but will expire on a particular date and approval is sought after patent expiration; or (4) the listed patents are invalid or will not be infringed by the manufacture, use or sale of the third-party's generic drug product. A certification that the new product will not infringe the Orange Book-listed patents for EXPAREL, or that such patents are invalid, is called a paragraph IV certification. If the third party submits a paragraph IV certification to the FDA, a notice of the paragraph IV certification must also be sent to us once the third-party's ANDA is accepted for filing by the FDA. We may then initiate a lawsuit to defend the patents identified in the notice. The filing of a patent infringement lawsuit within 45 days of receipt of the notice automatically prevents the FDA from approving the third-party's ANDA until the earliest of 30 months or the date on which the patent expires, the lawsuit is settled, or the court reaches a decision in the infringement lawsuit in favor of the third party. If we do not file a patent infringement lawsuit within the required 45-day period, the third-party's ANDA will not be subject to the 30-month stay. Litigation or other proceedings to enforce or defend intellectual property rights are often very complex in nature, may be very expensive and time-consuming, may divert our management's attention from our core business, and may result in unfavorable results that could adversely impact our ability to prevent third parties from competing with our products.

Because it is difficult and costly to protect our proprietary rights, we may not be able to ensure their protection and all patents will eventually expire.

Our commercial success will depend in part on obtaining and maintaining patent protection and trade secret protection for EXPAREL, DepoCyt(e), DepoDur, DepoFoam and for any other product candidates that we may develop, license or acquire and the methods we use to manufacture them, as well as successfully defending these patents and trade secrets against third-party challenges. We will only be able to protect our technologies from unauthorized use by third parties to the extent that valid and enforceable patents or trade secrets cover them.

The patent positions of pharmaceutical and biotechnology companies can be highly uncertain and involve complex legal and factual questions for which important legal principles remain unresolved. No consistent policy regarding the breadth of claims allowed in pharmaceutical or biotechnology patents has emerged to date in the United States. The patent situation outside the United States is even more uncertain. Changes in either the patent laws or in interpretations of patent laws in the United States and other countries may diminish the value of our intellectual property. Accordingly, we cannot predict the breadth of claims that may be allowed or enforced in our patents or in third-party patents.

The degree of future protection for our proprietary rights is uncertain, because legal means afford only limited protection and may not adequately protect our rights or permit us to gain or keep our competitive advantage. For example:

- we may not have been the first to make the inventions covered by each of our pending patent applications and issued patents;
- we may not have been the first to file patent applications for these inventions;
- others may independently develop similar or alternative technologies or duplicate any of our product candidates or technologies;

- it is possible that none of the pending patent applications will result in issued patents;
- the issued patents covering our product candidates may not provide a basis for commercially viable active products, may not provide us with any competitive advantages, or may be challenged by third parties;
- we may not develop additional proprietary technologies that are patentable; or
- patents of others may have an adverse effect on our business.

Patent applications in the United States are maintained in confidence for at least 18 months after their earliest effective filing date. Consequently, we cannot be certain we were the first to invent or the first to file patent applications on EXPAREL, our DepoFoam drug delivery technology or any other product candidates that we may develop, license or acquire. In the event that a third party has also filed a U.S. patent application relating to our product candidates or a similar invention, we may have to participate in interference proceedings declared by the U.S. Patent and Trademark Office to determine priority of invention in the United States. The costs of these proceedings could be substantial and it is possible that our efforts would be unsuccessful, resulting in a material adverse effect on our U.S. patent position. Furthermore, we may not have identified all United States and foreign patents or published applications that affect our business either by blocking our ability to commercialize our drugs or by covering similar technologies that affect our drug market.

In addition, some countries, including many in Europe, do not grant patent claims directed to methods of treating humans, and in these countries patent protection may not be available at all to protect our product candidates. Even if patents issue, we cannot guarantee that the claims of those patents will be valid and enforceable or provide us with any significant protection against competitive products, or otherwise be commercially valuable to us.

Some of our older patents have already expired. In the cases of DepoCyt(e) and DepoDur, key patents providing protection in Europe have expired. In the case of EXPAREL, while pending patent applications, if granted, would provide protection for EXPAREL in Europe and the United States through November 2018, an existing formulation patent for EXPAREL will expire in November 2013. Once our patents covering EXPAREL have expired, we are more reliant on trade secrets to protect against generic competition.

We also rely on trade secrets to protect our technology, particularly where we do not believe patent protection is appropriate or obtainable. However, trade secrets are difficult to protect. While we use reasonable efforts to protect our trade secrets, our licensors, employees, consultants, contractors, outside scientific collaborators and other advisors may unintentionally or willfully disclose our information to competitors. Enforcing a claim that a third party illegally obtained and is using our trade secrets is expensive and time consuming, and the outcome is unpredictable. In addition, courts outside the United States are sometimes less willing to protect trade secrets. Moreover, our competitors may independently develop equivalent knowledge, methods and know-how.

If we fail to obtain or maintain patent protection or trade secret protection for EXPAREL, DepoCyt(e), DepoDur, DepoFoam or any other product candidate that we may develop, license or acquire, third parties could use our proprietary information, which could impair our ability to compete in the market and adversely affect our ability to generate revenues and achieve profitability.

If we are sued for infringing intellectual property rights of third parties, it will be costly and time consuming, and an unfavorable outcome in any litigation would harm our business.

Our ability to develop, manufacture, market and sell EXPAREL, our DepoFoam drug delivery technology or any other product candidates that we may develop, license or acquire depends upon our ability to avoid infringing the proprietary rights of third parties. Numerous U.S. and foreign issued patents and pending patent applications, which are owned by third parties, exist in the general fields of pain management and cancer

treatment and cover the use of numerous compounds and formulations in our targeted markets. Because of the uncertainty inherent in any patent or other litigation involving proprietary rights, we and our licensors may not be successful in defending intellectual property claims by third parties, which could have a material adverse affect on our results of operations. Regardless of the outcome of any litigation, defending the litigation may be expensive, time-consuming and distracting to management. In addition, because patent applications can take many years to issue, there may be currently pending applications, unknown to us, which may later result in issued patents that EXPAREL, DepoCyt(e) or DepoDur may infringe. There could also be existing patents of which we are not aware that EXPAREL, DepoCyt(e) or DepoDur may inadvertently infringe.

There is a substantial amount of litigation involving patent and other intellectual property rights in the biotechnology and biopharmaceutical industries generally. If a third party claims that we infringe on their products or technology, we could face a number of issues, including:

- infringement and other intellectual property claims which, with or without merit, can be expensive and time consuming to litigate and can divert management's attention from our core business;
- substantial damages for past infringement which we may have to pay if a court decides that our product infringes on a competitor's patent;
- a court prohibiting us from selling or licensing our product unless the patent holder licenses the patent to us, which it would not be required to do;
- if a license is available from a patent holder, we may have to pay substantial royalties or grant cross licenses to our patents; and
- redesigning our processes so they do not infringe, which may not be possible or could require substantial funds and time.

We may be subject to claims that our employees have wrongfully used or disclosed alleged trade secrets of their former employers.

As is common in the biotechnology and pharmaceutical industry, we employ individuals who were previously employed at other biotechnology or pharmaceutical companies, including our competitors or potential competitors. Although no claims against us are currently pending, we may be subject to claims that these employees or we have inadvertently or otherwise used or disclosed trade secrets or other proprietary information of their former employers. Litigation may be necessary to defend against these claims. Even if we are successful in defending against these claims, litigation could result in substantial costs and be a distraction to management.

Risks Related to Our Financial Condition and Capital Requirements

Our independent registered public accounting firm has expressed substantial doubt about our ability to continue as a going concern, which may hinder our ability to obtain future financing.

Our independent registered public accounting firm stated that our financial statements for the year ended December 31, 2009 were prepared assuming that we would continue as a going concern, and that certain matters raise substantial doubt about our ability to continue as a going concern. Such doubts are based on our recurring losses and our working capital and stockholders' deficits. We continue to experience losses. Our ability to continue as a going concern is subject to our ability to generate a profit and/or obtain necessary funding from outside sources, including by the sale of our securities, obtaining loans from financial institutions or other financing arrangements, where possible. Our continued losses and "going concern" audit report increase the difficulty of our meeting such goals and our efforts to continue as a going concern may not prove successful.

We have incurred significant losses since our inception and anticipate that we will incur continued losses for the foreseeable future.

We are an emerging specialty pharmaceutical company with a limited operating history. We have focused primarily on developing EXPAREL with the goal of achieving regulatory approval. We have incurred losses in

each year since our inception in December 2006, including net losses of $31.7 million, $41.9 million and $36.2 million for the years ended December 31, 2009, 2008 and 2007, respectively. As of September 30, 2010, we had an accumulated deficit of $129.9 million. These losses, among other things, have had, and will continue to have, an adverse effect on our stockholders' equity (deficit) and working capital (deficit). We incurred increased pre-commercialization expenses during 2009 as we prepared for the potential market launch of EXPAREL, and we expect to incur significant sales, marketing and manufacturing expenses, as well as continued development expenses related to the commercialization of EXPAREL, if approved by the FDA. As a result, we expect to continue to incur significant losses for the foreseeable future. Because of the numerous risks and uncertainties associated with developing pharmaceutical products, we are unable to predict the extent of any future losses or when we will become profitable, if at all.

We may never become profitable.

Our ability to become profitable depends upon our ability to generate revenue from EXPAREL and to continue to generate revenue from DepoCyt(e) and DepoDur. Our ability to generate revenue depends on a number of factors, including, but not limited to, our ability to:

- continue to manufacture DepoCyt(e) and DepoDur for sale by our commercial partners;
- obtain regulatory approval for EXPAREL, or any other product candidates that we may develop, license or acquire;
- manufacture commercial quantities of EXPAREL, if approved, at acceptable cost levels; and
- develop a commercial organization and the supporting infrastructure required to successfully market and sell EXPAREL, if it is approved.

If EXPAREL is approved for commercial sale, we anticipate incurring significant costs associated with its commercialization. We also do not anticipate that we will achieve profitability for a period of time after generating material revenues, if ever. If we are unable to generate revenues, we will not become profitable and may be unable to continue operations without continued funding.

Under our financing arrangement with Paul Capital, upon the occurrence of certain events, Paul Capital may require us to repurchase the right to receive royalty payments that we assigned to it, or may foreclose on certain assets that secure our obligations to Paul Capital. Any exercise by Paul Capital of its right to cause us to repurchase the assigned right or any foreclosure by Paul Capital would adversely affect our results of operations and our financial condition.

On March 23, 2007, we entered into the Amended and Restated Royalty Interests Assignment Agreement with affiliates of Paul Capital, pursuant to which we assigned to Paul Capital the right to receive a portion of our royalty payments from DepoCyt(e) and DepoDur. To secure our obligations to Paul Capital, we granted Paul Capital a security interest in collateral which includes the royalty payments we are entitled to receive with respect to sales of DepoCyt(e) and DepoDur, as well as to bank accounts to which such payments are deposited. Under our arrangement with Paul Capital, upon the occurrence of certain events, or the put events, including if we experience a change of control, we or our subsidiary undergo certain bankruptcy events, transfer any or substantially all of our rights in DepoCyt(e) or DepoDur, transfer all or substantially all of our assets, breach certain of the covenants, representations or warranties under the Amended and Restated Royalty Interests Assignment Agreement, or sales of DepoCyt(e) or DepoDur are suspended due to an injunction or if we elect to suspend sales of DepoCyt(e) or DepoDur as a result of a lawsuit filed by certain third parties, Paul Capital may (i) require us to repurchase the rights we assigned to it at a cash price equal to (a) 50% of all cumulative payments made by us to Paul Capital under the Amended and Restated Royalty Interests Assignment Agreement during the preceding 24 months, multiplied by (b) the number of days from the date of Paul Capital's exercise of such option until December 31, 2014, divided by 365. Any exercise by Paul Capital of its right to cause us to repurchase the assigned right or any foreclosure by Paul Capital would adversely affect our results of operations and our financial condition.

Our debt obligations expose us to risks that could adversely affect our business, operating results and financial condition.

We have a substantial level of debt. As of September 30, 2010, after giving effect to the Hercules Credit Facility and the application of the proceeds therefrom, we had $66.25 million in aggregate principal amount of indebtedness outstanding, not including our obligation under the Amended and Restated Royalty Interests Assignment Agreement with Paul Capital. Approximately $40.0 million of outstanding indebtedness will convert to common stock upon the completion of this offering, and $26.25 million in aggregate principal amount of our outstanding indebtedness will not convert to common stock upon the completion of this offering and remain outstanding. The level and nature of our indebtedness, among other things, could:

- make it difficult for us to make payments on our outstanding debt from time to time or to refinance it;
- make it difficult for us to obtain any necessary financing in the future for working capital, capital expenditures, debt service, product and company acquisitions or general corporate purposes;
- limit our flexibility in planning for or reacting to changes in our business including life cycle management;
- reduce funds available for use in our operations;
- impair our ability to incur additional debt because of financial and other restrictive covenants;
- make us more vulnerable in the event of a downturn in our business;
- place us at a possible competitive disadvantage relative to less leveraged competitors and competitors that have better access to capital resources;
- restrict the operations of our business as a result of provisions in the Amended and Restated Royalty Interests Assignment Agreement with Paul Capital that restrict our ability to (i) amend, waive any rights under, or terminate any material agreements relating to DepoCyt(e) and DepoDur, (ii) enter into any new agreement or amend or fail to exercise any of our material rights under existing agreements that would materially adversely affect Paul Capital's royalty interest, and (iii) sell any material assets related to DepoCyt(e) or DepoDur; or
- impair our ability to merge or otherwise effect the sale of the Company due to the right of the holders of certain of our indebtedness to accelerate the maturity date of the indebtedness in the event of a change of control of the Company.

We will need to raise additional capital to pay our indebtedness as it comes due. If we are unable to obtain funds necessary to make required payments, or if we fail to comply with the various requirements of our indebtedness, we would be in default, which would permit the holders of our indebtedness to accelerate the maturity of the indebtedness and could cause defaults under any indebtedness we may incur in the future. Any default under our indebtedness would have a material adverse effect on our business, operating results and financial condition. If we are unable to refinance or repay our indebtedness as it becomes due, we may become insolvent and be unable to continue operations.

For example, our loan and security agreement governing the credit facility with Hercules Technology Growth Capital, Inc. and Hercules Technology III, L.P., or the Hercules Credit Facility, contains a number of affirmative and restrictive covenants, including reporting requirements and other collateral limitations, certain limitations on liens and indebtedness, dispositions, mergers and acquisitions, restricted payments and investments, corporate changes and limitations on waivers and amendments to certain agreements, our organizational documents, and documents relating to debt that is subordinate to our obligations under the Hercules Credit Facility. Our failure to comply with the covenants in the loan and security agreement governing the Hercules Credit Facility could result in an event of default that, if not cured or waived, could result in the acceleration of all or a substantial portion of our debt and potential foreclosure on the assets pledged to secure the debt.

Our short operating history makes it difficult to evaluate our business and prospects.

We were incorporated in December 2006 and have only been conducting operations with respect to EXPAREL since March 2007. Our operations to date have been limited to organizing and staffing our company, conducting product development activities, including clinical trials and manufacturing development activities, for EXPAREL and manufacturing and related activities for DepoCyt(e) and DepoDur. Further, in 2010 we began to establish our commercial infrastructure for EXPAREL. We have not yet demonstrated an ability to obtain regulatory approval for or successfully commercialize a product candidate. Consequently, any predictions about our future performance may not be as accurate as they could be if we had a history of successfully developing and commercializing pharmaceutical products.

We will need additional funding and may be unable to raise capital when needed, which would force us to delay, reduce or eliminate our product development programs or commercialization efforts.

Developing products for use in the hospital setting, conducting clinical trials, establishing outsourced manufacturing relationships and successfully manufacturing and marketing drugs that we may develop is expensive. We will need to raise additional capital to:

- fund our operations and continue our efforts to hire additional personnel and build a commercial infrastructure to prepare for the commercialization of EXPAREL, if approved by the FDA;
- qualify and outsource the commercial-scale manufacturing of our products under cGMP; and
- in-license and develop additional product candidates.

Throughout 2009 and 2010, we generated net proceeds of approximately $40 million through several private placements of secured and unsecured notes and proceeds of approximately $26.25 million under the Hercules Credit Facility. We believe that with our currently available cash and cash equivalent balance, along with the net proceeds from this offering, we have sufficient funds to meet our projected operating requirements and service our indebtedness for at least the next 12 months. We have based this estimate on assumptions that may prove to be wrong and we could spend our available financial resources faster than we currently expect. Further, we may not have sufficient financial resources to meet all of our objectives if EXPAREL is approved, which could require us to postpone, scale back or eliminate some, or all, of these objectives, including our potential launch activities. Our future funding requirements will depend on many factors, including, but not limited to:

- the potential for delays in our efforts to seek regulatory approval for EXPAREL, and any costs associated with such delays;
- the costs of establishing a commercial organization to sell, market and distribute EXPAREL;
- the rate of progress and costs of our efforts to prepare for the submission of an NDA for any product candidates that we may in-license or acquire in the future, and the potential that we may need to conduct additional clinical trials to support applications for regulatory approval;
- the costs of filing, prosecuting, defending and enforcing any patent claims and other intellectual property rights associated with our product candidates, including any such costs we may be required to expend if our licensors are unwilling or unable to do so;
- the cost and timing of manufacturing sufficient supplies of EXPAREL in preparation for commercialization;
- the effect of competing technological and market developments;
- the terms and timing of any collaborative, licensing, co-promotion or other arrangements that we may establish;
- if EXPAREL is approved, the potential that we may be required to file a lawsuit to defend our patent rights or regulatory exclusivities from challenges by companies seeking to market generic versions of extended-release liposome injection of bupivacaine; and
- the success of the commercialization of EXPAREL.

Future capital requirements will also depend on the extent to which we acquire or invest in additional complementary businesses, products and technologies.

Until we can generate a sufficient amount of product revenue, if ever, we expect to finance future cash needs through public or private equity offerings, debt financings, product supply revenue and royalties, corporate collaboration and licensing arrangements, as well as through interest income earned on cash and investment balances. We cannot be certain that additional funding will be available on acceptable terms, or at all. If adequate funds are not available, we may be required to delay, reduce the scope of, or eliminate, one or more of our development programs or our commercialization efforts.

Our quarterly operating results may fluctuate significantly.

We expect our operating results to be subject to quarterly fluctuations. Our net loss and other operating results will be affected by numerous factors, including:

- whether the FDA requires us to complete additional, unanticipated studies, tests or other activities prior to approving EXPAREL, which would likely further delay any such approval;
- if EXPAREL is approved, our ability to establish the necessary commercial infrastructure to launch this product candidate without substantial delays, including hiring sales and marketing personnel and contracting with third parties for warehousing, distribution, cash collection and related commercial activities;
- maintaining our existing manufacturing facilities and expanding our manufacturing capacity, including installing specialized processing equipment for the manufacturing of EXPAREL;
- our execution of other collaborative, licensing or similar arrangements and the timing of payments we may make or receive under these arrangements;
- variations in the level of expenses related to our future development programs;
- any product liability or intellectual property infringement lawsuit in which we may become involved;
- regulatory developments affecting EXPAREL or the product candidates of our competitors; and
- if EXPAREL receives regulatory approval, the level of underlying hospital demand for this product candidate and wholesaler buying patterns.

If our quarterly or annual operating results fall below the expectations of investors or securities analysts, the price of our common stock could decline substantially. Furthermore, any quarterly or annual fluctuations in our operating results may, in turn, cause the price of our stock to fluctuate substantially. We believe that quarterly comparisons of our financial results are not necessarily meaningful and should not be relied upon as an indication of our future performance.

Raising additional funds by issuing securities may cause dilution to existing stockholders and raising funds through lending and licensing arrangements may restrict our operations or require us to relinquish proprietary rights.

To the extent that we raise additional capital by issuing equity securities, our existing stockholders' ownership will be diluted. If we raise additional funds through licensing arrangements, it may be necessary to relinquish potentially valuable rights to our potential products or proprietary technologies, or grant licenses on terms that are not favorable to us. Any debt financing we enter into may involve covenants that restrict our operations. These restrictive covenants may include limitations on additional borrowing and specific restrictions on the use of our assets as well as prohibitions on our ability to create liens, pay dividends, redeem our stock or make investments.

We will incur significant increased costs as a result of operating as a public company.

As a public company, we will incur significant legal, accounting, insurance and other expenses that we have not incurred as a private company, including costs associated with public company reporting requirements. We

also have incurred and will incur costs associated with complying with the requirements of the Sarbanes-Oxley Act of 2002 and related rules implemented by the Securities and Exchange Commission and The NASDAQ Global Market. The expenses incurred by public companies generally for reporting and corporate governance purposes have been increasing. We expect these rules and regulations to increase our legal and financial compliance costs and to make some activities more time-consuming and costly, although we are currently unable to estimate these costs with any degree of certainty. These laws and regulations could also make it more difficult or costly for us to obtain certain types of insurance, including director and officer liability insurance, and we may be forced to accept reduced policy limits and coverage or incur substantially higher costs to obtain the same or similar coverage. These laws and regulations could also make it more difficult for us to attract and retain qualified persons to serve on our board of directors, our board committees or as our executive officers. Furthermore, if we are unable to satisfy our obligations as a public company, we could be subject to delisting of our common stock, fines, sanctions and other regulatory action and potentially civil litigation.

Compliance with Section 404 of the Sarbanes-Oxley Act of 2002 will require our management to devote substantial time to new compliance initiatives, and if our independent registered public accounting firm is unable to provide an unqualified attestation report on our internal controls, our stock price could be adversely affected.

Pursuant to Section 404 of the Sarbanes-Oxley Act of 2002, or Section 404, we will be required to furnish a report by our management on, and our independent registered public accounting firm to attest to, the effectiveness of our internal control over financial reporting. We have not been subject to these requirements in the past. The internal control report must contain (i) a statement of management's responsibility for establishing and maintaining adequate internal control over financial reporting, (ii) a statement identifying the framework used by management to conduct the required evaluation of the effectiveness of our internal control over financial reporting, (iii) management's assessment of the effectiveness of our internal control over financial reporting as of the end of our most recent fiscal year, including a statement as to whether or not internal control over financial reporting is effective, and (iv) a statement that our independent registered public accounting firm has issued an attestation report on internal control over financial reporting.

To achieve compliance with Section 404 within the prescribed period, we will be engaged in a process to document and evaluate our internal control over financial reporting, which is both costly and challenging. In this regard, we will need to continue to dedicate internal resources, hire additional employees for our finance and audit functions, potentially engage outside consultants and adopt a detailed work plan to (i) assess and document the adequacy of internal control over financial reporting, (ii) continue steps to improve control processes where appropriate, (iii) validate through testing that controls are functioning as documented, and (iv) implement a continuous reporting and improvement process for internal control over financial reporting. In addition, in connection with the attestation process by our independent registered public accounting firm, we may encounter problems or delays in completing the implementation of any requested improvements and receiving a favorable attestation. If we cannot favorably assess the effectiveness of our internal control over financial reporting, or if our independent registered public accounting firm is unable to provide an unqualified attestation report on our internal controls, investors could lose confidence in our financial information and our stock price could decline.

The use of our net operating loss carryforwards and research tax credits may be limited.

Our net operating loss carryforwards and research and development tax credits may expire and not be used. As of December 31, 2009, we had federal and state net operating loss carryforwards of approximately $82.4 million and $59.0 million, respectively, and we also had federal and state research and development tax credit carryforwards of approximately $2.2 million and $0.9 million, respectively. Our net operating loss carryforwards will begin expiring in 2026 for federal purposes and 2016 for state purposes if we have not used them prior to that time, and our federal tax credits will begin expiring in 2027 unless previously used. Our state tax credits carryforward indefinitely. Additionally, our ability to use any net operating loss and credit carryforwards to offset taxable income or tax, respectively, in the future will be limited under Internal Revenue

Code Sections 382 and 383 if we have a cumulative change in ownership of more than 50% within a three-year period. The completion of this offering, together with private placements and other transactions that have occurred, may trigger, or may have already triggered such an ownership change. In addition, since we will need to raise substantial additional funding to finance our operations, we may undergo further ownership changes in the future. Following the Acquisition, we have not completed an analysis as to whether such a change of ownership has occurred, but in such an event, we will be limited regarding the amount of net operating loss carryforwards and research tax credits that could be utilized annually in the future to offset taxable income or tax, respectively. Any such annual limitation may significantly reduce the utilization of the net operating loss carryforwards and research tax credits before they expire. In addition, California and certain states have suspended use of net operating loss carryforwards for certain taxable years, and other states are considering similar measures. As a result, we may incur higher state income tax expense in the future. Depending on our future tax position, continued suspension of our ability to use net operating loss carryforwards in states in which we are subject to income tax could have an adverse impact on our results of operations and financial condition.

Our results of operations and liquidity needs could be materially negatively affected by market fluctuations and economic downturn.

Our results of operations could be materially negatively affected by economic conditions generally, both in the United States and elsewhere around the world. Continuing concerns over inflation, energy costs, geopolitical issues, the availability and cost of credit, the U.S. mortgage market and a declining residential real estate market in the United States have contributed to increased volatility and diminished expectations for the economy and the markets going forward. These factors, combined with volatile oil prices, declining business and consumer confidence and increased unemployment, have precipitated an economic recession and fears of a possible depression. Domestic and international equity markets continue to experience heightened volatility and turmoil. These events and the continuing market upheavals may have an adverse effect on us. In the event of a continuing market downturn, our results of operations could be adversely affected by those factors in many ways, including making it more difficult for us to raise funds if necessary, and our stock price may further decline.

Risks Related to this Offering and Ownership of Our Common Stock

There is no established public market for our stock and a public market may not be obtained or be liquid and therefore you may not be able to sell your shares.

Prior to this offering, there has not been a public market for our common stock. If an active trading market for our common stock does not develop following this offering, you may not be able to sell your shares quickly or at the market price. The initial public offering price for the shares will be determined by negotiations between us and representatives of the underwriters and may not be indicative of prices that will prevail in the subsequent trading market.

The market price of our common stock may be highly volatile, and you may not be able to resell your shares at or above the initial public offering price.

The trading price of our common stock is likely to be volatile. Our stock price could be subject to wide fluctuations in response to a variety of factors, including the following:

- any delay in the FDA approving our NDA for EXPAREL;
- the commercial success of EXPAREL, if approved by the FDA;
- results of clinical trials of our product candidates or those of our competitors;
- changes or developments in laws or regulations applicable to our product candidates;
- introduction of competitive products or technologies;
- failure to meet or exceed financial projections we provide to the public;

- actual or anticipated variations in quarterly operating results;
- failure to meet or exceed the estimates and projections of the investment community;
- the perception of the pharmaceutical industry by the public, legislatures, regulators and the investment community;
- general economic and market conditions and overall fluctuations in U.S. equity markets;
- developments concerning our sources of manufacturing supply;
- disputes or other developments relating to patents or other proprietary rights;
- additions or departures of key scientific or management personnel;
- issuances of debt, equity or convertible securities;
- changes in the market valuations of similar companies; and
- the other factors described in this "Risk Factors" section.

In addition, the stock market in general, and the market for small pharmaceutical and biotechnology companies in particular, have experienced extreme price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of these companies. Broad market and industry factors may negatively affect the market price of our common stock, regardless of our actual operating performance.

Our principal stockholders and management own a significant percentage of our stock and will be able to exert significant control over matters subject to stockholder approval.

Upon completion of this offering, our executive officers, directors and 5% stockholders and their affiliates will beneficially own approximately % of our outstanding voting stock, excluding any shares of common stock that our existing stockholders may purchase in this offering. As a result, these stockholders will have significant influence and may be able to determine all matters requiring stockholder approval. For example, these stockholders may be able to control elections of directors, amendments of our organizational documents, or approval of any merger, sale of assets, or other major corporate transaction. This concentration of ownership could delay or prevent any acquisition of our company on terms that other stockholders may desire.

If you purchase our common stock in this offering, you will incur immediate and substantial dilution in the book value of your shares.

The initial public offering price is substantially higher than the net tangible book value per share of our common stock. Investors purchasing common stock in this offering will pay a price per share that substantially exceeds the book value of our tangible assets after subtracting our liabilities. As a result, investors purchasing common stock in this offering will incur immediate dilution of $ per share. Further, investors purchasing common stock in this offering will contribute approximately % of the total amount invested by stockholders since our inception, but will own only approximately % of the shares of our common stock outstanding.

This dilution is due to the substantially lower price paid by our investors who purchased shares prior to this offering as compared to the price offered to the public in this offering, and the exercise of stock options granted to our employees. In addition, as of November 30, 2010, options to purchase 16,178,011 shares of our common stock at a weighted average exercise price of $0.15 per share and warrants exercisable for up to 1,700,000 shares of our common stock at weighted average exercise price of $0.25 per share and up to 2,175,000 shares of our Series A convertible preferred stock, assuming that the warrant issued in connection with the Hercules Credit Facility is exercised for our Series A convertible preferred stock, at weighted average exercise price of $1.25 per share were outstanding. The exercise of any of these options or warrants would result in additional dilution. As a result of the dilution to investors purchasing shares in this offering, investors may receive significantly less than the purchase price paid in this offering, if anything, in the event of a liquidation or sale of our company.

Sales of a substantial number of shares of our common stock in the public market by our existing stockholders could cause our stock price to fall.

Sales of a substantial number of shares of our common stock in the public market or the perception that these sales might occur, could depress the market price of our common stock and could impair our ability to raise adequate capital through the sale of additional equity securities. We are unable to predict the effect that sales may have on the prevailing market price of our common stock.

Substantially all of our existing stockholders are subject to lock-up agreements with the underwriters of this offering that restrict the stockholders' ability to transfer shares of our common stock for at least 180 days from the date of this prospectus, subject to certain exceptions. The lock-up agreements limit the number of shares of common stock that may be sold immediately following the public offering. Subject to certain limitations, 108,874,256 shares will become eligible for sale upon expiration of the lock-up period. In addition, shares issued or issuable upon exercise of options and warrants vested as of the expiration of the lock-up period will be eligible for sale at that time. Sales of stock by these stockholders could have a material adverse effect on the market price of our common stock.

Certain holders of shares of our common stock are entitled to rights with respect to the registration of their shares under the Securities Act of 1933, as amended, or the Securities Act, subject to the 180-day lock-up arrangement described above. Registration of these shares under the Securities Act would result in the shares becoming freely tradable without restriction under the Securities Act, except for shares held by our affiliates as defined in Rule 144 under the Securities Act. Any sales of securities by these stockholders could have a material adverse effect on the trading price of our common stock.

Our management will have broad discretion in the use of the net proceeds from this offering and may not use them effectively.

Our management will have broad discretion in the application of the net proceeds from this offering and our stockholders will not have the opportunity as part of their investment decision to assess whether the net proceeds are being used appropriately. Because of the number and variability of factors that will determine our use of the net proceeds from this offering, their ultimate use may vary substantially from their currently intended use. The failure by our management to apply these funds effectively could harm our business. Pending their use, we may invest the net proceeds from this offering in short-term, investment-grade, interest-bearing instruments and U.S. government securities. These investments may not yield a favorable return to our stockholders.

Because we do not intend to pay dividends on our common stock, your returns will be limited to any increase in the value of our stock.

We have never declared or paid any cash dividends on our capital stock. We currently intend to retain all available funds and any future earnings to support our operations and finance the growth and development of our business and do not anticipate declaring or paying any cash dividends on our common stock for the foreseeable future. Any return to stockholders will therefore be limited to the appreciation of their stock, if any.

Some provisions of our charter documents and Delaware law may have anti-takeover effects that could discourage an acquisition of us by others, even if an acquisition would be beneficial to our stockholders, and may prevent attempts by our stockholders to replace or remove our current management.

Provisions in our restated certificate of incorporation and our bylaws that will become effective following the completion of this offering, as well as provisions of the Delaware General Corporation Law, or DGCL, could make it more difficult for a third party to acquire us or increase the cost of acquiring us, even if doing so would benefit our stockholders, including transactions in which stockholders might otherwise receive a premium for their shares. These provisions include:

- authorizing the issuance of "blank check" preferred stock, the terms of which may be established and shares of which may be issued without stockholder approval;

- prohibiting stockholder action by written consent, thereby requiring all stockholder actions to be taken at a meeting of our stockholders;
- eliminating the ability of stockholders to call a special meeting of stockholders; and
- establishing advance notice requirements for nominations for election to the board of directors or for proposing matters that can be acted upon at stockholder meetings.

These provisions may frustrate or prevent any attempts by our stockholders to replace or remove our current management by making it more difficult for stockholders to replace members of our board of directors, which is responsible for appointing the members of our management. In addition, we are subject to Section 203 of the DGCL, which generally prohibits a Delaware corporation from engaging in any of a broad range of business combinations with an interested stockholder for a period of three years following the date on which the stockholder became an interested stockholder, unless such transactions are approved by our board of directors. This provision could have the effect of delaying or preventing a change of control, whether or not it is desired by or beneficial to our stockholders.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus contains forward-looking statements that involve substantial risks and uncertainties. All statements, other than statements of historical facts, included in this prospectus regarding our strategy, future operations, regulatory process, future financial position, future revenue, projected costs, prospects, plans, objectives of management and expected market growth are forward-looking statements. The words "anticipate," "believe," "estimate," "expect," "intend," "may," "plan," "predict," "project," "will," "would" and similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain these identifying words.

The forward-looking statements in this prospectus include, among other things, statements about:

- our plans to develop and commercialize EXPAREL;
- our plans to continue to manufacture and provide support services for our commercial partners who have licensed DepoCyt(e) and DepoDur;
- the timing of, and our ability to obtain, regulatory approval of EXPAREL;
- the timing of our anticipated commercial launch of EXPAREL;
- the rate and degree of market acceptance of EXPAREL;
- the size and growth of the potential markets for EXPAREL and our ability to serve those markets;
- our plans to expand the indications of EXPAREL to include nerve block and epidural administration;
- our commercialization and marketing capabilities;
- regulatory developments in the United States and foreign countries;
- our ability to obtain and maintain intellectual property protection;
- the accuracy of our estimates regarding expenses and capital requirements; and
- the loss of key scientific or management personnel.

We may not actually achieve the plans, intentions or expectations disclosed in our forward-looking statements, and you should not place undue reliance on our forward-looking statements. Actual results or events could differ materially from the plans, intentions and expectations disclosed in the forward-looking statements we make. We have included important factors in the cautionary statements included in this prospectus, particularly in the "Risk Factors" section, that could cause actual results or events to differ materially from the forward-looking statements that we make. Our forward-looking statements do not reflect the potential impact of any future acquisitions, mergers, dispositions, joint ventures or investments that we may make.

You should read this prospectus and the documents that we have filed as exhibits to the registration statement, of which this prospectus is a part, completely and with the understanding that our actual future results may be materially different from what we expect. We do not assume any obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

USE OF PROCEEDS

We estimate that the net proceeds from this offering will be approximately $ million (or approximately $ million if the underwriters exercise their option to purchase additional shares from us in full), based on an assumed initial public offering price of $ per share, which is the midpoint of the estimated price range shown on the cover of this prospectus, and after deducting the estimated underwriting discounts and commissions and offering expenses payable by us.

A $1.00 increase or decrease in the assumed initial public offering price of $ would increase or decrease the net proceeds to us from this offering by $ million, after deducting the estimated underwriting discounts and commissions and offering expenses payable by us.

We intend to use the net proceeds from this offering as follows:

- up to $ million through the fourth quarter of 2011 for the planned manufacture and commercialization of EXPAREL in the United States;
- up to $ million through the fourth quarter of 2011 for the development of EXPAREL for nerve block and epidural administration, which we believe allows us to complete Phase 2 clinical trials and begin Phase 3 clinical trials of EXPAREL for nerve block and potentially begin a Phase 2 clinical trial of EXPAREL for epidural administration; and
- the balance for working capital and other general corporate purposes, which may include the acquisition or licensing of other products or technologies or the acquisition of other businesses in the biotechnology or specialty pharmaceuticals industry.

The amounts and timing of our actual expenditures may vary significantly depending on numerous factors, including:

- the timing and outcome of the FDA's review of the NDA for EXPAREL;
- the extent to which the FDA may require us to perform additional clinical trials for EXPAREL;
- the timing and success of this offering;
- the costs of our commercialization activities for EXPAREL, if it is approved by the FDA;
- the cost and timing of expanding our manufacturing facilities and purchasing manufacturing and other capital equipment for EXPAREL and our other product candidates;
- the scope, progress, results and costs of development for additional indications for EXPAREL and for our other product candidates;
- the cost, timing and outcome of regulatory review of our other product candidates;
- the extent to which we acquire or invest in products, businesses and technologies;
- the extent to which we choose to establish collaboration, co-promotion, distribution or other similar agreements for product candidates;
- the costs of preparing, submitting and prosecuting patent applications and maintaining, enforcing and defending intellectual property claims; and
- any unforeseen or underestimated cash needs.

We therefore cannot estimate the amount of net proceeds to be used for all of the purposes described above. We may find it necessary or advisable to use the net proceeds for other purposes, and we will have broad discretion in the application of net proceeds.

Following this offering, we believe that our available funds will be sufficient to complete the development of EXPAREL through FDA approval and to fund the expected commercial launch of EXPAREL in the United States in the fourth quarter of 2011. It is possible that we will not achieve the progress that we expect with respect to EXPAREL because the actual costs, timing of development and regulatory approval are difficult to predict and are subject to substantial risks and delays. We have no committed external sources of funds. To the extent that the net proceeds from this offering and our other capital resources are insufficient to complete clinical development of, obtain regulatory approval for, and, if approved, commercially launch EXPAREL, we will need

to finance our cash needs through public or private equity offerings, debt financings, corporate collaboration and licensing arrangements or other financing alternatives.

Pending our use of the net proceeds from this offering, we intend to invest the net proceeds in a variety of capital preservation investments, including short-term, investment-grade, interest-bearing instruments and U.S. government securities.

DIVIDEND POLICY

We have never declared or paid any cash dividends on our capital stock. We currently intend to retain earnings, if any, to finance the growth and development of our business. We do not expect to pay any cash dividends on our common stock in the foreseeable future. Payment of future dividends, if any, will be at the discretion of our board of directors and will depend on our financial condition, results of operations, capital requirements, restrictions contained in current or future financing instruments, provisions of applicable law and other factors the board deems relevant. Our ability to pay dividends on our common stock is limited by the covenants of our loan and security agreement governing the Hercules Credit Facility and may be further restricted by the terms of any of our future indebtedness. See "Risk Factors—Risks Related to Our Financial Condition and Capital Requirements—Our debt obligations expose us to risks that could adversely affect our business, operating results and financial condition."

The following table sets forth our capitalization as of September 30, 2010:

- on an actual basis;
- on a pro forma basis to reflect (1) the automatic conversion of all outstanding shares of our Series A convertible preferred stock into common stock upon the completion of this offering, (2) the conversion of $40.0 million aggregate principal amount and all accrued and unpaid interest on secured and unsecured notes held by certain of our stockholders into common stock upon the completion of this offering and (3) the one-for- reverse split of our common stock to be effected prior to the completion of this offering, (4) the filing of our restated certificate of incorporation prior to the completion of this offering; and
- on a pro forma as adjusted basis to reflect (1) the automatic conversion of all outstanding shares of our Series A convertible preferred stock into common stock upon the completion of this offering, (2) the conversion of $40.0 million aggregate principal amount and all accrued and unpaid interest on secured and unsecured notes held by certain of our stockholders into common stock upon the completion of this offering, (3) the one-for- reverse split of our common stock to be effected prior to the completion of this offering, (4) the filing of our restated certificate of incorporation prior to the completion of this offering, and (5) our issuance and sale of shares of common stock in this offering at an assumed initial public offering price of $ per share, the midpoint of the estimated price range shown on the cover of this prospectus, after deducting the estimated underwriting discount and offering expenses payable by us.

You should read this table together with our consolidated financial statements and the related notes included elsewhere in this prospectus and the "Management's Discussion and Analysis of Financial Condition and Results of Operations," "Use of Proceeds" and "Selected Consolidated Financial Data."

Each $1.00 increase or decrease in the assumed initial public offering price of $ would increase or decrease each of additional paid-in capital and total stockholders' equity in the pro forma as adjusted column by $ million, assuming the number of shares offered by us, as set forth on the cover of this prospectus, remains the same and after deducting the estimated underwriting discount and offering expenses payable by us.

The table above does not include:

- 1,950,000 shares of common stock issuable upon the exercise of warrants outstanding and exercisable as of September 30, 2010, at a weighted average exercise price of $0.38 per share;
- 16,182,011 shares of common stock issuable upon the exercise of stock options outstanding as of September 30, 2010, at a weighted average exercise price of $0.15 per share; and
- 1,246,984 shares of common stock available for future issuance under our equity compensation plans as of September 30, 2010.

DILUTION

If you invest in our common stock, your interest will be diluted immediately to the extent of the difference between the initial public offering price per share you will pay in this offering and the pro forma as adjusted net tangible book value per share of our common stock after this offering. Our pro forma historical net tangible book value as of September 30, 2010 was $ million, or $ per share of common stock. Our pro forma net tangible book value per share set forth below represents our total tangible assets less total liabilities and Series A convertible preferred stock, divided by the number of shares of our common stock outstanding on September 30, 2010, after giving effect to the automatic conversion of all of our outstanding shares of Series A convertible preferred stock into shares of our common stock immediately prior to the completion of this offering and the conversion of $40.0 million aggregate principal amount and all accrued and unpaid interest on secured and unsecured notes held by certain of our stockholders into common stock immediately prior to the completion of this offering.

After giving effect to our issuance and sale of shares of common stock in this offering at an assumed initial public offering price of $ per share, the midpoint of the estimated price range shown on the cover of this prospectus, after deducting the estimated underwriting discounts and commissions and offering expenses payable by us, the pro forma as adjusted net tangible book value as of September 30, 2010 would have been $ million, or $ per share. This represents an immediate increase in net tangible book value to existing stockholders of $ per share. The initial public offering price per share will significantly exceed the net tangible book value per share. Accordingly, new investors who purchase shares of common stock in this offering will suffer an immediate dilution of their investment of $ per share. The following table illustrates this per share dilution to the new investors purchasing shares of common stock in this offering without giving effect to the over-allotment option granted to the underwriters:

Assumed initial public offering price per share		$
Pro forma net tangible book value per share as of September 30, 2010	$	
Increase per share attributable to sale of shares of common stock in this offering		
Pro forma as adjusted net tangible book value per share after the offering		
Dilution per share to new investors		$

Each $1.00 increase or decrease in the assumed initial public offering price of $ per share would increase or decrease the pro forma net tangible book value by $ million, the pro forma net tangible book value per share after this offering by $ per share and the dilution in pro forma net tangible book value per share to investors in this offering by $ per share, assuming that the number of shares offered by us, as set forth on the cover page of this prospectus, remains the same and after deducting the estimated underwriting discount and offering expenses payable by us.

If the underwriters exercise their over-allotment option in full, the pro forma as adjusted net tangible book value will increase to $ per share, representing an immediate increase to existing stockholders of $ per share and an immediate dilution of $ per share to new investors. If any shares are issued upon exercise of outstanding options or warrants, you will experience further dilution.

The following table summarizes, on a pro forma basis as of September 30, 2010, after giving effect to the conversion of all of our outstanding Series A convertible preferred stock into common stock, the differences between the number of shares of common stock purchased from us, the total consideration paid to us and the average price per share paid by existing stockholders and by new investors purchasing shares of common stock in this offering. The calculation below is based on an assumed initial public offering price of $ per share, the midpoint of the estimated price range shown on the cover of this prospectus, before the deduction of the estimated underwriting discounts and commissions and offering expenses payable by us:

	Shares Purchased		Total Consideration		Average Price Per Share
	Number	%	Amount	%	
Existing stockholders		%	$	%	$
New investors					$
Total		100%	$	100%	

The number of shares purchased from us by existing stockholders is based on 109,291,553 shares of our common stock outstanding as of September 30, 2010 after giving effect to the automatic conversion of all of our outstanding shares of Series A convertible preferred stock into common stock upon the completion of this offering and the conversion of $40.0 million aggregate principal amount and all accrued and unpaid interest on secured and unsecured notes held by certain of our stockholders into common stock upon the completion of this offering. This number excludes:

- 1,950,000 shares of common stock issuable upon the exercise of warrants outstanding and exercisable as of September 30, 2010, at a weighted average exercise price of $0.38 per share;
- 16,182,011 shares of common stock issuable upon the exercise of stock options outstanding as of September 30, 2010, at a weighted average exercise price of $0.15 per share; and
- 1,246,984 shares of common stock available for future issuance under our equity compensation plans as of September 30, 2010.

If the underwriters exercise their option to purchase additional shares from us in full, the number of shares held by new investors will increase to , or % of the total number of shares of common stock outstanding after this offering and the shares held by existing stockholders will decrease to , or % of the total shares outstanding.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion and analysis of our financial condition and results of operations together with our financial statements and the related notes appearing at the end of this prospectus. Some of the information contained in this discussion and analysis or set forth elsewhere in this prospectus, including information with respect to our plans and strategy for our business and related financing, includes forward-looking statements that involve risks and uncertainties. You should read the "Risk Factors" section of this prospectus for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

Overview

We are an emerging specialty pharmaceutical company focused on the development, commercialization and manufacture of proprietary pharmaceutical products, based on our proprietary DepoFoam drug delivery technology, for use in hospitals and ambulatory surgery centers. In September 2010, we filed an NDA for EXPAREL with the United States Food and Drug Administration, or FDA, using a 505(b)(2) application. Our clinical data demonstrates that EXPAREL provides analgesia for up to 72 hours post-surgery, compared with seven hours or less for bupivacaine. We are initially seeking approval for postsurgical analgesia by local administration into the surgical wound, or infiltration, a procedure commonly employed using bupivacaine. Under the Prescription Drug User Fee Act, or PDUFA, guidelines, the FDA has a goal of ten months from the date of NDA filing to make a decision regarding the approval of our filing. We are also pursuing several additional indications for EXPAREL and expect to submit a supplemental NDA, or sNDA, for nerve block and epidural administration. We currently intend to develop and commercialize EXPAREL and our other product candidates in the United States while out-licensing commercialization rights for other territories.

We were incorporated in Delaware under the name Blue Acquisition Corp. in December 2006 and changed our name to Pacira, Inc. in June 2007. In October 2010, we changed our name to Pacira Pharmaceuticals, Inc. Pacira Pharmaceuticals, Inc. is the holding company for our California operating subsidiary of the same name, which we refer to as PPI-California. On March 24, 2007, or the Acquisition Date, MPM Capital, Sanderling Ventures, OrbiMed Advisors, HBM BioVentures, the Foundation for Research and their co-investors, through Pacira Pharmaceuticals, Inc., acquired PPI-California, from SkyePharma Holding, Inc., which we refer to as the Acquisition. PPI-California was known as SkyePharma, Inc. prior to the Acquisition.

Our two marketed products, DepoCyt(e) and DepoDur, and our proprietary DepoFoam extended release drug delivery technology were acquired as part of the Acquisition. DepoCyt(e) is a sustained release liposomal formulation of the chemotherapeutic agent cytarabine and is indicated for the intrathecal treatment of lymphomatous meningitis. DepoCyt(e) was granted accelerated approval by the FDA in 1999 and full approval in 2007. DepoDur is an extended release injectable formulation of morphine indicated for epidural administration for the treatment of pain following major surgery. DepoDur was approved by the FDA in 2004.

Since inception, we have incurred significant operating losses. Our net loss was $20.1 million for the nine months ended September 30, 2010, including research and development expenses of $15.0 million. Our net loss was $31.7 million for the year ended December 31, 2009, including research and development expenses of $26.2 million. We do not expect our currently marketed products to generate revenue that is sufficient for us to achieve profitability because we expect to continue to incur significant expenses as we advance the development of EXPAREL and our other product candidates, seek FDA approval for our product candidates that successfully complete clinical trials and develop our sales force and marketing capabilities to prepare for their commercial launch. We also expect to incur additional expenses to add operational, financial and management information systems and personnel, including personnel to support our product development efforts and our obligations as a public reporting company. For us to become and remain profitable, we believe that we must succeed in commercializing EXPAREL or other product candidates with significant market potential.

Financial Operations Overview

Revenues

Our revenue derived from DepoCyt(e) and DepoDur, our products manufactured by us and sold by our commercial partners, is comprised of two components: supply revenue and royalties. Supply revenue is derived from a contractual supply price paid to us by our commercial partners. Royalties are recognized as the product is sold by our commercial partners and is typically calculated as a percentage of the net selling price, which is net of discounts, returns, and allowances incurred by our commercial partners. Accordingly, the primary factors that determine our revenues derived from DepoCyt(e) and DepoDur are:

- the level of orders submitted by our commercial partners;
- the level of prescription and institutional demand for our products;
- unit sales prices; and
- the amount of gross-to-net sales adjustments realized by our commercial partners.

We also generate collaborative licensing and development revenue from our collaborations with third parties who seek to use our DepoFoam technology to develop extended release formulations of their products and product candidates.

The following table sets forth a summary of our supply revenue, royalties and collaborative licensing and development revenue for the years ended December 31, 2007, 2008 and 2009, and the nine months ended September 30, 2009 and 2010.

[1] Total DepoCyt(e) and DepoDur revenue does not include collaborative licensing and development revenue related to DepoCyt(e) and DepoDur.

Cost of Revenues

Cost of revenues consists of the costs associated with producing our products for our commercial partners and providing research and development services to our collaboration partners. In particular, our cost of revenues includes:

- manufacturing overhead and fixed costs associated with running two cGMP manufacturing facilities, including salaries and related costs of personnel involved with our manufacturing activities;
- allocated overhead, personnel conducting research and development, as well as research and development performed by outside contractors or consultants for our collaborative licensing and development activities;

- royalties due to third parties on our revenues;
- packaging, testing, freight and shipping; and
- the cost of active pharmaceutical ingredients.

Research and Development Expenses

Our research and development expenses consist of expenses incurred in developing, testing, manufacturing and seeking regulatory approval of our product candidates, including:

- expenses associated with regulatory submissions, clinical trials and manufacturing, including additional expenses to prepare for the commercial manufacture of EXPAREL, such as the hiring and training of additional personnel;
- payments to third-party contract research organizations, contract laboratories and independent contractors;
- payments made to consultants who perform research and development on our behalf and assist us in the preparation of regulatory filings;
- payments made to third-party investigators who perform research and development on our behalf and clinical sites where such research and development is conducted;
- personnel related expenses, such as salaries, benefits, travel and other related expenses, including stock-based compensation;
- expenses incurred to maintain technology licenses; and
- facility, maintenance, and allocated rent, utilities, and depreciation and amortization, and other related expenses.

Clinical trial expenses for our product candidates are a significant component of our current research and development expenses. Product candidates in later stage clinical development, such as EXPAREL, generally have higher research and development expenses than those in earlier stages of development, primarily due to the increased size and duration of the clinical trials. We coordinate clinical trials through a number of contracted investigational sites and recognize the associated expense based on a number of factors, including actual and estimated subject enrollment and visits, direct pass-through costs and other clinical site fees.

From the Acquisition Date through September 30, 2010, we incurred research and development expenses of $95.1 million, of which $90.9 million is related to the development of EXPAREL. We incurred research and development expenses associated with the development of EXPAREL of $14.2 million for the nine months ended September 30, 2010, $25.2 million for the year ended December 31, 2009 and $31.9 million for the year ended December 31, 2008.

We expect to incur additional research and development expenses as we accelerate the development of EXPAREL in additional indications. These expenditures are subject to numerous uncertainties regarding timing and cost to completion. Completion of clinical trials may take several years or more and the length of time generally varies according to the type, complexity, novelty and intended use of a product candidate. We are currently unable to determine our future research and development expenses related to EXPAREL because the timing and outcome of the FDA's review of the NDA for EXPAREL is not currently known and the requirements of any additional clinical trials of EXPAREL for additional indications has yet to be determined. The cost of clinical development may vary significantly due to factors such as the scope, rate of progress, expense and outcome of our clinical trials and other development activities.

We acquired in-process research and development projects as part of the Acquisition. The estimated fair value of in-process research and development projects, which had not reached technological feasibility at the

Acquisition Date and which did not have an alternative future use, were immediately expensed. Accordingly, for the year ended December 31, 2007, we expensed $12.4 million of acquired in-process research and development related to the Acquisition.

Selling, General and Administrative Expenses

Selling, general and administrative expenses consist primarily of salaries, benefits and other related costs, including stock-based compensation, for personnel serving in our executive, finance, accounting, legal, human resource, and sales and marketing functions. Our selling, general and administrative expenses also include facility and related costs not included in research and development expenses and cost of revenues, professional fees for legal, consulting, tax and accounting services, insurance, depreciation and general corporate expenses. We expect that our selling, general and administrative expenses will increase with the continued development and potential commercialization of our product candidates and increased expenses associated with us becoming a public company. Additionally, we plan to build a commercial infrastructure for the anticipated launch of EXPAREL and we currently plan to hire most of our sales force only if EXPAREL is approved by the FDA.

Interest Income (Expense)

Interest income (expense) consists of interest income, interest expense, and royalty interest obligation. Interest income consists of interest earned on our cash and cash equivalents, and amortization of discount on a note receivable from one of our commercial partners. Interest expense consists primarily of cash and non-cash interest costs related to our credit facility, our secured and unsecured notes issued to certain of our investors that we expect will convert into common stock upon completion of this offering, and negotiated rent deferral payments. Royalty interest obligation consists of our royalty payments made in connection with the amended and restated royalty interests assignment agreement, or the Amended and Restated Royalty Interests Assignment Agreement, with Royalty Securitization Trust I, an affiliate of Paul Capital Advisors, LLC, or Paul Capital.

We record our royalty interest obligation as a liability in our consolidated balance sheets in accordance with ASC 470-10-25, Sales of Future Revenues. We impute interest expense associated with this liability using the effective interest rate method. The effective interest rate may vary during the term of the agreement depending on a number of factors including the actual sales of DepoCyt(e) and DepoDur and a significant estimation, performed quarterly, of certain of our future cash flows related to these products during the remaining term of the Amended and Restated Royalty Interests Assignment Agreement which terminates on December 31, 2014. The effect of the change in the estimates is reflected in our consolidated statements of operations as interest income (expense). In addition, such cash flows are subject to foreign exchange movements related to sales of DepoCyt(e) and DepoDur denominated in currencies other than U.S. dollars.

Critical Accounting Policies and Use of Estimates

We have based our management's discussion and analysis of our financial condition and results of operations on our financial statements that have been prepared in accordance with generally accepted accounting principles, or GAAP, in the United States. The preparation of these financial statements requires us to make estimates that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements as well as the reported revenues and expenses during the reporting periods. On an ongoing basis, we evaluate our estimates and judgments, including those related to clinical trial expenses and stock-based compensation. We base our estimates on historical experience and on various other factors we believe to be appropriate under the circumstances. Actual results may differ from these estimates under different assumptions or conditions.

While our significant accounting policies are more fully discussed in Note 2 to our audited consolidated financial statements included in this prospectus, we believe that the following accounting policies are critical to

the process of making significant judgments and estimates in the preparation of our financial statements. We have reviewed these critical accounting policies and estimates with the audit committee of our board of directors.

Revenue Recognition

We recognize revenue in accordance with SEC Staff Accounting Bulletin, or SAB, No. 104, *Revenue Recognition*, and Statement of Financial Accounting Standards, or ASC 605, *Revenue Recognition*.

Supply revenue. We recognize supply revenue from products manufactured and supplied to our commercial partners, when the following four basic revenue recognition criteria under the related accounting guidance are met: (1) persuasive evidence of an arrangement exists; (2) delivery has occurred or services have been rendered; (3) the fee is fixed or determinable; and (4) collectability is reasonably assured. Prior to the shipment of our manufactured products, we conduct initial product release and stability testing in accordance with cGMP. Our commercial partners can return the products within contracted specified timeframes if the products do not meet the applicable inspection tests. We estimate our return reserves based on our experience with historical return rates. Historically, our product returns have not been material.

Royalties. We recognize revenue from royalties based on our commercial partners' net sales of products. Royalties are recognized as earned in accordance with contract terms when they can be reasonably estimated and collectability is reasonably assured. Our commercial partners are obligated to report their net product sales and the resulting royalty due to us within 60 days from the end of each quarter. Based on historical product sales, royalty receipts and other relevant information, we accrue royalty revenue each quarter and subsequently true-up when we receive royalty reports from our commercial partners.

Collaborative licensing and development revenue. We recognize revenue from reimbursement received in connection with feasibility studies and development work for third parties who desire to utilize our DepoFoam extended release drug delivery technology for their products, when our contractual services are performed, provided collectability is reasonably assured. Our principal costs under these agreements include our personnel conducting research and development, and our allocated overhead, as well as research and development performed by outside contractors or consultants.

We recognize revenues from non-refundable up-front fees received under collaboration agreements ratably over the performance period as determined under the collaboration agreement (estimated development period in the case of development agreements, and contract period or longest patent life in the case of supply and distribution agreements). If the estimated performance period is subsequently modified, we will modify the period over which the up-front fee is recognized accordingly on a prospective basis. Upon termination of a collaboration agreement, any remaining non-refundable licensing fees received by us, which had been deferred, are generally recognized in full. All such recognized revenues are included in collaborative licensing and development revenue in our consolidated statements of operations.

We recognize revenue from milestone payments received under collaboration agreements when earned, provided that the milestone event is substantive, its achievability was not reasonably assured at the inception of the agreement, we have no further performance obligations relating to the event, and collectability is reasonably assured. If these criteria are not met, we recognize milestone payments ratably over the remaining period of our performance obligations under the collaboration agreement.

Research and Development Expenses

We expense all research and development costs as incurred. We rely on third parties to conduct our preclinical and clinical studies and to provide services, including data management, statistical analysis and electronic compilation for our clinical trials. We track and record information regarding third-party research and development expenses for each study or trial that we conduct and recognize these expenses based on the

estimated progress towards completion at the end of each reporting period. Factors we consider in preparing these estimates include the number of subjects enrolled in studies, milestones achieved and other criteria related to the efforts of our vendors. Historically, any adjustments we have made to these assumptions have not been material. Depending on the timing of payments to vendors and estimated services provided, we may record net prepaid or accrued expenses related to these costs.

We expense the manufacturing costs (labor and overhead) of our clinical supplies as incurred. To date, these expenses have not been material. Unused raw material for manufacturing clinical supplies is included in inventory and expensed when used.

Stock-Based Compensation

We have adopted the fair value recognition provisions of Financial Accounting Standards Board Accounting Standards Codification, or ASC, 718 "*Accounting for Stock Based Compensation*" (formerly Statement of Financial Accounting Standards No. 123(R), Share-Based Payments), which we refer to as ASC 718, using the modified prospective transition method. The modified prospective transition method applies the provisions of ASC 718 to new awards and to awards modified, repurchased or cancelled after the adoption date. Additionally, compensation cost for the portion of the awards for which the requisite service has not been rendered that are outstanding as of the adoption date is recognized in the Statement of Operations over the remaining service period after the adoption date based on the award's original estimate of fair value. All stock-based awards granted to non-employees are accounted for at their fair value in accordance with ASC 718, and ASC 505, "*Accounting for Equity Instruments that are Issued to Other Than Employees for Acquiring, or in Conjunction with Selling, Goods or Services*," under which compensation expense is generally recognized over the vesting period of the award. Determining the amount of stock-based compensation to be recorded requires us to develop estimates of fair values of stock options as of the grant date.

For the years ended December 31, 2007, 2008 and 2009, we recognized employee stock-based compensation expense of $80,000, $242,000 and $524,000, respectively. The intrinsic value of all outstanding vested and non-vested stock-based compensation arrangements, based on the initial public offering price of $ per share, is $ million, based on 16,178,011 shares of our common stock issuable upon exercise of stock-based compensation arrangements outstanding at November 30, 2010 at a weighted average exercise price of $0.15 per share.

We account for stock-based compensation by measuring and recognizing compensation expense for all stock-based payments made to employees and directors based on estimated grant date fair values. We use the straight-line method to allocate compensation cost to reporting periods over each optionee's requisite service period, which is generally the vesting period. We estimate the fair value of our stock-based awards to employees and directors using the Black-Scholes option valuation model, or Black-Scholes model. The Black-Scholes model requires the input of subjective assumptions, including the expected stock price volatility, the calculation of expected term and the fair value of the underlying common stock on the date of grant, among other inputs.

The following table summarizes our assumptions used in the Black-Scholes model:

	Year Ended December 31,			Nine Months Ended September 30,
	2007	2008	2009	2010
Expected volatility	75.1%	78.2%	82.0%	80.8%
Expected term (in years)	6.25	6.25	6.25	5.50 – 6.25
Risk-free interest rate	3.6% – 4.9%	1.9% – 3.8%	2.1% – 2.7%	1.7% – 2.8%
Expected dividend yield	0%	0%	0%	0%

Expected Volatility. The expected volatility rate used to value stock option grants is based on volatilities of a peer group of similar companies whose share prices are publicly available. The peer group was developed based on companies in the pharmaceutical and biotechnology industry in a similar stage of development.

Expected Term. We elected to utilize the "simplified" method for "plain vanilla" options to estimate the expected term of stock option grants. Under this approach, the weighted average expected life is presumed to be the average of the vesting term and the contractual term of the option.

Risk-Free Interest Rate. The risk-free interest rate assumption was based on zero coupon U.S. Treasury instruments that had terms consistent with the expected term of our stock option grants.

Expected Dividend Yield. We have never declared or paid any cash dividends and do not presently plan to pay cash dividends in the foreseeable future.

The following table summarizes by grant date the number of shares of our common stock subject to options granted in 2007, 2008, 2009 and 2010 through the date of this prospectus and the associated per-share exercise prices.

(1) Includes 11,458 unvested shares that we repurchased, for a nominal amount, from a stockholder pursuant to the terms of the 2007 Plan. These shares are still available for issuance pursuant to the 2007 Plan.

The exercise price of options to purchase our common stock granted to our employees, directors and consultants was the fair value of our common stock on the date of grant. The fair value of our common stock was determined by our board of directors. Prior to this offering, there has been no public market for our common stock. Our board of directors determined the fair value of our common stock based on several factors, including:

- valuation reports with respect to estimates of the fair values of our common stock;
- the substantial amount of claims of our creditors that are required to be satisfied prior to any payments or distributions to holders of our Series A convertible preferred stock and common stock;

- the aggregate principal amount of secured and unsecured indebtedness that is required to be discharged prior to any payments or distributions to holders of our of our Series A convertible preferred stock or common stock;
- the rights, preferences and privileges of our Series A convertible preferred stock relative to our common stock, including a substantial liquidation preference;
- the lack of marketability of our common stock;
- the price at which our Series A convertible preferred stock was sold;
- available data resulting from our clinical studies and development to date;
- our performance and stage of development;
- the likelihood of achieving a liquidity event for the shares of our common stock underlying these stock options, such as an initial public offering or sale of our company, given prevailing market conditions;
- the trading value of common stock of public companies comparable to us; and
- the sale prices of comparable acquisition transactions of public companies comparable to ours.

We obtained valuation reports with respect to estimates of the fair values of our common stock as follows:

- report dated June 27, 2007 for a valuation of our common stock as of April 30, 2007, or the April 2007 Report;
- report dated August 22, 2008 for a valuation of our common stock as of June 30, 2008, or the June 2008 Report; and
- report dated October 1, 2010 for a valuation of our common stock as of August 31, 2010, or the August 2010 Report.

In these reports, industry standard valuation methodologies were used to value our common stock, as described below. In estimating the fair value of our common stock, a probability weighting of the market approach and the income approach was used to first arrive at an enterprise value.

- The income approach is an estimate of the present value of the future monetary benefits expected to flow to the owners of a business. It requires a projection of the cash flows that the business is expected to generate over a forecast period and an estimate of the present value of cash flows beyond that period, which is referred to as residual value. These cash flows are converted to present value by means of discounting, using a rate of return that accounts for the time value of money and the appropriate degree of risks inherent in the business.
- The market approach encompasses (i) the comparable company approach and/or (ii) the recent transaction approach.

  (i) The comparable company approach relies on an analysis of publicly traded companies similar in industry and/or business model to a company. This approach uses these comparable companies to develop relevant market multiples and ratios such as revenues, earnings before interest and taxes, or EBIT, earnings before interest, taxes, depreciation and amortization, or EBITDA, net income and/or tangible book value. These multiples and values are then applied to a company's results.

  (ii) The recent transaction approach uses actual prices paid in merger and acquisition transactions for companies similar to a company. Exit multiples of total purchase prices paid to revenues, EBIT, EBITDA, net income and/or book value may be developed for each comparable transaction, if the data is available. These multiples are then applied to a company's latest twelve months and projected performance.

Since no two companies are perfectly comparable, premiums or discounts may be applied to the subject company if its position in its industry is significantly different from the position of the comparable companies, or if its intangible attributes are significantly different.

After calculation of a company's enterprise value using these approaches, adjusting for cash and debt, the value of a share of common stock is then discounted for lack of marketability, or the inability to readily sell shares, which increases the owner's exposure to changing market conditions and increases the risk of ownership.

After arriving at an enterprise value, the enterprise value was then allocated, adjusting for cash and debt, to our different classes of equity using:

- the probability-weighted expected return method, or PWERM, whereby the value of our common stock was estimated based on an analysis of future values for the equity assuming various future outcomes including liquidity events; and
- the option pricing method, or OPM, whereby the rights of preferred and common stockholders are treated as equivalent to that of call options on any value of the enterprise above certain break points of value based upon the preferred stockholders' liquidation preferences, rights to participation and conversion, and thus, the value of the common stock can be determined by estimating the value of its portion of each of these call option rights.

For the PWERM method, the valuations considered the following scenarios for achieving shareholder liquidity:

- an initial public offering of our common stock, or an IPO;
- our sale at an equity value greater than the aggregate liquidation preference of the preferred stock;
- our sale or liquidation at an equity value equal to or less than the aggregate liquidation reference of the preferred stock; and
- our continued, long term operation as a private company.

In the IPO scenario, the comparable transactions method was applied under the market approach as provided in the AICPA Technical Practice Aid, *Valuation of Privately-Held-Company Equity Securities Issued as Compensation* , or the AICPA Practice Aid. The selection of comparable companies included companies deemed comparable because of their focus on specialty pharmaceuticals, use of proprietary drug delivery technologies, stage of clinical trials, and size.

In the sale above liquidation preference scenario, the guideline transactions method was applied under the market approach as provided in the AICPA Practice Aid. The selection of transactions took into account the timing of the transactions and the characteristics of the acquired companies. Target companies were selected which were deemed comparable because of their focus on specialty pharmaceuticals, use of proprietary drug delivery technologies, stage of clinical trials, and size. In the liquidation scenario, a sale or liquidation of the company was assumed at an equity value equal to the aggregate liquidation preference of our preferred stock. In the private company scenario, it was assumed that we continued over the long term to operate as a private company. Future values for each scenario are converted to present value by applying a discount rate.

Options Granted from July 20, 2007 through April 17, 2008

Our board of directors valued our common stock to be $0.15 per share for options granted from July 20, 2007 through April 17, 2008. In determining the value of our common stock, our board of directors based its valuation, in part, on the April 2007 Report.

In determining the value of our common stock, the PWERM method was used as described above, employing four scenarios: an IPO, our sale at an equity value greater than the aggregate liquidation preference of

our Series A convertible preferred stock, our sale or liquidation at an equity value equal to or less than the aggregate liquidation preference of the preferred stock, and our continued, long term operation as a private company. Future values for each scenario are converted to present value by applying a discount rate of 41.0%, arrived at by using a size-adjusted capital asset pricing model, or CAPM. It was determined that using the PWERM method, the value of our common stock was $0.15 per share.

In addition, using the OPM method, our enterprise value was estimated employing a probability weighting of (i) the income approach, using discounted cash flows, a terminal value based on comparable publicly traded company revenue multiples and a risk-adjusted discount rate of 41.0%, (ii) the income approach, using discounted cash flows, a terminal value based on revenue multiples on comparable merger and acquisition transactions and a risk-adjusted discount rate of 41.0%, (iii) the market approach, using forward revenue multiples based on comparable publicly traded company revenue multiples, (iv) the market approach, using forward revenue multiples based on comparable merger and acquisition transactions and (v) the market approach, using the actual price paid in the Acquisition which occurred in March 2007. After determining our estimated enterprise value, it was then allocated among the various classes of our securities, including our Series A convertible preferred stock, common stock and options to purchase common stock using the Black-Scholes model. This allocation yielded an estimated value per share of our common stock of $0.21, which was reduced by a discount for lack of marketability of 30.0%, resulting in an estimated value per share of $0.15.

During this period, we granted options to purchase an aggregate of 8,931,400 shares of our common stock. As of November 30, 2010, options to purchase 417,886 of these shares of our common stock remain outstanding, options to purchase 1,178,838 of those shares were exercised and options to purchase 7,334,676 of these shares have been cancelled or surrendered. A portion of these options was cancelled as a result of employees and consultants terminating their service to us and not exercising the vested portion of their options prior to the expiration date. In addition, in March 2009, we adopted our company sale bonus plan which was amended and restated in March 2010, which is further described in "Executive Compensation—Company Sale Bonus Plan." As a condition to becoming a participant under the Company Sale Bonus Plan, most of the participants under the plan, including all of our executive officers and non-employee directors, agreed to have their existing option grants cancelled in March 2009.

Options Granted from June 19, 2008 through June 27, 2008

Our board of directors valued our common stock to be $0.20 per share for options granted from June 19, 2008 through June 27, 2008. This valuation was partly based on the valuation set forth in the April 2007 Report, the rights, preferences and privileges of our Series A convertible preferred stock relative to our common stock, the lack of marketability of our common stock and the price at which our Series A convertible preferred stock was sold.

During this period, options to purchase an aggregate of 780,000 shares of our common stock were granted. As of November 30, 2010, options to purchase only 26,125 of these shares of our common stock remain outstanding, options to purchase 6,458 of those shares were exercised and options to purchase 747,417 of these shares of our common stock have been cancelled or surrendered. These options were cancelled as a result of employees and consultants terminating their service to us and not exercising the vested portion of their options prior to the expiration date and the forfeiture of such options pursuant to the Company Sale Bonus Plan.

Options Granted from June 30, 2008 through December 9, 2008

Our board of directors valued our common stock to be $0.25 per share for options granted from July 30, 2008 through December 9, 2008. Our board of directors based its valuation on the June 2008 Report. In determining the value of our common stock, the PWERM method was used as described above, employing six scenarios: an IPO in 2009, an IPO in 2010, an IPO in 2011, our sale at an equity value greater than the aggregate liquidation preference of our Series A convertible preferred stock, our liquidation, and continued, long term operation as a private company. Future values for each scenario are converted to present value by applying a

discount rate of 30.0%, arrived at by using a size-adjusted CAPM. Using the PWERM method, the value of our common stock was $0.25 per share.

This valuation reflects the following positive factor:

- we successfully enrolled our Phase 3 clinical trials for EXPAREL.

The positive factor set forth above was offset by:

- a sharp deterioration in financial markets with accompanying decreases in market capitalization of companies comparable to ours;
- increased risk of running out of cash as the proceeds from the Series A convertible preferred stock financing were becoming exhausted; and
- increased difficulty in raising equity financing with accompanying financing uncertainty.

The value of our common stock from April 2007 to June 2008 increased from $0.15 per share to $0.25 per share. The change in value is primarily the result of an increase in our estimated enterprise value, offset by an increase in assigned probability of our sale at an equity value equal to or less than the aggregate liquidation preference of our Series A convertible preferred stock.

The change reflects the following positive factors:

- license of U.S. and EU marketing rights to DepoDur;
- launch of DepoDur in Australia;
- implementation of an expanded Phase 3 clinical development plan for EXPAREL; and
- execution of a license and development agreement with our development partner, Amylin, resulting in an up-front milestone payment of $8 million and the potential for significant future milestone and royalty payments.

The positive factors set forth above were partially offset by:

- a significant delay in the forecasted generation of material license and product revenues compared to our April 2007 forecast; and
- increased risk of running out of cash as the proceeds from the Series A convertible preferred stock financing were partially exhausted.

While no single factor listed above was specifically quantified or weighted greater than another in estimating our enterprise value, each was taken into account in calculating the discount rate for the discounted cash flow analysis, estimating the time to liquidity and the expense that would be required to achieve liquidity. A discount for lack of marketability of 22.9% was used for these options.

During this period, we granted options to purchase an aggregate of 1,200,000 shares of our common stock. As of September 30, 2010, options to purchase 58,000 of these shares of our common stock remain outstanding and options to purchase 1,142,000 of these shares have been cancelled or surrendered. A portion of these options was cancelled as a result of employees and consultants terminating their service to us and not exercising the vested portion of their options prior to the expiration date. In addition, in March 2009, we adopted our company sale bonus plan which was amended and restated in March 2010, which is further described in “Executive Compensation—Stock Option and Other Compensation Plans—Company Sale Bonus Plan.” As a condition to becoming a participant under the company sale bonus plan, most of the participants under the plan, including all of our executive officers and non-employee directors, agreed to have their existing option grants cancelled in March 2009.

Options Granted from April 16, 2009 through May 20, 2010

Our board of directors established an option exercise price of $0.25 per share for options granted from April 16, 2009 through May 20, 2010. During this period, the valuation was partly based on the valuation set forth in the June 2008 Report, the substantial amount of new secured and unsecured indebtedness that is required to be discharged prior to any payments or distributions to holders of our Series A convertible preferred stock and common stock, the rights, preferences and privileges of our Series A convertible preferred stock relative to our common stock, including an aggregate $85 million liquidation preference, the lack of marketability of our common stock and the price at which our Series A convertible preferred stock was sold.

During this period, our board of directors believed that the value of our common stock was at or below the value of $0.25 per share as set forth in the June 2008 Report, because of the following negative factors:

- two of our three Phase 3 clinical trials of EXPAREL did not meet their primary endpoint of superiority over the comparator arm and we discontinued a third trial;
- the proceeds from the Series A convertible preferred stock financing were exhausted; and
- the incurrence of a substantial amount of new secured and unsecured indebtedness during this period that is required to be discharged prior to any payments or distributions to holders of our of our Series A convertible preferred stock and common stock.

These negative factors were partially offset by the fact that our two Phase 3 placebo controlled trials of EXPAREL met their primary endpoint in the fourth quarter of 2009.

While no single factor listed above was specifically quantified or weighted greater than another in estimating the company's enterprise value, each was taken into account in estimating the time to liquidity and the expense that would be required to achieve liquidity.

During this period, we granted options to purchase an aggregate of 99,000 shares of our common stock. As of November 30, 2010, all of these options remained outstanding.

Options Granted on September 2, 2010

Our board of directors valued our common stock to be $0.15 per share for options granted on September 2, 2010, based on the August 2010 Report. In the August 2010 Report, the PWERM method was used employing four scenarios: an IPO early in 2011, an IPO in mid-2011, a merger or sale of the company or an out-license of our lead product candidate that results in an equity value greater than the aggregate liquidation preference of our Series A convertible preferred stock, and a sale of the company at an equity value equal to or less than the aggregate liquidation preference of our Series A convertible preferred stock. Future values for each scenario are converted to present value by applying a discount rate of 25.0%, based on returns to venture capitalist investors as set forth in the AICPA Practice Aid. Using the PWERM method, the value of our common stock at the valuation date was $0.15 per share. A discount for lack of marketability of 20.0% was used for these options.

The change in value for our common stock to $0.15 per share on September 2, 2010, as compared to the $0.25 per share value as of June 2008, is primarily the result of a materially similar estimated enterprise value in September 2010 compared to the enterprise value in June 2008 and the incurrence of secured and unsecured indebtedness in the aggregate principal amount of $51.25 million, $9.38 million of such amount was incurred between May 20, 2010 and September 2, 2010.

On , 2011, we and the underwriters determined a preliminary range for the initial public offering price. The midpoint of the range was $ per share as compared to $0.15 per share, which was based on the August 2010 Report. We note that, as is typical in initial public offerings, the preliminary range was not derived using a formal determination of fair value, but was determined based upon discussions between us

and the underwriters. Among the factors considered in setting the preliminary range were prevailing market conditions and estimates of our business potential. In addition to this difference in purpose and methodology, we believe that the difference in value reflected between the midpoint of the preliminary range and management's determination of the value of our common stock on September 2, 2010 was primarily because history has shown that it is reasonable to expect that the completion of an initial public offering will increase the value of stock as a result of the significant increase in the liquidity and ability to trade/sell such securities. However, it is not possible to measure such increase in value with precision or certainty.

Based on the $ midpoint of the estimated price range shown on the cover of this prospectus, the intrinsic value of the options granted on September 2, 2010, the last date we granted stock options, was approximately $. Also based on the $ midpoint of the estimated price range shown on the cover of this prospectus, the intrinsic value of outstanding options as of November 30, 2010 was $ million, of which $ million related to vested options and $ million related to unvested options.

Internal Control over Financial Reporting

Effective internal control over financial reporting is necessary for us to provide reliable annual and quarterly financial reports and to prevent fraud. If we cannot provide reliable financial reports or prevent fraud, our operating results and financial condition could be materially misstated and our reputation could be significantly harmed. As a private company, we were not subject to the same standards as a public company. As a public company, we will be required to file annual and quarterly reports containing our consolidated financial statements and will be subject to the requirements and standards set by the Securities and Exchange Commission, or SEC.

Revenues. Revenues increased by $1.6 million, or 15%, to $12.4 million in the nine months ended September 30, 2010 as compared to $10.7 million in the nine months ended September 30, 2009. The increase reflects an increase of supply revenue of $2.9 million, partially offset by a decrease of royalties of $0.2 million and of collaborative licensing and development revenue of $1.0 million. Supply revenue increased due to a significant increase in DepoCyt(e) product orders from our European commercial partner, Mundipharma, and from our new U.S. commercial partner, Sigma-Tau, subsequent to its acquisition of the product as part of a larger product portfolio acquisition in January 2010. Royalties declined in part due to lower DepoCyt market sales in the United States in the nine months ended September 30, 2010 as compared to the same period in 2009. The decrease in collaborative licensing and development revenue reflected a reduction in contract development activities for Amylin, for the nine months ended September 30, 2010, as well as a one-time purchase of equipment for which we were reimbursed by Amylin in the nine months ended September 30, 2009.

Cost of Revenues. Cost of revenues increased by $1.3 million, or 15%, to $10.2 million in the nine months ended September 30, 2010 as compared to $8.8 million in the nine months ended September 30, 2009. The increase reflects a $2.0 million increase in cost of supply revenue and royalties, offset by a $0.7 million decrease

in cost of collaborative licensing and development revenue as our personnel were re-assigned to internal research and development projects subsequent to the reduction in contract development activities for Amylin.

Research and Development Expenses. Research and development expenses decreased by $3.8 million, or 20%, to $15.0 million in the nine months ended September 30, 2010 as compared to $18.7 million in the nine months ended September 30, 2009. The decrease was primarily due to a decrease in clinical study expenses in the nine months ended September 30, 2010 as compared to the comparable period in 2009, during which time the pivotal placebo controlled Phase 3 studies were completed.

In the nine months ended September 30, 2010 and 2009, research and development expenses attributable to EXPAREL were $14.2 million, or 95%, and $17.9 million, or 96%, respectively of total research and development expenses. The remaining research and development expenses related to our other product candidates.

Selling, General and Administrative Expenses. Selling, general and administrative expenses increased by $21,000, or 1%, to $3.9 million in the nine months ended September 30, 2010 as compared to $3.9 million in the nine months ended September 30, 2009. Selling expenses decreased by $0.3 million, or 43%, to $0.4 million in the nine months ended September 30, 2010 as compared to $0.7 million in the nine months ended September 30, 2009. The decrease in selling expenses reflects the termination of our commercial personnel in February 2009. General and administrative expenses increased by $0.3 million, or 9%, to $3.5 million in the nine months ended September 30, 2010 as compared to $3.2 million in the nine months ended September 30, 2009.

Other Income (Expense). Other income decreased by $0.3 million to $0.1 million in the nine months ended September 30, 2010 as compared to $0.4 million in the nine months ended September 30, 2009. The decrease was primarily due to a lower amount of gains realized on settlements with trade creditors in 2010 as a result of lower proportionate settlement payments.

Interest Income (Expense). Interest expense increased by $1.2 million, or 49%, to $3.5 million in the nine months ended September 30, 2010 as compared to $2.4 million in the nine months ended September 30, 2009. Interest expense increased by $1.6 million in the nine months ended September 30, 2010 as compared to the nine months ended September 30, 2009, driven by debt financing activities in 2009 and 2010, and was partially offset by a $0.3 million credit, resulting primarily from the periodic revaluation adjustment of our liability under the Amended and Restated Royalty Interests Assignment Agreement.

Revenues. Revenues increased by $1.1 million, or 8%, to $15.0 million in the year ended December 31, 2009 as compared to $13.9 million in the year ended December 31, 2008. The increase was primarily due to increases of collaborative licensing and development revenue of $1.2 million and royalties of $0.4 million, offset by a decrease in supply revenue of $0.5 million. The increase in collaborative licensing and development revenue reflected in part a $1.0 million increase in contract development activities for Amylin in 2009, and an increase in 2009 milestone revenue resulting from a milestone payment from our U.S. DepoDur commercial partner, EKR,

paid at the end of 2008. The increase in royalties in 2009 reflected an increase in end user sales of DepoCyt(e) in 2009, offset by a decline in DepoDur royalties. The decrease in supply revenue in 2009 was primarily due to EKR gradually selling down excess inventory accumulated in 2008.

Cost of Revenues. Cost of revenues decreased by $5.2 million, or 30%, to $12.3 million in the year ended December 31, 2009 as compared to $17.5 million in the year ended December 31, 2008. The decrease was primarily due to reduction in cost of supply revenue, driven by cost control measures initiated in December 2008 and April 2009, including a reduction in force of manufacturing and support personnel, decreased reliance on outsourced providers to support our manufacturing activities, and elimination of non-essential activities.

Research and Development Expenses. Research and development expenses decreased by $7.0 million, or 21%, to $26.2 million in the year ended December 31, 2009 from $33.2 million in the year ended December 31, 2008. This decrease resulted primarily from a $6.1 million decrease in clinical trials costs, to $8.7 million in 2009 from $14.8 million in 2008. In 2009, we completed our pivotal Phase 3 placebo controlled studies, as compared to in 2008 when we incurred most of the expenses for three Phase 3 comparator studies as well as three Phase 2 studies.

In the years ended December 31, 2009 and 2008, research and development expenses attributable to EXPAREL were $25.2 million, or 96%, and $31.9 million, or 96% of total research and development expenses, respectively. The remaining research and development expenses related to our other product candidate initiatives.

Selling, General and Administrative Expenses. Selling, general and administrative expenses decreased by $3.6 million, or 42%, to $5.0 million in the year ended December 31, 2009 from $8.6 million in the year ended December 31, 2008. Selling expenses were $1.6 million lower in 2009 as compared to 2008, as we curtailed our pre-commercial efforts in early 2009, resulting in $1.0 million decrease in outside services and $0.3 million decrease in compensation expenses. General and administrative expenses decreased by $2.0 million in the year ended December 31, 2009 as compared to 2008, primarily due to a $0.8 million decrease in salary expenses and a $0.7 million decrease in severance and recruiting expenses.

Other Income (Expense). Other income increased by $0.6 million, to $0.4 million in the year ended December 31, 2009 as compared to $0.2 million in other expense in the year ended December 31, 2008. The increase was primarily due to a gain realized on settlement with trade creditors in 2009.

Interest Income (Expense). Interest expense increased by $7.3 million in the year ended December 31, 2009, to $3.5 million, as compared to interest income of $3.7 million in the year ended December 31, 2008. The increase was primarily due to the impact of the periodic revaluation adjustment of our liability under the Amended and Restated Royalty Interests Assignment Agreement, resulting in $5.4 million increase in royalty interest obligations, and due to a $1.7 million increase of interest expense accrual as a result of our debt financing activities in 2009.

Comparison of Years Ended December 31, 2008 and 2007

The combined statement of operations for the year ended December 31, 2007 represents the statement of operations of the Successor for the year ended December 31, 2007 (for which there was no activity prior to the Acquisition Date).

Revenues. Revenues increased by $5.6 million, or 67%, to $13.9 million in the year ended December 31, 2008 as compared to $8.3 million in the year ended December 31, 2007. The increase was due to increases of collaborative licensing and development revenue of $2.9 million, of supply revenue of $1.4 million and of royalties of $1.3 million. The increase in collaborative licensing and development revenue reflected in part $1.4 million of contract development activities for Amylin after we entered into an agreement in April 2008, and an increase in 2008 milestone revenue resulting from an up-front milestone payment from Amylin. The increase in supply revenue and royalties in the year ended December 31, 2008 reflected higher end user sales for our commercial partners, as well as 2008 reflecting a full year of operations in comparison to 2007, which reflects operations from the Acquisition Date.

Cost of Revenues. Cost of revenues increased by $8.0 million, or 84%, to $17.5 million in the year ended December 31, 2008 as compared to $9.5 million in the year ended December 31, 2007. The increase was primarily due an increase in cost of supply revenue of $5.7 million and an increase in cost of collaborative licensing and development revenue of $2.1 million. The increase in cost of supply revenue reflects higher manufacturing and support personnel, higher cost of manufacturing supplies and increased outsourced services in support of the manufacturing activities as well as 2008 reflecting a full year of operations in comparison to 2007 which reflects operations from the Acquisition Date. The increase in cost of collaborative licensing and development revenue reflects the additional personnel and overhead allocated to servicing our collaborative licensing partners as well as 2008 reflecting a full year of operations in comparison to 2007, which reflects operations from the Acquisition Date.

Research and Development Expenses. Research and development expenses increased by $12.5 million, or 61%, to $33.2 million in the year ended December 31, 2008 as compared to $20.7 million in the year ended December 31, 2007. This increase resulted primarily from a $8.2 million increase in clinical trial costs, to $14.8 million in 2008 from $6.6 million in 2007. In 2008, we incurred most of the expenses for three Phase 3 clinical trials and three Phase 2 clinical trials, as compared to 2007 when we incurred most of the expenses for three Phase 2 clinical trials and one Phase 1 clinical trial, as well as 2008 reflecting a full year of operations in comparison to 2007, which reflects operations from the Acquisition Date.

In the years ended December 31, 2008 and 2007, research and development expenses attributable to EXPAREL were $31.9 million, or 96%, and $19.6 million, or 95% of total research and development expenses, respectively. The remaining research and development expenses are related to our other product candidate initiatives.

Selling, General and Administrative Expense. Selling, general and administrative expenses increased by $4.4 million, or 106%, to $8.6 million in the year ended December 31, 2008 from $4.2 million in the year ended December 31, 2007. Selling expenses related to pre-commercial efforts were $2.4 million in 2008, and we did not incur any selling expenses in 2007. General and administrative expenses increased by $2.0 million in 2008 as compared to 2007, reflecting a full year of operations in comparison to 2007, which reflects operations from the Acquisition Date.

In-Process Research and Development Expenses. There were no in-process research and development expenses in the year ended December 31, 2008, as compared to $12.4 million in the year ended December 31, 2007. We acquired and expensed $12.4 million of in-process research and development projects as part of the Acquisition.

Other Income (Expense). Other expense increased by $0.2 million, to $0.2 million in the year ended December 31, 2008 as compared to $16,000 in other income in the year ended December 31, 2007. The increase was primarily due to unfavorable foreign currency exchange rate movement between the euro and dollar for DepoCyte sales in Europe and between the pound sterling and dollar for value added tax refunds in Europe.

Interest Income (Expense). Interest income increased $1.5 million, to $3.7 million in the year ended December 31, 2008 as compared to interest income of $2.2 million in the year ended December 31, 2007. The

increase was primarily due to the impact of the periodic revaluation adjustment of our liability under the Amended and Restated Royalty Interests Assignment Agreement, offset by $0.2 million lower interest income, as well as 2008 reflecting a full year of operations in comparison to 2007, which reflects operations from the Acquisition Date.

Liquidity and Capital Resources

Since our inception in 2007, we have devoted most of our cash resources to research and development and general and administrative activities primarily related to the development of EXPAREL. We have financed our operations primarily with the proceeds of the sale of convertible preferred stock, secured and unsecured notes and borrowings under debt facilities, supply revenue, royalties and collaborative licensing and development revenue. To date, we have generated limited supply revenue and royalties, and we do not anticipate generating any revenues from the sale of EXPAREL, if approved, until at least the fourth quarter of 2011. We have incurred losses and generated negative cash flows from operations since inception. As of September 30, 2010, we had an accumulated deficit of $129.9 million, cash and cash equivalents of $13.9 million and working capital of $6.6 million.

The following table summarizes our cash flows from operating, investing and financing activities for the years ended December 31, 2007, 2008 and 2009 and the nine months ended September 30, 2009 and September 30, 2010:

Operating Activities

For the nine months ended September 30, 2010 and 2009, our net cash used in operating activities was $19.0 million and $21.7 million, respectively. The decrease in net cash used in operating activities in the nine months ended September 30, 2010 resulted from an increase in accounts payable and a decrease in inventory, offset by a decrease in research and development expenses and an increase in accounts receivable related to DepoCyt(e) supply revenue on product shipped to our commercial partners.

For the years ended December 31, 2009, 2008 and 2007, our net cash used in operating activities was $20.8 million, $29.2 million and $13.4 million, respectively. The decrease in net cash used in operating activities in 2009 resulted from lower research and development and selling expenses and a $3.8 million increase in the deferred revenue balance, primarily due to receipt of license fees from our commercial partners, offset by a decrease in accounts payable of $4.4 million. The increase in net cash used in operating activities in 2008 resulted from increased spending on research and development expenses and an increase in accounts receivable of $1.6 million, offset by an increase in accounts payable of $4.8 million, and an increase in deferred revenue of $11.3 million primarily due to receipt of license fees.

Investing Activities

For the nine months ended September 30, 2010 and 2009, our net cash used in investing activities was $3.8 million and $5.1 million, respectively. The net cash used in investing activities in the nine months ended

For the years ended December 31, 2009, 2008 and 2007, our net cash used in investing activities was $5.5 million, $5.8 million and $24.4 million, respectively. The net cash used in investing activities in 2009 and 2008 was primarily for the purchases of fixed assets of $5.5 million and $5.8 million, respectively. The cash used in investing activities in 2007 was primarily to fund the $19.6 million purchase price of the Acquisition, and for the purchases of fixed assets of $2.1 million.

Financing Activities

The cash provided by financing activities in the nine months ended September 30, 2010 and 2009 was primarily the result of increased borrowings and the issuance and sale of notes payable, for total net proceeds of $30.0 million and $19.0 million, respectively.

For the years ended December 31, 2009, 2008 and 2007, our net cash provided by financing activities was $21.0 million, $40.2 million and $45.1 million, respectively. The net cash provided by financing activities in 2009 was primarily due to the sale and issuance of notes payable, for total net proceeds of $21.0 million. The cash provided by financing activities in 2008 was due primarily to the sale and issuance of our Series A convertible preferred stock, for total net proceeds of $40.0 million. The cash provided by financing activities in 2007 was due primarily to the sale and issuance of shares of our Series A convertible preferred stock for total net proceeds of $45.0 million.

Equity Financings

From inception through September 30, 2010, we have received net proceeds of $85 million from the sale of our Series A convertible preferred stock. The various issuances of our Series A convertible preferred stock are described in more detail under “Related Person Transactions—Preferred Stock Issuances.”

Debt Facilities

As of November 30, 2010, we had $66.25 million in aggregate principal amount of debt outstanding, including $26.25 million under the Hercules Credit Facility, $3.75 million pursuant to secured notes we issued to one of our investors and $36.25 million under various secured and convertible notes that we issued to certain of our investors in 2009 and 2010. Pursuant to an agreement entered into in October 2010 between us and the holders of the convertible and secured notes, the convertible and secured notes will convert into 35,112,715 shares of our common stock upon completion of this offering. The table below shows the principal amount of our indebtedness and the number of shares of our common stock that we expect our indebtedness will convert into.

Debt Issue	Principal amount	Conversion Shares
Hercules Credit Facility	$26.25 million	—
2009 Convertible Notes	10.63 million	9,374,446
2009 Secured Notes	10.63 million	9,979,369
2010 Secured Notes	15.00 million	12,439,302
HBM Secured Notes	3.75 million	3,319,598

Hercules Credit Facility. On November 24, 2010, we entered into a $26.25 million credit facility with Hercules Technology Growth Capital, Inc. and Hercules Technology III, L.P., as lenders. At the closing of the Hercules Credit Facility, we entered into a term loan in the aggregate principal amount of $26.25 million, which was the full amount available under the Hercules Credit Facility. As of November 30, 2010, the entire term loan of $26.25 million was outstanding. The term loan under the Hercules Credit Facility is comprised of two tranches, Tranche A and Tranche B. The Tranche A portion of the term loan is comprised of $11.25 million in principal and carries a floating per annum interest rate equal to 10.25% plus the amount, if any, by which the

prime rate exceeds 4.00%. Upon the release of the investors' guaranty (described below), the interest rate on the Tranche A portion of the term loan will increase to a floating per annum interest rate equal to 11.00% plus the amount, if any, by which the prime rate exceeds 4.00%. The Tranche B portion of the term loan is comprised of $15.0 million in principal and carries a floating per annum interest rate equal to 12.65% plus the amount, if any, by which the prime rate exceeds 4.00%. As of November 30, 2010, the interest rate on the Tranche A portion was 10.25% and on the Tranche B portion was 12.65%. Interest on the term loan is payable monthly. If there is an event of default under the Hercules Credit Facility, we will be obligated to pay interest at a higher default rate. The proceeds of the term loan under the Hercules Credit Facility have been used to repay the GECC Credit Facility in full and the remainder will be used for other general corporate purposes.

As further consideration to the lenders to provide the term loan to us under the Hercules Credit Facility, we issued to the lenders a warrant to purchase 1,925,000 shares of our Series A convertible preferred stock. If after the closing date of the Hercules Credit Facility and prior to the completion of our proposed initial public offering, we issue equity securities in a private placement then the lenders may, at their option, exercise the warrant for the same class and type of equity securities that we issue in such private placement in lieu of Series A convertible preferred stock. The exercise price for the shares to be issued under the warrant is equal to $1.25 per share or the price per share paid in a private placement. The warrant is valid from the date of issuance until the earlier to occur of ten (10) years from the date of issuance or five (5) years following the effective date of the registration statement of which this prospectus is a part.

The Hercules Credit Facility provides for an "interest only period" when no principal amounts are due and payable. The interest only period runs initially from November 24, 2010 through August 31, 2011, but can be extended, at our request, to either November 30, 2011 or February 28, 2012 if certain conditions are satisfied. Following the end of the interest only period, the term loan is to be repaid in 33 equal monthly installments of principal and interest beginning on the first business day after the month in which the interest only period ends. Amounts repaid may not be re-borrowed. We can, at any time, prepay all or any part of the term loan provided that so long as the investors' guaranty (as described below) is in effect, we cannot prepay any part of the Tranche A portion of the term loan without the lenders' consent if any of the Tranche B portion is outstanding. If the investors' guaranty is not in effect, then any prepayments are to be applied pro rata across the outstanding balance of both portions of the term loan. In connection with any prepayments of the term loan under the Hercules Credit Facility, we are required to pay, in addition to all principal and accrued and unpaid interest on such term loan, a prepayment charge equal to 1.25% of the principal amount being prepaid. In addition, there is an end of term charge that is payable to the lenders upon the earliest to occur of the maturity date, the prepayment in full of our obligations under the Hercules Credit Facility and the acceleration of our obligations under the Hercules Credit Facility.

The Hercules Credit Facility is secured by a first priority lien on all of our assets other than the assets that secure our obligations under Amended and Restated Royalty Interests Assignment Agreement (as described below). In addition, the Hercules Credit Facility is guaranteed by certain of our investors (other than the entities affiliated with HBM) on a several and not joint basis which guarantee is limited to each investor's pro rata portion of the outstanding principal and accrued and unpaid interest under the Hercules Credit Facility, but in no event exceeding $11.25 million in the aggregate. The Hercules loan agreement provides that, upon the occurrence of certain circumstances and upon our request, the investors' guarantee may be terminated and released.

The Hercules loan and security agreement also contains a provision that entitles the lenders to, subject to applicable securities laws and regulatory requirements, a limited right to participate in any equity financings that occur between the closing date of the Hercules Credit Facility and the completion of this offering.

The Hercules loan and security agreement contains events of default including payment default, default arising from the breach of the provisions of the Hercules loan and security agreement and related documents (including the occurrence of certain changes in control, including if our chief executive officer ceases under

certain conditions to be involved in the daily operations or management of the business, or if certain holders of our capital stock cease to retain, after the consummation of certain corporate transactions, shares representing more than 50% of the surviving entity after such transactions (provided that our initial public offering shall not constitute such a change in control)) or the inaccuracy of representations and warranties contained in the loan and security agreement, attachment default, bankruptcy and insolvency, cross-default with respect to certain other indebtedness (including certain events under the Amended and Restated Royalty Interests Assignment Agreement), breach of the terms of any guarantee (including the investors' guarantee) of the Hercules Credit Facility, the occurrence of a material adverse effect (as defined in the Hercules loan and security agreement).

The occurrence of an event of default under the Hercules Credit Facility could trigger the acceleration of our obligations under the Hercules Credit Facility or allow the lenders to exercise other rights and remedies, including rights against our assets that secure the Hercules Credit Facility and rights under guarantees provided to support the obligations under the Hercules Credit Facility.

The Hercules loan and security agreement contains a number of affirmative and restrictive covenants, including reporting requirements and other collateral limitations, certain limitations on liens and indebtedness, dispositions, mergers and acquisitions, restricted payments and investments, corporate changes and waivers and amendments to certain agreements, our organizational documents, and documents relating to debt that is subordinate to our obligations under the Hercules Credit Facility.

GECC Credit Facility. On April 30, 2010, we entered into an $11.25 million credit facility with General Electric Capital Corporation, as both agent and the sole lender, or the GECC Credit Facility. We borrowed the full $11.25 million under the GECC Credit Facility. On November 24, 2010, all borrowings under the GECC Credit Facility were repaid in full from proceeds of the Hercules Credit Facility, and the GECC Credit Facility was terminated and any and all liens in favor of the lenders under the GECC Credit Facility were released.

Investor Notes to be Converted into Common Stock.

2009 Convertible Notes. In January 2009, we sold $10.63 million in aggregate principal amount of convertible promissory notes, or the 2009 Convertible Notes, to certain of our existing investors. In connection with the issuance of the 2009 Convertible Notes, we issued warrants to purchase an aggregate of 1,700,000 shares of our common stock with an exercise price of $0.25 per share. The 2009 Convertible Notes have an interest rate of 5% per year and all principal and accrued and unpaid interest on the 2009 Convertible Notes was due on December 31, 2010. In connection with entering into the Hercules Credit Facility, the maturity date of the 2009 Convertible Notes was extended to the earliest of (1) a sale of us, (2) the date which is 30 days after the last day of the month that is 33 months after the expiration of the "interest only period" under the Hercules Credit Facility (as described above) and (3) 91 days after the date that all obligations under the Hercules Credit Facility are paid in full and the Hercules Credit Facility is terminated. In connection with entering into the Hercules Credit Facility, the holders of the 2009 Convertible Notes entered into a subordination and intercreditor agreement with the lenders under the Hercules Credit Facility pursuant to which the 2009 Convertible Notes were subordinated to the Hercules Credit Facility. The holders of the 2009 Convertible Notes previously entered into a separate intercreditor agreement with the holders of the 2009 Secured Notes (as described below) and the 2010 Secured Notes (as described below) pursuant to which the 2009 Convertible Notes were subordinated to the 2009 Secured Notes and the 2010 Secured Notes, and the holders of the 2009 Secured Notes agreed to share payments pro rata with the holders of the 2010 Secured Notes. As of November 30, 2010, $11.5 million aggregate principal and accrued and unpaid interest was outstanding under the 2009 Convertible Notes. All principal and interest due on the 2009 Convertible Notes will be converted into 9,374,446 shares of our common stock upon completion of this offering.

2009 Secured Notes. In June 2009, we entered into an agreement with certain of our existing investors to issue $10.63 million in aggregate principal amount of secured notes, or the 2009 Secured Notes. To secure the performance of our obligations under the purchase agreement for the 2009 Secured Notes, we granted a security

interest in substantially all of our assets, including our intellectual property assets, except the assets that secure our obligations under our agreement with Paul Capital. In connection with entering into the Hercules Credit Facility, the holders of the 2009 Secured Notes entered into a subordination and intercreditor agreement with the lenders under the Hercules Credit Facility pursuant to which the 2009 Secured Notes were subordinated to the Hercules Credit Facility. As described above under "—Investor Notes to be Converted into Common Stock—2009 Convertible Notes," the holders of the 2009 Secured Notes previously entered into a separate intercreditor agreement with the holders of the 2009 Convertible Notes and the 2010 Secured Notes which set out certain priorities among those parties.

The 2009 Secured Notes have an interest rate of 12% per year and all principal and accrued and unpaid interest on the 2009 Convertible Notes was due on December 31, 2010. In connection with entering into the Hercules Credit Facility, the maturity date of the 2009 Secured Notes was extended to the earliest of (1) a sale of us, (2) the date which is 30 days after the last day of the month that is 33 months after the expiration of the "interest only period" under the Hercules Credit Facility (as described above) and (3) 91 days after the date that all obligations under the Hercules Credit Facility are paid in full and the Hercules Credit Facility is terminated. As of November 30, 2010, $12.0 million aggregate principal and accrued and unpaid interest was outstanding under the 2009 Secured Notes. All principal and interest due on the 2009 Secured Notes will be converted into 9,979,369 shares of our common stock upon completion of this offering.

2010 Secured Notes. In March 2010, we entered into an agreement with certain of our existing investors to issue $15.0 million in aggregate principal amount of secured notes and the investors purchased the entire $15.0 million of 2010 Secured Notes. To secure the performance of our obligations under the purchase agreement for the 2010 Secured Notes, we granted a subordinated security interest in substantially all of our assets, including our intellectual property assets, except the assets that secure our obligations under the Amended and Restated Royalty Interests Agreement. In connection with entering into the Hercules Credit Facility, the holders of the 2010 Secured Notes entered into a subordination and intercreditor agreement with the lenders under the Hercules Credit Facility pursuant to which the 2010 Secured Notes were subordinated to the Hercules Credit Facility. As described above under "—Investor Notes to be Converted into Common Stock—2009 Convertible Notes," the holders of the 2010 Secured Notes previously entered into a separate intercreditor agreement with the holders of the 2009 Convertible Notes and the 2009 Secured Notes which set out certain priorities among those parties.

The 2010 Secured Notes have an interest rate of 5% per year and all principal and accrued and unpaid interest on the 2010 Secured Notes is due on December 31, 2010. In connection with entering into the Hercules Credit Facility, the maturity date of the 2010 Secured Notes was extended to the earliest of (1) a sale of us, (2) the date which is 30 days after the last day of the month that is 33 months after the expiration of the "interest only period" under the Hercules Credit Facility (as described above) and (3) 91 days after the date that all obligations under the Hercules Credit Facility are paid in full and the Hercules Credit Facility is terminated. As of November 30, 2010, $15.3 million in aggregate principal and accrued and unpaid interest was outstanding pursuant to the 2010 Secured Notes. All principal and interest due on the 2010 Secured Notes will be converted into 12,439,302 shares of our common stock upon completion of this offering.

HBM Term Loan. On April 30, 2010, we entered into a subordinated secured note purchase agreement with entities affiliated with HBM BioVentures, or HBM, to issue $3.75 million in aggregate principal amount of secured notes, or the HBM Secured Notes. To secure the performance of our obligations under the purchase agreement for the HBM Secured Notes, we granted a subordinated security interest in substantially all of our assets, including our intellectual property assets, other than the assets that secure our obligations under the Amended and Restated Royalty Interests Agreement. The HBM Secured Notes carry an interest rate of approximately 10% per year. In addition, the HBM Secured Notes require a final payment fee if they are prepaid prior to the maturity date. The maturity date of the HBM Secured Notes is the earliest of (1) a sale of us, (2) the date which is 30 days after the last day of the month that is 33 months after the expiration of the "interest only period" under the Hercules Credit Facility (as described above) and (3) 91 days after the date that all obligations under the Hercules Credit Facility are paid in full and the Hercules Credit Facility is terminated. In connection

with entering into the Hercules Credit Facility, the holders of the HBM Secured Notes entered into a subordination and intercreditor agreement with the lenders under the Hercules Credit Facility pursuant to which the HBM Secured Notes were subordinated to the Hercules Credit Facility. As of November 30, 2010, $3.8 million in aggregate principal and accrued and unpaid interest was outstanding pursuant to the HBM Secured Notes. All principal and interest due on the HBM Secured Notes will be converted into 3,319,598 shares of our common stock upon completion of this offering.

Royalty Interests Assignment Agreement

On March 23, 2007, we entered into the Amended and Restated Royalty Interests Assignment Agreement with Paul Capital, pursuant to which we assigned to Paul Capital the right to receive up to approximately 20% of our royalty payments from DepoCyt(e) and DepoDur. The original agreement was entered into prior to the Acquisition by the Predecessor in order to monetize certain royalty payments from DepoCyt(e) and DepoDur. In connection with the Acquisition, the original agreement with Paul Capital was amended and restated and the responsibility to pay the royalty interest in product sales of DepoCyt(e) and DepoDur was transferred to us and we were required to make payments to Paul Capital upon the occurrence of certain events. To secure our obligations to Paul Capital, we granted Paul Capital a security interest in collateral which includes the royalty payments we are entitled to receive with respect to sales of DepoCyt(e) and DepoDur, as well as to bank accounts to which such payments are deposited. Under our arrangement with Paul Capital, upon the occurrence of certain events, including if we experience a change of control, undergo certain bankruptcy events of us or our subsidiary, transfer any or substantially all of our rights in DepoCyt(e) and/or DepoDur, transfer all or substantially all of our assets, breach certain of the covenants, representations or warranties under the Amended and Restated Royalty Interests Assignment Agreement, or sales of DepoCyt(e) and/or DepoDur are suspended due to an injunction or if we elect to suspend sales of DepoCyt(e) and/or DepoDur as a result of a lawsuit filed by certain third parties, Paul Capital may require us to repurchase the rights we assigned to it at a cash price equal to (a) 50% of all cumulative payments made by us to Paul Capital under the Amended and Restated Royalty Interests Assignment Agreement during the preceding 24 months, multiplied by (b) the number of days from the date of Paul Capital's exercise of such option until December 31, 2014, divided by 365. Under the terms of the Amended and Restated Royalty Interests Assignment Agreement, this offering would not constitute a change of control.

Future Capital Requirements

We believe that the net proceeds from this offering, together with our existing cash and cash equivalents and revenue from product sales, will be sufficient to enable us to fund our operating expenses, capital expenditure requirements and service our indebtedness for at least the next 12 months. However, no assurance can be given that this will be the case, and we may require additional debt or equity financing to meet our working capital requirements. We expect that the net proceeds from this offering will be sufficient for our planned manufacture and commercialization of EXPAREL in the United States. Our need for additional external sources of funds will depend significantly on the level and timing of our sales of EXPAREL. Moreover, changing circumstances may cause us to expend cash significantly faster than we currently anticipate, and we may need to spend more cash than currently expected because of circumstances beyond our control.

Our expectations regarding future cash requirements do not reflect the potential impact of any future acquisitions, mergers, dispositions, joint ventures or investments that we make in the future. We have no current understandings, agreements or commitments for any material acquisitions or licenses of any products, businesses or technologies. We may need to raise substantial additional capital in order to engage in any of these types of transactions.

We expect to continue to incur substantial additional operating losses as we seek FDA approval for and commercialize EXPAREL and develop and seek regulatory approval for our other product candidates. If we obtain FDA approval for EXPAREL, we will incur significant sales and marketing and manufacturing expenses.

In addition, we expect to incur additional expenses to add operational, financial and information systems and personnel, including personnel to support our planned product commercialization efforts. We also expect to incur significant costs to comply with corporate governance, internal controls and similar requirements applicable to us as a public company following the closing of this offering.

Our future use of operating cash and capital requirements will depend on many forward-looking factors, including the following:

- the timing and outcome of the FDA's review of the NDA for EXPAREL;
- the extent to which the FDA may require us to perform additional clinical trials for EXPAREL;
- the timing and success of this offering;
- the costs of our commercialization activities for EXPAREL, if it is approved by the FDA;
- the cost and timing of expanding our manufacturing facilities and purchasing manufacturing and other capital equipment for EXPAREL and our other product candidates;
- the scope, progress, results and costs of development for additional indications for EXPAREL and for our other product candidates;
- the cost, timing and outcome of regulatory review of our other product candidates;
- the extent to which we acquire or invest in products, businesses and technologies;
- the extent to which we choose to establish collaboration, co-promotion, distribution or other similar agreements for our product candidates; and
- the costs of preparing, submitting and prosecuting patent applications and maintaining, enforcing and defending intellectual property claims.

To the extent that our capital resources are insufficient to meet our future operating and capital requirements, we will need to finance our cash needs through public or private equity offerings, debt financings, corporate collaboration and licensing arrangements or other financing alternatives. The covenants under the Hercules Credit Facility and the Amended and Restated Royalty Interests Assignment Agreement and the pledge of our assets as collateral limit our ability to obtain additional debt financing. We have no committed external sources of funds. Additional equity or debt financing or corporate collaboration and licensing arrangements may not be available on acceptable terms, if at all.

If we raise additional funds by issuing equity securities, our stockholders will experience dilution. Debt financing, if available, would result in increased fixed payment obligations and may involve agreements that include covenants limiting or restricting our ability to take specific actions, such as incurring additional debt, making capital expenditures or declaring dividends. Any debt financing or additional equity that we raise may contain terms, such as liquidation and other preferences, that are not favorable to us or our stockholders. If we raise additional funds through collaboration and licensing arrangements with third parties, it may be necessary to relinquish valuable rights to our technologies, future revenue streams or product candidates or to grant licenses on terms that may not be favorable to us.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements, except for operating leases, or relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities.

Contractual Obligations

The following table summarizes our contractual obligations as of December 31, 2009:

	Payments Due by Period				
	Total	2010	2011 and 2012	2013 and 2014	2015 and thereafter

(1) This table does not include (i) royalties payable to Paul Capital (through 2014 pursuant to the Amended and Restated Royalty Interest Assignment Agreement described in "Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources—Royalty Interests Assignment Agreement") and pursuant to the Assignment Agreement with Research Development Foundation; (ii) contingent milestone payments of up to $62 million related to EXPAREL due to SkyePharma PLC, including $10 million due upon the first commercial sale of EXPAREL to end users in the United States.

(2) Debt obligations and interest payments includes payments under the GECC Credit Facility, which was terminated in November 2010, and obligations and payments under the Hercules Credit Facility entered into on November 24, 2010, and exclude the secured and unsecured notes and accrued interest thereon to be converted into common stock.

(3) Includes building and equipment leases.

Recent Accounting Pronouncements

We have adopted new accounting guidance on fair value measurements effective January 1, 2008, for financial assets and liabilities. In addition, effective January 1, 2009, we adopted this guidance as it relates to nonfinancial assets and liabilities that are not recognized or disclosed at fair value in the financial statements on at least an annual basis. This guidance defines fair value as the price that would be received to sell an asset or paid to transfer a liability, referred to as the exit price, in an orderly transaction between market participants at the measurement date. The guidance outlines a valuation framework and creates a fair value hierarchy in order to increase the consistency and comparability of fair value measurements and the related disclosures. The adoption of this guidance did not have a material impact on our financial statements.

In June 2008, the Financial Accounting Standards Board, or FASB, issued new guidance related to assessing whether an equity-linked financial instrument (or embedded feature) is indexed to an entity's own stock for the purposes of determining whether such equity-linked financial instrument (or embedded feature) is subject to derivative accounting. We adopted this new guidance effective January 1, 2009. The adoption of this guidance did not have a material impact on our financial statements.

In May 2009, the FASB issued a new standard regarding subsequent events. The standard provides guidance on management's assessment of subsequent events and incorporates this guidance in accounting literature. The guidance is effective prospectively for interim and annual periods ending after June 15, 2009. We adopted this guidance beginning with the interim period ended June 30, 2009. The adoption of this guidance did not have a material impact on our financial statements.

In April 2009, the FASB issued a staff position requiring fair value disclosures in both interim and annual financial statements in order to provide more timely information about the effects of current market conditions on financial instruments. The guidance is effective for interim and annual periods ending after June 15, 2009. We adopted this guidance beginning with the issuance of our September 30, 2009 financial statements. The adoption of this guidance did not have a material impact on our financial statements.

In June 2009, the FASB Accounting Standards Codification, or ASC, was issued, effective for financial statements issued for interim and annual periods ending after September 15, 2009. The ASC supersedes literature of the FASB, Emerging Issues Task Force and other sources. The ASC did not change U.S. generally accepted accounting principles. The adoption of this guidance did not have a material impact on our financial statements.

Quantitative and Qualitative Disclosures about Market Risk

The primary objective of our investment activities is to preserve our capital to fund operations. We also seek to maximize income from our investments without assuming significant risk. Our exposure to market risk is confined to our cash and cash equivalents. As of September 30, 2010, we had cash and cash equivalents of $13.9 million. We do not engage in any hedging activities against changes in interest rates. Because of the short-term maturities of our cash and cash equivalents, we do not believe that an increase in market rates would have any significant impact on the realized value of our investments, but may increase the interest expense associated with our debt.

We have commercial partners for DepoCyte and DepoDur who sell our products in the EU. Under these agreements, we provide finished goods to our commercial partners in exchange for euro-denominated supply revenue, and we also receive euro-denominated royalties on market sales when the products are sold to end users. Under these agreements, we received $6.8 million in the nine months ended September 30, 2010, $7.2 million in the year ended December 31, 2009 and $7.3 million in the year ended December 31, 2008 from these commercial partners.

Because of these agreements, we are subject to fluctuations in exchange rates, specifically in the relative values of the U.S. dollar and the euro. We estimate that an unfavorable fluctuation in exchange rates of 10% would have an impact of approximately $0.7 million on our annual revenue. Between October 2007 and September 2010 the exchange rate between the U.S. dollar and the Euro ranged between $1.60 per Euro and $1.19 per Euro.

BUSINESS

Overview

We are an emerging specialty pharmaceutical company focused on the development, commercialization and manufacture of proprietary pharmaceutical products, based on our proprietary DepoFoam drug delivery technology, for use in hospitals and ambulatory surgery centers. We filed a New Drug Application, or NDA, for our lead product candidate, EXPAREL, a long-acting bupivacaine (anesthetic/analgesic) product for postsurgical pain management with the United States Food and Drug Administration, or FDA. Our clinical data demonstrates that EXPAREL provides analgesia for up to 72 hours post-surgery, compared with seven hours or less for bupivacaine. We believe EXPAREL will address a significant unmet medical need for a long-acting non-opioid postsurgical analgesic, resulting in simplified postsurgical pain management and reduced opioid consumption, leading to improved patient outcomes and enhanced hospital economics. We estimate there are approximately 39 million opportunities annually in the United States for EXPAREL to be used. EXPAREL will be launched by certain members of our management team who have successfully launched multiple products in the hospital market.

EXPAREL consists of bupivacaine encapsulated in DepoFoam, both of which are used in FDA-approved products. DepoFoam, our extended release drug delivery technology, is the basis for our two FDA-approved commercial products: DepoCyt(e) and DepoDur, which we manufacture for our commercial partners. DepoFoam-based products have been manufactured for over a decade and have an extensive safety record and regulatory approvals in the United States, European countries and other territories. Bupivacaine, a well-characterized, FDA-approved anesthetic/analgesic, has an established safety profile and over 20 years of use in the United States.

EXPAREL has demonstrated efficacy and safety in two multicenter, randomized, double-blind, placebo-controlled, pivotal Phase 3 clinical trials in patients undergoing soft tissue surgery (hemorrhoidectomy) and orthopedic surgery (bunionectomy). Overall, EXPAREL has demonstrated safety in over 1,300 subjects. In September 2010, we filed an NDA for EXPAREL with the FDA, using a 505(b)(2) application. We are initially seeking approval for postsurgical analgesia by local administration into the surgical wound, or infiltration, a procedure commonly employing bupivacaine. Under the Prescription Drug User Fee Act, or PDUFA, guidelines, the FDA has a goal of ten months from the date of NDA filing to make a decision regarding the approval of our filing. We also plan to expand the indications of EXPAREL to include nerve block and epidural administration, markets where bupivacaine is also used routinely.

Our current product portfolio and product candidate pipeline is summarized in the table below:

Product(s)/ Product Candidate(s)	Primary Indication(s)	Status	Commercialization Rights
EXPAREL	Postsurgical analgesia by infiltration	NDA (submitted)	Pacira (worldwide)
	Postsurgical analgesia by nerve block	Phase 2/3 (planning)	Pacira (worldwide)
	Postsurgical analgesia by epidural administration	Phase 1 (completed)	Pacira (worldwide)
DepoCyt(e)	Lymphomatous meningitis	Marketed	Sigma-Tau Pharmaceuticals Mundipharma International
DepoDur	Post-operative pain	Marketed	EKR Therapeutics Flynn Pharmaceuticals
DepoNSAID	Acute pain	Preclinical	Pacira (worldwide)
DepoMethotrexate	Rheumatoid arthritis	Preclinical	Pacira (worldwide)
	Oncology	Preclinical	Pacira (worldwide)

Our Strategy

Our goal is to be a leading specialty pharmaceutical company focused on the development, commercialization and manufacture of proprietary pharmaceutical products principally for use in hospitals and ambulatory surgery centers. We plan to achieve this by:

- obtaining FDA approval for EXPAREL in the United States for postsurgical analgesia by local infiltration;
- building a streamlined commercial organization concentrating on major hospitals and ambulatory surgery centers in the United States and targeting surgeons, anesthesiologists, pharmacists and nurses;
- working directly with managed care payers, quality improvement organizations, key opinion leaders, or KOLs, in the field of postsurgical pain management and leading influence hospitals with registry programs to demonstrate the economic benefits of EXPAREL;
- securing commercial partnerships for EXPAREL in regions outside of the United States;
- obtaining FDA approval for nerve block and epidural administration indications for EXPAREL;
- manufacturing all our DepoFoam-based products, including EXPAREL, DepoCyt(e) and DepoDur, in our current Good Manufacturing Practices, or cGMP, compliant facilities; and
- continuing to expand our marketed product portfolio through development of additional DepoFoam-based hospital products utilizing a 505(b)(2) strategy.

Postsurgical Pain Market Overview

According to Thomson Reuters, roughly 45 million surgical procedures were performed in the United States during the twelve months ending in October 2007. We estimate there are approximately 39 million opportunities annually in the United States for EXPAREL to be used to improve patient outcomes and enhance hospital economics. Postsurgical pain is a response to tissue damage during surgery that stimulates peripheral nerves, which signal the brain to produce a sensory and psychological response. Numerous studies reveal that the incidence and severity of postsurgical pain is primarily determined by the type of surgery, duration of surgery and the pain treatment choice following surgery. Postsurgical pain is usually greatest the first few days after the completion of a surgical procedure.

Limitations of Current Therapies for Postsurgical Pain

Substantially all surgical patients experience postsurgical pain, with approximately 50% reporting inadequate pain relief according to epidemiological studies. Unrelieved acute pain causes patient suffering and can lead to other health problems, which delays recovery from surgery and may result in higher healthcare costs. According to the Agency for Healthcare Research and Quality, aggressive prevention of pain is better than treatment of pain because, once established, pain is more difficult to suppress. Current multimodal therapy for postsurgical pain includes wound infiltration with local anesthetics combined with the systemic administration of opioid and non-steroidal anti-inflammatory drug, or NSAID, analgesics.

Local Anesthetics

Treatment of postsurgical pain typically begins at the end of surgery, with local anesthetics, such as bupivacaine, administered by local infiltration. Though this infiltration provides a base platform of postsurgical pain management for the patient, efficacy of conventional bupivacaine and other available local anesthetics is limited, lasting seven hours or less. As local infiltration is not practical after the surgery is complete, and as surgical pain is greatest in the first few days after surgery, additional therapeutics are required to manage postsurgical pain.

Opioids

Opioids, such as morphine, are the mainstay of postsurgical pain management but are associated with a variety of unwanted and potentially severe side effects, leading healthcare practitioners to seek opioid-sparing strategies for their patients. Opioid side effects include sedation, nausea, vomiting, urinary retention, headache, itching, constipation, cognitive impairment, respiratory depression and death. Side effects from opioids have been demonstrated to reduce the patient's quality of life and result in suboptimal pain relief. These side effects may require additional medications or treatments and prolong a patient's stay in the post-anesthesia care unit and the hospital or ambulatory surgery center, thereby increasing costs significantly.

PCA and Elastomeric Bag Systems

Opioids are often administered intravenously through patient controlled analgesia, or PCA, systems in the immediate postsurgical period. The total cost of PCA postsurgical pain management for three days can be up to $500, not including the costs of treating opioid complications. In an attempt to reduce opioid usage, many hospitals employ elastomeric bag systems designed to deliver bupivacaine to the surgical area through a catheter over a period of time. This effectively extends the duration of bupivacaine in the postsurgical site but has significant shortcomings.

PCA systems and elastomeric bag systems are clumsy and difficult to use, which may delay patient ambulation and introduce catheter-related issues, including infection. In addition, PCA systems and elastomeric bags require significant hospital resources to implement and monitor.

NSAIDs

NSAIDs are considered to be useful alternatives to opioids for the relief of acute pain since they do not produce respiratory depression or constipation. Despite these advantages, the use of injectable NSAIDs, such as ketorolac and ibuprofen, is severely limited in the postsurgical period because they increase the risk of bleeding and gastrointestinal and renal complications.

Our Solution—EXPAREL

Based on our clinical trial data, EXPAREL provides continuous and extended postsurgical analgesia for up to 72 hours and reduces the consumption of supplemental opioid medications. We believe this will simplify postsurgical pain management, minimize breakthrough episodes of pain and result in improved patient outcomes and enhanced hospital economics.

Our EXPAREL strategy has four principal elements:

Replace the use of bupivacaine in postsurgical infiltration. We believe EXPAREL:

- extends postsurgical analgesia for up to 72 hours, from seven hours or less;
- utilizes existing postsurgical infiltration administration techniques;
- dilutes easily with saline to reach desired volume;
- is a ready-to-use formulation; and
- facilitates treatment of both small and large surgical wounds.

Become the foundation of a postsurgical pain management regimen in order to reduce and delay opioid usage. We believe EXPAREL:

- significantly delays and reduces opioid usage while improving postsurgical pain management as demonstrated in our Phase 3 hemorrhoidectomy trial, in which EXPAREL demonstrated the following:
  - delayed first opioid usage to approximately 14 hours post-surgery, compared to approximately one hour for placebo;
  - significantly increased percentage of patients requiring no opioid rescue medication through 72 hours post-surgery, to 28% compared to 10% for placebo;
  - 45% less opioid usage at 72 hours post-surgery compared to placebo; and
  - increased percentage of patients who are pain free at 24 hours post-surgery compared to placebo; and
- may reduce hospital cost and staff monitoring of PCA systems.

Improve patient satisfaction. We believe EXPAREL:

- reduces the need for patients to be constrained by elastomeric bags and PCA systems, which are clumsy, difficult to use and may introduce catheter-related issues, including infection;
- promotes maintenance of early postsurgical pain management, thereby reducing the time spent in the intensive care unit; and
- promotes early ambulation, which potentially reduces the risk of life-threatening blood clots, and allows quicker return of bowel function, thereby leading to a faster switch to oral nutrition and medicine, and thus a faster discharge from the hospital.

Develop and seek approval of EXPAREL for nerve block and epidural administration. We believe these additional indications for EXPAREL:

- present a low-risk, low-cost opportunity for clinical development; and
- will enable us to fully leverage our manufacturing and sales infrastructure.

EXPAREL Development Program

EXPAREL has demonstrated efficacy and safety in two multicenter, randomized, double-blind, placebo-controlled, pivotal Phase 3 clinical trials in patients undergoing soft tissue surgery (hemorrhoidectomy) and orthopedic surgery (bunionectomy). At a pre-NDA meeting in February 2010, the FDA acknowledged that the two pivotal Phase 3 clinical trials conducted by us, in patients undergoing hemorrhoidectomy and bunionectomy surgeries, appeared to be appropriately designed to evaluate the safety and efficacy of EXPAREL. Both trials met their primary efficacy endpoints in demonstrating statistically significant analgesia through 72 hours for the hemorrhoidectomy trial and 24 hours for the bunionectomy trial. Both trials also met multiple secondary endpoints, including decreased opioid use and delayed time to first opioid use. These two pivotal Phase 3 clinical trials formed the basis of the evidence for efficacy in the NDA for EXPAREL.

The safety of EXPAREL has been demonstrated in 21 clinical trials consisting of nine Phase 1 trials, seven Phase 2 trials and five Phase 3 trials. EXPAREL was administered to over 1,300 human patients at doses ranging from 10 mg to 750 mg administered by local infiltration into the surgical wound, and by subcutaneous, perineural, epidural and intraarticular administration. In all 21 clinical trials, EXPAREL was well tolerated. The most common treatment emergent adverse events in the EXPAREL and placebo groups were nausea and vomiting and occurred with similar frequency across the EXPAREL and placebo groups. No signal of any of the central nervous system or cardiovascular system adverse events typically observed with high doses of

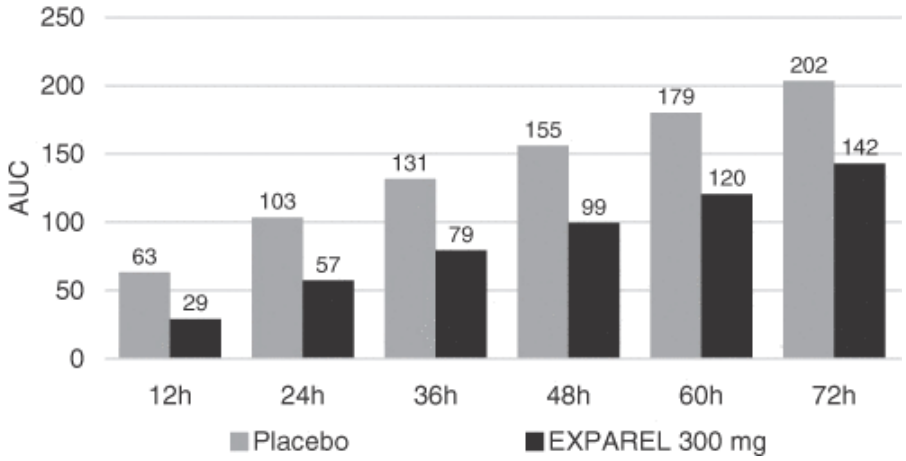
bupivacaine has been observed with EXPAREL. We conducted two thorough QTc studies that demonstrated that EXPAREL did not cause significant QTc prolongation (a measure of cardiac safety mandated by the FDA for all new products) even at the highest dose evaluated. No events of destruction of articular cartilage, or chondrolysis, have been reported in any of the EXPAREL trials. EXPAREL did not require dose adjustment in patients with mild to moderate liver impairment.

Pivotal Phase 3 Clinical Trials

Hemorrhoidectomy. Our pivotal Phase 3 hemorrhoidectomy clinical trial was a multicenter, randomized, double-blind, placebo-controlled trial conducted in 189 patients at 14 sites in Europe. The study enrolled patients 18 years of age or older undergoing a two or three column excisional hemorrhoidectomy under general anesthesia using the Milligan-Morgan technique, a commonly used method for surgically removing hemorrhoids. We studied a 300 mg dose of EXPAREL with a primary endpoint of pain control for up to 72 hours with morphine rescue medication available to both trial groups. Additional endpoints included the proportion of pain-free patients, proportion of patients requiring opioid rescue medication, total opioid usage, time to first use of opioid rescue medication and patient satisfaction.

The 300 mg dose of EXPAREL provided a statistically significant 30% reduction in pain ($p<0.0001$), as measured by the area under the curve, or AUC, of the NRS-R pain scores at 72 hours and all additional time points measured up to 72 hours. The numeric rating scale at rest score, or the NRS-R, is a commonly used patient reported measurement of pain. Under the NRS-R, severity of pain is measured on a scale from 0 to 10, with 10 representing the worst possible pain. The AUC of the NRS-R pain score represents a sum of the patient's pain measured at several time points using the NRS-R, from time of surgery to the specified endpoint. A lower number indicates less cumulative pain. The p-value is a measure of probability that the difference between the placebo group and the EXPAREL group is due to chance (e.g., $p = 0.01$ means that there is a 1% (0.01 = 1.0%) chance that the difference between the placebo group and EXPAREL group is the result of random chance as opposed to the EXPAREL treatment). A p-value less than or equal to 0.05 (0.05 = 5%) is commonly used as a criterion for statistical significance.

Phase 3 Hemorrhoidectomy Clinical Trial: AUC of NRS-R Pain Intensity Scores from Initial Infiltration Timepoint, EXPAREL Compared to Placebo



Note: Differences between study groups were statistically significant at 72 hours ($p<0.0001$), the primary endpoint, and all additional time points measured ($p<0.0001$).

In secondary endpoints, EXPAREL demonstrated efficacy in reducing the use of opioid rescue medication, which was available to both the EXPAREL treatment group and the placebo treatment group. Approximately three times the number of patients in the EXPAREL treatment group avoided opioid rescue medication

altogether, and patients in the EXPAREL treatment group showed 45% less opioid usage compared to the placebo treatment group at 72 hours. Opioid related secondary endpoints included:

- Total avoidance of opioid rescue medication. 28% of patients treated with EXPAREL received no postsurgical opioid rescue pain medication through 72 hours post-dose. By contrast only 10% of placebo treated patients avoided all opioid rescue medication through 72 hours, and this difference was statistically significant (p=0.0007);
- Reduced total consumption of opioid rescue medication. The adjusted mean total postsurgical consumption of supplemental opioid pain medication was 45% lower in patients treated with EXPAREL compared to the placebo treatment group through 72 hours (p=0.0006) post-dose; and
- Delayed use of opioid rescue medication. EXPAREL delayed the median time to first opioid use from approximately one hour in the placebo treatment group to approximately 14 hours in the EXPAREL treatment group and this difference was statistically significant (p<0.0001). At 14 hours post-surgery compared to one hour post-surgery, patients have substantially recovered from the effects of surgical anesthesia and are able to tolerate oral opioids and require less intensive monitoring.

In addition to the reduced usage of opioids compared to patients receiving placebo, secondary endpoints also demonstrated that patients in the EXPAREL treatment group had higher satisfaction scores and more were pain free compared to those in the placebo treatment group.

- More pain free patients. A greater percentage of patients treated with EXPAREL were pain free compared to the placebo treatment group, and the difference reached statistical significance at all times up to and through 24 hours post-dose (p=0.0448); and
- Improved patient satisfaction. A greater percentage of patients treated with EXPAREL were “extremely satisfied” compared to the placebo treatment group, and the difference was statistically significant (p=0.0007) at 24 and 72 hours post-dose.

We believe that this combination of reduced opioid usage and continuous and extended postsurgical pain management highlights the efficacy of EXPAREL and its ability to be used as a part of a multimodal, opioid sparing postsurgical pain management strategy.

Bunionectomy. Our pivotal Phase 3 bunionectomy clinical trial was a multicenter, randomized, double-blind, placebo-controlled trial conducted in 193 patients at four sites in the United States. The study enrolled patients 18 years of age or older undergoing a bunionectomy. We studied a 120 mg dose of EXPAREL with a primary endpoint of pain control at 24 hours, the critical period for postsurgical pain management in bunionectomy, with opioid rescue medication available to both trial groups. EXPAREL provided a statistically significant reduction in pain, as measured by the AUC of the NRS-R pain scores at 24 hours (p=0.0005). This reduction was also statistically significant at 36 hours.

EXPAREL also achieved statistical significance in secondary endpoints related to pain measurement and the use of opioid rescue medication, which was available to both patients in the EXPAREL treatment group and the placebo treatment group, including:

- Total avoidance of opioid rescue medication. The difference between treatment groups in the percentage of patients who received opioid rescue pain medication was statistically significant, favoring the group treated with EXPAREL compared to the placebo treatment group through 12 hours (p=0.0003) and 24 hours (p=0.0404);
- Delayed use of opioid rescue medication. EXPAREL delayed the median time before first opioid use compared to the placebo treatment group and this difference was statistically significant (p<0.0001); and
- More pain free patients. A statistically significant increase in the percentage of pain free patients was observed between treatment groups, favoring the group treated with EXPAREL compared to the placebo treatment group at 2 hours (p=0.0019), 4 hours (p=0.0002), 8 hours (p=0.0078) and 48 hours (p=0.0153) post-dose. The difference between groups was not statistically significant at 24 hours post-dose.

Other Clinical Trials

In 2009, we completed two Phase 3 clinical trials comprising 223 patients who received EXPAREL, comparing them to patients who received bupivacaine in a multimodal setting where patients received additional concomitant analgesics. One of these Phase 3 clinical trials was for total knee arthroplasty and the other was for hemorrhoidectomy. Although EXPAREL performed as expected and continued to demonstrate its safety and tolerability, due to the unexpectedly positive results in the control arm, these trials did not meet their primary endpoint. The results of these studies influenced some of the inclusion and exclusion criteria and protocol specified measures used in our successful pivotal Phase 3 clinical trials described above.

Based on the outcome of these two trials, in 2009, we discontinued a Phase 3 clinical trial in breast augmentation early. At the time of discontinuation, we had only enrolled approximately half of the number of patients required to demonstrate statistical significance. EXPAREL demonstrated a positive trend and safety, but did not meet the primary efficacy endpoint. We have collected data on all patients for whom data was available and expect to publish this data in a peer reviewed medical journal.

We have completed seven Phase 2 clinical trials, five of which were in wound infiltration. A total of 452 patients received various doses of EXPAREL and/or bupivacaine in various surgical settings including hernia repair, total knee arthroplasty, hemorrhoidectomy, and breast augmentation. The data from these Phase 2 clinical trials guided the dose selection for our successful pivotal Phase 3 clinical trials, which formed the basis of our NDA.

EXPAREL Health Economic Benefits

In addition to being efficacious and safe, we believe that EXPAREL provides health economic benefits that play an important role in formulary decision making and these health economic benefits are an often over-looked factor in planning for the commercial success of a pharmaceutical product. Several members of our management team have extensive experience applying health economic outcomes research to support the launch of successful commercial products. Our strategy is to work directly with managed care payers, quality improvement organizations, KOLs in the field of postsurgical pain management and leading influence hospitals with registry programs to demonstrate the economic benefits of EXPAREL.

EXPAREL is designed as a single postsurgical injection intended to replace the current use of clumsy and expensive PCA systems and elastomeric bag systems, reduce the consumption of opioids, and their related side effects, and reduce the length of stay in the hospital, all factors that negatively impact patient outcomes and hospital economics. For example, in our Phase 2 hemorrhoidectomy trial, 300 mg of EXPAREL reduced pain by 47%, as measured by the AUC of the NRS-R pain scores, with a 66% reduction in opioid consumption and a corresponding 89% reduction in opioid related adverse events through 72 hours, compared to the standard 75 mg dose of bupivacaine.

We intend to expand upon the results of this Phase 2 hemorrhoidectomy trial with commercial registry programs designed to confirm that the administration of EXPAREL in the surgical setting improves patient outcomes while consuming fewer resources. We intend to develop publications, abstracts, clinical pharmacology newsletters and meeting presentations that demonstrate the value of EXPAREL as the foundation for effective multimodal postsurgical pain management. In addition, we plan to develop new treatment protocols for postsurgical pain management overall and in specific patient populations.

Reimbursement for surgical procedures is typically capitated, or fixed by third-party payers based on the specific surgical procedure performed regardless of the cost or amount of treatments provided. However, many patients, including those who are elderly, obese, suffer from sleep apnea or are opioid tolerant, are likely to have a high incidence of opioid-related adverse events, increasing the length of stay and the cost relative to the capitated reimbursement. We intend to conduct commercial registry studies to demonstrate reduced opioid use,

reduced opioid-related adverse effects, lower total resource consumption, reduced length of stay and greater patient satisfaction. Furthermore, the use of EXPAREL to reduce opioid consumption may also present the opportunity to move selected hospital procedures to the ambulatory setting.

EXPAREL Regulatory Plan

In September 2010, we filed an NDA for EXPAREL with the FDA, using a 505(b)(2) application. We are initially seeking FDA approval of EXPAREL for postsurgical analgesia by local administration into the surgical wound, or infiltration, a procedure commonly employing bupivacaine. Under the PDUFA guidelines, the FDA has a goal of ten months from the date of an NDA filing to make a decision regarding the approval of our filing. Section 505(b)(2) of the Federal Food, Drug and Cosmetic Act, or the FFDCA, permits the submission of an NDA where at least some of the information required for approval comes from studies not conducted by or for the applicant, and for which the applicant has not obtained a right of reference. Supportive information may also include scientific literature and publicly available information contained in the labeling of other medications.

EXPAREL consists of bupivacaine encapsulated in DepoFoam, both of which are used in FDA-approved products:

- Bupivacaine, a well-characterized generic anesthetic/analgesic, has an established safety profile and over 20 years of use in the United States.
- DepoFoam, modified to meet the requirements of each product, is used to extend the release of the active drug substances in the marketed products DepoCyt(e) and DepoDur.

We have requested a clinical trial waiver for children under two years of age. We have also requested and currently expect to receive a deferral for patients 2-18 years of age until patients in these groups can be studied in an appropriate step-wise manner. Three Phase 2/3 trials are planned, first in children 12-18 years old, then 6-11 years old, then 2-5 years old. The waiver and deferral, if granted, will allow us to conduct these trials after the approval of our NDA.

Additional Indications

We are pursuing several additional indications for EXPAREL and expect to submit a supplemental NDA, or sNDA, for nerve block and epidural administration. We believe that these additional indications for EXPAREL present a low-risk, low-cost opportunity for clinical development and will allow us to fully leverage our manufacturing and commercial infrastructure.

Nerve Block. Nerve block is a general term used to refer to the injection of local anesthetic onto or near nerves for control of pain. Nerve blocks can be single injections but have limited duration of action. When extended pain management is required, a catheter is used to deliver bupivacaine continuously using an external pump. According to Thomson Data over eight million nerve block procedures were conducted in the United States in 2008, with over four million of these procedures utilizing bupivacaine. EXPAREL is designed to provide extended pain management with a single injection utilizing a narrow gauge needle.

We have completed two Phase 2 clinical trials in which 40 patients received EXPAREL for nerve block. EXPAREL demonstrated efficacy and was safe and well tolerated in these clinical trials. We expect to conduct additional clinical trials in this indication.

Epidural Administration. An epidural is a form of regional anesthesia involving injection of anesthetic drugs into the outermost part of the spinal canal, or the epidural space. Epidurals can be single injections but have limited duration of action. When extended pain management is required, a catheter is placed into the epidural space and the anesthetic drug is delivered continuously using an external pump. According to IMS and

Thomson Data, over six million epidural procedures were conducted in the United States in 2007, with over 590,000 of these procedures utilizing local anesthetics, including bupivacaine. EXPAREL is designed to provide extended pain management with a single injection utilizing a narrow gauge needle.

We have completed one Phase 1 clinical trial in which 24 subjects received EXPAREL by epidural administration that demonstrated proof of concept for this indication. EXPAREL was safe and well tolerated in this clinical trial. We expect to conduct additional clinical trials in this indication.

Sales and Marketing

We currently intend to develop and commercialize EXPAREL and our other product candidates in the United States while out-licensing commercialization rights for other territories. Our goal is to retain significant control over the development process and commercial execution for our product candidates, while participating in a meaningful way in the economics of all drugs that we bring to the market.

The members of our management team who will lead the commercialization of EXPAREL, if it is approved, have successfully commercialized multiple products in the hospital market, including Rocephin, Versed, Zantac IV and Angiomax. We are currently developing our commercialization strategy, with the input of KOLs in the field of postsurgical pain management as well as healthcare practitioner and quality improvement organizations. We continue to expand our pre-commercialization activities including EXPAREL positioning and messaging, publication strategy, Phase 3b/4 clinical trials and registry trials, initiatives with payer organizations, and distribution and national accounts strategies.

If EXPAREL is approved, we intend to hire our own dedicated field sales force, consisting of approximately 40 representatives at the time of the commercial launch, to commercialize the product. Within three years of launch we expect to have approximately 100 representatives, which we estimate can effectively cover our hospital and ambulatory surgery customers in the United States. We believe a typical sales representative focused on office-based healthcare practitioners can effectively reach five to seven healthcare practitioners per day; whereas, a typical hospital-focused sales representative can reach many more healthcare practitioners. Notably, a hospital-focused sales representative faces significantly less travel time between sales calls and less wait time in healthcare practitioner offices as a large number of prescribers can be found in a single location. Our sales force will be supported by marketing as well as several teams of healthcare professionals who will support our formulary approval and customer education initiatives.

The target audience for EXPAREL is healthcare practitioners who influence pain management decisions, including surgeons, anesthesiologists, pharmacists and nurses. Our commercial sales force will focus on reaching the top 1,000 U.S. hospitals performing surgical procedures (based on Thomson Reuters benchmark obstetrician and gynecological, general and orthopedic surgical procedures performed within these hospitals), which represent approximately 70% of the market opportunity for EXPAREL. If we obtain regulatory approvals for additional indications for EXPAREL and our other product candidates, our targeted audience may change to reflect new market opportunities.

DepoFoam—Our Proprietary Drug Delivery Technology

Our current product development activities utilize our proprietary DepoFoam drug delivery technology. DepoFoam consists of microscopic spherical particles composed of a honeycomb-like structure of numerous internal aqueous chambers containing an active drug ingredient. Each chamber is separated from adjacent chambers by lipid membranes. Following injection, the DepoFoam particles release drug over an extended period of time by erosion and/or reorganization of the particles' lipid membranes. Release rates are determined by the choice and relative amounts of lipids in the formulation.

Our DepoFoam formulation provides several technical, regulatory and commercial advantages over competitive technologies, including:

- Convenience. Our DepoFoam products are ready to use and do not require reconstitution or mixing with another solution, and can be used with patient friendly narrow gauge needles and pen systems;
- Multiple regulatory precedents. Our DepoFoam products, DepoCyt(e) and DepoDur, have been approved in the United States and Europe, making regulatory authorities familiar with our DepoFoam technology;
- Extensive safety history. Our DepoFoam products have over ten years of safety data as DepoCyt(e) has been sold in the United States since 1999;
- Administration into privileged sites. Our DepoFoam products are approved for epidural administration (DepoDur) and intrathecal injection (DepoCyt(e)) and may potentially be used for intraocular and intratumoral administration;
- Proven manufacturing capabilities. We continue to make DepoFoam-based products in our cGMP facilities on a daily basis as we prepare for the launch of EXPAREL;
- Flexible time release. Encapsulated drug releases over a desired period of time, from 1 to 30 days;
- Favorable pharmacokinetics. Decrease in adverse events associated with high peak blood levels, thereby improving the utility of the product;
- Shortened development timeline. Does not alter the native molecule potentially enabling the filing of a 505(b)(2) application; and
- Aseptic manufacturing and filling. Enables use with proteins, peptides, nucleic acids, vaccines and small molecules.

Other Products

Depocyt(e)

DepoCyt(e) is a sustained-release liposomal formulation of the chemotherapeutic agent cytarabine utilizing our DepoFoam technology. Depocyt(e) is indicated for the intrathecal treatment of lymphomatous meningitis, a life-threatening complication of lymphoma, a cancer of the immune system. Lymphomatous meningitis can be controlled with conventional cytarabine, but because of the drug's short half-life, a spinal injection is required twice per week, whereas DepoCyt(e) is dosed once every two weeks in an outpatient setting. DepoCyt(e) was granted accelerated approval by the FDA in 1999 and full approval in 2007. We received revenue from DepoCyt(e) of $9.6 million from our commercial partners in 2009.

DepoDur

DepoDur is an extended-release injectable formulation of morphine utilizing our DepoFoam technology. DepoDur is indicated for epidural administration for the treatment of pain following major surgery. DepoDur is designed to provide effective pain relief of up to 48 hours and has demonstrated improved patient mobility and freedom from indwelling catheters. DepoDur was approved by the FDA in 2004. We received revenue from DepoDur of $0.8 million from our commercial partners in 2009.

Other Product Candidates

DepoNSAID

Our preclinical product candidates, extended release formulations of NSAIDs, are designed to provide the benefits of injectable NSAIDs with a prolonged duration of action in order to improve patient care and ease of use in the acute pain environment. Currently available injectable products provide a four to six hour duration of action. We believe that there is an unmet medical need for a product which could provide a longer duration of

action, especially for postsurgical pain management as part of a multimodal pain regimen. Prolonged intra-articular delivery of NSAIDs is also being evaluated for acute pain in major joints due to injury or arthritis. We have DepoFoam formulations for several NSAIDs, and we expect to select a lead product candidate in 2011.

DepoMethotrexate

Our preclinical product candidate, an extended release formulation of methotrexate, is designed to improve the market utility of methotrexate, the most commonly used disease modifying anti-rheumatic drug currently being prescribed for over 500,000 patients globally. While methotrexate is the established standard of care for first line therapy in rheumatoid arthritis, this agent is commonly associated with nausea, vomiting and drowsiness due to high peak blood levels immediately following traditional administration. Our product candidate is designed to address the medical need for a patient friendly and cost effective formulation which can be utilized to improve patient compliance and the ability to tolerate methotrexate therapy. We believe DepoMethotrexate will also allow healthcare providers to treat these patients more aggressively, improve efficacy outcomes and avoid the progression to more expensive alternatives such as biologic therapies. We currently have one year of stability data for our desired product formulation.

Commercial Partners and Agreements

SkyePharma

In connection with the stock purchase agreement related to the Acquisition, we agreed to pay SkyePharma Holdings, Inc., or SPHI, a specified contingent milestone payment related to EXPAREL sales. Additionally, we agreed to pay to SPHI a 3% royalty of our sales of EXPAREL in the United States, Japan, the United Kingdom, France, Germany, Italy and Spain. Such obligations to make contingent milestone payments and royalties will continue for the term in which such sales related to EXPAREL are covered by a valid claim in certain patent rights related to EXPAREL and other biologics products.

We have the right to cease paying royalties in the event that SPHI breaches certain covenants not to compete contained in the stock purchase agreement. In the event that we cease to sell EXPAREL and begin marketing a similar replacement product for EXPAREL, we would no longer be obligated to make royalty payments, but we may be required to make certain milestone payments upon reaching certain sales milestones.

Research Development Foundation

Pursuant to an agreement with one of our stockholders, the Research Development Foundation, or RDF, we are required to pay RDF a low single-digit royalty on our gross revenues, as defined in our agreement with RDF, from our DepoFoam-based products, for as long as certain patents assigned to us under the agreement remain valid. RDF has the right to terminate the agreement for an uncured material breach by us, in connection with our bankruptcy or insolvency or if we directly or indirectly oppose or dispute the validity of the assigned patent rights.

Sigma-Tau Pharmaceuticals

In December 2002, we entered into a supply and distribution agreement with Enzon Pharmaceuticals Inc. regarding the sale of DepoCyt. Pursuant to the agreement, Enzon was appointed the exclusive distributor of DepoCyt in the United States and Canada for a ten year term. In January 2010, Sigma-Tau Pharmaceuticals, Inc., or Sigma-Tau, acquired the rights to sell DepoCyt from Enzon Pharmaceuticals for the United States and Canada. Under the supply and distribution agreement, we supply unlabeled DepoCyt vials to Sigma-Tau for finished packaging. Under these agreements, we receive a fixed payment for manufacturing the vials of DepoCyt and a royalty in the thirties on sales by Sigma-Tau in the United States and Canada.

We and Sigma-Tau have the right to terminate the agreement for an uncured material breach by the other party or in the event that a generic pharmaceutical product that is therapeutically equivalent to DepoCyt is

commercialized. We may terminate the agreement if certain minimum sales targets are not met by Sigma-Tau. Sigma-Tau may terminate the agreement if, as a result of a settlement or a final court or regulatory action, the manufacture, use or sale of DepoCyt in the United States is prohibited.

Mundipharma International Holdings Limited

In June 2003, we entered into an agreement granting Mundipharma International Holdings Limited, or Mundipharma, exclusive marketing and distribution rights to DepoCyte in the European Union and certain other European countries. This agreement continues in force for a fixed term, and after that term expires, continues year to year unless terminated by us or by Mundipharma upon written notice given within a specified timeframe.

Under the agreement, as amended, and a separate supply agreement, we receive a fixed payment for manufacturing the vials of DepoCyte, as well as a royalty comprised of a fixed sum per vial supplied to Mundipharma, an additional sum payable if Mundipharma's quarterly net sales exceed a certain amount, and a mid single-digit royalty on all sales exceeding a certain amount. We are also entitled to receive milestone payments from Mundipharma upon the achievement by Mundipharma of certain milestone events.

We and Mundipharma have the right to terminate the agreement for an uncured material breach by the other party, in connection with the other party's bankruptcy or insolvency or the repossession of all or any material part of the other party's business or assets. Mundipharma has the right to terminate the agreement if its marketing authorization is cancelled or withdrawn for a certain period, or if it is prevented from selling DepoCyte in any three countries in the territory covered in the agreement by a final non-appealable judgment in respect of infringement by DepoCyte of any third party intellectual property rights.

EKR Therapeutics Inc.

In August 2007, we entered into a licensing, distribution and marketing agreement with EKR Therapeutics, Inc., or EKR, granting them exclusive distribution rights to DepoDur in North America, South America and Central America. This agreement continues in force for the longer of 15 years from the first commercial sale of DepoDur in the territory covered by the agreement or until the expiration of the last valid claim in our patents covering DepoDur in such territory. After that term, the agreement continues for consecutive periods of two years, unless terminated earlier by EKR.

Under this agreement, as amended, we receive a fixed payment for manufacturing the vials of DepoDur and a royalty comprised of a fixed amount per vial, a single-digit royalty on any incremental price increase implemented by EKR over the base price specified in the agreement and a fixed advanced royalty payment that was made within three days of the agreement date, which is offset against EKR's future payment obligations.

We and EKR have the right to terminate the agreement for an uncured material breach by the other party, an uncured material misrepresentation in any representation or warranty made in the agreement, in connection with the other party's bankruptcy or insolvency, in connection with the threat of or actual cessation of all or any material part of the other party's business, if the other Party is prevented from performing any of its material obligations by any law, governmental or other action for a period of 120 days, or if force majeure prevents other party from performing any of its material obligations for six months. We have the right to terminate the agreement if EKR fails to make its first commercial sale of DepoDur within a fixed period from the receipt of marketing authorization for any country in the territory covered by the agreement, or if we terminate the supply agreement upon written notice to EKR and all royalties paid by EKR to us in any one year period following the date of such termination are less than a certain amount, unless the difference between that amount and the actual royalties paid by EKR is paid to us within 30 days of notice of such termination. EKR has the right to terminate the agreement at any time without cause upon written notice to us within a specified timeframe. EKR has the right to terminate the agreement as to any country if DepoDur is withdrawn from the market in such country as a

result of regulatory action by FDA or other governmental entities or there are significant adverse reactions from use of DepoDur.

Flynn Pharma Limited

In September 2007, we entered into a marketing agreement with Flynn Pharma Limited, or Flynn, granting them exclusive distribution rights to DepoDur in the European Union, certain other European countries, South Africa and the Middle East. This agreement continues in force for the longer of five years from first commercial sale of DepoDur in the territory covered by the agreement or until the expiration of the last valid claim in our patents covering DepoDur for a maximum term of 15 years from the date of first commercial sale in such territory.

Under this agreement and a separate supply agreement with Flynn, we provide DepoDur manufacturing supply of finished product for sale in the territories licensed by Flynn, and we receive a fixed payment for manufacturing the vials and if net sales of DepoDur in the territory covered by the agreement exceed a certain amount, an additional payment. We are also entitled to receive milestone payments from Flynn upon the achievement by Flynn of certain milestone events.

We and Flynn have the right to terminate the agreement for an uncured material breach by the other party, in connection with the other party's bankruptcy or insolvency or the repossession of all or any material part of the other party's business or assets, or if force majeure prevents other party from performing any of its material obligations for 180 days. We have the right to terminate the agreement if Flynn fails to make its first commercial sale of DepoDur in specified countries covered by the agreement by one year from the later of Flynn's receipt of marketing authorization or pricing approval for DepoDur, or if first commercial sale has not been made within 18 months of Flynn's receipt of marketing authorization or pricing approval for DepoDur.

Paul Capital

On March 23, 2007, we entered into an amended and restated royalty interests assignment agreement with Paul Capital, pursuant to which we assigned to Paul Capital the right to receive a portion of our royalty payments from DepoCyt(e) and DepoDur. The original agreement was entered into prior to the Acquisition by the Predecessor in order to monetize certain royalty payments from DepoCyt(e) and DepoDur. In connection with the Acquisition, the original agreement with Paul Capital was amended and restated and the responsibility to pay the royalty interest in product sales of DepoCyt(e) and DepoDur was transferred to us and we were required to make payments to Paul Capital upon the occurrence of certain events. For additional information, see "Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources—Royalty Interests Assignment Agreement" and "Risk Factors—Risks Related to Our Financial Condition and Capital Requirements—Under our financing arrangement with Paul Capital, upon the occurrence of certain events, Paul Capital may require us to repurchase the right to receive royalty payments that we assigned to it, or may foreclose on certain assets that secure our obligations to Paul Capital. Any exercise by Paul Capital of its right to cause us to repurchase the assigned right or any foreclosure by Paul Capital would adversely affect our results of operations and our financial condition."

Feasibility Agreements with Third Parties

In the ordinary course of our business activities, we enter into feasibility agreements with third parties who desire access to our proprietary DepoFoam technology to conduct research, feasibility and formulation work. Under these agreements, we are compensated to perform feasibility testing on a third-party product to determine the likelihood of developing a successful formulation of that product using our proprietary DepoFoam technology. If successful in the feasibility stage, these programs can advance to a full development contract. Currently, we are actively engaged in two feasibility assessments for third parties.

Manufacturing

We manufacture DepoCyt(e) and DepoDur for our various commercial partners. We also manufacture all of our clinical supplies of EXPAREL. We manufacture our products in two manufacturing facilities. These facilities are designated as Building 1 and Building 6 and are located within two miles of each other on two separate and distinct sites in San Diego, California. Both of our facilities are inspected regularly and approved for pharmaceutical manufacturing by the FDA, the European Medicines Agency, or the EMA, the Medicines and Healthcare Products Regulatory Agency, or the MHRA, the Drug Enforcement Administration, or the DEA, and the Environmental Protection Agency, or the EPA.

We provide DepoCyt(e) and DepoDur to our commercial partners on a set cost basis as established by each specific licensing contract. All manufacturing of products, initial product release and stability testing are conducted by us in accordance with cGMP.

Building 1 is an approximately 80,000 square foot concrete structure located on a five acre site. It was custom built as a pharmaceutical R&D and manufacturing facility in August 1995. Activities in this facility include the manufacture of EXPAREL bulk pharmaceutical product candidate in a dedicated production line and its fill/finish into vials, the manufacture of the DepoDur bulk commercial pharmaceutical product, microbiological and quality control testing, product storage, development of analytical methods, research and development, the coordination of clinical and regulatory functions, and general administrative functions. We are renovating the dedicated EXPAREL production line to expand its capacity and expect it to be available for the FDA's pre-approval inspection in 2011. This production line is designed to meet forecasted market demands after initial launch of EXPAREL, if it is approved. We have current plans to further expand our manufacturing capacity to meet future demand.

Building 6 is located in a 17-acre pharmaceutical industrial park. It is a two story concrete masonry structure built in 1977 that we and our predecessors have leased since August 1993. We occupy approximately 22,000 square feet of the first floor. Building 6 houses the current manufacturing process for DepoCyt(e), the fill/finish of DepoCyt(e) and DepoDur into vials, a pilot plant suite for new product development and early stage clinical product production, a microbiology laboratory and miscellaneous support and maintenance areas.

Distribution of our DepoFoam products, including EXPAREL, requires cold-chain distribution, whereby a product must be maintained between specified temperatures. We have validated processes for continuous monitoring of temperature from manufacturing through delivery to the end-user. We and our partners have utilized similar cold-chain processes for DepoCyt(e) and DepoDur.

Intellectual Property and Exclusivity

We seek to protect our product candidates and our technology through a combination of patents, trade secrets, proprietary know-how, regulatory exclusivity and contractual restrictions on disclosure.

Patents and Patent Applications

We seek to protect the proprietary position of our product candidates by, among other methods, filing U.S. and foreign patent applications related to our proprietary technology, inventions and improvements that are important to the development of our business. As of September 30, 2010, there are over 15 families of patents and patent applications relating to various aspects of the DepoFoam delivery technology. Patents have been issued in numerous countries, with an emphasis on the North American, European and Japanese markets. These patents generally have a term of 20 years from the date of the nonprovisional filing unless referring to an earlier filed application. Some of our U.S. patents have a term from 17 years from the grant date. Our issued patents expire at various dates in the future, with the last currently issued patent expiring in 2019. All of these patent families are assigned solely to us, with the exception of one family relating to DepoFoam formulations of insulin-like growth factor I, which is jointly assigned to us and Novartis Vaccines and Diagnostics, Inc. (formerly Chiron Corporation). In addition, two provisional patents have been filed within the last year relating to either DepoFoam-based products or processes for making DepoFoam.

In regard to patents providing protection for EXPAREL, issued patents in the United States relating to the composition of the product candidate and methods for modifying the rate of drug release of the product candidate expire in November 2013 and January 2017, respectively. Pending U.S. applications relating to the composition of the product candidate and the process for making the product candidate, if granted, would expire in September 2018 and November 2018, respectively. In Europe, granted patents related to the composition of the product candidate expire in November 2014 and September 2018. Pending applications in Europe relating to methods of modifying the rate of drug release of the product candidate and the process for making the product candidate, if granted, would expire in January 2018 and November 2018, respectively. Recently, a provisional patent was filed relating to a new process to manufacture EXPAREL and other DepoFoam-based products. The process offers many advantages to the current process, including larger scale production and lower manufacturing costs. A strategic decision will be made within the next year as to whether this process will be kept as a trade secret (provisional patents are not publicly disclosed if a subsequent non-provisional application is not filed) or pursued as a non-provisional application. The provisional patent, if granted, could prevent others from using this process until 2031.

Trade Secrets and Proprietary Information

Trade secrets play an important role in protecting DepoFoam-based products and provide protection beyond patents and regulatory exclusivity. The scale-up and commercial manufacture of DepoFoam products involves processes, custom equipment, and in-process and release analytical techniques that we believe are unique to us. The expertise and knowledge required to understand the critical aspects of DepoFoam manufacturing steps requires knowledge of both traditional and non-traditional emulsion processing and traditional pharmaceutical production, overlaid with all of the challenges presented by aseptic manufacturing. We seek to protect our proprietary information, including our trade secrets and proprietary know-how, by requiring our employees, consultants and other advisors to execute proprietary information and confidentiality agreements upon the commencement of their employment or engagement. These agreements generally provide that all confidential information developed or made known during the course of the relationship with us be kept confidential and not be disclosed to third parties except in specific circumstances. In the case of our employees, the agreements also typically provide that all inventions resulting from work performed for us, utilizing our property or relating to our business and conceived or completed during employment shall be our exclusive property to the extent permitted by law. Where appropriate, agreements we obtain with our consultants also typically contain similar assignment of invention obligations. Further, we require confidentiality agreements from entities that receive our confidential data or materials.

Competition

The pharmaceutical and biotechnology industries are intensely competitive and subject to rapid and significant technological change. Our competitors include organizations such as major multinational pharmaceutical companies, established biotechnology companies, specialty pharmaceutical companies and generic drug companies. Many of our competitors have greater financial and other resources than we have, such as more commercial resources, larger research and development staffs and more extensive marketing and manufacturing organizations. As a result, these companies may obtain marketing approval more rapidly than we are able and may be more effective in selling and marketing their products. Smaller or early stage companies may also prove to be significant competitors, particularly through collaborative arrangements with large, established companies.

Our competitors may succeed in developing, acquiring or licensing on an exclusive basis technologies and drug products that are more effective or less costly than EXPAREL or any other products that we are currently selling through partners or developing or that we may develop, which could render our products obsolete and noncompetitive. We expect any products that we develop and commercialize to compete on the basis of, among other things, efficacy, safety, convenience of administration and delivery, price and the availability of reimbursement from government and other third-party payers. We also expect to face competition in our efforts to identify appropriate collaborators or partners to help commercialize our product candidates in our target commercial markets.

We anticipate EXPAREL will compete with currently marketed bupivacaine and opioid analgesics such as morphine. We also expect to compete with an extended release bupivacaine product in development by Durect Corporation which has been licensed to Hospira in North America (Posidur) and to Nycomed for Europe (Optesia).

We also anticipate that EXPAREL will compete with elastomeric bag/catheter devices intended to provide bupivacaine over several days. I-FLOW Corporation (acquired by Kimberly-Clark Corporation in 2009) has marketed these medical devices in the United States since 2004.

Government Regulation

Federal Food, Drug and Cosmetic Act

Prescription drug products are subject to extensive pre- and post-market regulation by the FDA, including regulations that govern the testing, manufacturing, distribution, safety, efficacy, approval, labeling, storage, record keeping, reporting, advertising and promotion of such products under the FDCA, and its implementing regulations, and by comparable agencies and laws in foreign countries. Failure to comply with applicable FDA or other regulatory requirements may result in, among other things, warning letters, clinical holds, civil or criminal penalties, recall or seizure of products, injunction, debarment, partial or total suspension of production or withdrawal of the product from the market. The FDA must approve any new drug, including a new dosage form or new use of a previously approved drug, prior to marketing in the United States. All applications for FDA approval must contain, among other things, information relating to safety and efficacy, pharmaceutical formulation, stability, manufacturing, processing, packaging, labeling and quality control.

New Drug Applications

Generally, the FDA must approve any new drug before marketing of the drug occurs in the United States. This process generally involves:

- completion of preclinical laboratory and animal testing and formulation studies in compliance with the FDA's Good Laboratory Practice, or GLP, regulations;
- submission to the FDA of an IND application for human clinical testing, which must become effective before human clinical trials may begin in the United States;
- approval by an independent institutional review board, or IRB, at each clinical trial site before each trial may be initiated;
- performance of human clinical trials, including adequate and well-controlled clinical trials in accordance with good clinical practices, or GCP, to establish the safety and efficacy of the proposed drug product for each intended use;
- submission of an NDA to the FDA;
- satisfactory completion of an FDA pre-approval inspection of the product's manufacturing facility or facilities to assess compliance with the FDA's cGMP regulations, and to ensure that the facilities, methods and controls are adequate to preserve the drug's identity, quality and purity;
- satisfactory completion of an FDA advisory committee review, if applicable; and
- approval by the FDA of the NDA.

The preclinical and clinical testing and approval process requires substantial time, effort and financial resources, and we cannot be certain that the FDA will grant approvals for any of our product candidates on a timely basis, if at all. Preclinical tests include laboratory evaluation of product chemistry, formulation and stability, as well as studies to evaluate toxicity in animals. The results of preclinical tests, together with manufacturing information, analytical data and a proposed clinical trial protocol and other information, are

submitted as part of an IND application to the FDA. The IND automatically becomes effective 30 days after receipt by the FDA, unless the FDA, within the 30-day time period, places the trial on a clinical hold because of, among other things, concerns about the conduct of the clinical trial or about exposure of human research subjects to unreasonable health risks. In such a case, the IND sponsor and the FDA must resolve any outstanding concerns before the clinical trial can begin. Our submission of an IND may not result in FDA authorization to commence a clinical trial. In addition, the FDA requires sponsors to amend an existing IND for each successive clinical trial conducted during product development. Further, an independent institutional review board, or IRB, covering each medical center proposing to conduct the clinical trial must review and approve the plan for any clinical trial and informed consent information for subjects before the clinical trial commences at that center, and it must monitor the clinical trial until completed. The FDA, the IRB or the sponsor may suspend a clinical trial at any time, or from time to time, on various grounds, including a finding that the subjects or patients are being exposed to an unacceptable health risk.

Clinical trials involve the administration of the investigational new drug to human subjects under the supervision of qualified investigators in accordance with GCP requirements, which include the requirement that all research subjects provide their informed consent for their participation in any clinical trial. For purposes of an NDA submission and approval, typically, the conduct of human clinical trials occurs in the following three pre-market sequential phases, which may overlap:

- *Phase 1:* sponsors initially conduct clinical trials in a limited population to test the product candidate for safety, dose tolerance, absorption, metabolism, distribution and excretion in healthy humans or, on occasion, in patients, such as cancer patients.
- *Phase 2:* sponsors conduct clinical trials generally in a limited patient population to identify possible adverse effects and safety risks, to determine the efficacy of the product for specific targeted indications and to determine dose tolerance and optimal dosage. Sponsors may conduct multiple Phase 2 clinical trials to obtain information prior to beginning larger and more extensive Phase 3 clinical trials.
- *Phase 3:* these include expanded controlled and uncontrolled trials, including pivotal clinical trials. When Phase 2 evaluations suggest the effectiveness of a dose range of the product and acceptability of such product's safety profile, sponsors undertake Phase 3 clinical trials in larger patient populations to obtain additional information needed to evaluate the overall benefit and risk balance of the drug and to provide an adequate basis to develop labeling.

In addition, sponsors may elect to conduct, or be required by the FDA to conduct, Phase 4 clinical trials to further assess the drug's safety or effectiveness after NDA approval. Such post approval trials are typically referred to as Phase 4 clinical trials.

Sponsors submit the results of product development, preclinical studies and clinical trials to the FDA as part of an NDA. NDAs must also contain extensive information relating to the product's pharmacology, chemistry, manufacture, controls and proposed labeling, among other things. In addition, 505(b)(2) applications must contain a patent certification for each patent listed in FDA's "Orange Book" that covers the drug referenced in the application and upon which the third-party studies were conducted. For some drugs, the FDA may require risk evaluation and mitigation strategies, or REMS, which could include medication guides, physician communication plans, or restrictions on distribution and use, such as limitations on who may prescribe the drug or where it may be dispensed or administered. Upon receipt, the FDA has 60 days to determine whether the NDA is sufficiently complete to initiate a substantive review. If the FDA identifies deficiencies that would preclude substantive review, the FDA will refuse to accept the NDA and will inform the sponsor of the deficiencies that must be corrected prior to resubmission. If the FDA accepts the submission for substantive review, the FDA typically reviews the NDA in accordance with established timeframes. Under PDUFA, the FDA agrees to specific goals for NDA review time through a two-tiered classification system, Priority Review and Standard Review. A Priority Review designation is given to drugs that offer major advances in treatment, or provide a treatment where no adequate therapy exists. For a Priority Review application, the FDA aims to complete the

initial review cycle in six months. Standard Review applies to all applications that are not eligible for Priority Review. The FDA aims to complete Standard Review NDAs within a ten-month timeframe. We anticipate that the FDA will grant our product candidate a Standard Review. Review processes often extend significantly beyond anticipated completion dates due to FDA requests for additional information or clarification, difficulties scheduling an advisory committee meeting, negotiations regarding REMS, or FDA workload issues. The FDA may refer the application to an advisory committee for review, evaluation and recommendation as to the application's approval. The recommendations of an advisory committee do not bind the FDA, but the FDA generally follows such recommendations.

Under PDUFA, NDA applicants must pay significant NDA user fees upon submission. In addition, manufacturers of approved prescription drug products must pay annual establishment and product user fees.

Before approving an NDA, the FDA may inspect the facility or facilities where the product is manufactured. The FDA will not approve an application unless it determines that the manufacturing processes and facilities are in compliance with cGMP requirements and are adequate to ensure consistent production of the product within required specifications. Additionally, the FDA will typically inspect one or more clinical sites to ensure compliance with GCP before approving an NDA.

After the FDA evaluates the NDA and the manufacturing facilities, it may issue an approval letter or a Complete Response Letter, or CRL, to indicate that the review cycle for an application is complete and that the application is not ready for approval. CRLs generally outline the deficiencies in the submission and may require substantial additional testing or information in order for the FDA to reconsider the application. Even if such additional information is submitted, the FDA may ultimately decide that the NDA does not satisfy the criteria for approval. Data from clinical trials are not always conclusive and the FDA may interpret data differently than we do. The FDA could also require a REMS plan to mitigate risks, which could include medication guides, physician communication plans, or elements to assure safe use, such as restricted distribution methods, patient registries and other risk minimization tools. The FDA also may condition approval on, among other things, changes to proposed labeling, a commitment to conduct one or more post-market studies or clinical trials and the correction of identified manufacturing deficiencies, including the development of adequate controls and specifications. If and when the deficiencies have been addressed to the FDA's satisfaction, the FDA will typically issue an approval letter. An approval letter authorizes commercial marketing of the drug with specific prescribing information for specific indications.

Section 505(b)(2) New Drug Applications

As an alternate path to FDA approval, particularly for modifications to drug products previously approved by the FDA, an applicant may submit an NDA under Section 505(b)(2) of the FDCA. Section 505(b)(2) was enacted as part of the Drug Price Competition and Patent Term Restoration Act of 1984, also known as the Hatch-Waxman Act, and permits the submission of an NDA where at least some of the information required for approval comes from clinical trials not conducted by or for the applicant and for which the applicant has not obtained a right of reference. The FDA interprets Section 505(b)(2) of the FDCA to permit the applicant to rely upon the FDA's previous findings of safety and effectiveness for an approved product. The FDA may also require companies to perform additional clinical trials or measurements to support any change from the previously approved product. The FDA may then approve the new product candidate for all or some of the label indications for which the referenced product has been approved, as well as for any new indication sought by the Section 505(b)(2) applicant.

Section 505(b)(2) applications are subject to any non-patent exclusivity period applicable to the referenced product, which may delay approval of the 505(b)(2) application even if FDA has completed its substantive review and determined the drug should be approved. In addition, 505(b)(2) applications must include patent certifications to any patents listed in the Orange Book as covering the referenced product. If the 505(b)(2) applicant seeks to obtain approval before the expiration of an applicable listed patent, the 505(b)(2) applicant

must provide notice to the patent owner and NDA holder of the referenced product. If the patent owner or NDA holder bring a patent infringement lawsuit within 45 days of such notice, the 505(b)(2) application cannot be approved for 30 months or until the 505(b)(2) applicant prevails, whichever is sooner. If the 505(b)(2) applicant loses the patent infringement suit, FDA may not approve the 505(b)(2) application until the patent expires, plus any period of pediatric exclusivity.

In the NDA submissions for our product candidates, we intend to follow the development and approval pathway permitted under the FDCA that we believe will maximize the commercial opportunities for these product candidates.

Post-Approval Requirements

After approval, the NDA sponsor must comply with comprehensive requirements governing, among other things, drug listing, recordkeeping, manufacturing, marketing activities, product sampling and distribution, annual reporting and adverse event reporting. There are also extensive U.S. Drug Enforcement Agency, or DEA, regulations applicable to marketed controlled substances.

If new safety issues are identified following approval, the FDA can require the NDA sponsor to revise the approved labeling to reflect the new safety information; conduct post-market studies or clinical trials to assess the new safety information; and implement a REMS program to mitigate newly-identified risks. The FDA may also require post-approval testing, including Phase 4 studies, and surveillance programs to monitor the effect of approved products which have been commercialized, and the FDA has the authority to prevent or limit further marketing of a product based on the results of these post-marketing programs. Drugs may be marketed only for approved indications and in accordance with the provisions of the approved label. Further, if we modify a drug, including any changes in indications, labeling or manufacturing processes or facilities, the FDA may require us to submit and obtain FDA approval of a new or supplemental NDA, which may require us to develop additional data or conduct additional preclinical studies and clinical trials.

In addition, drug manufacturers and other entities involved in the manufacture and distribution of approved drugs are required to register their establishments with the FDA and state agencies, and are subject to periodic unannounced inspections by the FDA and these state agencies for compliance with cGMP requirements. Changes to the manufacturing process are strictly regulated and often require prior FDA approval before being implemented. FDA regulations also require investigation and correction of any deviations from cGMP and impose reporting and documentation requirements upon us and any third-party manufacturers that we may decide to use.

If after approval the FDA determines that the product does not meet applicable regulatory requirements or poses unacceptable safety risks, the FDA may take other regulatory actions, including initiating suspension or withdrawal of the NDA approval. Later discovery of previously unknown problems with a product, including adverse events of unanticipated severity or frequency, or with manufacturing processes, or failure to comply with regulatory requirements, may result in, among other things:

- restrictions on the marketing or manufacturing of the product, complete withdrawal of the product from the market or product recalls;
- fines, warning letters or holds on post-approval clinical trials;
- refusal of the FDA to approve pending applications or supplements to approved applications, or suspension or revocation of product license approvals;
- product seizure or detention, or refusal to permit the import or export of products; or
- injunctions or the imposition of civil or criminal penalties.

The FDA strictly regulates marketing, labeling, advertising and promotion of products that are placed on the market. These regulations include standards and restrictions for direct-to-consumer advertising, industry-sponsored scientific and educational activities, promotional activities involving the internet, and off-label promotion. While physicians may prescribe for off label uses, manufacturers may only promote for the approved indications and in accordance with the provisions of the approved label. The FDA has very broad enforcement authority under the FDCA, and failure to abide by these regulations can result in penalties, including the issuance of a warning letter directing entities to correct deviations from FDA standards, a requirement that future advertising and promotional materials be pre-cleared by the FDA, and state and federal civil and criminal investigations and prosecutions.

In addition, the distribution of prescription pharmaceutical products is subject to the Prescription Drug Marketing Act, or PDMA, which regulates the distribution of drugs and drug samples at the federal level, and sets minimum standards for the registration and regulation of drug distributors by the states. Both the PDMA and state laws limit the distribution of prescription pharmaceutical product samples and impose requirements to ensure accountability in distribution, including a drug pedigree which tracks the distribution of prescription drugs.

DEA Regulation

One of our marketed products, DepoDur, is regulated as a "controlled substance" as defined in the Controlled Substances Act of 1970, or CSA, which establishes registration, security, recordkeeping, reporting, storage, distribution and other requirements administered by the DEA. The DEA is concerned with the control of handlers of controlled substances, and with the equipment and raw materials used in their manufacture and packaging, in order to prevent loss and diversion into illicit channels of commerce.

The DEA regulates controlled substances as Schedule I, II, III, IV or V substances. Schedule I substances by definition have no established medicinal use, and may not be marketed or sold in the United States. A pharmaceutical product may be listed as Schedule II, III, IV or V, with Schedule II substances considered to present the highest risk of abuse and Schedule V substances the lowest relative risk of abuse among such substances. DepoDur, a sustained-release injectable morphine sulfate, is listed as a Schedule II controlled substance under the CSA. Consequently, its manufacture, shipment, storage, sale and use is subject to a high degree of regulation. For example, generally, all Schedule II drug prescriptions must be signed by a physician, physically presented to a pharmacist and may not be refilled without a new prescription.

Annual registration is required for any facility that manufactures, tests, distributes, dispenses, imports or exports any controlled substance. Except for certain defined co-incident activities, each registration is specific to the particular location, activity and controlled substance schedule. For example, separate registrations are needed for import and manufacturing, and each registration must specify which schedules of controlled substances are authorized.

The DEA typically inspects a facility to review its security measures prior to issuing a registration and, thereafter, on a periodic basis. Security requirements vary by controlled substance schedule, with the most stringent requirements applying to Schedule I and Schedule II substances. Required security measures include background checks on employees and physical control of inventory through measures such as vaults, cages, surveillance cameras and inventory reconciliations. Records must be maintained for the handling of all controlled substances, and periodic reports made to the DEA, for example distribution reports for Schedule I and II controlled substances, Schedule III substances that are narcotics, and other designated substances. Reports must also be made for thefts or significant losses of any controlled substance, and to obtain authorization to destroy any controlled substance. In addition, special authorization, notification and permit requirements apply to imports and exports.

In addition, a DEA quota system controls and limits the availability and production of controlled substances in Schedule I or II. Distributions of any Schedule I or II controlled substance must also be accomplished using special order forms, with copies provided to the DEA. Because DepoDur, a sustained-release injectable morphine

sulfate, is regulated as a Schedule II controlled substance, it is subject to the DEA's production and procurement quota scheme. The DEA establishes annually an aggregate quota for how much morphine may be produced in total in the United States based on the DEA's estimate of the quantity needed to meet legitimate scientific and medicinal needs. This limited aggregate amount of morphine that the DEA allows to be produced in the United States each year is allocated among individual companies, who must submit applications annually to the DEA for individual production and procurement quotas. We must receive an annual quota from the DEA in order to produce or procure any Schedule I or Schedule II substance, including morphine sulfate for use in manufacturing DepoDur. The DEA may adjust aggregate production quotas and individual production and procurement quotas from time to time during the year, although the DEA has substantial discretion in whether or not to make such adjustments. Our quota of an active ingredient may not be sufficient to meet commercial demand or complete the manufacture or purchase of material required for clinical trials. Any delay or refusal by the DEA in establishing our quota for controlled substances could delay or stop our clinical trials or product launches, or interrupt commercial sales of our products which could have a material adverse effect on our business, financial position and results of operations.

The DEA conducts periodic inspections of registered establishments that handle controlled substances. Failure to maintain compliance with applicable requirements, particularly as manifested in loss or diversion, can result in enforcement action that could have a material adverse effect on our business, results of operations and financial condition. The DEA may seek civil penalties, refuse to renew necessary registrations, or initiate proceedings to revoke those registrations. In certain circumstances, violations could eventuate in criminal proceedings.

Individual states also regulate controlled substances, and we are subject to such regulation by several states with respect to the manufacture and distribution of these products.

International Regulation

In addition to regulations in the United States, we are subject to a variety of foreign regulations governing clinical trials and the commercial sales and distribution of our products. Whether or not we obtain FDA approval for a product, we must obtain approval by the comparable regulatory authorities of foreign countries before we can commence clinical trials or marketing of the product in those countries. The approval process varies from country to country, and the time may be longer or shorter than that required for FDA approval. The requirements governing the conduct of clinical trials, product licensing, pricing and reimbursement vary greatly from country to country.

For example, in the EEA (which is comprised of the 27 Member States of the EU plus Norway, Iceland and Liechtenstein), medicinal products can only be commercialized after obtaining a Marketing Authorization (MA). There are two types of marketing authorizations:

- The Community MA, which is issued by the European Commission through the Centralized Procedure, based on the opinion of the Committee for Medicinal Products for Human Use (CHMP) of the EMA, and which is valid throughout the entire territory of the EEA. The Centralized Procedure is mandatory for certain types of products, such as biotechnology medicinal products, orphan medicinal products, and medicinal products containing a new active substance indicated for the treatment of AIDS, cancer, neurodegenerative disorders, diabetes, auto-immune and viral diseases. The Centralized Procedure is optional for products containing a new active substance not yet authorized in the EEA, or for products that constitute a significant therapeutic, scientific or technical innovation or which are in the interest of public health in the EU.
- National MAs, which are issued by the competent authorities of the Member States of the EEA and only cover their respective territory, are available for products not falling within the mandatory scope of the Centralized Procedure. Where a product has already been authorized for marketing in a Member State of the EEA (the Reference Member State or RMS), this National MA can be recognized in other Member

States (the Concerned Member States or CMS) through the Mutual Recognition Procedure. If the product has not received a National MA in any Member State at the time of application, it can be approved simultaneously in various Member States through the Decentralized Procedure. Under the Decentralized Procedure, an identical dossier is submitted to the competent authorities of each of the Member States in which the MA is sought, one of which is selected by the applicant as the RMS. The competent authority of the RMS prepares a draft assessment report, a draft summary of the product characteristics, or SPC, and a draft of the labeling and package leaflet, which are sent to the CMS for their approval. If the CMS raise no objections, based on a potential serious risk to public health, to the assessment, SPC, labeling, or packaging proposed by the RMS, the product is subsequently granted a national MA in all the Member States (i.e. in the RMS and the CMS). If one or more CMS raise objections based on a potential serious risk to public health, the application is referred to the Coordination group for mutual recognition and decentralized procedure for human medicinal products (the CMDh), which is composed of representatives of the EEA Member States. If a consensus cannot be reached within the CMDh the matters is referred for arbitration to the CHMP, which can reach a final decision binding on all EEA Member States. A similar process applies to disputes between the RMS and the CMS in the Mutual Recognition Procedure.

As with FDA approval we may not be able to secure regulatory approvals in Europe in a timely manner, if at all. Additionally, as in the United States, post-approval regulatory requirements, such as those regarding product manufacture, marketing, or distribution, would apply to any product that is approved in Europe, and failure to comply with such obligations could have a material adverse effect on our ability to successfully commercialize any product.

The conduct of clinical trials in the EU is governed by the EU Clinical Trials Directive (Directive 2001/20/EC of 4 April 2001, of the European Parliament and of the Council on the approximation of the laws, regulations and administrative provisions of the Member States relating to implementation of good clinical practice in the conduct of clinical trials on medicinal products for human use). The provisions of the EU Clinical Trials Directive were required to be implemented and applied by the EEA Member States before May 2004. The EU Clinical Trials Directive harmonizes the regulatory requirements of the Member States of the EEA for the conduct of clinical trials in their respective territories. The EU Clinical Trials Directive requires sponsors of clinical trials to submit formal applications to, and to obtain the approval of, national ethics committees and regulatory authorities prior to the initiation of clinical trials.

In addition to regulations in Europe and the United States, we will be subject to a variety of foreign regulations governing clinical trials and commercial distribution of any future products.

Third Party Payer Coverage and Reimbursement

The commercial success of our product candidates will depend, in part, upon the availability of coverage and reimbursement from third-party payers at the federal, state and private levels. Government payer programs, including Medicare and Medicaid, private health care insurance companies and managed care plans may deny coverage or reimbursement for a product or therapy in whole or in part if they determine that the product or therapy is not medically appropriate or necessary. Also, third-party payers have attempted to control costs by limiting coverage and the amount of reimbursement for particular procedures or drug treatments. The United States Congress and state legislatures from time to time propose and adopt initiatives aimed at cost containment, which could impact our ability to sell our products profitably.

For example, in March 2010, President Obama signed into law the Patient Protection and Affordable Care Act, as amended by the Health Care and Education Affordability Reconciliation Act, which we refer to collectively as the Health Care Reform Law, a sweeping law intended to broaden access to health insurance, reduce or constrain the growth of healthcare spending, enhance remedies against fraud and abuse, add new transparency requirements for healthcare and health insurance industries, impose new taxes and fees on the

health industry and impose additional health policy reforms. Effective October 1, 2010, the Health Care Reform Law revises the definition of "average manufacturer price" for reporting purposes, which could increase the amount of Medicaid drug rebates owed to states by pharmaceutical manufacturers. The Health Reform Law also establishes a new Medicare Part D coverage gap discount program, in which drug manufacturers must provide 50% point-of-sale discounts on products covered under Part D beginning in 2011. Further, also beginning in 2011, the new law imposes a significant annual, nondeductible fee on companies that manufacture or import branded prescription drug products. Substantial new provisions affecting compliance have also been enacted, which may require us to modify our business practices with healthcare practitioners. We will not know the full effects of the Health Care Reform Law until applicable federal and state agencies issue regulations or guidance under the new law. Although it is too early to determine the effect of the Health Care Reform Law, the new law appears likely to continue the pressure on pharmaceutical pricing, especially under the Medicare program, and may also increase our regulatory burdens and operating costs. Moreover, in the coming years, additional changes could be made to governmental healthcare programs that could significantly impact the success of our products.

The cost of pharmaceuticals continues to generate substantial governmental and third-party payer interest. We expect that the pharmaceutical industry will experience pricing pressures due to the trend toward managed healthcare, the increasing influence of managed care organizations and additional legislative proposals. Our results of operations could be adversely affected by current and future healthcare reforms.

Some third-party payers also require pre-approval of coverage for new or innovative devices or drug therapies before they will reimburse healthcare providers that use such therapies. While we cannot predict whether any proposed cost-containment measures will be adopted or otherwise implemented in the future, the announcement or adoption of these proposals could have a material adverse effect on our ability to obtain adequate prices for our product candidates and to operate profitably.

In international markets, reimbursement and healthcare payment systems vary significantly by country, and many countries have instituted price ceilings on specific products and therapies. There can be no assurance that our products will be considered medically reasonable and necessary for a specific indication, that our products will be considered cost-effective by third-party payers, that an adequate level or reimbursement will be available so that the third-party payers' reimbursement policies will not adversely affect our ability to sell our products profitably.

Marketing/Data Exclusivity

The FDA may grant three or five years of marketing exclusivity in the United States for the approval of new or supplemental NDAs, including Section 505(b)(2) NDAs, for, among other things, new indications, dosages or dosage forms of an existing drug, if new clinical investigations that were conducted or sponsored by the applicant are essential to the approval of the application. Additionally, six months of marketing exclusivity in the United States is available under Section 505A of the FDCA if, in response to a written request from the FDA, a sponsor submits and the agency accepts requested information relating to the use of the approved drug in the pediatric population. This six month pediatric exclusivity period is not a standalone exclusivity period, but rather is added to any existing patent or non-patent exclusivity period for which the drug product is eligible. Based on our clinical trial program for EXPAREL, we plan to seek at least three years of marketing exclusivity upon receipt of FDA approval for EXPAREL (anticipated exclusivity through at least the third quarter of 2014). We may also seek an additional period of six months exclusivity from the FDA if the FDA requests, and we successfully complete, pediatric clinical trials for EXPAREL.

Manufacturing Requirements

We must comply with applicable FDA regulations relating to FDA's cGMP regulations. The cGMP regulations include requirements relating to organization of personnel, buildings and facilities, equipment, control of components and drug product containers and closures, production and process controls, packaging and

labeling controls, holding and distribution, laboratory controls, records and reports, and returned or salvaged products. The manufacturing facilities for our products must meet cGMP requirements to the satisfaction of the FDA pursuant to a pre-approval inspection before we can use them to manufacture our products. We and any third-party manufacturers are also subject to periodic inspections of facilities by the FDA and other authorities, including procedures and operations used in the testing and manufacture of our products to assess our compliance with applicable regulations. Failure to comply with these and other statutory and regulatory requirements subjects a manufacturer to possible legal or regulatory action, including warning letters, the seizure or recall of products, injunctions, consent decrees placing significant restrictions on or suspending manufacturing operations and civil and criminal penalties. Adverse experiences with the product must be reported to the FDA and could result in the imposition of market restrictions through labeling changes or in product removal. Product approvals may be withdrawn if compliance with regulatory requirements is not maintained or if problems concerning safety or efficacy of the product occur following approval.

Healthcare Fraud and Abuse Laws

We are subject to various federal, state and local laws targeting fraud and abuse in the healthcare industry. For example, in the United States, there are federal and state anti-kickback laws that prohibit the payment or receipt of kickbacks, bribes or other remuneration intended to induce the purchase or recommendation of healthcare products and services or reward past purchases or recommendations. Violations of these laws can lead to civil and criminal penalties, including fines, imprisonment and exclusion from participation in federal healthcare programs. These laws are potentially applicable to manufacturers of products regulated by the FDA, such as us, and hospitals, physicians and other potential purchasers of such products.

In particular, the federal Anti-Kickback Statute prohibits persons from knowingly and willfully soliciting, receiving, offering or providing remuneration, directly or indirectly, to induce either the referral of an individual, or the furnishing, recommending, or arranging for a good or service, for which payment may be made under a federal healthcare program such as the Medicare and Medicaid programs. The term "remuneration" is not defined in the federal Anti-Kickback Statute and has been broadly interpreted to include anything of value, including for example, gifts, discounts, the furnishing of supplies or equipment, credit arrangements, payments of cash, waivers of payments, ownership interests and providing anything at less than its fair market value. In addition, the recently enacted Health Care Reform Law, among other things, amends the intent requirement of the federal Anti-Kickback Statute and the applicable criminal healthcare fraud statutes contained within 42 U.S.C. § 1320a-7b effective March 23, 2010. Pursuant to the statutory amendment, a person or entity no longer needs to have actual knowledge of this statute or specific intent to violate it in order to have committed a violation. In addition, the PPACA provides that the government may assert that a claim including items or services resulting from a violation of 42 U.S.C. § 1320a-7b constitutes a false or fraudulent claim for purposes of the civil False Claims Act (discussed below) or the civil monetary penalties statute, which imposes a penalty of $5000 against any person who is determined to have presented or caused to be presented claims to a federal health care program that the person knows or should know is for an item or service that was not provided as claimed or is false or fraudulent. Moreover, the lack of uniform court interpretation of the Anti-Kickback Statute makes compliance with the law difficult.

Recognizing that the Anti-Kickback Statute is broad and may technically prohibit many innocuous or beneficial arrangements within the healthcare industry, the U.S. Department of Health and Human Services' Office of Inspector General, or OIG, issued regulations in July of 1991, and periodically since that time, which the OIG refers to as "safe harbors." These safe harbor regulations set forth certain provisions which, if met in form and substance, will assure pharmaceutical companies, healthcare providers and other parties that they will not be prosecuted under the federal Anti-Kickback Statute. Additional safe harbor provisions providing similar protections have been published intermittently since 1991. Although full compliance with these provisions ensures against prosecution under the federal Anti-Kickback Statute, the failure of a transaction or arrangement to fit within a specific safe harbor does not necessarily mean that the transaction or arrangement is illegal or that prosecution under the federal Anti-Kickback Statute will be pursued. However, conduct and business arrangements that do not

fully satisfy each applicable safe harbor may result in increased scrutiny by government enforcement authorities, such as the OIG or federal prosecutors. Additionally, there are certain statutory exceptions to the federal Anti-Kickback Statute, one or more of which could be used to protect a business arrangement, although we understand that OIG is of the view that an arrangement that does not meet the requirements of a safe harbor cannot satisfy the corresponding statutory exception, if any, under the federal Anti-Kickback Statute.

Additionally, many states have adopted laws similar to the federal Anti-Kickback Statute. Some of these state prohibitions apply to referral of patients for healthcare items or services reimbursed by any third-party payer, not only the Medicare and Medicaid programs, and do not contain identical safe harbors. Government officials have focused their enforcement efforts on marketing of healthcare services and products, among other activities, and have brought cases against numerous pharmaceutical and medical device companies, and certain sales and marketing personnel for allegedly offering unlawful inducements to potential or existing customers in an attempt to procure their business or reward past purchases or recommendations.

Another development affecting the healthcare industry is the increased use of the federal civil False Claims Act and, in particular, actions brought pursuant to the False Claims Act's "whistleblower" or "qui tam" provisions. The civil False Claims Act imposes liability on any person or entity who, among other things, knowingly presents, or causes to be presented, a false or fraudulent claim for payment by a federal healthcare program. The qui tam provisions of the False Claims Act allow a private individual to bring civil actions on behalf of the federal government alleging that the defendant has submitted a false claim to the federal government, and to share in any monetary recovery. In recent years, the number of suits brought by private individuals has increased dramatically. In addition, various states have enacted false claim laws analogous to the False Claims Act. Many of these state laws apply where a claim is submitted to any third-party payer and not merely a federal healthcare program. When an entity is determined to have violated the False Claims Act, it may be required to pay up to three times the actual damages sustained by the government, plus civil penalties of $5,500 to $11,000 for each separate false claim. There are many potential bases for liability under the False Claims Act. Liability arises, primarily, when an entity knowingly submits, or causes another to submit, a false claim for reimbursement to the federal government. The False Claims Act has been used to assert liability on the basis of inadequate care, kickbacks and other improper referrals, improperly reported government pricing metrics such as Best Price or Average Manufacturer Price, improper use of Medicare numbers when detailing the provider of services, improper promotion of off-label uses (i.e., uses not expressly approved by FDA in a drug's label), and allegations as to misrepresentations with respect to the services rendered. Our activities relating to the reporting of discount and rebate information and other information affecting federal, state and third-party reimbursement of our products, and the sale and marketing of our products and our service arrangements or data purchases, among other activities, may be subject to scrutiny under these laws. We are unable to predict whether we would be subject to actions under the False Claims Act or a similar state law, or the impact of such actions. However, the cost of defending such claims, as well as any sanctions imposed, could adversely affect our financial performance.

Also, the Health Insurance Portability and Accountability Act of 1996, or HIPAA, created several new federal crimes, including health care fraud, and false statements relating to health care matters. The health care fraud statute prohibits knowingly and willfully executing a scheme to defraud any health care benefit program, including private third-party payers. The false statements statute prohibits knowingly and willfully falsifying, concealing or covering up a material fact or making any materially false, fictitious or fraudulent statement in connection with the delivery of or payment for health care benefits, items or services.

In addition, under California law, pharmaceutical companies must adopt a comprehensive compliance program that is in accordance with both the April 2003 Office of Inspector General Compliance Program Guidance for Pharmaceutical Manufacturers, or OIG Guidance, and the Pharmaceutical Research and Manufacturers of America Code on Interactions with Healthcare Professionals, or the PhRMA Code. The PhRMA Code seeks to promote transparency in relationships between health care professionals and the pharmaceutical industry and to ensure that pharmaceutical marketing activities comport with the highest ethical standards. The PhRMA Code contains strict

limitations on certain interactions between health care professionals and the pharmaceutical industry relating to gifts, meals, entertainment and speaker programs, among others. Also, certain states, such as Massachusetts and Minnesota, have imposed restrictions on the types of interactions that pharmaceutical and medical device companies or their agents (e.g., sales representatives) may have with health care professionals, including bans or strict limitations on the provision of meals, entertainment, hospitality, travel and lodging expenses, and other financial support, including funding for continuing medical education activities.

Healthcare Privacy and Security Laws

We may be subject to, or our marketing activities may be limited by, HIPAA, and its implementing regulations, which established uniform standards for certain "covered entities" (healthcare providers, health plans and healthcare clearinghouses) governing the conduct of certain electronic healthcare transactions and protecting the security and privacy of protected health information. The American Recovery and Reinvestment Act of 2009, commonly referred to as the economic stimulus package, included sweeping expansion of HIPAA's privacy and security standards called the Health Information Technology for Economic and Clinical Health Act, or HITECH, which became effective on February 17, 2010. Among other things, the new law makes HIPAA's privacy and security standards directly applicable to "business associates"—independent contractors or agents of covered entities that receive or obtain protected health information in connection with providing a service on behalf of a covered entity. HITECH also increased the civil and criminal penalties that may be imposed against covered entities, business associates and possibly other persons, and gave state attorneys general new authority to file civil actions for damages or injunctions in federal courts to enforce the federal HIPAA laws and seek attorney's fees and costs associated with pursuing federal civil actions.

Employees

As of November 30, 2010, we employed 81 employees, with 8 in research and development, 55 in operations, and 18 in general and administrative. All of our employees are located in the United States. None of our employees are represented by a labor union, and we consider our current employee relations to be good.

Facilities

Our research and development and manufacturing facilities are located in San Diego, California, where we occupy two facilities totaling approximately 106,000 square feet under leases expiring in July 2015. We use these facilities for research and development, manufacturing and general and administrative purposes. In addition, we maintain our executive offices, commercial and business development facility in Parsippany, New Jersey.

We believe that our manufacturing facilities are sufficient for our current needs. We intend to add new facilities or expand existing facilities as we add employees or expand our geographic markets, and we believe that suitable additional or substitute space will be available as needed to accommodate any such expansion of our operations.

Legal Proceedings

From time to time, we have been and may again become involved in legal proceedings arising in the ordinary course of our business. We are not presently a party to any material litigation and we are not aware of any pending or threatened litigation against us that could have a material adverse effect on our business, operating results, financial condition or cash flows.

Board Composition

Our board of directors currently consists of seven members, all of whom were elected as directors pursuant to a voting agreement that we have entered into with the holders of our Series A convertible preferred stock. The voting agreement will terminate upon the completion of this offering and there will be no further contractual obligations regarding the election of our directors. Our directors hold office until their successors have been elected and qualified or until the earlier of their resignation or removal.

In accordance with the terms of our restated certificate of incorporation and bylaws that will become effective upon the completion of this offering, our board of directors will be divided into three classes, class I, class II and class III, with each class serving staggered three-year terms. Upon the expiration of the term of a class of directors, directors in that class will be eligible to be elected for a new three-year term at the annual meeting of stockholders in the year in which their term expires.

Our restated certificate of incorporation and amended and restated bylaws that will become effective upon the completion of this offering provide that the authorized number of directors may be changed only by resolution of the board of directors. Our restated certificate of incorporation and amended and restated bylaws that will become effective upon the completion of this offering also provide that our directors may be removed only for cause by the affirmative vote of the holders of at least 75% of the votes that all our stockholders would be entitled to cast in an annual election of directors, and that any vacancy on our board of directors, including a vacancy resulting from an enlargement of our board of directors, may be filled only by vote of a majority of our directors then in office.

We have no formal policy regarding board diversity. Our priority in selection of board members is identification of members who will further the interests of our stockholders through his or her established record of professional accomplishment, the ability to contribute positively to the collaborative culture among board members, knowledge of our business and understanding of the competitive landscape.

Director Independence

Under The NASDAQ Marketplace Rules, a director will only qualify as an "independent director" if, in the opinion of our board of directors, that person does not have a relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director.

Our board of directors has determined that each of our directors, with the exception of David Stack, is an "independent director" as defined under Rule 5605(a)(2) of The NASDAQ Marketplace Rules. In making such independence determination, the board of directors considered the relationships that each such non-employee director has with us and all other facts and circumstances that the board of directors deemed relevant in determining their independence, including the beneficial ownership of our capital stock by each non-employee director. In considering the independence of the directors listed above, our board of directors considered the association of our directors with the holders of more than 5% of our common stock.

Our board of directors has established an audit committee, a compensation committee and, upon the completion of this offering, a nominating and corporate governance committee. Each of these committees will operate under a charter that has been approved by our board of directors.

In addition, our board of directors has determined that Dr. Gordon qualifies as an audit committee financial expert within the meaning of SEC regulations and The NASDAQ Marketplace Rules. In making this determination, our board has considered the formal education and nature and scope of his previous experience, coupled with past and present service on various audit committees. Our audit committee assists our board of directors in its oversight of our accounting and financial reporting process and the audits of our financial statements.

Compensation Committee Interlocks and Insider Participation

None of our executive officers serves, or in the past has served, as a member of the board of directors or compensation committee, or other committee serving an equivalent function, of any entity that has one or more executive officers who serve as members of our board of directors or our compensation committee. None of the members of our compensation committee is an officer or employee of our company. Other than John Longenecker, who was the president and chief operating officer of DepoTech, the predecessor to PPI-California, none of the members of our compensation committee have ever been an officer or employee of our company.

Code of Business Conduct and Ethics

Prior to the completion of this offering, we will adopt a written code of business conduct and ethics that applies to our directors, officers and employees, including our principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. Following the completion of this offering, a current copy of the code will be posted on the Corporate Governance section of our website, which is located at www.pacira.com. If we make any substantive amendments to, or grant any waivers from, the code of business conduct and ethics for any officer or director, we will disclose the nature of such amendment or waiver on our website or in a current report on Form 8-K.

Board Leadership Structure and Board's Role in Risk Oversight

The positions of our chairman of the board and chief executive officer are separated. Separating these positions allows our chief executive officer to focus on our day-to-day business, while allowing the chairman of the board to lead the board of directors in its fundamental role of providing advice to and independent oversight of management. Our board of directors recognizes the time, effort and energy that the chief executive officer must devote to his position in the current business environment, as well as the commitment required to serve as our chairman, particularly as the board of directors' oversight responsibilities continue to grow. Our board of directors also believes that this structure ensures a greater role for the independent directors in the oversight of our company and active participation of the independent directors in setting agendas and establishing priorities and procedures for the work of our board of directors. This leadership structure also is preferred by a significant number of our stockholders. Our board of directors believes its administration of its risk oversight function has not affected its leadership structure.

Although our bylaws that will be in effect upon the completion of this offering will not require our chairman and chief executive officer positions to be separate, our board of directors believes that having separate positions is the appropriate leadership structure for us at this time and demonstrates our commitment to good corporate governance.

Risk is inherent with every business, and how well a business manages risk can ultimately determine its success. We face a number of risks, including those described under "Risk Factors." Our board of directors is actively involved in oversight of risks that could affect us. This oversight is conducted primarily by our full board of directors, which has responsibility for general oversight of risks.

Following the completion of this offering, our board of directors will satisfy this responsibility through full reports by each committee chair regarding the committee's considerations and actions, as well as through regular reports directly from officers responsible for oversight of particular risks within our company. Our board of directors believes that full and open communication between management and the board of directors is essential for effective risk management and oversight.

EXECUTIVE COMPENSATION

This section discusses the material elements of our executive compensation policies and decisions and the most important factors relevant to an analysis of these policies and decisions. It provides qualitative information regarding the manner and context in which compensation is awarded to and earned by our executive officers named in the "Summary Compensation Table," or our "named executive officers," and is intended to place in perspective the data presented in the tables and the narrative that follows.

In preparing to become a public company, we have begun a thorough review of all elements of our executive compensation program, including the function and design of our equity incentive programs. We have begun, and we expect to continue in the coming months, to evaluate the need for revisions to our executive compensation program to ensure our program is competitive with the companies with which we compete for executive talent and is appropriate for a public company.

Overview of our Executive Compensation Process

Roles of Our Board, Chief Executive Officer and Compensation Committee in Compensation Decisions. As a private company, our chief executive officer and compensation committee have historically overseen our executive compensation program. Our compensation committee, either as a committee or together with the other independent directors, makes all compensation decisions regarding our chief executive officer. Our chief executive officer may make recommendations to the compensation committee regarding the compensation of our executive officers other than the chief executive officer, but the compensation committee either makes all compensation decisions regarding our other executive officers or makes recommendations concerning executive compensation to our board of directors, with the independent directors making such decisions. In his role, our chief executive officer has reviewed all compensation decisions relating to our executive officers other than himself. He has annually reviewed the performance of each of our other executive officers, and, based on these reviews, has made recommendations to our compensation committee regarding salary adjustments, annual incentive bonus payments and equity incentive awards for our executive officers.

Competitive Market Data and Use of Compensation Consultants . Historically, we have not formally benchmarked our executive compensation against compensation data of a peer group of companies, but rather have relied on the business judgment and experience in the pharmaceutical industry of our chief executive officer and members of our compensation committee. We have developed substantial information about compensation practices and levels at comparable companies through extensive recruiting, networking and industry research. Our compensation committee may in the future elect to engage an independent compensation consulting firm to provide advice regarding our executive compensation program and general information regarding executive compensation practices in our industry. Although the compensation committee would consider such a compensation consulting firm's advice in establishing and approving the various elements of our executive compensation program, our chief executive officer and the compensation committee would ultimately make their own decisions, or make recommendations to our board of directors, about these matters.

Objectives and Philosophy of Our Executive Compensation Program . Our primary objective with respect to executive compensation is to attract, retain and motivate highly talented individuals who have the skills and experience to successfully execute our business strategy. Our executive compensation program is designed to:

- reward the achievement of our annual and long-term operating and strategic goals;
- recognize individual contributions;
- align the interests of our executives with those of our stockholders by rewarding performance that meets or exceeds established goals, with the ultimate objective of increasing stockholder value; and
- retain and build our executive management team.

To achieve these objectives, our executive compensation program ties a portion of each executive's overall compensation to key corporate financial goals and to individual goals. We have also provided a portion of our

executive compensation in the form of option awards that vest over time, which we believe helps to retain our executive officers and aligns their interests with those of our stockholders by allowing them to participate in our long-term performance as reflected in the trading price of shares of our common stock.

Elements of Our Executive Compensation Program. The primary elements of our executive compensation program are:

- base salaries;
- annual incentive bonuses;
- company sale bonus plan;
- equity incentive awards; and
- other employee benefits.

We have not adopted any formal or informal policies or guidelines for allocating compensation among these elements.

Base Salaries. We use competitive base salaries to attract and retain qualified candidates to help us achieve our growth and performance goals. Base salaries are intended to recognize an executive officer's immediate contribution to our organization, as well as his or her experience, knowledge and responsibilities.

Historically, our chief executive officer (with respect to executive officers other than himself) and our vice president, human resources have annually evaluated and recommended adjustments to executive officer base salary levels to our compensation committee or board of directors based on factors determined to be relevant, including:

- the executive officer's skills and experience;
- the particular importance of the executive officer's position to us;
- the executive officer's individual performance;
- the executive officer's growth in his or her position; and
- base salaries for comparable positions within our company and at other companies.

Our chief executive officer's base salary has been determined by the non-management members of our board of directors, taking into account these same factors.

We have historically made annual base salary adjustments at the end of each year, with the adjustments taking effect at the beginning of the following year. In 2009, we made no adjustments to the base salaries for our chief executive officer or any of our other named executive officers.

Following the completion of this offering, our compensation committee will perform such annual evaluations, and we expect that it will consider similar factors, as well as perhaps the input of a compensation consulting firm and peer group benchmarking data, in making any adjustments to executive officer base salary levels.

Annual Incentive Bonuses. In addition to the corporate goals described below, members of management, including each of our executive officers, were assigned personal achievement goals near the beginning of fiscal 2007. For our executive officers other than our chief executive officer, these individual goals were set by our chief executive officer in collaboration with our executive management team and the individual goals for our chief executive officer were set by our board of directors, taking into account discussions with our chief executive officer.

We do not currently have a formal annual incentive bonus program. The company did pay cash bonuses based on the achievement of approved operational milestones in 2007. The 2007 bonus program was targeted at

75% based on the achievement of corporate goals and 25% based on personal achievement goals. A total pool of $57,570 was shared equally between six executives. The compensation committee did not establish a formal annual incentive bonus program in 2008 or 2009, and we have not paid any bonuses based on corporate goals or personal achievement goals in 2008 or 2009. Although our 2008 and 2009 corporate goals were informal, they were focused on the achievement of certain objectives. In 2008, the objectives were (1) developing and executing Phase 3 clinical trials for EXPAREL, (2) scaling up for post FDA approval manufacturing and (3) obtaining additional financing. In 2009, the objectives were (1) successful completion of additional Phase 3 clinical trials of EXPAREL and (2) obtaining additional financing. For 2008 and 2009, our compensation committee made the decision not to pay annual bonuses based on the need to manage expenses and allocate resources to our clinical development programs, and did not formally evaluate whether our 2008 or 2009 corporate goals had been achieved. We did not have additional individual performance goals for our executive officers in 2008 or 2009. Our compensation committee has the authority to award discretionary performance-based cash bonuses to our executive officers and certain non-executive employees. Our compensation committee considers awarding such discretionary bonuses in the event of extraordinary short-term efforts and achievements by our executives and employees, as recommended by management. No such discretionary bonuses were awarded in 2008 or 2009. We do expect that our compensation committee will establish a formal cash incentive program in the future, and that our executive officers will participate in that program.

Company Sale Bonus Plan. In March 2009, we adopted a company sale bonus plan, amended and restated in March 2010, that provides for a potential cash bonus payment to specified employees and consultants, including our executive officers, and our non-employee directors, in the event of a sale of our company. The purpose of the company sale bonus plan is to provide these employees, consultants and directors with an additional incentive in connection with a transaction that is in our and our stockholders' best interests, but which may otherwise create personal uncertainties. Under the company sale bonus plan, upon the closing of a sale transaction that satisfies specified criteria, each participant in the company sale plan would receive either a bonus in an amount equal to a portion of the sale proceeds multiplied by a specified percentage for that participant or a fixed bonus payment. As a condition to becoming participants under the plan, most of the participants, including all of our executive officers and non-employee directors, agreed to have their existing option grants cancelled. The participants in the bonus plan were determined by our board of directors. This bonus plan terminates upon the completion of this offering. As a condition to becoming a participant under the Company Sale Bonus Plan, most of the participants under the plan, including all of our executive officers and non-employee directors, agreed to have their existing option grants cancelled in March 2009.

Equity Incentive Compensation. We believe that our long-term performance is enhanced through equity awards. Equity awards reward executives and employees for maximizing stockholder value over time and align the interests of our employees and management with those of the stockholders. We granted stock options to our employees, including our named executive officers, in connection with their initial employment with us. In connection with the adoption of our company sale bonus plan, most of the participants under the plan, including all of our executive officers and non-employee directors, agreed to have their existing option grants cancelled. Subsequent to the cancellation, in September 2010, our board of directors granted new options to all of our employees, including our executive officers, and our non-employee directors, including options to purchase an aggregate of 8,705,000 shares of common stock to our named executive officers.

Equity Incentive Awards. Our equity incentive award program is the primary vehicle for offering long-term incentives to our executive officers. To date, equity incentive awards to our executive officers have been made in the form of stock options. We believe that equity incentive awards:

- provide our executive officers with a strong link to our long-term performance by enhancing their accountability for long-term decision making;
- create an ownership culture by aligning the interests of our executive officers with the creation of value for our stockholders; and
- further our goal of executive retention.

Employees who are considered important to our long-term success are eligible to receive equity incentive awards. Equity incentive awards have been granted to all of our current employees and certain of our non-employee directors. On September 2, 2010, we granted options to purchase an aggregate of 8,705,000 shares of common stock to our named executive officers.

Historically, all equity incentive awards granted to our executive officers have been approved by our board of directors, with input from our chief executive officer, our executive management team and our compensation committee. In determining the size of equity incentive awards to executive officers, our board and chief executive officer have generally considered the executive's experience, skills, level and scope of responsibilities, existing equity holdings, and comparisons to comparable positions in our company.

Our compensation committee has the authority to make equity awards to our executive officers and to administer our equity incentive plans.

We do not have any equity ownership guidelines or requirements for our executive officers.

Other Employee Benefits. We maintain broad-based benefits that are provided to all employees, including our 401(k) retirement plan, flexible spending accounts, medical and dental care plans, life insurance, short- and long-term disability policies, vacation and company holidays. Our executive officers are eligible to participate in each of these programs on the same terms as non-executive employees; however, employees at the director level and above are eligible for life insurance coverage equal to three times (rather than twice) their annual base salary.

Severance and Change of Control Arrangements. We have entered into employment agreements with David Stack, our chief executive officer, James Scibetta, our chief financial officer, Gary Patou, our chief medical officer, Mark Walters, our senior vice president, technical operations and William Lambert, our senior vice president, pharmaceutical development. Each of these agreements provides the executive officer with certain severance benefits in connection with certain terminations of the executive's employment or, in the case of Dr. Patou, consulting arrangement, both before and after a change of control of us. See "Executive Compensation—Employment Agreements, Severance and Change in Control Arrangements" below.

Risk Considerations in our Compensation Program. We have reviewed and evaluated the standards on which our compensation plans have been developed and implemented across our company. It is our belief that our compensation programs do not encourage inappropriate actions by our executive officers. Specifically, we believe that our compensation policies and practices avoid:

- a compensation mix overly weighted toward annual bonus awards;
- an excessive focus on stock option awards that would cause behavior to drive short-term stock price gains in lieu of long-term value creation; and
- unreasonable financial goals or thresholds that would encourage efforts to generate near-term revenue with an adverse impact on long-term success.

We believe that our current business process and planning cycle fosters the following behaviors and controls that would mitigate the potential for adverse risk caused by the action of our executives.

- Annual review of corporate and individual objectives of the executive officers to align these goals with our annual operating and strategic plans and do not encourage unnecessary or excessive risk taking.
- Incentive awards are based on a review of a variety of indicators, including both financial performance and strategic achievements, reducing the potential to concentrate on one indicator as the basis of an annual incentive award.
- The mixes between fixed and variable and cash and equity compensation are designed to encourage strategies and actions that are in our long-term best interests.

- Discretionary authority by the compensation committee to adjust annual bonus funding and payments reduces business risk associated with our cash bonus program.
- Stock option awards vest over a period of time. As a result of the longer time horizon to receive the value of a stock option award, the prospect of short-term or risky behavior is mitigated.

As a result, we do not believe that any risks arising from our employee compensation policies and practices are reasonably likely to have a material adverse effect on us. In addition, we do not believe that the mix and design of the components of our executive compensation program encourage management to assume excessive risks.

Tax Considerations. Section 162(m) of the U.S. Internal Revenue Code of 1986, as amended, which we refer to as the Code, generally disallows a tax deduction for compensation in excess of $1.0 million paid by a public company to its chief executive officer and to each other officer (other than its chief financial officer) whose compensation is required to be reported to stockholders by reason of being among the three other most highly paid executive officers. Qualifying performance-based compensation is not subject to the deduction limitation if specified requirements are met. We will periodically review the potential consequences of Section 162(m) on the various elements of our executive compensation program, and we generally intend to structure the equity incentives component of our executive compensation program, where feasible, to comply with exemptions in Section 162(m) so that the compensation remains tax deductible to us. However, our board of directors or compensation committee may, in its judgment, authorize compensation payments that do not comply with the exemptions in Section 162(m) when it believes that such payments are appropriate to attract and retain executive talent.

Section 409A of the Code applies to plans, agreements and arrangements that provide for the deferral of compensation, and imposes penalty taxes on employees if those plans, agreements and arrangements do not comply with Section 409A. We have sought to structure our executive compensation arrangements to be exempt from, or comply with, Section 409A.

Employment Agreements, Severance and Change in Control Arrangements

We entered into employment agreements with each of our named executive officers other than Gary Patou. The agreements with each of our named executive officers provide for "at will" employment which means we or the executive can terminate his or her employment at any time, with or without cause. Pursuant to the agreements, each of our named executive officers will be entitled to a base salary and certain benefits as previously described.

If any of our named executive officers, other than our chief executive officer, (i) is terminated for any reason other than for "cause," or (ii) terminates his or her employment for "good reason," then such executive officer will be entitled to:

- earned and accrued base salary, bonus, vacation time and other benefits;
- monthly salary continuation payments for a period of nine months from the effective date of the release required to be provided as a condition to receiving these payments;
- health insurance coverage, subject to cost sharing, for nine months following the effective date of the release required to be provided as a condition to receiving this coverage; and
- immediate vesting of the portion of the unvested options granted to him or her in connection with the agreement that would have become vested during the nine month period following the date of termination.

If our chief executive officer (i) is terminated for any reason other than for "cause," or (ii) terminates his employment for "good reason," then he will be entitled to:

- earned and accrued base salary, bonus, vacation time and other benefits;
- monthly salary continuation payments for a period of 12 months from the effective date of the release required to be provided as a condition to receiving these payments;
- health insurance coverage, subject to cost sharing, for 12 months following the effective date of the release required to be provided as a condition to receiving this coverage; and
- immediate vesting of the portion of the unvested options granted to him in connection with the agreement that would have become vested during the 12 month period.

If, within 30 days prior to, or 12 months following, a "change in control," any of our named executive officers, including our chief executive officer, (i) is terminated for any reason other than for "cause," or (ii) terminates his or her employment during the agreement term for "good reason," then, in addition to the severance payments described above, such executive officer will also be entitled to immediate vesting of the entire unvested portion of all equity compensation granted to him or her.

Our obligation to make the severance payments described above will be conditioned upon the executive officer's continued compliance with the non-competition and confidentiality obligations set forth in his or her employment agreement and the executive officer's execution of a general release of claims against us.

Under the employment agreements, "cause" means: (i) failure to substantially perform the duties owed to us after receiving written notice that sets forth in detail the specific respects in which our board of directors believes that the duties have not been substantially performed, and failure to correct the failure within 30 days after receiving a demand for substantial performance and opportunity to cure; (ii) fraud, misconduct, dishonesty, gross negligence or other acts either injurious to us or conducted with intentional disregard for our best interests; (iii) failure to follow reasonable and lawful instructions from our board of directors and failure to cure such failure after receiving 20 days advance written notice; (iv) material breach of the terms of the employment agreement or our employee proprietary information and inventions assignment agreement or any other similar agreement that may be in effect from time to time; or (v) conviction of, or pleading guilty or nolo contendere to, any misdemeanor involving dishonesty or moral turpitude or related to our business, or any felony.

Under the employment agreements, "good reason" means, without the executive officer's prior written consent: (i) any material reduction of the executive officer's then effective base salary that is not in accordance with his employment agreement or related to a cross-executive team salary reduction; (ii) any material breach by us of the executive officer's employment agreement; or (iii) a material reduction in the executive officer's responsibilities or duties, not including a mere reassignment following a change of control to a position that is substantially similar to the position held prior to the change of control; provided, however, that no such event or condition shall constitute good reason unless (x) the executive officer gives us a written notice of termination for good reason not more than 90 days after the initial existence of the condition, (y) the grounds for termination (if susceptible to correction) are not corrected by us within 30 days of our receipt of such notice and (z) the termination date occurs within one (1) year following our receipt of such notice.

Under the employment agreements, a "change of control" means (i) a merger or consolidation of either us or PPI-California into another entity in which the stockholders of us or PPI-California (as applicable) do not control 50% or more of the total voting power of the surviving entity (other than a reincorporation merger); (ii) the sale, transfer or other disposition of all or substantially all of our assets in a liquidation or dissolution; or (iii) the sale or transfer of more than 50% of our outstanding voting stock. In the case of each of the foregoing clauses (i), (ii) and (iii), a change of control as a result of a financing transaction entered into by us or PPI-California shall not constitute a change of control for purposes of these agreements.

Services Agreement with MPM and Gary Patou

In March 2009, we entered into a services agreement with Dr. Patou and MPM Asset Management LLC, or MPM AM. Pursuant to the services agreement, Dr. Gary Patou provided the services to us customarily expected of a chief medical officer. Mr. Patou's principal duties were to manage and lead our clinical team as well as oversee development of protocols and clinical trials designed to provide a path for regulatory approval of EXPAREL. In March 2010, we amended and restated the services agreement to, among other things, extend the term of the services until the deadline for filing the NDA for EXPAREL to October 15, 2010 or until either party gives 10 days prior written notice. In consideration of the services performed under the services agreement, we paid a service fee of $26,467 per month to MPM AM. In addition, we paid a bonus to Dr. Patou upon the successful completion of an NDA submission for EXPAREL.

In October 2010, we entered into a new services agreement with Dr. Patou and MPM AM. Pursuant to this services agreement, Dr. Gary Patou continues to provide the services to us customarily expected of a chief medical officer. Dr. Patou's principal duties include obtaining approval for the EXPAREL NDA in the United States, filing the EXPAREL dossier in the European Union, developing additional clinical indications for EXPAREL and assisting with our product pipeline development. Under the new services agreement, we pay a service fee of $26,467 per month to MPM AM which is adjusted based on the total amount of time Dr. Patou devotes to us during the term of the services agreement. If we terminate our consulting relationship with Dr. Patou and MPM AM other than for "cause" or the consulting relationship is terminated by Dr. Patou and MPM AM for "good reason", then MPM AM will be entitled to continuation of the then effective monthly service fee for a period of nine months following the date of termination and Dr. Patou will be entitled to immediate vesting of the portion of the unvested options that would have vested during the nine month period following the date of termination. In addition, if within 30 days prior to, or 12 months following, a "change of control," the consulting relationship is terminated other than for "cause" or for "good reason", then in addition to the service payments above, Dr. Patou will also be entitled to immediate vesting of the entire unvested portion of his stock options.

Stock Option and Other Compensation Plans

2007 Stock Option/Stock Issuance Plan

In January 2007, our board of directors approved our 2007 Stock Option/Stock Issuance Plan, or the 2007 Plan. The 2007 Plan was approved by our stockholders in June 2007.

We initially reserved 7,000,000 shares of our common stock for issuance under the 2007 Plan. In April 2008, our board of directors amended the 2007 Plan to, among other things, increase the number of authorized plan shares from 7,000,000 to 11,475,000 shares of our common stock. This increase was approved by our stockholders in May 2008. In September 2010, our board of directors further amended the 2007 Plan to increase the number of authorized plan shares from 11,475,000 to 18,600,750 shares of our common stock. This increase was approved by our stockholders in October 2010.

The material terms of the 2007 Plan are summarized below. The 2007 Plan will be filed as an exhibit to the registration statement of which this prospectus is a part.

Administration. Our board of directors (or a committee of the board of directors) administers the 2007 Plan. Subject to the terms and conditions of the 2007 Plan, the administrator has the authority to select the persons to whom awards are to be made, to determine the type or types of awards to be granted to each person, determine the number of awards to grant, determine the number of shares to be subject to such awards, and the terms and conditions of such awards, and make all other determinations and decisions and to take all other actions necessary or advisable for the administration of the 2007 Plan. The plan administrator is also authorized to establish, adopt, amend or revise rules relating to administration of the 2007 Plan, subject to certain restrictions.

Eligibility. Options and restricted stock may be granted under the 2007 Plan to individuals who are then our employees, consultants or members of our board of directors or our subsidiaries. Only employees may be granted incentive stock options, or ISOs.

Awards. The 2007 Plan provides that our administrator may grant or issue stock options and restricted stock. The administrator considers each award grant subjectively, considering factors such as the individual performance of the recipient and the anticipated contribution of the recipient to the attainment of our long-term goals. Each award is set forth in a separate agreement with the person receiving the award and indicates the type, terms and conditions of the award.

- Non-qualified stock options, or NQSOs, provide for the right to purchase shares of our common stock at a specified price which may not be less than 85% of the fair market value of a share of stock on the date of grant, and usually will become exercisable (at the discretion of our compensation committee or the board of directors, in the case of awards to non-employee directors) in one or more installments after the grant date, subject to the participant's continued employment or service with us and/or subject to the satisfaction of performance targets established by our compensation committee (or the board of directors, in the case of awards to non-employee directors). NQSOs may be granted for any term specified by our compensation committee (or the board of directors, in the case of awards to non-employee directors), but the term may not exceed ten years.
- Incentive stock options, or ISOs, are designed to comply with the provisions of the Internal Revenue Code and are subject to specified restrictions contained in the Internal Revenue Code applicable to ISOs. Among such restrictions, ISOs must have an exercise price of not less than the fair market value of a share of common stock on the date of grant, may only be granted to employees, must expire within a specified period of time following the optionee's termination of employment, and must be exercised within ten years after the date of grant. In the case of an ISO granted to an individual who owns (or is deemed to own) more than 10% of the total combined voting power of all classes of our capital stock on the date of grant, the 2007 Plan provides that the exercise price must be more than 110% of the fair market value of a share of common stock on the date of grant and the ISO must expire on the fifth anniversary of the date of its grant.
- Restricted stock may be granted to participants and made subject to such restrictions as may be determined by the administrator. Restricted stock may be repurchased by us at the original purchase price or, if no cash consideration was paid for such stock, forfeited for no consideration if the conditions or restrictions are not met, and the restricted stock may not be sold or otherwise transferred to third parties until restrictions are removed or expire. Recipients of restricted stock, unlike recipients of options, may have voting rights and may receive dividends, if any, prior to when the restrictions lapse.

Corporate Transactions. In the event of a change of control where the acquiror does not assume awards granted under the 2007 Plan, awards issued under the 2007 Plan may be subject to accelerated vesting (at the discretion of the plan administrator) such that 100% of the awards will become vested and exercisable or payable, as applicable, immediately prior to a change in control. Under the 2007 Plan, a change of control is generally defined as:

- a merger, consolidation or other reorganization approved by our stockholders, unless securities representing more than 50% of the total combined voting power of the voting securities of the successor corporation are immediately thereafter beneficially owned, directly or indirectly and in substantially the same proportion, by the persons who beneficially owned our outstanding voting securities immediately prior to such transaction;
- the acquisition, directly or indirectly by any person or related group of persons (other than us, our subsidiaries, or a person or entity that, prior to such transaction, directly or indirectly controls, is controlled by, or is under common control with, us), of beneficial ownership (within the meaning of Rule 13d-3 under the Exchange Act) of securities possessing more than 50% of the total combined

voting power of our outstanding securities pursuant to a tender or exchange offer made directly to our stockholders; or

- a stockholder-approved sale, transfer or other disposition of all or substantially all our assets in a complete liquidation or dissolution.

Amendment of the 2007 Plan. Our board of directors may amend or modify the 2007 Plan in any and all respects. However, stockholder approval of any amendment to the 2007 Plan must be obtained to the extent necessary and desirable to comply with any applicable law, regulation or stock exchange rule, or for any amendment to the 2007 Plan that increases the number of shares available under the 2007 Plan. The administrator may, with the consent of the affected option holders, cancel any or all outstanding awards under the 2007 Plan and grant new awards in substitution. The 2007 Plan will terminate on the tenth anniversary of the date of its initial approval by our board of directors.

Company Sale Bonus Plan

In March 2009, we adopted a company sale bonus plan amended and restated in March 2010, that provides for a potential cash bonus payment to specified employees and consultants, including our executive officers, and our non-employee directors, in the event of a sale of our company. The purpose of the company sale bonus plan is to provide these employees and directors with an additional incentive in connection with a transaction that is in our and our stockholders' best interests, but which may otherwise create personal uncertainties. Under the company sale bonus plan, upon the closing of a sale transaction that satisfies specified criteria, each participant in the company sale bonus plan would receive either a bonus in an amount equal to a portion of the sale proceeds multiplied by a specified percentage for that participant or a fixed bonus payment. The participants in the bonus plan were determined by our board of directors. This bonus plan terminates upon the completion of this offering. As a condition to becoming participants under the plan, most of the participants, including all of our executive officers and non-employee directors, agreed to have their existing option grants cancelled.

401(k) Retirement Plan

We maintain a 401(k) retirement plan that is intended to be a tax-qualified defined contribution plan under Section 401(k) of the Internal Revenue Code. In general, all of our employees are eligible to participate, beginning on the first day of the month following commencement of their employment. The 401(k) plan includes a salary deferral arrangement pursuant to which participants may elect to reduce their current compensation by up to the statutorily prescribed limit, equal to $16,500 in 2009, and have the amount of the reduction contributed to the 401(k) plan.

Limitation of Liability and Indemnification

As permitted by Delaware law, our restated certificate of incorporation and restated bylaws, which will become effective upon the completion of this offering, limit or eliminate the personal liability of our directors. Our restated certificate of incorporation limits the liability of directors to the maximum extent permitted by Delaware law. Delaware law provides that directors of a corporation will not be personally liable for monetary damages for breaches of their fiduciary duties as directors, except liability for:

- any breach of the director's duty of loyalty to us or our stockholders;
- any act or omission not in good faith or that involves intentional misconduct or a knowing violation of law;
- any unlawful payments related to dividends or unlawful stock repurchases, redemptions or other distributions; or
- any transaction from which the director derived an improper personal benefit.

These limitations do not apply to liabilities arising under federal securities laws and do not affect the availability of equitable remedies, including injunctive relief or rescission. If Delaware law is amended to authorize the further elimination or limiting of director liability, then the liability of our directors will be eliminated or limited to the fullest extent permitted by Delaware law as so amended.

As permitted by Delaware law, our restated certificate of incorporation and restated bylaws that will become effective upon the completion of this offering also provide that:

- we will indemnify our directors and officers to the fullest extent permitted by law;
- we may indemnify our other employees and other agents to the same extent that we indemnify our officers and directors, unless otherwise determined by the board of directors; and
- we will advance expenses to our directors and executive officers in connection with legal proceedings to the fullest extent permitted by law.

The indemnification provisions contained in our restated certificate of incorporation and restated bylaws that will become effective upon the completion of this offering are not exclusive.

In addition to the indemnification provided for in our restated certificate of incorporation and restated bylaws, prior to completion of this offering we intend to enter into indemnification agreements with each of our directors and executive officers. Each indemnification agreement will provide that we will indemnify the director or executive officer to the fullest extent permitted by law for claims arising in his or her capacity as our director, officer, employee or agent, provided that he or she acted in good faith and in a manner that he or she reasonably believed to be in, or not opposed to, our best interests and, with respect to any criminal proceeding, had no reasonable cause to believe that his or her conduct was unlawful. In the event that we do not assume the defense of a claim against a director or executive officer, we are required to advance his or her expenses in connection with his or her defense, provided that he or she undertakes to repay all amounts advanced if it is ultimately determined that he or she is not entitled to be indemnified by us.

We believe that these provisions and agreements are necessary to attract and retain qualified persons as directors and executive officers. Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers or persons controlling our company pursuant to the foregoing provisions, the opinion of the SEC is that such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

In addition, we maintain standard policies of insurance under which coverage is provided to our directors and officers against losses rising from claims made by reason of breach of duty or other wrongful act, and to us with respect to payments which may be made by us to such directors and officers pursuant to the above indemnification provisions or otherwise as a matter of law.

Rule 10b5-1 Sales Plans

Prior to the completion of this offering, our directors and executive officers may adopt written plans, known as Rule 10b5-1 plans, in which they will contract with a broker to buy or sell shares of our common stock on a periodic basis. Under a Rule 10b5-1 plan, a broker executes trades pursuant to parameters established by the director or executive officer when entering into the plan, without further direction from the director or executive officer. The director or executive officer may amend or terminate the plan in some circumstances. Our directors and executive officers may also buy or sell additional shares outside of a Rule 10b5-1 plan when they are not in possession of material, nonpublic information.

RELATED PERSON TRANSACTIONS

The following is a description of transactions since inception to which we have been a party, in which the amount involved in the transaction exceeds $120,000, and in which any of our directors, executive officers or beneficial owners of more than 5% of our voting securities, or affiliates or immediate family members of any of our directors, executive officers or beneficial owners of more than 5% of our voting securities, had or will have a direct or indirect material interest. We believe the terms obtained or consideration that we paid or received, as applicable, in connection with the transactions described below were comparable to terms available or the amounts that would be paid or received, as applicable, from unrelated third parties.

PRINCIPAL STOCKHOLDERS

The following table sets forth information regarding the beneficial ownership of our common stock as of November 30, 2010, by:

- each of our directors;
- each of our named executive officers;
- each person, or group of affiliated persons, who is known by us to beneficially own more than 5% of our common stock; and
- all of our directors and executive officers as a group.

Beneficial ownership is determined in accordance with SEC rules. These rules generally attribute beneficial ownership of securities to persons who possess sole or shared voting power or investment power with respect to those securities and include shares of common stock issuable upon the exercise of stock options and warrants that are immediately exercisable or exercisable within 60 days after November 30, 2010. Except as otherwise indicated, all of the shares reflected in the table are shares of common stock and all persons listed below have sole voting and investment power with respect to the shares beneficially owned by them, subject to applicable community property laws. The information is not necessarily indicative of beneficial ownership for any other purpose.

Percentage ownership calculations for beneficial ownership prior to this offering are based on 109,286,553 shares outstanding as of November 30, 2010, assuming the conversion of all of the outstanding Series A convertible preferred stock and assuming the conversion of $40.0 million aggregate principal amount and all accrued and unpaid interest outstanding under our secured and unsecured notes held by certain of our investors into common stock upon completion of this offering. Percentage ownership calculations for beneficial ownership after this offering also include the shares we are offering hereby. Except as otherwise indicated in the table below, addresses of named beneficial owners are in care of Pacira Pharmaceuticals, Inc., 5 Sylvan Way, Suite 125, Parsippany, New Jersey 07054.

In computing the number of shares of common stock beneficially owned by a person and the percentage ownership of that person, we deemed shares of common stock subject to options and warrants held by that person that are currently exercisable or exercisable within 60 days of September 30, 2010 to be outstanding. We did not deem these shares outstanding, however, for the purpose of computing the percentage ownership of any other person. Beneficial ownership representing less than 1% is denoted with an asterisk (*).

DESCRIPTION OF CAPITAL STOCK

General

Following the completion of this offering, our authorized capital stock will consist of shares of common stock, par value $0.001 per share, and 5,000,000 shares of preferred stock, par value $0.001 per share, all of which preferred stock will be undesignated.

The following description of our capital stock and provisions of our restated certificate of incorporation and bylaws are summaries and are qualified by reference to the certificate of incorporation and the bylaws that will be in effect upon completion of this offering. Copies of these documents will be filed with the SEC as exhibits to our registration statement, of which this prospectus forms a part. The descriptions of the common stock and preferred stock reflect changes to our capital structure that will occur upon the completion of this offering.

Common Stock

As of November 30, 2010, there were 109,286,553 shares of our common stock outstanding, held of record by 35 stockholders, assuming the conversion of all outstanding shares of Series A convertible preferred stock and assuming the conversion of $40.0 million aggregate principal amount and all accrued and unpaid interest outstanding under our secured and unsecured notes held by certain of our investors into common stock upon completion of this offering.

Voting Rights. Each holder of common stock is entitled to one vote per share on all matters properly submitted to a vote of the stockholders, including the election of directors. Our restated certificate of incorporation and bylaws will not provide for cumulative voting rights. Because of this, the holders of a majority of the shares of common stock entitled to vote in any election of directors can elect all of the directors standing for election, if they should so choose. An election of directors by our stockholders is determined by a plurality of the votes cast by stockholders entitled to vote on the election.

Dividends. Subject to preferences that may be applicable to any then outstanding preferred stock, the holders of our outstanding shares of common stock are entitled to receive dividends, if any, as may be declared from time to time by our board of directors out of legally available funds.

Liquidation. In the event of our liquidation, dissolution or winding up, holders of common stock will be entitled to share ratably in the net assets legally available for distribution to stockholders after the payment of all of our debts and other liabilities, subject to the satisfaction of any liquidation preference granted to the holders of any outstanding shares of preferred stock.

Rights and Preferences. Holders of our common stock have no preemptive, conversion or subscription rights, and there are no redemption or sinking fund provisions applicable to our common stock. The rights, preferences and privileges of holders of common stock are subject to and may be adversely affected by the rights of the holders of shares of any series of preferred stock that we may designate and issue in the future.

Series A Convertible Preferred Stock

In March 2007, we entered into a Series A Preferred Stock Purchase Agreement pursuant to which we issued and sold to investors an aggregate of 68,000,000 shares of Series A convertible preferred stock in four separate closings held in March 2007, February 2008, July 2008 and October 2008, at a purchase price of $1.25 per share. The aggregate consideration for the Series A Preferred Stock was $85 million in cash.

Each holder of our Series A convertible preferred stock has the right, at the option of the holder at any time, to convert its shares of Series A convertible preferred stock into shares of our common stock at a current conversion ratio of one-to-one, subject to adjustment for stock splits, certain capital reorganizations and dilutive

stock issuances. Each share of our Series A convertible preferred stock will automatically convert into shares of our common stock, at the then effective applicable conversion ratio upon the earlier of: (i) the closing of the sale of our common stock pursuant to a firmly underwritten public offering in which the Company receives gross proceeds of at least $25,000,000 or (ii) the consent of the holders of at least 66 2/3% of the then outstanding shares of Series A convertible preferred stock.

The holders of our Series A convertible preferred stock are entitled to receive, when, as and if declared by our board of directors out of legally available funds, non-cumulative dividends in an amount to any dividends declared, paid or set aside on shares of our common stock. As of September 30, 2010, no dividends have been declared by our board of directors.

In the event of any liquidation, dissolution or winding up of the company, the holders of our Series A convertible preferred stock will be entitled to receive in preference to the holders of our common stock, the amount of their original purchase price per share, plus declared and unpaid dividends, if any. If the assets and funds available to be distributed among the holders of our Series A convertible preferred stock are insufficient to permit the payment to such holders of the full preference, then the entire assets and funds legally available for distribution to such holders shall be distributed ratably based on the total due each holder of our Series A convertible preferred stock. Any remaining assets of the Company will be distributed ratably among the holders of our common stock.

Holders of our Series A convertible preferred stock are entitled to the number of votes they would have upon conversion of their Series A convertible preferred stock into common stock at the then applicable conversion rate. The holders of Series A convertible preferred stock have been granted certain rights with regard to the election of board members and various other corporate actions.

Stock Options

As of November 30, 2010, options to purchase 16,178,011 shares of common stock at a weighted average exercise price of $0.15 per share were outstanding.

Warrants

Assuming no warrants have been exercised as of November 30, 2010, upon the completion of this offering there will be outstanding 11 warrants to purchase an aggregate of 1,700,000 shares of common stock, each at an exercise price of $0.25 per share and each of which expire on January 21, 2014 and two warrants to purchase an aggregate of 250,000 shares of common stock, each at an exercise price of $1.25 per share and each of which expire on the earlier of (i) July 2, 2016 or (ii) the fifth anniversary of the completion of this offering. In addition, upon the completion of this offering, there will be an outstanding warrant to purchase 1,925,000 shares of common stock at an exercise price of $1.25 per share, which expires upon the earlier to occur of (i) November 24, 2020 or (ii) five years following the effective date of the registration statement of which this prospectus is a part.

The warrants to purchase Series A convertible preferred stock have a net exercise provision under which the warrant holder may, in lieu of payment of the exercise price in cash, surrender the warrant and receive a net amount of shares based on the fair market value of our common stock at the time of exercise of the warrant after deduction of the aggregate exercise price. Each of the warrants also contains provisions for the adjustment of the exercise price and the aggregate number of shares issuable upon the exercise of the warrant in the event of stock dividends, split-ups, reclassifications, mergers, consolidations, combinations or exchanges of shares, separations, reorganizations or liquidations.

The holders of the warrants to purchase common stock are entitled to registration rights under our Investors' Rights Agreement, as described in more detail under "Description of Capital Stock—Registration Rights."

Registration Rights

Upon the completion of this offering, holders of a total of 111,737,715 shares of our common stock as of November 30, 2010, including shares of our common stock issuable upon exercise of outstanding warrants and shares issuable upon conversion of all of our outstanding secured and unsecured notes and accrued interest thereon, will have the right to require us to register these shares under the Securities Act, under specified circumstances, pursuant to the terms of the Investor Rights Agreement. After registration pursuant to these rights, these shares will become freely tradable without restriction under the Securities Act. These registration rights will terminate upon the earlier of (i) the date that is five years following the completion of this offering or, (ii) for any particular holder with registration rights, at such time following this offering when all of our securities held by that stockholder may be sold pursuant to Rule 144 under the Securities Act.

Demand and Form S-3 Registration Rights. Subject to specified limitations, the holders of at least thirty percent of our Series A convertible preferred stock having registration rights may demand that we register all or a portion of their registrable shares under the Securities Act. We are not obligated to file a registration statement pursuant to this provision:

- until 180 days after the completion of this offering; and
- on more than three occasions.

In addition, the holders of our registrable shares may demand that we register on Form S-3 all or a portion of the registrable shares held by them. We are not obligated to file a Form S-3 pursuant to this provision on more than two occasions in any 12-month period.

Incidental Registration Rights. If at any time after the completion of this offering we propose to file a registration statement to register any of our securities under the Securities Act, either for our own account or for the account of any of our stockholders, the holders of our registrable shares are entitled to notice of registration and are entitled to include their shares of common stock in the registration.

Limitations and Expenses. In the event that any registration in which the holders of registrable shares participate pursuant to the Investor Rights Agreement is an underwritten public offering, the number of registrable shares to be included may, in specified circumstances, be limited due to market conditions. Pursuant to the Investor Rights Agreement, we are required to pay all registration expenses, including the fees and expenses of one counsel to represent the selling holders, other than any underwriting discounts, selling commissions and similar discounts relating to underwriters or commissions related to sales, related to any demand or incidental registration. We are also required to indemnify each participating holder with respect to each registration of registrable shares that is effected.

Delaware Anti-Takeover Law and Provisions of Our Restated Certificate of Incorporation and Our Bylaws

Delaware Anti-Takeover Law. We are subject to Section 203 of the DGCL. Section 203 generally prohibits a public Delaware corporation from engaging in a "business combination" with an "interested stockholder" for a period of three years after the date of the transaction in which the person became an interested stockholder, unless the interested stockholder attained such status with the approval of our board of directors, the business combination is approved in a prescribed manner or the interested stockholder acquired at least 85% of our outstanding voting stock in the transaction in which it became an interested stockholder. A "business combination" includes, among other things, a merger or consolidation involving us and the "interested stockholder" and the sale of more than 10% of our assets. In general, an "interested stockholder" is any entity or person beneficially owning 15% or more of our outstanding voting stock and any entity or person affiliated with or controlling or controlled by such entity or person.

Restated Certificate of Incorporation and Bylaws. Provisions of our restated certificate of incorporation and our bylaws, which will become effective upon the completion of this offering, may delay or discourage

transactions involving an actual or potential change of control or change in our management, including transactions in which stockholders might otherwise receive a premium for their shares, or transactions that our stockholders might otherwise deem to be in their best interests. Therefore, these provisions could adversely affect the price of our common stock. Among other things, our restated certificate of incorporation and our bylaws:

- authorize the issuance of "blank check" preferred stock, the terms of which may be established and shares of which may be issued without stockholder approval;
- divide our board of directors into three classes with staggered three-year terms;
- prohibit stockholder action by written consent, thereby requiring all stockholder actions to be taken at a meeting of our stockholders;
- eliminate the ability of stockholders to call a special meeting of stockholders; and
- establish advance notice requirements for nominations for election to the board of directors or for proposing matters that can be acted upon at stockholder meetings.

The amendment of any of these provisions by the stockholders would require the approval of the holders at least 66 2/3% of our then outstanding common stock.

We have applied to have our common stock listed on The NASDAQ Global Market under the symbol "PCRX."

Authorized but Unissued Shares

The authorized but unissued shares of common stock and preferred stock are available for future issuance without stockholder approval, subject to any limitations imposed by the Nasdaq Marketplace Rules. These additional shares may be used for a variety of corporate finance transactions, acquisitions and employee benefit plans. The existence of authorized but unissued and unreserved common stock and preferred stock could make it more difficult or discourage an attempt to obtain control of us by means of a proxy contest, tender offer, merger or otherwise.

SHARES ELIGIBLE FOR FUTURE SALE

Prior to this offering, there has been no public market for our common stock, and a liquid public trading market for our common stock may not develop or be sustained after this offering. Future sales of significant amounts of our common stock, including shares issued upon exercise of outstanding options or warrants, in the public market after this offering, or the anticipation of those sales, could adversely affect public market prices prevailing from time to time and could impair our ability to raise capital through sales of our equity securities. We have applied to have our common stock listed on The Nasdaq Global Market under the symbol "PCRX."

Upon the completion of this offering, we will have outstanding an aggregate of shares of common stock, assuming the automatic conversion of all outstanding shares of our Series A convertible preferred stock and the conversion of $40.0 million aggregate principal amount and all accrued and unpaid interest outstanding under our secured and unsecured notes held by certain of our stockholders into an aggregate of 35,112,715 shares of common stock upon the completion of this offering and the issuance of shares of common stock offered by us in this offering. Of these shares, all shares sold in this offering will be freely tradable without restriction or further registration under the Securities Act, except for any shares purchased by our "affiliates," as that term is defined in Rule 144 under the Securities Act, whose sales would be subject to the Rule 144 resale restrictions described below, other than the holding period requirement.

The remaining shares of common stock will be "restricted securities," as that term is defined in Rule 144 under the Securities Act. These restricted securities are eligible for public sale only if they are registered under the Securities Act or if they qualify for an exemption from registration under Rules 144 or 701 under the Securities Act, which are summarized below.

Subject to the lock-up agreements described below and the provisions of Rules 144 and 701 under the Securities Act, these restricted securities will be available for sale in the public market as follows:

Date available for sale	Shares eligible for sale	Comment
Date of prospectus		Shares sold in the offering and shares saleable under Rule 144 that are not subject to a lock-up
90 days after date of prospectus		Shares saleable under Rules 144 and 701 that are not subject to a lock-up
180 days after date of prospectus		Lock-up released; shares saleable under Rules 144 and 701

In addition, of the 16,178,011 shares of our common stock that were subject to stock options outstanding as of November 30, 2010, options to purchase 4,607,672 shares of common stock were exercisable as of November 30, 2010 and, upon exercise, these shares will be eligible for sale subject to the lock-up agreements and securities laws described below. The 3,875,000 shares of our common stock that were subject to warrants outstanding as of November 30, 2010, were exercisable as of November 30, 2010 and, assuming a cashless exercise, these shares will be eligible for sale subject to the lock-up agreements and securities laws described below.

Rule 144

In general, a person who has beneficially owned shares of our common stock for at least six months would be entitled to sell their shares of common stock in the public market provided that (i) such person is not deemed to have been one of our affiliates at the time of, or at any time during the three months preceding, a sale and (ii) we are and have been subject to the Exchange Act periodic reporting requirements for at least 90 days before the sale and have filed all required reports during that time period. In addition, a person who has beneficially owned shares of our common stock for at least 12 months would be entitled to sell their shares of common stock

in the public market provided that such person is not deemed to have been one of our affiliates at the time of, or at any time during the three months preceding, a sale. Persons who have beneficially owned shares of our common stock for at least six months but who are our affiliates at the time of, or any time during the three months preceding, a sale, would be subject to additional restrictions, by which such person would be entitled to sell within any three-month period only a number of shares that does not exceed the greater of either of the following:

- 1% of the number of shares of our common stock then outstanding (approximately shares immediately after this offering); or
- the average weekly trading volume in our common stock on The NASDAQ Global Market during the four calendar weeks immediately preceding the date on which the notice of sale is filed with the SEC;

provided, in each case, that we are subject to the Exchange Act periodic reporting requirements for at least 90 days before the sale and have filed all required reports during that time period. Such sales by affiliates must also comply with the manner of sale, current public information and notice provisions of Rule 144.

Approximately shares of our common stock that are not subject to the lock-up agreements described below will be eligible for sale immediately upon the completion of this offering.

Upon expiration of the 180-day lock-up period described below, approximately shares of our common stock will be eligible for sale under Rule 144, including shares eligible for resale immediately upon the completion of this offering as described above. We cannot estimate the number of shares of our common stock that our existing stockholders will elect to sell under Rule 144.

Rule 701

In general, under Rule 701, any of an issuer's employees, directors, officers, consultants or advisors who purchases shares from the issuer in connection with a compensatory stock or option plan or other written agreement before the effective date of a registration statement under the Securities Act is entitled to sell such shares 90 days after such effective date in reliance on Rule 144. An affiliate of the issuer can resell shares in reliance on Rule 144 without having to comply with the holding period requirement, and non-affiliates of the issuer can resell shares in reliance on Rule 144 without having to comply with the current public information and holding period requirements.

The SEC has indicated that Rule 701 will apply to typical stock options granted by an issuer before it becomes subject to the reporting requirements of the Exchange Act, along with the shares acquired upon exercise of such options, including exercises after an issuer becomes subject to the reporting requirements of the Exchange Act.

Lock-up Agreements

Our officers and directors and the holders of substantially all of our outstanding shares of capital stock have agreed with the underwriters, subject to certain exceptions, not to dispose of or hedge any of their common stock or securities convertible into or exchangeable for shares of common stock for a period through the date 180 days after the date of this prospectus, as modified as described below, except with the prior written consent of Barclays Capital Inc. and Piper Jaffray & Co. on behalf of the underwriters.

The 180-day restricted period will be automatically extended or reduced under the following circumstances: (1) during the last 17 days of the 180-day restricted period, if we issue an earnings release or announce material news or a material event, the restrictions described in the preceding paragraph will continue to apply until the expiration of the 18-day period beginning on the issuance of the earnings release or the announcement of the material news or material event; or (2) prior to the expiration of the 180-day restricted period, if we announce

that we will release earnings results or other material news during the 16-day period following the last day of the 180-day period, the restrictions described in the preceding paragraph will continue to apply until the expiration of the 18-day period beginning on the issuance of the earnings release or other material news.

Stock Options and Warrants

As of November 30, 2010, we had outstanding options to purchase 16,178,011 shares of common stock, of which options to purchase 4,607,672 shares of common stock were vested as of November 30, 2010. Following this offering, we intend to file registration statements on Form S-8 under the Securities Act to register all of the shares of common stock subject to outstanding options and options and other awards issuable pursuant to our 2007 Plan and any equity incentive plan we may adopt. As of November 30, 2010, we also had outstanding and exercisable warrants to purchase 1,700,000 shares of common stock and 2,175,000 shares of our Series A convertible preferred stock.

CERTAIN MATERIAL U.S. FEDERAL TAX CONSIDERATIONS

The following is a general discussion of the material U.S. federal income and estate tax considerations applicable to non-U.S. holders with respect to their ownership and disposition of shares of our common stock issued pursuant to this offering. This discussion is not tax advice. Accordingly, all prospective non-U.S. holders of our common stock should consult their own tax advisors with respect to the U.S. federal, state, local and non-U.S. tax consequences of the purchase, ownership and disposition of our common stock. In general, a non-U.S. holder means a beneficial owner of our common stock who is not for U.S. federal income tax purposes:

- an individual who is a citizen or resident of the United States;
- a corporation or any other organization taxable as a corporation for U.S. federal income tax purposes, created or organized in the United States or under the laws of the United States or of any state thereof or the District of Columbia;
- an estate, the income of which is included in gross income for U.S. federal income tax purposes regardless of its source; or
- a trust if (1) a U.S. court is able to exercise primary supervision over the trust's administration and one or more U.S. persons have the authority to control all of the trust's substantial decisions or (2) the trust has a valid election in effect under applicable U.S. Treasury Regulations to be treated as a U.S. person.

This discussion is based on current provisions of the U.S. Internal Revenue Code of 1986, as amended, which we refer to as the Code, existing and proposed U.S. Treasury Regulations promulgated thereunder, current administrative rulings and judicial decisions, publicly available and in effect as of the date of this prospectus, all of which are subject to change and to differing interpretation, possibly with retroactive effect. Any change or differing interpretation could alter the tax consequences to non-U.S. holders described in this prospectus. We assume in this discussion that a non-U.S. holder holds shares of our common stock as a capital asset, generally property held for investment.

This discussion does not address all aspects of U.S. federal income and estate taxation that may be relevant to a particular non-U.S. holder in light of that non-U.S. holder's individual circumstances nor does it address any aspects of U.S. state, local or non-U.S. taxes. This discussion also does not consider any specific facts or circumstances that may apply to a non-U.S. holder and does not address the special tax rules applicable to particular non-U.S. holders, such as:

- insurance companies;
- tax-exempt organizations;
- financial institutions;
- brokers or dealers in securities;
- pension plans;
- controlled foreign corporations;
- passive investors;
- owners that hold our common stock as part of a straddle, hedge, conversion transaction, synthetic security or other integrated investment; and
- certain U.S. expatriates.

In addition, this discussion does not address the tax treatment of partnerships or persons who hold their common stock through partnerships or other pass-through entities for U.S. federal income tax purposes. A partner in a partnership or other pass-through entity that will hold our common stock should consult his, her or its own tax advisor regarding the tax consequences of acquiring, holding and disposing of our common stock through a partnership or other pass-through entity, as applicable.

There can be no assurance that the Internal Revenue Service, which we refer to as the IRS, will not challenge one or more of the tax consequences described herein, and we have not obtained, nor do we intend to obtain, an opinion of counsel with respect to the U.S. federal income or estate tax consequences to a non-U.S. holder of the purchase, ownership or disposition of our common stock.

Distributions on Our Common Stock

Distributions on our common stock generally will constitute dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. If a distribution exceeds our current and accumulated earnings and profits, the excess will be treated as a tax-free return of the non-U.S. holder's investment, up to such holder's tax basis in the common stock. Any remaining excess will be treated as capital gain, subject to the tax treatment described below in "Gain on Sale, Exchange or Other Disposition of Our Common Stock."

Dividends paid to a non-U.S. holder generally will be subject to withholding of U.S. federal income tax at a 30% rate or such lower rate as may be specified by an applicable income tax treaty between the United States and such holder's country of residence. If we determine, at a time reasonably close to the date of payment of a distribution on our common stock, that the distribution will not constitute a dividend because we do not anticipate having current or accumulated earnings and profits, we intend not to withhold any U.S. federal income tax on the distribution as permitted by U.S. Treasury Regulations. If we or another withholding agent withholds tax on such a distribution, a non-U.S. holder may be entitled to a refund of any excess tax withheld, which the non-U.S. holder may claim by timely filing a U.S. tax return with the IRS.

Dividends that are treated as effectively connected with a trade or business conducted by a non-U.S. holder within the United States and, if an applicable income tax treaty so provides, that are attributable to a permanent establishment or a fixed base maintained by the non-U.S. holder within the United States, are generally exempt from the 30% withholding tax if the non-U.S. holder satisfies applicable certification and disclosure requirements. However, such U.S. effectively connected income, net of specified deductions and credits, is taxed at the same graduated U.S. federal income tax rates applicable to U.S. persons (as defined in the Code). Any U.S. effectively connected income received by a non-U.S. holder that is a corporation may also, under certain circumstances, be subject to an additional "branch profits tax" at a 30% rate or such lower rate as may be specified by an applicable income tax treaty between the United States and such holder's country of residence.

A non-U.S. holder of our common stock who claims the benefit of an applicable income tax treaty between the United States and such holder's country of residence generally will be required to provide a properly executed IRS Form W-8BEN (or successor form) and satisfy applicable certification and other requirements. Non-U.S. holders are urged to consult their tax advisors regarding their entitlement to benefits under a relevant income tax treaty.

A non-U.S. holder that is eligible for a reduced rate of U.S. withholding tax under an income tax treaty may obtain a refund or credit of any excess amounts withheld by timely filing a U.S. tax return with the IRS.

Gain on Sale, Exchange or Other Disposition of Our Common Stock

In general, a non-U.S. holder will not be subject to any U.S. federal income tax or withholding tax on any gain realized upon such holder's sale, exchange or other disposition of shares of our common stock unless:

- the gain is effectively connected with a U.S. trade or business and, if an applicable income tax treaty so provides, is attributable to a permanent establishment or a fixed base maintained by such non-U.S. holder, in which case the non-U.S. holder generally will be taxed at the graduated U.S. federal income tax rates applicable to U.S. persons (as defined in the Code) and, if the non-U.S. holder is a foreign corporation, the branch profits tax described above in "Distributions on Our Common Stock" also may apply, unless an applicable tax treaty provides otherwise;

- the non-U.S. holder is a nonresident alien individual who is present in the United States for 183 days or more in the taxable year of the disposition and certain other conditions are met, in which case the non-U.S. holder will be subject to a 30% tax (or such lower rate as may be specified by an applicable income tax treaty between the United States and such holder's country of residence) on the net gain derived from the disposition, which may be offset by U.S. source capital losses of the non-U.S. holder, if any; or
- we are, or have been, at any time during the five-year period preceding such disposition (or the non-U.S. holder's holding period, if shorter) a "U.S. real property holding corporation," unless (1) our common stock is regularly traded on an established securities market and (2) the non-U.S. holder holds no more than 5% of our outstanding common stock, directly or indirectly, actually or constructively, during the shorter of (i) the 5-year period ending on the date of the disposition or (ii) the period that the non-U.S. holder held our common stock. If we are determined to be a U.S. real property holding corporation, provided that our common stock is regularly traded on an established securities market, no U.S. withholding tax would apply to the proceeds payable to a non-U.S. holder from a sale of our common stock. However, in the event we are determined to be a U.S. real property holding corporation, if the non-U.S. holder holds more than 5% of our common stock as described above the non-U.S. holder generally will be taxed on its net gain derived from the disposition at the graduated U.S. federal income tax rates applicable to U.S. persons (as defined in the Code). Generally, a corporation is a U.S. real property holding corporation only if the fair market value of its U.S. real property interests equals or exceeds 50% of the sum of the fair market value of its worldwide real property interests plus its other assets used or held for use in a trade or business. Although there can be no assurance, we do not believe that we are, or have been, a U.S. real property holding corporation, or that we are likely to become one in the future. No assurance can be provided that our common stock will be regularly traded on an established securities market for purposes of the rules described above.

U.S. Federal Estate Tax

Shares of our common stock that are owned or treated as owned at the time of death by an individual who is not a citizen or resident of the United States, as specifically defined for U.S. federal estate tax purposes, are considered U.S. situs assets and will be included in the individual's gross estate for U.S. federal estate tax purposes. Such shares, therefore, may be subject to U.S. federal estate tax, unless an applicable estate tax or other treaty provides otherwise.

Backup Withholding and Information Reporting

We must report annually to the IRS and to each non-U.S. holder the gross amount of the distributions on our common stock paid to such holder and the tax withheld, if any, with respect to such distributions. Non-U.S. holders may have to comply with specific certification procedures to establish that the holder is not a U.S. person (as defined in the Code) in order to avoid backup withholding at the applicable rate, currently 28% through December 31, 2010 and scheduled to increase to 31% for taxable years thereafter, with respect to dividends on our common stock. Dividends paid to non-U.S. holders subject to the U.S. withholding tax, as described above in "Distributions on Our Common Stock," generally will be exempt from U.S. backup withholding.

Information reporting and backup withholding will generally apply to the proceeds of a disposition of our common stock by a non-U.S. holder effected by or through the U.S. office of any broker, U.S. or foreign, unless the holder certifies its status as a non-U.S. holder and satisfies certain other requirements, or otherwise establishes an exemption. Generally, information reporting and backup withholding will not apply to a payment of disposition proceeds to a non-U.S. holder where the transaction is effected outside the United States through a non-U.S. office of a broker. However, for information reporting purposes, dispositions effected through a non-U.S. office of a broker with substantial U.S. ownership or operations generally will be treated in a manner similar to dispositions effected through a U.S. office of a broker. Non-U.S. holders should consult their own tax advisors regarding the application of the information reporting and backup withholding rules to them.

Copies of information returns may be made available to the tax authorities of the country in which the non-U.S. holder resides or is incorporated under the provisions of a specific treaty or agreement.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules from a payment to a non-U.S. holder can be refunded or credited against the non-U.S. holder's U.S. federal income tax liability, if any, provided that an appropriate claim is timely filed with the IRS.

New Legislation Relating to Foreign Accounts

Newly enacted legislation may impose withholding taxes on certain types of payments made to "foreign financial institutions" and certain other non-U.S. entities. Under this legislation, the failure to comply with additional certification, information reporting and other specified requirements could result in withholding tax being imposed on payments of dividends and sales proceeds to U.S. holders who own shares of our common stock through foreign accounts or foreign intermediaries and certain non-U.S. holders. The legislation imposes a 30% withholding tax on dividends on, or gross proceeds from the sale or other disposition of, our common stock paid to a foreign financial institution or to a foreign non-financial entity, unless (1) the foreign financial institution undertakes certain diligence and reporting obligations or (2) the foreign non-financial entity either certifies it does not have any substantial U.S. owners or furnishes identifying information regarding each substantial U.S. owner. In addition, if the payee is a foreign financial institution, it must enter into an agreement with the U.S. Treasury requiring, among other things, that it undertake to identify accounts held by certain U.S. persons or U.S.-owned foreign entities, annually report certain information about such accounts and withhold 30% on payments to account holders whose actions prevent it from complying with these reporting and other requirements. The legislation applies to payments made after December 31, 2012. Prospective investors should consult their tax advisors regarding this legislation.

UNDERWRITING

Barclays Capital Inc. and Piper Jaffray & Co. are acting as the representatives of the underwriters and the joint book-running managers of this offering. Under the terms of an underwriting agreement, which is filed as an exhibit to the registration statement, each of the underwriters named below has severally agreed to purchase from us the respective number of common stock shown opposite its name below:

Underwriters	Number of Shares
Barclays Capital Inc.	
Piper Jaffray & Co.	
Wedbush Securities Inc.	
Brean Murray, Carret & Co., LLC	
Total	

The underwriting agreement provides that the underwriters' obligation to purchase shares of common stock depends on the satisfaction of the conditions contained in the underwriting agreement including:

- the obligation to purchase all of the shares of common stock offered hereby (other than those shares of common stock covered by their option to purchase additional shares as described below), if any of the shares are purchased;
- the representations and warranties made by us to the underwriters are true;
- there is no material change in our business or the financial markets; and
- we deliver customary closing documents to the underwriters.

Commissions and Expenses

The following table summarizes the underwriting discounts and commissions we will pay to the underwriters. These amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase additional shares. The underwriting fee is the difference between the initial price to the public and the amount the underwriters pay to us for the shares.

	No Exercise	Full Exercise
Per share		
Total		

The representatives of the underwriters have advised us that the underwriters propose to offer the shares of common stock directly to the public at the public offering price on the cover of this prospectus and to selected dealers, which may include the underwriters, at such offering price less a selling concession not in excess of $ per share. After the offering, the representatives may change the offering price and other selling terms. Sales of shares made outside of the United States may be made by affiliates of the underwriters.

The expenses of the offering that are payable by us are estimated to be $ (excluding underwriting discounts and commissions).

Option to Purchase Additional Shares

We have granted the underwriters an option exercisable for 30 days after the date of this prospectus, to purchase, from time to time, in whole or in part, up to an aggregate of shares at the public offering price less underwriting discounts and commissions. This option may be exercised if the underwriters sell more than shares in connection with this offering. To the extent that this option is exercised, each underwriter will

be obligated, subject to certain conditions, to purchase its pro rata portion of these additional shares based on the underwriter's underwriting commitment in the offering as indicated in the table at the beginning of this Underwriting section.

Lock-Up Agreements

We, all of our directors and executive officers and holders of more than 5% of our outstanding stock have agreed that, subject to certain exceptions, without the prior written consent of each of Barclays Capital Inc. and Piper Jaffray, we will not directly or indirectly, (1) offer for sale, sell, pledge, or otherwise dispose of (or enter into any transaction or device that is designed to, or could be expected to, result in the disposition by any person at any time in the future of) any shares of our common stock (including, without limitation, shares of our common stock that may be deemed to be beneficially owned by them in accordance with the rules and regulations of the Securities and Exchange Commission and shares of common stock that may be issued upon exercise of any options or warrants) or securities convertible into or exercisable or exchangeable for our common stock, (2) enter into any swap or other derivatives transaction that transfers to another, in whole or in part, any of the economic benefits or risks of ownership of the shares of our common stock, (3) make any demand for or exercise any right or file or cause to be filed a registration statement, including any amendments thereto, with respect to the registration of any shares of our common stock or securities convertible, exercisable or exchangeable into shares of our common stock or any of our other securities, or (4) publicly disclose the intention to do any of the foregoing for a period of 180 days after the date of this prospectus.

The 180-day restricted period described in the preceding paragraph will be extended if:

- during the last 17 days of the 180-day restricted period we issue an earnings release or material news or a material event relating to us occurs; or
- prior to the expiration of the 180-day restricted period, we announce that we will release earnings results during the 16-day period beginning on the last day of the 180-day restricted period,

in which case the restrictions described in the preceding paragraph will continue to apply until the expiration of the 18-day period beginning on the issuance of the earnings release or the announcement of the material news or occurrence of a material event, unless such extension is waived in writing by Barclays Capital Inc. and Piper Jaffray.

Barclays Capital Inc. and Piper Jaffray, in their sole discretion, may release the common stock and other securities subject to the lock-up agreements described above in whole or in part at any time with or without notice. When determining whether or not to release common stock and other securities from lock-up agreements, Barclays Capital Inc. and Piper Jaffray will consider, among other factors, the holder's reasons for requesting the release, the number of shares of common stock and other securities for which the release is being requested and market conditions at the time.

Offering Price Determination

Prior to this offering, there has been no public market for our common stock. The initial public offering price will be negotiated between the representatives and us. In determining the initial public offering price of our common stock, the representatives will consider:

- the history and prospects for the industry in which we compete;
- our financial information;
- the ability of our management and our business potential and earning prospects;
- the prevailing securities markets at the time of this offering; and
- the recent market prices of, and the demand for, publicly traded shares of generally comparable companies.

Indemnification

We have agreed to indemnify the underwriters against certain liabilities under the Securities Act relating to losses or claims resulting from material misstatements in or omissions from this prospectus, the registration statement of which this prospectus forms a part, certain free writing prospectuses that may be used in the offering and in any marketing materials used in connection with the offering, and to contribute to payments that the underwriters may be required to make for these liabilities.

Stabilization, Short Positions and Penalty Bids

The representatives may engage in stabilizing transactions, short sales and purchases to cover positions created by short sales, and penalty bids or purchases for the purpose of pegging, fixing or maintaining the price of the common stock, in accordance with Regulation M under the Securities Exchange Act of 1934, as amended:

- Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum.
- A short position involves a sale by the underwriters of shares in excess of the number of shares the underwriters are obligated to purchase in the offering, which creates the syndicate short position. This short position may be either a covered short position or a naked short position. In a covered short position, the number of shares involved in the sales made by the underwriters in excess of the number of shares they are obligated to purchase is not greater than the number of shares that they may purchase by exercising their option to purchase additional shares. In a naked short position, the number of shares involved is greater than the number of shares in their option to purchase additional shares. The underwriters may close out any short position by either exercising their option to purchase additional shares and/or purchasing shares in the open market. In determining the source of shares to close out the short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through their option to purchase additional shares. A naked short position is more likely to be created if the underwriters are concerned that there could be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in the offering.
- Syndicate covering transactions involve purchases of the common stock in the open market after the distribution has been completed in order to cover syndicate short positions.
- Penalty bids permit the representatives to reclaim a selling concession from a syndicate member when the common stock originally sold by the syndicate member is purchased in a stabilizing or syndicate covering transaction to cover syndicate short positions.

These stabilizing transactions, syndicate covering transactions and penalty bids may have the effect of raising or maintaining the market price of our common stock or preventing or retarding a decline in the market price of the common stock. As a result, the price of the common stock may be higher than the price that might otherwise exist in the open market. These transactions may be effected on The NASDAQ Global Market or otherwise and, if commenced, may be discontinued at any time.

Neither we nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the common stock. In addition, neither we nor any of the underwriters make representation that the representatives will engage in these stabilizing transactions or that any transaction, once commenced, will not be discontinued without notice.

Electronic Distribution

A prospectus in electronic format may be made available on the Internet sites or through other online services maintained by one or more of the underwriters and/or selling group members participating in this offering, or by their affiliates. In those cases, prospective investors may view offering terms online and, depending upon the particular underwriter or selling group member, prospective investors may be allowed to place orders online. The underwriters may agree with us to allocate a specific number of shares for sale to online brokerage account holders. Any such allocation for online distributions will be made by the representatives on the same basis as other allocations.

Other than the prospectus in electronic format, the information on any underwriter's or selling group member's web site and any information contained in any other web site maintained by an underwriter or selling group member is not part of the prospectus or the registration statement of which this prospectus forms a part, has not been approved and/or endorsed by us or any underwriter or selling group member in its capacity as underwriter or selling group member and should not be relied upon by investors.

The NASDAQ Global Market

We have applied to list our shares of common stock for quotation on The NASDAQ Global Market under the symbol "PCRX."

Discretionary Sales

The underwriters have informed us that they do not intend to confirm sales to discretionary accounts that exceed 5% of the total number of shares offered by them.

Stamp Taxes

If you purchase shares of common stock offered in this prospectus, you may be required to pay stamp taxes and other charges under the laws and practices of the country of purchase, in addition to the offering price listed on the cover page of this prospectus.

Relationships

Certain of the underwriters and/or their affiliates may in the future engage in commercial and investment banking transactions with us in the ordinary course of their business. They expect to receive customary compensation and expense reimbursement for these commercial and investment banking transactions.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders
Pacira Pharmaceuticals, Inc.

We have audited the consolidated balance sheets of Pacira Pharmaceuticals, Inc. and subsidiaries as of December 31, 2009 and 2008, and the related consolidated statements of operations, stockholders' equity (deficit) and cash flows for each of the three years in the period ended December 31, 2009. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Pacira Pharmaceuticals, Inc. and subsidiaries as of December 31, 2009 and 2008, and their results of operations and cash flows for each of the three years in the period ended December 31, 2009, in conformity with accounting principles generally accepted in the United States of America.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the consolidated financial statements, the Company has suffered recurring losses and as of December 31, 2009 has a working capital and stockholders' deficit that raise substantial doubt about its ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 1. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Pacira Pharmaceuticals, Inc.

Notes to Consolidated Financial Statements

1. BUSINESS

Pacira Pharmaceuticals, Inc., and its subsidiaries (collectively, the "Company" or "Pacira") is an emerging specialty pharmaceutical company focused on the development, commercialization and manufacture of proprietary pharmaceutical products, based on its proprietary DepoFoam drug delivery technology, for use in hospitals and ambulatory surgery centers.

The Company was incorporated in Delaware under the name Blue Acquisition Corp. in December 2006 and changed its name to Pacira, Inc. in June 2007. In October 2010, the Company changed its name to Pacira Pharmaceuticals, Inc. Pacira Pharmaceuticals, Inc. is the holding company for the Company's California operating subsidiary of the same name, which we refer to as PPI-California. The consolidated financial statements include the Company's wholly owned subsidiaries PPI-California and Pacira Limited.

As further discussed in Note 4, on March 24, 2007, or the Acquisition Date, MPM Capital, Sanderling Ventures, OrbiMed Advisors, HBM BioVentures, the Foundation for Research and their co-investors, or the Investors, through Pacira Pharmaceuticals, Inc., acquired PPI-California, from SkyePharma Holding, Inc., which we refer to as the Acquisition. PPI-California was known as SkyePharma, Inc. prior to the Acquisition.

Risks and Uncertainties

The Company is subject to risks common to companies in similar industries and stages of development, including, but not limited to, competition from larger companies, reliance on revenue from few customers and products, new technological innovations, dependence on key personnel, reliance on third-party service providers and vendors, protection of proprietary technology, and compliance with government regulations.

Going Concern

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has reported net losses of $31.7 million, $41.9 million, and $36.2 million and negative cash flows from operating activities of $20.8 million, $29.2 million and $13.4 million for the years ended December 31, 2009, 2008 and 2007, respectively. As of December 31, 2009, the Company had a net working capital deficit of $1.9 million and stockholders' deficit of $22.9 million. The Company has incurred losses and negative operating cash flow since inception and future losses are anticipated. The Company's continued operations will depend on its ability to raise additional funds through sources such as equity and debt financing and revenues from the commercial sale of EXPAREL. Insufficient funds could require the Company to delay, scale back or eliminate one or more of its research and development programs. The ability of the Company to continue as a going concern is dependent on improving the Company's profitability and cash flow and securing additional financing. While the Company believes in the viability of its strategy to increase revenues and profitability and in its ability to raise additional funds, and believes that the actions presently being taken by the Company provide the opportunity for it to continue as a going concern, there can be no assurance that such financing will be available on acceptable terms, or at all. These consolidated financial statements do not include any adjustments related to the recoverability and classification of asset amounts or the amounts and classification of liabilities that might be necessary if the Company is unable to continue as a going concern.

Pacira Pharmaceuticals, Inc.

Notes to Consolidated Financial Statements—(continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation and Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries PPI-California and Pacira Limited. Pacira Limited was incorporated in the United Kingdom and its functional currency is the U.S. dollar. Intercompany accounts and transactions have been eliminated in consolidation.

Although the consolidated financial statements of Pacira reflect the operations of the Company for the year ended December 31, 2007, it had no substantive operations prior to the acquisition of SkyePharma, Inc. on March 24, 2007 and do not reflect the operations of PPI-California until March 24, 2007, after the Acquisition Date.

Correction of Immaterial Errors

The Company identified certain immaterial errors in its previously issued consolidated financial statements for the years ended December 31, 2009, 2008 and 2007, as follows:

- the improper separate accounting for an embedded derivative related to the Company's royalty interest obligation; and
- the improper classification of patent costs as a component of research and development expenses rather than as a component of selling, general and administrative expenses.

The error in the accounting for the embedded derivative resulted in an understatement of the 2009 net loss of $562,000, an overstatement of the 2008 net loss of $673,000 and an understatement of the 2007 net loss of $1,025,000.

The error in the classification of patent costs had the effect of overstating research and development expenses and understating selling, general and administrative expenses by $809,000, $853,000 and $581,000 for 2009, 2008 and 2007, respectively, but had no effect on reported loss from operations or net loss.

The Company reviewed the accounting errors utilizing SEC Staff Accounting Bulletin No. 99, "Materiality" ("SAB 99") and SEC Staff Accounting Bulletin No. 108, "Effects of Prior Year Misstatements on Current Year Financial Statements" ("SAB 108") and determined the impact of the errors to be immaterial to any prior period's presentation. The accompanying 2009, 2008, and 2007 consolidated financial statements reflect the corrections of the aforementioned immaterial errors.

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities, including disclosure of contingent assets and contingent liabilities, at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. The Company's critical accounting policies are those that are both most important to the Company's consolidated financial condition and results of operations and require the most difficult, subjective or complex judgments on the part of management in their application, often as a result of the need to make estimates about the effect of matters that are inherently uncertain. Because of the uncertainty of factors surrounding the estimates or judgments used in the preparation of the consolidated financial statements, actual results may materially vary from these estimates.

Cash and Cash Equivalents

All highly-liquid investments with maturities of 90 days or less when purchased are considered cash equivalents.

Restricted Cash

As further discussed in Note 10, the Company has entered into a financing agreement with Royalty Securitization Trust I ("RST") for the sale of a royalty interest in its DepoCyt(e) and DepoDur supply revenue and royalties. As part of this financing agreement, the Company and RST maintain a lockbox, where all DepoCyt(e) and DepoDur supply revenue and royalties are received. The Company has no minimum payment obligations under this agreement. Commencing on April 1 of every year, the first $2.5 million received in the lockbox is restricted and will be used to make quarterly payments due to RST, if any, under the agreement during the subsequent 12 month period. On March 31 of the subsequent year, the balance of cash in the lockbox, if any, is remitted to Pacira. The RST agreement terminates on December 31, 2014. The royalty interest agreement pertains only to DepoCyt(e) and DepoDur, and does not include revenue related to EXPAREL or any other product candidates.

Credit Risk

The Company performs ongoing credit evaluations of its customers, as warranted, and generally does not require collateral. Revenues from the supply of manufactured product for the Company's commercial partners, royalties, contractual services provided to its collaboration partners and licensing and development fees are primarily derived from major pharmaceutical companies that generally have significant cash resources. Allowances for doubtful accounts receivable are maintained based on historical payment patterns, aging of accounts receivable and actual write-off history. As of December 31, 2009 and 2008, no allowances for doubtful accounts were deemed necessary by the Company on its trade accounts receivable.

Concentration of Major Customers

The Company's customers are its commercial and collaborative and licensing partners. For the year ended December 31, 2009, the Company's three largest customers accounted for 44%, 23% and 20%, individually, of the Company's net revenues. For the year ended December 31, 2008, the Company's four largest customers accounted for 46%, 20%, 16% and 12%, respectively, of the Company's net revenues. For the year ended December 31, 2007, the Company's two largest customers accounted for 49% and 34%, respectively, of the Company's net revenues. No other individual customers accounted for more than 10% of net revenues. As of December 31, 2009, the Company's three largest customers accounted for 56%, 26% and 13%, respectively, of the Company's trade accounts receivables. As of December 31, 2008, the Company's four largest customers accounted for 29%, 23%, 23% and 12%, individually, of the Company's trade accounts receivables. The Company is dependent on these commercial partners to market and sell DepoCyt(e) and DepoDur, from which a substantial portion of its revenues is derived; therefore, the Company's future revenues from these products are highly dependent on these collaboration and distribution arrangements.

Domestic net revenues for the years ended December 31, 2009, 2008 and 2007 accounted for 52%, 48% and 49% of the Company's net revenues, respectively. Export revenues for the years ended December 31, 2009, 2008 and 2007 accounted for 48%, 52%, and 51% of the Company's net revenues, respectively.

Inventories

Inventories consist of finished goods held for sale and distribution, raw materials and work in process, and are stated at the lower of cost, which includes amounts related to material, labor and overhead, and is determined

Pacira Pharmaceuticals, Inc.

Notes to Consolidated Financial Statements—(continued)

using the first-in, first-out ("FIFO") method, or market (net realizable) value. The Company periodically reviews its inventory to identify obsolete, slow-moving or otherwise unsalable inventories, and establishes allowances for situations in which the cost of the inventory is not expected to be recovered.

Fixed Assets

Property, plant and equipment are recorded at cost, net of accumulated depreciation and amortization. The Company reviews its property, plant and equipment assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable.

Depreciation of equipment, furniture and fixtures is provided over their estimated useful lives on a straight-line basis. Leasehold improvements are amortized on a straight-line basis over the shorter of their estimated useful lives or the related lease terms. Useful lives by asset category are as follows:

Asset Category	Years
Manufacturing and laboratory equipment	5 to 10 years
Computer equipment and software	1 to 3 years
Office furniture and equipment	5 years
Leasehold improvements	1 to 9 years (up to the lease term)

Impairment of Long-Lived Assets

Intangible assets are recorded at cost, net of accumulated amortization. Amortization of intangible assets is provided over their estimated useful lives on a straight-line basis. Management reviews long-lived assets, including fixed assets, for impairment whenever events or changes in circumstances indicate the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future undiscounted net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured as the amount by which the carrying amount of the assets exceeds the fair value of the assets. Fair value for the Company's long-lived assets is determined using the expected cash flows discounted at a rate commensurate with the risk involved.

Acquired in-Process Research and Development

The Company acquired in-process research and development ("IPR&D") projects as part of the Acquisition (see Note 4). The estimated fair value of IPR&D projects, which had not reached technological feasibility at the date of acquisition and which did not have an alternative future use, were immediately expensed. Accordingly, in 2007, the Company wrote off $12.4 million of acquired IPR&D related to the Acquisition.

Settlement of Trade Payables

During April 2009, the Company initiated a payables settlement program with its trade creditors using various settlement arrangements. As of April 30, 2009, total outstanding unsecured trade payables subject to these settlement arrangements was $14.3 million. These creditors agreed to settle their outstanding balances for an aggregate of $12.5 million resulting in reduction in payables of $1.8 million. The Company has recorded a $1.3 million reduction to the carrying amount of fixed assets and included a $0.4 million gain in other income on the Company's consolidated statement of operations for the year ended December 31, 2009. The remaining $0.1 million additional gain will be recorded as these obligations are paid. As of December 31, 2009, $5.5 million related to these settlement arrangements remained outstanding and was included in accounts payable in the Company's consolidated balance sheet.

Pacira Pharmaceuticals, Inc.

Notes to Consolidated Financial Statements—(continued)

Foreign Currencies

Realized gains and losses from foreign currency transactions are reflected in the consolidated statements of operations and were not significant in any period in the years ended December 31, 2009, 2008 or 2007. All foreign currency receivables and payables are measured at the applicable exchange rate at the end of the reporting period.

Income Taxes

The Company uses the asset and liability method of accounting for income taxes. Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. To the extent a deferred tax asset cannot be recognized under the preceding criteria, allowances are established. As of December 31, 2009 and 2008, all deferred tax assets were fully offset by a valuation allowance.

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 740, Income Taxes ("ASC 740"), clarifies the accounting for uncertainty in income taxes recognized in the financial statements. ASC 740 provides that a tax benefit from an uncertain tax position may be recognized when it is more likely than not that the position will be sustained upon examination, including resolutions of any related appeals or litigation processes, based on the technical merits of the position. Income tax positions must meet a more-likely-than-not recognition threshold to be recognized. ASC 740 also provides guidance on measurement, derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. The Company adopted these provisions of ASC 740 on January 1, 2007, and the adoption did not have a material impact on its consolidated financial position or results of operations.

The Company accrues interest and penalties, if any, on underpayment of income taxes related to unrecognized tax benefits as a component of income tax expense in its consolidated statements of operations.

Revenue Recognition

Supply Revenue—The Company recognizes revenue from products manufactured and supplied to its commercial partners, when the following four basic revenue recognition criteria under the related accounting guidance are met: (1) persuasive evidence of an arrangement exists; (2) delivery has occurred or services have been rendered; (3) the fee is fixed or determinable; and (4) collectability is reasonably assured. The product can be returned within contracted specified time frames if it does not meet the applicable inspection tests. The Company estimates its return reserves based on its experience of historical return rates.

Royalties—The Company recognizes revenue from royalties based on sales of its products into the marketplace by its commercial partners. Royalties are recognized as earned in accordance with contract terms when they can be reasonably estimated and collectability is reasonably assured. The Company's commercial partners are obligated to report their net product sales and the resulting royalty due to the Company within 60 days from the end of each quarter. Based on historical product sales, royalty receipts and other relevant information, the Company accrues royalty revenue each quarter.

Collaborative licensing and development revenue—The Company recognizes revenue from reimbursements received in connection with feasibility studies and development work for third parties who desire to utilize its

Pacira Pharmaceuticals, Inc.

Notes to Consolidated Financial Statements—(continued)

DepoFoam extended release drug delivery technology for their products, when the Company's contractual services are performed, provided collectability is reasonably assured. The Company's principal costs under these agreements include its personnel conducting research and development, and its allocated overhead, as well as research and development performed by outside contractors or consultants.

The Company recognizes revenues from non-refundable up-front fees received under collaboration agreements ratably over the performance period as determined under the collaboration agreement (estimated development period in the case of development agreements, and contract period or longest patent life in the case of supply and distribution agreements). If the estimated performance period is subsequently modified, the Company will modify the period over which the up-front fee is recognized accordingly on a prospective basis. Upon termination of a collaboration agreement, any remaining non-refundable licensing fees received by the Company, which had been deferred, are generally recognized in full. All such recognized revenues are included in collaborative licensing and development revenue in the Company's consolidated statements of operations.

The Company recognizes revenue from milestone payments received under collaboration agreements when earned, provided that the milestone event is substantive, its achievability was not reasonably assured at the inception of the agreement, the Company has no further performance obligations relating to the event, and collectability is reasonably assured. If these criteria are not met, the Company recognizes milestone payments ratably over the remaining period of the Company's performance obligations under the collaboration agreement. All such recognized revenues are included in collaborative licensing and development revenue in the Company's consolidated statements of operations. All of the milestone payments received in 2009, 2008 and 2007 are recognized ratably over the period of the Company's performance obligations.

Research and Development Expenses

Research and development expenses consist of costs associated with products being developed internally, and include related personnel expenses, laboratory supplies, active pharmaceutical ingredients, manufacturing supplies, facilities costs, preclinical and clinical trial costs, and other outside service fees. The Company expenses research and development costs as incurred. A significant portion of the Company's development activities are outsourced to third parties, including contract research organizations. In such cases, the Company may be required to make estimates of related service fees to be accrued.

Per Share Data

Net loss per share is determined in accordance with the two-class method. This method is used for computing basic net loss per share when companies have issued securities other than common stock that contractually entitle the holder to participate in dividends and earnings of the Company. Under the two-class method, net loss is allocated between common shares and other participating securities based on their participation rights in both distributed and undistributed earnings. The Company's Series A convertible preferred stock are participating securities, since the stockholders are entitled to share in dividends declared by the board of directors with the common stock based on their equivalent common shares.

Basic net loss per share is computed by dividing net loss available (attributable) to common stockholders by the weighted average number of shares of common stock outstanding during the period. Because the holders of the Series A Convertible Preferred Stock are not contractually required to share in the Company's losses, in applying the two-class method to compute basic net loss per common share no allocation to preferred stock was made for the years ended December 31, 2009, 2008, and 2007.

Diluted net loss per share is calculated by dividing net loss available (attributable) to common stockholders as adjusted for the effect of dilutive securities, if any, by the weighted average number of common stock and

dilutive common stock outstanding during the period. Potential common shares include the shares of common stock issuable upon the exercise of outstanding stock options and a warrant (using the treasury stock method) and the conversion of the shares of Series A convertible preferred stock (using the more dilutive of the (a) as converted method or (b) the two-class method). Potential common shares in the diluted net loss per share computation are excluded to the extent that they would be anti-dilutive. No potentially dilutive securities are included in the computation of any diluted per share amounts as the Company reported a net loss for all periods presented. Potentially dilutive securities that would be issued upon the conversion of convertible notes, conversion of Series A convertible preferred stock and the exercise of outstanding warrants and stock options, were 77.1 million, 70.7 million and 36.0 million as of December 31, 2009, 2008, and 2007, respectively.

Share-Based Compensation

The Company's share-based compensation programs include grants of stock options to employees, consultants and non-employee directors. The expense associated with these programs is recognized in the Company's consolidated statements of operations based on their fair values as they are earned by the employees, consultants and non-employee directors under the applicable vesting terms.

The valuation of stock options is an inherently subjective process, since market values are generally not available for long-term, non-transferable stock options. Accordingly, the Company uses an option pricing model to derive an estimated fair value. In calculating the estimated fair value of stock options granted, the Company uses the Black-Scholes option pricing model which requires the consideration of the following variables for purposes of estimating fair value:

- the stock option exercise price;
- the expected term of the option;
- the grant date fair value of the Company's common stock, which is issuable upon exercise of the option;
- the expected volatility of the Company's common stock;
- expected dividends on the Company's common stock; and
- the risk-free interest rate for the expected option term.

Of the variables above, the Company believes that the selection of an expected term and expected stock price volatility are the most subjective. The Company's historical stock option exercise experience does not provide a reasonable basis upon which to estimate expected term. Accordingly, the Company uses a term based on a simplified method, pursuant to SEC Staff Accounting Bulletin No. 107, *Share-based Payment*, for "plain vanilla" options. For calculating stock price volatility, the Company utilizes historical stock prices of publicly traded companies that are similar to Pacira.

The Company estimates the level of award forfeitures expected to occur, and records compensation cost only for those awards that are ultimately expected to vest.

Segment Reporting

The Company currently operates in a single operating segment. The Company generates revenue from various sources that result primarily from its revenue from DepoCyt(e) and DepoDur underlying research and development activities. In addition, financial results are prepared and reviewed by management as a single operating segment.

3. **RECENT ACCOUNTING PRONOUNCEMENTS**

In October 2009, the FASB issued Accounting Standards Update No. 2009-13, "Multiple-Deliverable Revenue Arrangements" ("ASU 2009-13"). ASU 2009-13, amends existing revenue recognition accounting pronouncements that are currently within the scope of ASC Subtopic 605-25. This authoritative guidance provides principles for allocation of consideration among its multiple-elements, allowing more flexibility in identifying and accounting for separate deliverables under an arrangement. ASU 2009-13 introduces an estimated selling price method for valuing the elements of a bundled arrangement if vendor-specific objective evidence or third-party evidence of selling price is not available, and significantly expands related disclosure requirements. This guidance is effective on a prospective basis for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010. Alternatively, adoption may be on a retrospective basis, and early application is permitted. The Company is currently evaluating the impact that the adoption of this guidance will have on its consolidated results of operations, financial position or cash flows.

In April 2010, the FASB issued Accounting Standards Update No. 2010-17, "Milestone Method of Revenue Recognition (Topic 605)" ("ASU 2010-17"). This update provides guidance on defining a milestone and determining when it may be appropriate to apply the milestone method of revenue recognition for research or development transactions. Authoritative guidance on the use of the milestone method did not previously exist. This guidance is effective on a prospective basis for milestones achieved in fiscal years, and interim periods within those years, beginning on or after June 15, 2010. Alternatively, retrospective adoption is permitted for all prior periods. The Company is currently evaluating the impact that the adoption of this guidance will have on its consolidated results of operations, financial position or cash flows.

Other pronouncements issued by the FASB or other authoritative accounting standards groups with future effective dates are either not applicable or not significant to the consolidated financial statements of the Company.

4. **ACQUISITION OF SKYEPHARMA, INC.**

Pacira Pharmaceuticals, Inc., a Delaware corporation, is the holding company for a California operating subsidiary of the same name, which we refer to as PPI-California. On the Acquisition Date, MPM Capital, Sanderling Ventures, OrbiMed Advisors, HBM Bioventures, the Foundation for Research and their co-investors, through Pacira Pharmaceuticals, Inc., acquired PPI-California, from SkyePharma Holding, Inc., which is referred to herein as the Acquisition. PPI-California was known as SkyePharma, Inc. prior to the Acquisition. The Investors acquired PPI-California to develop the DepoFoam extended release drug delivery technology and purchase the DepoFoam-based marketed products and product pipeline, most notably EXPAREL, a bupivacaine-based product candidate for postsurgical pain management.

Pacira Pharmaceuticals, Inc.

Notes to Consolidated Financial Statements—(continued)

The initial purchase price was $19.6 million and was funded from the sale proceeds of Series A convertible preferred stock and common stock of the Company. The results of operations of SkyePharma, Inc., are included in the consolidated financial statements of the Company from the Acquisition Date. The intangible assets acquired were core and developed technology, trademarks and trade names, and IPR&D. Purchased IPR&D totaling $12.4 million was expensed upon the Acquisition because technological feasibility had not been established and no future alternative uses existed for the technology. The Company determined the estimated fair value of the developed technology, core technology and IPR&D based on a valuation that used the income method. Significant assumptions in the Company's analysis included discount rates of 68%, 55% and 63% for IPR&D, developed technology and core technology, respectively. The components of the purchase price allocation for SkyePharma, Inc. are as follows:

Purchase consideration:	
(in thousands)	
Cash paid to SkyePharma Holding, Inc.	$19,632
Acquisition costs	1,355
Contingent purchase liability	2,042
Total purchase consideration	$ 23,029
Allocation of purchase price:	
(in thousands)	
Acquired cash	$ 175
Accounts receivable	850
Inventories	1,682
Prepaid expenses and other assets	626
Fixed assets	10,155
In-process research and development	12,400
Acquired intangible assets:	
Core technology	2,900
Developed technology	11,700
Trademarks and trade names	800
Liabilities assumed:	
Royalty interest obligation (see Note 10)	(13,000)
Unfavorable lease obligations	(3,300)
Other liabilities assumed	(1,959)
	$ 23,029

The acquired intangibles consist of core technology, developed technology, and trademarks and trade names. As of the Acquisition Date, the core technology was comprised of the DepoFoam drug delivery technology and the developed technology was comprised of the DepoCyt(e) and DepoDur marketed products. The acquired trademarks and trade names include DepoCyt, DepoCyte, DepoDur and DepoFoam and related intellectual property. The amortization periods for the acquired intangibles are seven to nine years.

At the Acquisition Date, the Company determined that the lease rates associated with the assumed facilities leases were above market rates resulting in a $3.3 million unfavorable lease accrual as of the Acquisition Date. The unfavorable lease accrual, which is recorded in other long-term liabilities in the Company's consolidated balance sheets, is amortized over the remaining terms of the leases.

In addition to the initial $19.6 million purchase price, the Company entered into an earn-out agreement with SkyePharma Holding, Inc. as additional purchase price which was based on Pacira reaching certain revenue

Pacira Pharmaceuticals, Inc.

Notes to Consolidated Financial Statements—(continued)

milestones following the Acquisition. According to this agreement, Pacira would pay SkyePharma Holding, Inc. certain milestone and royalty payments based on the net revenues of EXPAREL and certain other products from the future yet-to-be-developed biologics product line. Additionally, we agreed to pay to SkyePharma Holding, Inc. a 3% royalty of our sales of EXPAREL in the United States, Japan, the United Kingdom, France, Germany, Italy and Spain. The fair value of this contingent obligation was $13.9 million on the Acquisition Date. For business combinations involving contingent consideration (that is, a combination that might result in the acquiring enterprise recognizing additional purchase price in a future period (also referred to as "contingent consideration")), the acquiring enterprise is required to recognize, as if it were a liability, an amount equal to the lesser of: (1) the maximum amount of contingent consideration issuable, and (2) the total amount of negative goodwill. Accordingly, even though the fair value of the contingent consideration was $13.9 million, the Company recognized only $2.0 million as a contingent purchase liability as of the Acquisition Date. The carrying amount of the contingent purchase liability to SkyePharma Holding, Inc. was $2.0 million as of December 31, 2009 and 2008. The Company has not paid any earn-out to SkyePharma Holding, Inc. for the years ended December 31, 2009, 2008 and 2007.

Had the Acquisition been completed as of the beginning of 2007, the Company's pro forma results for 2007 would have been as follows:

(in thousands, except per share data)	(Unaudited)
Revenue	$ 9,860
Net loss	$ (48,165)
Basic and diluted net loss per common share	$ (9.63)
Basic and diluted weighted average shares	5,000,000

5. FAIR VALUE MEASUREMENTS

Financial assets and financial liabilities are required to be measured and reported on a fair value basis using the following three categories for classification and disclosure purposes:

Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2: Observable prices that are based on inputs not quoted on active markets, but corroborated by market data.

Level 3: Unobservable inputs that are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

In determining fair value, the Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible. The Company also considers counterparty credit risk in its assessment of fair value.

The carrying value of financial instruments including cash and cash equivalents, restricted cash, accounts receivable, note receivable, and accounts payable approximate their respective fair values due to the short-term maturities of these instruments and debts. The fair value of the Company's convertible notes (see Note 10) and promissory notes (see Note 10) cannot be practicably determined due to their related party nature.

Depreciation expenses associated with the Company's commercial products are included in cost of revenue. Depreciation expenses associated with the Company's products in development are included in research and development expenses. Depreciation expenses associated with general and administrative activities are included in selling, general and administrative expenses.

8. INTANGIBLE ASSETS

Intangible assets consist of core technology, developed technology and trademarks and trade names acquired in the acquisition of SkyePharma, Inc. (see Note 4). Intangible assets are recorded at cost, net of accumulated amortization. Amortization of intangible assets is provided over their estimated useful lives on a straight-line basis.

Amortization expense for intangibles was $2.2 million, $2.2 million and $1.7 million for the years ended December 31, 2009, 2008 and 2007, respectively. Amortization expenses associated with the Company's commercial products and developed technology are included in cost of revenue. Amortization expenses associated with the Company's products in development are included in research and development expenses.

The approximate amortization expense for intangibles subject to amortization is as follows (in thousands):

	Core Technology	Developed Technology	Trademarks and Tradenames	DepoDur Rights	Total

Pacira Pharmaceuticals, Inc.

Notes to Consolidated Financial Statements—(continued)

Intangibles are evaluated for potential impairment whenever events or circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recorded to the extent the asset's carrying value is in excess of the fair value of the asset. When fair values are not readily available, the Company estimates fair values using expected discounted future cash flows. During 2008, the Company recorded an impairment loss of $125,000, primarily related to the Company's DepoDur trademark. The DepoDur trademark was determined to be impaired because the Company's revised estimates of future sales were significantly lower than its prior estimates. Such impairment losses are reflected in costs of revenue in the Company's consolidated statements of operations. No impairment loss was recorded in 2009 and 2007. The Company believes that this impairment will not have a material impact on its future operations and cash flows because (i) the cash flows from DepoDur are not material and (ii) the Company has already taken the impairment charge for this trademark.

Convertible Notes Payable

In 2009, the Company sold $10.63 million aggregate principal amount of unsecured convertible promissory notes, or the 2009 Convertible Notes. The 2009 Convertible Notes were issued with detachable warrants to purchase an aggregate of 1.7 million shares of the Company's common stock at an exercise price of $0.25 per share. In recording the transaction, the Company allocated the proceeds of the 2009 Convertible Notes and the warrants based on their relative fair values. Fair value of the warrants was determined using the Black-Scholes valuation model and allocated to additional paid-in capital. It was also determined that the 2009 Convertible Notes contained a beneficial conversion feature since the fair value of the common stock issuable upon the conversion of the notes exceeded the value allocated to the notes. The Company recognized and measured the embedded beneficial conversion feature of each of the 2009 Convertible Notes by allocating a portion of the proceeds equal to the intrinsic value of that feature to additional paid-in capital. The intrinsic value of the beneficial conversion feature was calculated at the commitment date as the difference between the conversion price and the fair value of the securities into which the convertible instruments were convertible.

The 2009 Convertible Notes accrue interest at an annual rate of 5% payable at maturity or at the time of conversion. In connection with entering into the GECC Credit Facility in April 2010, as further described in Note 18, the maturity date was extended to the earliest of (1) a sale of the Company, (2) December 31, 2013 and (3) 91 days after the date that all obligations under the GECC Credit Facility are paid in full and the GECC Credit Facility is terminated. Also in connection with entering into the GECC Credit Facility, the holders of the 2009 Convertible Notes entered into (i) a subordination agreement with GECC pursuant to which the 2009 Convertible Notes were subordinated to the GECC Credit Facility and (ii) an inter-creditor agreement with the holders of the 2009 Secured Notes and the 2010 Secured Notes, as further described below, whereby the 2009 Convertible Notes were subordinated to the 2009 Secured Notes (described below) and 2010 Secured Notes (described in Note 18) and the holders of the 2009 Secured Notes agreed to share payments pro rata with the holders of the 2010 Secured Notes.

Upon the closing of a Qualified Financing (as defined below), unless the holders of a majority of the aggregate principal amount of all 2009 Convertible Notes have elected Optional Conversion of the 2009 Convertible Notes as described below, all outstanding principal and accrued interest under the 2009 Convertible Notes will automatically convert into shares of the same class and series of capital stock of the Company issued to investors in the Qualified Financing at a conversion price per share equal to the price per share paid by other investors in the Qualified Financing. A "Qualified Financing" means the next sale of preferred stock of the Company (i) with gross proceeds to the Company (including proceeds from any indebtedness of the Company that converts into equity in such financing) of at least $10 million or (ii) that is designated as a "Qualified Financing" by the holders of a majority of the aggregate principal amount of all 2009 Convertible Notes. Additionally, the 2009 Convertible Notes and any unpaid interest may be converted to Series A convertible preferred stock upon the election by the holders of a majority of the aggregate principal amount of all 2009 Convertible Notes with a conversion price paid per share equal to the price per share of Series A convertible preferred stock at the time of conversion ("Optional Conversion"). The warrants have an exercise price per share of $0.25 and will expire on January 21, 2014.

In the event of the completion of a merger or consolidation, sale of all the Company's assets or common stock or voluntary or involuntary liquidation, prior to full payment of the 2009 Convertible Notes or prior to the time when the 2009 Convertible Notes may be converted, the 2009 Convertible Notes will be due and payable with a control premium and the then outstanding principal and unpaid accrued interest and will be senior to all payments of Company common stock and Series A convertible preferred stock. Additionally, the 2009 Convertible Notes are due on demand in the event of default, litigation that threatens to materially and adversely affect the Company's business, operations, assets or results of operations, or bankruptcy by the Company.

Secured Promissory Notes

In June 2009, the Company entered into an agreement with certain of its existing investors to issue $10.63 million in aggregate principal amount of secured notes, or the 2009 Secured Notes. To secure the performance of the Company's obligations under purchase agreement for the 2009 Secured Notes, the Company granted a security interest in all of its assets except the assets that secure the Company's obligations under its agreement with Paul Capital to the investors. In connection with entering into the GECC Credit Facility in April 2010, as further described in Note 18, the holders of the 2009 Secured Notes entered into (i) a subordination agreement with GECC pursuant to which the 2009 Secured Notes were subordinated to the GECC Credit Facility, and (ii) an inter-creditor agreement with the holders of the 2009 Convertible Notes and the 2010 Secured Notes, as further described below, whereby the 2009 Convertible Notes were subordinated to the 2009 Secured Notes and 2010 Secured Notes and the holders of the 2009 Secured Notes agreed to share payments pro rata with the holders of the 2010 Secured Notes.

The 2009 Secured Notes have an interest rate of 12% per year and all principal and accrued and unpaid interest on the 2009 Secured Notes is due on December 31, 2010. In connection with entering into the GECC Credit Facility, the maturity date was extended to the earliest of (1) a sale of the Company, (2) December 16, 2013 and (3) 91 days after the date that all obligations under the GECC Credit Facility are paid in full and the GECC Credit Facility is terminated.

The outstanding principal and accrued interest on the 2009 Secured Notes was $10.6 million and $0.4 million, respectively, as of December 31, 2009 and interest expense associated with these promissory notes was $0.4 million for the year ended December 31, 2009.

Sale of Royalty Interests

In 2000, PPI-California and SkyePharma PLC entered into a Royalty Interests Assignment Agreement ("PLC Royalty Agreement") with an affiliate of Paul Capital Advisors, LLC ("Paul Capital") to raise $30 million. Under the PLC Royalty Agreement, Paul Capital had the right to receive a royalty interest in four of SkyePharma's product sales including product sales of and other payments related to DepoCyt(e) and DepoDur. Payments began for product sales realized on or after January 1, 2003 and continue through December 31, 2014.

In connection with the Acquisition, the PLC Royalty Agreement was amended ("Amended and Restated Royalty Interests Assignment Agreement"). As part of this amendment the responsibility to pay the royalty interest in product sales of DepoCyt(e) and DepoDur were transferred to the Company and the payment to Paul

Notes to Consolidated Financial Statements—(continued)

Capital in a "Purchase Option Event" of the Company, as described below, was defined. The net present value of royalties expected to be repaid to Paul Capital (the "royalty interest obligation") was valued at $13.0 million.

The Company recorded the royalty interest obligation as a liability in the Company's consolidated balance sheets in accordance with ASC 470-10-25, Sales of Future Revenues. The Company imputes interest expense associated with this liability using the effective interest rate method. The effective interest rate may vary during the term of the agreement depending on a number of factors including the actual sales of DepoCyt(e) and DepoDur and a significant estimation, performed quarterly, of certain of the Company's future cash flows related to these products during the remaining term of the Royalty Interests Assignment Agreement which terminates on December 31, 2014. Any adjustment to the estimates is reflected in the Company's consolidated statements of operations as interest income (expense). In addition, such cash flows are subject to foreign exchange movements related to sales of DepoCyt(e) and DepoDur denominated in currencies other than U.S. dollars.

The PLC Royalty Agreement also includes a provision for a "Purchase Option Event." The events include: (1) any change of control, a direct or indirect consequence of which is a material abatement of efforts to develop, market or sell any of the products or reformulated products; or (2) the transfer by the parent of all or substantially all of the parent's consolidated assets; or (3) the transfer by the Company of all or any part of their respective interests in the products or reformulated products, or (4) bankruptcy or other breach or default under the agreement.

In the event a Purchase Option Event occurs, Paul Capital shall have the right, but not the obligation, exercisable within 90 days, to require the Company to repurchase from Paul Capital the Royalty Interests Assignment, for a repurchase price equal to 50% of the cumulative amount of all payments made during the preceding 24 months (calculated from the date of the Purchaser's receipt of the notice from the Company of the Purchase Option Event) multiplied by the number of days from the date of Paul Capital's exercise of such option until December 31, 2014, divided by 365.

The Company has no minimum payment obligations under the PLC Royalty Agreement. However, the repayment of the Paul Capital liability is supported through a jointly controlled lockbox, where all DepoCyt(e) and DepoDur supply revenue and royalties are received. Commencing April 1 of every year, the first $2.5 million received in the lockbox is restricted and will be used to make quarterly payments due to Paul Capital, if any, under the agreement during the subsequent 12 month period. On March 31 of the subsequent year, the balance of cash in the lockbox, if any, is remitted to Pacira. The PLC Royalty Agreement terminates on December 31, 2014. The PLC Royalty Agreement pertains only to DepoCyt(e) and DepoDur, and does not include revenue related to EXPAREL or any other product candidates. As of December 31, 2009 and 2008, $1.2 million was in the lockbox and included in restricted cash in the Company's consolidated balance sheets.

11. **STOCKHOLDERS' EQUITY**

In connection with its formation, the Company issued in March 2007 an aggregate of five million shares of common stock for total aggregate consideration of $50,000.

Series A Convertible Preferred Stock

In March 2007, the Company entered into a Series A Preferred Stock Purchase Agreement pursuant to which the Company issued and sold an aggregate of 68 million shares of Series A convertible preferred stock in four separate closings held in March 2007, February 2008, July 2008 and October 2008, at a purchase price of $1.25 per share. Pacira Pharmaceuticals, Inc.

Notes to Consolidated Financial Statements—(continued)

Each holder of Series A convertible preferred stock has the right, at the option of the holder at any time, to convert their shares of Series A convertible preferred stock into shares of common stock at a current conversion ratio of one-to-one, subject to adjustment for stock splits, certain capital reorganizations and dilutive stock issuances. Each share of the Company's Series A convertible preferred stock will automatically convert into shares of the Company's common stock, at the then effective applicable conversion ratio upon the earlier of: (i) the closing of the sale of the Company's common stock pursuant to a firmly underwritten public offering in which the Company receives gross proceeds of at least $25 million or (ii) the consent of the holders of at least 66 2/3% of the then outstanding shares of Series A convertible preferred stock.

The holders of Series A convertible preferred stock are entitled to receive, when, as and if declared by the Company's board of directors out of legally available funds, non-cumulative dividends in an amount equal to any dividends declared, paid or set aside on shares of the Company's common stock. As of December 31, 2009, no dividends have been declared by the Company's board of directors.

In the event of any liquidation, dissolution or winding up of the Company, the holders of the Series A convertible preferred stock will be entitled to receive in preference to the holders of the Company's common stock, the amount of their original purchase price per share, plus declared and unpaid dividends, if any. If the assets and funds available to be distributed among the holders of the Series A convertible preferred stock are insufficient to permit the payment to such holders of the full preference, then the entire assets and funds legally available for distribution to such holders shall be distributed ratably based on the total due each holder of the Series A convertible preferred stock. Any remaining assets of the Company will be distributed ratably among the holders of its common stock.

Holders of the Series A convertible preferred stock are entitled to the number of votes they would have upon conversion of their Series A convertible preferred stock into common stock at the then-applicable conversion rate. The holders of Series A convertible preferred stock have been granted certain rights with regard to the election of board members and various other corporate actions.

Warrants

On January 22, 2009, the Company issued warrants in connection with the issuance of the 2009 Convertible Notes (see Note 10). The warrants are convertible into an aggregate of 1.7 million of shares of the Company's common stock at an exercise price of $0.25 per share and will expire on January 21, 2014. The value of the warrants has been recorded as a discount to the 2009 Convertible Notes and amortized as a component of interest expense over the original term of the 2009 Convertible Notes. For the year ended December 31, 2009, the amortization of the discount was $268,591 resulting in no remaining balance as of December 31, 2009.

In addition, on July 2, 2009 the Company issued warrants to the landlord of the Company's two San Diego facilities in connection with amendments to the respective lease agreements that deferred minimum annual rental obligations (see Note 13). The warrants are exercisable for an aggregate of 250,000 shares of Series A convertible preferred stock at a price of $1.25 per share and will expire on the earlier of July 1, 2016 or the fifth anniversary of the consummation of the Company's initial public offering. The value of the warrants was recorded as prepaid interest and is being amortized as a component of interest expense over the deferred rental payment term. For the year ended December 31, 2009, the amortization of the interest was $62,577 resulting in a balance of $141,439 as of December 31, 2009.

Pacira Stock Incentive Plan

Employees and directors have been granted options to purchase common shares under the 2007 Stock Option/Stock Issuance Plan (the "2007 Plan"). The 2007 Plan provides for the grant of options to purchase up to seven million shares of the Company's common stock. The 2007 Plan was amended in April 2008, to, among other things, increase the number of shares of common stock authorized for issuance under the 2007 Plan from seven million shares to 11.475 million shares (see Note 18). Options granted under the 2007 Plan generally expire no later than ten years from the date of grant. The exercise price of incentive stock options must be equal to at least the fair value of the Company's common stock on the date of grant.

The following table summarizes the Company's stock option activity and related information for the period from January 1, 2007 to December 31, 2009:

As of December 31, 2009, 9,738,476 shares of common stock were reserved for future grant of stock options. As of December 31, 2009, $39,000 of total unrecognized compensation cost related to non vested stock options is expected to be recognized over the respective vesting terms of each award. The weighted average term of the unrecognized share-based compensation is 2.3 years. As further described in Note 15, unexercised options to purchase an aggregate of 5,138,958 shares of common stock options were cancelled during 2009, which resulted in share-based compensation of $0.5 million.

The fair values of each option grant in 2009, 2008 and 2007 were estimated using the Black-Scholes option pricing model with the following weighted average assumptions:

	Years Ended December 31,

Cost of royalties consists of payments to Research Development Foundation ("RDF") for the use of DepoFoam technology. Cost of collaborative licensing and development revenues consists of the Company's expenses related to feasibility studies and development work for third parties who desire to utilize the Company's DepoFoam extended release drug delivery technology for their products.

13. COMMITMENTS AND CONTINGENCIES

Leases

The Company leases office, research and development, and manufacturing facilities in San Diego, California. The two facilities in San Diego are comprised of the Science Center location and the Torrey Pines location. The leases for both these facilities expire July 2015. Under these leases, the Company is required to pay certain maintenance expenses in addition to the monthly rent. Rent expense is recognized on a straight-line basis

over the lease term for leases that have scheduled rent increases. During 2009, the Company entered into amendments to its real estate leases for the Science Center and Torrey Pines facilities. As part of the lease amendments, the property-owner agreed to defer a portion of the minimum annual rent obligation due from February 1, 2009 to March 31, 2010 in exchange for interest compounded at 10% per annum, and warrants to purchase 250,000 shares of Series A convertible preferred stock with values totaling $141,000 and $63,000 on the Science Center and Torrey Pines facilities, respectively. The total amount of rent deferred will be $438,414 and $2,109,101 for the Torrey Pines and Science Center facilities, respectively. The amounts are to be repaid from April 1, 2010 to September 1, 2011. The warrants are convertible into Series A convertible preferred stock with an exercise price of $1.25 per share and will expire on the earlier of July 1, 2016 or the fifth anniversary of the consummation of the Company's initial public offering. The value of the warrants has been recorded as prepaid interest and is being amortized over the deferred rental payment term. As of December 31, 2009, the balance of the related prepaid interest was $141,000. For the year ended December 31, 2009, the additional interest associated with the deferred payments and amortization of the warrants was $102,000 and $63,000, respectively.

The Company determined that its lease rates associated with the assumed the Torrey Pines and Science Center facilities' leases were in excess of market rates resulting in a $3.3 million unfavorable lease accrual as of the Acquisition Date. The unfavorable lease accrual, which is recorded in other long-term liabilities in the Company's consolidated balance sheets, is amortized over the remaining terms of the leases. The balance of the unfavorable lease accrual as of December 31, 2009 and 2008 was $2.2 million and $2.6 million, respectively. The amortization of the unfavorable lease accrual for 2009, 2008 and 2007 was $0.4 million, $0.4 million and $0.3 million, respectively.

As of December 31, 2009, annual minimum payments due under the Company's office and equipment lease obligations are as follows (in thousands):

2010	$6,215
2011	5,827
2012	4,820
2013	4,968
2014	5,136
Thereafter	3,072
	$30,038

Total rent expense, net of unfavorable lease obligation amortization, under all operating leases for years ended December 31, 2009, 2008 and 2007 was $4.6 million, $4.6 million and $3.5 million, respectively. Deferred rent at December 31, 2009 and 2008 was $1.2 million and $0.9 million, respectively.

Litigation

The Company periodically becomes subject to legal proceedings and claims arising in connection with its business. The ultimate legal and financial liability of the Company in respect to all claims, lawsuits and proceedings cannot be estimated with any certainty. Any outcome, either individually or in the aggregate, is not expected to be material to the Company's consolidated financial position, results of operations, or cash flows.

A reconciliation of income taxes at the U.S. federal statutory rate to the provision for income taxes is as follows (in thousands):

Significant components of the Company's deferred tax assets are as follows:

	Year ended December 31,	
	2009	2008
	(in thousands)	
Deferred tax assets:		
Federal and state net operating loss carryforwards	$ 32,321	$ 21,752
Federal and state research credits	2,778	2,234
Depreciation and amortization	1,090	675
Accruals and reserves	8,632	9,125
Deferred revenue	9,302	7,749
Other	332	4
Total gross deferred tax assets	54,455	41,539
Less valuation allowance for deferred tax assets	(54,455)	(41,539)
Net deferred tax assets	$ —	$ —

The valuation allowance for deferred tax assets increased by approximately $12.9 million, $17.4 million and $24.1 million during the years ended December 31, 2009, 2008 and 2007, respectively. Management believes the significant doubt regarding the realization of net deferred tax assets requires a full valuation allowance.

As a result of certain realization requirements of ASC 718, the table of deferred tax assets is required to be reduced by certain deferred tax assets at December 31, 2009 and 2008 that arose directly from tax deductions related to equity compensation in excess of compensation recognized for financial reporting. Through December 31, 2009, the amount of such reduction was not material.

As of December 31, 2009, the Company had federal and state net operating losses of approximately $82.4 and $59.0 million, respectively. The Company also had federal and state research and development tax credit carry-forwards of approximately $2.2 and $0.9 million, respectively. The net operating loss carry-forwards and tax credits will expire at various dates, beginning in 2016, through 2026, if not utilized.

Utilizations of net operating loss and research and development credit carry-forwards may be subject to a substantial annual limitation under Section 382 of the Internal Revenue Code of 1986, as amended, due to

ownership change limitations that have occurred previously or that could occur in the future. These ownership changes may limit the amount of net operating loss and research and development credit carry-forwards that can be utilized annually to offset future taxable income and tax, respectively. An ownership change occurred on March 24, 2007, as a result of the Acquisition. The Company has not conducted a review of whether a change of control has occurred since the Acquisition Date. There also could be additional ownership changes in the future which may result in additional limitations in the utilization of these credits.

As discussed in Note 2 "Summary of Significant Accounting Policies," the Company adopted new accounting principles on accounting for uncertain tax positions in 2007. Under these principles, tax positions are evaluated in a two-step process. The Company first determines whether it is more-likely-than-not that a tax position will be sustained upon examination. If a tax position meets the more-likely-than-not recognition threshold it is then measured to determine the amount of benefit to be recognized in the financial statements. The tax position is measured as the largest amount of benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement.

At December 31, 2009, the total amount of gross unrecognized tax benefits was not considered significant.

The Company is currently open for audit by the United States Internal Revenue Service and state tax jurisdictions for 2006 through 2009.

15. RETIREMENT PLANS AND OTHER EMPLOYEE BENEFITS

Savings Plan

The Company sponsors a 401(k) savings plan. Under the plan, employees may make contributions to the plan, which are eligible for a discretionary percentage match as defined in the plan and determined by the board of directors. The Company's compensation expense under this plan, representing its employer matching contributions, was $0.3 million for the year ended December 31, 2007. There was no compensation expense under the plan for years ended December 31, 2009 and 2008.

Incentive Bonus Plan

In March 2009, the Company adopted a company sale bonus plan and in March 2010 the Company amended and restated the company sale bonus plan. The company sale bonus plan provides for a potential cash bonus payment to specified employees and consultants, including executive officers, and non-employee directors, in the event of a sale of the Company. Under the company sale bonus plan, upon the closing of a sale transaction that satisfies specified criteria, each participant in the company sale bonus plan would receive either a bonus in an amount equal to a portion of the sale proceeds multiplied by a specified percentage for that participant or a fixed bonus payment. The plan terminates upon the completion of the Company's initial public offering. As a condition to becoming participants under the plan, most of the participants, including all of the Company's executive officers and non-employee directors, agreed to have their existing option grants cancelled. As a result, unexercised options for an aggregate of 5.1 million shares of common stock were cancelled. In addition, certain employees were eligible to receive a retention bonus (equivalent to two weeks of base salary upon receipt of positive data on the EXPAREL Phase 3 clinical trials, or if the Company's board of directors deemed related data to be positive) and a pre-determined percentage of salary in the event of a Company sale. In the fourth quarter of 2009, the Company received positive data on the EXPAREL Phase 3 clinical trials and, accordingly, recorded compensation expense and paid $0.1 million of retention bonuses.

Pacira Pharmaceuticals, Inc.

Notes to Consolidated Financial Statements—(continued)

In October 2010, the Company entered into employment agreements with its executive officers. Each of these agreements provides the executive officer with certain severance benefits in connection with certain terminations of the executive's employment both before and after a change of control.

16. COMMERCIAL PARTNERS AND AGREEMENTS

In December 2002, the Company entered into a supply and distribution agreement with Enzon Pharmaceuticals Inc. regarding the sale of DepoCyt. Pursuant to the agreement, Enzon was appointed the exclusive distributor of DepoCyt in the United States and Canada. In January 2010, Sigma-Tau Pharmaceuticals, Inc., or Sigma-Tau, acquired the rights to sell DepoCyt from Enzon Pharmaceuticals for the United States and Canada. Under the supply and distribution agreement, the Company supplies unlabeled DepoCyt vials to Sigma-Tau for finished packaging by Sigma-Tau. Under these agreements, the Company receives a fixed payment for manufacturing the vials of DepoCyt and a double-digit royalty on sales by Sigma-Tau in the United States and Canada.

Mundipharma International Holdings Limited

In June 2003, the Company entered into an agreement granting Mundipharma International Holdings Limited, or Mundipharma, exclusive marketing and distribution rights to DepoCyte in the European Union and certain other European countries. Under the agreement, as amended, and a separate supply agreement, the Company receives a fixed payment for manufacturing the vials of DepoCyte and a double-digit royalty on sales in the applicable territories by Mundipharma.

18. **SUBSEQUENT EVENTS**

The Company has evaluated events through November 1, 2010, the date at which the consolidated financial statements were available to be issued.

2010 Secured Notes

In March 2010, the Company entered into an agreement with certain of its existing investors to issue $15 million in aggregate principal amount of secured notes in a private placement (the "2010 Secured Notes"). To secure the performance of its obligations under the purchase agreement for the 2010 Secured Notes, the Company granted a subordinated security interest in substantially all of its assets, including its intellectual property assets, to the investors. The investors purchased the entire $15 million of 2010 Secured Notes in three closings in March, June and September 2010.

The 2010 Secured Notes have an interest rate of 5% per year and all principal and accrued and unpaid interest is due on December 31, 2010. In connection with entering into the GECC Credit Facility as noted below, the maturity date was extended to the earliest of (1) a sale of the Company; (2) December 16, 2013; and, (3) 91 days after the date that all obligations under the GECC Credit Facility are paid in full and the GECC Credit Facility is terminated. Also in connection with entering into the GECC Credit Facility, the holders of the 2010 Secured Notes entered into (i) a subordination agreement with GECC pursuant to which the 2010 Secured Notes were subordinated to the GECC Credit Facility, and (ii) an inter-creditor agreement with the holders of the 2009 Convertible Notes and the 2009 Secured Notes whereby the 2009 Convertible Notes were subordinated to the 2010 Secured Notes and the 2009 Secured Notes, and the holders of the 2010 Secured Notes agreed to share payments pro rata with the holders of the 2009 Secured Notes.

HBM Secured Notes

On April 30, 2010, the Company entered into a subordinated secured note purchase agreement with entities affiliated with HBM BioVentures, or HBM, to issue $3.75 million in aggregate principal amount of secured notes, or the HBM Secured Notes, in a private placement. Pursuant to the purchase agreement for the HBM Secured Notes, upon written notice delivered to HBM prior to September 30, 2010, HBM purchased an amount of secured notes set forth in the notice. HBM purchased the entire $3.75 million of the HBM Secured Notes in three closings in April, June and September 2010. To secure the performance of its obligations under the purchase agreement for the HBM Secured Notes, the Company granted a subordinated security interest in substantially all of its assets, including its intellectual property assets, other than the assets that secure its obligations under its agreement with Paul Capital. The HBM Secured Notes carry an interest rate of approximately 10% per year. In addition, the HBM Secured Notes require a final payment fee if they are prepaid prior to the maturity date. The maturity date of the HBM Secured Notes is the earliest of (1) a sale of the Company, (2) December 16, 2013 and (3) 91 days after the date that all obligations under the GECC Credit Facility are paid in full and the GECC Credit Facility is terminated. On April 30, 2010, the holders of the HBM Secured Notes entered into a subordination agreement with GECC pursuant to which the HBM Secured Notes were subordinated to the GECC Credit Facility.

Credit Facility

In April 2010, The Company entered into a credit facility with General Electric Capital Corporation (the "GECC Credit Facility"), with $11.25 million available for borrowing. The Company borrowed an aggregate principal amount of $5.62 million at the closing, $2.81 million on July 1, 2010 and the remaining $2.81 million on September 2, 2010. Each of the term loans under the GECC Credit Facility carries a fixed interest rate of

Pacira Pharmaceuticals, Inc.

Notes to Consolidated Financial Statements—(continued)

approximately 10% that is payable monthly. The GECC Credit Facility requires no payment of principal for the first year, and then equal principal payments over 24 months until the maturity dates of 3 years from the funding dates. The GECC Credit Facility is secured by a first priority lien on all of the Company's assets other than the assets that secure its obligations under its agreement with Paul Capital, and is guaranteed in full by certain majority investors of the Company (the "guarantors").

In connection with any prepayments of term loans under the GECC Credit Facility, the Company's required to pay, in addition to all principal and accrued and unpaid interest on such term loan, a final payment fee equal to (i) 0.45% of the original principal amount of such term loan if the prepayment is made or required before the one year anniversary of such term loan, (ii) 2.25% of the original principal amount of such term loan if the prepayment is made or required on or after the one year anniversary of such term loan but before the two year anniversary of such term loan, and (iii) 3.50% of the original principal amount of such term loan if the prepayment is made or required on or after the two year anniversary of such term loan.

The GECC Credit Facility is guaranteed by the Company and is secured by a first priority lien on all of the assets of both PPI-California and the guarantors, other than the assets that secure its obligations under its agreement with Paul Capital. In addition, the GECC Credit Facility is guaranteed by certain of the Company's investors (other than HBM) on a several and not joint basis which guarantee is limited to each investor's pro rata portion of the outstanding principal and accrued and unpaid interest under the GECC Credit Facility, but in no event to exceed $11.250 million in the aggregate. The obligations of the investors under the guarantee is not triggered until the earlier to occur of (i) thirty days after written notice from the agent that the obligations under the GECC Credit Facility have been accelerated, and (ii) the occurrence of a bankruptcy or insolvency event with respect to the borrower, the Company or any of the investor guarantors. The guarantee by the Company's investors of the GECC Credit Facility also includes covenants that require each such investor to maintain at all times unfunded commitments from its investors in an amount equal to at least one and one-half times the maximum amount which the investor may be obligated for under the investor guarantee, and also includes certain control requirements with respect to such investors.

The GECC Loan and Security Agreement contains events of default including payment default, default arising from the breach of the provisions of the GECC Loan and Security Agreement and related documents or the inaccuracy of representations and warranties, attachment default, judgment default, bankruptcy and insolvency, cross-default provision with respect to other material indebtedness, default based on the unenforceability, invalidity or revocation of a the GECC Loan and Security Agreement or any other related documents (including any guarantee or applicable subordination agreement) or any security interests, the occurrence of a material adverse effect (as defined in the GECC Loan and Security Agreement) and certain changes in control, including if the chief executive officer or chief financial officer of the borrower cease to be involved in the daily operations or management of the business, if certain holders cease to own or control at least 51% of the outstanding capital stock of the Company, if the Company ceases to own or control all the economic and voting rights of the borrower and if the borrower ceases to own or control, directly or indirectly, all of the economic or voting rights of each of its subsidiaries.

The occurrence of an event of default under the GECC Credit Facility could trigger the acceleration of the obligations under the GECC Credit Facility or allow the agent or lenders to exercise other rights and remedies, including rights against the assets which secure the GECC Credit Facility and rights under guarantees provided to support the obligations under the GECC Credit Facility.

The GECC Loan and Security Agreement contains a number of affirmative and restrictive covenants including reporting requirements, compliance with laws, protection of intellectual property and other collateral

covenants, and limitations, subject to certain exceptions set forth in the GECC Loan and Security Agreement, on liens and indebtedness, limitations on dispositions, limitations on mergers and acquisitions, limitations on restricted payments and investments, limitations on transactions with the Company's affiliates, limitations on changes in business, limitations on amendments and waivers of certain agreements, and limitations on waivers and amendments to certain agreements, including certain portions of the Paul Capital agreements, the Company's organizational documents, and documents relating to debt that is subordinate to the Company's obligations under the GECC Credit Facility.

2007 Plan

On September 2, 2010, the Company's board of directors amended its 2007 Plan to increase the number of authorized plan shares to from 11,475,000 to 18,600,750 shares of common stock. This increase was approved by the Company's stockholders in October 2010. Concurrent with the amendment of the 2007 Plan, in September 2010 the board of directors granted stock options to employees, non-employee board members and consultants for an aggregate of 15,577,000 shares of common stock. The stock options have an exercise price of $0.15 per share. In establishing the exercise price, the board of directors relied on a valuation that concluded as of August 31, 2010 the value of the Company's common stock was $0.15 per share.

These stock options may be exercised only upon the completion of an initial public offering prior to December 31, 2012. If an initial public offering is not completed prior to December 31, 2012, then the options automatically cancel. The stock options have a 10-year term, and the option shares vest according to one of the following four schedules:

(i) 75% of the option shares vest on the date of grant, and the remaining 25% of the option shares vest in equal successive monthly installments upon the optionee's completion of each month of service over the 12 month period following the date of grant;

(ii) 50% of the option shares vest on the date of grant, and the remaining 50% of the option shares vest in equal successive monthly installments upon the optionee's completion of each month of service over 24 month period following the date of grant;

(iii) 25% of the option shares vest upon optionee's completion of one year of service to the Company measured from the date of grant, and the remaining 75% of the option shares vest in equal successive monthly installments upon the optionee's completion of each month of service over the 36 month period following the first anniversary of the date of grant; or

(iv) 50% of the option shares vest on the first anniversary of the closing of the Company's initial public offering provided that the optionee remains in service to the Company for such first year and, the remaining 50% of the option shares vest on the second anniversary of the closing of the Company's initial public offering provided that the optionee remains in service to the Company over such second year. Upon a change in control of the Company, as defined in the 2007 Plan, 100% of the shares underlying each of these options shall become vested and exercisable immediately prior to such change in control.

Pacira Pharmaceuticals Inc.

Notes to Condensed Consolidated Financial Statements (Unaudited)

1. BUSINESS

Pacira Pharmaceuticals Inc. and its subsidiaries (collectively, the "Company" or "Pacira") is an emerging specialty pharmaceutical company focused on the development, commercialization and manufacture of proprietary pharmaceutical products, based on its proprietary DepoFoam drug delivery technology, for use in hospitals and ambulatory surgery centers.

The Company was incorporated in Delaware under the name Blue Acquisition Corp. in December 2006 and changed its name to Pacira, Inc. in June 2007. In October 2010, the Company changed its name to Pacira Pharmaceuticals, Inc. Pacira Pharmaceuticals, Inc. is the holding company for the Company's California operating subsidiary of the same name, which we refer to as PPI-California. The consolidated financial statements include the Company's wholly owned subsidiaries PPI-California and Pacira Limited.

Risks and Uncertainties

The Company is subject to risks common to companies in similar industries and stages of development, including, but not limited to, competition from larger companies, reliance on revenue from few customers and products, new technological innovations, dependence on key personnel, reliance on third-party service providers and vendors, protection of proprietary technology, and compliance with government regulations.

Going Concern

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has reported net losses of $20.1 million, and $22.7 million and negative cash flows from operating activities of $19.0 million and $21.7 million for the nine months ended September 30, 2010 and 2009, respectively. As of September 30, 2010, the Company had a stockholders' deficit of $43.0 million. The Company has incurred losses and negative operating cash flow since inception and future losses are anticipated. The Company's continued operations will depend on its ability to raise additional funds through sources such as equity and debt financing and revenues from commercial sale of EXPAREL. Insufficient funds could require the Company to delay, scale back or eliminate one or more of its research and development programs. The ability of the Company to continue as a going concern is dependent on improving the Company's profitability and cash flow and securing additional financing. While the Company believes in the viability of its strategy to increase revenues and profitability and in its ability to raise additional funds, and believes that the actions presently being taken by the Company provide the opportunity for it to continue as a going concern, there can be no assurance that such financing will be available on acceptable terms, or at all. These condensed consolidated financial statements do not include any adjustments related to the recoverability and classification of asset amounts or the amounts and classification of liabilities that might be necessary if the Company is unable to continue as a going concern.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation and Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries PPI-California and Pacira Limited. Pacira Limited was incorporated in the United Kingdom and its functional currency is the U.S. dollar. Intercompany accounts and transactions have been eliminated in consolidation. The consolidated financial statements for the interim periods included herein are unaudited; however, they contain all adjustments (consisting of only normal recurring adjustments) which, in the opinion of

Pacira Pharmaceuticals, Inc.

Notes to Condensed Consolidated Financial Statements (Unaudited)—(continued)

management, are necessary to present fairly the consolidated financial position of the Company as of September 30, 2010, and the results of its operations and cash flows for the nine months ended September 30, 2010 and 2009. The results of operations for the interim periods are not necessarily indicative of results that may be expected for any other interim period or for the full year. These interim financial statements should be read in conjunction with the audited annual consolidated financial statements and notes thereto included elsewhere in the registration statement.

The consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States, or GAAP, in accordance with the rules and regulations of the Securities and Exchange Commission for interim reporting. Pursuant to such rules and regulations, certain information and footnote disclosures normally included in complete annual financial statements have been condensed or omitted. The accounts of all wholly-owned subsidiaries are included in the consolidated financial statements. All intercompany balances and transactions have been eliminated in consolidation. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported and the disclosure of contingent assets and liabilities. Estimates are used for, among other things, the valuation of assets acquired, valuation of common and preferred stock and stock-based compensation, unbilled revenue, customer credits and the valuation of deferred taxes. Estimates are also used to determine the remaining economic lives and recoverability of fixed assets and intangible assets. Management evaluates its estimates and assumptions on an ongoing basis using historical experience and other factors, including the current economic environment, which management believes to be reasonable under the circumstances. Actual results could differ from those estimates.

Concentration of Major Customers

The Company's customers are its commercial and collaborative and licensing partners. For the nine months September 30, 2010, the Company's four largest customers accounted for 52%, 21%, 11%, and 10%, individually, of the Company's net revenues. For the nine months ended September 30, 2009, the Company's three largest customers accounted for 39%, 25%, and 22%, respectively, of the Company's net revenues. No other individual customers accounted for more than 10% of net revenues. As of September 30, 2010, the Company's two largest customers accounted for 58% and 28%, respectively, of the Company's trade accounts receivable. As of December 31, 2009, the Company's three largest customers accounted for 56%, 26% and 13%, respectively, of the Company's trade accounts receivable. The Company is dependent on these commercial partners to market and sell DepoCyt(e) and DepoDur, from which a substantial portion of its revenues are derived; therefore, the Company's future revenues from these products are highly dependent on these collaboration and distribution arrangements.

Domestic net revenues for the nine months ended September 2010 and 2009 accounted for 45% and 56% of the Company's net revenues, respectively. Export revenues for the nine months ended September 2010 and 2009 accounted for 55% and 44% of the Company's net revenues, respectively.

Per Share Data

Net loss per share is determined in accordance with the two-class method. This method is used for computing basic net loss per share when companies have issued securities other than common stock that contractually entitle the holder to participate in dividends and earnings of the Company. Under the two-class method, net loss is allocated between common shares and other participating securities based on their participation rights in both distributed and undistributed earnings. The Company's Series A preferred stock are participating securities, since the stockholders are entitled to share in dividends declared by the board of directors with the common stock based on their equivalent common shares.

Pacira Pharmaceuticals, Inc.

Notes to Condensed Consolidated Financial Statements (Unaudited)—(continued)

Basic net loss per share is computed by dividing net loss available (attributable) to common stockholders by the weighted average number of shares of common stock outstanding during the period. Because the holders of the Series A Convertible Preferred Stock are not contractually required to share in the Company's losses, in applying the two-class method to compute basic net loss per common share no allocation to preferred stock was made for the nine-month periods ended September 30, 2010 and 2009.

Diluted net loss per share is calculated by dividing net loss available (attributable) to common stockholders as adjusted for the effect of dilutive securities, if any, by the weighted average number of common shares and dilutive common stock outstanding during the period. Potential common shares include the shares of common stock issuable upon the exercise of outstanding stock options and a warrant (using the treasury stock method) and the conversion of the shares of Series A convertible preferred stock (using the more dilutive of the (a) as converted method or (b) the two-class method). Potential common shares in the diluted net loss per share computation are excluded to the extent that they would be anti-dilutive. No potentially dilutive securities are included in the computation of any diluted per share amounts as the Company reported a net loss for all periods presented. Potentially dilutive securities that would be issued upon the conversion of convertible notes, conversion of preferred stock and the exercise of outstanding warrants and stock options, were 77.2 million at September 30, 2010 and 77.0 million at September 30, 2009.

3. RECENT ACCOUNTING PRONOUNCEMENTS

In October 2009, the FASB issued Accounting Standards Update No. 2009-13, "Multiple-Deliverable Revenue Arrangements" ("ASU 2009-13"). ASU 2009-13, amends existing revenue recognition accounting pronouncements that are currently within the scope of Accounting Standards Codification, or ASC, Subtopic 605-25. This authoritative guidance provides principles for allocation of consideration among its multiple-elements, allowing more flexibility in identifying and accounting for separate deliverables under an arrangement. ASU 2009-13 introduces an estimated selling price method for valuing the elements of a bundled arrangement if vendor-specific objective evidence or third-party evidence of selling price is not available, and significantly expands related disclosure requirements. This guidance is effective on a prospective basis for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010. Alternatively, adoption may be on a retrospective basis, and early application is permitted. The Company is currently evaluating the impact that the adoption of this guidance will have on its consolidated results of operations, financial position or cash flows.

In April 2010, the FASB issued Accounting Standards Update No. 2010-17, "Milestone Method of Revenue Recognition (Topic 605)" ("ASU 2010-17"). This update provides guidance on defining a milestone and determining when it may be appropriate to apply the milestone method of revenue recognition for research or development transactions. Authoritative guidance on the use of the milestone method did not previously exist. This guidance is effective on a prospective basis for milestones achieved in fiscal years, and interim periods within those years, beginning on or after June 15, 2010. Alternatively, retrospective adoption is permitted for all prior periods. The Company is currently evaluating the impact that the adoption of this guidance will have on its consolidated results of operations, financial position or cash flows.

Other pronouncements issued by the FASB or other authoritative accounting standards groups with future effective dates are either not applicable or not significant to the consolidated financial statements of the Company.

4. FAIR VALUE MEASUREMENTS

Financial assets and financial liabilities are required to be measured and reported on a fair value basis using the following three categories for classification and disclosure purposes:

Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2: Observable prices that are based on inputs not quoted on active markets, but corroborated by market data.

Level 3: Unobservable inputs that are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

In determining fair value, the Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible. The Company also considers counterparty credit risk in its assessment of fair value.

The carrying value of financial instruments including cash and cash equivalents, restricted cash, accounts receivable, note receivable, and accounts payable approximate their respective fair values due to the short-term maturities of these instruments and debts. The fair value of the Company's convertible notes (see Note 6) and promissory notes (see Note 6) cannot be practicably determined due to their related party nature. The carrying amount of our borrowings under the GECC Credit Facility (see Note 6) approximates fair value. Such borrowings occurred in April, July and September, 2010 and were repaid in November 2010 (see Note 8).

2010 Financings:

2010 Secured Notes In March 2010, the Company entered into an agreement with certain of its existing investors to issue $15.0 million in aggregate principal amount of secured notes in a private placement (the "2010 Secured Notes"). To secure the performance of its obligations under the purchase agreement for the 2010 Secured Notes, the Company granted a subordinated security interest in substantially all of its assets, including its intellectual property assets, to the investors. The investors purchased the entire $15 million of 2010 Secured Notes in three closings in March, June and September 2010.

The 2010 Secured Notes have an interest rate of 5% per year and all principal and accrued and unpaid interest is due on December 31, 2010. In connection with entering into the GECC Credit Facility as noted below, the maturity date was extended to the earliest of (1) a sale of the Company; (2) December 16, 2013; and, (3) 91 days after the date that all obligations under the GECC Credit Facility are paid in full and the GECC Credit Facility is terminated. Also in connection with entering into the GECC Credit Facility, the holders of the 2010 Secured Notes entered into (i) a subordination agreement with GECC pursuant to which the 2010 Secured Notes were subordinated to the GECC Credit Facility, and (ii) an inter-creditor agreement with the holders of the 2009 Convertible Notes and the 2009 Secured Notes whereby the 2009 Convertible Notes were subordinated to the 2010 Secured Notes and the 2009 Secured Notes, and the 2010 Secured Notes agreed to share payments pro rata with the holders of the 2009 Secured Notes.

The outstanding principal and accrued interest on the 2010 Secured Notes was $15.0 million and $0.3 million, respectively, as of September 30, 2010, and interest expense associated with these notes was $0.3 million for the nine months ended September 30, 2010.

HBM Secured Notes On April 30, 2010, the Company entered into a subordinated secured note purchase agreement with entities affiliated with HBM BioVentures, or HBM, to issue $3.75 million in aggregate principal amount of secured notes, or the HBM Secured Notes, in a private placement. Pursuant to the purchase agreement for the HBM Secured Notes, upon written notice to HBM delivered to HBM prior to September 30, 2010, HBM

purchased an amount of secured notes set forth in the notice. HBM purchased the entire $3.75 million of the HBM Secured Notes in three closings in April, June and September 2010. To secure the performance of the Company's obligations under the purchase agreement for the HBM Secured Notes, the Company granted a subordinated security interest in substantially all of its assets, including its intellectual property assets, other than the assets that secure its obligations under its agreement with RST. The HBM Secured Notes carry an interest rate of approximately 10% per year. In addition, the HBM Secured Notes require a final payment fee if they are prepaid prior to the maturity date. The maturity date of the HBM Secured Notes is the earliest of (1) a sale of the Company, (2) December 16, 2013 and (3) 91 days after the date that all obligations under the GECC Credit Facility are paid in full and the GECC Credit Facility is terminated. On April 30, 2010, the holders of the HBM Secured Notes entered into a subordination agreement with GECC pursuant to which the HBM Secured Notes were subordinated to the GECC Credit Facility.

The outstanding principal and accrued interest on the credit facilities was $3.75 million and $0.10 million, respectively, as of September 30, 2010, and interest expense associated with these notes was $0.10 million for the nine months ended September 30, 2010.

Credit Facility

In April 2010, the Company entered into a credit facility with General Electric Capital Corporation (the "GECC Credit Facility"), with $11.25 million available for borrowing. The Company borrowed an aggregate principal amount of $5.63 million at the closing, $2.81 million on July 1, 2010 and the remaining $2.81 million on September 2, 2010. Each of the term loans under the GECC Credit Facility carries a fixed interest rate of approximately 10% that is payable monthly. The GECC Credit Facility requires no payment of principal for a year, and then equal principal payments over 24 months until the maturity dates of three years from the funding dates. The GECC Credit Facility is secured by a first priority lien on all of the Company's assets other than the assets that secure its obligations under its agreement with RST, and is guaranteed in full by certain majority investors of the Company (the "guarantors").

In connection with any prepayments of term loans under the GECC Credit Facility, the Company is required to pay, in addition to all principal and accrued and unpaid interest on such term loan, a final payment fee equal to (i) 0.45% of the original principal amount of such term loan if the prepayment is made or required before the one year anniversary of such term loan, (ii) 2.25% of the original principal amount of such term loan if the prepayment is made or required on or after the one year anniversary of such term loan but before the two year anniversary of such term loan, and (iii) 3.50% of the original principal amount of such term loan if the prepayment is made or required on or after the two year anniversary of such term loan.

The GECC Credit Facility is guaranteed by the Company and is secured by a first priority lien on all of the assets of both PPI-California and the guarantors, other than the assets that secure its obligations under its agreement with RST. In addition, the GECC Credit Facility is guaranteed by certain of the Company's investors (other than HBM) on a several and not joint basis which guarantee is limited to each investor's pro rata portion of the outstanding principal and accrued and unpaid interest under the GECC Credit Facility, but in no event to exceed $11.25 million in the aggregate. The obligations of the investors under the guarantee is not triggered until the earlier to occur of (i) thirty days after written notice from the agent that the obligations under the GECC Credit Facility have been accelerated, and (ii) the occurrence of a bankruptcy or insolvency event with respect to the borrower, the Company or any of the investor guarantors. The guarantee by the Company's investors of the GECC Credit Facility also includes covenants that require each such investor to maintain at all times unfunded commitments from its investors in an amount equal to at least one and one-half times the maximum amount which the investor may be obligated for under the investor guarantee, and also includes certain control requirements with respect to such investors.

The occurrence of an event of default under the GECC Credit Facility could trigger the acceleration of the obligations under the GECC Credit Facility or allow the agent or lenders to exercise other rights and remedies, including rights against the assets which secure the GECC Credit Facility and rights under guarantees provided to support the obligations under the GECC Credit Facility.

The GECC Loan and Security Agreement contains a number of affirmative and restrictive covenants including reporting requirements, compliance with laws, protection of intellectual property and other collateral covenants, and limitations, subject to certain exceptions set forth in the GECC Loan and Security Agreement, on liens and indebtedness, limitations on dispositions, limitations on mergers and acquisitions, limitations on restricted payments and investments, limitations on transactions with the Company's affiliates, limitations on changes in business, limitations on amendments and waivers of certain agreements, and limitations on waivers and amendments to certain agreements, including certain portions of the Paul Capital agreements, the Company's organizational documents, and documents relating to debt that is subordinate to our obligations under the GECC Credit Facility.

STOCKHOLDERS' EQUITY

Pacira Stock Incentive Plan

On September 2, 2010, the Company's board of directors amended its 2007 Plan to increase the number of authorized plan shares from 11,475,000 to 18,600,750 shares of common stock. This increase was approved by the Company's stockholders in October 2010. Concurrent with the amendment of the 2007 Plan, in September 2010 the board of directors granted stock options to employees, non-employee board members and consultants for an aggregate of 15,577,000 shares of the Company's common stock. The stock options have an exercise price of $0.15 per share. In establishing the exercise price, the board of directors relied partly on a valuation that concluded as of August 31, 2010 the value of the Company's common stock was $0.15 per share.

These stock options may be exercised only upon the completion of an initial public offering prior to December 31, 2012. If the Company's initial public offering is not completed prior to December 31, 2012, then the options automatically cancel in accordance with their terms. The stock options have a 10-year term, and the option shares vest according to one of the following four schedules:

(i) 75% of the option shares vest on the date of grant, and the remaining 25% of the option shares vest in equal successive monthly installments upon the optionee's completion of each month of service over the 12 month period following the date of grant;

(ii) 50% of the option shares vest on the date of grant, and the remaining 50% of the option shares vest in equal successive monthly installments upon the optionee's completion of each month of service over the 24 month period following the date of grant;

(iii) 25% of the option shares vest upon the optionee's completion of one year of service to the Company measured from the date of grant, and the remaining 75% of the option shares vest in equal successive monthly installments upon the optionee's completion of each month of service over the 36 month period following the first anniversary of the date of grant; or

(iv) 50% of the option shares vest on the first anniversary of the closing of the Company's initial public offering provided that the optionee remains in service to the Company for such first year and, the remaining 50% of the option shares vest on the second anniversary of the closing of the Company's initial public offering provided that the optionee remains in service to the Company over such second year. Upon a change in control of the Company, as defined in the 2007 Plan, 100% of the shares underlying each of these options shall become vested and exercisable immediately prior to such change in control.

The following table summarizes the Company's stock option activity and related information for the period from January 1, 2010 to September 30, 2010:

Expired	(22,109)	0.17
Outstanding at September 30, 2010	16,176,969	$ 0.15

As of September 30, 2010, $1.7 million of total unrecognized compensation cost related to non-vested stock options is expected to be recognized over the respective vesting terms of each award. The expenses associated with the options granted in September 2010, as described above, have been deferred until the successful completion of the initial public offering. The weighted average term of the unrecognized share-based compensation is 2.9 years. The weighted average fair value of the options granted during the nine months ended September 30, 2010 was $0.10 per share.

The fair values of each option grant in 2010 and 2009 were estimated using the Black-Scholes option pricing model with the following weighted average assumptions:

8. **SUBSEQUENT EVENTS**

The Company has evaluated events through December 3, 2010, the date at which the interim unaudited condensed consolidated financial statements were available to be issued.

Hercules Credit Facility

On November 24, 2010, the Company entered into a $26.25 million credit facility with Hercules Technology Growth Capital, Inc. and Hercules Technology III, L.P., as lenders (the "Hercules Credit Facility"). At the closing of the Hercules Credit Facility, the Company entered into a term loan in the aggregate principal amount of $26.25 million, which was the full amount available under the Hercules Credit Facility. As of November 30, 2010, the entire term loan of $26.25 million was outstanding. The term loan under the Hercules Credit Facility is comprised of two tranches, Tranche A and Tranche B. The Tranche A portion of the term loan is comprised of $11.25 million in principal and carries a floating per annum interest rate equal to 10.25% plus the amount, if any, by which the prime rate exceeds 4.00%. Upon the release of the investors' guaranty (described below), the interest rate on the Tranche A portion of the term loan will increase to a floating per annum interest rate equal to 11.00% plus the amount, if any, by which the prime rate exceeds 4.00%. The Tranche B portion of the term loan is comprised of $15.0 million in principal and carries a floating per annum interest rate equal to 12.65% plus the amount, if any, by which the prime rate exceeds 4.00%. As of November 30, 2010, the interest rate on the Tranche A portion was 10.25% and on the Tranche B portion was 12.65%. Interest on the term loan is payable monthly. If there is an event of default under the Hercules Credit Facility, the Company will be obligated to pay interest at a higher default rate. The proceeds of the term loan under the Hercules Credit Facility have been used to repay the GECC Credit Facility in full and will be used for other general corporate purposes.

As further consideration to the lenders to provide the term loan to the Company under the Hercules Credit Facility, the Company issued to the lenders a warrant to purchase 1,925,000 shares of the Company's Series A convertible preferred stock. If after the closing date of the Hercules Credit Facility and prior to the completion of the Company's proposed initial public offering, the Company issues equity securities in a private placement then

the lenders may, at their option, exercise the warrant for the same class and type of equity securities that the Company issues in such private placement in lieu of Series A convertible preferred stock. The exercise price for the shares to be issued under the warrant is equal to $1.25 per share or the price per share paid in the next private placement. The warrant shall be valid from the date of issuance until the earlier to occur of ten (10) years from the date of issuance or five (5) years following the effective date of the registration statement of which this prospectus is a part.

The Hercules Credit Facility provides for an "interest only period" when no principal amounts are due and payable. The interest only period runs initially from November 24, 2010 through August 31, 2011, but can be extended, at the Company's request, to either November 30, 2011 or February 28, 2012 if certain conditions are satisfied. Following the end of the interest only period, the term loan is to be repaid in 33 equal monthly installments of principal and interest beginning on the first business day after the month in which the interest only period ends. Amounts repaid may not be re-borrowed. The Company can, at any time, prepay all or any part of the term loan provided that so long as the investors' guaranty (as described below) is in effect, the Company cannot prepay any part of the Tranche A portion of the term loan without the lenders' consent if any of the Tranche B portion is outstanding. If the investors' guaranty is not in effect, then any prepayments are to be applied pro rata across the outstanding balance of both portions of the term loan. In connection with any prepayments of the term loan under the Hercules Credit Facility, the Company is required to pay, in addition to all principal and accrued and unpaid interest on such term loan, a prepayment charge equal to 1.25% of the principal amount being prepaid. In addition, there is an end of term charge that is payable to the lenders upon the earliest to occur of the maturity date, the prepayment in full of the Company's obligations under the Hercules Credit Facility and the acceleration of the Company's obligations under the Hercules Credit Facility.

The Hercules Credit Facility is secured by a first priority lien on all of the Company's assets other than the assets that secure the Company's obligations under the Amended and Restated Royalty Interests Assignment Agreement (as described below). In addition, the Hercules Credit Facility is guaranteed by certain of the Company's investors (other than entities affiliated with HBM) on a several and not joint basis, which guarantee is limited to each investor's pro rata portion of the outstanding principal and accrued and unpaid interest under the Hercules Credit Facility, but in no event exceeding $11.25 million in the aggregate. The Hercules loan agreement, provides that upon the occurrence of certain circumstances and upon the Company's request, the investors' guarantee may be terminated and released.

The Hercules loan and security agreement also contains a provision that entitles the lenders to, subject to applicable securities laws and regulatory requirements, a limited right to participate in any equity financings that occur between the closing date of the Hercules Credit Facility and the completion of the Company's proposed initial public offering.

The Hercules loan and security agreement contains events of default including payment default, default arising from the breach of the provisions of the Hercules loan and security agreement and related documents (including the occurrence of certain changes in control, including if the Company's chief executive officer ceases under certain conditions to be involved in the daily operations or management of the business, or if certain holders of the Company's capital stock cease to retain, after the consummation of certain corporate transactions, shares representing more than 50% of the surviving entity after such transactions (provided that the Company's initial public offering shall not constitute such a change in control)) or the inaccuracy of representations and warranties contained in the loan and security agreement, attachment default, bankruptcy and insolvency, cross-default with respect to certain other indebtedness (including certain events under the Amended and Restated Royalty Interests Assignment Agreement), breach of the terms of any guarantee (including the investors' guarantee) of the Hercules Credit Facility, the occurrence of a material adverse effect (as defined in the Hercules loan and security agreement).

The occurrence of an event of default under the Hercules Credit Facility could trigger the acceleration of the Company's obligations under the Hercules Credit Facility or allow the lenders to exercise other rights and remedies, including rights against the Company's assets that secure the Hercules Credit Facility and rights under guarantees provided to support the obligations under the Hercules Credit Facility.

The Hercules loan and security agreement contains a number of affirmative and restrictive covenants, including reporting requirements and other collateral limitations, certain limitations on liens and indebtedness, dispositions, mergers and acquisitions, restricted payments and investments, corporate changes and waivers and amendments to certain agreements, the Company's organizational documents, and documents relating to debt that is subordinate to the Company's obligations under the Hercules Credit Facility.

In connection with entering into the Hercules Credit Facility, the maturity dates of the 2009 Convertible Notes, the 2009 Secured Notes and the 2010 Secured Notes were extended to the earliest of (1) a sale of the Company, (2) the date which is 30 days after the last day of the month that is 33 months after the expiration of the "interest only period" under the Hercules Credit Facility (as described above) and (3) 91 days after the date that all obligations under the Hercules Credit Facility are paid in full and the Hercules Credit Facility is terminated.

In connection with entering into the Hercules Credit Facility, the holders of the 2009 Convertible Notes entered into a subordination and intercreditor agreement with the lenders under the Hercules Credit Facility pursuant to which the 2009 Convertible Notes were subordinated to the Hercules Credit Facility. The holders of the 2009 Convertible Notes previously entered into a separate intercreditor agreement with the holders of the 2009 Secured Notes and the 2010 Secured Notes pursuant to which the 2009 Convertible Notes were subordinated to the 2009 Secured Notes and the 2010 Secured Notes, and the holders of the 2009 Secured Notes agreed to share payments pro rata with the holders of the 2010 Secured Notes.

Our restated certificate of incorporation that will become effective upon the completion of this offering provides that no director of the Registrant shall be personally liable to it or its stockholders for monetary damages for any breach of fiduciary duty as director, notwithstanding any provision of law imposing such liability, except to the extent that the General Corporation Law of the State of Delaware prohibits the elimination or limitation of liability of directors for breaches of fiduciary duty.

Section 145 of the General Corporation Law of the State of Delaware provides that a corporation has the power to indemnify a director, officer, employee, or agent of the corporation and certain other persons serving at the request of the corporation in related capacities against expenses (including attorneys' fees), judgments, fines and amounts paid in settlements actually and reasonably incurred by the person in connection with an action, suit or proceeding to which he is or is threatened to be made a party by reason of such position, if such person acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the corporation, and, in any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful, except that, in the case of actions brought by or in the right of the corporation, no indemnification shall be made with respect to any claim, issue or matter as to which such person shall have been adjudged to be liable to the corporation unless and only to the extent that the Court of Chancery or other adjudicating court determines that, despite the adjudication of liability but in view of all of the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the Court of Chancery or such other court shall deem proper.

Our restated certificate of incorporation provides that we will indemnify each person who was or is a party or threatened to be made a party to any threatened, pending or completed action, suit or proceeding (other than an

action by or in the right of Pacira) by reason of the fact that he or she is or was, or has agreed to become, a director or officer of Pacira, or is or was serving, or has agreed to serve, at our request as a director, officer, partner, employee or trustee of, or in a similar capacity with, another corporation, partnership, joint venture, trust or other enterprise (all such persons being referred to as an "Indemnitee"), or by reason of any action alleged to have been taken or omitted in such capacity, against all expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred in connection with such action, suit or proceeding and any appeal therefrom, if such Indemnitee acted in good faith and in a manner he or she reasonably believed to be in, or not opposed to, our best interests, and, with respect to any criminal action or proceeding, he or she had no reasonable cause to believe his or her conduct was unlawful. Our restated certificate of incorporation provides that we will indemnify any Indemnitee who was or is a party to an action or suit by or in the right of Pacira to procure a judgment in our favor by reason of the fact that the Indemnitee is or was, or has agreed to become, a director or officer of Pacira, or is or was serving, or has agreed to serve, at our request as a director, officer, partner, employee or trustee or, or in a similar capacity with, another corporation, partnership, joint venture, trust or other enterprise, or by reason of any action alleged to have been taken or omitted in such capacity, against all expenses (including attorneys' fees) and, to the extent permitted by law, amounts paid in settlement actually and reasonably incurred in connection with such action, suit or proceeding, and any appeal therefrom, if the Indemnitee acted in good faith and in a manner he or she reasonably believed to be in, or not opposed to, the best interests of Pacira, except that no indemnification shall be made with respect to any claim, issue or matter as to which such person shall have been adjudged to be liable to us, unless a court determines that, despite such adjudication but in view of all of the circumstances, he or she is entitled to indemnification of such expenses. Notwithstanding the foregoing, to the extent that any Indemnitee has been successful, on the merits or otherwise, he or she will be indemnified by us against all expenses (including attorneys' fees) actually and reasonably incurred in connection therewith. Expenses must be advanced to an Indemnitee under certain circumstances.

We intend to enter into indemnification agreements with each of our directors and our executive officers. These indemnification agreements may require us, among other things, to indemnify our directors and executive officers for some expenses, including attorneys' fees, judgments, fines and settlement amounts incurred by a director or executive officer in any action or proceeding arising out of his service as one of our directors or executive officers, or any of our subsidiaries or any other company or enterprise to which the person provides services at our request.

We maintain a general liability insurance policy that covers certain liabilities of directors and officers of our corporation arising out of claims based on acts or omissions in their capacities as directors or officers.

In the underwriting agreement we enter into in connection with the sale of common stock being registered hereby, the underwriters will agree to indemnify, under certain conditions, us, our directors, our officers and persons who control us with the meaning of the Securities Act of 1933, as amended, against certain liabilities.

Item 16. Exhibits

The exhibits to the registration statement are listed in the Exhibit Index to this registration statement and are incorporated by reference herein.

Item 17. Undertakings

The undersigned registrant hereby undertakes to provide to the underwriters at the closing specified in the underwriting agreement, certificates in such denominations and registered in such names as required by the underwriters to permit prompt delivery to each purchaser.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that, in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

The undersigned registrant hereby undertakes that:

(1) For purposes of determining any liability under the Securities Act of 1933, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a

form of prospectus filed by the registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this registration statement as of the time it was declared effective.

(2) For purposes of determining any liability under the Securities Act of 1933, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) For the purpose of determining liability under the Securities Act of 1933 to any purchaser, each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.

(4) For the purpose of determining liability of the registrant under the Securities Act of 1933 to any purchaser in the initial distribution of the securities, in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

(i) Any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;

(ii) Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;

(iii) The portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and

(iv) Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

produced, to make, have made, to manufacture, have manufactured for it, to use and/or to sell, rent or lease the apparatus, products, techniques, methods, processes, advances, developments, and inventions employing the Assigned Proprietary Property throughout the world. Except as provided herein, no other, further, or different property or rights are hereby assigned or granted, either expressly or by implication.

2.2 DepoTech shall give to RDF written notice of licenses to others, and RDF shall be a third party beneficiary of each such license.

ARTICLE III

Improvements, Patents and Publication

3.1 DepoTech agrees, at DepoTech's expense, to timely file patent applications relating to the Proprietary Property in the territories listed on Exhibit 2 hereto (except to the extent such applications have previously been filed by RDF).

3.2 DepoTech further agrees to use its best efforts to prosecute such patent applications and to maintain any patents issued thereon. Notwithstanding the foregoing sentence, in the event that DepoTech reasonably determines that prosecution or maintenance of a patent in a particular territory is not economically viable, DepoTech shall promptly notify RDF of DepoTech's intention to abandon such patent application or patent. Upon receipt of such notice, RDF, in its sole discretion, may elect to assume responsibility (and to pay associated fees and expenses) with respect to a patent application or patent which DepoTech intends to abandon. If RDF elects to assume responsibility for a patent application or patent which DepoTech intends to abandon, DepoTech shall assign such patent application or patent to RDF. RDF may, in its sole discretion, abandon any patent application or patent for which it has previously assumed responsibility and will not be liable to DepoTech in any way for such abandonment.

3.3 Consistent with the definitions contained in Article I, RDF agrees to make available promptly to DepoTech during the term of this Agreement any Improvements now or hereafter found, owned, or controlled by RDF, and to submit to DepoTech all available Know-How pertaining thereto. Such Improvements in or to the Assigned Proprietary Property and the corresponding rights throughout the world in patents or copyrights shall be included in the Assigned Proprietary Property which is assigned to DepoTech pursuant to Article II upon the same terms and conditions set forth in this Agreement.

3.4 DepoTech shall reasonably, promptly submit to RDF during the term of this Agreement all available information and Know-How on any Improvements, whether patentable, copyrightable or not, now or hereafter found, discovered, invented, owned, or controlled by DepoTech.

3.5 Any Improvements, whether patentable, copyrightable or not, now or hereafter made and conceived by agents or employees of DepoTech, either independently or jointly with others, shall to the extent of DepoTech's rights therein be considered as part of the Assigned Proprietary Property. The world-wide rights in the corresponding patents, patent applications, copyrights and/or Know-How shall be the property of DepoTech subject to all the terms and conditions of this Agreement. RDF shall reimburse DepoTech for the salaries, costs and expenses DepoTech incurs directly (excluding indirect overhead) in conceiving, developing and reducing to practice Improvements included in the Assigned Proprietary Property that are subject to this Section wherein ownership is vested in DepoTech. Said reimbursement shall be effectuated by DepoTech retaining [**] percent ([**]%) of the royalties and payments resulting from such Improvements due and payable to RDF pursuant to Article IV. The total amount to be reimbursed hereunderfor all Improvements subject to this Section shall not exceed the amount of $[**].

3.6 If patentable or otherwise protectable Improvements are now or hereafter made and conceived by agents or employees of DepoTech or RDF, either independently or jointly with others, and DepoTech, at its sole discretion, considers it desirable to obtain patent, copyright, or other protection thereon, RDF agrees to cooperate fully and to do all proper things necessary or desirable to obtain and maintain patent, copyright or other protection therefor throughout the world, all at DepoTech's expense.

3.7 Notwithstanding the provisions in Section 3.6 above, if DepoTech fails to file an application for patent or other protection therefor within six (6) months after receipt of a written request from RDF to do so, DepoTech shall be deemed to have consented to RDF obtaining and maintaining the necessary protection therefor at RDF's expense, in which event all right, title and interest in such Improvements shall be the property of RDF, subject to: (i) DepoTech's right to open negotiations with RDF for a license back to DepoTech of such Improvements, and (ii) a right of first refusal on the part of DepoTech. The right of first refusal provided by this Section is exercisable as follows: if a license of all or a part of RDF's interest in Improvements acquired under this Section is to be offered to any party not under the exclusive control of RDF (hereafter, a "third party"), or if RDF receives an offer from a third party for a license of such Improvements by RDF, then RDF shall notify DepoTech in writing of its intent to make or consider the offer and of the terms of the offer.

DepoTech shall then have a period of ninety (90) days from its receipt of the notice to respond thereto with an offer of terms for the license of the Improvements to DepoTech, which offer will be considered with good business judgment by RDF. Any competing offer made by or to RDF prior to the expiration of the ninety (90) day period will not be available for acceptance until (a) the expiration of the ninety (90) day period, and (b) RDF's consideration of, and response to, any offer made by DepoTech. The filing and prosecuting of the United States patent applications by DepoTech or RDF, at DepoTech's expense, shall in no case go beyond an appeal to and a decision by the United States Patent and Trademark Board of Appeals or the highest administrative patent authority in any other territory, unless DepoTech specifically agrees to further proceedings in writing. RDF may pursue further proceedings at its expense without the written authorization of DepoTech.

3.8 If either DepoTech or RDF files patent applications or otherwise obtains patent rights or copyrights which relate to the Assigned Proprietary Property, such patent application, patent rights or copyrights shall be included in the Assigned Proprietary Property, and DepoTech shall have exclusive worldwide rights thereto under the terms and conditions as set forth in this Agreement.

ARTICLE IV

Royalties

4.1 As consideration for granting of the assignment herein by RDF, DepoTech shall pay RDF during the term of this Agreement an earned royalty of [**] percent ([**]%) on Gross Revenues.

4.2 Only one royalty shall be payable on a Product, regardless of the number of Assigned Applications and Assigned Patents of the Assigned Proprietary Property under which such Product has been manufactured, used or sold. In those cases where a Product is sold as a part of an article which includes additional materials or components, the production of which does not use the inventions, processes or methods of the Assigned Proprietary Property, the Gross Revenues shall be based on the sales price at which DepoTech would sell the Product or services with respect to Product independently of such other materials or components in an arm's length transaction.

4.3 Royalty payments, as provided in Section 4.1 of this Agreement, to be paid hereunder, shall be paid for a period extending from the first commercial revenue actually collected by DepoTech for the life of the last to expire of the patents or patent applications, of the Assigned Proprietary Property. Royalty payments shall cease for any patent which has been declared invalid by a final determination or judgment, or if this Agreement is terminated as hereinafter specified and provided.

4.4 DepoTech will pay to RDF [**] percent ([**]%) of the royalties or other consideration received from licensees with respect to the license of the Assigned Proprietary Property or the amount of royalty DepoTech would have owed pursuant to Section 4.1 had it engaged in the same conduct as said licensees, whichever is greater.

4.5 Wherever this Agreement provides that DepoTech may deduct expenses, payments or other amounts from royalties payable to RDF, (a) such deduction shall be applied only against royalties received from the territory with respect to which such deduction arose, and (b) such deduction shall be prorated over such time as is necessary to assure that the royalties payable to RDF from such territory in any period shall not be reduced by more than [**] percent ([**]%).

ARTICLE V

Payment and Reports

5.1 DepoTech shall notify RDF, in writing, within thirty (30) days of the date of the first commercial making, use, sale, or production employing the Assigned Proprietary Property.

5.2 DepoTech agrees that beginning with the date of the first commercial making, use, sale, or production of the Assigned Proprietary Property, RDF shall receive within sixty (60) days after the end of each of the first three fiscal quarters and within ninety (90) days after the fiscal year end:

(a) Payment of earned royalties; and

(b) A report showing the information and basis on which the earned royalties have been calculated.

5.3 All royalties payable by DepoTech shall be paid in U.S. Dollars. Conversion from currencies other than U.S. Dollars shall be at the rate of exchange used by DepoTech for its general accounting purposes, consistent with generally accepted accounting principles.

5.4 Until such time as royalties become payable pursuant to this Agreement, DepoTech agrees to make an annual report to RDF each April covering DepoTech's progress during the previous calendar year with respect to research, development and commercialization of the Assigned Proprietary Property.

5.5 DepoTech also agrees to make a written report to RDF within ninety (90) days after the termination of this Agreement, stating in such report the royalties payable hereunder, the basis therefor, and the reason not previously reported and paid to RDF. DepoTech shall also continue to make annual reports pursuant to the provisions of this Agreement covering sales, uses, or production and the applicable earned royalties hereunderfor Assigned Proprietary Property and Products produced, during the term of this Agreement, but not sold or used until after termination thereof, until such time as all such reportable sales, uses, making, or production shall have terminated. Concurrent with the submittal of each post-termination report, DepoTech shall pay RDF all applicable royalties.

5.6 DepoTech shall keep full, true, clear and accurate records and books of account with respect to the Assigned Proprietary Property subject to royalty. Said records and books of account shall be kept by DepoTech at the usual places where their like records and books are kept and shall be retained for a period of five (5) years following the end of the calendar year to which they pertain. RDF shall have the right through its designated representatives to examine and audit, at a reasonable time, all such records and books of account and such other records and accounts as may under recognized accounting practices contain information bearing upon the

amount of royalty payable to it under this Agreement. Prompt adjustment shall be made by the proper party to compensate for any errors or omissions disclosed by such examination or audit. Neither such right to examine and audit nor the right to receive such adjustment shall be affected by any statement to the contrary appearing on checks or otherwise, unless such statements appear in a letter, signed by the party having such right and delivered to the other party, expressly waiving such right. Notwithstanding the foregoing, RDF may require DepoTech to furnish any other information reasonably requested to enable RDF to evaluate DepoTech's performance under this Agreement. Information obtained by RDF or its designated representative, pursuant to this paragraph 5.6, shall be treated as confidential and not disclosed to third parties, except to the extent necessary to enforce this Agreement or to prepare accounting and financial records and reports of RDF.

5.7 Royalty payments provided for in this Agreement shall, when overdue, bear interest at the then existing prime rate at Citibank of New York plus [**] percent ([**]%) per annum until paid, but in no event shall such interest exceed the usury limit as it exists from time to time in the State of Nevada.

ARTICLE VI

Effort to Commercialize

6.1 DepoTech shall undertake to use its best efforts with regard to commercialization of the Assigned Proprietary Property. DepoTech shall be considered to have utilized its best efforts if it pays to RDF within ninety (90) days after calendar year end the amounts specified below. Such payments shall begin with the calendar year in which occurs the date (the "Beginning Date") of the earlier of (a) FDA approval of the Product, or (b) the first commercial sale by DepoTech or a licensee of the Product:

(a) For calendar year of Beginning Date, at least $[**].

(b) For first calendar year after Beginning Date, at least $[**].

(c) For second calendar year after Beginning Date, at least $[**].

(d) For each succeeding calendar year, at least $[**].

The amounts paid may be earned royalties, payments attributable to licensing, or advances to be credited against future royalties payable by DepoTech to RDF.

6.2 In the event DepoTech shall fail to meet the requirements for commercialization set forth in Section 6.1 of this Article, RDF, in its sole discretion, may either convert this Agreement into a non-exclusive license agreement or terminate this Agreement pursuant to the provisions of Article IX.

ARTICLE VII

Protection of Patents

7.1 DepoTech agrees where economically justified and within reasonable limits to protect the patent and/or Know-How of the Assigned Proprietary Property from infringement or misappropriation by third parties and to prosecute such infringers or defendants, but the decision to undertake such protection shall be in the sole discretion of DepoTech. DepoTech shall be entitled to deduct all its non-reimbursed expenses, including costs and legal fees incurred in bringing and prosecuting such infringement or misappropriation action, from royalties due RDF after commencement of such infringement or misappropriation action. In the event DepoTech desires to settle or compromise such suit or action in a manner that adversely impacts RDF or the Assigned Proprietary Property, DepoTech shall not so settle or compromise such suit or action without the written consent of RDF. In the event that DepoTech shall recover profits and/or damages from said infringer or defendant, DepoTech agrees to turn over to RDF [**] percent ([**]%) of any amounts paid to it by said infringer or defendant after deducting any of its expenses, including costs and legal fees incurred in such litigation, which DepoTech has not previously deducted from royalties payable to RDF.

7.2 RDF and DepoTech shall each give immediate written notice to the other of any infringement of a patent or misappropriation of Know-How of the Assigned Proprietary Property by any third party as may come to its knowledge. Notwithstanding Section 7.1, if DepoTech has not within six (6) months from the date on which it is notified or otherwise becomes aware of an infringement or misappropriation either terminated such infringement or initiated legal action against the infringer or defendant, it shall, upon written request of RDF, grant to RDF the right to prosecute an action against the infringer or defendant. DepoTech agrees, in the event that RDF

cannot prosecute such infringement or misappropriation in its own name, to sign and give to RDF, as soon as practicable, all necessary documents in order for RDF to prosecute in the name of DepoTech, such infringement or misappropriation. In the event RDF shall recover profits and/or damages from said infringer or defendant, RDF agrees to turn over to DepoTech [**] percent ([**]%) of any amounts paid to it by said infringer or defendant after deducting any of its expenses, including costs and legal fees, incurred in such litigation.

7.3 DepoTech shall promptly advise RDF in writing of any notice or claim of any infringement and of the commencement against it of any suit or action for infringement of a third party patent made or brought against DepoTech and based upon the use hereunder by DepoTech of the Assigned Proprietary Property. RDF shall have the right either to:

(a) Request that DepoTech enter into negotiations with such third party to obtain rights under the third party patent; or

(b) Request that DepoTech defend such suit or action at DepoTech's expense.

7.4 DepoTech is neither obligated to enter into negotiations with such third party to obtain rights under the third party patent nor obligated to defend such suit or action. If DepoTech, at its sole discretion, elects to enter into negotiations with such third party to obtain rights under the third party patent, or if DepoTech, at its sole discretion, elects to undertake at its own expense the defense of any such suit or action to the extent that the alleged infringement is based upon such use hereunder of the Assigned Proprietary Property, RDF shall render DepoTech all reasonable assistance that may be required by DepoTech in the negotiations or in the defense of such suit or action. DepoTech has the primary right to control the defense of any such suit or action by counsel of its own choice, and RDF shall have the right, at its own expense, to be represented in any such suit or action in respect of which RDF is a defendant by

counsel of its own choice, subject to DepoTech's right of control. Notwithstanding the foregoing, if DepoTech has not within ninety (90) days (or such lesser period of time as is necessary to avoid entry of a default judgment against DepoTech or RDF) from the date of receipt of a request from RDF under Section 7.3 either entered into negotiations with such third party to obtain rights under the third party patent or initiated legal action to defend such suit, it shall, upon written request of RDF, grant to RDF the right to enter such negotiations or defend such suit. DepoTech shall be entitled to deduct all its expenses, including costs and legal fees, incurred in entering into such negotiations or defending such suit from royalties due RDF after commencement of such action. In the event DepoTech desires to settle or compromise any such suit or action in a manner that adversely impacts RDF or the Assigned Proprietary Property, DepoTech shall not settle or compromise any such suit or action without the written consent of RDF, which consent shall not be unreasonably withheld.

7.5 In negotiating with such third party to obtain rights under such third party patents, and if, in obtaining such rights, DepoTech is required to make any payment to such third party, DepoTech shall be entitled to deduct such payment from the royalty payable to RDF.

ARTICLE VIII

Disclaimer of Liability and/or Warranty

8.1 Notwithstanding provisions in Article VII of this Agreement, nothing in this Agreement shall be construed as:

(a) a warranty or representation by RDF as to the validity or scope of any Assigned Proprietary Property; or

(b) a warranty or representation that anything sold, used, produced or otherwise disposed of under any assignment or license granted in this Agreement is or will be free from infringement of patents, copyrights, and/or trademarks of third parties; or

(c) an express or implied warranty of merchantability or fitness for a particular purpose.

8.2 RDF shall exercise reasonable care in verifying the accuracy of information provided under this Agreement, but RDF shall not be liable for any damages arising out of or resulting from any information made available hereunder or of the use thereof, nor shall it be liable to DepoTech for consequential damages under any circumstances.

8.3 RDF shall have no responsibility for the ability of DepoTech to use such information, the quality or performance of any process or any product produced by DepoTech with the aid of such information or with respect to claims of third parties arising from DepoTech's use of such information.

8.4 DepoTech shall assume all responsibility and liability for the sale, use, production, and/or commercialization of the Assigned Proprietary Property, including, but not limited to, the safety, effectiveness, and reliability of the process and/or products produced pursuant to this Agreement. DepoTech further agrees to defend, indemnify, and hold RDF, its trustees, directors, officers, employees, agents, representatives, successors, assigns and affiliated entities, harmless from and against any and all liability, demands, damages, expenses and losses for death, personal injury, illness, or property damage, including the cost of defense against same, which may be asserted, or any claims which may arise from the sale, use, production, commercialization, or other disposition of the Assigned Proprietary Property. DepoTech acknowledges that the Assigned Proprietary Property hereby is experimental and agrees to take all reasonable precautions to prevent death, personal injury, illness, and property damage.

8.5 DepoTech agrees to purchase and/or maintain insurance coverage sufficient, taking into account its other assets, to establish the ability of DepoTech to honor the indemnity made in Section 8.4 and shall name RDF as an additional named insured on such policy.

ARTICLE IX

Term and Termination

9.1 The term of this Agreement shall be for the life of the last to expire of the patents or patent applications of the Assigned Proprietary Property, whichever is later, unless sooner terminated as herein provided.

9.2 If DepoTech shall determine that it intends to declare itself insolvent or file for bankruptcy or reorganization, it shall give ten (10) days' written notice to RDF. Notwithstanding the above, if DepoTech shall become bankrupt or insolvent; if the business or any assets or property of DepoTech shall be placed in the hands of a receiver, assignee or trustee, whether by the voluntary act of DepoTech or otherwise; if DepoTech institutes or suffers to be instituted any procedure in bankruptcy court for reorganization or rearrangement of its financial affairs; or if DepoTech makes a general assignment for the benefit of creditors, this Agreement shall immediately terminate, and DepoTech shall reassign to RDF all right, title, and interest in the Assigned Proprietary Property, unless such bankruptcy, insolvency, receivership or assignment for the benefit of creditors shall have been cured within thirty (30) days of such event occurring. Upon occurrence of any of the foregoing events, DepoTech shall give immediate written notice thereof to RDF.

9.3 Upon any material breach or material default under this Agreement by DepoTech, RDF may give written notice thereof to DepoTech, and DepoTech shall have ninety (90) days after such notice to cure such breach or default. If such breach or default is not so cured, RDF may then in its sole discretion and option (a) convert this Agreement into a non-exclusive license agreement, or (b) terminate this Agreement whereupon DepoTech shall reassign to RDF the Assigned Proprietary Property or (c) seek such other relief as may be provided by law in such circumstances by giving written notice thereof to DepoTech.

9.4 If DepoTech contests or assists another in contesting the validity of any of the patents assigned hereunder in a court of competent jurisdiction, RDF shall have the right to terminate this Agreement, whereupon DepoTech shall reassign to RDF the Assigned Proprietary Property.

9.5 Upon termination of this Agreement by reason of any breach or default of DepoTech, DepoTech agrees to discontinue the commercialization of the Assigned Proprietary Property, except for the sale of goods on hand.

9.6 Upon termination hereof for any reason, the licenses to third parties by DepoTech under the terms and conditions herein set forth shall remain in effect in accordance with the terms thereof, and DepoTech shall assign such Agreements to RDF.

ARTICLE X

Representations and Warranties

10.1 RDF represents and warrants that it owns the Assigned Proprietary Property and has the legal power and authority to extend the rights granted to DepoTech pursuant to this Agreement and has not assigned, licensed, pledged or compromised the Assigned Proprietary Property or made any commitments or offers inconsistent with or in derogation of the rights created by this Agreement.

10.2 RDF represents and warrants that it has no knowledge of any information likely to have a material effect on the validity or enforceability of any Assigned Patent or any claim thereof which was not disclosed to the Patent Office at the time that the Patent Applications for the technology set forth on Exhibit 1 hereto were filed or during the pendency of said applications.

10.3 DepoTech represents and warrants that it has full power and authority to enter into this Agreement and to carry out the transactions contemplated hereby.

10.4 DepoTech represents and warrants that it has no knowledge of any third party patent that would present a question of infringement with respect to Products.

ARTICLE XI

Agency/Partnership

11.1 Neither party shall be deemed to be an agent of the other party as a result of any transaction under or related to this Agreement, and shall not in any way pledge the other party's credit or incur any obligations on behalf of the other party.

11.2 This Agreement shall not constitute either a partnership or a joint venture, and neither party may be bound by the other to any contract, arrangement or understanding except as specifically stated herein.

11.3 Except as required by state or federal law, and subject to an exception for private and confidential discussions between DepoTech and potential corporate partners or licensees, DepoTech (including any affiliate or licensee of DepoTech) shall not, without prior written consent obtained from RDF, use for purposes of sales, advertising, marketing, marking of goods, promotion to investors, press releases or other publicity, etc.: (i) the name of (or any other information which would identify) RDF or any corporation which is controlled by the same persons who control RDF ("controlled corporation"); (ii) the names of trustees, directors, officers, or employees of RDF or a controlled corporation; or (iii) any trademarks (or adaptations thereof) of RDF or a controlled corporation.

ARTICLE XII

Marking

DepoTech agrees to apply or have applied to all articles where practical and to all containers containing products manufactured by it under this Agreement such patent notices as may be required by the laws of the territories where manufactured or as may reasonably be requested by RDF.

ARTICLE XIII

Nondisclosure of Confidential Information

13.1 All Proprietary Property and confidential scientific and technical information communicated by either party to the other under this Agreement, including information contained in patent applications, shall be kept confidential by each party, who shall not disclose it to anyone without first receiving the written consent of the other party to do so. Notwithstanding the foregoing, each party shall be relieved of the confidentiality obligations herein and not be prevented by this Agreement from utilizing any information received by it from the other party if:

(a) The information was previously known to such party, but not including what was previously known to the inventors of the Proprietary Property;

(b) The information is or becomes generally available to the public through no fault of such party, including as a result of publications and/or laying open to inspection of any patent applications that RDF may file corresponding to such U.S. or foreign patent applications;

(c) The information is acquired in good faith in the future by such party from a third party who is not under an obligation of confidence to the other party in respect to such information;

(d) The disclosure of such information is essential for the commercial exploitation of the Proprietary Property under this Agreement.

13.2 The agreement of DepoTech to maintain the Proprietary Property as confidential shall survive termination of this Agreement, regardless of the reason for its termination.

ARTICLE XIV

14.3 This Agreement, in whole or in part, shall not be assignable by either party without prior written consent of the other (unless to a successor entity to the assigning party by merger, acquisition or other reorganization), which consent will not be unreasonably withheld, and any attempted assignment without such consent shall be void.

14.4 The failure of either party to enforce at any time any of the provisions of this Agreement, or any rights in respect thereto, or to exercise any election herein provided, shall in no way be considered to be a waiver of such provisions, rights, or elections, or in any way to affect the validity of this Agreement. The exercise by either party of any of its rights herein or any of its elections under the terms or covenants herein shall not preclude either party from exercising the same or any other rights it may have under this Agreement, irrespective of any previous action or proceeding taken by either party hereunder.

14.5 This Agreement shall be governed and construed in accordance with the laws of the State of Nevada, U.S.A.

14.6 If any provision of this Agreement is judicially determined to be void or unenforceable, such provision shall be construed to be severable from the other provisions of this Agreement which shall retain full force and effect.

In lieu of a cash payment for such reimbursement, DepoTech agreed to give RDF a credit note for such amount which can be applied at the option of RDF against:

(a) the "Exercise Price" to be paid by RDF upon exercise of warrants to purchase DepoTech shares pursuant to the Warrant Agreement between the parties dated August 14, 1990; or

(b) royalties earned and payable on Improvements which would otherwise be credited to DepoTech under Section 3.5 of this Agreement; provided that, at any time after three (3) years from the date of this Agreement, RDF, at its option, may require that DepoTech elect to either: (i) pay off the remaining balance of the credit note in cash, or (ii) assign the Proprietary Property back to RDF (subject to an exclusive license back to DepoTech).

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be duly executed in multiple originals by their duly authorized representatives.

Such DepoFoam Technology shall include (a) the Assigned Proprietary Property or Improvements as defined under the 1994 Agreement, and/or (b) existing and future patent or proprietary rights of Skye in DepoFoam Technology whether or not covered by or subject to the Assignment Agreement. For purposes of Skye’s payment, reporting, and indemnification obligations to RDF under the terms of the Assignment Agreement, as hereby amended, the parties agree that: (a) the scope of all relevant terms impacting such obligations contained in the Assignment Agreement (e.g., the definitions of Products, Assigned Proprietary Property, Assigned Applications, Assigned Patents, Improvements, etc.) shall be deemed to include all of. the DepoFoam Technology, and (b) the term of the Assignment Agreement and Skye’s payment, reporting, and indemnification obligations to RDF thereunder, as

Article 2. Payments

Following good faith negotiations between the parties, the parties have agreed that

2.1 SkyePharma will pay to RDF [**]% of Gross Revenues on all Current and Future Agreements

2.2 RDF hereby waives its rights to any and all payments specified in Article 4.4 of the 1994 Agreement, on all Current and Future Agreements except as set out in Article 2.3 and 2.4 of this Agreement

2.3 In respect of Current Agreements it is agreed that the allowed deductions under Article 1.5 a) b) c) and d) shall be as shown in Appendix 1. For the avoidance of doubt the following examples are given:

Article 3. Shares

Within 30 days of the Effective Date of this Agreement, Parent will allot and issue to RDF, credited as fully paid, [**] ordinary shares (the "Shares") of [**] each of parent (representing [**] ADR's) based on a price of $[**] per ADR, equivalent in value to $[**]. In the event that the price of the Parent's ADRs exceeds as of the day prior to the Effective Date of this Agreement $[**] per ADR or is less than $[**] per ADR, both as quoted in the daily price activity report provided to Parent by the Bank of New York then in such event the number of issuable Shares shall be recomputed using instead of the price of $[**] per ADR the average of the daily closing share price of Parent's ADRs as quoted in the daily price activity report provided to Parent by the Bank of New York for the 10 days prior to the Effective Date of this Agreement. 3.1 Selling Restrictions. RDF is acquiring the Shares for its own account for investment purposes only and not with a view to or for distributing or reselling such Shares or any part thereof or interest therein. RDF agrees that if in future it decides to sell or otherwise transfer the Shares, it will do so only in accordance with the terms of this Agreement and (A)(1) to a person whom RDF and any person acting on its behalf reasonably believe is a qualified institutional buyer within the meaning of Rule 144A under the U.S. Securities Act of 1933, as amended (the "Securities Act") purchasing for its own account or for the account of a qualified institutional buyer in a transaction meeting the requirements of Rule 144A, (2) in an offshore transaction in accordance with Rule 903 or Rule 904 of Regulation S under the Securities Act, (3) pursuant to an exemption from registration under the Securities Act provided by Rule 144 thereunder (if available), or (4) pursuant to sales registered under the Securities Act, and (B) in each case, in accordance with all applicable securities laws of the states of the United States.

3.2 Institutional Accredited Investor. RDF is an institution which is an "accredited investor" as that term is defined in Rule 501(a)(3) of Regulation D under the Securities Act (an "Institutional Accredited Investor") and is acquiring the shares for its own account.

3.3 Financial Knowledge, Sophistication and Experience. RDF, either alone or together with its representatives, has such knowledge, sophistication and experience in business and financial matters as to be capable of evaluating the merits and risks of the prospective investment in the shares, and has so evaluated the merits and risks of such investment.

3.4 Ability of RDF to Bear Risk of Investment. RDF is aware that the purchase of the shares involves substantial risk and RDF is able to bear the economic risk of an investment in the shares and is able to afford a complete loss of such investment.

3.5 Access to Information. RDF acknowledges receipt of Parent's Annual Report on Form 20-F for the year ended December 31,2002, which was filed with the U.S. Securities and Exchange Commission (the "SEC") on June 27, 2003, and all of Parent's Reports on Form 6-K furnished to the SEC after such date and further acknowledges that it has been afforded (1) the opportunity to ask such questions as it has deemed necessary of, and to receive answers from, representatives of Parent; (2) access to information (other than material non-public information) about Parent and the Parent's financial condition, results of operations, business, properties, management and prospects that RDF deemed necessary to enable it to evaluate its investment in the shares; and (3) the opportunity to obtain such additional information (other than material non-public information) which Parent possesses or can acquire without unreasonable effort or expense that RDF deemed necessary to make an informed investment decision with respect to the shares.

3.6 Reliance. RDF understands and acknowledges that (1) the shares are being offered and sold to it without registration under the Securities Act and (2) the availability of such exemption depends in part on, and that Parent will rely upon the accuracy and truthfulness of, the foregoing representations and RDF hereby consents to such reliance.

Article 4. Entire Agreement Modification and Waiver

4.1 This Agreement (including the Appendices and attachments hereto) together with the Assignment Agreement (including the Appendices and attachments thereto) set out and constitute the entire understanding, warranties and agreement of the parties. The parties acknowledge that no reliance is placed on any prior agreement, representation or understanding whether written or oral relating to its subject matter. In the event of any conflict between the terms of this Agreement and the terms of the Assignment Agreement, the terms hereof shall control.

4.2 No amendment or waiver of this Agreement or of any right herein shall be deemed effective unless made in writing and agreed to in writing by a duly authorised officer of each of the parties.

4.3 Without RDF's prior written consent, Skye shall not amend any of the Current Agreements in any manner which would adversely affect the amount of consideration to be received by RDF.

Article 5. Governing Law and Jurisdiction

This Agreement is governed by and shall be construed in all respects with the laws of the State of Nevada, U.S.A. applicable to contracts made in such State without regard to conflicts of law doctrines, and the parties agree that jurisdiction and venue for any dispute regarding this Agreement will be in such State.

STOCK PURCHASE AGREEMENT

This Agreement (the "Agreement") is made and entered into as of January 8, 2007 by and among Blue Acquisition Corp., a Delaware corporation ("Buyer"), SkyePharma Holding, Inc. ("Seller"), a Delaware corporation and a wholly owned subsidiary of SkyePharma PLC, a company incorporated under the laws of England and Wales ("Parent"), and SkyePharma, Inc., a California corporation and wholly owned subsidiary of Seller (the " Company").

Recitals

Seller is the direct owner of all issued and outstanding shares of capital stock of the Company (the " Shares"). Buyer desires to purchase, and Seller desires to sell, the Shares for the consideration set forth below, on the terms and subject to the conditions set forth in this Agreement.

In order to induce Buyer to enter into this Agreement and consummate the transactions contemplated hereunder, concurrently herewith, Parent has executed and delivered to Buyer a Parent Guaranty Agreement in the form attached hereto as Exhibit A (the "Parent Guaranty").

In order to induce Seller to enter into this Agreement and consummate the transactions contemplated hereunder, concurrently herewith, Buyer has delivered the Commitment Letters (defined below) naming Seller as a third party beneficiary thereto.

NOW, THEREFORE, in consideration of the premises, and the mutual representations, warranties, covenants and agreements set forth in this Agreement, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, and intending to be legally bound, Buyer, Seller and the Company hereby agree as follows:

ARTICLE I
PURCHASE AND SALE OF THE SHARES

1.1. Purchase of the Shares from Seller. Upon the terms and subject to the conditions set forth in this Agreement, at the Closing, Seller shall sell, transfer, convey, assign and deliver to Buyer, and Buyer shall purchase, acquire and accept from Seller, all of the Shares, free and clear of all Encumbrances. At the Closing, Seller shall deliver to Buyer certificates evidencing all of the Shares duly endorsed in blank or with stock powers duly executed by Seller. Buyer acknowledges and agrees that in acquiring the Shares, Buyer is not acquiring any rights, title or interest in, to and under (i) the names "SkyePharma USA, Inc.," "SkyePharma, Inc.," "SkyePharma," "SkyePharma USA," "Skye, Inc." "Skye," "Skye USA," variations and derivatives thereof and any other logos or trademarks, trade names or service marks of the Company (collectively, the " Names") and (ii) the Excluded Assets (as defined below) of the Company that, pursuant to Section 5.11, are to be transferred from the Company to Seller and/or Affiliates of Seller (other than the Company) prior to the Closing.

1.2. Further Assurances. At any time and from time to time after the Closing, at Buyer's request and without further consideration, Seller shall (and shall cause each of its Affiliates and each of its Affiliates' respective directors, officers and employees to) promptly

execute and deliver such instruments of sale, transfer, conveyance, assignment and confirmation, and take all such other action as Buyer may reasonably request, to transfer, convey and assign to Buyer, and to confirm Buyer's title to, all of the Shares, to put Buyer (through the ownership of the Shares) in effective operating control of the assets, properties and business of the Company, to assist Buyer in exercising all rights with respect thereto, and otherwise to carry out the purpose and intent of this Agreement.

1.3. Purchase Price. The Base Purchase Price to be paid by Buyer to Seller shall be twenty million dollars ($20,000,000), subject to adjustment pursuant to Section 1.5. The Base Purchase Price shall be payable in the manner described in Section 1.4.

1.4. Payment of Base Purchase Price. At the Closing, Buyer shall (a) pay to Seller the Base Purchase Price, minus the Escrow Amount, in cash, by wire transfer of immediately available funds to an account designated by Seller, and (b) deliver to the Escrow Agent the Escrow Amount for deposit into the Escrow Fund, such amount and fund to be held in accordance with the provisions of Sections 1.5 and 5.15 and Article VIII of this Agreement and the Escrow Agreement.

1.5. Post-Closing Adjustments. The Base Purchase Price shall be subject to adjustment after the Closing Date as follows:

(a) Set forth in Column X of the spreadsheet attached in Schedule 1.5(a)(i) is a statement compiling certain asset and liability accounts of the Company as of November 24, 2006 (the "Target Net Assets Statement"). The Target Net Assets Statement was prepared on the same basis as the Most Recent Net Assets Statement, with the eliminations and adjustments set forth in Schedule 6.12 and the further eliminations set forth in Schedule 1.5(a)(ii). The Target Net Assets Statement includes a "net assets value" of the Company of $[**] (the "Net Assets Target"). No later than 5 p.m. Pacific Standard Time on the tenth (10th) business day after the Closing Date, Seller shall deliver to Buyer a compilation of the same asset and liability accounts included in the Target Net Assets Statement, but prepared as of the Closing Date (the "Draft Closing Net Assets Statement"), which shall be prepared by Seller on the same basis as the Most Recent Net Assets Statement, applied on a basis consistent with the past accounting practices of the Company, with the eliminations and adjustment set forth in Schedule 6.12 and the further eliminations set forth in Schedule 1.5(a)(ii). Solely for the avoidance of doubt, neither the Draft Closing Net Assets Statement nor the Final Closing Net Assets Statement will reflect any writedown or fair value adjustment of assets or any provision for liabilities arising from the termination of the Endo Agreement.

(b) Buyer shall deliver to Seller, no later than 6 p.m. Pacific Standard Time on the Objection Deadline Date, either a notice indicating that Buyer accepts the Draft Closing Net Assets Statement or a statement in reasonable detail describing its objections (if any) to the Draft Closing Net Assets Statement and the grounds for such objections (an "Objection Statement"). If Buyer delivers to Seller a notice accepting the Draft Closing Net Assets Statement, or Buyer does not deliver a timely Objection Statement by 6 p.m. Pacific Standard Time on the Objection Deadline Date, then, effective as of either the date of delivery of such notice of acceptance or as of the close of business on the Objection Deadline Date, the Draft Closing Net Assets Statement shall be deemed to be the final compilation of the asset and liability accounts included in the Target Net Assets Statement, measured and calculated as of the Closing Date (the " Final Closing Net Assets Statement"). If Buyer timely objects to the Draft Closing Net Assets Statement, such objections shall be resolved as follows:

(i) Buyer and Seller shall seek in good faith to resolve such objections. Each Party shall provide the other Parties with reasonable access to its records, personnel and supporting documentation relating to the Draft Closing Net Assets Statements and the items giving rise to the Objection Statement until such time as the Final Closing Net Assets Statement is determined.

(ii) If Buyer and Seller do not reach a resolution of all objections set forth in Buyer's Objection Statement within thirty (30) days after delivery of such Objection Statement, Buyer and Seller shall, within thirty (30) days following the expiration of such 30-day period, engage the Accountant, pursuant to an engagement agreement executed by Buyer, Seller and the Accountant, to resolve the Unresolved Objections.

(iii) Buyer and Seller shall jointly submit to the Accountant, within ten (10) days after the date of the engagement of the Accountant (as evidenced by the date of the engagement agreement), a copy of the Draft Closing Net Assets Statement, a copy of the Objection Statement, and a statement setting forth the resolution of any objections agreed to by Buyer and Seller. Each of Buyer and Seller shall submit to the Accountant (with a copy delivered to the other Party on the same day), within thirty (30) days after the date of the engagement of the Accountant, a memorandum (which may include supporting exhibits) setting forth their respective positions on the Unresolved Objections. Each of Buyer and Seller may (but shall not be required to) submit to the Accountant (with a copy delivered to the other Party on the same day), within forty five (45) days after the date of the engagement of the Accountant, a memorandum responding to the initial memorandum submitted to the Accountant by the other Party. Unless requested by the Accountant in writing, neither Party may present any additional information or arguments to the Accountant, either orally or in writing.

(iv) Within ninety (90) days after the date of its engagement hereunder, the Accountant shall determine whether the objections raised by Buyer are appropriate and shall issue a ruling which shall include a compilation of the accounts included (or required to be included) in the Draft Closing Net Assets Statement as adjusted pursuant to any resolutions to objections agreed upon by Buyer and Seller and pursuant to the Accountant's resolution of the Unresolved Objections. Such statement shall be Final Closing Net Assets Statement.

(v) The resolution by the Accountant of the Unresolved Objections shall be conclusive and binding upon Buyer and Seller. Buyer and Seller agree that the procedure set forth in this Section 1.5(b) for resolving disputes with respect to the Draft Closing Net Assets Statement shall be the sole and exclusive method for resolving any such disputes; provided that this provision shall not prohibit either Party from instituting litigation to enforce the procedures and deadlines set forth herein or to enforce rulings of the Accountant.

(vi) Buyer and Seller shall share equally the fees and expenses of the Accountant.

(c) Immediately following the Objection Deadline Date, if a timely Objection Statement is not delivered, or upon notification by Buyer to Seller that no objection to the Draft Closing Net Assets Statement will be made, or immediately upon final resolution of any dispute in connection with the determination of the Final Closing Net Assets Statement pursuant to this Section 1.5, the Adjusted Purchase Price shall be determined as follows:

(d) If the "net assets value" as shown on the Final Closing Net Assets Statement is more than [**] dollars ($[**]) less than "net assets value" as shown in the Target Net Assets Statement, the deficiency in excess of such $[**] amount shall be deducted from the Base Purchase Price to obtain the Adjusted Purchase Price, and shall be paid by Seller to Buyer from the following sources in the following manner and priority: first, by payment in cash to Buyer by the Escrow Agent from the Escrow Fund, to the extent funds are available in the Escrow Fund, and thereafter, by payment in cash to Buyer by Seller, from funds of Seller, to an account designated by Buyer, in each case by wire transfer of immediately available funds within two (2) business days after such determination.

(e) For purposes of implementing the provisions of Section 1.5 and Section 8.1(h), each Party shall have reasonable access, upon request, during normal business hours and with reasonable advance notice, to the books, records and personnel of the other Parties to the extent reasonably relevant to the determination either of the Draft Closing Net Assets Statement and the Final Closing Net Assets Statement and the resolution of any Objection Statement and Unresolved Objections (in the case of Section 1.5) or the Designated Amounts and the invoices submitted as relating thereto (in the case of Section 8.1(h)).

1.6. Escrow Account. The Escrow Amount shall be delivered to the Escrow Agent for deposit into a fund (the " Escrow Fund") that shall be held by the Escrow Agent under the terms of the Escrow Agreement for the purpose of securing the indemnification obligations of Seller pursuant to Article VIII and Section 5.15, any adjustment to the Base Purchase Price pursuant to Section 1.5, and any reimbursement obligation of Parent or Seller with respect to payments under the Stay Incentive Agreements under Section 5.16. The Escrow Fund shall be held as a trust fund and shall not be subject to any lien, attachment, trustee process or any other judicial process of any creditor of any Party, and shall be held and disbursed solely for the purposes and in accordance with the terms of the Escrow Agreement.

1.7. Earn-Out. Following the Closing, the Company shall pay to Seller the amounts set forth in Schedule 1.7, minus any amounts determined to be due to Buyer pursuant to Section 1.5 or Section 5.16, or pursuant to Article VIII or Section 5.15 (only to the extent of the Cap set forth in Section 8.5), and not otherwise paid to Seller before any such amounts on Schedule 1.7 (if any) become payable pursuant to Schedule 1.7.

1.8. The Closing.

(a) The Closing shall take place at the offices of Wilmer Cutler Pickering Hale and Dorr LLP, 1117 California Avenue, Palo Alto, California commencing at 9:00 a.m. Pacific Standard Time on the date within two (2) business days after the satisfaction or waiver of all of the conditions to the obligations of the Parties to consummate the transactions contemplated hereby (excluding the delivery at the Closing of any of the documents set forth in Articles VI and VII), or such other date as may be mutually agreeable to the Parties. The transfer of the Shares by Seller to Buyer shall be deemed to occur at 9:00 a.m. Pacific Standard Time, on the Closing Date.

(b) At the Closing, the following actions shall take place:

(i) Seller shall deliver the agreements, consents, certificates, and other instruments and documents required to be delivered to Buyer pursuant to Article VI, and Buyer shall execute and deliver the agreements, certificates, and other instruments and documents required to be delivered to Seller pursuant to Article VII;

(ii) Seller shall then deliver to Buyer certificates evidencing all of the Shares duly endorsed in blank or with stock powers duly executed by Seller; and

(iii) Buyer shall then pay the amount set forth in Section 1.4(a), in the manner prescribed therein.

1.9. Allocation of Payments. The Adjusted Purchase Price and the "Milestone Payments" pursuant to Section 1.7 and Schedule 1.7 shall be paid as consideration for the Shares and the covenants not to compete set forth in Section 9.3(a)(ii) and Section 9.3(a)(iii); the "DepoBupivacaine Percentage Payments" pursuant to Section 1.7 and Schedule 1.7 shall be paid as consideration for the covenant not to compete set forth in Section 9.3(a)(i); and the "Biologics Products Percentage Payments" pursuant to Section 1.7 and Schedule 1.7 shall be paid as consideration for the covenant not to compete set forth in Section 9.3(a)(iv). The Adjusted Purchase Price and all such Percentage Payments shall be allocated among the Shares and such covenants not to compete in accordance with Schedule 1.9. Unless otherwise required by a Final Determination, the Parties shall report the transactions contemplated by this Agreement in a manner consistent with such allocations.

ARTICLE II
REPRESENTATIONS AND WARRANTIES OF SELLER REGARDING THE SHARES

Seller represents and warrants to Buyer that the statements contained in this Article II are true and correct as of the date of this Agreement and will be true and correct as of the Closing as though made as of the Closing, except to the extent such representations and warranties are specifically made as of a particular date (in which case such representations and warranties will be true and correct as of such date).

2.1. Title. Seller has (and upon consummation of the purchase contemplated hereby, Buyer will acquire from Seller) good and marketable title to the Shares, free and clear of any and all Encumbrances. Section 2.1 of the Seller Disclosure Schedule sets forth a true and correct description of the Shares and all shares of capital stock and other securities of the Company owned, directly or indirectly through any other subsidiary or affiliate, by Seller or which Seller has the right to acquire.

2.2. Authority. Seller has the full right, power and authority to enter into this Agreement and to transfer, convey and sell to Buyer at the Closing the Shares and otherwise to perform and fulfill its obligations under this Agreement and the Ancillary Agreements to which Seller is a party. Each of this Agreement and the Ancillary Agreements to which Seller is party (including the Escrow Agreement) has been duly and validly executed and delivered by Seller and constitutes a valid and binding obligation of Seller, enforceable against Seller in accordance with its terms. The passing of resolutions (i) approving the Agreement by a majority of the shareholders of Parent (on show of hands) or of the number of shares held by the shareholders of Parent (on a duly convened poll), in each case present (on a poll, either in person or by proxy) and voting and (ii) approving matters related to a placing by at least 75% of the shareholders (on show of hands) or of the number of shares (on a duly convened poll), in each case present (on a poll, either in person or by proxy) and voting therewith at a validly convened and held EGM shall operate to approve the transactions contemplated by this Agreement and confer authority on the Parent to complete the transactions contemplated by this Agreement in accordance with the terms of this Agreement and to take all further actions as it may consider expedient for the purposes thereof and is the only approval of Parent's shareholders required for the consummation of the transactions contemplated by this Agreement.

2.3. Regulatory Approvals. Except as set forth in Section 2.3 of the Seller Disclosure Schedule, neither Seller nor Parent is a party to, subject to or bound by any agreement or any judgment, order, writ, prohibition, injunction or decree of any court or other governmental body which would prevent the execution or delivery of this Agreement or any of the Ancillary Agreements by Seller or the transfer, conveyance and sale of the Shares by Seller to Buyer pursuant to the terms hereof.

2.4. Circular. The Circular prepared pursuant to Section 5.3 shall not, either at the time posted or at the time of the EGM or at the Closing, contain any untrue statement of a material fact or omit to state any material fact required to be stated therein or necessary in order to make the statements therein not misleading.

2.5. Brokers. Except for the fees payable in the amounts and to the recipients set forth in Section 2.5 of the Seller Disclosure Schedule (which shall be the sole liability, obligation and responsibility of Parent and Seller and for which neither the Company nor Buyer shall have any liability or obligation), none of Seller, Parent or the Company or any of their Affiliates has any liability or obligation to pay any fees or commissions to any broker, finder or agent with respect to the transactions contemplated by this Agreement.

ARTICLE III
REPRESENTATIONS AND WARRANTIES OF SELLER REGARDING THE COMPANY

Seller hereby represents and warrants to Buyer that, except as set forth in the Seller Disclosure Schedule, the statements contained in this Article III are true and correct as of the date of this Agreement and will be true and correct as of the Closing as though made as of the Closing, except to the extent such representations and warranties are specifically made as of a particular date (in which case such representations and warranties will be true and correct as of such date). The Seller Disclosure Schedule shall be arranged in sections and subsections

corresponding to the numbered and lettered sections and subsections contained in Article II and this Article III. The disclosures in any section or subsection of the Seller Disclosure Schedule shall qualify only the corresponding section or subsection in this Agreement except to the extent that it is clear from a reading of the disclosure that such disclosure is applicable to such other sections or subsections.

3.1. Organization, Qualification and Corporate Power. The Company is a corporation duly organized, validly existing and in good standing under the laws of the State of California. The Company is duly qualified to conduct business and is in corporate and tax good standing under the laws of each jurisdiction listed in Section 3.1 of the Seller Disclosure Schedule, which jurisdictions constitute the only jurisdictions in which the nature of the Company's businesses or the ownership or leasing of its properties requires such qualification, except where the failure to be so qualified or in good standing would not be material to the transactions contemplated by this Agreement. The Company has all requisite corporate power and authority to carry on the businesses in which it is engaged and to own and use the properties owned and used by it. The Company has furnished to Buyer complete and accurate copies of its Certificate of Incorporation and By-laws. The Company is not in default under or in violation of any provision of its Certificate of Incorporation or By-laws.

3.2. Capitalization.

(a) The authorized capital stock of the Company consists of one thousand (1,000) shares of Common Stock, of which one thousand (1,000) shares are issued and outstanding and no shares are held in the treasury of the Company. All of the issued and outstanding shares of capital stock of the Company have been and on the Closing Date will be duly authorized, validly issued, fully paid, nonassessable and free of all preemptive rights. All of the issued and outstanding shares of capital stock of the Company were issued in compliance with all applicable federal and state securities laws.

(b) There are no outstanding or authorized options, warrants, rights, calls, convertible instruments, agreements or commitments to which the Company is a party or which are binding upon the Company providing for the issuance, disposition or acquisition of any of its capital stock. There are no outstanding or authorized stock appreciation, phantom stock or similar rights with respect to the Company. There are no agreements, voting trusts, proxies or understandings with respect to the voting of any shares of capital stock of the Company.

3.3. Authorization of Transaction. Each of Seller and the Company has all requisite power and authority to execute and deliver this Agreement and to perform its obligations under this Agreement and the Ancillary Agreements to which it is a party. The execution and delivery by Seller and the Company of this Agreement and the Ancillary Agreements to which Seller or the Company is a party and the consummation by Seller and the Company of the transactions contemplated by this Agreement and the Ancillary Agreements to which Seller or the Company is a party have been duly and validly authorized by all necessary corporate action on the part of Seller and the Company and has been authorized and approved by Parent. This Agreement has been duly and validly executed and delivered by Seller and the Company and constitutes a valid and binding obligation of Seller and the Company, enforceable against Seller and the Company in accordance with its terms. The passing of a resolution approving the Agreement by a majority

of the shareholders (on show of hands) or of the number of shares (on a duly convened poll), in each case present (on a poll, either in person or by proxy) and voting at a validly convened and held extraordinary general meeting of the shareholders of Parent, shall operate to approve the transactions contemplated by this Agreement and confer authority on the Parent to complete the transactions contemplated by this Agreement in accordance with the terms of this Agreement and to take all further actions as it may consider expedient for the purposes thereof and is the only approval of Parent's shareholders required for the consummation of the transactions contemplated by this Agreement.

3.4. Noncontravention. Except as set forth in Section 3.4 of the Seller Disclosure Schedule, neither the execution and delivery by Seller and the Company of this Agreement or any of the Ancillary Agreements to which Seller or the Company is a party, nor the consummation by Seller and the Company of the transactions contemplated by this Agreement or any of the Ancillary Agreements, will (a) conflict with or violate any provision of the Certificate of Incorporation or By-laws or similar organizational documents of Seller, Parent or the Company, (b) require on the part of Seller, Parent or the Company any notice to or filing with, or any permit, authorization, consent or approval of, any Governmental Entity, (c) conflict with, result in a breach of, constitute (with or without due notice or lapse of time or both) a default under, result in the acceleration of obligations under, create in any party the right to terminate, modify or cancel, or require any notice, consent or waiver under, any Material Contract (as defined in Section 3.15) or instrument to which Seller, Parent or the Company is a party or by which Seller, Parent or the Company is bound or to which any of their respective assets is subject, (d) result in the imposition of any Encumbrance upon any assets of Seller, Parent or the Company or (e) violate any order, writ, injunction, decree, statute, rule or regulation that, to the knowledge of Seller and the Company, is applicable to Seller, Parent or the Company or any of their respective properties or assets.

3.5. Subsidiaries. The Company has no Subsidiaries, whether wholly or partially owned. The Company does not control directly or indirectly or have any direct or indirect equity participation or similar interest in any corporation, partnership, limited liability company, joint venture, trust or other business association or entity which is not a Subsidiary.

3.6. Financial Statements.

(a) Seller has provided the Financial Statements to Buyer. Section 3.20 of the Seller Disclosure Schedule sets forth the aggregate expenses incurred by the Company in fulfilling their obligations under their guaranty, warranty, right of return and indemnity provisions during each of the fiscal years and the interim period covered by the Financial Statements; and neither Seller nor the Company knows of any reason why such expenses should significantly increase as a percentage of sales in the future.

(b) The Company is not a party to or bound by any collective bargaining agreement, nor has any of them experienced any strikes, grievances, claims of unfair labor practices or other collective bargaining disputes. Neither Seller nor the Company has knowledge of any organizational effort made or threatened, either currently or within the past two years, by or on behalf of any labor union with respect to employees of the Company.

(c) The Company has (and after the Closing will have) no liability to any employee under any stock, option or similar plan or scheme of Seller. All filings and reports as to each Company Plan required to have been submitted to the Internal Revenue Service or to the United States Department of Labor have been duly submitted. No Company Plan that is qualified under Section 401(a) of the Code has assets that include securities issued by the Company or any ERISA Affiliate.

(c) There are no Legal Proceedings (except claims for benefits payable in the normal operation of the Company Plans and proceedings with respect to qualified domestic relations orders) against or involving any Company Plan or asserting any rights or claims to benefits under any Company Plan that could give rise to any material liability.

(d) All the Company Plans that are intended to be qualified under Section 401(a) of the Code have received determination letters, or opinion letters relating to prototype plans upon which the Company is entitled to rely, from the Internal Revenue Service to the effect that such Company Plans are qualified and the plans and the trusts related thereto are exempt from federal income taxes under Sections 401(a) and 501(a), respectively, of the Code, no such determination letter has been revoked and revocation has not been threatened, and no act or omission has occurred with respect to any such Company Plan, that would adversely affect its qualification or materially increase its cost. Each Company Plan which is required to satisfy Section 401(k)(3) or Section 401(m)(2) of the Code has been tested for compliance with, and satisfies the requirements of Section 401(k)(3) and Section 401(m)(2) of the Code for each plan year ending prior to the Closing Date.

(g) There are no unfunded obligations under any Company Plan providing benefits after termination of employment to any employee of the Company (or to any beneficiary of any such employee), including but not limited to retiree health coverage and deferred compensation, but excluding continuation of health coverage required to be continued under Section 4980B of the Code or other applicable law and insurance conversion privileges under state law. The assets of each Company Plan which is funded are reported at their fair market value on the books and records of such Company Plan.

(h) No act or omission has occurred and no condition exists with respect to any Company Plan that would subject the Company or any ERISA Affiliate to (i) any material fine, penalty, tax or liability of any kind imposed under ERISA or the Code or (ii) any contractual indemnification or contribution obligation protecting any fiduciary, insurer or service provider with respect to any Company Plan.

(i) No Company Plan is funded by, associated with or related to a "voluntary employee's beneficiary association" within the meaning of Section 501(c)(9) of the Code.

(j) Each Company Plan is amendable and terminable unilaterally by the Company at any time without liability or expense to the Company or such Company Plan as a result thereof (other than for benefits accrued through the date of termination or amendment and reasonable administrative expenses related thereto) and no Company Plan, plan documentation or agreement, summary plan description or other written communication distributed generally to employees by its terms prohibits the Company from amending or terminating any such Company Plan.

(k) The Company has not made any payment, is not obligated to make any payment, and is not a party to any agreement that could obligate it to make any payment that may be treated as an "excess parachute payment" under Section 280G of the Code (without regard to Sections 280G(b)(4) and 280G(b)(5) of the Code) or that may be subject to the tax imposed by Section 4999 of the Code.

No Company Employee Plan that is a "nonqualified deferred compensation plan" has been materially modified (as determined under Notice 2005-1) after October 3, 2004. No event has occurred that would be treated by Code Section 409A(b) as a transfer of property for purposes of Code Section 83. No stock option or equity unit option granted under any Company Employee Plan has an exercise price that has been or may be less than the fair market value of the underlying stock or equity units (as the case may be) as of the date such option was granted or has any feature for the deferral of compensation other than the deferral of recognition of income until the later of exercise or disposition of such option.

This Agreement has been duly and validly executed and delivered by Buyer and constitutes a valid and binding obligation of Buyer, enforceable against it in accordance with its terms.

4.3. Noncontravention. Neither the execution and delivery by Buyer of this Agreement or the Ancillary Agreements to which it is a party, nor the consummation by Buyer of the transactions contemplated hereby or thereby, will (a) conflict with or violate any provision of the charter or By-laws of Buyer, (b) require on the part of Buyer any filing with, or permit, authorization, consent or approval of, any Governmental Entity, (c) conflict with, result in breach of, constitute (with or without due notice or lapse of time or both) a default under, result in the acceleration of obligations under, create in any party any right to terminate, modify or cancel, or require any notice, consent or waiver under, any contract or instrument to which Buyer is a party or by which it is bound or to which its assets are subject, except for (i) any conflict, breach, default, acceleration, termination, modification or cancellation which would not adversely affect the consummation of the transactions contemplated hereby or (ii) any notice, consent or waiver the absence of which would not adversely affect the consummation of the transactions contemplated hereby, or (d) violate any order, writ, injunction, decree, statute, rule or regulation applicable to Buyer or any of its properties or assets.

4.4. Brokers' Fees. Buyer has no liability or obligation to pay any fees or commissions to any broker, finder or agent with respect to the transactions contemplated by this Agreement or any of the Ancillary Agreements.

4.5. Investment Representation. Buyer is acquiring the Shares from Seller for its own account for investment and not with a view to, or for sale in connection with, any distribution thereof, nor with any present intention of distributing or selling the same; and, except as contemplated by this Agreement and the agreements contemplated herein, Buyer has no present or contemplated agreement, undertaking, arrangement, obligation, indebtedness or commitment providing for the disposition thereof.

4.6. Funding. Buyer has heretofore obtained equity commitment letters (the "Commitment Letters") covering the funding expected to be required for the consummation of the transactions contemplated by this Agreement and naming Parent as a third party beneficiary, copies of which have heretofore been provided to Seller. Each such Commitment Letter is in full force and effect in the form heretofore provided to Seller. Buyer has no reason to believe that the Commitment Letters will not be fully performed in accordance with the terms thereof.

ARTICLE V
COVENANTS

5.1. Closing Efforts. Each of the Parties shall use its commercially reasonable efforts to take all actions and to do all things necessary, proper or advisable to consummate the transactions contemplated by this Agreement, including using its commercially reasonable efforts to procure that (i) its representations and warranties remain true and correct in all material respects through the Closing Date and (ii) the conditions to the obligations of the other Parties to consummate the transactions contemplated by this Agreement are satisfied.

5.2. Governmental and Third-Party Notices and Consents.

(a) Each Party shall use its commercially reasonable efforts to obtain, at its expense, all waivers, permits, consents, approvals or other authorizations from Governmental Entities, and to effect all registrations, filings and notices with or to Governmental Entities, as may be required for such Party to consummate the transactions contemplated by this Agreement and the Ancillary Agreements and to otherwise comply with all applicable laws and regulations in connection with the consummation of the transactions contemplated by this Agreement and the Ancillary Agreements. Without limiting the generality of the foregoing, each Party shall use its commercially reasonable efforts to make all necessary filings, and thereafter make any other required submissions, with respect to this Agreement and the transactions contemplated hereby, required under (i) the HSR Act and any other federal, state or foreign law designed to prohibit, restrict or regulate actions for the purpose or effect of monopolization or restraint of trade (collectively " Antitrust Laws"), and to respond to any government requests for information under any Antitrust Law. The Parties will consult and cooperate with one another, and consider in good faith the views of one another, in connection with any analyses, appearances, presentations, memoranda, briefs, arguments, opinions and proposals made or submitted by or on behalf of any Party hereto in connection with proceedings under or relating to any Antitrust Law. Notwithstanding anything to the contrary in this Agreement, neither Party shall be obligated (A) to institute or pursue litigation or (B) to sell or dispose of or hold separately (through a trust or otherwise) any assets or businesses. Buyer shall pay the filing fees of the notification reports required to be filed under the HSR Act.

(b) Seller and the Company shall, and shall procure that Parent shall, use their respective commercially reasonable efforts to obtain, at Seller's and Parent's expense, all such waivers, consents or approvals from third parties, and to give all such notices to third parties, as are required to be listed in the Seller Disclosure Schedule.

5.3. Parent Shareholder Approval. As promptly as practicable and (subject to receipt of approval by the UK listing authority) in no event more than ten (10) business days following the date of this Agreement (or, if later, three (3) business days after approval by the UK listing authority), Parent shall post a circular containing a notice calling an extraordinary general meeting of the shareholders of Parent (" EGM") to seek the requisite approval of Parent's shareholders (the "Circular"), such meeting to be held on a date as soon as practicable and in no event later than the thirtieth (30 th) day following the posting of the Circular. Parent shall provide Buyer with reasonable opportunity to review and comment on the Circular, and no reference to Buyer or to the rights and obligations of the Parties under this Agreement or any of the Ancillary Agreements shall be made in the Circular without Buyer's consent, which shall not be unreasonably withheld by Buyer. To the fullest extent permitted by applicable law, (i) Parent and its Board of Directors shall recommend that Parent's shareholders vote to approve this Agreement and the transactions contemplated hereby and shall include such recommendation in the Circular, and (ii) neither Parent nor its Board of Directors nor any committee thereof shall withdraw or modify, or propose or resolve to withdraw or modify, in any manner adverse to Buyer, such recommendation; provided, that nothing in this Agreement shall prevent Parent's Board of Directors from withdrawing such recommendation prior to the EGM if in the exercise of their fiduciary obligations (determined in good faith by Parent's Board of Directors following consultation with outside counsel) the failure to take such action would result in a breach of their fiduciary obligations. Parent shall use its commercially reasonable efforts and take all action that is reasonable and lawful to solicit its shareholders to vote (or to deliver proxies) in favor of approval of this Agreement and the transactions contemplated hereby and shall take all other reasonable and lawful action necessary or advisable to secure the required approvals of Parent's shareholders. Without limiting the generality of the foregoing provisions, Dr. Argeris (Jerry) Karabelas, Frank Condella, Ken Cunningham, Peter Grant, Dr. David Ebsworth, R. Stephen Harris, and Alan Bray shall confirm in the Circular their intention to vote in favor of the resolutions put at the EGM in a form heretofore approved by Buyer and shall recommend in the Circular that Parent's shareholders do the same. Parent shall cause the Circular to include all information required by all applicable laws, including all required information regarding the terms of this Agreement and the transactions contemplated by this Agreement. To the extent subject thereto, the Circular will comply with applicable U.S. securities laws.

5.4. Operation of Business. Except as contemplated by this Agreement, during the period from the date of this Agreement to the Closing, the Company shall, and Seller shall cause the Company to, conduct its operations in the Ordinary Course of Business and in compliance with all applicable laws and regulations and, to the extent consistent therewith, use its commercially reasonable efforts to preserve intact its current business organization, keep its physical assets in good working condition, keep available the services of its current officers and employees and preserve its relationships with customers, suppliers and others having business dealings with it, and pay obligations incurred by it after the date of this Agreement and prior to the Closing (other than obligations disputed by the Company in good faith by appropriate

proceedings) either when due or otherwise substantially consistently with its past practices, to the end that its goodwill and ongoing business shall not be impaired in any material respect. Without limiting the generality of the foregoing, prior to the Closing, the Company shall not, and Seller shall cause the Company not to, take any of the following actions without the written consent of Buyer:

(a) issue or sell any stock or other securities of the Company or any options, warrants or rights to acquire any such stock or other securities (except pursuant to the conversion or exercise of preferred shares, options or warrants outstanding on the date hereof), or amend any of the terms of (including the vesting of) any options, warrants or restricted stock agreements, or repurchase or redeem any stock or other securities of the Company (except from former employees, directors or consultants in accordance with agreements providing for the repurchase of shares at their original issuance price in connection with any termination of employment with or services to the Company);

(b) split, combine or reclassify any shares of its capital stock; or declare, set aside or pay any dividend or other distribution (whether in cash, stock or property or any combination thereof) in respect of its capital stock;

(c) create, incur or assume any indebtedness (including obligations in respect of capital leases); assume, guarantee, endorse or otherwise become liable or responsible (whether directly, contingently or otherwise) for the obligations of any other person or entity; or make any loans, advances or capital contributions to, or investments in, any other person or entity;

(d) enter into, adopt or amend any Employee Benefit Plan or any employment or severance agreement or arrangement of the type described in Section 3.22(k) or (except for normal increases in the Ordinary Course of Business for employees who are not Affiliates) increase in any manner the compensation or fringe benefits of, or materially modify the employment terms of, its directors, officers or employees, generally or individually, or pay any bonus or other benefit to its directors, officers or employees (except for existing payment obligations listed in Section 3.22 of the Seller Disclosure Schedule) or hire any new officers or (except in the Ordinary Course of Business) any new employees;

(e) acquire, sell, lease, license or dispose of any assets or property (including any shares or other equity interests in or securities of any corporation, partnership, association or other business organization or division thereof), other than purchases and sales of assets in the Ordinary Course of Business and as otherwise required or expressly permitted by this Agreement;

(g) discharge or satisfy any Encumbrance or pay any obligation or liability other than in the Ordinary Course of Business;

(h) amend its charter, by-laws or other organizational documents;

(i) change its accounting methods, principles or practices, except insofar as may be required by a generally applicable change in IFRS, or make any new elections, or changes to any current elections, with respect to Taxes, except as required by this Agreement;

(j) enter into, amend, terminate, take or omit to take any action that would constitute a violation of or default under, or waive any rights under, any contract or agreement of a nature required to be listed in Section 3.12, Section 3.13 or Section 3.15 of the Seller Disclosure Schedule ;

(k) make or commit to make any capital expenditure in excess of [**] dollars ($[**]) per item or [**] dollars ($[**]) in the aggregate;

(l) institute or settle any Legal Proceeding in which the matter in controversy is more than [**] dollars ($[**]) without Buyer's consent (which consent shall not be unreasonably withheld);

(m) take any action or fail to take any action permitted by this Agreement with the knowledge that such action or failure to take action would result in any of the representations and warranties of the Company set forth in this Agreement becoming untrue such that any of the conditions set forth in Article VI or Article VII would not be satisfied; or

(n) agree in writing or otherwise to take any of the foregoing actions.

5.5. Access to Information. From and after the date of this Agreement to the Closing Date:

(a) The Company shall permit representatives of Buyer to have full access (at all reasonable times, and in a manner so as not to interfere with the normal business operations of the Company) to all premises, properties, financial, tax and accounting records (including the work papers of the Company's independent accountants, subject to Buyer's entering into a separate agreement with such accountants to permit such access), contracts, other records and documents, and personnel, of or pertaining to the Company. Notwithstanding anything to the contrary contained in this Agreement, Buyer shall not be entitled to tax records relating to any Affiliated Group of which Seller is the common parent, other than records relating solely to the Company.

(b) Within fifteen (15) days after the end of each month ending prior to the Closing, beginning with the month of January 2007, the Company shall furnish to Buyer an unaudited income statement for such month and a balance sheet as of the end of such month, prepared on a basis consistent with the Financial Statements. Such financial statements shall present fairly the financial condition and results of operations of the Company as of the dates thereof and for the periods covered thereby (except as set forth in Section 3.6(a) of the Seller Disclosure Schedule), and shall be consistent with the books and records of the Company.

(c) Buyer (i) shall treat and hold as confidential any Confidential Information, (ii) shall not use any of the Confidential Information except in connection with this Agreement, and (iii) if this Agreement is terminated for any reason whatsoever, shall return to the Company all tangible embodiments (and all copies) thereof which are in its possession.

5.6. Notice of Breaches.

(a) From the date of this Agreement until the Closing, Seller and the Company shall promptly deliver to Buyer supplemental information concerning events or circumstances occurring subsequent to the date hereof which would render any representation, warranty or statement in this Agreement or the Seller Disclosure Schedule inaccurate or incomplete in any material respect at any time after the date of this Agreement until the Closing. No such supplemental information shall be deemed to avoid or cure any misrepresentation or breach of warranty or constitute an amendment of any representation, warranty or statement in this Agreement or the Seller Disclosure Schedule.

(b) From the date of this Agreement until the Closing, Buyer shall promptly deliver to the Company and Seller supplemental information concerning events or circumstances occurring subsequent to the date hereof which would render any representation or warranty in this Agreement inaccurate or incomplete in any material respect at any time after the date of this Agreement until the Closing. No such supplemental information shall be deemed to avoid or cure any misrepresentation or breach of warranty or constitute an amendment of any representation or warranty in this Agreement.

5.7. Exclusivity. Prior to the Closing:

(a) Neither Seller nor the Company shall directly or indirectly, through Parent or any Affiliate of Parent or through any officer, director, employee, representative, or agent of Seller, the Company, Parent or any Affiliate of Parent or otherwise, (i) initiate, solicit, encourage or otherwise facilitate any inquiry, proposal, offer or discussion with any third party (other than Buyer) concerning any merger, reorganization, consolidation, recapitalization, business combination, liquidation, dissolution, share exchange, sale of stock, sale of material assets or similar business transaction involving the Company, any subsidiary or any division of the Company, (ii) furnish any non-public information concerning the business, properties or assets of the Company, any subsidiary or any division of the Company to any third party (other than Buyer) or (iii) engage in discussions or negotiations with any third party (other than Buyer) concerning any such transaction.

(b) Seller and the Company shall (and represent and warrant that Parent will) immediately notify any party with which discussions or negotiations of the nature described in paragraph (a) above were pending that the Company is terminating such discussions or negotiations. If Parent, the Company or Seller receives any inquiry, proposal or offer of the nature described in paragraph (a) above, Seller shall, within two business days after such receipt, notify Buyer of such inquiry, proposal or offer, including the identity of the other party and the terms of such inquiry, proposal or offer.

5.8. Expenses. Except as set forth in Article VIII, Section 5.2 and the Escrow Agreement, Buyer shall bear its own costs and expenses (including legal and accounting fees and expenses) incurred in connection with this Agreement and the transactions contemplated hereby and Seller shall bear the costs and expenses (including legal and accounting fees and expenses) incurred by Seller, and/or the Company in connection with this Agreement and the transactions contemplated hereby.

5.9. Transition Services. Prior to the Closing, Buyer and Seller shall enter into a transition services agreement in substantially the form of Exhibit H hereto and otherwise in form reasonably acceptable to the Parties, pursuant to which Seller shall provide (or shall procure for Parent or an appropriate Affiliate of Parent to provide) to Buyer and Buyer shall provide to Seller the services described in Schedule 5.9 following the Closing (the "Transition Services Agreement").

5.10. License Agreement. Prior to the Closing, Seller shall arrange for Parent to enter into a license agreement with Buyer and the Company in substantially the form of Exhibit I hereto.

5.11. Assignment; Inter-Company Adjustments and Eliminations . After the date of this Agreement and prior to the Closing: (a) Seller shall assign or arrange to have assigned to the Company (i) the Biosphere Patents and all other patents and patent applications listed in Schedule 5.11(a)(i) hereto and (ii) all trademarks and tradenames containing the word "Biosphere" or any variations and derivatives thereof, and all other trademarks and servicemarks listed in Schedule 5.11(a)(ii) hereto, that have heretofore been registered in the name of Affiliates of the Company, in each case, pursuant to Assignments in substantially the forms of Exhibit G hereto (the "Biosphere Assets"); and (b) the Company shall distribute to Seller and its Affiliates the assets identified in Schedule 5.11(b) (the "Excluded Assets"), except for the investment for GeneMedix Plc. For the avoidance of doubt, Seller represents and warrants that the investment in GeneMedix is not owned by the Company and is not reflected in the Financial Statements, and Buyer acknowledges that such investment shall not be treated as an asset of the Company. Prior to the Closing, Seller shall take (and shall cause the Company to take) all action required to cause the Company's balance sheet as of the Closing to reflect the eliminations and adjustments described in Schedule 6.12, in accordance with the conditions set forth therein. After the Closing, if any payment is received by Buyer or the Company in respect of any receivable retained by or assigned to Seller pursuant to this Agreement, Buyer and the Company shall promptly deliver such payment to Seller, and if any payment is received by Seller or any of its Affiliates in respect of any receivable retained by or assigned to the Company or Buyer pursuant to this Agreement, Seller shall promptly deliver such payment to the Company or Buyer, as Buyer shall direct.

5.12. [Intentionally Omitted.]

5.13. Change of Company Name. Promptly following the Closing, Buyer shall change the name of the Company to a name that is not related to the Names and not likely to be confused with the Names. Buyer shall make all filings and/or notifications required by any applicable law to effect the change in name of the Company.

5.14. Sharing of Certain Data. Seller and its professional advisers shall have the right for a period of seven (7) years following the Closing Date to have reasonable access to such books, records and accounts, including financial and Tax information, correspondence,

production records, employment records and other records that are transferred to Buyer pursuant to the terms of this Agreement for the limited purposes of concluding its involvement in the business conducted by the Company prior to the Closing Date and for complying with its obligations under applicable financial reporting, securities, Tax, environmental, employment or other laws and regulations. Buyer and its professional advisers shall have the right for a period of seven (7) years following the Closing Date to have reasonable access to those books, records and accounts, including financial and accounting records (including the work papers of Seller's and Parent's independent accountants), Tax records of the Company, correspondence, production records, employment records and other records of the Company that are or may be retained by Seller or its Affiliates (including Parent) pursuant to the terms of this Agreement to the extent that any of the foregoing is needed by, or would be reasonably helpful to, Buyer for the purpose of conducting the business of the Company after the Closing or complying with its obligations or asserting its rights under applicable financial reporting, securities, Tax, environmental, employment or other laws and regulations. Neither Buyer nor Seller shall destroy (and Seller shall procure for Parent not to destroy) any such books, records or accounts retained by it without first providing the other Party with the opportunity to obtain or copy such books, records, or accounts at such other Party's expense. Notwithstanding anything to the contrary contained in this Agreement, Buyer shall not be entitled to Tax records relating to any Affiliated Group of which Seller is the common parent, other than records relating solely to the Company.

5.15. Certain Tax Matters.

(a) Preparation and Filing of Tax Returns.

(i) To the extent not previously filed, Seller shall prepare and timely file or shall cause to be prepared and timely filed (at its own cost and expense) (x) all Pre-Closing Tax Returns for any Income Taxes of the Company and (y) all other Pre-Closing Tax Returns of the Company required to be filed (taking into account extensions) prior to the Closing Date. If necessary under applicable law, Buyer shall cause the Company to execute any such Pre-Closing Tax Return or provide to Seller appropriate powers of attorney.

(ii) To the extent not previously filed, Buyer shall prepare and timely file or cause to be prepared and timely filed (at its own cost and expense) all Pre-Closing Tax Returns of the Company that are not described in Section 5.15(a)(i) and all Straddle Period Tax Returns of the Company. Buyer shall deliver or cause to be delivered drafts of each such Tax Return to Seller for its review at least thirty (30) days prior to the Due Date of such Tax Return and, in the case of a Straddle Period Tax Return, shall notify Seller of Buyer's calculation of Seller's share of the Taxes of the Company (determined in accordance with Section 5.15(d)) for such Straddle Period; provided, however, that such draft of such Straddle Period Tax Return or any Pre-Closing Tax Return to which this Section 5.15(a)(ii) applies, as the case may be, and, in the case of a Straddle Period Tax Return, the calculation of Seller's share of the Tax liability for such Straddle Period (determined in accordance with Section 5.15(d)), in each case, shall be subject to Seller's review and approval. If Seller disputes any item on any Tax Return to which this Section 5.15(a)(ii) applies, it shall notify Buyer of such disputed item (or items) and the basis for its objection. Buyer and Seller shall act in good faith to resolve any dispute as promptly as practicable. If Buyer and Seller cannot resolve any disputed item, the item in question shall be resolved in accordance with Article XI.

(iii) Transfer Taxes. Notwithstanding anything to the contrary contained in this Agreement, Buyer and Seller shall each be responsible for the payment of 50% of any transfer, sales, use, stamp, conveyance, value added, recording, registration, documentary, filing and other similar Taxes and administrative fees (including, without limitation, notary fees) arising in connection with the consummation of the transactions contemplated by this Agreement ("Transfer Taxes"). Buyer shall be responsible for preparing and filing all Tax Returns required to be filed in connection with Transfer Taxes, and Seller shall cooperate with Buyer in connection with the preparation of any such Tax Return relating to Transfer Taxes.

(b) Tax Indemnification by Seller. Seller shall indemnify and hold harmless Buyer and the Company in respect of and against (without duplication):

(i) all liabilities for Taxes imposed on the Company with respect to Pre-Closing Periods, and with respect to any Straddle Period, the portion of such Straddle Period ending on the Closing Date and as determined in the manner provided in Section 5.15(d);

(ii) all liabilities for Taxes imposed on the Company under Section 1.1502-6 of the Treasury Regulations (and corresponding provisions of state, local and foreign law) as a result of having been a member of any Affiliated Group for any taxable period ending on or before or that includes the Closing Date;

(iii) all Transfer Taxes for which Seller is liable pursuant to Section 5.15(a)(iii);

(iv) any breach of a representation set forth in Section 3.9; and

(v) all out-of-pocket expenses for advisors resulting from a breach of any obligation of Seller set forth in this Section 5.15;

provided, however, that Seller shall not be responsible for and shall not indemnify Buyer for (A) all Transfer Taxes for which Buyer is liable pursuant to Section 5.15(a)(iii), (B) an amount equal to the aggregate amount of Tax Reserves, (C) any and all Taxes imposed on the Company as a result of any election under Section 338 of the Code; and (D) any and all Taxes imposed on the Company as a result of any action taken by Buyer after the Closing that is not in the Ordinary Course of Business or that result from a breach of any of Buyer's obligations pursuant to this Agreement (collectively, " Excluded Taxes").

(c) Tax Indemnification by Buyer. Buyer shall indemnify and hold harmless Seller in respect of and against (without duplication):

(i) all Excluded Taxes;

(ii) all liabilities for Taxes imposed on the Company with respect to any period beginning after the Closing Date (a " Post-Closing Period");

(iii) all liabilities for Taxes imposed on the Company with respect to a Straddle Period, but only with respect to the portion of such Straddle Period beginning after the Closing Date, as determined in accordance with the principles set forth in Section 5.15(d);

(iv) all Taxes and out-of-pocket expenses for advisors resulting from a breach of any obligation of Buyer set forth in this Section 5.15.

(d) Allocation of Certain Taxes.

(i) Buyer and Seller agree that if the Company is permitted but not required under applicable foreign, state or local Tax laws to treat the Closing Date as the last day of a taxable period, Buyer and Seller shall treat such day as the last day of a taxable period. Buyer and Seller agree that they will treat the Company as if it ceased to be part of the Affiliated Group of corporations of which the Company is a member within the meaning of Section 1504 of the Code, and, to the extent applicable, any comparable or similar provision of state, local or foreign laws or regulations, as of the close of business on the Closing Date.

(ii) The portion of any Taxes for a taxable period beginning before and ending after the Closing allocable to the portion of such period ending on the Closing Date shall be deemed to equal (A) in the case of Taxes that (x) are based upon or related to income or receipts or (y) imposed in connection with any sale or other transfer or assignment of property, other than Taxes described in Section 5.15(a)(iii), the amount which would be payable if the taxable year ended on (and included) the Closing Date, and (B) in the case of Taxes not described in Section 5.15(d)(ii)(A) (including Taxes imposed on a periodic basis (such as real property Taxes)), the amount of such Taxes for the entire period multiplied by a fraction the numerator of which is the number of calendar days in the period ending on (and including) the Closing Date and the denominator of which is the number of calendar days in the entire period. For purposes of this Agreement, transactions that occur on the Closing Date but after the Closing and that are not incurred in the Ordinary Course of Business of the Company shall be considered to be attributable to the period that commences on the day following the Closing Date. For purposes of Section 5.15(d)(ii)(A), any exemption, deduction, credit or other item that is calculated on an annual basis shall be allocated pro rata per day between the period ending on the Closing Date and the period beginning the day after the Closing Date.

(e) Refunds. Buyer shall pay to Seller (a) all Tax refunds and credits of Taxes (including any interest in respect thereof) received by any of Buyer or its Affiliates or the Company after the Closing Date and attributable to Taxes paid by the Company with respect to any Pre-Closing Period and (b) the portion of all refunds of Taxes or credits of Taxes (including any interest in respect thereof) received by any of Buyer or its Affiliates or the Company after the Closing Date and attributable to Taxes paid by the Company with respect to any Straddle Period (such portion to be allocated consistent with the principles set forth in Section 5.15(d)), Notwithstanding anything in this Section 5.15(e) to the contrary, Seller shall not be entitled to receive payment under this Section 5.15(e) to the extent such refunds or credits are (i) attributable to items of loss, deduction or credit which arise in any Post-Closing Period and that are carried back to a Pre-Closing Period or Straddle Period, or (ii) reflected as an asset of the Company on the Final Closing Net Assets Statement. Any such refunds or credits of Taxes required to be paid by Buyer to Seller shall be paid within five (5) business days of the receipt of such refunds or credits of Taxes by Buyer, its Affiliates or the Company.

(f) Cooperation. Buyer and Seller and their respective Affiliates shall cooperate in the preparation of all Tax Returns of or relating to the Company and the conduct of all Tax Audits or other administrative or judicial proceedings relating to the determination of any Tax of the Company for any Tax periods for which one Party could reasonably require the assistance of the other Party in obtaining any necessary information. Such cooperation shall include, but not be limited to, furnishing prior years' Tax Returns of the Company or return preparation packages to the extent related solely to the Company illustrating previous reporting practices or containing historical information relevant to the preparation of such Tax Returns of or relating to the Company, and furnishing such other information within such Party's possession requested by the Party filing such Tax Returns of or relating to the Company as is relevant to their preparation. Such cooperation and information also shall include without limitation provision by the Company to Seller of powers of attorney for the purpose of signing Tax Returns and defending audits and promptly forwarding copies of appropriate notices and forms or other communications received from or sent to any Taxing Authority which relate to the Company, and providing copies of all relevant Tax Returns to the extent related solely to the Company, together with accompanying schedules and related workpapers, documents relating to rulings received by the Company or other determinations by any Taxing Authority with respect to the Company and records concerning the ownership and Tax basis of property of the Company, which the requested Party may possess. Buyer and Seller and their respective Affiliates shall make their respective employees and facilities available on a mutually convenient basis to explain any documents or information provided hereunder. The obligations of Buyer and the Company under this Section 5.15(f) shall include the provision of information to Seller that is required by Seller to enable it to file any Tax Return of an Affiliated Group of which it is the common parent and the Company is or was a member.

(g) Tax Audits. Buyer shall deliver a written notice to Seller in writing promptly following any demand, claim, or notice of commencement of a claim, audit, proposed adjustment, assessment, examination or other administrative or court proceeding with respect to Taxes of the Company for which Seller may be liable pursuant to Section 5.15 ("Tax Contest") and shall describe in reasonable detail (to the extent known by Buyer or the Company) the facts constituting the basis for such Tax Contest, the nature of the relief sought, and the amount of the claimed Losses, if any (the " Tax Claim Notice"), provided, however, that no delay or failure on the part of Buyer to notify Seller pursuant to this Section 5.15(g) shall relieve Seller of any liability or obligations under Section 5.15 except to the extent that Seller is adversely prejudiced as a consequence of such failure.

(i) With respect to Tax Contests for Taxes of the Company for a Pre-Closing Period, Seller may elect to assume and control the defense of such Tax Contest by written notice to that effect to Buyer within twenty (20) days after delivery by Buyer to Seller of the Tax Claim Notice. If Seller elects to assume and control the defense of such Tax Contest, it (A) shall bear its own costs and expenses, (B) shall be entitled to engage its own counsel and (C) may (1) pursue or forego any and all administrative appeals, proceedings, hearings and conferences with any Tax authority, (2) either pay the Tax claimed or sue for refund where applicable law permits such refund suit or (3) contest, settle or compromise the Tax Contest in any permissible manner, provided, however, that Seller shall not enter into any settlement with respect to any such Tax Contest that relates to Taxes of the Company for a Pre-Closing Period without the prior written consent of Buyer, which consent shall not be unreasonably withheld or delayed, and Buyer shall (and shall cause its Affiliates) to cooperate with Seller in pursuing such

Tax Contest (including by providing appropriate powers of attorney). If Seller elects to assume the defense of any Tax Contest, (A) Seller shall keep Buyer reasonably informed of all material developments and events relating to such Tax Contest and (B) at its own cost and expense, Buyer shall have the right to participate in (but not control) the defense of such Tax Contest.

(ii) In connection with any Tax Contest that relates to Taxes of the Company for a Pre-Closing Period that Seller does not elect to control pursuant to Section 5.15(g)(i), such Tax Contest shall be controlled by Buyer and Seller agrees to cooperate with Buyer in pursing such Tax Contest, provided, however, that none of Buyer or its Affiliates (including the Company) shall enter into any settlement with respect to any such Tax Contest that relates to Taxes of the Company for a Pre-Closing Period without the prior written consent of Seller, which consent shall not be unreasonably withheld or delayed. In connection with any Tax Contest that is described in this Section 5.15(g)(ii) and controlled by Buyer, Buyer shall keep Seller reasonably informed of all material developments and events relating to such Tax Contest and, at its own cost and expense, Seller shall have the right to participate in (but not control) the defense of such Tax Contest.

(iii) Buyer and Seller shall jointly control (at each Party's own cost and expense) all Tax Contests relating to Straddle Periods of the Company. The Parties agree to cooperate with each other in pursuing any such Tax Contest and neither Buyer nor Seller shall (or shall permit any of their Affiliates) to settle a Tax Contest relating to a Straddle Period of any Company without the other Party's prior written consent, which consent shall not be unreasonably withheld or delayed.

(h) Termination of Tax Sharing Agreements. All Tax sharing agreements or similar arrangements between the Company, on the one hand, and Seller or Parent, on the other hand, shall be terminated prior to the Closing Date and, after the Closing Date, Buyer and its Affiliates shall not be bound thereby or have any liability thereunder for amounts due in respect of periods ending on or before the Closing Date.

(i) Exclusivity; Conflicts. Notwithstanding anything to the contrary contained in this Agreement, (i) this Section 5.15 shall be the exclusive means by which a Party to this Agreement may seek indemnification relating or attributable to Taxes or Tax Returns, (ii) claims for indemnification pursuant to Sections 5.15(a) and (b) may be made by a Party at any time prior to the sixtieth (60 th) day after the expiration of the statute of limitations applicable to the Tax matter to which the claim relates and (iii) to the extent there is any inconsistency between the terms of this Section 5.15 and any other provision of this Agreement, the provisions of this Section 5.15 shall govern and control, provided, however, that Sections 8.3(f), 8.5(c), 8.5(d) and 8.5(e) (or the principles of such Sections) shall apply to this Section 5.15.

(j) Treatment of Indemnification Payments. Any payments made to an Indemnified Party pursuant to this Section 5.15, Article VIII, or the Escrow Agreement shall be treated as an adjustment to the Adjusted Purchase Price for Tax purposes.

(k) FIRPTA Certificate. Prior to the Closing, Seller shall deliver to Buyer a certification that it is not a foreign person in accordance with the Treasury Regulations under Section 1445 of the Code. If Buyer does not receive the certification described above on or before the Closing Date, Buyer shall be permitted to withhold from the payments to be made pursuant to this Agreement any required withholding tax under Section 1445 of the Code.

(l) Taxes. Notwithstanding any other provision in this Agreement, except the last sentence of this Section 5.15(l), Buyer, the Company, and the Escrow Agent shall have the right to deduct and withhold Taxes from any payments to be made hereunder (including any payments to be made under the Escrow Agreement) if such withholding is required by law and to collect any necessary Tax forms, including Forms W-8 or W-9, as applicable, or any similar information, from Seller and any other recipients of payments hereunder. To the extent that amounts are so withheld, such withheld amounts shall be treated for all purposes of this Agreement as having been delivered and paid to Seller or any other recipient of payments in respect of which such deduction and withholding were made. Unless otherwise required by a change in law after the date hereof, Buyer shall not withhold any Taxes in respect of payments to be made to Seller for the covenants not to compete set forth in Section 9.3(a), as determined in accordance with Section 1.9 and Schedule 1.9.

(m) No Section 338 Election. None of Buyer or its Affiliates shall make any election pursuant to Section 338 of the Code (or any comparable provision of state, local or other Tax law) with respect to the Company.

(n) No Amendment. Neither Buyer nor the Company shall amend any Tax Return of the Company relating to a Pre-Closing Period or Straddle Period without the consent of Seller; provided, however, that Buyer or the Company shall be permitted to amend any such Tax return without the consent of Seller if Seller will not be adversely affected thereby, taking into account Seller's obligations under this Agreement.

(o) Certain Limitations. Notwithstanding anything to the contrary contained in this Agreement, neither Parent nor Seller (or any of their Affiliates) shall be required to indemnify or hold harmless Buyer and its subsidiaries (including after the Closing, the Company) and each Indemnified Buyer Party in respect of or against any and all Losses resulting from, relating or attributable to (i) Taxes or Tax Returns other than as set forth in Sections 5.15(b)(i), 5.15(b)(ii), 5.15(b)(iii), 5.15(b)(iv) (solely to the extent of Taxes of the Company for Pre-Closing Periods and Straddle Periods (determined in accordance with Section 5.15(d)) and 5.15(b)(v); provided, however, that the limitations imposed by this Section 5.15(o)(i) shall not apply to Losses resulting from a breach of Sections 3.9(a)(v), 3.9(a)(xii), 3.9(a)(xvi), 3.9(c), 3.22(h), 3.22(k), and 3.22(m) and (ii) any Tax attribute of the Company (other than resulting from a breach of Section 3.9(c)), including any net operating loss carryover or credit carryover, or the determination that any such carryover is subject to any limitation on its use under applicable law.

(p) Limitation on Actions. Subject to Section 5.15(g), neither Buyer nor any of its Affiliates (including after the Closing, the Company) shall take any action after the Closing relating or attributable to (or that would reasonably be expected to affect Taxes with respect to) a Pre-Closing Period or Straddle Period of the Company that would reasonably be expected to result in any increased Tax liability (or a reduction in a Tax refund or credit) in respect of a Pre-Closing Period of the Company or the portion of a Straddle Period of the Company ending on the Closing Date (determined in accordance with the principles of Section 5.15(d)). Subject to

Section 5.15(g), neither Seller nor any of its Affiliates shall take any action after the Closing relating or attributable to (or that would reasonably be expected to affect Taxes with respect to) a Post-Closing Period or Straddle Period of the Company that would reasonably be expected to result in any increased Tax liability (or a reduction in a Tax refund or credit) in respect of a Post-Closing Period of the Company or the portion of a Straddle Period of the Company beginning after the Closing Date (determined in accordance with the principles of Section 5.15(d)), provided, however, that all Pre-Closing Period Tax attributes of the Company (and any Tax attributes relating to the portion of any Straddle Period ending on the Closing Date determined in accordance with the principles of Section 5.15(d)), other than to the extent of the tax basis represented in Section 3.9(c), shall be ignored.

(q) Transfer of Biosphere Assets. Unless otherwise required by a Final Determination, the Parties shall (i) treat the transfer of the Biosphere Assets to the Company pursuant to Section 5.11(a) as a taxable transaction (and not as a transaction to which section 351 of the Code (or any comparable provision of any state, local or foreign tax jurisdiction) applies), and (ii) report such transfer as a taxable transaction for all Tax purposes and in a manner consistent with such assets having a fair market value as of the Closing Date equal to approximately [**] dollars ($[**]).

(r) Unless otherwise required by a Final Determination or change in law after the date hereof, Seller shall not include in gross income on the Seller's 2007 U.S. consolidated Tax Return for Income Taxes and any comparable 2007 Tax Return for state or local Income Taxes (taking into account Section 108 of the Code and Section 1.1502-28 of the Treasury regulations promulgated under the Code, and any comparable provisions of state or local Tax law), any material amount of cancellation of indebtedness income that may result from Seller's assumption of the net debt owed by the Company to Parent and/or to any of its Affiliates (the "Company Debt") and Parent's and/or any of its Affiliates' novation of the Company liability under the Company Debt to Seller. The adjustments to the assets and liabilities of the Company set forth in Schedule 6.12 shall be effected in a manner that does not result, in any material respect, in any adverse Tax effect on the Company, other than the possible reduction of Tax attributes of the Company other than the tax basis represented in Section 3.9(c).

5.16. Employee Retention Arrangements. Seller shall pay (on behalf of the Company, when due), or shall reimburse the Company (promptly following payment by the Company and notice by the Company to Seller) for, all amounts due to be paid by the Company after the Most Recent Net Assets Statement Date to Company employees pursuant to the Company's Stay Incentive Plan and related Stay Incentive Agreements to the extent that such employees do not accept stock (or options to acquire stock) of Buyer or the Company (as determined by Buyer) in lieu of such cash amounts under the Stay Incentive Plan and Stay Incentive Agreements.

5.17. Transfer of Rights and Obligations Respecting Other Products, Product Candidates, and Regulatory Matters. Prior to the Closing, the Company will transfer to a third party(ies) acceptable to Buyer all rights, interest, ownership, obligations, and authority with respect to all NDAs, INDs, DMFs, regulatory agent relationships, and other regulatory applications, dossiers, licenses, permits, or filings other than those related to DepoCyt, DepoDur, DepoBupivacaine, and products related to the Biosphere technology.

8.1. Indemnification by Seller. (a) any breach of or inaccuracy in, as of the date of this Agreement or as of the Closing Date, of any representation or warranty of Seller or the Company contained in this Agreement, any of the Ancillary Agreements or any other agreement or instrument furnished by Seller or the Company to Buyer expressly pursuant to this Agreement, or any Third Party Claim alleging matters that would, if true, constitute such a breach or inaccuracy;

(b) any failure to perform any covenant or agreement of Seller or the Company contained in this Agreement, any of the Ancillary Agreements or any agreement or instrument furnished by Seller or the Company to Buyer expressly pursuant to this Agreement, or any Third Party Claim alleging matters that would, if true, constitute such a failure;

(c) any claim by Endo relating to DepoDur for any act or omission occurring or any circumstance existing prior to the Closing;

(d) any Losses arising out of conditions or events involving noncompliance with or violation of, prior to the Closing, any Permit or Environmental Law relating to wastewater discharge;

(e) any claim by Paul Capital Partners or any of its Affiliates for any breach after the Closing Date of any obligation of Parent, Seller or any of their Affiliates pursuant to any agreement between Parent, Seller or any of their Affiliates, on one hand, and Paul Capital Partners or any of its Affiliates, on the other hand;

(f) any of the claims identified in Schedule 8.1(f);

(g) the 401(k) contribution to be made by the Company for 2006, in a total amount of $[**], to the extent (if any) that such amount is not paid by Parent or Seller at or prior to the Closing; and/or

(h) any of the Designated Amounts; provided, that the indemnifiable Losses with respect to Designated Amounts shall be limited to the actual out-of-pocket amounts paid by Buyer and/or the Company (up to the actual amount invoiced (in the case of invoiced amounts) and up to the invoiced amount (or the portion thereof) that relates to the amount accrued on Schedule 12.1 (in the case of amounts listed on Schedule 12.1 as accruals and not yet invoiced as of the date hereof), plus any interest, late fee or similar charge for late payment, collection costs, and legal fees for which the Company is responsible or which the Company is obligated to bear, plus the actual reasonable legal fees and expenses incurred by Buyer and/or the Company in defending or responding to claims with respect to the designated Amounts).

8.2. Indemnification by Buyer. Buyer shall indemnify Seller and its subsidiaries and their respective directors, offices, employees, agents and representatives (each an "Indemnified Seller Party" and collectively the "Indemnified Seller Parties") in respect of, and hold each of the Indemnified Seller Parties harmless against, any and all Losses incurred or suffered by them resulting from, relating to or constituting:

(a) any breach, as of the date of this Agreement or as of the Closing Date, of any representation or warranty of Buyer contained in this Agreement or any other agreement or instrument furnished by Buyer to Seller expressly pursuant to this Agreement;

(b) any failure to perform any covenant or agreement of Buyer contained in this Agreement or any agreement or instrument furnished by Buyer to Seller expressly pursuant to this Agreement, or any Third Party Claim alleging matters that would, if true, constitute such a failure; and/or

(c) any claim by Paul Capital Partners or any of its Affiliates for any breach after the Closing Date of any post-Closing obligation of the Company pursuant to the agreement contemplated by the Paul Capital Term Sheet annexed hereto as Exhibit E to be entered into between Paul Capital Partners and the Company effective as of the Closing Date in connection with the transactions contemplated by this Agreement.

8.3. Indemnification Claims.

(a) An Indemnified Party shall give written notification to the Indemnifying Party of the service or receipt by the Indemnified Party of any Third Party Claim. Such notification shall be given within twenty (20) days after receipt by the Indemnified Party of the summons, complaint or other notice in writing of such Third Party Claim, and shall describe in reasonable detail (to the extent known by the Indemnified Party) the facts constituting the basis for such Third Party Claim, the nature of the relief sought, and the amount of the claimed damages (if any); provided, however, that no delay or failure on the part of the Indemnified Party in so notifying the Indemnifying Party shall relieve the Indemnifying Party of any liability or obligation hereunder except to the extent of any damage or liability caused by or arising out of such failure. Within twenty (20) days after delivery of such notification, the Indemnifying Party may, upon written notice thereof to the Indemnified Party, assume control of the defense of such Third Party Claim with counsel reasonably satisfactory to the Indemnified Party; provided that (i) the Indemnifying Party may only assume control of such defense if (A) it acknowledges in writing to the Indemnified Party that any Losses that the Indemnified Party may incur or sustain in connection with such Third Party Claim constitute Losses for which the Indemnified Party shall be indemnified pursuant to this Article VIII and (B) the *ad damnum* (when added to the total amount of all other claims for indemnification theretofore paid or then pending) is less than or equal to the amount of Losses for which the Indemnifying Party is liable under this Article VIII and (ii) the Indemnifying Party may not assume control of the defense of any Third Party Claim involving criminal liability or in which equitable relief or specific performance is sought against the Indemnified Party. If the Indemnifying Party does not, or is not permitted under the terms hereof to, so assume control of the defense of a Third Party Claim, the Indemnified Party shall control such defense. The Non-controlling Party may participate in such defense at its own expense. The Controlling Party shall keep the Non-controlling Party advised of the status of such Third Party Claim and the defense thereof and shall consider in good faith recommendations made by the Non-controlling Party with respect thereto. The Non-controlling Party shall furnish the Controlling Party with such information as it may have with respect to such Third Party Claim (including copies of any summons, complaint or other pleading which may have been served on such party and any written claim, demand, invoice, billing or other document evidencing or asserting the same) and shall otherwise cooperate with and assist the Controlling Party in the defense of such Third Party Claim. The fees and expenses of counsel to the Indemnified Party with respect to a Third Party Claim shall be considered Losses for purposes of this Agreement if (i) the Indemnified Party controls the defense of such Third Party Claim pursuant to the terms of this Section 8.3(a) or (ii) the Indemnifying Party assumes control of such defense and the Indemnified Party reasonably concludes that the Indemnifying Party and the Indemnified Party have conflicting interests or different defenses available with respect to such Third Party Claim. The Indemnifying Party shall not agree to any settlement of, or the entry of any judgment arising from, any Third Party Claim without the prior written consent of

the Indemnified Party, which shall not be unreasonably withheld, conditioned or delayed; provided that the consent of the Indemnified Party shall not be required if the Indemnifying Party unconditionally and absolutely agrees in writing to pay any amounts payable pursuant to such settlement or judgment and such settlement or judgment includes a complete release of the Indemnified Party from further liability and has no other adverse effect on the Indemnified Party. The Indemnified Party shall not agree to any settlement of, or the entry of any judgment arising from, any such Third Party Claim without the prior written consent of the Indemnifying Party, which shall not be unreasonably withheld, conditioned or delayed.

(b) In order to seek indemnification under this Article VIII, an Indemnified Party shall deliver a Claim Notice to the Indemnifying Party. If the Indemnified Party is Buyer and is seeking to enforce such claim pursuant to the Escrow Agreement, the Indemnifying Party shall deliver a copy of the Claim Notice to the Escrow Agent.

(c) Within twenty (20) days after delivery of a Claim Notice, the Indemnifying Party shall deliver to the Indemnified Party and the Escrow Agent a Response, in which the Indemnifying Party shall: (i) agree that the Indemnified Party is entitled to receive all of the Claimed Amount (in which case the Response shall be accompanied by a payment by the Indemnifying Party to the Indemnified Party of the Claimed Amount, by check or by wire transfer or, if the Indemnified Party is Buyer and is seeking to enforce such claim pursuant to the Escrow Agreement, a written authorization executed by Seller instructing the Escrow Agent to pay to Buyer an amount out of the Escrow Fund equal to the Claimed Amount); (ii) agree that the Indemnified Party is entitled to receive the Agreed Amount (in which case the Response shall be accompanied by a payment by the Indemnifying Party to the Indemnified Party of the Agreed Amount, by check or by wire transfer, or, if the Indemnified Party is Buyer and is seeking to enforce such claim pursuant to the Escrow Agreement, a written authorization executed by Seller instructing the Escrow Agent to pay to Buyer an amount out of the Escrow Fund equal to the Agreed Amount); or (iii) dispute that the Indemnified Party is entitled to receive any of the Claimed Amount.

(d) During the 30-day period following the delivery of a Response that reflects a Dispute, the Indemnifying Party and the Indemnified Party shall use good faith efforts to resolve the Dispute. If the Dispute is not resolved within such 30-day period, the Indemnifying Party and the Indemnified Party shall submit the Dispute to binding arbitration in accordance with the provisions of Section 8.3(e). If the Indemnified Party is Buyer and is seeking to enforce the claim that is the subject of the Dispute pursuant to the Escrow Agreement, the Indemnifying Party and the Indemnified Party shall deliver to the Escrow Agent, promptly following the resolution of the Dispute (whether by mutual agreement, arbitration, judicial decision or otherwise), a written notice executed by Buyer and Seller instructing the Escrow Agent as to what (if any) amount out of the Escrow Fund shall be paid to Buyer (which notice shall be consistent with the terms of the resolution of the Dispute).

(e) If, as set forth in Section 8.3(d), the Indemnified Party and the Indemnifying Party submit any Dispute to binding arbitration, the arbitration shall be conducted by a single arbitrator (the "Arbitrator") in accordance with the Commercial Rules in effect from time to time and the following provisions:

(i) In the event of any conflict between the Commercial Rules in effect from time to time and the provisions of this Agreement, the provisions of this Agreement shall prevail and be controlling.

(ii) The applicable Parties shall commence the arbitration by jointly filing a written submission with the New York, New York office of the AAA in accordance with Commercial Rule 5 (or any successor provision).

(iii) No depositions or other discovery shall be conducted in connection with the arbitration.

(iv) Not more than thirty (30) days after the conclusion of the arbitration hearing, the Arbitrator shall prepare and distribute to the Parties a writing setting forth the arbitral award and the Arbitrator's reasons therefor. Any award rendered by the Arbitrator shall be final, conclusive and binding upon the Parties, and judgment thereon may be entered and enforced in any court of competent jurisdiction; provided, that the Arbitrator shall have no power or authority to grant injunctive or equitable relief or specific performance.

(v) The Arbitrator shall have no power or authority, under the Commercial Rules or otherwise, to (x) modify or disregard any provision of this Agreement, including the provisions of this Section 8.3(e), or (y) address or resolve any issue not submitted by the Parties.

(vi) In connection with any arbitration proceeding pursuant to this Agreement, each party to such proceeding shall bear its own costs and expenses, except that the fees and costs of the AAA and the Arbitrator, the costs and expenses of obtaining the facility where the arbitration hearing is held, and such other costs and expenses as the Arbitrator may determine to be directly related to the conduct of the arbitration and appropriately borne equally by Buyer and Seller (which shall not include any Party's attorneys' fees or costs, witness fees (if any), costs of investigation and similar expenses) shall be shared equally by the Indemnified Party and the Indemnifying Party.

(f) If an Indemnified Buyer Party is entitled to indemnification from Seller, Buyer shall be entitled (but not required) to satisfy the amount of any indemnification entitlement by deduction from and offset and set-off against the amounts (if any) that Buyer would obligated be to pay to Seller pursuant to Section 1.7.

8.4. Survival. All representations and warranties, and all covenants and agreements (other than covenants and agreements that by their terms involve continuing or post-Closing obligations), that are covered by the indemnification provisions of Section 8.1(a) and (b) and Section 8.2 shall, except as provided in Section 5.15, (a) survive the Closing and (b) shall expire at 11:59 p.m. Pacific time on the date that is eighteen (18) months after the Closing Date (subject to extension as provided below, the "Expiration Date"), except that (i) the representations and warranties set forth in Sections 2.1, 2.2. and 2.5, Sections 3.1, 3.2, and 3.3 and Sections 4.1 and 4.2 shall survive the Closing without limitation and (ii) the representations and warranties set forth in Sections 3.13, 3.22, 3.23 and 3.30 shall survive until ninety (90) days following the date that would otherwise be the expiration of all statutes of limitation applicable to the matters

referred to therein. If an Indemnified Party delivers to an Indemnifying Party, before expiration of a representation or warranty, either a Claim Notice based upon a breach of or inaccuracy in such representation or warranty, or an Expected Claim Notice involving a breach or alleged breach of or inaccuracy or alleged inaccuracy in such representation or warranty, then the applicable representation or warranty shall survive, and the Expiration Date shall be extended, for purposes of the resolution of any claims arising from or related to the matter covered by such notice, until such resolution. If the legal proceeding or written claim with respect to which an Expected Claim Notice has been given is definitively withdrawn or resolved in favor of the Indemnified Party, the Indemnified Party shall promptly so notify the Indemnifying Party; and if the Indemnified Party has delivered a copy of the Expected Claim Notice to the Escrow Agent and a portion of the Escrow Fund has been retained in escrow after the Termination Date (as defined in the Escrow Agreement) with respect to such Expected Claim Notice, the Indemnifying Party and the Indemnified Party shall promptly deliver to the Escrow Agent a written notice executed by both Buyer and Seller instructing the Escrow Agent to distribute such retained portion of the Escrow Fund to Seller in accordance with the terms of the Escrow Agreement. If the legal proceeding or claim with respect to which an Expected Claim Notice has been given is resolved against an Indemnified Party, the Indemnified Party shall promptly so notify the Indemnifying Party and the Expected Claim Notice shall thereupon automatically be converted into and shall thenceforth be treated as a Claim Notice. The rights to indemnification set forth in this Article VIII shall not be affected by (i) any investigation conducted by or on behalf of an Indemnified Party or any knowledge acquired (or capable of being acquired) by an Indemnified Party, whether before or after the date of this Agreement or the Closing Date, with respect to the inaccuracy or noncompliance with any representation, warranty, covenant or obligation which is the subject of indemnification hereunder or (ii) any waiver by an Indemnified Party of any closing condition relating to the accuracy of representations and warranties or the performance of or compliance with agreements and covenants.

8.5. Limitations.

(a) Except as otherwise expressly set forth herein, Seller shall not be liable under this Article VIII unless and until the aggregate Losses for which Seller would otherwise be liable under this Article VIII exceed [**] dollars ($[**]) (the "Threshold Amount") (at which point Seller shall become liable for all aggregate Losses subject to indemnification under this Article VIII, and not just amounts in excess of the Threshold Amount; provided that the limitation set forth in this sentence shall not apply to a claim pursuant to Section 8.1(a) relating to a breach of the representations and warranties set forth in Sections 2.1, 2.2 or 2.5 or Sections 3.1, 3.2, 3.3, 3.13, 3.23(g), or 3.30 or pursuant to Section 8.1(f) (as to which the Threshold Amount shall not apply), or to a claim pursuant to Section 8.1(d) with respect to matters disclosed in Schedule 8.1(d) (as to which the Threshold Amount shall be deemed to be [**] dollars ($[**])). For purposes solely of this Article VIII, all representations and warranties of Seller in Article II and Article III (other than Section 3.7 (Absence of Certain Changes) and Section 3.31 (Disclosure)) shall be construed without respect to any materiality limitation, materiality qualification or materiality basket, as if the term "material" and any reference to "Company Material Adverse Effect" (and variations thereof) were omitted from such representations and warranties.

(b) Notwithstanding anything to the contrary herein, Buyer shall not be liable under this Article VIII unless and until the aggregate Losses for which Buyer would otherwise be liable under this Article VIII exceed the Threshold Amount (at which point Buyer shall become liable for all aggregate Losses subject to indemnification under this Article VIII, and not just amounts in excess of the Threshold Amount); provided that the limitation set forth in this sentence shall not apply to a claim pursuant to Section 8.1(a) relating to a breach of the representations and warranties set forth in Sections 4.1, 4.2, 4.3, 4.4 or 4.6 or a claim for payment of any amount due pursuant to Article I. For purposes solely of this Article VIII, all representations and warranties (if any) of Buyer in Article IV with materiality limitations, qualifications or baskets shall be construed without respect to any materiality limitation, materiality qualification or materiality basket, as if the term "material" and any reference to "Buyer Material Adverse Effect" (and variations thereof) were omitted from such representations and warranties.

(c) The Escrow Agreement is intended to secure the indemnification obligations of Seller under Article VIII and Section 5.15, the adjustment obligations of Seller under Section 1.5, and the obligations of Parent under the Parent Guaranty. However, the rights of Buyer under this Article VIII, Section 5.15, and Section 1.5 shall not be limited to the Escrow Fund nor shall the Escrow Agreement be the exclusive means for Buyer to enforce such rights; provided that, except as otherwise expressly permitted by this Agreement, Buyer shall not attempt to collect any Losses directly from Seller pursuant to this Article VIII or Section 5.15 unless no remaining portion of the Escrow Fund is held in escrow pursuant to the Escrow Agreement and no portion of the Earn-Out is available to satisfy such Losses; and provided further that, notwithstanding anything to the contrary herein, in no event shall the aggregate liability of Seller pursuant to this Article VIII and Section 5.15 (and the aggregate liability of Parent pursuant to the Parent Guaranty insofar as such guaranty relates to the liabilities of Seller pursuant to this Article VIII), taken together, exceed the Cap.

(d) Except with respect to claims based on fraud or willful misrepresentation, after the Closing, the rights of the Indemnified Parties under this Article VIII, Section 5.15 and the Escrow Agreement, shall be the exclusive remedy of the Indemnified Parties with respect to claims resulting from or relating to any breach of or inaccuracy in any representation or warranty in this Agreement. For the avoidance of doubt, nothing in this Section 8.5(d) is intended to limit the Partiers' rights to recover purchase price adjustments pursuant to Section 1.5 or any rights of offset and set-off pursuant to Section 1.4 (b).

(e) Neither Seller nor any of its subsidiaries shall have any right of contribution against the Company with respect to any breach of or inaccuracy in any representation and warranty of the Company or any breach by the Company of any of its covenants or agreements.

(f) In the event that adjustment has been made pursuant to Section 1.5 for any item that also constitutes an indemnifiable Loss pursuant to this Article VIII arising out of a breach of Seller's representations and warranties in Section 3.14 or Section 3.16, Buyer shall not be entitled to recover indemnification under this Article VIII for any amount that Buyer has theretofore recovered as an adjustment to the Base Purchase Price pursuant to Section 1.5.

ARTICLE IX
CERTAIN POST-CLOSING AGREEMENTS

Seller agrees that from and after the Closing Date:

9.1. Proprietary Information.

(a) Seller shall (and shall cause each of its Affiliates to) hold in confidence and shall use its (and their) commercially reasonable efforts to have all officers, directors and personnel who continue after the Closing to be employed by Seller or any Affiliate of Seller to hold in confidence all knowledge and information of a secret or confidential nature with respect to the business of the Company and not to disclose, publish or make use of the same without the consent of Buyer, except as required by law (in which case Seller shall provide reasonable advance notice of such proposed disclosure and shall cooperate with Buyer and the Company, at their expense, in seeking an appropriate protective order or other confidentiality assurances) and except to the extent that such information shall have become public knowledge other than by breach of this Agreement by Seller.

(b) If (i) the employment of an officer, director or other employee of Seller or any Affiliate thereof, to whom secret or confidential knowledge or information concerning the business of the Company has been disclosed, is terminated and (ii) such individual is subject to an obligation to maintain such knowledge or information in confidence after such termination, Seller shall, upon request by Buyer, take all reasonable steps at their expense to enforce such confidentiality obligation in the event of an actual or threatened breach thereof. Any legal counsel retained by Seller in connection with any such enforcement or attempted enforcement shall be selected by Seller, but shall be subject to the approval of Buyer, which approval shall not be unreasonably withheld.

(c) Seller agrees that the remedy at law for any breach of this Section 9.1 would be inadequate and that Buyer shall be entitled to injunctive relief in addition to any other remedy it may have upon breach of any provision of this Section 9.1.

9.2. No Solicitation of Former Employees. Except as provided by law, for a period of [**] ([**]) years after the Closing Date, Seller shall not (and shall cause its subsidiaries and Affiliates not to) directly or indirectly solicit, induce or encourage any person who was an employee (other than secretarial and clerical staff) of either the Company on the date hereof or the Closing Date to terminate his employment with Buyer (or the Company, as the case may be) or to become an employee of Seller or any of its subsidiaries or Affiliates; provided, that nothing in this Section 9.2 shall be construed to prohibit Seller from placing advertisements in publications of general circulation that are not directly specifically at employees of Buyer or the Company.

9.3. Non-Competition Agreement.

(a) For a period of [**] ([**]) years after the Closing Date (the "Restricted Period"), neither Seller nor any of its subsidiaries or Affiliates shall (and Seller shall procure that Parent shall not), either directly or indirectly through any subsidiary or Affiliate, develop,

manufacture, market or sell, anywhere in the world (including anywhere in the United States or any country in North America, Japan or any country in Asia, Australia, New Zealand, England or any country in Europe), (i) any sustained-release bupivacaine-based product for use in pain management, or (ii) any sustained-release opioid-based product for use in pain management (other than the non-injectable sustained-release naproxen-hydrocodone combination products currently under development at the Company), or (iii) any sustained-release cytarabine-based product, or (iv) any sustained-release Biologics Product (as defined in Schedule 1.7). For purposes of this provision, "sustained-release" shall mean release such that the intended dosing or use is for more than twelve (12) hours. For a period of [**] ([**]) years after the Closing Date, Seller shall not, and shall procure that Parent and its Affiliates shall not, solicit any drug development business with respect to any of the substances listed in Column A of Schedule 9.3(a) from any of the entities named or otherwise identified opposite such substance in Column B thereof.

(b) Seller and Buyer agree that the market for the Company's products is worldwide, that development cycles for products such as the Company's products are lengthy, and that duration and geographic scope of the non-competition provision set forth in this Section 9.3 are reasonable. In the event that any court of competent jurisdiction determines that the duration or the geographic scope, or both, are unreasonable and that such provision is to that extent unenforceable, Seller and Buyer agree that the provision shall remain in full force and effect for the greatest time period and in the greatest area that would not render it unenforceable. Seller and Buyer intend that this non-competition provision shall be deemed to be a series of separate covenants, one for each and every county of each and every state of the United States of America and each and every country and political subdivision of each and every country outside the United States of America where this provision is intended to be effective. Seller agrees that damages are an inadequate remedy for any breach of this provision and that Buyer shall, whether or not it is pursuing any potential remedies at law, be entitled to equitable relief in the form of preliminary and permanent injunctions without bond or other security upon any actual or threatened breach of this non-competition provision.

(c) Notwithstanding the foregoing provisions: (i) nothing herein shall be construed to prevent or prohibit the acquisition of Parent as a whole by any unaffiliated acquiror or to subject the other operations of any such acquiror to the restrictions of this Section 9.3 (it being understood and agreed that the provisions of this Section 9.3 shall continue to apply to the operations of Seller and the entities that prior to the consummation of such an acquisition are Affiliates of Seller (including Parent and its Affiliates)); and (ii) in the event that Parent acquires a company whose assets and operations would violate the provisions of this Section 9.3, neither Parent nor Seller shall be deemed to be in violation of this Section 9.3 as long as Parent shall have divested, spun off or otherwise ceased to own or operate such assets and operations within one hundred eighty (180) days after the consummation of such acquisition.

9.4. Further Assurances. If at any time before the Closing or during the three (3) year period following the Closing any Omitted IP is discovered, Seller shall (and shall procure that Parent and its Affiliates shall), at Seller's sole expense, (a) assign, transfer and deliver all right, title and interest held by Seller (or by Parent or any of its Affiliates) in, to and under such Omitted IP to the Company at the Closing or as soon as reasonably practicable after the Closing,

but in any case, within thirty (30) days after such Omitted IP is discovered, and (b) take such further action reasonably requested by the Company or Buyer in order to more fully vest and record title in and to such Omitted IP the name of the Company. Subject to Seller's compliance with this Section 9.4, and provided that the omission of such Omitted IP is inadvertent, Buyer agrees and acknowledges that Buyer's rights under this Section 9.4 shall be its sole and exclusive remedy for a breach of the representations and warranties set forth in Section 3.13(g), where such breach arises solely from the failure of the Company to own such Omitted IP as of the Closing. Effective upon (and subject to) the assignment to the Company of any Licensed-Back Omitted IP in accordance with this Section 9.4, the Company hereby grants to Seller and its Affiliates a non-exclusive, royalty-free, perpetual, irrevocable, worldwide license, with the right to sublicense, under any and all such Licensed-Back Omitted IP for use by Seller and its Affiliates subject to the provisions of Section 9.3.

ARTICLE X
TERMINATION OF AGREEMENT

10.1. Termination by Lapse of Time. This Agreement shall terminate at 5:00 p.m. Pacific Standard Time, on April 30, 2007, if the transactions contemplated hereby have not been consummated, unless such date is extended by the written consent of the Company, Buyer and Seller.

10.2. Termination by Agreement of the Parties. This Agreement may be terminated by the mutual written agreement of the Parties hereto. In the event of such termination by agreement, Buyer shall have no further obligation or liability to Seller or the Company under this Agreement, and Seller shall have no further obligation or liability to Buyer under this Agreement.

10.3. Termination by Reason of Breach.

(a) This Agreement may be terminated by Seller by giving written notice to Buyer in the event Buyer is in breach of any representation, warranty or covenant contained in this Agreement, and such breach, individually or in combination with any other such breach, (i) would cause the conditions set forth in Sections 7.2 or 7.3 not to be satisfied and (ii) is not cured within twenty (20) days following delivery by Seller to Buyer of written notice of such breach.

(b) This Agreement may be terminated by Buyer by giving written notice to Seller and the Company in the event that Seller or the Company are in breach of any representation, warranty or covenant contained in this Agreement, and such breach, individually or in combination with any other such breach, (i) would cause the conditions set forth in Sections 6.11 not to be satisfied and (ii) is not cured within twenty (20) days following delivery by Buyer of written notice of such breach.

10.4. Termination For Failure to Obtain Shareholder Approval. This Agreement may be terminated by either Party if the requisite approval of Seller's shareholders as set forth in Section 5.3 shall not have been obtained at the EGM (including adjournments thereof); provided, however, that no Party shall have the right to terminate this Agreement pursuant to this Section 10.4 if the failure to obtain the requisite approval of Seller's shareholders is attributable to a breach of that Party's obligations under this Agreement.

10.5. Effect of Termination. If any Party terminates this Agreement pursuant to Section 10.1 or 10.2, all obligations of the Parties hereunder shall terminate without any liability of any Party to any other Party and shall be null and void (except in each case for any liability of any Party for bad faith breaches of this Agreement). Notwithstanding the foregoing, (a) if this Agreement is terminated by any Party pursuant to Section 10.4, Seller shall promptly pay to Buyer the out-of-pocket expenses actually incurred by Buyer and its shareholders in connection with the negotiation of this Agreement and the Ancillary Agreements and the pursuit of the transactions contemplated hereby and thereby (the amount of which shall be disclosed by Buyer to Seller promptly following delivery by Seller to Buyer of a notice of intended termination requesting the same), up to a maximum of [**] dollars ($[**]); and (b) if this Agreement is terminated (i) by Seller pursuant to Section 10.1 or Section 10.4, or (ii) by Buyer pursuant to Section 10.1 for breach by Seller of any of its obligations under Section 5.7, or (iii) by Buyer pursuant to Section 10.1 or 10.4, and if, in each case within the scope of the immediately preceding clauses (i), (ii) and (iii), after the date hereof and prior to such termination a competing offer, bid or indication or expression of interest (an " Acquisition Proposal") shall have been made to acquire the Company or any material asset of the Company and such offer, bid or indication or expression of interest shall not have been definitively and unconditionally withdrawn a reasonable time before the EGM, and Seller, Seller, the Company or any of their subsidiaries enter into a definitive agreement with respect to an Acquisition Proposal within twelve (12) months after the date of such termination, then Seller shall, prior to and as a condition precedent to the effectiveness of any such termination and prior to or concurrently with the signing of such definitive agreement, pay to Buyer, by wire transfer of immediately available funds to an account to be designated by Buyer, the sum in cash of [**] dollars ($[**]) plus the out-of-pocket expenses actually incurred by Buyer in connection with the negotiation of this Agreement and the Ancillary Agreements and the pursuit of the transactions contemplated hereby and thereby (the amount of which shall be disclosed by Buyer to Seller promptly following delivery by Seller to Buyer of a notice of intended termination requesting the same), which in no event shall be more than [**] dollars ($[**]) in total (the " Termination Fee"). In the event that a payment is made pursuant to Section 10.5(b), no payment shall be made pursuant to Section 10.5(a), and in the event that a payment is made pursuant to Section 10.5(a), any subsequent payment pursuant to Section 10.5(b) shall be net of any amount paid pursuant to Section 10.5(a).

10.6. Election of Remedies; Liquidated Damages. If Seller wrongfully fails to close and complete the purchase and sale of the Shares contemplated by this Agreement, Buyer shall be entitled, at its election and in its sole discretion, to one (but not both) of the following remedies: (a) specific performance or other equitable relief to compel the consummation of the transactions contemplated by this Agreement or (b) payment by Buyer of liquidated damages in the amount of the Termination Fee, which (if paid by Seller within two (2) business days after receipt of notice of Buyer's election of remedy) shall constitute full satisfaction of any and all claims that Buyer may have against Seller for breach of this Agreement; provided, that if Buyer elects the remedy provided by clause (a) of this Section 10.6, then the maximum amount of

damages recoverable by Seller against Buyer in respect of any claim or counterclaim of breach by Buyer of this Agreement shall be reciprocally limited to the amount of the Termination Fee, and if Buyer elects the remedy provided by clause (b) of this Section 10.6, then the damage remedies available to Seller against Buyer in respect of any claim or counterclaim of breach by Buyer of this Agreement shall not be limited to the amount of the Termination Fee.

ARTICLE XI
DISPUTE RESOLUTION

11.1. General. In the event that any dispute should arise between Buyer and Seller after the Closing with respect to any matter covered by this Agreement (other than a dispute within the scope of Section 8.3(d) and 8.3(e)), including the Adjusted Purchase Price, Buyer and Seller shall resolve such dispute in accordance with the procedures set forth in this Article XI.

11.2. Consent of the Parties. Buyer and Seller shall first use their commercially reasonable efforts to resolve such dispute among themselves. If Buyer and Seller are unable to resolve the dispute within thirty (30) calendar days after the commencement of efforts to resolve the dispute, either Buyer or Seller may either (i) commence an action with respect to the matter in dispute in an appropriate court of competent jurisdiction in accordance with the provisions of Section 13.8, or (ii) submit the matter in dispute to arbitration in accordance with Section 11.3; provided, that if the other Party objects or is seeking relief that the arbitrator is not authorized or empowered to award, the matter in dispute shall not be submitted to arbitration but shall instead be determined in court in accordance with the provisions of Section 13.8.

11.3. Arbitration.

(a) Either Buyer or Seller may submit any matter referred to in Section 11.2 to arbitration by notifying the other Party (and, if the matter involves the Escrow Fund, the Escrow Agent), in writing, of such dispute. Within ten (10) days after receipt of such notice, Buyer and Seller shall designate in writing one arbitrator to resolve the dispute; provided, that if Buyer and Seller cannot agree on an arbitrator within such 10-day period, the arbitrator shall be selected by the AAA. The arbitrator so designated shall not be an employee, consultant, officer, director or stockholder of any Party hereto or any Affiliate of any Party to this Agreement.

(b) Within fifteen (15) days after the designation of the arbitrator, the arbitrator, Buyer and Seller shall meet, at which time Buyer and Seller shall be required to set forth in writing all disputed issues and a proposed ruling on each such issue.

(c) The arbitrator shall set a date for a hearing, which shall be no later than thirty (30) days after the submission of written proposals pursuant to paragraph (b) above, to discuss each of the issues identified by Buyer and Seller. Buyer and Seller shall each have the right to be represented by counsel. The arbitration shall be governed by the rules of the AAA; provided, that the arbitrator shall have sole discretion with regard to the admissibility of evidence.

(d) The arbitrator shall use his best efforts to rule on each disputed issue within thirty (30) days after the completion of the hearings described in paragraph (c) above.

The determination of the arbitrator as to the resolution of any dispute shall be binding and conclusive upon all Parties hereto. All rulings of the arbitrator shall be in writing and shall be delivered to the Parties hereto and, to the extent they involve the Escrow Fund, the Escrow Agent.

(e) The prevailing party in any arbitration shall be entitled to an award of reasonable attorneys' fees incurred in connection with the arbitration. The non-prevailing party shall pay such fees, together with the fees of the arbitrator and the costs and expenses of the arbitration.

(f) Any arbitration pursuant to this Section 11.3 shall be conducted in New York, New York.

(g) Notwithstanding any provision of this Article XI to the contrary, disputes that are within the scope of Section 8.3(d) and 8.3(e) shall be resolved in accordance with the provisions of Article VIII and not this Article XI.

Biologics Products Percentage Payments	The Company will pay Seller a payment of 3% of Net Sales of Biologics Products (not to exceed 20% of royalty income to the Company) in the Territory

1.1 Certain Definitions. Solely for purposes of this Schedule 1.7, the following terms shall have the meanings set forth below. All other capitalized terms used in this Schedule 1.7 (other than names and proper nouns) shall have the meanings ascribed to such terms in the Stock Purchase Agreement to which this Schedule 1.7 is attached.

(a) "Biologics Products" means a pharmaceutical composition having one or more of the following active ingredients: follicle stimulating hormone, Biosphere-encapsulated human growth hormone, interferon-alpha, erythropoietin, and granulocyte colony stimulating factor.

(b) "DepoBupivacaine" means a pharmaceutical composition having bupivacaine as an active ingredient encapsulated with the Company's multivesicular liposomes technology to provide sustained release.

(c) "First Commercial Sale" means, with respect to a Product in a country in the Territory, the first day after the Closing Date when the Company (or any person or entity that after the Closing is an Affiliate or licensee of the Company) first sells or otherwise commercially disposes of such Product for use or consumption by the general public in a country in the Territory after receipt of Marketing Authorization for such country.

(d) "Force Majeure" means causes beyond the control of the Party asserting such causes as grounds for nonperformance, including, without limitation, acts of God; acts, regulations, or laws of any government adopted after the date of this Schedule 1.7 or subject to a new interpretation after the date of this Schedule 1.7 that render impossible or illegal performance by a Party of its obligations under this Schedule 1.7; war; civil commotion; destruction of production facilities or materials by fire, flood, earthquake, explosion or storm; epidemic; and failure of public utilities or common carriers.

(e) "Major EU Country" means United Kingdom, France, Germany, Italy and Spain or any of them.

(f) "Marketing Authorization" means, with respect to a country, all approvals, licenses, registrations and regulatory authorizations required to market and sell a Product in such country as granted by the Relevant Regulatory Authority. For countries where the Relevant Regulatory Authority approval is required for pricing or reimbursement for Product prior to undertaking sales or marketing, "Marketing Authorization" shall not be deemed to occur until such pricing or reimbursement approval is obtained.

(g) "Net Sales" means total gross sales of each Product invoiced and actually collected by the Company, its Affiliates or any licensee of the Company (or a further sublicense of such licensee) to unaffiliated third parties, less the following amounts actually deducted or allowed: (i) transport, freight and insurance costs; (ii) sales and excise taxes and duties; (iii) normal and customary trade, quantity and cash discounts and rebates; (iv) refunds and chargebacks; (v) actual rebates and credits or allowances allowed to customers in respect thereof; and (vi) amounts repaid or credited for actually returned or recalled Products. Notwithstanding anything else in Section 1.7 or this Schedule 1.7, the supply or other disposition of Products at no cost or charge to the recipient (x) as reasonable quantities of samples consistent with industry practices, (y) for use in non-clinical or clinical studies, or (z) for use in any tests or studies reasonably necessary to comply with any law, regulation or request by a regulatory or Relevant Governmental Authority, shall not be included within the computation of Net Sales. In the event a Product is sold in combination with, or contains, one or more other active ingredients which are not the subject of this Agreement (as used in this definition of Net Sales, a "Combination"), then the gross amount invoiced for that product shall be calculated by multiplying the gross amount invoiced for such Combination by the fraction A/(A+B), where "A" is the gross amount invoiced for the Product sold separately and "B" is the gross amount invoiced for the other active ingredient(s) sold separately; provided, however, for the avoidance of doubt, in the case of DepoBupivacaine, a Product will not qualify as a "Combination" under this provision due to the use or inclusion of bupivacaine as another active ingredient in such product, regardless of the form or formulation that such bupivacaine may be included or otherwise found within DepoBupivacaine. In the event that the other active ingredient is not sold separately, then the gross amount invoiced for that product shall be calculated by multiplying the gross amount invoiced for the Combination by the fraction A/C, where "A" is the gross invoice amount for the Product, if sold separately, and "C" is the gross invoice amount for the Combination. In the event that no such separate sales are made, Net Sales for royalty determination shall be determined by the Parties in good faith.

(h) "Payment Period" has the meaning set forth for such term in Section 1.3 of this Schedule 1.7.

(i) "Product" means DepoBupivacaine or any of the Biologics Products.

(j) "Territory" means the United States of America, Japan and each Major EU Country.

(j) "Valid Claim" means a claim of any unexpired Patent of the Company existing as of the date of this Agreement (that will remain with the Company after the Closing) and issued in the Territory that shall not have been donated to the public, disclaimed, or held invalid or unenforceable against the other Party by a court of competent jurisdiction in an unappealed or unappealable decision.

1.2 Diligence; Non-Circumvention; Periodic Reports.

(a) During the Restricted Period, Buyer will cause the Company to use good faith efforts toward the development and commercialization of DepoBupivacaine in the United States and a Major EU Market Country; provided, however, that in all decisions related to such development and commercialization efforts the Company may take into account the factors of safety and efficacy, risk profile, profitability, product profile, competitive landscape, difficulty in developing or manufacturing the Product, competitiveness of alternative products, the patent or other proprietary position of the Product and/or third party products, the regulatory structure involved and the potential, and current corporate goals and priorities; and provided further that the Company may cease or reduce such development and commercialization efforts and funding for any reason other than for the sole or primary purpose of depriving Seller of payments it would otherwise be entitled to received under this Schedule 1.7 if the Board of Directors of the Company, in the exercise of its good faith business judgment, determines that it is in the best interests of the Company and its stockholders to do so.

(b) [**] times each year until the end the Payment Period, as long as any of the DepoBupivacaine Milestone Payments remains unpaid and there is a reasonable expectation that such payment will become payable in the future, not later than the last day of the months of [**], Buyer shall cause the Company to furnish Seller with a report summarizing the development status of DepoBupivacaine and the Biologics Products.

1.3 Payments.

(a) Beginning with the calendar quarter in which the First Commercial Sale of a Product is made in a country in the Territory and for each calendar quarter thereafter, on a country-by-country basis, until the expiration of the last Valid Claim covering the sale of such Product in such country (the " Payment Period"), the Company shall make the DepoBupivacaine Percentage Payments and Biologics Products Percentage Payments with respect to Net Sales of such Product in such country, as set forth in the table above (collectively, the "Percentage Payments"), as applicable, to Seller within ninety (90) days following the end of each calendar quarter. Each Percentage Payment shall be accompanied by a report, summarizing the total gross sales and total Net Sales (including an itemization of the deductions applied to the gross sales to derive such Net Sales), the number of units of Product sold (less damaged, rejected, returned or recalled Product) during the relevant calendar quarter and the calculation of the Percentage Payment, if any, due. Each such statement shall be accompanied by the payment of the Percentage Payment due to Seller. No invoice shall be required from Seller in this respect.

(b) All payments under this Schedule 1.7 shall, for sales made in the United States, be made in U.S. dollars, and shall, for all other sales worldwide, be made in Euros, in each case via wire transfer of immediately available funds or check as directed by Seller from time to time. Payments shall be without deduction of exchange, collection, transfer or other charges. Conversion into U.S. dollars and Euros, as appropriate, shall be made at the exchange rate on the applicable payment date as reported in The Wall Street Journal (East Coast edition) for the immediately preceding business day. Seller shall be entitled to interest on all late payments. Such interest shall be calculated from the date such amount was due until the date such amount is actually paid, at the prime rate of interest reported in The Wall Street Journal (East Coast Edition) for the date such amount was due plus [**]%.

(c) The DepoBupivacaine Percentage Payments shall be made in consideration for the covenant not to compete set forth in Section 9.3(a)(i) and the Biologics Products Percentage Payments shall be made in consideration for the covenant not to compete set forth in Section 9.3(a)(iv).

(d) If after the expiration of the Restricted Period, Parent or any of its Affiliates engages in the development, manufacture, marketing or sale of any product within the scope of Section 9.3(a)(i), (ii) or (iii) anywhere in the world, the obligation to make payments under Section 1.7 and this Schedule 1.7 shall automatically and immediately cease. If after the expiration of the Restricted Period, Parent or any of its Affiliates engages in the development, manufacture, marketing or sale of any product within the scope of Section 9.3(a)(iv) anywhere in the world, and the Company is then selling or thereafter sells a Biologics Product, the obligation to make payments under Section 1.7 and this Schedule 1.7 shall automatically and immediately cease.

(e) Notwithstanding the foregoing, if during the Restricted Period the Company markets and sells a product as a substitute for DepoBupivacaine, the obligation to make DepoBupivacaine Percentage Payments under Section 1.7 and this Schedule 1.7 shall automatically and immediately cease and terminate and, in lieu thereof, the aggregate sales of such substitute product shall be counted toward the achievement of the thresholds for the DepoBupivacaine Milestone Payments.

(f) Until the end of the Payment Period, as long as there is a reasonable expectation that a payment pursuant to this Schedule 1.7 will become payable in the future, if the Company or any subsidiary or majority owner of the Company proposes to sell, assign or transfer substantially all rights to any of the Products to a third party, the Company shall, as a condition of such sale, assignment or transfer, require such third party to assume the obligations of the Company pursuant to this Schedule 1.7 with respect to such Product.

1.4 Records Retention. Commencing with the First Commercial Sale of a Product, Buyer shall keep, and shall require its relevant Affiliates to keep, and shall use commercially reasonable efforts to include terms in its licenses with licensees requiring its licensees to keep, complete and accurate records pertaining to the sale of Product for a period of three (3) calendar years after the year in which such sales occurred and in sufficient detail to permit Seller to confirm the accuracy of the Percentage Payments paid by Buyer pursuant to this Schedule 1.7.

1.5 Audits.

(a) At the request and expense of Seller, Buyer (and its Affiliates, if applicable) shall permit an independent, certified public accountant appointed by Seller and reasonably acceptable to Buyer, at reasonable times and upon reasonable written notice not more than once in each calendar year, to examine such records as may be necessary for the sole purpose of verifying the calculation and reporting of Net Sales and the correctness of any Percentage Payment or other payment made under this Schedule 1.7 for any period within the preceding [**] ([**]) calendar years. Said accountant shall not disclose to Seller or any other person any information, except that such accountant may disclose to Seller the fact of a deficiency, the lack of a deficiency or any overpayment, and the degree thereof, including the dollar amount. All results of any such examination shall be made available to Buyer.

(b) In the event that any audit reveals an overpayment or an underpayment in the amount of any payments that should have been paid by Buyer to Seller, then the overpayment or underpayment amount, as the case may be, shall be paid within thirty (30) days after receipt of the final audit report, plus interest thereon. Such interest shall be calculated in accordance with Section 1.3(b) of this Schedule 1.7. In addition, if the underpayment is in excess of [**] percent ([**]%) of the amount that actually should have been paid, then Buyer shall reimburse Seller for the reasonable cost of such audit. This Section 1.5(b) of this Schedule 1.7 sets forth the Parties' sole and exclusive liability for any such overpayment or underpayment.

(c) Except in the case of circumstances which would have prevented an error or anomaly from being disclosed during an audit performed under this Section 1.5 of this Schedule 1.7 such as fraud, misrepresentation or other willful misconduct or gross negligence to provide accurate information, upon the expiration of three (3) years following the end of any calendar year, the calculation of Percentage Payments payable with respect to such year will be binding and conclusive upon each Party and Buyer will be released from any liability or accountability with respect to Percentage Payments for such calendar year.

1.6 Force Majeure. Other than with respect to obligations for the payment of money, neither Party shall be held liable or responsible to the other Party nor be deemed to be in default under, or in breach of any provision of, this Schedule 1.7 for failure or delay in fulfilling or performing any obligation of this Schedule 1.7 when such failure or delay is due to Force Majeure. In such event, Seller or Buyer, as the case may be, shall immediately notify the other Party, with written notice to follow, of such inability and of the period for which such inability is expected to continue. The Party giving such notice shall thereupon be excused from such of its obligations under this Schedule 1.7 as it is thereby disabled from performing for so long as it is so disabled. Upon termination of a Force Majeure event, the performance of any suspended obligation or duty shall promptly recommence. To the extent possible, each Party shall use reasonable efforts to minimize the duration of any Force Majeure.

Section 5.04. Confidentiality; Public Announcement.

(a) All information furnished by the Purchaser to the Seller or by the Seller to the Purchaser in connection with this Agreement and the transactions contemplated hereby, as well as the terms, conditions and provisions of this Agreement, shall be kept confidential by the Seller and the Purchaser, and shall be used by the Seller and the Purchaser only in connection with this Agreement and the transactions contemplated hereby, except to the extent that such information (i) is already known by the party to whom the information is disclosed or is already in the public domain at the time the information is disclosed, (ii) thereafter becomes lawfully obtainable from other sources, (iii) is required to be disclosed in any document to be filed with any Government Authority, or (iv) is required to be disclosed under securities laws, rules and regulations applicable to the Seller or the Purchaser, as the case may be, or pursuant to the rules and regulations of the Nasdaq National Market or any other stock exchange or stock market on which securities of any of the Seller or the Purchaser may be listed for trading. Notwithstanding the foregoing, the Seller and the Purchaser may disclose such information to their partners, directors, employees, managers, officers, investors, bankers, advisors, trustees and representatives on a need-to-know basis, provided that such Persons shall be informed of the confidential nature of such information and shall be obligated to keep such information confidential pursuant to the terms of this Section 5.04(a).

(b) Except as required by law or the rules and regulations of any securities exchange or trading system or the FDA or any Government Authority with similar regulatory authority, or except with the prior written consent of the other party (which consent shall not be unreasonably withheld), neither party shall issue any press release or make any public statement with respect to the transactions contemplated by this Agreement.

Section 5.05. Right of First Refusal.

(a) If the Seller at any time during the term of this Agreement proposes to Transfer any of the Royalty Interests (other than the Assigned Interests) (the "***Other Interests***") (each, a "***Proposed Transfer***"), then the Seller shall, at least thirty (30) days prior to the closing of such Proposed Transfer, give written notice (the "***Transfer Notice***") to the Purchaser setting forth (i) the Other Interests that are to be Transferred pursuant to such Proposed Transfer (the "***Offered Interests***"), (ii) the anticipated date of the closing of such Proposed Transfer, (iii) the names and addresses of the proposed transferees, and (iii) the material terms of such Proposed Transfer, including the cash and/or other consideration to be received in respect of such Proposed Transfer.

(b) Upon the receipt of any Transfer Notice, the Purchaser will have the option, but not the obligation, to purchase all, but not less than all, of all the Offered Interests, on the same terms as are specified in the Transfer Notice, provided, that the Purchaser will have the right to substitute cash in the amount of the fair market value of any non-cash consideration proposed to be received from the proposed transferee(s). Within twenty (20) days after the Purchaser's receipt of the Transfer Notice, the Purchaser will give a written notice (a "***Notice of Election***") to the Seller stating whether it elects to exercise such option.

(c) Failure by the Purchaser to give a Notice of Election within such time period specified in subsection (b) of this Section 5.05 will be deemed an election by the Purchaser not to exercise its option to purchase all the Offered Interests. The closing of the purchase and sale of the Offered Interests to the Purchaser will take place as soon as is reasonably practicable on such date and at such time and place, in each case as the Purchaser may reasonably determine but not later than twenty (20) days following the Seller's receipt of the Notice of Election. If the Purchaser does not elect to purchase all of the Offered Interests hereunder, the Seller will thereafter be free for a period of 90 days after expiration of the twenty (20) day period referred to subsection (b) of this Section 5.05 to consummate the Proposed Transfer described in the Transfer Notice to the transferee(s) specified therein, at the price and on substantially identical terms set forth therein. However, if such Proposed Transfer is not consummated within such 90-day period, the Seller will not Transfer any of the Offered Interests as have not been purchased within such period without again complying with all of the provisions of this Section 5.05.

Section 5.06. Licensee Audits; Audit Costs.

(a) The Seller shall, promptly after the end of each calendar quarter of the Seller (or, if applicable fiscal quarter) (but in no event later than eighty (80) days following the end of such quarter), produce and deliver to the Purchaser a Quarterly Report for such quarter, together with a certificate of a senior officer of the Seller certifying that to the knowledge of such officer (i) such Quarterly Report is a true and complete copy and (ii) any statements and any data and information therein prepared by the Seller are true, correct and accurate in all respects.

(b) To the extent the Seller has the right to perform or cause to be performed inspections or audits under any of the Royalty Agreements regarding payments payable and/or paid to the Seller thereunder (each, a "***Licensee Audit***"), the Seller shall, at the reasonable request of the Purchaser made from time to time after January 1, 2003, cause such Licensee

Audit to be promptly performed (it being understood that it shall not be a reasonable request if, in the good faith belief of the Seller, the requested Licensee Audit would impair the Seller's commercial relationship with the applicable Licensee). In conducting a Licensee Audit, the Seller may engage PricewaterhouseCoopers LLP or its then retained internationally recognized independent public accounting firm, or, if the Seller elects otherwise, such other internationally recognized independent public accounting firm reasonably acceptable to the Purchaser. Promptly after completion of any Licensee Audit (whether or not requested by the Purchaser), the Seller shall promptly deliver to the Purchaser an Audit Report in respect of such Licensee Audit. With respect to any Royalty Agreement under which the Seller has a right to perform or cause to be performed a Licensee Audit, in the event the Purchaser requests the Seller to perform a Licensee Audit and such Licensee Audit is in fact performed by or on behalf of the Seller, then if the results thereof reveal that the amounts paid to the Purchaser hereunder in respect of such Royalty Agreement for the period of such Licensee Audit have been understated by more than [**]% of the amounts determined to be due up to the time of such Licensee Audit, then the Audit Costs incurred by the Seller in respect of such Licensee Audit shall be borne by the Seller. In all other cases the Audit Costs incurred by the Seller in respect of a Licensee Audit shall be borne by the Purchaser.

Section 5.07. Purchase Option.

In the event that a Purchase Option Event shall occur, and as a result of such event the Purchaser's ability to substantially realize the economic benefits of the transactions contemplated by this Agreement is materially and adversely affected, the Purchaser shall have the right, but not the obligation, exercisable by written notice to the Seller within ninety (90) days of the Purchaser's receipt of notice from the Seller of the Purchase Option Event (the " ***Purchase Option Exercise Period***"), to require the Seller to repurchase from the Purchaser the Assigned Interests for a repurchase price equal to (i) [**]% of the aggregate amount of payments made during the preceding [**] months (calculated from the date of the Purchaser's receipt of the notice from the Seller of the Purchase Option Event) by SKPI to Purchaser with respect to DepoCyt and DepoDur and any related Reformulated Product (including, if and to the extent applicable, such payments made to the Purchaser with respect to DepoCyt and DepoDur and any related Reformulated Product prior to the date of this Agreement pursuant to the Original RIAA), multiplied by (ii) the number of days from the date of the Purchaser's exercise of such option until December 31, 2014, divided by 365 (the "***Repurchase Price***"). In the event that the Purchaser elects to exercise its right as provided in the immediately preceding sentence, then the Seller shall, within forty-five (45) days following the Seller's receipt of the Purchaser's repurchase election notice (the " ***Repurchase Period***"), repurchase from the Purchaser the Assigned Interests at the Repurchase Price, the payment of which shall be made by wire transfer, in immediately available funds, to the Purchaser's Account designated by the Purchaser in such election notice.

Section 5.08. Security Agreement.

The Seller shall at all times until the Obligations of the Seller are paid and performed in full grant in favor of the Purchaser a valid, continuing, first perfected lien on and security interest in the Royalty Interests, the Assigned Interests and the other Collateral described therein.

Section 5.09. Commercially Reasonable Efforts; Further Assurance.

(a) Subject to the terms and conditions of this Agreement, each party hereto will use its commercially reasonable efforts to take, or cause to be taken, all actions and to do, or cause to be done, all things necessary under applicable laws and regulations to consummate the transactions contemplated by this Agreement. The Purchaser and the Seller agree to execute and deliver such other documents, certificates, agreements and other writings (including any financing statement filings requested by the Purchaser) and to take such other actions as may be reasonably necessary in order to consummate or implement expeditiously the transactions contemplated by this Agreement and to vest in the Purchaser good, valid and marketable rights and interests in and to the Assigned Interests free and clear of all Liens, except those Liens created in favor of the Purchaser pursuant to the Security Agreement and any other Transaction Document.

(b) Each of the parties hereto shall execute and deliver such additional documents, certificates and instruments, and perform such additional acts, as may be reasonably requested and necessary or appropriate to carry out and effectuate all of the provisions of this Agreement and to consummate all of the transactions contemplated by this Agreement.

(c) The Seller and the Purchaser hereto shall cooperate and provide assistance as reasonably requested by the other party in connection with any litigation, arbitration or other proceeding (whether threatened, existing, initiated, or contemplated prior to, on or after the date hereof) to which any party hereto or any of its officers, directors, shareholders, agents or employees is or may become a party or is or may become otherwise directly or indirectly affected or as to which any such Persons have a direct or indirect interests, in each case relating to this Agreement, any Royalty Agreement, the Royalty Interests, the Assigned Interests or any other Collateral, or the transactions described herein or therein.

Section 5.10. Remittance to Lockbox Account.

(a) Any Lockbox Account and Concentration Account shall be held jointly by the Seller and the Purchaser. Funds deposited into the Lockbox Account shall be swept by the Lockbox Bank on a daily basis into the Concentration Account. Any funds held in the Concentration Account shall be disbursed in accordance with this Agreement and the Lockbox Agreement. Funds in the Concentration Account shall be invested at the Seller's discretion in permitted investments as set forth in the Lockbox Agreement.

(b) With respect to each Seller Remittance Date, if the Purchaser has received payment in full the amount due and owing the Purchaser on such Remittance Date and to the extent additional funds are available in the Concentration Account after such payment to the Purchaser has been made (the "***Additional Funds***"), then, subject to the immediately succeeding sentence, such Additional Funds shall be transferred into the Seller's Account on such Remittance Date. Notwithstanding anything contained in this Agreement to the contrary, if a Purchase Option Event shall have occurred and the Purchaser shall have exercised its rights under Section 5.07 and there exists no good faith dispute as to whether or not the Seller is obligated to pay the Repurchase Price, any and all funds held in the Concentration Account shall not be transferred out of the Concentration Account until the Seller has paid the Repurchase Price to the Purchaser pursuant to Section 5.07. Notwithstanding anything herein to the contrary, in the event a Bankruptcy Event shall have occurred, then any and all funds held in the Concentration Account shall not be transferred out of such account.

(c) The Seller shall pay for all fees, expenses and charges of the Lockbox Bank, which such fees, expenses and charges may be paid by debiting any Additional Funds.

(d) The Seller shall cause all Licensee Royalty Payments to be made by the applicable Licensee to the Seller under the Royalty Agreements to which the Seller and Licensee is a party to be remitted directly by such Licensee into the Lockbox Account as provided in this Section 5.10. Without in any way limiting the foregoing, any and all Licensee Royalty Payments received by the Seller shall be deposited into the Lockbox Account within one Business Day of the Seller's receipt thereof.

(e) With respect to any Royalty Agreement entered into on or before December 31, 2006, the parties acknowledge that the Seller (i) to the extent not previously done so shall, instruct any Licensee under such Royalty Agreement to remit to the Lockbox Account when due all Licensee Royalty Payments that are due and payable to the Seller in respect of or derived from such Royalty Agreement for the Royalty Interest Period, and (ii) to the extent not previously done so shall deliver to the Purchaser evidence of such instruction and of such Licensee's agreement thereto in accordance with Section 5.12.

(f) With respect to any Future Agreement entered into by the Seller from and after January 1, 2007, such Seller (i) shall, at the time of the execution and delivery of such Future Agreement, instruct any Licensee under such Future Agreement to remit to the Lockbox Account when due all Licensee Royalty Payments that are due and payable to the Seller in respect of or derived from such Future Agreement for the calendar years commencing with and including the calendar year in which such Future Agreement was entered into and through and including 2014, and (ii) shall deliver to the Purchaser evidence of such instruction and of such Licensee's agreement thereto in accordance with Section 5.12.

(g) The Seller shall not have any right to terminate the Lockbox Bank without the Purchaser's prior written consent. Any such consent, if the Purchaser desires to give, shall be subject to the satisfactory of each of the following conditions to the satisfaction of the Purchaser:

(i) the successor Lockbox Bank shall be reasonably acceptable to the Purchaser;

(ii) the Purchaser, the Seller and the successor Lockbox Bank shall have entered into a lockbox agreement substantially in the form of the Lockbox Agreement initially entered into;

(iii) all funds and items in the accounts subject to the Lockbox Agreement to be terminated shall be transferred to the new accounts held at the successor Lockbox Bank prior to the termination of the then existing Lockbox Bank; and

(iv) the Purchaser shall have received evidence that the Licensees under the Royalty Agreements have been instructed to remit all future Licensee Royalty Payments to the new accounts held at the successor Lockbox Bank.

Section 5.11. Seller's Additional Covenants.

(a) In the event that the Seller becomes aware that any Intellectual Property licensed by it to a licensee under any of the Royalty Agreements infringes or violates any third party Intellectual Property, the Seller shall promptly use commercially reasonable efforts to attempt to secure the right to use such Intellectual Property on behalf of itself and the affected Licensee and shall pay all costs and amounts associated with obtaining any such license, without any charge to the Licensee or any reduction in the Assigned Interests.

(b) The Seller shall duly perform and observe all of the Seller's covenants and obligations under each Royalty Agreement in all material respects. Upon the occurrence of a material breach of any of the Royalty Agreements by any other party thereto, which is not cured as provided therein, the Seller thereto shall in its commercially reasonable judgment, seek to enforce all of its rights and remedies thereunder.

(c) The Seller shall not, without the prior written consent of the Purchaser, which consent shall not be unreasonably withheld:

(i) Forgive, release or compromise any amount owed to the Seller and relating to the Assigned Interests;

(ii) Waive, amend, cancel or terminate, exercise or fail to exercise, any of its material rights constituting or relating to the Royalty Interests in a manner which could adversely affect the Assigned Interests;

(iii) Amend, modify, restate, cancel, supplement, terminate or waive any provision of any Royalty Agreement, or grant any consent thereunder, or agree to do any of the foregoing, including, without limitation, entering into any agreement with the Licensee under the provisions of such Royalty Agreement in each case which could reasonably be expected to have an adverse effect on any of the Royalty Interests or the Assigned Interests or any part thereof; provided, however, that the parties acknowledge and agree that this Section 5.11(c)(iii) shall not apply to the Endo Royalty Agreement, and that the Purchaser has consented to the termination of such agreement; or

(iv) Create, incur, assume or suffer to exist any Lien, or exercise any right of rescission, offset, counterclaim or defense, upon or with respect to the Royalty Interests, the Assigned Interests or the other Collateral, or agreeing to do or suffering to exist any of the foregoing, except for any Lien or agreements in favor of the Purchaser granted under or pursuant to this Agreement and the other Transaction Documents and except for the Liens set forth on Schedule 3.04.

(d) The Seller shall provide the Purchaser with written notice as promptly as practicable (and in any event within five (5) Business Days) after becoming aware of any of the following:

(i) the occurrence of a Bankruptcy Event;

(ii) any breach of any provision of this Agreement or any other Transaction Document;

(iii) any representation or warranty made or deemed made by the Seller in any of the Transaction Documents to which it is a party or in any certificate delivered by the Seller to the Purchaser pursuant hereto shall prove to be untrue, inaccurate or incomplete in any material respect on the date as of which made or deemed made;

(iv) any breach or default by the Seller of a covenant or agreement hereunder or under any other Transaction Document that is not cured within the applicable cure period;

(v) the occurrence of a Purchase Option Event (other than a Funding Termination Event); or

(vi) any sublicense by a Licensee of any rights licensed pursuant to any Royalty Agreement.

(e) Promptly (but in no event later than five (5) Business Days) after (i) receiving oral or written notice from a Licensee (A) terminating or expressing any intention to terminate the related Royalty Agreement or (B) alleging any breach of or default under such Royalty Agreement by the Seller or (C) asserting the existence of any facts, circumstances or events which alone or together with other facts, circumstances or events could (with or without the giving of notice or passage of time or both) give rise to a breach of or default under or right to terminate such Royalty Agreement or (ii) otherwise the Seller having Knowledge of any fact, circumstance or event which alone or together with other facts, circumstances or events could (with or without the giving of notice or passage of time or both) give rise to a material breach of or default under such Royalty Agreement by the Seller or a right to terminate such Royalty Agreement by such Licensee, in each case, the Seller shall give a written notice to the Purchaser describing in reasonable detail the relevant breach, default or termination event, including a copy of any written notice received from such Licensee and, in the case of any breach or default or alleged breach or default by the Seller, describing any corrective action the Seller proposes to take.

(f) The Seller shall, at its sole expense, either directly or by causing the Licensee to do so, take any and all actions and prepare, execute, deliver and file any and all agreements, documents or instruments which are necessary or desirable to (A) diligently maintain the applicable licensed Intellectual Property and the Patents and (B) diligently defend such licensed Intellectual Property and such Patents against infringement or interference by any other Persons, and against any claims of invalidity or unenforceability, in any jurisdiction (including, without limitation, by bringing any legal action for infringement or defending any counterclaim of invalidity or action of a third party for declaratory judgment of non-infringement or non-interference). The Seller shall not, and shall use commercially reasonable efforts to cause the applicable Licensee not to, disclaim or abandon, or fail to take any action necessary or desirable to prevent the disclaimer or abandonment of, the applicable Patents.

(g) The Seller shall use commercially reasonable efforts to secure and maintain, or, where a Licensee is required to do so under any Royalty Agreement, assist such Licensee in securing and maintaining, all regulatory and other governmental approvals, clearances, registrations and permits which may be required to manufacture, market and/or sell any and all of the Products and/or Reformulated Products.

(h) The Seller shall, to the extent required by the applicable Licensee, timely produce and deliver to the applicable Licensee invoices for payments owing to the Seller under the respective Royalty Agreement.

This Agreement shall terminate on December 31, 2014; provided, however, that if any payments are required to be made by one of the parties hereunder after that date, this Agreement shall remain in full force and effect until any and all such payments have been made in full, and solely for that purpose. In addition, this Agreement shall sooner terminate if the Purchaser shall have exercised its right under Section 5.07 to require the Seller to repurchase the Assigned Interests, with the termination date in that event being the date on which the Seller completes the repurchase of the Assigned Interests and pays in full in cash the Repurchase Price in accordance with the terms therein.

Nothing contained in this Section 6.02 shall relieve any party from liability for any breach of this Agreement.

ARTICLE VII

(b) Any investigation or other examination that may have been made or may be made at any time by or on behalf of the party to whom representations and warranties are made shall not limit, diminish or in any way affect the representations and warranties in this Agreement and the other Transaction Documents, and the parties may rely on the representations and warranties in this Agreement and the other Transaction Documents irrespective of any information obtained by them by any investigation, examination or otherwise.

Section 7.04. Successors and Assigns.

The provisions of this Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns; provided, however, that the Seller not shall be entitled to assign any of its obligations and rights hereunder or any other Transaction Documents without the prior written consent of the Purchaser. Without limiting the generality of the foregoing, nothing herein shall prohibit or restrict the Purchaser from assigning any of its rights and obligations hereunder other than its obligations under Section 2.03.

Section 7.05. Indemnification.

(a) The Seller hereby indemnifies and holds the Purchaser and its Affiliates and any of their respective partners, directors, managers, officers, employees and agents (each a "***Purchaser Indemnified Party***") harmless from and against any and all Losses incurred or suffered by any Purchaser Indemnified Party arising out of any breach of any representation, warranty or certification made by the Seller in any of the Transaction Documents or certificates given by the Seller in writing pursuant here to or thereto or any breach of or default under any covenant or agreement by the Seller pursuant to this Agreement or any Transaction Document, including any failure by the Seller to satisfy any of the Excluded Liabilities and Obligations.

(b) The Purchaser hereby indemnifies and holds the Seller and its Affiliates and any of their respective partners, directors, managers, officers, employees and agents (each a "***Seller Indemnified Party***") harmless from and against any and all Losses incurred or suffered by a Seller Indemnified Party arising out of any breach of any representation, warranty or certification made by the Purchaser in any of the Transaction Documents or certificates given by the Purchaser in writing pursuant here to or thereto or any breach of or default under any covenant or agreement by the Purchaser pursuant to this Agreement or any Transaction Document.

(c) If any claim, demand, action or proceeding (including any investigation by any Government Authority) shall be brought or alleged against an indemnified party in respect of which indemnity is to be sought against an indemnifying party pursuant to the preceding paragraphs, the indemnified party shall, promptly after receipt of notice of the commencement of any such claim, demand, action or proceeding, notify the indemnifying party in writing of the commencement of such claim, demand, action or proceeding, enclosing a copy of all papers

served, if any; provided, that, the omission to so notify such indemnifying party will not relieve the indemnifying party from any liability that it may have to any indemnified party under the foregoing provisions of this Section 7.05 unless, and only to the extent that, such omission results in the forfeiture of substantive rights or defenses by the indemnifying party. In case any such action is brought against an indemnified party and it notifies the indemnifying party of the commencement thereof, the indemnifying party will be entitled to participate therein and, to the extent that it may wish, jointly with any other indemnifying party similarly notified, to assume the defense thereof, with counsel reasonably satisfactory to such indemnified party (who shall not, except with the consent of the indemnified party, be counsel to the indemnifying party), and after notice from the indemnifying party to such indemnified party of its election so to assume the defense thereof, the indemnifying party will not be liable to such indemnified party under this Section 7.05 for any legal or other expenses subsequently incurred by such indemnified party in connection with the defense thereof other than reasonable costs of investigation. In any such proceeding, an indemnified party shall have the right to retain its own counsel, but the reasonable fees and expenses of such counsel shall be at the expense of such indemnified party unless (i) the indemnifying party and the indemnified party shall have mutually agreed to the retention of such counsel, (ii) the indemnifying party has assumed the defense of such proceeding and has failed within a reasonable tone to retain counsel reasonably satisfactory to such indemnified party or (iii) the named parties to any such proceeding (including any impleaded parties) include both the indemnifying party and the indemnified party and representation of both parties by the same counsel would be inappropriate due to actual or potential conflicts of interests between them. It is agreed that the indemnifying party shall not, in connection with any proceeding or related proceedings in the same jurisdiction, be liable for the reasonable fees and expenses of more than one separate law firm (in addition to local counsel where necessary) for all such indemnified parties. The indemnifying party shall not be liable for any settlement of any proceeding effected without its written consent, but if settled with such consent or if there be a final judgment for the plaintiff, the indemnifying party agrees to indemnify the indemnified party from and against any loss or liability by reason of such settlement or judgment. No indemnifying party shall, without the prior written consent of the indemnified party, effect any settlement of any pending or threatened proceeding in respect of which any indemnified party is or could have been a party and indemnity could have been sought hereunder by such indemnified party, unless such settlement includes an unconditional release of such indemnified party from all liability on claims that are the subject matter of such proceeding.

(d) An indemnified party shall not be permitted to enforce any claim under this Section 7.05 until the aggregate of all such claims of such indemnified party exceeds US$[**] (the "***Threshold Amount***"), and then only to the extent that the claims in the aggregate exceed the Threshold Amount.

Section 7.06. Expenses.

Each party hereto will pay all of its own fees and expenses in connection with entering into and consummating the transactions contemplated by this Agreement.

Section 7.07. Independent Nature of Relationship.

Nothing contained herein or in any other Transaction Document shall be deemed to constitute the Seller, on one hand, and the Purchaser, on the other hand, as a partnership, an association, a joint venture or other kind of entity or legal form.

(b) No officer or employee of the Purchaser will be located at the premises of the Seller or any of its Affiliates, except in connection with an audit performed pursuant to Section 5.02. No officer or employee of the Purchaser shall engage in any commercial activity with the Seller or any of its Affiliates other than as contemplated herein and in the other Transaction Documents.

(c) The Seller and/or any of its Affiliates shall not at any time obligate the Purchaser, or impose on the Purchaser any obligation, in any manner or respect to any Person not a party hereto.

Section 7.08. Entire Agreement.

This Agreement, together with the Exhibits and Schedules hereto (which are incorporated herein by reference), and the other Transaction Documents constitute the entire agreement between the parties with respect to the subject matter hereof and supersede all prior agreements (including the Letter of Intent), understandings and negotiations, both written and oral, between the parties with respect to the subject matter of this Agreement. No representation, inducement, promise, understanding, condition or warranty not set forth herein has been made or relied upon by either party hereto. None of this Agreement, nor any provision hereof, is intended to confer upon any Person other than the parties hereto any rights or remedies hereunder.

Section 7.09. Amendments; No Waivers.

(a) This Agreement or any term or provision hereof may not be amended, changed or modified except with the written consent of the parties hereto. No waiver of any right hereunder shall be effective unless such waiver is signed in writing by the party against whom such waiver is sought to be enforced.

(b) No failure or delay by either party in exercising any right, power or privilege hereunder shall operate as a waiver thereof nor shall any single or partial exercise thereof preclude any other or further exercise thereof or the exercise of any other right, power or privilege. The rights and remedies herein provided shall be cumulative and not exclusive of any rights or remedies provided by law.

Section 7.10. Interpretation.

When a reference is made in this Agreement to Articles, Sections, Schedules or Exhibits, such reference shall be to an Article, Section, Schedule or Exhibit to this Agreement unless otherwise indicated. The words "include," "includes" and "including" when used herein shall be deemed in each case to be followed by the words "without limitation." In connection with such collections, provided no Event of Default shall have occurred and be continuing, the Grantor may, subject to Section 5.11 of the Assignment Agreement, take (and, at the Purchaser's direction, shall take) such action as the Grantor may deem necessary or advisable to enforce collection of the applicable Royalty Agreement. At any time after an Event of Default has occurred and is continuing, the Purchaser shall have the right to notify the account debtors or obligors under any Receivables of the assignment of such Receivables to the Purchaser and to direct such account debtors or obligors to make payment to the Purchaser or any amounts due or to become due thereunder and enforce collection of any or the Receivables by suit or otherwise and surrender, release or exchange all or any part thereof, or adjust, settle or compromise or extend or renew for any period (whether or not longer than the original period) any indebtedness thereunder or evidenced thereby. (b) execute and file such financing or continuation statements, or amendments thereto, and such other instruments, assignments or notices, as may be necessary or desirable, or as the Purchaser may reasonably request, in order to perfect and preserve the security interests and other rights granted or purported to be granted to the Purchaser;

(c) furnish to the Purchaser, from time to time, statements and schedules further identifying and describing the Collateral and such other reports in connection with the Collateral as the Purchaser may reasonably request, and all in reasonable detail and in accordance with the terms of the Assignment Agreement.

With respect to the foregoing and the grant of the security interest hereunder, the Grantor hereby authorizes the Purchaser to file one or more financing or continuation statements, and amendments thereto, relative to all or any part of the Collateral without the signature of the Grantor where permitted by law. A carbon, photographic, or other reproduction of this Security Agreement or any financing statement covering the Collateral or any part thereof shall be sufficient as a financing statement where permitted by law.

Section 4.4. General Covenants.

Without limiting any of the foregoing covenants, the Grantor agrees (a) not to use or permit any Collateral to be used unlawfully or in material violation of any provision of the Assignment Agreement, this Security Agreement, any other Transaction Document, or any applicable statute, regulation or ordinance or any policy of insurance covering the Collateral; and (b) to pay promptly when due all taxes, assessments, charges, encumbrances and Liens now or hereafter imposed upon or affecting any Collateral.

Section 5.4. Reasonable Care.

It is understood and agreed between the parties hereto that the Purchaser's duty with respect to the custody, safekeeping, and physical preservation of the Collateral in its possession should be to deal with it in the same manner as the Purchaser deals with similar property few its own account; provided, however, that the Purchaser shall not be required to make any presentment, demand, or protest, or give any notice, and need not take any action to preserve any rights against any other Person with respect to the Collateral.

The indemnification obligations of the Grantor under this Section 5.5 shall survive termination of this Security Agreement and payment and performance in full of the Obligations.

The Grantor agrees that, to the extent notice of sale shall be required by law, at least ten (10) days' prior notice to the Grantor of the time and place of any public sale or the time after which any private sale is to be made shall constitute reasonable notification. The Purchaser shall not be obligated to make any sale of Collateral regardless of notice of sale having been given. Section 7.2. Release of Collateral.

If any of the Collateral shall be sold, transferred, or otherwise disposed of by the Grantor in a transaction not expressly prohibited by the Assignment Agreement, then the Purchaser shall, at the Grantor's written request, promptly execute and deliver to the Grantor (at the sole cost and expense of the Grantor) such instruments or documents necessary and as the Grantor shall reasonably request to release the Liens created hereby on such Collateral, including any necessary UCC amendment, termination statement or partial termination statement.

No failure or delay by either party in exercising any right or remedy provided by law under or pursuant to this Agreement shall impair such right or remedy or operate or be construed as a waiver or variation of it or preclude its exercise at any subsequent time and no single or partial exercise of any such right or remedy shall preclude any other or further exercise of it or the exercise of any other right or remedy.

15.10. The rights and remedies of each of the parties under or pursuant to this Agreement are cumulative, may be exercised as often as such party considers appropriate and are in addition to its rights and remedies under general law.

15.11. This Agreement may be executed in any number of counterparts and by the parties on separate counterparts, each of which is an original but all of which together constitute one and the same instrument

15.12. A person who is not a party to this Agreement, other than an Affiliate, shall have no right under the Contracts (Rights of Third Parties) Act 1999 to enforce any of its terms.

3.4.7 submit advertising literature proposed to be used in connection with the sale of the Finished Product in the Territory to Skye at least [**] ([**]) business days in advance of its intended use of same to enable Skye to provide Mundipharma with comments within said [**] ([**]) business day period. Mundipharma shall ensure that all such advertising literature complies with all relevant codes of practice, regulations and laws and shall indemnify Skye in respect of any breach;

3.4.8 promptly provide Skye with all information in its possession or otherwise coming to its attention relating to the occurrence of a serious adverse event or an adverse event (in any jurisdiction throughout the world) in connection with the Product, and promptly forward to Skye information concerning any and all charges, complaints or claims reportable to any Regulatory Authority relating to the Product that may come to Mundipharma's attention, and otherwise comply in all respects with the adverse drug event reporting and recall procedures set out or referred to in Schedule IV from time to time;

3.5.2 market the Product throughout the Territory under the Trade Marks and all marketing materials for the Product shall display the Trade Marks. In addition, all packaging shall state that "Depocyte ® is distributed by Mundipharma under an exclusive licence from SkyePharma Inc.".

3.6 Mundipharma shall not actively market distribute and/or sell the Finished Product outside the Territory but may respond to passive sales enquiries from within the EEA.

3.7 For [**] ([**]) years from the first Commercial Delivery in the EEA or during the Term, whichever is shorter, Mundipharma shall not market, distribute or sell a Competing Product in the Territory. Thereafter during the Term, Mundipharma shall purchase no less than [**] per cent ([**]%) of its total requirement (being the sum of Finished Product and Competing Product) from Skye.

3.8 If Mundipharma receives a request from a customer located both outside the EEA and outside the Territory for supply of the Product and/or Finished Product, Mundipharma shall forward such request to Skye.

3.9 Nothing in this Agreement shall entitle Mundipharma to any right or remedy against Skye if the Product is sold in the Territory by any person outside the Territory other than by Skye or with Skye's consent.

3.10 To the extent permissible by applicable law, Skye shall use commercially reasonable efforts to ensure that in the event that Skye grants exclusive marketing and distribution rights for the Finished Product to a Third Party outside the Territory, provisions having equivalent effect to those contained in Clauses 3.6 to 3.8 inclusive shall be included mutatis mutandis in any agreement for such grant of rights to such Third Party.

4 Committee

4.1 The Parties shall establish a committee ("Committee") consisting of 4 individuals ("Committee Members"); 2 of whom shall be nominated by

Skye; and 2 of whom shall be nominated by Mundipharma. The Committee Members may be replaced by notice to the other Party and shall be appropriately qualified and experienced in order to make a meaningful contribution to Committee meetings.

4.2 The purpose of the Committee is to provide a forum for the Parties to share information and knowledge on the on-going development and marketing of the Product including, but not limited to, monitoring progress on clinical studies, reviewing clinical trial programmes, considering proposed marketing and promotional plans, reviewing market conditions and discussing any regulatory, technical, quality assurance or safety issues in relation to the Product. The Committee shall conduct its discussions in good faith with a view to operating to the mutual benefit of the Parties and in furtherance of the successful development and marketing of the Product.

4.3 The Committee shall meet as often as the Committee Members may determine, but in any event not less than 2 times per Year. The Committee may invite individuals with special skills to attend such meetings where considered to be relevant and appropriate. The quorum for Committee meetings shall be 2 Committee Members, comprising 1 Committee Member from each Party.

21.7 No variation of this Agreement shall be valid unless it is in writing and signed by or on behalf of both parties.

21.8 Unless expressly agreed, no variation shall constitute a general waiver of any provisions of this Agreement, nor shall it affect any rights, obligations or liabilities under or pursuant to this Agreement which have already accrued up to the date of variation, and the rights and obligations of the parties under or pursuant to this Agreement shall remain in full force and effect, except and only to the extent that they are so varied.

21.9 If and to the extent that any provision of this Agreement is held to be illegal, void or unenforceable, such provision shall be given no effect and shall be deemed not to be included in this Agreement but without invalidating any of the remaining provisions of this Agreement. In such event the parties shall negotiate with a view to finding the nearest permissible provision to that found to be illegal, void or unenforceable. If the parties have been unable to agree as to the provision or provisions to be substituted within two (2) months then the parties shall refer the question of the re-drafting of the Agreement to an expert under the dispute resolution procedure in Schedule VIII.

21.10 No failure or delay by either party in exercising any right or remedy provided by law under or pursuant to this Agreement shall impair such right or remedy or operate or be construed as a waiver or variation of it or preclude its exercise at any subsequent time and no single or partial exercise of any such right or remedy shall preclude any other or further exercise of it or the exercise of any other right or remedy.

21.11 The rights and remedies of each of the parties under or pursuant to this Agreement are cumulative, may be exercised as often as such party considers appropriate and are in addition to its rights and remedies under general law.

21.12 This Agreement may be executed in any number of counterparts and by the parties on separate counterparts, each of which is an original but all of which together constitute one and the same instrument.

21.13 A person who is not a party to this Agreement, other than an Affiliate, shall have no right under the Contracts (Rights of Third Parties) Act 1999 to enforce any of its terms.

21.14 This Agreement and the relationship between the parties shall be governed by, and interpreted in accordance with, English law.

21.15 Each of the parties agree that the courts of England are to have exclusive jurisdiction to settle any dispute (including claims for set off and counterclaims) which may arise in connection with the creation, validity, effect, interpretation or performance of, or the legal relationships established by, this Agreement or otherwise arising in connection with this Agreement and for such purposes irrevocably submit to the jurisdiction of the English courts.

SCHEDULE IV

ADVERSE EVENTS REPORTING PROCEDURE

Objective

To enable Skye to regularly update the safety profile of its procedures, and to ensure fulfilment of the regulatory obligations of Mundipharma and Skye in their respective territories with regard to timely submissions of individual adverse event reports.

Definitions

"Adverse Event" (or experience) - ("AE"): Any undesirable experience occurring following administration of a medical product. An adverse event does not necessarily have a causal relationship with the treatment.

"Adverse Drug Reaction/Adverse Reaction" - ("ADR"): A reaction (it implies a causal relationship) to a drug which is harmful and unintended and which occurs at doses normally used in man for the prophylaxis, diagnosis, or treatment of disease, or the modification of physiological function.

A reaction is characterised by the fact that a causal relationship between the drug (medicinal product) and the occurrence is suspected, i.e. judged possible by the reporting or reviewing health-care professional. If a reaction is spontaneously reported, this usually implies a positive judgement from the reported unless the reporter explicitly gives a negative judgement on the causal relationship.

"Health Professional": Medically-qualified doctors, coroners, dentists, pharmacists and nurses.

"Serious adverse event" - ("Serious AE"): Any event occurring at any dose that is:

- fatal

- life threatening
- disabling
- incapacitating
- results in, or prolongs hospitalisation
- necessitates medical or surgical intervention to prevent permanent impairment or damage
- a congenital anomaly/birth defect
- in the opinion of a physician, is of major clinical significance

“Unexpected adverse event” – (“Unexpected AE’) Any event which is not mentioned in the local data sheet/SPC

Procedure

Any employee of Mundipharma receiving information on AEs or other data regarding the safety of the Product will forward that information immediately to an appropriate person (the Nominated Contact) appointed by Mundipharma for review/handling of safety data.

The Nominated Contact will forward reports of:

- Serious AEs or potentially Serious AEs to Skye within 1 working day of receipt of the information by Mundipharma.
- Non-serious AEs to Skye within ten (10) working days of receipt of the information by Mundipharma

AE reports should be sent by fax to:

Pharmacovigilance Department,

SkyePharma Inc.

Clinical Safety Manager

Phone: +1 858 625 2414 ext 3162

Fax: +1 858 625 0804

Prompt forwarding to Skye is necessary to allow sufficient time for processing of the report and notification to other markets and if appropriate regulatory authorities. Information to be forwarded is specified in Attachment A and should be provided in English. An internationally recognised adverse event report form (e.g. CIOMS I form) which supplies the information specified in Attachment A may be used.

NB: Forwarding of reports of AEs should not be delayed while awaiting further information. The report should identify, the nature of the AE and source of report. If additional information is expected, this should be stated on the initial report. A follow-up report should be made as soon as the additional information is available. If there is any question as to whether an AE meets the criteria of a Serious AE, the AE report will be forwarded to Skye as a Serious AE.

Skye will acknowledge the receipt of the AE report, and provide their internal reference number to quote on any future exchange of correspondence. If acknowledgement is not received within 2 working days, the original fax should be resent by Mundipharma.

Follow-up Reports

Forwarding of an AE report should not be delayed while further information is awaited. If all the necessary details are not available at the time that the initial report is forwarded, the Nominated Contact will make further contact by telephone, correspondence or personal visit to the reporter to obtain the missing information. When serious reports originate from pharmacists, nurses or consumers, efforts should be made to obtain further information about the case from the physician responsible for the patient.

Any additional information, including final outcome, will be forwarded to Skye as an addendum or 'follow-up' to the original report. This follow-up information should be identified with Skye's reference number.

Submission of reports to Regulatory Authorities

Reports originating in the Territory

Skye is responsible for submitting AE reports to the EMEA and in other countries where it holds the Regulatory Approval. Mundipharma shall be responsible for submitting AE reports in countries where it holds the Regulatory Approval. A copy of all correspondence with the Regulatory Authority will be submitted to the other party.

Reports originating in territories other than the Territory

Skye will notify Mundipharma of any serious unexpected foreign reports for information. Where Mundipharma is holder of the Regulatory Approval Mundipharma will submit the report to the local Regulatory Authority if appropriate. Where Skye is the holder of the Regulatory Approval, notification will be by copy of the report submitted to the Regulatory Authority.

The activities of both parties summarised below.

Mundipharma

- Nominates an appropriate person for receipt of safety information (Nominated Contact, NC). All information received by Mundipharma to be directed by the NC. The NC is Skye's contact for Safety matters.
- NC is responsible for safety data collection and follow up for Mundipharma territories

- NC completes an Adverse Event form for any Adverse Event/safety related issue associated with the Product and FAXES the form to the address set out above within the time limits set out above.
- Submits report to the local Regulatory Authority according to local requirements where it holds the Regulatory Approval.
- Follows-up report to obtain further details, medical confirmation, and forwards additional information (identified with Skye reference number) to Skye.

Skye

- Acknowledges receipt of report, advising reference number assigned.
- Maintains a database of Adverse Event reports.
- Copies Mundipharma on any correspondence with the Regulatory Authorities in the Territory.

All coordination of any recall or field correction activities involving Product shall be handled by Skye, in cooperation with Mundipharma, whether or not such action was initially requested by Mundipharma.

In the event that any Product is recalled as a direct result of the negligent or intentionally wrongful acts or omissions of Mundipharma or its representatives, then Mundipharma shall bear all of the costs and expenses of such recall, including expenses related to communications and meetings with all required Regulatory Authorities, expenses of replacement stock, the cost of notifying customers and costs associated with shipment of recalled Product from customers and shipment of an equal amount of replacement Product to those same customers. In the event that any Product is recalled as a direct result of the negligent or intentionally wrongful acts or omissions of Skye or its representatives or as a result of Product misbranding or failure to meet Specification, then Skye shall bear all of the costs and expenses of such

recall, including expenses related to communications and meetings with all required Regulatory Authorities, expenses of replacement stock, the cost of notifying customers and costs associated with shipment of recalled Product from customers and shipment of an equal amount of replacement Product to those same customers. To the extent that the reason for any recall of Product hereunder is in part the responsibility of Skye and in part the responsibility of Mundipharma or is not due to the fault of either Party, then the expenses shall be allocated in an equitable manner between the parties.

Not For release - DRAFT 4
**** June, 2003**

European marketing rights for DepoCyte®

Licensed to Mundipharma International Holdings Limited

LONDON, ENGLAND, June **, 2003 – SkyePharma PLC (Nasdaq: SKYE; LSE: SKP) announced today that it had reacquired the European marketing and distribution rights for DepoCyte®, a treatment for lymphomatous meningitis, and relicensed exclusive marketing and distribution rights for the product to Mundipharma International Holdings limited ("Mundipharma") for most European countries.

Under the terms of the agreement, Mundipharma will pay SkyePharma €[**] on signature plus additional milestone payments that may amount in total to €[**]. SkyePharma will manufacture the drug at its San Diego facility and supply to Mundipharma associates at an agreed transfer price. Mundipharma will also pay SkyePharma an additional royalty on sales above an agreed threshold.

SkyePharma's chief executive officer, Michael Ashton, said "We are delighted to have found in Mundipharma a partner which can bring the focused marketing and sales support needed for a specialist product like DepoCyte®. Mundipharma shares our view that lymphomatous meningitis is both under-diagnosed and under-treated and that DepoCyte® offers great potential to bring relief of suffering from this devastating complication of cancer. We look forward to working together."

DepoCyte® (known as DepoCyt® in the USA) is a sustained release injectable formulation of cytarabine and is approved in both the USA and Europe for the treatment of lymphomatous meningitis, a serious late-stage complication of lymphoma, a form of cancer affecting the lymphatic system. Lymphomatous meningitis is a subset of neoplastic meningitis (see explanation below). Cytarabine is known to be an effective treatment for neoplastic meningitis but is rapidly metabolised and so patients require spinal (intrathecal) injections every two days. SkyePharma's proprietary DepoFoam™ delivery technology encapsulates cytarabine in water solution within minute particles of lipid. After injection, these particles gradually degrade, prolonging the release of the drug and extending the period between injections to two weeks. This brings quality of life benefits to the patient and also savings in hospital costs. Furthermore, maintenance of sustained higher levels of cytarabine in the cerebrospinal fluid may also prolong the time to neurological progression.

Lymphomatous meningitis is a comparatively uncommon condition with approximately 10,000 cases reported worldwide each year. Consequently DepoCyt® has been granted "Orphan Drug" status in the USA. SkyePharma is currently conducting a Phase IV study, the data from which will be submitted in applications to the PDA and EMEA to expand the treatment indication for DepoCyt®/DepoCyte® to neoplastic meningitis associated with solid tumours. This is a more common condition and would increase the number of patients eligible for treatment with DepoCyt®/DepoCyte® approximately threefold.

DepoCyt® was approved by the US Food & Drug Administration in April 1999 and is marketed in North America by Enzon Pharmaceuticals. Rights in Japan were licensed to

Nippon-Sbinyaku in 2001 although the product is not yet on the market. DepoCyte ® was approved by the European Medicines Evaluation Authority in August 2001. European marketing and distribution rights for DepoCyte ® were licensed to Elan Pharmaceuticals ("Elan") in June 2001 but following Elan's decision not to proceed with the planned establishment of an oncology sales force, SkyePharma has reacquired these European rights for a nominal amount.

Notes to Editors

About SkyePharma

SkyePharma PLC uses its world-leading drug delivery technology to develop easier-to-use and more effective formulations of drugs. The majority of challenges faced in the formulation and delivery of drugs can be addressed by one of the Company's proprietary technologies in the areas of oral, injectable, inhaled and topical delivery, supported by advanced solubilisation capabilities. For more information, visit http://www.skyepharma.com.

About neoplastic meningitis

In many forms of cancer, secondary tumours (metastases) form in the meninges, the membrane that surrounds the brain and spinal cord. From autopsy data, neoplastic meningitis affects up to 20% of all cancer patients (Posner, Neurological Complications of Cancer 1995) but the condition is only diagnosed in 4-7% of cancer patients. The symptoms are pain and progressive neurological deterioration and few patients survive more than a few months, either from neurological dysfunction or from the primary tumour. The goal of therapy for neoplastic meningitis is palliation, not cure. The principal treatments are normally radiotherapy and chemotherapy to clear the cerebrospinal fluid of malignant cells and to prevent or slow recurrence. Most cytotoxic drugs do not cross the blood-brain barrier so the main chemotherapy treatments are methotrexate or cytarabine, injected intrathecally. These drugs reduce pain and slow neurological degradation but have the disadvantage of short half-lives that require frequent injections.

About DepoFoam™

DepoFoam™ is SkyePharma's proprietary sustained release injectable delivery technology. This is fully commercialised and approved by regulatory agencies in both the USA and Europe. DepoFoam™ consists of tiny lipid-based particles which contain discrete water-filled chambers dispersed through the lipid matrix. The particles are 10-30 microns in diameter and are suspended in saline. The suspension resembles skimmed milk and can be injected through a fine needle. The water-filled chambers containing active drug account for most of the weight of the particles. The lipids are naturally occurring substances (or close analogues) such as lecithin and triglycerides. The small amount of lipid is cleared rapidly in the body as the particles deliver their drug payload over a period that can be modified from 1 to 30 days. For example in DepoCyt ®/DepoCyte® the circulating half-life of the drug cytarabine is increased from 3.4 hours to 141 hours.

About Mundipharma

The Purdue/Mundipharma/Napp independent associated companies are privately owned companies and joint ventures covering the world's pharmaceutical markets. The companies have particular expertise in bringing to patients the benefits of novel drug delivery systems such as those used to enhance medicines for the relief of severe pain.

Such minutes shall provide a description, in reasonable detail, of the discussions at the meeting and a list of any actions, decisions or determinations approved by the JDC and a list of any issues to be resolved under the Special Arbitration Provisions.

3.6.2 The chairperson of the JDC shall then have ten (10) days after receiving such draft minutes to collect comments thereon from the members of the JDC and provide them to the secretary.

3.6.3 Upon the expiration of such second ten (10)-day period, the chairperson and the secretary shall have an additional ten (10) days to discuss each other's comments and finalize the minutes. The secretary and chairperson shall each sign and date the final minutes. The signature of the chairperson and the secretary of the JDC upon the final minutes shall indicate each Party's assent to the minutes.

3.6.4 If at any time during the preparation and finalization of JDC meeting minutes, the secretary and the chairperson do not agree on any issue with respect to the minutes, such issue shall be resolved by the Executive Officers. Each Subcommittee shall consist of such number of members of each Party as the JDC determines is appropriate from time to time. Such members shall be individuals with expertise and responsibilities in the areas of preclinical development, clinical development, intellectual property, process sciences, manufacturing, regulatory affairs, product development and/or product commercialization, as applicable to the stage of development of the applicable Compound(s) or Product(s). Each Subcommittee shall meet with such frequency as the JDC shall determine. Each Subcommittee shall operate by consensus, and each Party shall have collectively one (1) vote in all decisions. If, with respect to a mailer that is subject to a Subcommittee's decision-making authority, the Subcommittee cannot reach consensus within fifteen (15) days after it has met and attempted to reach such consensus, the matter shall be referred to the JDC, which shall resolve such matter in accordance with Section 3.5.

4.3.2 Within thirty (30) days after the completion of the Early Stage Development Activities for each Compound (including the receipt of all results therefrom), the Parties shall meet to discuss: (i) estimated costs and overall development plans if such Compound were to be further developed under the Development Program as a Product through completion of the Proof of Concept Activities; and (ii) their respective desires to continue to fund [**] percent ([**]%) of the Development Costs for the Proof of Concept Activities. Within twenty (20) days after such meeting, the JDC shall meet to determine if the Parties shall continue the development of the Compound as a Product under the Development Program and fund, on [**], [**]/[**] ([**]), basis the Development Costs of same. If either Party elects not to proceed, this Agreement shall be deemed to be terminated by mutual consent as to such Compound and the termination effects set forth in Section 4.5 shall become effective upon such termination. If only one Party wishes to proceed with the development of such Compound, the Parties shall, pursuant to Section 4.4, negotiate in good faith in order to reach a mutually acceptable agreement pursuant to which such Party would become the Sole Developing Party for such Compound.

4.3.3 Within thirty (30) days after the completion of the Proof of Concept Activities for each Product (including the receipt of all results therefrom), the Parties shall meet to discuss: (i) estimated costs and overall development plans if such Product were to be further developed under the Development Program through completion of the Registration Activities and into commercialization, if appropriate; and (ii) their respective desires to continue to fund [**]% of the Development Costs for such Registration Activities. Within twenty (20) days after such meeting, the JDC shall meet to determine if the Parties shall continue the Development of the Product under the Development Program and fund, on [**], [**]/[**] ([**]/[**]), basis the Development Costs of same. If either Party elects not to proceed, this Agreement shall be deemed to be terminated by mutual consent as to such Product and the termination effects set forth in Section 4.5 shall become effective upon such termination. If both Parties elect to proceed, each Party shall fund [**] percent ([**]%) of the Development Costs actually incurred by either Party in undertaking such Registration Activities and the Parties shall share, in accordance with the Financial Appendix, the Operating Profit or Loss associated with the commercialization of such Product(s). 4.3.5 Development Costs actually incurred by either Party under Sections 4.3.1, 4.3.2 or 4.3.3 that are more than [**] percent ([**]%) in excess of the Annual Operating Plan and Budget applicable to such Party's expenditures shall not be shared by the Parties unless and to the extent such excess Development Costs are expressly approved in writing by the other Party.

4.4 *Sole Developing Party; Royalties*. In the event one Party (a "*Sole Developing Party*"), but not the other Party, desires to continue the development and commercialization of a Compound and/or Product in the Field following the termination of the Development Program with respect to same as set forth in Sections 4.3.2 or 4.3.3, the Parties shall negotiate in good faith in order to reach a mutually acceptable agreement regarding licensing the intellectual property rights to such Compound and/or Product to the Sole Developing Party (including possible retention of certain rights by the other Party), and the transfer to the Sole Developing Party of Know-how and other relevant data, as well as any INDs and other regulatory filings, pertaining to such Compounds and Products, as the case may be, to enable the Sole Developing Party to continue such development and commercialization efforts (each such agreement, a " *Transfer Agreement*"). Each such Transfer Agreement shall provide that the Sole Developing Party shall: (i) be solely responsible for, in its sole discretion, and shall have the exclusive right to engage in, all activities relating to the further development and commercialization of such Compound or Product, in the Field, throughout the Territory; and (ii) pay to the other Party royalties on Net Sales of the Compound(s) and/or Product(s) for which it is a Sole Developing Party and appropriate development milestone payments payable and sharing of Sublicensing Income with respect to such Compound(s) and/or Product(s) based upon the application of the following factors: (1) the then current market practices for pharmaceutical products of similar commercial promise; (2) the relative financial contributions of the Parties to the development and commercialization of such Compound or Product; (3) the market potential of such Compound or Product; and (4) the apparent risks of going forward with development and commercialization.

4.5 *Termination of Development*. In the event neither Party desires to proceed with the continued development of a Compound or Product pursuant to Sections 4.4: (i) each Party shall at its own expense promptly return to the other Party all relevant records and materials in its possession or control containing Confidential Information of the other Party (*provided* that such Party may keep one copy of such Confidential Information of the other Party for archival purposes only); and (ii) the licenses granted under Sections 6.1 and 6.2, including any sublicenses thereunder, shall terminate with respect to such Compound and all Products which contain such Compound.

5. PAYMENTS AND REPORTS.

All other payments to be made under this Agreement shall be made in accordance with the terms set forth in the applicable Section(s) regarding such payments.

5.2 *Mode of Payment*. 5.3 *Records Retention*. The Parties shall keep complete and accurate records pertaining to the development and the sale of Products including, but not limited to, all Development Costs and, if relevant, to the calculation of Operating Profit or Loss, for a period of seven (7) calendar years after the year in which such sales or costs are actually incurred, and in sufficient detail to permit the other Party to confirm the accuracy of the Development Cost calculations and aggregate royalty and/or Operating Profit or Loss calculations hereunder.

5.4 *Audits*.

Said accountant shall not disclose to the Auditing Party or any other person any information, except that such accountant may disclose to the Auditing Party the fact of a deficiency, the lack of a deficiency or any overpayment, and the degree thereof, including the dollar amount. All results of any such examination shall be made available to the Audited Party.

5.4.2 In the event that any audit reveals an over- or under- payment in the amount that should have been paid by one Party to the other, then the over- or under- payment amount shall be paid within forty-five (45) days after a Party makes a demand therefor, plus interest thereon if such amount is in excess of [**] percent ([**]%) of the amount that actually should have been paid. Such interest shall be calculated from the date such amount was due until the date such amount is actually paid, at the rate of [**] percent ([**]%) over the prime rate of interest reported in the East Coast edition of *The Wall Street Journal* for the date such amount was due. In addition, in the event of underpayment, if the underpaid amount is in excess of [**] percent ([**]%) of the amount that actually should have been paid, then the paying Party shall reimburse the party due payment for the reasonable cost of such audit.

5.5 *Taxes.* In the event that a Party is mandated under the laws of a country to withhold any tax to the tax or revenue authorities in such country in connection with any payment to the other Party, such amount shall be deducted from the payment to be made by such withholding Party, *provided* that the withholding Party shall take reasonable and lawful actions to avoid and minimize such withholding and promptly notify the other Party so that the other Party may take lawful actions to avoid and minimize such withholding. The withholding Party shall promptly furnish the other Party with copies of any tax certificate or other documentation evidencing such withholding as necessary to satisfy the requirements of the United States

Internal Revenue Service related to any application by such other Party for foreign tax credit for such payment. Each Party agrees to cooperate with the other Party in claiming exemptions from such deductions or withholdings under any agreement or treaty from time to time in effect.

6.5.2 Subject to the licenses granted to Enzon pursuant to Section 6.1, SkyePharma shall retain all right, title and interest in and to the SkyePharma Technology and SkyePharma Compound IP.

6.5.3 Subject to the licenses granted to SkyePharma pursuant to Section 6.2, Enzon shall retain all right, title and interest in and to the Enzon Technology and the Enzon Compound IP.

6.5.4 SkyePharma shall solely own all Inventions to the extent any such Invention is dominated by any Patent included in the SkyePharma Technology or SkyePharma Compound IP, regardless of which Party made such Inventions. Enzon shall solely own all Inventions, to the extent any such Invention is dominated by any Patent included in the Enzon Technology or the Enzon Compound IP, regardless of which Party made such Inventions. All other Inventions relating to both the SkyePharmna Technology and/or the SkyePharma Compound IP, on the one hand, and the Enzon Technology and/or the Enzon Compound IP, on the other hand, shall be owned jointly by the Parties, regardless of which Party made such other Inventions. To the extent ownership of Inventions is not assigned by any of the foregoing sentences: (i) Inventions made solely by employees or contractors of SkyePharma shall be owned solely by SkyePharma, (ii) Inventions made solely by employees or contractors of Enzon shall be owned solely by Enzon, and (iii) Inventions made jointly by employees or contractors of both Parties shall be owned jointly by the Parties. 6.6.1 Each Party shall have full responsibility for, and shall control the preparation and prosecution of all patent applications and the maintenance of all patents relating to the Inventions owned solely by it (including the Patents) throughout the Territory. Each Party shall pay all costs and expenses of filing, prosecuting and maintaining such patent applications and patents relating to Inventions owned by it.

6.6.2 Each Party agrees promptly to provide to the other Party with a complete written disclosure of any Invention made by such Party. SkyePharma shall determine whether any Invention owned solely by it is patentable, and if so, shall, in its sole discretion, determine whether or not to proceed with the preparation and prosecution of a patent application covering any such Invention. Enzon shall determine whether any Invention owned solely by it is patentable, and if so, shall, in its sole discretion, determine whether or not to proceed with the preparation and prosecution of a patent application covering any such Invention. If either Party determines not to file an application on an Invention so disclosed or to abandon an application that has been filed, it shall promptly and timely so notify the other Party. The other Party may at its option pursue such Invention by an application it files or by continued pursuit of an existing application at its own expense. The non-filing or abandoning Party shall assign all its rights to the Invention and any related application to the filing or continuing Party but shall retain for itself and its Affiliates a covenant-not-to-sue immunity under any Patent that issues from an Invention and/or application so assigned.

6.6.3 Each Party shall select qualified patent counsel reasonably acceptable to the other Party to prepare and file and prosecute all patent applications such Party may, in its sole discretion, determine to be appropriate pursuant to Section 6.6. Each Party shall promptly provide copies to the other Party of any filings made to, and any written communications received from, any patent office relating, in whole or in part, to such patent applications or patents granted thereon reasonably in advance of the relevant proposed filing or response date. 6.6.4 SkyePharma and Enzon shall together determine whether any Invention jointly owned by SkyePharma and Enzon is patentable. SkyePharma and Enzon shall share equally all costs and expenses of preparing, filing, prosecuting and maintaining patent applications and patents relating to Inventions that are owned jointly by SkyePharma and Enzon. If either Party elects not to pay for: (i) the filing of a patent application in any country in the Territory on any jointly owned Invention that the other Party reasonably believes is patentable, or (ii) the further prosecution or maintenance of any patent application or patent on any jointly owned Invention in any country in the Territory, or (iii) the filing of any divisional or continuing patent application (based on a prior patent application or patent) on a jointly owned Invention in

any country in the Territory, such Party shall notify the other Party in writing in a timely manner and the other Party may do so at its own expense. In the event that the other Party elects to proceed with any such filing or further prosecution or maintenance, the Party electing not to pay shall assign its rights in and to such patent or patent application in such country to the other Party, and all of such assigning Party's rights in such patent or patent application in such country shall cease. In the case where Enzon is the assigning Party, the license granted to Enzon under Section 6.1 with respect to such assigned patent or patent application (and any associated sublicense(s)) shall terminate in such country. In the case where SkyePharma is the assigning Party, the license granted to SkyePharma under Section 6.2 with respect to such assigned patent or patent application (and any associated sublicense(s)) shall terminate in such country.

6.7 *Patent Enforcement.*

6.7.1 If either Party learns of an infringement, unauthorized use, misappropriation or ownership claim or threatened infringement or other such claim (an "*Infringement*") by a Third Party with respect to any Compound or Product within the Territory, such Party shall promptly notify the other Party in writing and shall promptly provide such other Party with available evidence of such Infringement.

6.7.2 The JDC shall decide whether and how to institute Infringement actions against Third Parties based on such Compound or Product within the Territory. The costs and expenses of any such action (including fees of attorneys and other professionals) and any award paid by Third Parties as a result of such an Infringement action (whether by way of settlement or otherwise) shall be included in Operating Profit or Loss and shared between the Parties in accordance with the Financial Appendix. Each Party shall execute all necessary and proper documents and take such actions as shall be appropriate to allow the other Party to institute and prosecute such Infringement actions.

6.8 *Infringement Action by Third Parties*.

6.8.1 In the event of the institution or threatened institution of any suit by a Third Party against either Party for patent infringement involving the sale, distribution or marketing of any Products in the Territory, the JDC shall meet to decide how the Parties shall respond to such suit. Each Party shall execute all necessary and proper documents and take such actions as shall be appropriate to allow the other Party to defend such actions. The costs and expenses of any such action (including fees of attorneys and other professionals) and any award paid to Third Parties as a result of such an infringement action (whether by way of settlement or otherwise) shall be included in Operating Profit or Loss and shared between the Parties in accordance with the Financial Appendix.

6.8.2 In the event of the institution or threatened institution of any suit by a Third Party against either Party for patent infringement involving the sale, distribution or

marketing of a Product in the Territory where such infringement claim is a result of the use of the SkyePharma Technology or the Enzon Technology, SkyePharma or Enzon, respectively as applicable shall have the responsibility to defend such suit at its own expense and shall be responsible for all damages incurred as a result thereof. Each Party hereby agrees to assist and cooperate with the other, at the defending Party's reasonable request and expense, in the defense of any such suit.

7. ADVERSE REACTION REPORTING.

7.1 *Adverse Reaction Reporting*.

7.1.1 Each Party responsible for clinical trials shall, with respect to such trials, record, evaluate, summarize and review all adverse drug experiences associated with the Compounds and the Products. In addition, supplemental information must be provided regarding Compounds at periodic intervals and adverse drug experiences must be reported at more frequent intervals depending upon the severity of the experience. Consequently, each Party agrees to:

(a) in a timely manner, provide to the other Party for initial and/or periodic submission to government agencies significant information on the Compound from preclinical laboratory, animal toxicology and pharmacology studies, as well as adverse drug experience reports from clinical trials and commercial experiences with each Compound and/or Product;

(b) in connection with investigational Compounds and/or Products, promptly report to the other Party the receipt of a report of any unexpected serious adverse drug experience with the Compound and/or Product, if required for either Party to comply with regulatory requirements; and

(c) in connection with marketed Products, promptly report to the other Party any serious adverse drug experience with the Product that is unexpected.

7.1.2 For purposes of this Agreement, "*Serious Adverse Drug Experience*" means any adverse drug experience occurring at any dose that results in any of the following outcomes: death, a life-threatening adverse drug experience, inpatient hospitalization or prolongation of existing hospitalization, a persistent or significant disability/incapacity, or a congenital anomaly/birth defect. Important medical events that may not result in death, be life- threatening, or require hospitalization may be considered a serious adverse drug experience when, based upon appropriate medical judgment, they may jeopardize the patient or subject and may require medical or surgical intervention to prevent one of the outcomes listed in this definition. An unexpected adverse drug experience is one that is not listed in the current labeling for the drug product. This includes events that may be symptomatically and pathophysiologically related to an event listed in the labeling, but differ from the event because of greater severity or specificity.

7.1.3 Each Party shall promptly report to the other Party the information set forth above affecting any of the Compounds or any of the Products in any country.

7.1.4 Each Party agrees that if it contracts with a Third Party for research to be performed by such Third Party on the drug, that Party agrees to require such Third Party to report to the contracting Party the information set forth above.

7.1.5 The details of adverse drug experience reporting shall be stipulated in separate agreements to be entered into by the Parties in due course.

7.1.6 Any information required pursuant to this Section 7.1 shall be deemed to have been sufficiently given if in writing and personally delivered or sent by certified mail (return receipt requested), facsimile transmission (receipt verified), or overnight express courier service (signature required), prepaid, to the Party for which such notice is intended, at the address set forth for such Party below:

8.2.1 without having conducted any patent search or other investigation, SkyePharma is not aware of any valid claim or demand which leads it to believe that the Parties' exercise of any rights to the SkyePharma Technology or SkyePharma Compound IP as contemplated by this Agreement will infringe any patent or other intellectual property right of any Third Party; and

9.1 *Notification and Review with Respect to SkyePharma and Enzon .*

9.1.1 Both Parties recognize that each may wish to publish the results of their work relating to the subject matter of this Agreement. However, both Parties also recognize the importance of acquiring patent protection. Consequently, any proposed publication, by either Party (including its Affiliates and/or Sublicensees), that includes information related to the Compounds or Products, or which otherwise includes proprietary information of the other Party or Confidential Information, shall comply with this Section 9. At least forty-five (45) days before a manuscript is to be submitted to a publisher, the publishing Party shall provide the JDC with a copy of the manuscript. If the publishing Party wishes to make an oral presentation, it shall provide the JDC with a summary of such presentation at least fifteen (15) business days before such oral presentation and, if an abstract is to be published, three business days before such abstract is to be submitted. In the event that the delay needed to complete the filing of any necessary patent application will exceed the one hundred twenty (120)-day period, the JDC will discuss the need for obtaining an extension of the publication delay beyond the one hundred twenty (120)-day period. If the JDC determines in good faith that Confidential Information or proprietary information is or may be disclosed, the JDC will determine mutually acceptable modifications to the proposed publication or presentation to avoid such disclosure.

9.1.3 Except as expressly provided in this Section 9, each Party agrees not to make any public announcement or disclosure (including, without limitation, any press release, summary or Q&A) of the terms of this Agreement or the documents ancillary thereto, or the identity or potential applications of any Compound or Product, without first obtaining the written approval of the other Party and agreement upon the nature and text of such public announcement or disclosure. On and after the Effective Date, either Party may issue a press release, the content of which will be agreed upon in advance by the Parties, with respect to the execution of this Agreement and the documents ancillary thereto. The Party desiring to make any such public announcement shall provide the other Party with a copy of the proposed announcement for review and comment in reasonably sufficient time prior to public release.

9.1.4 Each Party agrees that it shall cooperate fully with the other with respect to all disclosures regarding this Agreement and the documents ancillary thereto required under applicable laws and regulations to the United States Securities and Exchange Commission and any other comparable governmental or regulatory agencies.

10.5 *Complete Indemnification*. As the Parties intend complete indemnification, all costs and expenses, including without limitation, legal fees and expenses, actually incurred by an Indemnitee in connection with enforcement of Sections 10.1 and 10.2 shall also be reimbursed by the indemnifying Party.

11. TERM; TERMINATION.

11.1 *Term.* This Agreement shall become effective as of the Effective Date and, unless earlier terminated pursuant to the other provisions of this Section 11.1 shall expire as follows:

11.1.1 with respect to each Product, on a Product-by-Product, country-by-country basis, upon the expiration of the last to expire of all patents covering such Product in each country within the Territory; and

11.1.2 in its entirety upon the expiration of this Agreement with respect to all Products in all countries in the Territory.

11.2 *Termination for Cause.* Either Party (the "*Non-breaching Party*") may, without prejudice to any other remedies available to it at law or in equity with respect to any Compound or Product, in the event the other Party (the " *Breaching Party*") shall have materially breached or defaulted in the performance of any of its material obligations hereunder with respect to such Compound or Product and such breach or default shall have continued for sixty (60) days after written notice thereof was provided to the Breaching Party by the Non-breaching Party (or, if such breach or default cannot be cured within such sixty (60)-day period, if the Breaching Party does not commence and diligently continue actions to cure such breach or default during such sixty (60) day period). In addition, if a breach or default or group of related breaches or defaults by a Breaching Party within the preceding sentence also materially affects the entirety of this Agreement, and such breach or default or group of related breaches or defaults shall have continued for sixty (60) days after written notice thereof was provided to the Breaching Party by the Non-breaching Party (or, if such breach(es) or default(s) cannot be cured within such sixty (60)-day period, if the Breaching Party does not commence and diligently continue actions to cure such noticed breach(es) or default(s) during such sixty (60)-day period), the Non-breaching Party may, without prejudice to any other remedies available to it at law or in equity with respect to any Compound or Product, terminate this Agreement in its entirety. Any such termination under this Section shall become effective at the end of such sixty (60)-day period unless the Breaching Party has cured any such noticed breach(es) or default(s) prior to the expiration of such sixty (60)-day period (or, if such breach(es) or default(s) cannot be cured within such sixty (60)-day period, if the Breaching Party has commenced and diligently continued actions to cure such breach(es) or default(s)). The right of either party to terminate this Agreement as provided in this Section 11.2 shall not be affected in any way by its waiver or failure to take action with respect to any previous breach or default.

11.3 *Termination for Insolvency*.

11.3.1 Either Party may terminate this Agreement, if, at any time, the other Party shall file in any court or agency pursuant to any statute or regulation of any state or country, a petition in bankruptcy or insolvency or for reorganization or for an arrangement or for the appointment of a receiver or trustee of the Party or of substantially all of its assets, or if the other Party proposes a written agreement of composition or extension of substantially all of its debts, or if the other Party shall be served with an involuntary petition against it, filed in any insolvency proceeding, and such petition shall not be dismissed within sixty (60) days after the filing thereof, or if the other Party shall propose or be a party to any dissolution or liquidation, or if the other Party shall make an assignment of substantially all of its assets for the benefit of creditors.

11.3.2 All rights and licenses granted under or pursuant to any section of this Agreement are and shall otherwise be deemed to be for purposes of Section 365(n) of Title 11, United States Code (the "*Bankruptcy Code*") licenses of rights to "intellectual property" as

defined in Section 101(56) of the Bankruptcy Code. The Parties shall retain and may fully exercise all of their respective rights and elections under the Bankruptcy Code. Upon the bankruptcy of any Party, the non-bankrupt Party shall further be entitled to a complete duplicate of, or complete access to, any such intellectual property, and such, if not already in its possession, shall be promptly delivered to the non-bankrupt Party, unless the bankrupt Party elects to continue, and continues, to perform all of its obligations under this Agreement.

11.4 *Termination for Inactivity*.

11.4.1 Either Party may terminate this Agreement as to a particular Compound or Product, effective upon thirty (30) days prior written notice, if, for a period of [**] ([**]) consecutive months there is no Development Program activity for such Compound and/or Product or, for a Product at the commercialization stage, such Product is not being commercialized and/or marketed due to lack of Party activity; *provided that* in the event prior to the expiration of such thirty (30)-day period the Parties agree to resume development or commercialization activities hereunder or the Parties negotiate a mutually acceptable agreement for one Party to become a Sole Developing Party under Section 4.4, any such termination notice shall be without force or effect.

11.4.2 Either Party may terminate this Agreement, in its entirety, effective upon thirty (30) days prior written notice, if, for a period of [**] ([**]) consecutive months no Compounds and/or Products are being developed under the Development Program and no Products are being commercialized and/or marketed by a Party hereunder; *provided that* in the event the Parties agree to resume development or commercialization activities hereunder prior to the expiration of such thirty (30)-day period, any such termination notice shall be without force or effect.

11.5 *Effect of Expiration or Termination*.

11.5.1 Following the expiration of the term of this Agreement with respect to a Product in any country in the Territory pursuant to Section 11.1, each Party shall have a non-exclusive, royalty-free, paid-up, perpetual, irrevocable and sublicensable right and license, to develop, make, have made, use, market, sell, have sold, offer to sell, import, distribute and otherwise exploit such Product in the such country in the Territory. To that end, each Party may hold and use all data, reports, records, information and materials that relate to or are prepared in the course of the Development Program with respect to such Product and may in its sole discretion continue any sublicense granted by it under this Agreement.

11.5.2 If this Agreement is terminated by a Non-breaching Party with respect to particular Compound(s) and/or Product(s) pursuant to Sections 11.2, in addition to any other remedies available to such Non-breaching Party at law or in equity: (i) at the Breaching Party's expense, the Breaching Party shall promptly (1) transfer to the Non-breaching Party all relevant data, reports, records and materials in the Breaching Party's possession or control that relate to such Compound and/or Product; (2) provide the Non-breaching Party with all information necessary or desirable to cross-reference and/or assume responsibility for any INDs, Registrations Applications, Registrations and other regulatory filings in the Breaching Party's name with respect to such Compounds and/or Products; and (3) return to the Non-breaching

Party all relevant records and materials in such Breaching Party's possession or control containing Confidential Information of the Non-breaching Party relating to such Compound(s) and/or Product(s) (*provided* that the Breaching Party may keep one copy of such Confidential Information for archival purposes only); (ii) to the extent the Breaching Party owns or holds any right, title and interest in any trademarks, trade names, and logos under which such Compound(s) and/or Product(s) have been or are being marketed or sold in the Territory, the Breaching Party shall assign the same to the Non-breaching Party; (iii) the licenses granted under Section 6.1 or 6.2, as applicable, shall continue if full force, *except that* such licenses shall bear a royalty payable to the Breaching Party in accordance with Section 11.5.4; and (iv) all sub-licenses granted by the Breaching Party under this Agreement shall continue in full force and effect in accordance with the terms and conditions of the respective sublicense agreements, and the Breaching Party will assign to the Non-breaching Party those sublicense agreements to the extent relating to such Compound(s) and/or Product(s); *provided*, *however*, that this Section 11.4.2 shall not apply to any Confidential Information, licenses and sublicenses to the extent relating to any Compound(s) and/or Product(s) for which there has not been a termination.

11.5.3 If this Agreement is terminated in its entirety or as to each Compound and Product by (i) a Non-breaching Party pursuant to Section 11.2; or (ii) a Party for the other's insolvency pursuant to Section 11.3 (either of subclause (i) or (ii), the " *Terminating Party*"), in addition to any other remedies available to the Terminating Party at law or in equity: (1) at the non-Terminating Party's expense, the non-Terminating Party shall promptly transfer to the Terminating Party (A) all relevant data, reports, records and materials in the non-Terminating Party's possession or control that relate to the Development Program; (B) provide the Terminating Party with all information necessary or desirable to cross-reference and/or assume responsibility for all INDs, Registrations Applications, Registrations and other regulatory filings in the non-Terminating Party's name with respect to all Compounds and/or Products; and (C) return to the Terminating Party all relevant records and materials in the non-Terminating Party's possession or control containing Confidential Information of the Terminating Party (*provided* that the non-Terminating Party may keep one copy of such Confidential Information for archival purposes only); (2) to the extent the non-Terminating Party owns or holds any right, title and interest in any trademarks, trade names, and logos under which any Compounds or Products have been or are being marketed or sold in the Territory, the non-Terminating Party shall assign the same to the Terminating Party: (3) the licenses granted under Section 6.1 or 6.2, as applicable, shall continue in full force, *except that* such license shall bear a royalty payable to the non-Terminating Party in accordance with Section 11.5,4; and (4) all sublicenses granted by the non-Terminating Party under this Agreement shall continue in full force and effect in accordance with the terms and conditions of the respective sublicense agreements, and the non-Terminating Party will assign all such sublicense agreements to the Terminating Party.

11.5.4 Each license grant continued pursuant to Sections 11.5.2 and 11.5.3 shall, on a Product-by-Product basis, bear royalties on Net Sales of the Compound(s) and/or Product(s) that are subject to such termination and appropriate development milestone payments payable and sharing of Sublicensing Income with respect to such Compound(s) and/or Product(s). Upon such a termination occurring, the Parties shall enter into good faith negotiations regarding: (i) the applicable royalty rate(s); (ii) the development milestone payments; and (iii) the sharing of Sublicensing Income; in each case: (1) payable with respect to such Compound or Product; and (2) based upon the application of the following factors: (A) the then current market practices for

pharmaceutical products of similar commercial promise; (B) the relative financial contributions of the Parties to the development and commercialization of such Compound or Product; (C) the market potential of such Compound or Product; and (D) the apparent risks of going forward with development and commercialization; *provided that* the royalties, milestone payments, and sharing of Sublicensing Income shall each be reduced by [**] ([**]) what each otherwise would have been after application of the foregoing factors. Such matters on which the Parties cannot reach consensus within thirty (30) days after such termination shall be conclusively settled in accordance with the Special Arbitration Provisions in a manner consistent with the foregoing guidelines.

11.6 *Accrued Rights; Surviving Obligations*.

11.6.1 Termination, relinquishment or expiration of this Agreement for any reason shall be without prejudice to any rights that shall have accrued to the benefit of either Party prior to such termination, relinquishment or expiration. Such termination, relinquishment or expiration shall not relieve either Party from obligations that are expressly indicated to survive termination or expiration of this Agreement.

11.6.2 All of the Parties' rights and obligations under Sections 5.3, 5.4, 6.5, 6.7 6.8 (as to then pending actions) 7, 8, 9, 10, 11.5, 13.4 through and including 13.18 shall survive termination, relinquishment or expiration of this Agreement.

12. FORCE MAJEURE.

Any delay in the performance of any of the duties or obligations of either Party hereto (except the payment of money due hereunder) shall not be considered a breach of this Agreement, and the time required for performance shall be extended for a period equal to the period of such delay, if such delay has been caused by or is the result of acts of God; acts of public enemy; insurrections; riots; injunctions; embargoes; labor disputes, including strikes, lockouts, job actions, or boycotts; fires; explosions; earthquakes; floods; shortages of energy; governmental prohibition or restriction; or other unforeseeable causes beyond the reasonable control and without the fault or negligence of the Party so affected. The Party so affected shall give prompt notice to the other Party of such cause, and shall take whatever reasonable steps are necessary to relieve the effect of such cause as rapidly as reasonably possible.

13. MISCELLANEOUS.

13.1 *Relationship of Parties*. Nothing in this Agreement is intended or shall be deemed to constitute a partnership, agency, employer-employee or joint venture relationship between the Parties. 13.2 *Assignment*. Except pursuant to a sub-license permitted under this Agreement, neither Party shall be entitled to assign its rights or delegate its obligations hereunder without the express written consent of the other Party hereto, except that each Party may assign its rights and transfer its duties hereunder to any assignee of all or substantially all of its business (or that portion thereof to which this Agreement relates) or in the event of such Party's merger, consolidation or involvement in a similar transaction. No assignment and transfer shall be valid

or effective unless done in accordance with this Section 13.2 and unless and until the assignee/transferee shall agree in writing to be bound by the provisions of this Agreement.

When possible, each provision of this Agreement will be interpreted in such manner as to be effective and valid under applicable law, but if any provision of this Agreement is held to be prohibited by or invalid under applicable law, such provision will be ineffective only to the extent of such prohibition or invalidity, without invalidating the remainder of this Agreement

13.13 *Governing Law*. This Agreement shall be governed by and interpreted in accordance with the laws of New York without regard to conflict of law principles.

13.14 *Arbitration*.

13.14.1 Except as expressly otherwise provided in this Agreement, any dispute arising out of or relating to the interpretation of any provisions of this Agreement or the failure of any Party to perform or comply with any obligations or conditions applicable to such Party pursuant to this Agreement shall be finally settled by arbitration under the then current commercial arbitration rules of the American Arbitration Association in accordance with the terms set forth in this Section 13.14.1:

(a) Upon written request by either Party to the other Party, the Parties shall promptly negotiate in good faith to appoint a mutually acceptable independent person, with

If the Parties are not able to agree within five (5) business days after the receipt by a Party of the written request in the immediately preceding sentence, the American Arbitration Association shall be responsible for selecting an Expert within ten (10) business days of being approached by a Party. The fees and costs of the Expert and the American Arbitration Association, if applicable, shall be shared equally by the Parties. The place of arbitration of any dispute shall be New York, New York, unless the Parties agree otherwise or the selection of the Expert requires otherwise.

(b) Within five (5) business days after the designation of the Expert, the Parties shall each simultaneously submit to the Expert and one another a written statement of their respective positions on such disagreement. Each Party shall have fifteen (15) business days from receipt of the other Party's submission to submit to the Expert and the other Party a written response thereto, which shall include any scientific and technical information in support thereof. The Expert shall have the night to meet with the Parties, either alone or together, as necessary to make a determination.

(c) No later than thirty (30) business days after the designation of the Expert, the Expert shall make a determination by selecting the resolution proposed by one (1) of the Parties that the Expert deems as a whole to be the most fair and reasonable to the Parties in light of the totality of the circumstances. The Expert, shall provide the Parties with a written statement setting forth the basis of the determination in connection therewith. The decision of the Expert shall be final and conclusive.

= Operating Profit or Loss			

* The components of each Net Sales amount reported by a Party shall also be reported in supporting documentation.

8.1.3 In the event that a Generic Event occurs, the Parties shall discuss in good faith, for a period of thirty (30) days thereafter, whether, and to what extent, if any, changes should be made to the Supply Price to fairly allocate the economic burdens of such Generic Event between the Parties.

8.1.4 In the event that, as a result of changes in market conditions beyond the reasonable control of Enzon, the average Gross Margin for the Product during any two (2) consecutive Calendar Quarters falls below [**] percent ([**]%), the Parties shall meet and discuss appropriate changes, if any, to the minimum Supply Price; *provided however*, that in no case shall the Supply Price fall below Skye's fully burdened manufacturing cost plus [**] percent ([**]%). The transition services to be provided by Chiron which Enzon may request and fees therefor are set forth on *Exhibit 8.3B*

which is attached hereto and made a part hereof. Skye shall submit invoices to Enzon for the payment of such requested and approved transitional services promptly after receipt of same from Chiron. Payments shall be made by Enzon to Skye within thirty (30) days of the invoice date. 8.6 *Records Retention*. Enzon shall keep true, accurate and complete records with respect to the calculation of the Net Unit Selling Price, Net Sales and Supply Price paid under this Agreement for a period of three (3) years after the year in which the sale of the Product generating the same occurred, and in sufficient detail to allow Skye to confirm the accuracy of all payments made hereunder.

8.7 *Audit Rights*. At the request of Skye, Enzon, its Affiliates and sub-distributors, if any, shall permit an independent certified public accountant appointed by Skye, at reasonable times and upon reasonable notice (but in no event more than once per calendar year), to examine those records and all other material documents relating to or relevant to the Net Unit Selling Price, Net Sales and Supply Price in the possession or control of Enzon, its Affiliates, and/or sub-distributors, if any, for a period of two (2) years after same have accrued, as may be necessary: (i) to determine the correctness of any report or payment made under this Agreement; or (ii) to obtain information as to same with respect to any Calendar Quarter in the event of Enzon's failure to report or pay pursuant to this Agreement. Said accountant shall not disclose to Skye any information other than information relating to said reports and payments. The results of any such examination shall be made available to both Parties. Skye shall bear the full cost of the performance of any such audit except as hereinafter set forth. If, as a result of any inspection of the books and records of Enzon, its Affiliates and/or sub-distributors, if any, it is shown that Enzon's payments under this Agreement were less than the amount which should have been paid, then Enzon shall make all payments required to be made to eliminate any discrepancy revealed by said inspection within forty-five (45) days after Skye's demand therefor. Furthermore, if the payments made by Enzon were less than [**] percent ([**]%) of the amount of payments that should have been paid with respect to the period in question, Enzon shall also reimburse Skye for the cost of such examination.

8.8 *Taxes.* In the event that Enzon is required to withhold any tax to the tax or revenue authorities in the Territory regarding any payment to Skye, such amount shall be deducted from the payment to be made by Enzon, and Enzon shall promptly notify Skye of such withholding and, within a reasonable amount of time after making such deduction, furnish Skye with copies of any tax certificate or other documentation evidencing such withholding. Each

Party agrees to cooperate with the other Party in claiming exemptions from such deductions or withholding under any agreement or treaty from time to time in effect:.

9. PRODUCT WARRANTY.

9.1 *Guaranty and Warranty*. Skye guarantees and warrants to Enzon that the Product shipped to Enzon pursuant to this Agreement shall:

9.1.1 at the time of shipment, not be adulterated or misbranded within the meaning of the FDC Act, as such FDC Act is constituted and effective at the time of shipment, and shall not be an article which may not under the provisions of Section 404 and 505 of such FDC Act be introduced into interstate commerce; and

9.1.2 conform with the Product Specifications throughout its shelf life and shall be in compliance with applicable laws and regulations and all regulatory requirements of the applicable Regulatory Authorities in effect at the time of shipment.

9.2 *Disclaimer*. SKYE MAKES NO WARRANTIES, EXPRESS OR IMPLIED, OTHER THAN THOSE EXPRESSLY MADE HEREIN WITH RESPECT TO THE PRODUCT. ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE HEREBY DISCLAIMED BY SKYE.

10. CONFIDENTIALITY.

10.1 *Confidential Treatment.* Any Party receiving any Confidential Information (a " *Receiving Party*") from the other Party (a "*Disclosing Party*") in connection with the execution, delivery and performance of this Agreement agrees that all such Confidential Information: (i) shall not be used by the Receiving Party except in connection with the activities contemplated by this Agreement or in order to further the purposes of this Agreement; (ii) shall be maintained in confidence by the Receiving Party; and (iii) shall not be disclosed by the Receiving Party to any Third Party who is not a consultant of, or an advisor to, the Receiving Party or an Affiliate or sublicensee/sub-distributor, as applicable, of the Receiving Party, without the prior written consent of the Disclosing Party.

10.2 *Exceptions*. The obligations of confidentiality and non-use set forth in Section 10.1 shall not apply to any such Confidential Information which:

10.2.1 either before or after the date of the disclosure to the Receiving Party becomes published or otherwise part of the public domain through no fault or omission on the part of the Receiving Party or its Affiliates;

10.2.2 either before or after the date of the disclosure to the Receiving Party is lawfully disclosed to the Receiving Party or its Affiliates by sources other than the Disclosing Party rightfully in possession of the Confidential Information and without restriction as to confidentiality or use;

10.2.3 was known or used by the Receiving Party or its Affiliates prior to its date of disclosure to the Receiving Party as demonstrated by legally admissible evidence available to the Receiving Party or its Affiliates;

10.2.4 is independently developed by or for the Receiving Party or its Affiliates without reference to or in reliance upon the Disclosing Party's Confidential Information as demonstrated by competent written records; or

10.2.5 is required to disclose under applicable laws or regulations or an order by a court or other regulatory body having competent jurisdiction; *provided, however*, that except where impracticable, the Receiving Party shall give the Disclosing Party reasonable advance notice of such disclosure requirement (which shall include a copy of any applicable subpoena or order) and shall cooperate with the Disclosing Party to oppose, limit or secure confidential treatment for such required disclosure. In the event of any such required disclosure, the Receiving Party shall disclose only that portion of the Confidential Information of the Disclosing Party that the Receiving Party is legally required to disclose.

10.3 *Term of Obligation*. The obligations of the Parties under this Section 10 shall continue for a period of [**] ([**]) years after the date of disclosure with respect to any particular item of Confidential Information.

10.4 *Return of Materials*. Upon expiration or termination of this Agreement and the written request of the Disclosing Party, the Receiving Party shall return to the Disclosing Party all Confidential Information of the Disclosing Party that the Receiving Party possesses in tangible form and shall return to the Disclosing Party, or destroy, at the Disclosing Party's request, all Confidential Information of the Disclosing Party that the Receiving Party possesses in electronic form. Notwithstanding the foregoing, each Party may retain one copy of all Confidential Information provided by the other Party solely for archival and legal purposes.

11. TERM AND TERMINATION.

11.1 *Term.* This Agreement shall take effect on the Effective Date and shall remain in force for ten (10) years unless earlier terminated pursuant to one of the other provisions of this Section 11 (the "*Initial Term*"). Following expiration of the Initial Term, this Agreement shall be automatically renewed for successive two (2) year renewal periods (each, a "*Renewal Term*"); *provided, however*, that at any time following expiration of the Initial Term, Enzon shall have the right to terminate this Agreement upon ninety (90) days prior written notice (the Initial Term and all Renewal Terms, or parts thereof, collectively, the "*Term*").

11.2 *Termination for Cause.* Either Party (the "*Non-breaching Party*") may, without prejudice to any other remedies available to it at law or in equity (except for a termination by Enzon hereunder during Contract Year One or Contract Year Two in the Event of a Failure to Supply as more fully set forth in Section 5.8), terminate this Agreement, in whole or in part, in the event the other Party (the " *Breaching Party*") shall have materially breached or defaulted in the performance of any of its material obligations hereunder, and such default shall have continued for sixty (60) days after written notice thereof was provided to the Breaching Party by the Non-breaching Party (or, if such default cannot be cured within such sixty (60)-day period, if the Breaching Party does not commence and diligently continue actions to cure such default during such sixty (60)-day period). Any such termination shall become effective at the end of such sixty (60)-day period unless the Breaching Party has cured any such breach or default prior to the expiration of such sixty (60)-day period (or, if such default cannot be cured within such sixty (60)-day period, if the Breaching Party has commenced and diligently continued actions to cure such default).

11.3 *Termination by Skye.* Skye may terminate this Agreement without penalty upon thirty (30) days prior written notice in the event that Skye exercises its right to terminate this Agreement for Enzon's failure to achieve the Minimum Annual Net Sales in accordance with and as set forth in Section 8.1.2.

11.4 *Termination by Enzon.* In the event that a final decision is issued (including a decision to grant a permanent injunction) by a court or other governmental agency of competent jurisdiction which is unappealable or unappealed within the time allowed for such appeal, or a

settlement is entered into by Skye pursuant to Section 13.2(ii), that prohibits the manufacture, use or sale of the Product in the U.S., Enzon shall have the right to terminate this Agreement upon written notice of such event.

11.5 *Termination in the Generic Event*. In the event that a Generic Event occurs and the thirty (30) day period set forth in Section 8.1.3 has expired without agreement between the Parties as to an equitable adjustment, if any, to the Supply Price, either Party shall have the right to terminate this Agreement without penalty upon one hundred eighty (180) days prior written notice to the other Party.

11.6 *Effect of Termination*. Upon termination, relinquishment or expiration of this Agreement the Parties hereto shall have no further obligations towards each other, except the fulfillment of obligations that have accrued before the date of termination or expiration. Such termination, relinquishment or expiration shall not relieve either Party from obligations which are expressly indicated to survive termination or expiration of this Agreement.

11.6.1 All of the Parties' rights and obligations under, and/or the provisions contained in, Sections 2, 3.2, 4.1.4, 4.1.6, 6.1, 6.3, 7.2.3, 8.1 (solely for payments due for sales before the expiration, termination or relinquishment of the Agreement or pursuant to Section 11.6.2), 8.4, 8.5, 8.6, 8.7, 8.8, 9, 10, 11.6, 13, 16, 17, 19, 20, 21 and 22 shall survive termination, relinquishment or expiration of this Agreement.

11.6.2 Following the termination of this Agreement, Enzon shall retain the right to distribute the quantity of the Product that was purchased by Enzon prior to such termination for a period not to exceed [**] ([**]) months, subject to the terms and conditions of this Agreement, including without limitation, Enzon's payment obligations under Section 8.

12. ASSIGNMENT.

This Agreement shall not be assignable by either Party without the prior written consent of the other Party, which consent shall not be unreasonable withheld, except that either Party may assign its rights and transfer its duties under this Agreement in whole or in part to any of its Affiliates or in the event of such Party's merger, consolidation or sale of all or substantially all of its assets or a sale of the division or portion of the business of such Party to which the Product relates, in which case such Affiliate or assignee shall thereafter be substituted directly for such Party hereunder. In connection with any such assignment, the assigning Parry hereby unconditionally guarantees the performance of any of its Affiliates or assignees hereunder. In the event of a breach by an Affiliate or assignee in the observance of applicable terms of this Agreement, the non-assigning Party may proceed against the assigning Party and/or such Affiliate or assignee in order to enforce this Agreement. No assignment and transfer shall be valid or effective unless done in accordance with this Section 12 and unless and until the assignee, transferee or successor-in-interest shall agree in writing to be bound by the provisions of this Agreement, and upon such agreement, all references herein to the assignor, transferor or predecessor shall be deemed to refer and apply to the assignee, transferee or successor in interest.

13. INDEMNIFICATION.

13.1 *Indemnification by Enzon*. Enzon shall indemnify and hold Skye and its directors, officers, employees, representatives and agents harmless from and against any and all liabilities, claims, demands, actions, suits, losses, damages, costs and expenses (including reasonable attorney's fees and disbursements, but excluding any anticipated or actual lost profits or revenues or other special, indirect, incidental or consequential damages), based upon any Third Party claims of death, actual bodily injury or physical property damage: (i) to the extent resulting from Enzon's handling, storage, promotion, testing, use, marketing, distribution or sale of the Product;

or (ii) otherwise resulting from Enzon's negligence, willful misconduct or material breach of this Agreement (including, without limitation, of the representations, and warranties hereunder); except to the extent covered by subclause (i) of Section 13.2.

13.2 *Indemnification by Skye*. Skye shall indemnify and hold Enzon and its directors, officers, employees, representatives and agents harmless from and against any and all liabilities, claims, demands, actions, suits, losses, damages, costs and expenses (including reasonable attorney's fees and disbursements, but excluding any anticipated or actual lost profits or revenues or other special, indirect, incidental or consequential damages): (i) based upon Third Party claims of death, actual bodily injury or physical property damage (A) to the extent resulting from Skye's manufacture, handling, storage, packaging and labeling of the Product, or (B) to the extent otherwise resulting from Skye's negligence, willful misconduct or material breach of this Agreement (including, without limitation, of the representations and warranties hereunder); or (ii) which Enzon may incur, suffer or be required to pay by reason of any patent infringement suit or claim of violation of any patents, trademarks, trade secrets or other intellectual property rights of any Third Party (including but not limited to Paul Capital Partners or any of its affiliates, successors or assigns) brought against Enzon and arising from the manufacture, use or sale of the Product or the use of the Trademark.

13.3 *Procedure.* In the event that any person entitled to indemnification under this Section 13 (an " *Indemnitee*") is seeking such indemnification, such Indemnitee shall inform the other Party (the "*Indemnitor*") of the claim as soon as reasonably practicable after such Indemnitee receives notice of such claim, shall permit the Indemnitor to assume direction and control of the defense of the claim (including the sole right to settle it at the sole discretion of the Indemnitor, provided that such settlement provides for the unconditional release of the Indemnitee and does not impose any obligation on the Indemnitee or the other Party) and shall cooperate as requested (at the expense of the Indemnitor) in the defense of the claim.

13.4 *Complete Indemnification*. As the Parties intend complete indemnification, all costs and expenses incurred by an Indemnitee in connection with enforcement of this Section 13 shall also be reimbursed by the Indemnitor.

14. INSURANCE.

Each Party shall use Commercially Reasonable Efforts to maintain insurance (including general and product liability coverage) and upon such terms (including coverages, deductible limits and self-insured retentions) as is customary for the activities to be conducted by it under this Agreement and is appropriate to cover its indemnification obligations hereunder (provided that product liability coverage shall be with limits of not less than $[**]). Each Party shall furnish to the other Party evidence of such insurance, upon request.

15. ENFORCEMENT OF INTELLECTUAL PROPERTY RIGHTS.

15.1 *Notice to Skye*. If Enzon learns of an infringement, unauthorized use, misappropriation or ownership claim or threatened infringement or other such claim (any of the foregoing, an "*Infringement*") by a Third Party with respect to any Skye Technology or Trademark(s) within the Territory, Enzon shall promptly notify Skye and shall provide Skye with available evidence of such Infringement.

15.2 *Enforcement*. Skye shall have the first right, but not the duty, to institute Infringement actions against Third Parties based on any Skye Technology or Trademark(s) in the Territory. If Skye does not secure actual cessation of such Infringement or institute an Infringement proceeding against an offending Third Party within one-hundred twenty (120) days of learning of such Infringement, Enzon shall have the right, but not the duty, to institute such an action with respect: to any Infringement by such Third Party. The costs and expenses of any such

action (including fees of attorneys and other professionals) shall be borne by the Party instituting the action, or, if the Parties elect to cooperate in instituting and maintaining such action, such costs and expenses shall be borne by the Parties in such proportions as they may agree in writing. Each Party shall execute all necessary and proper documents, take such actions as shall be appropriate to allow the other Party to institute and prosecute such Infringement actions- and shall otherwise cooperate in the institution and prosecution of such actions (including, without limitation, consenting to being named as a nominal party thereto). Any award paid by Third Parties as a result of such an Infringement action (whether by way of settlement or otherwise) shall be applied first to reimburse both Parties for all costs and expenses incurred by the Parties with respect to such action on a pro rata basis and, if after such reimbursement any funds shall remain from such award they shall be allocated to Enzon to be included in Net Sales (and subject to payment to Skye of the Supply Price); *provided however* that to the extent that any damage award includes specific damage awards to the individual Parties, the remaining funds shall be allocated between the Parties in the same proportion as the total damage award was allocated to each Party.

15.3 *Infringement Action by Third Parties*. In the event of the institution or threatened institution of any suit by a Third Party against Enzon for infringement of any patent, trademark or other intellectual property right involving the marketing or sale of the Product in the Territory where such infringement claim is a result of the manufacture, use or sale of the Product, Enzon shall promptly notify Skye in writing of such suit. Skye agrees to indemnify and defend Enzon as more fully set forth in Section 13 hereof.

16. LIMITATION ON LIABILITY.

NOTWITHSTANDING ANY OTHER PROVISION OF THE AGREEMENT, NO PARTY SHALL BE LIABLE TO THE OTHER PARTY FOR ANY INDIRECT OR CONSEQUENTIAL DAMAGES HEREUNDER, SUCH AS LOSS OF REVENUE OR ANTICIPATED PROFITS OR LOST BUSINESS, REGARDLESS OF WHETHER SUCH PARTY HAS NOTICE OR KNOWLEDGE THEREOF, AND NO PARTY SHALL BE LIABLE FOR ANY SPECIAL, PUNITIVE OR EXEMPLARY DAMAGES HEREUNDER: EXCEPT WITH RESPECT TO ITS INDEMNIFICATION OBLIGATIONS UNDER SECTION 13.

17. DISPUTE RESOLUTION.

17.1 *Referral to Executive Officers*. The Parties recognize that disputes, as to certain matters may from time to time arise during the Term which relate to a Party's rights and/or obligations hereunder. If the Parties cannot resolve any such dispute within thirty (30) calendar days after notice of a dispute from one Party to the other, either Party may, by notice to another, have such dispute referred to the Chief Executive Officer of SkyePharma, plc (having offices located at 105 Piccadilly, London W1J 7NJ, England), or such other person holding a similar position as designated by Skye from time to time, and the Chief Executive Officer of Enzon, or such other person holding a similar position as designated by Enzon from time to time (such officers collectively, the "*Executive Officers*"). The Executive Officers shall meet promptly to negotiate in good faith the matter referred and to determine a resolution. During such period of negotiations, any applicable time periods under this Agreement shall be tolled, if the Executive Officers are unable to determine a resolution in a timely manner, which shall in no case be more than thirty (30) days after the matter was referred to them, the matter shall be resolved through arbitration in accordance with the provisions set forth in Section 17.2, upon notice by either Party to the other specifically requesting such arbitration.

17.2 *Arbitration*. Any dispute arising out of or relating to any provisions of this Agreement shall be finally settled by arbitration to be held in New York, New York, under the auspices and then current Commercial Arbitration Rules of the American Arbitration Association (the "AAA"). The arbitration shall be conducted by one arbitrator who is knowledgeable in the subject matter which is at issue in the dispute and who is selected by mutual agreement of the Parties or, failing such agreement, shall be selected according to the AAA rules. The Parties shall have such discovery rights as the arbitrator may allow, but in no event broader than that discovery permitted under the Federal Rules of Civil Procedure, in conducting the arbitration, the arbitrator(s) shall apply the New York Rules of Evidence and shall be able to decree any and all relief of an equitable nature, including but not limited to such relief as a temporary restraining order, a preliminary injunction, a permanent injunction, or replevin of property, as well as specific performance. The arbitrator(s) shall also be able to award direct damages but shall not award any other form of damages (e.g., consequential, punitive or exemplary damages). The reasonable fees and expenses of the arbitrator(s), along with the reasonable legal fees and expenses of the Parties (including all expert witness fees and expenses), the fees and expenses of a court reporter, and any expenses for a hearing room, shall be paid as follows: (i) if the arbitrator(s) rule in favor of one Party on all disputed issues in the arbitration, the losing Party shall pay one hundred percent (100%) of such fees and expenses; if the arbitrator(s) rule in favor of one Party on some issues and the other Party on other issues, the arbitrators shall issue with the rulings a written determination as to how such fees and expenses shall be allocated between the Parties. The decision of the arbitrators shall be final and may be entered, sued on or enforced by the Party in whose favor it runs in any court of competent jurisdiction at the option of such Party. Whether a claim, dispute or other matter in question would be barred by the applicable statute of limitations, which statute of limitations also shall apply to any claim or disputes subject to arbitration under this Section 17, shall be determined by binding arbitration pursuant to this Section 17.2.

17.3 *Injunctive Relief*. Notwithstanding the foregoing, nothing contained herein shall prohibit a Party from seeking injunctive relief from a court of competent jurisdiction in the event of a breach or prospective breach of this Agreement by the other Party which would cause irreparable harm to the Non-breaching Party.

18. FORCE MAJEURE.

Any delay in the performance of any of the duties or obligations of either Party hereto (except the payment of money due hereunder) shall not be considered a breach of this Agreement, and the time required for performance shall be extended for a period equal to the period of such delay, if such delay has been caused by or is the result of acts of God; acts of public enemy; insurrections; riots; injunctions; embargoes; labor disputes, including strikes, lockouts, job actions, or boycotts; fires; explosions; earthquakes; floods; shortages of energy: governmental prohibition or restriction; or other unforeseeable causes beyond the reasonable control and without the fault or negligence of the Party so affected. The Party so affected shall give prompt notice to the other Party of such cause, and shall take whatever reasonable steps are necessary to relieve the effect of such cause as rapidly as reasonably possible.

19. NOTICE.

Any notice or communication required or permitted to be given under or in connection with this Agreement shall be deemed to have been sufficiently given if in writing and personally delivered or sent by certified mail (return receipt requested), facsimile transmission (receipt verified), or overnight express courier service (signature required), prepaid, to the Party for which such notice is intended as follows:

20. BOOKS AND RECORDS.

Any books and records to be maintained under this Agreement by a Party or its Affiliates shall be maintained in accordance with U.S. generally accepted accounting principles, consistently applied.

21. GOVERNING LAW.

This Agreement shall be governed by the laws of the State of New York, in all respects of validity, construction and performance thereof, without regard to principles of conflicts of law.

22. MISCELLANEOUS.

22.4 *Waiver.* A waiver by either Party of any of the terms and conditions of this Agreement in any instance shall not be deemed or construed to be a waiver of such term or condition for the future, or of any subsequent breach hereof. All rights, remedies, undertakings, obligations and agreements contained in this Agreement shall be cumulative and none of them shall be in limitation of any other remedy, right, undertaking, obligation or agreement of either Party.

22.5 *Severability*. When possible, each provision of this Agreement will be interpreted in such manner as to be effective and valid under applicable law, but if any provision of this Agreement is held to be prohibited by or invalid under applicable law, such provision will be ineffective only to the extent of such prohibition or invalidity, without invalidating the remainder of this Agreement.

22.6 *Amendment*. No amendment, modification or supplement of any provisions of this Agreement shall be valid or effective unless made in writing and signed by a duly authorized officer of each Party.

22.7 *Entire Agreement.* This Agreement together with the schedules and exhibits hereto, sets forth the entire agreement and understanding between the Parties as to the subject matter hereof and merges all prior discussions and negotiations between them, and neither of the Parties shall be bound by any conditions, definitions, warranties, understandings or representations with respect to such subject matter other than as expressly provided herein or as duly set forth on or subsequent to the date hereof in writing and signed by a proper and duly authorized officer or representative of the Party to be bound thereby.

Any labor

costs of PPI employees related to this assistance shall be reimbursed by EKR at a rate of [**] dollars ($[**]) per hour. PPI represents and warrants that as of the Agreement Date, except for the studies set forth on Schedule X attached hereto (the "**Required Studies**"), no post-marketing or Phase IV studies are required by any applicable Regulatory Authority to be conducted with respect to the Product. EKR shall be responsible for the conduct of the Required Studies after the Agreement Date, at its own expense, in accordance with the requirements of the applicable Regulatory Authorities. PPI shall be responsible for all costs and liabilities incurred prior to the Agreement Date with respect to the Required Studies, and shall indemnify and hold harmless EKR from such costs and liabilities. Promptly after the Agreement Date, PPI shall provide EKR with copies of all agreements relating to the Required Studies and shall assign such agreements to EKR if and to the extent (i) such agreements are assignable in accordance with their terms and (ii) requested by EKR.

3.11 Governmental Rebates. PPI shall at its own cost and expense be responsible for all discounts, rebates, or promotional allowances/incentive programs deemed to be "discount[s] or other reduction[s] in price" for purposes of 42 U.S.C. Notwithstanding anything contained herein to the contrary, in the event that EKR is entitled to exercise its right to terminate this Agreement pursuant to Section 16.1(a), in addition to the right to terminate as provided therein and any other remedies EKR may have hereunder, PPI shall assist EKR in the transfer of the manufacture of the Products, including the Specifications from PPI to EKR or EKR's designee. In such event, the Royalty payments payable hereunder shall continue to be paid; provided, however, that all costs incurred by EKR in the transfer of manufacturing information from PPI and obtaining FDA approval of the manufacture of the Products by EKR or EKR's designee, and any other amounts due to EKR, shall be deducted from any royalties payable to PPI. In addition, PPI shall during the remainder of the Term and for a period of up to [**] ([**]) years thereafter continue to manufacture and supply the Product to EKR at cost without mark-up until such time that EKR can secure an FDA approved manufacturing facility for the Product. PPI shall provide such advice as necessary for EKR to arrange for an alternative manufacturer and shall provide EKR with access to all relevant PPI Know-How, and any other information necessary for EKR to transfer such manufacturing to an alternate manufacturer. In addition, (i) PPI shall transfer to EKR any Marketing Authorizations held by PPI and (ii) the Trademark license granted under Section 2.3 shall continue in effect following such termination on a perpetual basis and EKR shall be responsible for all costs associated with the maintenance of such Trademark.

17.5 EKR Step-In Rights.

(a) During the Term, in the event EKR has the right to terminate this Agreement under Section 16.1(a) – (i) hereof (the "**Step-in Right Trigger Event**"), and EKR does not exercise its right to terminate this Agreement under such Section, EKR shall have the option to exercise step-in rights to manufacture the Product for the remainder of the Term (the " **Step-in Right**") by providing PPI written notice of such election within ninety (90) days after the Step-in Right Trigger Event (or such longer period as mutually agreed by the Parties) (the "**Step-in Right Notice**"); provided that in the event such Step-in Right Trigger Event has been cured prior to EKR's exercise of the Step-in Right, the Step-in Right shall terminate with respect to such Step-in Right Trigger Event. The Step-in Right Notice shall specify the date which EKR intends to exercise the rights associated with the Step-in Right.

(b) In the event EKR exercises the Step-in Right, PPI shall, at EKR's cost and expense, cooperate in the exercise of such rights and EKR shall reimburse PPI for the reasonable costs PPI incurs in assisting EKR in the exercise of such rights within thirty (30) days of EKR's receipt of invoice.

(c) The Step-in Right shall include, without limitation, and to the extent allowable under Applicable Law, PPI's grant to EKR of such additional license rights, rights of access, rights of observation and rights of management, direction and control, in each case solely with respect to the manufacture and supply of Product and as reasonably necessary to enable and permit EKR (or EKR's designee) to ensure that the supply of Product shall continue to be available to EKR under this Agreement and the Supply Agreement; provided that EKR in exercising the Step-in Right shall not (i) unreasonably interfere with PPI's other activities at the facilities at which the Product is manufactured, tested, labeled, stored or

otherwise handled ("**Product Facilities**") or (ii) require PPI to take any action or fail to take any action that does or could reasonably be expected to interfere with PPI's other activities at the Product Facilities. The foregoing rights shall apply with respect to any Product Facility to the extent necessary for EKR to preserve and protect supply of the Product as contemplated by this Agreement and the Supply Agreement. For the avoidance of doubt, (i) upon termination of the Lease Term, PPI shall maintain responsibility and control over all other products manufactured by PPI and nothing in this Section 17.5 shall give EKR any rights to direct, manage or control the manufacture of such products (ii) PPI shall maintain responsibility and control over the facilities where Product is manufactured, tested, labeled, stored or otherwise handled and nothing in this Section 17.5 shall give EKR general oversight or control of the facilities where Product is manufactured, tested, labeled, stored or otherwise handled.

(d) In the event EKR exercises the Step-in Right, EKR shall comply with all policies applicable to the facilities where Product is manufactured, tested, labeled, stored or otherwise handled and all Applicable Laws with respect to the manufacture of the Product.

PRESS RELEASE

News Release

EKR Therapeutics Achieves Key Growth Milestone with the Acquisition of Rights to DepoDur®, a Novel Extended-Release Opioid Analgesic for Post Operative Pain

Cedar Knolls, N.J., August X, 2007 – EKR Therapeutics, Inc., a specialty pharmaceutical company focused on acquiring, developing, and commercializing proprietary products to enhance patient quality-of-life in the acute care setting, today announced it has acquired exclusive marketing and distribution rights to DepoDur® for the Americas from San Diego-based Pacira Pharmaceuticals who retains manufacturing rights to the product.

Formerly a business unit of SkyePharma, plc, Pacira Pharmaceuticals is an independent private company focused on developing and manufacturing controlled-release injectable products based on their DepoFoam™ and Biosphere™ drug delivery platforms.

DepoDur, which utilizes the DepoFoam technology, is a sterile injectable suspension of multivesicular liposomes formulated to provide extended release of morphine sulfate. It is the only extended-release opioid that is approved by the Food and Drug Administration for epidural use. A single injection of DepoDur into the lumbar epidural space may provide pain relief for up to 48 hours following major surgery without the restrictions and potential complications associated with an indwelling epidural catheter.

"The product characteristics of DepoDur fit exceptionally well with EKR's acquisition model," said Howard Weisman, EKR's Chairman & CEO. "DepoDur is patent protected, addresses an important medical need in our market space, and has growth prospects that can be fully exploited through the application of EKR's expertise and strengths in the acute care market."

Mr. Weisman further noted, "EKR is commencing a number of pre-launch activities, including interacting with opinion leaders, and we expect to fully deploy our sales force in support of DepoDur early next year." He concluded, "We are very optimistic about EKR's growth prospects in 2008 as we foresee a ramp up in sales for both DepoDur and Gelclair® and anticipate favorable market synergies between these products." Gelclair, which is marketed to acute care facilities and cancer centers, is indicated for the management of pain associated with oral lesions of various etiologies, including chemotherapy and radiation induced oral mucositis/stomatitis.

Tong Zhang, Ph.D., Director of Business Development for EKR, added, "Acquiring the rights to DepoDur exemplifies EKR's strategy of focusing on building a portfolio of premier products in the acute care space." He further noted, "Our strict acquisition criteria center on high-margin, innovative products that offer value to healthcare providers and their patients, thus, representing excellent opportunities for EKR to realize strong returns on investment."

"Pacira Pharmaceuticals is delighted to have EKR Therapeutics as our marketing and commercialization partner for DepoDur in the Americas," commented Fred Middleton, Pacira's Chairman of the Board. "This product was clinically developed as a proprietary treatment by Pacira R&D and it received FDA approval in 2004 for long-acting post surgical pain management, for which it is known to be effective."

Mr. Middleton further noted, "EKR Therapeutics has demonstrated in the past that they possess the strengths to successfully bringing a focused marketing and clinician targeting approach to DepoDur to help it reach its full commercial potential. We look forward to working with EKR, as our partner on the expanded commercial marketing of DepoDur."

Detailed terms of the transaction were not disclosed. However, EKR did note that in addition to royalty payments on net sales, it has agreed to an upfront payment amounting to somewhat more than [**] times DepoDur's 2006 U.S. sales. EKR has also agreed to certain milestone payments with the sum of upfront and milestone payments potentially worth up to $[**].

Within thirty (30) days of the end of each Calendar Year, there shall be

Notwithstanding the foregoing, on the Price Revision Dates, Pacira may at its sole discretion increase the Product Price by an amount up to the greater of (a) the percentage increase (if any) in the index of manufacturers other than of food, beverages, tobacco and petroleum products ("Manufacturers' (Other) Index"), published by the UK Central Statistics Office for the immediately preceding Year (or as applicable its successor index), and (b) [**] percent ([**]%); provided that such increase will only be permitted to the extent that Flynn Pharma has been able to secure a corresponding increase in the average in- market price of the Product as reported in the Quarterly report provided pursuant to clause 5.2; provided further that Flynn Pharma shall use its reasonable commercial efforts to secure such increase in the price of the Product. Pacira shall provide Flynn Pharma no less than ninety (90) days notice of any proposed price increase.

5.10 Notwithstanding the above clause 5.9, if Pacira's labour, overhead and/or raw material cost of the Product increases by more than [**] percent ([**]%) above the cost at the Effective Date or at the date of the last price increase, whichever is later, and the Product Price cannot be increased proportionately, then the Commercialisation Committee shall meet and

cooperate to enter into an agreement with a third party manufacturer for whom the labour, overhead and/or raw material costs with respect to the Products are at least [**] percent ([**]%) lower than Pacira's labour, overhead and/or raw material costs. The Commercialisation Committee will agree on the terms of the agreement with the third party manufacturer together with a royalty payment to be made to Pacira by Flynn Pharma and/or the third party manufacturer under such agreement.

5.11 In the event that such agreement cannot be reached with a third party manufacturer, or an agreement cannot be reached with respect to the royalty payment to Pacira by Flynn Pharma and/or the third party manufacturer, in accordance with clause 5.10 above, within 120 days of Pacira informing Flynn Pharma that its costs have increased as set out in 5.9 above, then Pacira shall have the right at its option to terminate this Agreement on ninety (90) days written notice to Flynn Pharma.

A full draft is to be supplied but please note the following:

Forecasting and Ordering (part)

Detailed Forecast. Within thirty (30) days of the Effective Date of the Supply Agreement or twelve (12) months before the anticipated Commercial Delivery, whichever is later, Licensee shall provide to Pacira a written estimate of its monthly unit requirements (by country) for the Finished Product for the next succeeding twelve (12) months (this forecast and each succeeding forecast, a "Forecast"). Each Forecast shall be updated monthly on the tenth (10th) day of the month on a twelve (12)-month rolling basis. Each Forecast shall include, during the relevant periods, the quantities necessary for commercial launch, ramp-up, and pipeline fill.

Firm Purchase Requirement. The forecast of the most current three (3) month period shall be binding on the Parties and shall be deemed a firm purchase order for which Licensee shall provide a written purchase order stating in detail the required quantities (by country) of the Product and the required delivery dates. The forecast for the remaining nine (9) month period of each rolling forecast is for planning purposes and shall not constitute a commitment to purchase or supply Product.

Unless otherwise mutually agreed upon by the Parties, all Purchase Orders submitted by Licensee for delivery of Product in any given month shall not be less than [**]% of the amount forecast for such month in the Forecast immediately preceding the Forecast that is deemed to be a firm purchase order for such month.

In the event that Licensee submits any Purchase Order to purchase Product in any given month in an amount in excess of [**]% of the amount forecasted for such month in the Forecast immediately preceding the Forecast that is deemed to be a firm purchase order for such month, Pacira shall use its commercially reasonable efforts to deliver the quantity ordered by Licensee; provided however, Pacira shall not be liable to Licensee for any inability to deliver the amount of Products ordered by Licensee in excess of such amount.

Supply, Delivery, Title and Payment (part)

Title and risk of loss and/or damage of the Product shall pass to Licensee upon delivery FOB (Incoterms 2000) Pacira's EU release site, or other location designated by Pacira. Upon assumption of Product title, Licensee shall be responsible for arranging and maintaining proper temperature controlled handling and necessary narcotic product security through out the Supply Chain, to the delivery of the product to end customer.

Licensee will provide to Pacira on a quarterly basis, or more frequently if required by regulators such as the DEA, a report designating Product deliveries, by unit, by country, and by customer, in accordance with either existing or negotiated narcotic tracking requirements from the U.S. or EU. In addition, Licensee will be responsible for producing other product consumption reports or product tracking information (i.e. diversion) as may be required by a U.S. and/or EU regulatory authority from time to time.

The payments and benefits shall be paid within ten (10) days following the date the Release becomes effective (the " Payment Commencement Date"). The provision of payments and benefits pursuant to this Section 5 shall be subject to the terms and conditions set forth on Exhibit B.

(d) Termination without "Cause" or for "Good Reason" Prior to or Following a Change of Control . In the event that the Company terminates the provision of Services by MPM and the Consultant without Cause (as defined below) or, in the event that MPM and the Consultant terminate the provision of Services for Good Reason (as defined below), in each case, within thirty (30) days prior to, or twelve (12) months following, the consummation of a Change of Control, then (i) MPM shall be entitled to receive continuing payments of the Services Fee then in effect for a period of nine (9) months beginning on the Payment Commencement Date, and (ii) the Consultant shall be entitled to acceleration of vesting of one hundred percent (100%) of the then unvested Option Shares, provided, however that in each case, the receipt of such

(i) "Change of Control" means (A) a merger or consolidation of either the Company or Pacira, Inc., a Delaware corporation (" Parent") into another entity in which the stockholders of the Company or Parent (as applicable) do not control fifty percent (50%) or more of the total voting power of the surviving entity (other than a reincorporation merger); (B) the sale, transfer or other disposition of all or substantially all of the Company's assets in liquidation or dissolution of the Company; or (C) the sale or transfer of more than fifty percent (50%) of the outstanding voting stock of the Company. In the case of each of the foregoing clauses (A), (B) and (C), a Change of Control as a result of a financing transaction of the Company or Parent shall not constitute a Change of Control for purposes of this Agreement.

(ii) "Cause" means (A) Consultant's failure to substantially perform his duties to the Company after there has been delivered to Consultant written notice setting forth in detail the specific respects in which the Board believes that Consultant has not substantially performed his duties and, if the Company reasonably considers the situation to be correctable, a demand for substantial performance and opportunity to cure, giving Consultant thirty (30) calendar days after he receives such notice to correct the situation; (B) Consultant's having engaged in fraud, misconduct, dishonesty, gross negligence or having otherwise acted in a manner injurious to the Company or in intentional disregard for the Company's best interests; (C) Consultant's failure to follow reasonable and lawful instructions from the Board and Consultant's failure to cure such failure after receiving twenty (20) days advance written notice; (D) Consultant's material breach of the terms of this Agreement or the Confidentiality Agreement (as defined herein) or any other similar agreement that may be in effect from time to time; or (E) Consultant's conviction of, or pleading guilty or nolo contendere to, any misdemeanor involving dishonesty or moral turpitude or related to the Company's business, or any felony.

(iii) "Good Reason" means the occurrence of any one or more of the following events without the prior written consent of MPM and the Consultant: (A) any material reduction of the then effective Services Fee other than in accordance with this Agreement or which reduction is not related to a cross-executive team salary reduction; (B) any material breach by the Company of this Agreement; or (C) a material reduction in Consultant's responsibilities or duties other than in connection with a reduction in the percentage of time that Consultant is devoting to the Company, provided that in the case of clause (C), a mere reassignment following a Change of Control to a position that is substantially similar to the position held prior to the Change of Control transaction shall not constitute a material reduction in job responsibilities or duties; provided, however, that no such event or condition shall constitute Good Reason unless (x) MPM and the Consultant give the Company a written notice of termination of the provision of Services for Good Reason not more than ninety (90) days after the initial existence of the condition, (y) the grounds for termination (if susceptible to correction) are not corrected by the Company within thirty (30) days of its receipt of such notice and (z) the termination of the provision of Services occurs within one year following the Company's receipt of such notice.

6. Non-Disclosure, Inventions and Non-Solicitation Agreement . Consultant has executed a Non-Disclosure, Inventions and Non-Solicitation Agreement with MPM (the "Confidentiality Agreement") that protects the disclosure of confidential information of the Company. MPM shall take all commercially reasonable actions necessary to ensure that each of its other employees, agents or affiliates who may perform the Services for or on behalf of the Company or may have any access to the Company's confidential or proprietary information pursuant to this Agreement signs a Non-Disclosure, Inventions and Non-Solicitation Agreement substantially similar to the Confidentiality Agreement executed by Consultant.

7. Representations and Warranties.

(a) Representations of the Company . As an inducement to MPM and Consultant to enter into this Agreement, the Company represents and warrants to MPM and Consultant as follows:

(i) The Company is duly organized and validly existing under the laws of the State of California and has all requisite corporate power to enter into this Agreement.

(ii) Neither the execution and delivery of this Agreement nor the consummation of the transactions contemplated herein nor compliance by the Company with any of the provisions hereof will: (a) violate any order, writ, injunction, decree, law, statute, rule or regulation applicable to it or (b) require the consent, approval, permission or other authorization of, or qualification or filing with or notice to, any court, arbitrator or other tribunal or any governmental, administrative, regulatory or self-regulatory agency or any other third party.

(iii) This Agreement has been duly executed and delivered by the Company and constitutes a valid and binding agreement of the Company, enforceable against the Company in accordance with its terms.

(b) Representations of MPM and Consultant . As an inducement to the Company to enter into this Agreement, MPM and Consultant represent and warrant to the Company that neither MPM nor Consultant is a party to or otherwise subject to any agreements or restrictions that would prohibit MPM or Consultant from entering into this Agreement and carrying out the transactions contemplated by this Agreement in accordance with the terms hereof, and this Agreement and the transactions contemplated hereby will not infringe or conflict with, and are not inconsistent with, the rights of any other person or entity. The parties to this Agreement acknowledge that Consultant's services are provided in connection with Consultant's employment relationship with MPM.

8. Survival of Representations, Warranties and Covenants . The provisions of Sections 5, 6 and 8 hereof shall survive the termination of this Agreement.

10. No Employment Relationship. The parties hereto acknowledge and agree that Consultant is an employee of MPM and not an employee of the Company, and nothing herein shall be construed to be inconsistent with this relationship or status. Neither MPM nor Consultant shall be entitled to any benefits which the Company may make available to its employees from time to time. Except as expressly set forth herein, MPM shall have sole responsibility for the payment of all compensation due to Consultant, for the maintaining of adequate workers' compensation insurance coverage for Consultant, and for the withholding of all applicable federal, state or local taxes or contributions imposed under any unemployment insurance, social security, income tax or other tax law or regulation with respect to MPM's or Consultant's performance of Services hereunder.

11. Amendments. Any amendment to this Agreement shall be made in writing and signed by the parties hereto.

12. Enforceability. If any provision of this Agreement shall be invalid or unenforceable, in whole or in part, then such provision shall be deemed to be modified or restricted to the extent and in the manner necessary to render the same valid and enforceable, or shall be deemed excised from this Agreement, as the case may require, and this Agreement shall be construed and enforced to the maximum extent permitted by law as if such provision had been originally incorporated herein as so modified or restricted or as if such provision had not been originally incorporated herein, as the case may be.

13. Governing Law. This Agreement shall be construed and interpreted in accordance with the internal laws of the state of California, without reference to conflicts of laws principles thereunder.

14. Assignment.

1. Subject to this Exhibit B, any severance payments or benefits that may be due under the Agreement shall begin only upon the date of MPM's and the Consultant's "separation from service" (determined as set forth below) which occurs on or after the termination of the provision of Services. The following rules shall apply with respect to distribution of the severance payments and benefits, if any, to be provided to the MPM and the Consultant under the Agreement, as applicable:

(a) It is intended that each installment of the severance payments and benefits under the Agreement provided under shall be treated as a separate "payment" for purposes of Section 409A. Neither the Company nor MPM nor the Consultant shall have the right to accelerate or defer the delivery of any such payments or benefits except to the extent specifically permitted or required by Section 409A.

(b) If, as of the date of Consultant's "separation from service" from the Company, Consultant is not a "specified employee" (within the meaning of Section 409A), then each installment of the severance payments and benefits shall be made on the dates and terms set forth in the Agreement.

(ii) Each installment of the severance payments and benefits due under the Agreement that is not described in this Exhibit B, Section 1(c)(i) and that would, absent this subsection, be paid within the six-month period following Consultant's "separation from service" from the Company shall not be paid until the date that is six months and one day after such separation from service (or, if earlier, Consultant's death), with any such installments that are required to be delayed being accumulated during the six-month period and paid in a lump sum on the date that is six months and one day following the separation from service and any subsequent installments, if any, being paid in accordance with the dates and terms set forth herein; provided, however, that the preceding provisions of this sentence shall not apply to any installment of payments if and to the maximum extent that that such installment is deemed to be paid under a separation pay plan that does not provide for a deferral of compensation by reason of the application of

Treasury Regulation 1.409A-1(b)(9)(iii) (relating to separation pay upon an involuntary separation from service). Any installments that qualify for the exception under Treasury Regulation Section 1.409A-1(b)(9)(iii) must be paid no later than the last day of Consultant's second taxable year following the taxable year in which the separation from service occurs.

EXECUTIVE EMPLOYMENT AGREEMENT

This Executive Employment Agreement (the "Agreement"), is entered into as of October 27, 2010 (the "Effective Date"), by and between Pacira Pharmaceuticals, Inc., a California corporation (the "Company"), and David Stack (the "Executive").

RECITALS

WHEREAS, the Company wishes to continue to employ the Executive, and the Executive desires to continue to be employed by the Company, for such purpose and upon the terms and conditions hereinafter provided; and

WHEREAS, the parties wish to establish the terms of the Executive's future employment with the Company and set out fully their respective rights, obligations and duties.

AGREEMENT

In consideration of the promises and the terms and conditions set forth in this Agreement, the parties agree as follows:

1. Title and Capacity. The Company hereby agrees to continue to employ the Executive, and the Executive hereby accepts continued employment with the Company, under the terms set forth in this Agreement. The Executive will serve as the President and Chief Executive Officer of the Company and shall perform such duties as are ordinary, customary and necessary in such role. The Executive will report directly to the Board of Directors of the Company (the "Board"). During the period of the Executive's employment as the President and Chief Executive Officer of the Company, the Company shall nominate (and re-nominate, as appropriate) the Executive and, if elected by the Company's stockholders, the Executive shall serve as a member of the Board.

2. Compensation and Benefits.

(a) Salary. The Company agrees to pay the Executive an annual base salary of Four Hundred Thousand Dollars and Twelve Cents ($400,000.12) payable in accordance with Company's customary payroll practice (the "Base Salary"). The Executive's Base Salary shall be reviewed periodically by the Board; *provided*, *however*, that any such review will not necessarily result in an adjustment to the Executive's Base Salary. Any change in the Executive's Base Salary must be approved by the Board.

(b) Bonus. The Executive is eligible to receive, in addition to the Base Salary and subject to the terms hereof and at the full discretion of the Board, a targeted incentive bonus of fifty percent (50%) of Base Salary (the "Targeted Incentive Bonus"). The Targeted Incentive Bonus shall be based on the Executive's and the Company's performance during the applicable fiscal year, as determined by the Board. The Targeted Incentive Bonus criteria or "goals" will be determined by agreement between the Board and the Executive at beginning of each fiscal year. The award of the Target Incentive Bonus may be in an amount either above or below the amount specified by the Board at the beginning of each fiscal year based on the ultimate performance assessed by the Board.

The Targeted Incentive Bonus, if awarded, shall be payable in the first payroll period in 2012, but in no event later than March 15, 2012. Targeted Incentive Bonuses for subsequent years shall be determined and approved by the Board in its sole discretion.

All salary and bonuses shall be subject to all applicable withholdings and deductions.

(c) Stock Options. On September 2, 2010, the Company granted to the Executive two stock options (each an " Option" and collectively, the "Options") to purchase an aggregate of four million seven hundred and fifty thousand (4,750,000) shares of the Company's common stock, $0.001 par value per share (the "Option Shares"), pursuant to the Company's 2007 Stock Option/Stock Issuance (the " Plan"). The exercise price, vesting schedule and other terms for each of the Options are set forth in the notice of grant and option agreement for each such Option and the Options are subject to accelerated vesting as set forth in Section 3 hereof. Additional equity incentives, if any, shall be determined by the Board (or a committee thereof) in its sole discretion. All share figures set forth herein shall be subject to adjustment for stock splits, stock dividends, stock combinations, recapitalizations and similar events.

(d) Benefits. The Executive (and, where applicable, the Executive's qualified dependents) will be eligible to participate in health insurance and other employee benefit plans and policies established by the Company for its executive team from time to time on substantially the same terms as are made available to other such employees of the Company generally. The Executive's participation (and the participation of the Executive's qualified dependents) in the Company's benefit plans and policies will be subject to the terms of the applicable plan documents and the Company's generally applied policies, and the Company in its sole discretion may from time to time adopt, modify, interpret or discontinue such plans or policies.

(e) Expenses. The Company will reimburse the Executive for all reasonable and necessary expenses incurred by the Executive in connection with the Company's business, in accordance with the applicable Company policy as may be amended from time to time.

(f) Vacation and Holidays. The Executive shall be eligible for thirty (30) days' paid vacation/flexible time off per calendar year subject to the applicable terms and conditions of the Company's vacation policy and applicable law.

(g) Termination of Benefits. Except as set forth in Section 3 or as otherwise specified herein or in any other agreement between the Executive and the Company, if the Executive's employment is terminated by the Company for any reason, with or without Cause (as defined below), or if the Executive resigns the Executive's employment voluntarily, with or without Good Reason (as defined below), no compensation or other payments will be paid or provided to the Executive for periods following the date when such a termination of employment is effective, provided that any rights the Executive may have under the Company's benefit plans shall be determined under the provisions of such plans. If the Executive's employment terminates as a result of the Executive's death or disability, no compensation or payments will be made to the Executive other than those to which the Executive may otherwise be entitled under the benefit plans of the Company.

3. Compensation and Benefits Upon Termination of Employment. Upon termination of the Executive's employment (such date of termination being referred to as the "Termination Date"), the Company will pay the Executive the compensation and benefits as described in this Section 3.

(a) General Benefits Upon Termination. The Company will pay the Executive on or about the Termination Date all salary and vacation/personal time off pay, if any, that has been earned or accrued through the Termination Date and that has not been previously paid.

(b) Termination without "Cause" or for "Good Reason". In the event that the Company terminates the Executive's employment without Cause (as defined below) or, in the event the Executive terminates his employment for Good Reason (as defined below), in each case, (i) the Executive shall be entitled to receive (A) continuing payments of the then effective Base Salary for a period of twelve (12) months beginning on the Payment Commencement Date and payable in accordance with the Company's payroll policies and (B) the benefits set forth in Section 3(e), and (ii) the Executive shall be entitled to acceleration of vesting of such number of Option Shares as would have vested in the twelve (12) month period following the Termination Date had the Executive continued to be employed by the Company for such period, *provided*, *however* that in each case the receipt of such payments and benefits is expressly contingent upon the Executive's execution and delivery of a severance and release of claims agreement drafted by and satisfactory to counsel for the Company (the "Release") which Release must be executed and become effective within sixty (60) days following the Termination Date. The payments and benefits shall be paid or commence on the first payroll period following the date the Release becomes effective (the "Payment Commencement Date"). Notwithstanding the foregoing, if the 60th day following the Termination Date occurs in the calendar year following the termination, then the Payment Commencement Date shall be no earlier than January 1st of such subsequent calendar year. The provision of payments and benefits pursuant to this Section shall be subject to the terms and conditions set forth on Exhibit A.

(c) Termination without "Cause" or for "Good Reason" Prior to or Following a Change of Control. In the event that the Company terminates the Executive's employment without Cause (as defined below) or, in the event the Executive terminates his employment for Good Reason (as defined below), in each case, within thirty (30) days prior to, or twelve (12) months following, the consummation of a Change of Control, then (i) the Executive shall be entitled to (A) receive continuing payments of the then effective Base Salary for a period of twelve (12) months beginning on the Payment Commencement Date and payable in accordance with the Company's payroll policies and (B) the benefits set forth in Section 3(e), and (ii) acceleration of vesting of one hundred percent (100%) of the then unvested Option Shares, provided, however that in each case: (x), the receipt of such payments and benefits is expressly contingent upon the Executive's execution and delivery of a Release as described above drafted by and satisfactory to counsel for the Company, which Release must be executed and become effective within sixty (60) days following the Termination Date. The provision of payments and benefits pursuant to this Section shall be subject to the terms and conditions set forth in Exhibit A.

(d) Definitions.

(i) "Change of Control" means (A) a merger or consolidation of either the Company or Pacira, Inc., a Delaware corporation (" Parent") into another entity in which the stockholders of the Company or Parent (as applicable) do not control fifty percent (50%) or more of the total voting power of the surviving entity (other than a reincorporation merger); (B) the sale, transfer or other disposition of all or substantially all of the Company's assets in liquidation or dissolution of the Company; or (C) the sale or transfer of more than fifty percent (50%) of the outstanding voting stock of the Company. In the case of each of the foregoing clauses (A), (B) and (C), a Change of Control as a result of a financing transaction of the Company or Parent shall not constitute a Change of Control for purposes of this Agreement

(ii) "Cause" means (A) the Executive's failure to substantially perform his duties to the Company after there has been delivered to the Executive written notice setting forth in detail the specific respects in which the Board believes that the Executive has not substantially performed his duties and, if the Company reasonably considers the situation to be correctable, a demand for substantial performance and opportunity to cure, giving the Executive thirty (30) calendar days after he receives such notice to correct the situation; (B) the Executive's having engaged in fraud, misconduct, dishonesty, gross negligence or having otherwise acted in a manner injurious to the Company or in intentional disregard for the Company's best interests; (C) the Executive's failure to follow reasonable and lawful instructions from the Board and the Executive's failure to cure such failure after receiving twenty (20) days advance written notice; (D) the Executive's material breach of the terms of this Agreement or the Employee Proprietary Information and Inventions Assignment Agreement or any other similar agreement that may be in effect from time to time; or (E) the Executive's conviction of, or pleading guilty or nolo contendere to, any misdemeanor involving dishonesty or moral turpitude or related to the Company's business, or any felony.

(iii) "Good Reason" means the occurrence of any one or more of the following events without the prior written consent of the Executive: (A) any material reduction of the then effective Base Salary other than in accordance with this Agreement or which reduction is not related to a cross-executive team salary reduction; (B) any material breach by the Company of this Agreement; or (C) a material reduction in the Executive's responsibilities or duties, provided that in the case of clause (C), a mere reassignment following a Change of Control to a position that is substantially similar to the position held prior to the Change of Control transaction shall not constitute a material reduction in job responsibilities or duties; provided, however, that no such event or condition shall constitute Good Reason unless (x) the Executive gives the Company a written notice of termination for Good Reason not more than ninety (90) days after the initial existence of the condition, (y) the grounds for termination (if susceptible to correction) are not corrected by the Company within thirty (30) days of its receipt of such notice and (z) the Termination Date occurs within one (1) year following the Company's receipt of such notice.

(e) Benefits Continuation. If the Executive's employment is terminated pursuant to Section 3(b) or Section 3(c) and provided that the Executive is eligible for and elects to continue receiving group health and dental insurance pursuant to the federal "COBRA" law, 29 U.S.C. § 1161 et seq., the Company will, for a twelve (12) month period following the Payment Commencement Date (the " Benefits Continuation Period"), continue to pay the share of the premium for such coverage that is paid by the Company for active and similarly-situated employees who receive the same type of coverage. The remaining balance of any premium costs shall be paid by the Executive on a monthly basis for as long as, and to the extent that, the Executive remains eligible for COBRA continuation. Notwithstanding the above, in the event the Executive becomes eligible for health insurance benefits from a new employer during the Benefits Continuation Period, the Company's obligations under this Section 3(e) shall immediately cease and the Executive shall not be entitled to any additional monthly premium payments for health insurance coverage. Similarly, in the event the Executive becomes eligible for dental insurance benefits from a new employer during the Benefits Continuation Period, the Company's obligations under this Section 3(e) shall immediately cease and the Executive shall not be entitled to any additional monthly premium payments for dental insurance. The Executive hereby represents that he will notify the Company in writing within three (3) days of becoming eligible for health or dental insurance benefits from a new employer during the Benefits Continuation Period.

(f) Death. This Agreement shall automatically terminate upon the death of the Executive and all monetary obligations of Company under Section 2 of this Agreement shall be pro rated to the date of death and paid to the Executive's estate.

(g) Disability. The Company may terminate the Executive's employment if the Executive is unable to perform any of the duties required under this Agreement for a period of three (3) consecutive months due to a "Total and Permanent Disability". The term " Total and Permanent Disability" shall mean the existence of a permanent physical or mental illness or injury, which renders the Executive incapable of performing any material obligations or terms of this Agreement. Any dispute regarding the existence of a Total and Permanent Disability shall be resolved by a panel of three (3) physicians, one selected by Company, one selected by the Executive, and the third selected by the other two physicians. A termination of employment pursuant to this Section 3(g) shall constitute a termination for Cause.

(h) Resignation Upon Termination of Employment. Upon termination of the Executive's employment for any reason (whether with or without Cause or with or without Good Reason), the Executive shall resign, in writing, from all positions held by him with the Company and its affiliates, including without limitation from the Board and all committees of the Board.

4. At-Will Employment. The Executive will be an "at-will" employee of the Company, which means the employment relationship can be terminated by either the Executive or the Company for any reason, at any time, with or without prior notice and with or without cause. The Company makes no promise that the Executive's employment will continue for any particular period of time, nor is there any promise that it will be terminated only under particular circumstances. No raise or bonus, if any, shall alter the Executive's status as an "at-will" employee or create any implied contract of employment. Discussion of possible or potential

benefits in future years is not an express or implied promise of continued employment. No manager, supervisor or officer of the Company has the authority to change the Executive's status as an "at-will" employee. The "at-will" nature of the employment relationship with the Executive can only be altered by a written resolution approved by the Board.

5. Non-Solicitation.

(a) Non-Solicit. The Executive agrees that during the term of the Executive's employment with the Company, and for a period of twelve (12) months immediately following the termination of the Executive's employment with the Company for any reason, whether with or without Cause or Good Reason, the Executive shall not either directly or indirectly solicit, induce, recruit or encourage any of the Company's or its affiliates' employees or consultants to terminate such employee's or consultant's relationship with the Company or its affiliates, or attempt to solicit, induce, recruit, encourage or take away employees or consultants of the Company or any of its affiliates, either for the Executive or for any other person or entity. Further, during the Executive's employment with the Company or any of its affiliates and at any time following termination of the Executive's employment with the Company or any of its affiliates for any reason, with or without Cause or Good Reason, the Executive shall not use any confidential information of the Company or any of its affiliates to attempt to negatively influence any of the Company's or any of its affiliates' clients or customers from purchasing Company products or services or to solicit or influence or attempt to influence any client, customer or other person either directly or indirectly, to direct such person's or entity's purchase of products and/or services to any person, firm, corporation, institution or other entity in competition with the business of the Company or any of its affiliates. Notwithstanding the foregoing, nothing in this Section 5(a) shall prohibit the Executive from soliciting, inducing, recruiting, encouraging or taking away employees or consultants of the Company or any of its affiliates who were previously employed by, or a consultant to, Stack Pharmaceuticals, Inc. prior to becoming an employee or consultant of the Company.

(b) Specific Performance. In the event of the breach or threatened breach by the Executive of this Section 5, the Company, in addition to all other remedies available to it at law or in equity, will be entitled to seek injunctive relief and/or specific performance to enforce this Section 5.

6. Director and Officer Liability Insurance; Indemnification. During the term of the Executive's employment hereunder, the Executive shall be entitled to the same indemnification and director and officer liability insurance as the Company and its affiliates maintain for other corporate officers.

7. Proprietary Information and Inventions Assignment Agreement . The Executive has executed and delivered the Company's standard Employee Proprietary Information and Inventions Assignment Agreement or similar agreement and the Executive represents and warrants that the Executive shall continue to be bound and abide by such Employee Proprietary Information and Inventions Assignment Agreement or similar agreement.

8. Attention to Duties; Conflict of Interest . The Executive will devote his reasonable best business efforts and attention to the performance of services to the Company in accordance with the terms hereof and as may reasonably requested by the Company. The Company acknowledges that the Executive may continue to pursue the external obligations set forth in Exhibit B hereto to the same extent as the Executive has previously pursued such external obligations during the Executive's employment with the Company and such other opportunities which may arise during the term of your employment; *provided*, however, that the Executive shall not, without the Company's prior written consent, engage in any business activity that would materially interfere with the performance of the Executive's duties under this Agreement. Other than those set forth in Exhibit B, with the Company the Executive represents that the Executive has no other outstanding commitments inconsistent with any of the terms of this Agreement or the services to be rendered to the Company. While employed by the Company, the Executive shall not, directly or indirectly, whether as a partner, employee, creditor, shareholder, or otherwise, promote, participate or engage in any activity or other business competitive with the Company's business. The Executive shall not invest in any company or business which competes in any manner with the Company, except (A) in securities that are listed on reputable securities exchanges in the United States or European Union or (B) pursuant to any direct or indirect interest held by the Executive or his affiliates in any venture capital, private equity or similar investment fund or entity.

9. Miscellaneous.

(a) Severability. If any provision of this Agreement shall be found by any arbitrator or court of competent jurisdiction to be invalid or unenforceable, then the parties hereby waive such provision to the extent that it is found to be invalid or unenforceable and to the extent that to do so would not deprive one of the parties of the substantial benefit of its bargain. Such provision shall, to the extent allowable by law and the preceding sentence, be modified by such arbitrator or court so that it becomes enforceable and, as modified, shall be enforced as any other provision hereof, all the other provisions continuing in full force and effect.

(b) No Waiver. The failure by either party at any time to require performance or compliance by the other of any of its obligations or agreements shall in no way affect the right to require such performance or compliance at any time thereafter. The waiver by either party of a breach of any provision hereof shall not be taken or held to be a waiver of any preceding or succeeding breach of such provision or as a waiver of the provision itself. No waiver of any kind shall be effective or binding, unless it is in writing and is signed by the party against whom such waiver is sought to be enforced.

(c) Assignment. This Agreement and all rights hereunder are personal to the Executive and may not be transferred or assigned by the Executive at any time. The Company may assign its rights, together with its obligations hereunder, to any parent, subsidiary, affiliate or successor, or in connection with any sale, transfer or other disposition of all or substantially all of its business and assets; *provided*, *however*, that any such assignee assumes the Company's obligations hereunder.

(d) Withholding. All sums payable to the Executive hereunder shall be reduced by all federal, state, local and other withholding and similar taxes and payments required by applicable law.

(e) Entire Agreement. This Agreement, including the agreements referred to herein (which are deemed incorporated by reference herein) constitute the entire and only agreement and understanding between the parties governing the terms and conditions of employment of the Executive with the Company and this Agreement supersedes and cancels any and all previous contracts, arrangements or understandings with governing the terms and conditions of the Executive's employment by the Company. In the event of any conflict between the terms of any other agreement between the Executive and the Company entered into prior to the Effective Date, the terms of this Agreement shall control.

(f) Amendment. This Agreement may be amended, modified, superseded, cancelled, renewed or extended only by an agreement in writing executed by both parties hereto.

(g) Headings. The headings contained in this Agreement are for reference purposes only and shall in no way affect the meaning or interpretation of this Agreement. In this Agreement, the singular includes the plural, the plural included the singular, the masculine gender includes both male and female referents, and the word "or" is used in the inclusive sense.

(h) Notices. Any notices provided hereunder must be in writing and shall be deemed effective upon the earlier of personal delivery (including, personal delivery by facsimile transmission or the third day after mailing by first class mail) to the Company at its primary office location and to the Executive at his address as listed on the Company payroll (which address may be changed by written notice).

(i) Counterparts. This Agreement may be executed in two or more counterparts, each of which shall be deemed to be an original but all of which, taken together, constitute one and the same agreement.

(j) Governing Law, Forum Selection, Jury Waiver. This Agreement and the rights and obligations of the parties hereto shall be construed in accordance with the laws of the State of New Jersey without giving effect to the principles of conflict of laws. Any action, suit or other legal proceeding that is commenced to resolve any matter arising under or relating to any provision of this Agreement shall be commenced only in a court of the State of New Jersey (or, if appropriate, a federal court located within the District of New Jersey), and the Company and the Executive each consents to the jurisdiction of such a court. *Both the Company and the Executive expressly waive any right that any party either has or may have to a jury trial of any dispute arising out of or in any way related to the Executive's employment with or termination from the Company* .

IN WITNESS WHEREOF, the Company and the Executive have executed this Executive Employment Agreement as of the date first above written.

EXHIBIT A

PAYMENTS SUBJECT TO SECTION 409A

1. Subject to this Exhibit A, any severance payments and benefits that may be due under the Agreement shall begin only upon the date of the Executive's "separation from service" (determined as set forth below) which occurs on or after the termination of the Executive's employment. The following rules shall apply with respect to distribution of the severance payments and benefits, if any, to be provided to the Executive under the Agreement, as applicable:

(a) It is intended that each installment of the severance payments and benefits under the Agreement provided under shall be treated as a separate "payment" for purposes of Section 409A. Neither the Company nor the Executive shall have the right to accelerate or defer the delivery of any such payments or benefits except to the extent specifically permitted or required by Section 409A.

(b) If, as of the date of the Executive's "separation from service" from the Company, the Executive is not a "specified employee" (within the meaning of Section 409A), then each installment of the severance payments or benefits shall be made on the dates and terms set forth in the Agreement.

(c) If, as of the date of the Executive's "separation from service" from the Company, the Executive is a "specified employee" (within the meaning of Section 409A), then:

(i) Each installment of the severance payments and benefits due under the Agreement that, in accordance with the dates and terms set forth herein, will in all circumstances, regardless of when the Executive's separation from service occurs, be paid within the short-term deferral period (as defined under Section 409A) shall be treated as a short-term deferral within the meaning of Treasury Regulation Section 1.409A-1(b)(4) to the maximum extent permissible under Section 409A and shall be paid at the time set forth in the Agreement; and

(ii) Each installment of the severance payments and benefits due under the Agreement that is not described in this Exhibit A, Section 1(c)(i) and that would, absent this subsection, be paid within the six-month period following the Executive's "separation from service" from the Company shall not be paid until the date that is six months and one day after such separation from service (or, if earlier, the Executive's death), with any such installments that are required to be delayed being accumulated during the six-month period and paid in a lump sum on the date that is six months and one day following the Executive's separation from service and any subsequent installments, if any, being paid in accordance with the dates and terms set forth herein; provided, however, that the preceding provisions of this sentence shall not apply to any installment of payments and benefits if and to the maximum extent that that such installment is deemed to be paid under a

separation pay plan that does not provide for a deferral of compensation by reason of the application of Treasury Regulation 1.409A-1(b)(9)(iii) (relating to separation pay upon an involuntary separation from service). Any installments that qualify for the exception under Treasury Regulation Section 1.409A-1(b)(9)(iii) must be paid no later than the last day of the Executive's second taxable year following the taxable year in which the separation from service occurs.

2. The determination of whether and when the Executive's separation from service from the Company has occurred shall be made and in a manner consistent with, and based on the presumptions set forth in, Treasury Regulation Section 1.409A-1(h). Solely for purposes of this Exhibit A , Section 2, "Company" shall include all persons with whom the Company would be considered a single employer under Section 414(b) and 414(c) of the Code.

3. The Company makes no representation or warranty and shall have no liability to the Executive or to any other person if any of the provisions of the Agreement (including this Exhibit) are determined to constitute deferred compensation subject to Section 409A but that do not satisfy an exemption from, or the conditions of, that section.

EXECUTIVE EMPLOYMENT AGREEMENT

This Executive Employment Agreement (the "Agreement"), is entered into as of October 27, 2010 (the "Effective Date"), by and between Pacira Pharmaceuticals, Inc., a California corporation (the "Company"), and James Scibetta (the "Executive").

RECITALS

WHEREAS, the Company wishes to continue to employ the Executive, and the Executive desires to continue to be employed by the Company, for such purpose and upon the terms and conditions hereinafter provided; and

WHEREAS, the parties wish to establish the terms of the Executive's future employment with the Company and set out fully their respective rights, obligations and duties.

AGREEMENT

In consideration of the promises and the terms and conditions set forth in this Agreement, the parties agree as follows:

1. Title and Capacity. The Company hereby agrees to continue to employ the Executive, and the Executive hereby accepts continued employment with the Company, under the terms set forth in this Agreement. The Executive will serve as the Chief Financial Officer of the Company and shall perform such duties as are ordinary, customary and necessary in such role. The Executive will report directly to the Chief Executive Officer of the Company. The Executive shall devote his full business time, skill and attention to the performance of his duties on behalf of the Company.

2. Compensation and Benefits.

(a) Salary. The Company agrees to pay the Executive an annual base salary of Two Hundred and Seventy Thousand Dollars ($270,000) payable in accordance with Company's customary payroll practice (the "Base Salary"). The Executive's Base Salary shall be reviewed periodically by the Board of Directors of the Company (the "Board"); *provided*, *however*, that any such review will not necessarily result in an adjustment to the Executive's Base Salary. Any change in the Executive's Base Salary must be approved by the Board.

(b) Bonus. The Executive is eligible to receive, in addition to the Base Salary and subject to the terms hereof and at the full discretion of the Board, a targeted incentive bonus of thirty percent (30%) of Base Salary (the " Targeted Incentive Bonus"). The Targeted Incentive Bonus shall be based on the Executive's and the Company's performance during the applicable fiscal year, as determined by the Board. The Targeted Incentive Bonus criteria or "goals" will be determined by agreement between the Board and the Executive at beginning of each fiscal year. The award of the Target Incentive Bonus may be in an amount either above or below the amount specified by the Board at the beginning of each fiscal year based on the ultimate performance assessed by the Board.

The Targeted Incentive Bonus, if awarded, shall be payable in the first payroll period in 2012, but in no event later than March 15, 2012. Targeted Incentive Bonuses for subsequent years shall be determined and approved by the Board in its sole discretion.

All salary and bonuses shall be subject to all applicable withholdings and deductions.

(c) Stock Options. On September 2, 2010, the Company granted to the Executive two stock options (each an " Option" and collectively, the "Options") to purchase an aggregate of one million five hundred and eighty five thousand (1,585,000) shares of the Company's common stock, $0.001 par value per share (the "Option Shares"), pursuant to the Company's 2007 Stock Option/Stock Issuance (the " Plan"). The exercise price, vesting schedule and other terms for each of the Options are set forth in the notice of grant and option agreement for each such Option and the Options are subject to accelerated vesting as set forth in Section 3 hereof. Additional equity incentives, if any, shall be determined by the Board (or a committee thereof) in its sole discretion. All share figures set forth herein shall be subject to adjustment for stock splits, stock dividends, stock combinations, recapitalizations and similar events.

(d) Benefits. The Executive (and, where applicable, the Executive's qualified dependents) will be eligible to participate in health insurance and other employee benefit plans and policies established by the Company for its executive team from time to time on substantially the same terms as are made available to other such employees of the Company generally. The Executive's participation (and the participation of the Executive's qualified dependents) in the Company's benefit plans and policies will be subject to the terms of the applicable plan documents and the Company's generally applied policies, and the Company in its sole discretion may from time to time adopt, modify, interpret or discontinue such plans or policies.

(e) Expenses. The Company will reimburse the Executive for all reasonable and necessary expenses incurred by the Executive in connection with the Company's business, in accordance with the applicable Company policy as may be amended from time to time.

(f) Vacation and Holidays. The Executive shall be eligible for thirty (30) days' paid vacation/flexible time off per calendar year subject to the applicable terms and conditions of the Company's vacation policy and applicable law.

(g) Termination of Benefits. Except as set forth in Section 3 or as otherwise specified herein or in any other agreement between the Executive and the Company, if the Executive's employment is terminated by the Company for any reason, with or without Cause (as defined below), or if the Executive resigns the Executive's employment voluntarily, with or without Good Reason (as defined below), no compensation or other payments will be paid or provided to the Executive for periods following the date when such a termination of employment is effective, provided that any rights the Executive may have under the Company's benefit plans shall be determined under the provisions of such plans. If the Executive's employment terminates as a result of the Executive's death or disability, no compensation or payments will be made to the Executive other than those to which the Executive may otherwise be entitled under the benefit plans of the Company.

3. Compensation and Benefits Upon Termination of Employment. Upon termination of the Executive's employment (such date of termination being referred to as the "Termination Date"), the Company will pay the Executive the compensation and benefits as described in this Section 3.

(a) General Benefits Upon Termination. The Company will pay the Executive on or about the Termination Date all salary and vacation/personal time off pay, if any, that has been earned or accrued through the Termination Date and that has not been previously paid.

(b) Termination without "Cause" or for "Good Reason". In the event that the Company terminates the Executive's employment without Cause (as defined below) or, in the event the Executive terminates his employment for Good Reason (as defined below), in each case, (i) the Executive shall be entitled to receive (A) continuing payments of the then effective Base Salary for a period of nine (9) months beginning on the Payment Commencement Date and payable in accordance with the Company's payroll policies and (B) the benefits set forth in Section 3(e), and (ii) the Executive shall be entitled to acceleration of vesting of such number of Option Shares as would have vested in the nine (9) month period following the Termination Date had the Executive continued to be employed by the Company for such period, *provided*, *however* that in each case the receipt of such payments and benefits is expressly contingent upon the Executive's execution and delivery of a severance and release of claims agreement drafted by and satisfactory to counsel for the Company (the "Release") which Release must be executed and become effective within sixty (60) days following the Termination Date. The payments and benefits shall be paid or commence on the first payroll period following the date the Release becomes effective (the " Payment Commencement Date"). Notwithstanding the foregoing, if the 60th day following the Termination Date occurs in the calendar year following the termination, then the Payment Commencement Date shall be no earlier than January 1st of such subsequent calendar year. The provision of payments and benefits pursuant to this Section shall be subject to the terms and conditions set forth on Exhibit A.

(c) Termination without "Cause" or for "Good Reason" Prior to or Following a Change of Control. In the event that the Company terminates the Executive's employment without Cause (as defined below) or, in the event the Executive terminates his employment for Good Reason (as defined below), in each case, within thirty (30) days prior to, or twelve (12) months following, the consummation of a Change of Control, then (i) the Executive shall be entitled to receive (A) continuing payments of the then effective Base Salary for a period of nine (9) months beginning on the Payment Commencement Date and payable in accordance with the Company's payroll policies and (B) the benefits set forth in Section 3(e), and (ii) acceleration of vesting of one hundred percent (100%) of the then unvested Option Shares, provided, however that in each case: (x), the receipt of such payments and benefits is expressly contingent upon the Executive's execution and delivery of a Release as described above drafted by and satisfactory to counsel for the Company, which Release must be executed and become effective within sixty (60) days following the Termination Date. The provision of payments and benefits pursuant to this Section shall be subject to the terms and conditions set forth in Exhibit A.

(d) Definitions.

(i) "Change of Control" means (A) a merger or consolidation of either the Company or Pacira, Inc., a Delaware corporation (" Parent") into another entity in which the stockholders of the Company or Parent (as applicable) do not control fifty percent (50%) or more of the total voting power of the surviving entity (other than a reincorporation merger); (B) the sale, transfer or other disposition of all or substantially all of the Company's assets in liquidation or dissolution of the Company; or (C) the sale or transfer of more than fifty percent (50%) of the outstanding voting stock of the Company. In the case of each of the foregoing clauses (A), (B) and (C), a Change of Control as a result of a financing transaction of the Company or Parent shall not constitute a Change of Control for purposes of this Agreement

(ii) "Cause" means (A) the Executive's failure to substantially perform his duties to the Company after there has been delivered to the Executive written notice setting forth in detail the specific respects in which the Board believes that the Executive has not substantially performed his duties and, if the Company reasonably considers the situation to be correctable, a demand for substantial performance and opportunity to cure, giving the Executive thirty (30) calendar days after he receives such notice to correct the situation; (B) the Executive's having engaged in fraud, misconduct, dishonesty, gross negligence or having otherwise acted in a manner injurious to the Company or in intentional disregard for the Company's best interests; (C) the Executive's failure to follow reasonable and lawful instructions from the Board and the Executive's failure to cure such failure after receiving twenty (20) days advance written notice; (D) the Executive's material breach of the terms of this Agreement or the Employee Proprietary Information and Inventions Assignment Agreement or any other similar agreement that may be in effect from time to time; or (E) the Executive's conviction of, or pleading guilty or nolo contendere to, any misdemeanor involving dishonesty or moral turpitude or related to the Company's business, or any felony.

(iii) "Good Reason" means the occurrence of any one or more of the following events without the prior written consent of the Executive: (A) any material reduction of the then effective Base Salary other than in accordance with this Agreement or which reduction is not related to a cross-executive team salary reduction; (B) any material breach by the Company of this Agreement; or (C) a material reduction in the Executive's responsibilities or duties, provided that in the case of clause (C), a mere reassignment following a Change of Control to a position that is substantially similar to the position held prior to the Change of Control transaction shall not constitute a material reduction in job responsibilities or duties; provided, however, that no such event or condition shall constitute Good Reason unless (x) the Executive gives the Company a written notice of termination for Good Reason not more than ninety (90) days after the initial existence of the condition, (y) the grounds for termination (if susceptible to correction) are not corrected by the Company within thirty (30) days of its receipt of such notice and (z) the Termination Date occurs within one (1) year following the Company's receipt of such notice.

(e) Benefits Continuation. If the Executive's employment is terminated pursuant to Section 3(b) or Section 3(c) and provided that the Executive is eligible for and elects to continue receiving group health and dental insurance pursuant to the federal "COBRA" law, 29 U.S.C. § 1161 et seq., the Company will, for a twelve (12) month period following the Payment Commencement Date (the " Benefits Continuation Period"), continue to pay the share of

the premium for such coverage that is paid by the Company for active and similarly-situated employees who receive the same type of coverage. The remaining balance of any premium costs shall be paid by the Executive on a monthly basis for as long as, and to the extent that, the Executive remains eligible for COBRA continuation. Notwithstanding the above, in the event the Executive becomes eligible for health insurance benefits from a new employer during the Benefits Continuation Period, the Company's obligations under this Section 3(e) shall immediately cease and the Executive shall not be entitled to any additional monthly premium payments for health insurance coverage. Similarly, in the event the Executive becomes eligible for dental insurance benefits from a new employer during the Benefits Continuation Period, the Company's obligations under this Section 3(e) shall immediately cease and the Executive shall not be entitled to any additional monthly premium payments for dental insurance. The Executive hereby represents that he will notify the Company in writing within three (3) days of becoming eligible for health or dental insurance benefits from a new employer during the Benefits Continuation Period

(f) Death. This Agreement shall automatically terminate upon the death of the Executive and all monetary obligations of Company under Section 2 of this Agreement shall be pro rated to the date of death and paid to the Executive's estate.

(g) Disability. The Company may terminate the Executive's employment if the Executive is unable to perform any of the duties required under this Agreement for a period of three (3) consecutive months due to a "Total and Permanent Disability". The term " Total and Permanent Disability" shall mean the existence of a permanent physical or mental illness or injury, which renders the Executive incapable of performing any material obligations or terms of this Agreement. Any dispute regarding the existence of a Total and Permanent Disability shall be resolved by a panel of three (3) physicians, one selected by Company, one selected by the Executive, and the third selected by the other two physicians. A termination of employment pursuant to this Section 3(f) shall constitute a termination for Cause.

4. At-Will Employment. The Executive will be an "at-will" employee of the Company, which means the employment relationship can be terminated by either the Executive or the Company for any reason, at any time, with or without prior notice and with or without cause. The Company makes no promise that the Executive's employment will continue for any particular period of time, nor is there any promise that it will be terminated only under particular circumstances. No raise or bonus, if any, shall alter the Executive's status as an "at-will" employee or create any implied contract of employment. Discussion of possible or potential benefits in future years is not an express or implied promise of continued employment. No manager, supervisor or officer of the Company has the authority to change the Executive's status as an "at-will" employee. The "at-will" nature of the employment relationship with the Executive can only be altered by a written resolution approved by the Board.

5. Non-Solicitation.

(a) Non-Solicit. The Executive agrees that during the term of the Executive's employment with the Company, and for a period of twelve (12) months immediately following the termination of the Executive's employment with the Company for any reason, whether with

or without Cause or Good Reason, the Executive shall not either directly or indirectly solicit, induce, recruit or encourage any of the Company's or its affiliates' employees or consultants to terminate such employee's or consultant's relationship with the Company or its affiliates, or attempt to solicit, induce, recruit, encourage or take away employees or consultants of the Company or any of its affiliates, either for the Executive or for any other person or entity. Further, during the Executive's employment with the Company or any of its affiliates and at any time following termination of the Executive's employment with the Company or any of its affiliates for any reason, with or without Cause or Good Reason, the Executive shall not use any confidential information of the Company or any of its affiliates to attempt to negatively influence any of the Company's or any of its affiliates' clients or customers from purchasing Company products or services or to solicit or influence or attempt to influence any client, customer or other person either directly or indirectly, to direct such person's or entity's purchase of products and/or services to any person, firm, corporation, institution or other entity in competition with the business of the Company or any of its affiliates.

(b) Specific Performance. In the event of the breach or threatened breach by the Executive of this Section 5, the Company, in addition to all other remedies available to it at law or in equity, will be entitled to seek injunctive relief and/or specific performance to enforce this Section 5.

6. Director and Officer Liability Insurance; Indemnification. During the term of the Executive's employment hereunder, the Executive shall be entitled to the same indemnification and director and officer liability insurance as the Company and its affiliates maintain for other corporate officers.

7. Proprietary Information and Inventions Assignment Agreement. The Executive has executed and delivered the Company's standard Employee Proprietary Information and Inventions Assignment Agreement or similar agreement and the Executive represents and warrants that the Executive shall continue to be bound and abide by such Employee Proprietary Information and Inventions Assignment Agreement or similar agreement.

8. Attention to Duties; Conflict of Interest. The Executive will devote his reasonable best business efforts and attention to the performance of services to the Company in accordance with the terms hereof and as may reasonably requested by the Company. The Company acknowledges that the Executive may continue to pursue the external obligations set forth in Exhibit B hereto to the same extent as the Executive has previously pursued such external obligations during the Executive's employment with the Company and such other opportunities which may arise during the term of your employment; *provided*, however, that the Executive shall not, without the Company's prior written consent, engage in any business activity that would materially interfere with the performance of the Executive's duties under this Agreement. Other than those set forth in Exhibit B, with the Company the Executive represents that the Executive has no other outstanding commitments inconsistent with any of the terms of this Agreement or the services to be rendered to the Company. While employed by the Company, the Executive shall not, directly or indirectly, whether as a partner, employee, creditor, shareholder, or otherwise, promote, participate or engage in any activity or other business competitive with the Company's business. The Executive represents that the Executive has no other outstanding

commitments inconsistent with any of the terms of this Agreement or the services to be rendered to the Company. While employed by the Company, the Executive shall not, directly or indirectly, whether as a partner, employee, creditor, shareholder, or otherwise, promote, participate or engage in any activity or other business competitive with the Company's business. The Executive shall not invest in any company or business which competes in any manner with the Company, except those companies whose securities are listed on reputable securities exchanges in the United States or European Union.

9. Miscellaneous.

(a) Severability. If any provision of this Agreement shall be found by any arbitrator or court of competent jurisdiction to be invalid or unenforceable, then the parties hereby waive such provision to the extent that it is found to be invalid or unenforceable and to the extent that to do so would not deprive one of the parties of the substantial benefit of its bargain. Such provision shall, to the extent allowable by law and the preceding sentence, be modified by such arbitrator or court so that it becomes enforceable and, as modified, shall be enforced as any other provision hereof, all the other provisions continuing in full force and effect.

(b) No Waiver. The failure by either party at any time to require performance or compliance by the other of any of its obligations or agreements shall in no way affect the right to require such performance or compliance at any time thereafter. The waiver by either party of a breach of any provision hereof shall not be taken or held to be a waiver of any preceding or succeeding breach of such provision or as a waiver of the provision itself. No waiver of any kind shall be effective or binding, unless it is in writing and is signed by the party against whom such waiver is sought to be enforced.

(c) Assignment. This Agreement and all rights hereunder are personal to the Executive and may not be transferred or assigned by the Executive at any time. The Company may assign its rights, together with its obligations hereunder, to any parent, subsidiary, affiliate or successor, or in connection with any sale, transfer or other disposition of all or substantially all of its business and assets; *provided*, *however*, that any such assignee assumes the Company's obligations hereunder.

(d) Withholding. All sums payable to the Executive hereunder shall be reduced by all federal, state, local and other withholding and similar taxes and payments required by applicable law.

(e) Entire Agreement. This Agreement, including the agreements referred to herein (which are deemed incorporated by reference herein) constitute the entire and only agreement and understanding between the parties governing the terms and conditions of employment of the Executive with the Company and this Agreement supersedes and cancels any and all previous contracts, arrangements or understandings with governing the terms and conditions of the Executive's employment by the Company. In the event of any conflict between the terms of any other agreement between the Executive and the Company entered into prior to the Effective Date, the terms of this Agreement shall control.

(f) Amendment. This Agreement may be amended, modified, superseded, cancelled, renewed or extended only by an agreement in writing executed by both parties hereto.

(g) Headings. The headings contained in this Agreement are for reference purposes only and shall in no way affect the meaning or interpretation of this Agreement. In this Agreement, the singular includes the plural, the plural included the singular, the masculine gender includes both male and female referents, and the word "or" is used in the inclusive sense.

(h) Notices. Any notices provided hereunder must be in writing and shall be deemed effective upon the earlier of personal delivery (including, personal delivery by facsimile transmission or the third day after mailing by first class mail) to the Company at its primary office location and to the Executive at his address as listed on the Company payroll (which address may be changed by written notice).

(i) Counterparts. This Agreement may be executed in two or more counterparts, each of which shall be deemed to be an original but all of which, taken together, constitute one and the same agreement.

(j) Governing Law, Forum Selection, Jury Waiver. This Agreement and the rights and obligations of the parties hereto shall be construed in accordance with the laws of the State of New Jersey without giving effect to the principles of conflict of laws. Any action, suit or other legal proceeding that is commenced to resolve any matter arising under or relating to any provision of this Agreement shall be commenced only in a court of the **State of New Jersey** (or, if appropriate, a federal court located within **District of New Jersey**), and the Company and the Executive each consents to the jurisdiction of such a court. *Both the Company and the Executive expressly waive any right that any party either has or may have to a jury trial of any dispute arising out of or in any way related to the Executive's employment with or termination from the Company* .

PAYMENTS SUBJECT TO SECTION 409A

1. Subject to this Exhibit A, any severance payments and benefits that may be due under the Agreement shall begin only upon the date of the Executive's "separation from service" (determined as set forth below) which occurs on or after the termination of the Executive's employment. The following rules shall apply with respect to distribution of the severance payments and benefits, if any, to be provided to the Executive under the Agreement, as applicable:

(a) It is intended that each installment of the severance payments and benefits under the Agreement provided under shall be treated as a separate "payment" for purposes of Section 409A. Neither the Company nor the Executive shall have the right to accelerate or defer the delivery of any such payments or benefits except to the extent specifically permitted or required by Section 409A.

(b) If, as of the date of the Executive's "separation from service" from the Company, the Executive is not a "specified employee" (within the meaning of Section 409A), then each installment of the severance payments or benefits shall be made on the dates and terms set forth in the Agreement.

(c) If, as of the date of the Executive's "separation from service" from the Company, the Executive is a "specified employee" (within the meaning of Section 409A), then:

(i) Each installment of the severance payments and benefits due under the Agreement that, in accordance with the dates and terms set forth herein, will in all circumstances, regardless of when the Executive's separation from service occurs, be paid within the short-term deferral period (as defined under Section 409A) shall be treated as a short-term deferral within the meaning of Treasury Regulation Section 1.409A-1(b)(4) to the maximum extent permissible under Section 409A and shall be paid at the time set forth in the Agreement; and

(ii) Each installment of the severance payments and benefits due under the Agreement that is not described in this Exhibit A, Section 1(c)(i) and that would, absent this subsection, be paid within the six-month period following the Executive's "separation from service" from the Company shall not be paid until the date that is six months and one day after such separation from service (or, if earlier, the Executive's death), with any such installments that are required to be delayed being accumulated during the six-month period and paid in a lump sum on the date that is six months and one day following the Executive's separation from service and any subsequent installments, if any, being paid in accordance with the dates and terms set forth herein; provided, however, that the preceding provisions of this sentence shall not apply to any installment of payments and benefits if and to the maximum extent that that such installment is deemed to be paid under a

separation pay plan that does not provide for a deferral of compensation by reason of the application of Treasury Regulation 1.409A-1(b)(9)(iii) (relating to separation pay upon an involuntary separation from service). Any installments that qualify for the exception under Treasury Regulation Section 1.409A-1(b)(9)(iii) must be paid no later than the last day of the Executive's second taxable year following the taxable year in which the separation from service occurs.

2. The determination of whether and when the Executive's separation from service from the Company has occurred shall be made and in a manner consistent with, and based on the presumptions set forth in, Treasury Regulation Section 1.409A-1(h). Solely for purposes of this Exhibit A , Section 2, "Company" shall include all persons with whom the Company would be considered a single employer under Section 414(b) and 414(c) of the Code.

3. The Company makes no representation or warranty and shall have no liability to the Executive or to any other person if any of the provisions of the Agreement (including this Exhibit) are determined to constitute deferred compensation subject to Section 409A but that do not satisfy an exemption from, or the conditions of, that section.

RECITALS

WHEREAS, the Company wishes to continue to employ the Executive, and the Executive desires to continue to be employed by the Company, for such purpose and upon the terms and conditions hereinafter provided; and

WHEREAS, the parties wish to establish the terms of the Executive's future employment with the Company and set out fully their respective rights, obligations and duties.

In consideration of the promises and the terms and conditions set forth in this Agreement, the parties agree as follows:

1. Title and Capacity. The Company hereby agrees to continue to employ the Executive, and the Executive hereby accepts continued employment with the Company, under the terms set forth in this Agreement. The Executive will serve as the Senior Vice President of Technical Operations of the Company and shall perform such duties as are ordinary, customary and necessary in such role. The Executive will report directly to the Chief Executive Officer of the Company. The Executive shall devote his full business time, skill and attention to the performance of his duties on behalf of the Company.

2. Compensation and Benefits.

(a) Salary. The Company agrees to pay the Executive an annual base salary of Two Hundred and Fifty Thousand Dollars ($250,000) payable in accordance with Company's customary payroll practice (the "Base Salary"). The Executive's Base Salary shall be reviewed periodically by the Board of Directors of the Company (the "Board"); *provided*, *however*, that any such review will not necessarily result in an adjustment to the Executive's Base Salary. Any change in the Executive's Base Salary must be approved by the Board.

(b) Bonus. The Executive is eligible to receive, in addition to the Base Salary and subject to the terms hereof and at the full discretion of the Board, a targeted incentive bonus of thirty percent (30%) of Base Salary (the " Targeted Incentive Bonus"). The Targeted Incentive Bonus shall be based on the Executive's and the Company's performance during the applicable fiscal year, as determined by the Board. The Targeted Incentive Bonus criteria or "goals" will be determined by agreement between the Board and the Executive at beginning of each fiscal year. The award of the Target Incentive Bonus may be in an amount either above or below the amount specified by the Board at the beginning of each fiscal year based on the ultimate performance assessed by the Board.

The Targeted Incentive Bonus, if awarded, shall be payable in the first payroll period in 2012, but in no event later than March 15, 2012. Targeted Incentive Bonuses for subsequent years shall be determined and approved by the Board in its sole discretion.

All salary and bonuses shall be subject to all applicable withholdings and deductions.

(c) Stock Options. On September 2, 2010, the Company granted to the Executive two stock options (each an " Option" and collectively, the "Options") to purchase an aggregate of five hundred and fifty thousand (550,000) shares of the Company's common stock, $0.001 par value per share (the "Option Shares"), pursuant to the Company's 2007 Stock Option/Stock Issuance (the " Plan"). The exercise price, vesting schedule and other terms for each of the Options are set forth in the notice of grant and option agreement for each such Option and the Options are subject to accelerated vesting as set forth in Section 3 hereof. Additional equity incentives, if any, shall be determined by the Board (or a committee thereof) in its sole discretion. All share figures set forth herein shall be subject to adjustment for stock splits, stock dividends, stock combinations, recapitalizations and similar events.

(d) Benefits. The Executive (and, where applicable, the Executive's qualified dependents) will be eligible to participate in health insurance and other employee benefit plans and policies established by the Company for its executive team from time to time on substantially the same terms as are made available to other such employees of the Company generally. The Executive's participation (and the participation of the Executive's qualified dependents) in the Company's benefit plans and policies will be subject to the terms of the applicable plan documents and the Company's generally applied policies, and the Company in its sole discretion may from time to time adopt, modify, interpret or discontinue such plans or policies.

(e) Expenses. The Company will reimburse the Executive for all reasonable and necessary expenses incurred by the Executive in connection with the Company's business, in accordance with the applicable Company policy as may be amended from time to time.

(f) Vacation and Holidays. The Executive shall be eligible for thirty (30 days' paid vacation/flexible time off per calendar year subject to the applicable terms and conditions of the Company's vacation policy and applicable law.

(g) Termination of Benefits. Except as set forth in Section 3 or as otherwise specified herein or in any other agreement between the Executive and the Company, if the Executive's employment is terminated by the Company for any reason, with or without Cause (as defined below), or if the Executive resigns the Executive's employment voluntarily, with or without Good Reason (as defined below), no compensation or other payments will be paid or provided to the Executive for periods following the date when such a termination of employment is effective, provided that any rights the Executive may have under the Company's benefit plans shall be determined under the provisions of such plans. If the Executive's employment terminates as a result of the Executive's death or disability, no compensation or payments will be made to the Executive other than those to which the Executive may otherwise be entitled under the benefit plans of the Company.

3. Compensation and Benefits Upon Termination of Employment. Upon termination of the Executive's employment (such date of termination being referred to as the "Termination Date"), the Company will pay the Executive the compensation and benefits as described in this Section 3.

(a) General Benefits Upon Termination. The Company will pay the Executive on or about the Termination Date all salary and vacation/personal time off pay, if any, that has been earned or accrued through the Termination Date and that has not been previously paid.

(b) Termination without "Cause" or for "Good Reason". In the event that the Company terminates the Executive's employment without Cause (as defined below) or, in the event the Executive terminates his employment for Good Reason (as defined below), in each case, (i) the Executive shall be entitled to receive (A) continuing payments of the then effective Base Salary for a period of nine (9) months beginning on the Payment Commencement Date and payable in accordance with the Company's payroll policies and (B) the benefits set forth in Section 3(e), and (ii) the Executive shall be entitled to acceleration of vesting of such number of Option Shares as would have vested in the nine (9) month period following the Termination Date had the Executive continued to be employed by the Company for such period, *provided*, *however* that in each case the receipt of such payments and benefits is expressly contingent upon the Executive's execution and delivery of a severance and release of claims agreement drafted by and satisfactory to counsel for the Company (the "Release") which Release must be executed and become effective within sixty (60) days following the Termination Date. The payments and benefits shall be paid or commence on the first payroll period following the date the Release becomes effective (the " Payment Commencement Date"). Notwithstanding the foregoing, if the 60th day following the Termination Date occurs in the calendar year following the termination, then the Payment Commencement Date shall be no earlier than January 1st of such subsequent calendar year. The provision of payments and benefits pursuant to this Section shall be subject to the terms and conditions set forth on Exhibit A.

(c) Termination without "Cause" or for "Good Reason" Prior to or Following a Change of Control. In the event that the Company terminates the Executive's employment without Cause (as defined below) or, in the event the Executive terminates his employment for Good Reason (as defined below), in each case, within thirty (30) days prior to, or twelve (12) months following, the consummation of a Change of Control, then (i) the Executive shall be entitled to receive (A) continuing payments of the then effective Base Salary for a period of nine (9) months beginning on the Payment Commencement Date and payable in accordance with the Company's payroll policies and (B) the benefits set forth in Section 3(e), and (ii) acceleration of vesting of one hundred percent (100%) of the then unvested Option Shares, provided, however that in each case: (x), the receipt of such payments and benefits is expressly contingent upon the Executive's execution and delivery of a Release as described above drafted by and satisfactory to counsel for the Company, which Release must be executed and become effective within sixty (60) days following the Termination Date. The provision of payments and benefits pursuant to this Section shall be subject to the terms and conditions set forth in Exhibit A.

(d) Definitions.

(i) "Change of Control" means (A) a merger or consolidation of either the Company or Pacira, Inc., a Delaware corporation (" Parent") into another entity in which the stockholders of the Company or Parent (as applicable) do not control fifty percent (50%) or more of the total voting power of the surviving entity (other than a reincorporation merger); (B) the sale, transfer or other disposition of all or substantially all of the Company's assets in liquidation or dissolution of the Company; or (C) the sale or transfer of more than fifty percent (50%) of the outstanding voting stock of the Company. In the case of each of the foregoing clauses (A), (B) and (C), a Change of Control as a result of a financing transaction of the Company or Parent shall not constitute a Change of Control for purposes of this Agreement

(ii) "Cause" means (A) the Executive's failure to substantially perform his duties to the Company after there has been delivered to the Executive written notice setting forth in detail the specific respects in which the Board believes that the Executive has not substantially performed his duties and, if the Company reasonably considers the situation to be correctable, a demand for substantial performance and opportunity to cure, giving the Executive thirty (30) calendar days after he receives such notice to correct the situation; (B) the Executive's having engaged in fraud, misconduct, dishonesty, gross negligence or having otherwise acted in a manner injurious to the Company or in intentional disregard for the Company's best interests; (C) the Executive's failure to follow reasonable and lawful instructions from the Board and the Executive's failure to cure such failure after receiving twenty (20) days advance written notice; (D) the Executive's material breach of the terms of this Agreement or the Employee Proprietary Information and Inventions Assignment Agreement or any other similar agreement that may be in effect from time to time; or (E) the Executive's conviction of, or pleading guilty or nolo contendere to, any misdemeanor involving dishonesty or moral turpitude or related to the Company's business, or any felony.

(iii) "Good Reason" means the occurrence of any one or more of the following events without the prior written consent of the Executive: (A) any material reduction of the then effective Base Salary other than in accordance with this Agreement or which reduction is not related to a cross-executive team salary reduction; (B) any material breach by the Company of this Agreement; or (C) a material reduction in the Executive's responsibilities or duties, provided that in the case of clause (C), a mere reassignment following a Change of Control to a position that is substantially similar to the position held prior to the Change of Control transaction shall not constitute a material reduction in job responsibilities or duties; provided, however, that no such event or condition shall constitute Good Reason unless (x) the Executive gives the Company a written notice of termination for Good Reason not more than ninety (90) days after the initial existence of the condition, (y) the grounds for termination (if susceptible to correction) are not corrected by the Company within thirty (30) days of its receipt of such notice and (z) the Termination Date occurs within one (1) year following the Company's receipt of such notice.

(e) Benefits Continuation. If the Executive's employment is terminated pursuant to Section 3(b) or Section 3(c) and provided that the Executive is eligible for and elects to continue receiving group health and dental insurance pursuant to the federal "COBRA" law, 29 U.S.C. § 1161 et seq., the Company will, for a twelve (12) month period following the Payment Commencement Date (the " Benefits Continuation Period"), continue to pay the share of

the premium for such coverage that is paid by the Company for active and similarly-situated employees who receive the same type of coverage. The remaining balance of any premium costs shall be paid by the Executive on a monthly basis for as long as, and to the extent that, the Executive remains eligible for COBRA continuation. Notwithstanding the above, in the event the Executive becomes eligible for health insurance benefits from a new employer during the Benefits Continuation Period, the Company's obligations under this Section 3(e) shall immediately cease and the Executive shall not be entitled to any additional monthly premium payments for health insurance coverage. Similarly, in the event the Executive becomes eligible for dental insurance benefits from a new employer during the Benefits Continuation Period, the Company's obligations under this Section 3(e) shall immediately cease and the Executive shall not be entitled to any additional monthly premium payments for dental insurance. The Executive hereby represents that he will notify the Company in writing within three (3) days of becoming eligible for health or dental insurance benefits from a new employer during the Benefits Continuation Period

(f) Death. This Agreement shall automatically terminate upon the death of the Executive and all monetary obligations of Company under Section 2 of this Agreement shall be pro rated to the date of death and paid to the Executive's estate.

(g) Disability. The Company may terminate the Executive's employment if the Executive is unable to perform any of the duties required under this Agreement for a period of three (3) consecutive months due to a "Total and Permanent Disability". The term " Total and Permanent Disability" shall mean the existence of a permanent physical or mental illness or injury, which renders the Executive incapable of performing any material obligations or terms of this Agreement. Any dispute regarding the existence of a Total and Permanent Disability shall be resolved by a panel of three (3) physicians, one selected by Company, one selected by the Executive, and the third selected by the other two physicians. A termination of employment pursuant to this Section 3(f) shall constitute a termination for Cause.

4. At-Will Employment. The Executive will be an "at-will" employee of the Company, which means the employment relationship can be terminated by either the Executive or the Company for any reason, at any time, with or without prior notice and with or without cause. The Company makes no promise that the Executive's employment will continue for any particular period of time, nor is there any promise that it will be terminated only under particular circumstances. No raise or bonus, if any, shall alter the Executive's status as an "at-will" employee or create any implied contract of employment. Discussion of possible or potential benefits in future years is not an express or implied promise of continued employment. No manager, supervisor or officer of the Company has the authority to change the Executive's status as an "at-will" employee. The "at-will" nature of the employment relationship with the Executive can only be altered by a written resolution approved by the Board.

5. Non-Solicitation.

(a) Non-Solicit. The Executive agrees that during the term of the Executive's employment with the Company, and for a period of twelve (12) months immediately following the termination of the Executive's employment with the Company for any reason, whether with

or without Cause or Good Reason, the Executive shall not either directly or indirectly solicit, induce, recruit or encourage any of the Company's or its affiliates' employees or consultants to terminate such employee's or consultant's relationship with the Company or its affiliates, or attempt to solicit, induce, recruit, encourage or take away employees or consultants of the Company or any of its affiliates, either for the Executive or for any other person or entity. Further, during the Executive's employment with the Company or any of its affiliates and at any time following termination of the Executive's employment with the Company or any of its affiliates for any reason, with or without Cause or Good Reason, the Executive shall not use any confidential information of the Company or any of its affiliates to attempt to negatively influence any of the Company's or any of its affiliates' clients or customers from purchasing Company products or services or to solicit or influence or attempt to influence any client, customer or other person either directly or indirectly, to direct such person's or entity's purchase of products and/or services to any person, firm, corporation, institution or other entity in competition with the business of the Company or any of its affiliates.

(b) Specific Performance. In the event of the breach or threatened breach by the Executive of this Section 5, the Company, in addition to all other remedies available to it at law or in equity, will be entitled to seek injunctive relief and/or specific performance to enforce this Section 5.

6. Director and Officer Liability Insurance; Indemnification. During the term of the Executive's employment hereunder, the Executive shall be entitled to the same indemnification and director and officer liability insurance as the Company and its affiliates maintain for other corporate officers.

7. Proprietary Information and Inventions Assignment Agreement. The Executive has executed and delivered the Company's standard Employee Proprietary Information and Inventions Assignment Agreement or similar agreement and the Executive represents and warrants that the Executive shall continue to be bound and abide by such Employee Proprietary Information and Inventions Assignment Agreement or similar agreement.

8. Attention to Duties; Conflict of Interest. While employed by the Company, the Executive shall devote the Executive's full business time, energy and abilities exclusively to the business and interests of the Company, and shall perform all duties and services in a faithful and diligent manner and to the best of the Executive's abilities. The Executive shall not, without the Company's prior written consent, render to others services of any kind for compensation, or engage in any other business activity that would materially interfere with the performance of the Executive's duties under this Agreement. The Executive represents that the Executive has no other outstanding commitments inconsistent with any of the terms of this Agreement or the services to be rendered to the Company. While employed by the Company, the Executive shall not, directly or indirectly, whether as a partner, employee, creditor, shareholder, or otherwise, promote, participate or engage in any activity or other business competitive with the Company's business. The Executive shall not invest in any company or business which competes in any manner with the Company, except those companies whose securities are listed on reputable securities exchanges in the United States or European Union.

9. Miscellaneous.

(a) Severability. If any provision of this Agreement shall be found by any arbitrator or court of competent jurisdiction to be invalid or unenforceable, then the parties hereby waive such provision to the extent that it is found to be invalid or unenforceable and to the extent that to do so would not deprive one of the parties of the substantial benefit of its bargain. Such provision shall, to the extent allowable by law and the preceding sentence, be modified by such arbitrator or court so that it becomes enforceable and, as modified, shall be enforced as any other provision hereof, all the other provisions continuing in full force and effect.

(b) No Waiver. The failure by either party at any time to require performance or compliance by the other of any of its obligations or agreements shall in no way affect the right to require such performance or compliance at any time thereafter. The waiver by either party of a breach of any provision hereof shall not be taken or held to be a waiver of any preceding or succeeding breach of such provision or as a waiver of the provision itself. No waiver of any kind shall be effective or binding, unless it is in writing and is signed by the party against whom such waiver is sought to be enforced.

(c) Assignment. This Agreement and all rights hereunder are personal to the Executive and may not be transferred or assigned by the Executive at any time. The Company may assign its rights, together with its obligations hereunder, to any parent, subsidiary, affiliate or successor, or in connection with any sale, transfer or other disposition of all or substantially all of its business and assets; *provided*, *however*, that any such assignee assumes the Company's obligations hereunder.

(d) Withholding. All sums payable to the Executive hereunder shall be reduced by all federal, state, local and other withholding and similar taxes and payments required by applicable law.

(e) Entire Agreement. This Agreement, including the agreements referred to herein (which are deemed incorporated by reference herein) constitute the entire and only agreement and understanding between the parties governing the terms and conditions of employment of the Executive with the Company and this Agreement supersedes and cancels any and all previous contracts, arrangements or understandings with governing the terms and conditions of the Executive's employment by the Company. In the event of any conflict between the terms of any other agreement between the Executive and the Company entered into prior to the Effective Date, the terms of this Agreement shall control.

(f) Amendment. This Agreement may be amended, modified, superseded, cancelled, renewed or extended only by an agreement in writing executed by both parties hereto.

(g) Headings. The headings contained in this Agreement are for reference purposes only and shall in no way affect the meaning or interpretation of this Agreement. In this Agreement, the singular includes the plural, the plural included the singular, the masculine gender includes both male and female referents, and the word "or" is used in the inclusive sense.

(h) Notices. Any notices provided hereunder must be in writing and shall be deemed effective upon the earlier of personal delivery (including, personal delivery by facsimile transmission or the third day after mailing by first class mail) to the Company at its primary office location and to the Executive at his address as listed on the Company payroll (which address may be changed by written notice).

(i) Counterparts. This Agreement may be executed in two or more counterparts, each of which shall be deemed to be an original but all of which, taken together, constitute one and the same agreement.

(j) Governing Law, Forum Selection, Jury Waiver. This Agreement and the rights and obligations of the parties hereto shall be construed in accordance with the laws of the State of California without giving effect to the principles of conflict of laws. Any action, suit or other legal proceeding that is commenced to resolve any matter arising under or relating to any provision of this Agreement shall be commenced only in a court of the **State of California** (or, if appropriate, a federal court located within **The Southern District of California**), and the Company and the Executive each consents to the jurisdiction of such a court. *Both the Company and the Executive expressly waive any right that any party either has or may have to a jury trial of any dispute arising out of or in any way related to the Executive's employment with or termination from the Company* .

Subject to this Exhibit A, any severance payments and benefits that may be due under the Agreement shall begin only upon the date of the Executive's "separation from service" (determined as set forth below) which occurs on or after the termination of the Executive's employment. The following rules shall apply with respect to distribution of the severance payments and benefits, if any, to be provided to the Executive under the Agreement, as applicable:

(a) It is intended that each installment of the severance payments and benefits under the Agreement provided under shall be treated as a separate "payment" for purposes of Section 409A. Neither the Company nor the Executive shall have the right to accelerate or defer the delivery of any such payments or benefits except to the extent specifically permitted or required by Section 409A.

(b) If, as of the date of the Executive's "separation from service" from the Company, the Executive is not a "specified employee" (within the meaning of Section 409A), then each installment of the severance payments or benefits shall be made on the dates and terms set forth in the Agreement.

(c) If, as of the date of the Executive's "separation from service" from the Company, the Executive is a "specified employee" (within the meaning of Section 409A), then:

(i) Each installment of the severance payments and benefits due under the Agreement that, in accordance with the dates and terms set forth herein, will in all circumstances, regardless of when the Executive's separation from service occurs, be paid within the short-term deferral period (as defined under Section 409A) shall be treated as a short-term deferral within the meaning of Treasury Regulation Section 1.409A-1(b)(4) to the maximum extent permissible under Section 409A and shall be paid at the time set forth in the Agreement; and

(ii) Each installment of the severance payments and benefits due under the Agreement that is not described in this Exhibit A, Section 1(c)(i) and that would, absent this subsection, be paid within the six-month period following the Executive's "separation from service" from the Company shall not be paid until the date that is six months and one day after such separation from service (or, if earlier, the Executive's death), with any such installments that are required to be delayed being accumulated during the six-month period and paid in a lump sum on the date that is six months and one day following the Executive's separation from service and any subsequent installments, if any, being paid in accordance with the dates and terms set forth herein; provided, however, that the preceding provisions of this sentence shall not apply to any installment of payments and benefits if and to the maximum extent that that such installment is deemed to be paid under a

separation pay plan that does not provide for a deferral of compensation by reason of the application of Treasury Regulation 1.409A-1(b)(9)(iii) (relating to separation pay upon an involuntary separation from service). Any installments that qualify for the exception under Treasury Regulation Section 1.409A-1(b)(9)(iii) must be paid no later than the last day of the Executive's second taxable year following the taxable year in which the separation from service occurs.

2. The determination of whether and when the Executive's separation from service from the Company has occurred shall be made and in a manner consistent with, and based on the presumptions set forth in, Treasury Regulation Section 1.409A-1(h). Solely for purposes of this Exhibit A , Section 2, "Company" shall include all persons with whom the Company would be considered a single employer under Section 414(b) and 414(c) of the Code.

3. The Company makes no representation or warranty and shall have no liability to the Executive or to any other person if any of the provisions of the Agreement (including this Exhibit) are determined to constitute deferred compensation subject to Section 409A but that do not satisfy an exemption from, or the conditions of, that section.

The Executive's participation (and the participation of the Executive's qualified dependents) in the Company's benefit plans and policies will be subject to the terms of the applicable plan documents and the Company's generally applied policies, and the Company in its sole discretion may from time to time adopt, modify, interpret or discontinue such plans or policies.

(e) Expenses. The Company will reimburse the Executive for all reasonable and necessary expenses incurred by the Executive in connection with the Company's business, in accordance with the applicable Company policy as may be amended from time to time.

(f) Vacation and Holidays. The Executive shall be eligible for thirty (30 days' paid vacation/flexible time off per calendar year subject to the applicable terms and conditions of the Company's vacation policy and applicable law.

(g) Termination of Benefits. Except as set forth in Section 3 or as otherwise specified herein or in any other agreement between the Executive and the Company, if the Executive's employment is terminated by the Company for any reason, with or without Cause (as defined below), or if the Executive resigns the Executive's employment voluntarily, with or without Good Reason (as defined below), no compensation or other payments will be paid or provided to the Executive for periods following the date when such a termination of employment is effective, provided that any rights the Executive may have under the Company's benefit plans shall be determined under the provisions of such plans. If the Executive's employment terminates as a result of the Executive's death or disability, no compensation or payments will be made to the Executive other than those to which the Executive may otherwise be entitled under the benefit plans of the Company.

3. Compensation and Benefits Upon Termination of Employment. Upon termination of the Executive's employment (such date of termination being referred to as the "Termination Date"), the Company will pay the Executive the compensation and benefits as described in this Section 3.

(a) General Benefits Upon Termination. The Company will pay the Executive on or about the Termination Date all salary and vacation/personal time off pay, if any, that has been earned or accrued through the Termination Date and that has not been previously paid.

(b) Termination without "Cause" or for "Good Reason". In the event that the Company terminates the Executive's employment without Cause (as defined below) or, in the event the Executive terminates his employment for Good Reason (as defined below), in each case, (i) the Executive shall be entitled to receive (A) continuing payments of the then effective Base Salary for a period of nine (9) months beginning on the Payment Commencement Date and payable in accordance with the Company's payroll policies and (B) the benefits set forth in Section 3(e), and (ii) the Executive shall be entitled to acceleration of vesting of such number of Option Shares as would have vested in the nine (9) month period following the Termination Date had the Executive continued to be employed by the Company for such period, *provided*, *however* that in each case the receipt of such payments and benefits is expressly contingent upon the Executive's execution and delivery of a severance and release of claims agreement drafted by and satisfactory to counsel for the Company (the "Release") which Release must be executed and become effective within sixty (60) days following the Termination Date. The payments and benefits shall be paid or commence on the first payroll period following the date the Release becomes effective (the " Payment Commencement Date"). Notwithstanding the foregoing, if the 60th day following the Termination Date occurs in the calendar year following the termination, then the Payment Commencement Date shall be no earlier than January 1st of such subsequent calendar year. The provision of payments and benefits pursuant to this Section shall be subject to the terms and conditions set forth on Exhibit A.

(c) Termination without "Cause" or for "Good Reason" Prior to or Following a Change of Control. In the event that the Company terminates the Executive's employment without Cause (as defined below) or, in the event the Executive terminates his employment for Good Reason (as defined below), in each case, within thirty (30) days prior to, or twelve (12) months following, the consummation of a Change of Control, then (i) the Executive shall be entitled to receive (A) continuing payments of the then effective Base Salary for a period of nine (9) months beginning on the Payment Commencement Date and payable in accordance with the Company's payroll policies and (B) the benefits set forth in Section 3(e), and (ii) acceleration of vesting of one hundred percent (100%) of the then unvested Option Shares, provided, however that in each case: (x), the receipt of such payments and benefits is expressly contingent upon the Executive's execution and delivery of a Release as described above drafted by and satisfactory to counsel for the Company, which Release must be executed and become effective within sixty (60) days following the Termination Date. The provision of payments and benefits pursuant to this Section shall be subject to the terms and conditions set forth in Exhibit A.

(d) Definitions.

(i) "Change of Control" means (A) a merger or consolidation of either the Company or Pacira, Inc., a Delaware corporation (" Parent") into another entity in which the stockholders of the Company or Parent (as applicable) do not control fifty percent (50%) or more of the total voting power of the surviving entity (other than a reincorporation merger); (B) the sale, transfer or other disposition of all or substantially all of the Company's assets in liquidation or dissolution of the Company; or (C) the sale or transfer of more than fifty percent (50%) of the outstanding voting stock of the Company. In the case of each of the foregoing clauses (A), (B) and (C), a Change of Control as a result of a financing transaction of the Company or Parent shall not constitute a Change of Control for purposes of this Agreement

(ii) "Cause" means (A) the Executive's failure to substantially perform his duties to the Company after there has been delivered to the Executive written notice setting forth in detail the specific respects in which the Board believes that the Executive has not substantially performed his duties and, if the Company reasonably considers the situation to be correctable, a demand for substantial performance and opportunity to cure, giving the Executive thirty (30) calendar days after he receives such notice to correct the situation; (B) the Executive's having engaged in fraud, misconduct, dishonesty, gross negligence or having otherwise acted in a manner injurious to the Company or in intentional disregard for the Company's best interests; (C) the Executive's failure to follow reasonable and lawful instructions from the Board and the Executive's failure to cure such failure after receiving twenty (20) days advance written notice; (D) the Executive's material breach of the terms of this Agreement or the Employee Proprietary Information and Inventions Assignment Agreement or any other similar agreement that may be in effect from time to time; or (E) the Executive's conviction of, or pleading guilty or nolo contendere to, any misdemeanor involving dishonesty or moral turpitude or related to the Company's business, or any felony.

(iii) "Good Reason" means the occurrence of any one or more of the following events without the prior written consent of the Executive: (A) any material reduction of the then effective Base Salary other than in accordance with this Agreement or which reduction is not related to a cross-executive team salary reduction; (B) any material breach by the Company of this Agreement; or (C) a material reduction in the Executive's responsibilities or duties, provided that in the case of clause (C), a mere reassignment following a Change of Control to a position that is substantially similar to the position held prior to the Change of Control transaction shall not constitute a material reduction in job responsibilities or duties; provided, however, that no such event or condition shall constitute Good Reason unless (x) the Executive gives the Company a written notice of termination for Good Reason not more than ninety (90) days after the initial existence of the condition, (y) the grounds for termination (if susceptible to correction) are not corrected by the Company within thirty (30) days of its receipt of such notice and (z) the Termination Date occurs within one (1) year following the Company's receipt of such notice.

(e) Benefits Continuation. If the Executive's employment is terminated pursuant to Section 3(b) or Section 3(c) and provided that the Executive is eligible for and elects to continue receiving group health and dental insurance pursuant to the federal "COBRA" law, 29 U.S.C. § 1161 et seq., the Company will, for a twelve (12) month period following the Payment Commencement Date (the " Benefits Continuation Period"), continue to pay the share of

the premium for such coverage that is paid by the Company for active and similarly-situated employees who receive the same type of coverage. The remaining balance of any premium costs shall be paid by the Executive on a monthly basis for as long as, and to the extent that, the Executive remains eligible for COBRA continuation. Notwithstanding the above, in the event the Executive becomes eligible for health insurance benefits from a new employer during the Benefits Continuation Period, the Company's obligations under this Section 3(e) shall immediately cease and the Executive shall not be entitled to any additional monthly premium payments for health insurance coverage. Similarly, in the event the Executive becomes eligible for dental insurance benefits from a new employer during the Benefits Continuation Period, the Company's obligations under this Section 3(e) shall immediately cease and the Executive shall not be entitled to any additional monthly premium payments for dental insurance. The Executive hereby represents that he will notify the Company in writing within three (3) days of becoming eligible for health or dental insurance benefits from a new employer during the Benefits Continuation Period

(f) Death. This Agreement shall automatically terminate upon the death of the Executive and all monetary obligations of Company under Section 2 of this Agreement shall be pro rated to the date of death and paid to the Executive's estate.

The term " Total and Permanent Disability" shall mean the existence of a permanent physical or mental illness or injury, which renders the Executive incapable of performing any material obligations or terms of this Agreement. Any dispute regarding the existence of a Total and Permanent Disability shall be resolved by a panel of three (3) physicians, one selected by Company, one selected by the Executive, and the third selected by the other two physicians. A termination of employment pursuant to this Section 3(f) shall constitute a termination for Cause.

4. At-Will Employment. The Executive will be an "at-will" employee of the Company, which means the employment relationship can be terminated by either the Executive or the Company for any reason, at any time, with or without prior notice and with or without cause. The Company makes no promise that the Executive's employment will continue for any particular period of time, nor is there any promise that it will be terminated only under particular circumstances. No raise or bonus, if any, shall alter the Executive's status as an "at-will" employee or create any implied contract of employment. Discussion of possible or potential benefits in future years is not an express or implied promise of continued employment. No manager, supervisor or officer of the Company has the authority to change the Executive's status as an "at-will" employee. The "at-will" nature of the employment relationship with the Executive can only be altered by a written resolution approved by the Board.

5. Non-Solicitation.

(a) Non-Solicit. The Executive agrees that during the term of the Executive's employment with the Company, and for a period of twelve (12) months immediately following the termination of the Executive's employment with the Company for any reason, whether with

or without Cause or Good Reason, the Executive shall not either directly or indirectly solicit, induce, recruit or encourage any of the Company's or its affiliates' employees or consultants to terminate such employee's or consultant's relationship with the Company or its affiliates, or attempt to solicit, induce, recruit, encourage or take away employees or consultants of the Company or any of its affiliates, either for the Executive or for any other person or entity. Further, during the Executive's employment with the Company or any of its affiliates and at any time following termination of the Executive's employment with the Company or any of its affiliates for any reason, with or without Cause or Good Reason, the Executive shall not use any confidential information of the Company or any of its affiliates to attempt to negatively influence any of the Company's or any of its affiliates' clients or customers from purchasing Company products or services or to solicit or influence or attempt to influence any client, customer or other person either directly or indirectly, to direct such person's or entity's purchase of products and/or services to any person, firm, corporation, institution or other entity in competition with the business of the Company or any of its affiliates.

(b) Specific Performance. In the event of the breach or threatened breach by the Executive of this Section 5, the Company, in addition to all other remedies available to it at law or in equity, will be entitled to seek injunctive relief and/or specific performance to enforce this Section 5.

6. Director and Officer Liability Insurance; Indemnification. During the term of the Executive's employment hereunder, the Executive shall be entitled to the same indemnification and director and officer liability insurance as the Company and its affiliates maintain for other corporate officers.

7. Proprietary Information and Inventions Assignment Agreement. The Executive has executed and delivered the Company's standard Employee Proprietary Information and Inventions Assignment Agreement or similar agreement and the Executive represents and warrants that the Executive shall continue to be bound and abide by such Employee Proprietary Information and Inventions Assignment Agreement or similar agreement.

8. Attention to Duties; Conflict of Interest. While employed by the Company, the Executive shall devote the Executive's full business time, energy and abilities exclusively to the business and interests of the Company, and shall perform all duties and services in a faithful and diligent manner and to the best of the Executive's abilities. The Executive shall not, without the Company's prior written consent, render to others services of any kind for compensation, or engage in any other business activity that would materially interfere with the performance of the Executive's duties under this Agreement. The Executive represents that the Executive has no other outstanding commitments inconsistent with any of the terms of this Agreement or the services to be rendered to the Company. While employed by the Company, the Executive shall not, directly or indirectly, whether as a partner, employee, creditor, shareholder, or otherwise, promote, participate or engage in any activity or other business competitive with the Company's business. The Executive shall not invest in any company or business which competes in any manner with the Company, except those companies whose securities are listed on reputable securities exchanges in the United States or European Union.

9. Miscellaneous.

(a) Severability. If any provision of this Agreement shall be found by any arbitrator or court of competent jurisdiction to be invalid or unenforceable, then the parties hereby waive such provision to the extent that it is found to be invalid or unenforceable and to the extent that to do so would not deprive one of the parties of the substantial benefit of its bargain. Such provision shall, to the extent allowable by law and the preceding sentence, be modified by such arbitrator or court so that it becomes enforceable and, as modified, shall be enforced as any other provision hereof, all the other provisions continuing in full force and effect.

(b) No Waiver. The failure by either party at any time to require performance or compliance by the other of any of its obligations or agreements shall in no way affect the right to require such performance or compliance at any time thereafter. The waiver by either party of a breach of any provision hereof shall not be taken or held to be a waiver of any preceding or succeeding breach of such provision or as a waiver of the provision itself. No waiver of any kind shall be effective or binding, unless it is in writing and is signed by the party against whom such waiver is sought to be enforced.

(c) Assignment. This Agreement and all rights hereunder are personal to the Executive and may not be transferred or assigned by the Executive at any time. The Company may assign its rights, together with its obligations hereunder, to any parent, subsidiary, affiliate or successor, or in connection with any sale, transfer or other disposition of all or substantially all of its business and assets; *provided*, *however*, that any such assignee assumes the Company's obligations hereunder.

(d) Withholding. All sums payable to the Executive hereunder shall be reduced by all federal, state, local and other withholding and similar taxes and payments required by applicable law.

(e) Entire Agreement. This Agreement, including the agreements referred to herein (which are deemed incorporated by reference herein) constitute the entire and only agreement and understanding between the parties governing the terms and conditions of employment of the Executive with the Company and this Agreement supersedes and cancels any and all previous contracts, arrangements or understandings with governing the terms and conditions of the Executive's employment by the Company. In the event of any conflict between the terms of any other agreement between the Executive and the Company entered into prior to the Effective Date, the terms of this Agreement shall control.

(f) Amendment. This Agreement may be amended, modified, superseded, cancelled, renewed or extended only by an agreement in writing executed by both parties hereto.

(g) Headings. The headings contained in this Agreement are for reference purposes only and shall in no way affect the meaning or interpretation of this Agreement. In this Agreement, the singular includes the plural, the plural included the singular, the masculine gender includes both male and female referents, and the word "or" is used in the inclusive sense.

(h) Notices. Any notices provided hereunder must be in writing and shall be deemed effective upon the earlier of personal delivery (including, personal delivery by facsimile transmission or the third day after mailing by first class mail) to the Company at its primary office location and to the Executive at his address as listed on the Company payroll (which address may be changed by written notice).

(i) Counterparts. This Agreement may be executed in two or more counterparts, each of which shall be deemed to be an original but all of which, taken together, constitute one and the same agreement.

(j) Governing Law, Forum Selection, Jury Waiver. This Agreement and the rights and obligations of the parties hereto shall be construed in accordance with the laws of the State of California without giving effect to the principles of conflict of laws. Any action, suit or other legal proceeding that is commenced to resolve any matter arising under or relating to any provision of this Agreement shall be commenced only in a court of the **State of California** (or, if appropriate, a federal court located within **Southern District of California**), and the Company and the Executive each consents to the jurisdiction of such a court. *Both the Company and the Executive expressly waive any right that any party either has or may have to a jury trial of any dispute arising out of or in any way related to the Executive's employment with or termination from the Company* .

EXHIBIT A

PAYMENTS SUBJECT TO SECTION 409A

1. Subject to this Exhibit A, any severance payments and benefits that may be due under the Agreement shall begin only upon the date of the Executive's "separation from service" (determined as set forth below) which occurs on or after the termination of the Executive's employment. The following rules shall apply with respect to distribution of the severance payments and benefits, if any, to be provided to the Executive under the Agreement, as applicable:

(a) It is intended that each installment of the severance payments and benefits under the Agreement provided under shall be treated as a separate "payment" for purposes of Section 409A. Neither the Company nor the Executive shall have the right to accelerate or defer the delivery of any such payments or benefits except to the extent specifically permitted or required by Section 409A.

(b) If, as of the date of the Executive's "separation from service" from the Company, the Executive is not a "specified employee" (within the meaning of Section 409A), then each installment of the severance payments or benefits shall be made on the dates and terms set forth in the Agreement.

(c) If, as of the date of the Executive's "separation from service" from the Company, the Executive is a "specified employee" (within the meaning of Section 409A), then:

(i) Each installment of the severance payments and benefits due under the Agreement that, in accordance with the dates and terms set forth herein, will in all circumstances, regardless of when the Executive's separation from service occurs, be paid within the short-term deferral period (as defined under Section 409A) shall be treated as a short-term deferral within the meaning of Treasury Regulation Section 1.409A-1(b)(4) to the maximum extent permissible under Section 409A and shall be paid at the time set forth in the Agreement; and

(ii) Each installment of the severance payments and benefits due under the Agreement that is not described in this Exhibit A, Section 1(c)(i) and that would, absent this subsection, be paid within the six-month period following the Executive's "separation from service" from the Company shall not be paid until the date that is six months and one day after such separation from service (or, if earlier, the Executive's death), with any such installments that are required to be delayed being accumulated during the six-month period and paid in a lump sum on the date that is six months and one day following the Executive's separation from service and any subsequent installments, if any, being paid in accordance with the dates and terms set forth herein; provided, however, that the preceding provisions of this sentence shall not apply to any installment of payments and benefits if and to the maximum extent that that such installment is deemed to be paid under a

separation pay plan that does not provide for a deferral of compensation by reason of the application of Treasury Regulation 1.409A-1(b)(9)(iii) (relating to separation pay upon an involuntary separation from service). Any installments that qualify for the exception under Treasury Regulation Section 1.409A-1(b)(9)(iii) must be paid no later than the last day of the Executive's second taxable year following the taxable year in which the separation from service occurs.

2. The determination of whether and when the Executive's separation from service from the Company has occurred shall be made and in a manner consistent with, and based on the presumptions set forth in, Treasury Regulation Section 1.409A-1(h). Solely for purposes of this Exhibit A , Section 2, "Company" shall include all persons with whom the Company would be considered a single employer under Section 414(b) and 414(c) of the Code.

3. The Company makes no representation or warranty and shall have no liability to the Executive or to any other person if any of the provisions of the Agreement (including this Exhibit) are determined to constitute deferred compensation subject to Section 409A but that do not satisfy an exemption from, or the conditions of, that section.

(b) Advance Request. To obtain an Advance, a Borrower shall complete, sign and deliver an Advance Request and Term Note to Lender. Lender shall fund the Advance in the manner requested by the Advance Request provided that each of the conditions precedent to such Advance is satisfied as of the requested Advance Date.

(c) Interest. The principal balance of each Advance shall bear interest thereon from such Advance Date at the Interest Rate based on a year consisting of 360 days, with interest computed daily based on the actual number of days elapsed. The Interest Rate will float and change on the day the Prime Rate changes from time to time.

(d) Payment. During the Interest Only Period, Borrowers will pay interest on each Advance on the first business day of each month, beginning the month after the Advance Date. Borrowers shall repay the aggregate Term Loan principal balance that is outstanding on the date the Interest Only Period expires in 33 equal monthly installments of principal and interest beginning the first business day of the month after such expiration and continuing on the first business day of each month thereafter. The entire Term Loan principal balance and all accrued but unpaid interest hereunder, shall be due and payable on Maturity Date. Borrowers shall make all payments under this Agreement without setoff, recoupment or deduction and regardless of any counterclaim or defense. Lender will initiate debit entries to the a Borrower's account as authorized on the ACH Authorization on each payment date of all periodic obligations payable to Lender under each Term Note or Advance.

2.2 Maximum Interest. Notwithstanding any provision in this Agreement, the Notes, or any other Loan Document, it is the parties' intent not to contract for, charge or receive interest at a rate that is greater than the maximum rate permissible by law that a court of competent jurisdiction shall deem applicable hereto (which under the laws of the State of California shall be deemed to be the laws relating to permissible rates of interest on commercial loans) (the "Maximum Rate"). If a court of competent jurisdiction shall finally determine that Borrower has actually paid to Lender an amount of interest in excess of the amount that would have been payable if all of the Secured Obligations had at all times borne interest at the Maximum Rate, then such excess interest actually paid by a Borrower shall be applied as follows: first, to the payment of principal outstanding on the Notes; second, after all principal is repaid, to the payment of Lender's accrued interest, costs, expenses, professional fees and any other Secured Obligations; and third, after all Secured Obligations are repaid, the excess (if any) shall be refunded to Borrowers.

2.3 Default Interest. In the event any payment is not paid on the scheduled payment date, an amount equal to five percent (5%) of the past due amount shall be payable on demand. In addition, upon the occurrence and during the continuation of an Event of Default hereunder, all Secured Obligations, including principal, interest, compounded interest, and professional fees, shall bear interest at a rate per annum equal to the rate set forth in Section 2.1(c), plus five percent (5%) per annum. In the event any interest is not paid when due hereunder, delinquent interest shall be added to principal and shall bear interest on interest, compounded at the rate set forth in Section 2.1(c) or Section 2.2, as applicable.

2.4 Prepayment. At its option upon at least 5 business days prior notice to Lender, a Borrower may prepay any part of the outstanding Advances by paying the principal balance, all accrued and unpaid interest, together with a prepayment charge equal to 1.25% of the Advance amount being prepaid (the "Prepayment Charge"), provided (i) at any time the Guaranty is in effect, Borrowers may not prepay any part of the Term Loan A Loan without Lender's prior written consent if any amount is outstanding in respect of the Term Loan B Loan and (ii) at any time the Guaranty is not in effect, any prepayment(s) shall be applied pro rata to the outstanding balances of the Term Loan A Loan and the Term

Loan B Loan. Borrowers shall pay the Prepayment Charge upon any prepayment of the Secured Obligations arising out of the occurrence of an Event of Default. Borrowers agree that the Prepayment Charge is a reasonable calculation of Lender's lost profits in view of the difficulties and impracticality of determining actual damages resulting from an early repayment of the Advances.

2.5 End of Term Charge. On the earliest to occur of (i) the Maturity Date, (ii) the date that Borrowers prepay the outstanding Secured Obligations in full, or (iii) the due and proper acceleration of the Secured Obligations, Borrowers shall pay Lender a charge of $630,000. Notwithstanding the required payment date of such charge, it shall be deemed earned by Lender as of the Closing Date.

2.6 Termination of Guaranty. As long as an Event of Default is not then continuing, a Borrower may elect to terminate the Guaranty upon the earliest to occur of (a) a Borrower's receipt after the Closing Date of at least $75,000,000 in net new cash proceeds in any 12-month period from one or more of an Initial Public Offering, an equity financing, or convertible debt financing or strategic partnership, or any combination thereof, or (b) (i) Borrower's receipt after the Closing Date of at least $50,000,000 in net new cash proceeds from an Initial Public Offering, equity financing, convertible debt or strategic partnership, or any combination thereof, in any 12-month period, and (ii) the FDA approves EXPAREL or (c) a Borrower completes an Initial Public Offering, and after giving effect thereto, such Borrower has a market capitalization of at least $400,000,000 and a balance of unrestricted cash (other than Permitted Liens) of at least $50,000,000. Such termination shall be effective upon Lender's receipt of a Borrower's notice to terminate, together with such evidence as Lender may reasonably request of the satisfaction of the occurrence of any of (a), (b), or (c).

SECTION 3. SECURITY INTEREST

3.1 As security for the prompt, complete payment when due (whether on the payment dates or otherwise) of all the Secured Obligations, each Borrower grants to Lender a security interest in all of such Borrower's personal property now owned or hereafter acquired, including the following (collectively, the "Collateral"): (a) Receivables; (b) Equipment; (c) Fixtures; (d) General Intangibles; (e) Inventory; (f) Investment Property; (g) Deposit Accounts; (h) Cash; (i) Goods; (j) Intellectual Property; and (k) other tangible and intangible personal property of such Borrower whether now or hereafter owned or existing, leased, consigned by or to, or acquired by, such Borrower and wherever located; and, to the extent not otherwise included, all Proceeds of each of the foregoing and all accessions to, substitutions and replacements for, and rents, profits and products of each of the foregoing. Notwithstanding the foregoing, so long as and to the extent that the terms and conditions of the Royalty Agreements prohibit a Borrower from granting a security interest in the Royalty Collateral to Lender (or so long as a default under any Royalty Agreement would result from such grant to Lender), the grant of security interest under this Agreement shall not extend to and the term "Collateral" shall not include (i) the Royalty Collateral and (ii) any deposit accounts of such Borrower that are subject to the Royalty Lockbox Agreement and are dedicated exclusively to the receipt of royalty payments resulting from the license of the DepoDur and DepoCyt products (such deposit accounts, the "Royalty Deposit Accounts"); provided, however, if (x) the Royalty Agreements are terminated or (y) the Royalty Agreements are amended to permit such Borrower to grant a security interest in the Royalty Collateral to Lender, then the grant of security interest under this Agreement shall automatically extend to, and the term "Collateral" shall automatically include, the Royalty Collateral and the Royalty Deposit Accounts. Further, notwithstanding any provision in this Agreement to the contrary, the grant of security interest herein shall not extend to and the term "Collateral" shall not include (all of the following, together with the Royalty Collateral and the Royalty Deposit Accounts, the "Excluded Assets"): (i) more than 65% of the issued and outstanding voting capital stock of any Subsidiary of Borrower that is incorporated or organized in a jurisdiction other than the United States or any state or territory thereof, to the extent that Lender's taking a security interest in more than 65% of

such stock would cause Borrower to incur adverse tax consequences, (ii) any "intent-to-use" trademarks at all times prior to the first use thereof, whether by the actual use thereof in commerce, the recording of a statement of use with the United States Patent and Trademark Office or otherwise, and (iii) any license or contract to the extent and only to the extent that the granting of a security interest in such license or contract is expressly prohibited by any applicable statute, law, or regulation, or would constitute a default under or a breach of such license or contract, as applicable, but only to the extent that such prohibition or default is enforceable under applicable law (including without limitation Sections 9406, 9407 and 9408 of the UCC); provided that upon the termination or expiration of any such prohibition, such license or contract, as applicable, shall automatically be subject to the security interest granted in favor of Lender hereunder and become part of the "Collateral".

There is no decree, order, judgment, agreement, stipulation, arbitral award or other provision entered into in connection with any litigation or proceeding that obligates such Borrower to grant licenses or ownership interest in any future Intellectual Property related to the operation or conduct of the business of Borrower or Borrower Products. Such Borrower has not received any written notice or claim, or, to the knowledge of Borrower, oral notice or claim, challenging or questioning such Borrower's ownership in any Intellectual Property (or written notice of any claim challenging or questioning the ownership in any licensed Intellectual Property of the owner thereof) or suggesting that any third party has any claim of legal or beneficial ownership with respect thereto nor, to such Borrower's knowledge, is there a reasonable basis for any such claim. Each Borrower shallt maintain a minimum of $2,000,000 of commercial general liability insurance for each occurrence. Each Borrower has and shall maintain a minimum of $2,000,000 of directors and officers' insurance for each occurrence and $5,000,000 in the aggregate. All certificates of insurance will provide for a minimum of thirty (30) days advance written notice to Lender of cancellation or any other change adverse to Lender's interests (except with respect to non-payment, in which case 10 days advance notice is sufficient). Any failure of Lender to scrutinize such insurance certificates for compliance is not a waiver of any of Lender's rights, all of which are reserved.

6.3 Indemnity. Each Borrower agrees to indemnify and hold Lender and its officers, directors, employees, agents, in-house attorneys, representatives and shareholders (each, an Indemnitee") harmless from and against any and all claims, costs, expenses, damages and liabilities (including such claims, costs, expenses, damages and liabilities based on liability in tort, including strict liability in tort), including reasonable attorneys' fees and disbursements and other costs of investigation or defense (including those incurred upon any appeal), that may be instituted or asserted against or incurred by an Indemnitee as the result of credit having been extended, suspended or terminated under this Agreement and the other Loan Documents or the administration of such credit, or in connection with or arising out of the transactions contemplated hereunder and thereunder, or any actions or failures to act in connection therewith, or arising out of the disposition or utilization of the Collateral, excluding in all cases claims resulting from the Indemnitee's gross negligence or willful misconduct, as determined by a final judgment of a court of competent jurisdiction. In no event shall any Indemnitee be liable on any theory of liability for any special, indirect, consequential or punitive damages. Borrower agrees to pay, and to save Lender harmless from, any and all liabilities with respect to, or resulting from any delay in paying, any and all excise, sales or other similar taxes (excluding taxes imposed on or measured by the net income of Lender) that may be payable or determined to be payable with respect to any of the Collateral or this Agreement; provided, however, that (i) with respect to such liabilities imposed originally and independently on Lenders, Lenders shall notify a Borrower of any such liabilities within 180 days of the initial date Lenders had actual knowledge, or should have had knowledge, of a Lender's direct exposure to such liabilities, and (ii) with respect to all other such liabilities not described in subsection (i), Lenders shall notify Borrower of any such liabilities within 180 days of the initial date a Lender has actual knowledge of its direct exposure to such liabilities.

(g) financial and business projections, as well as budgets, operating plans and other financial information reasonably requested by Lender.

The executed Compliance Certificate may be sent via facsimile to Lender at (650) 473-9194 or via e-mail to pshah@herculestech.com. In addition, any such representative shall have the right to meet with management and officers of such Borrower to discuss such books of account and records. In addition, Lender shall be entitled at reasonable times and intervals to consult with and advise the management and officers of such Borrower concerning significant business issues affecting Borrower. Such consultations shall not unreasonably interfere with Borrower's business operations. The parties intend that the rights granted Lender shall constitute "management rights" within the meaning of 29 C.F.R Section 2510.3-101(d)(3)(ii), but that any advice, recommendations or participation by Lender with respect to any business issues shall not be deemed to give Lender, nor be deemed an exercise by Lender of, control over Borrower's management or policies.

In addition, and for such purposes only, such Borrower authorizes Lender to execute and deliver on behalf of Borrower and to file such financing statements, collateral assignments, notices, control agreements, security agreements and other documents without the signature of Borrower either in Lender's name or in the name of Lender as agent and attorney-in-fact for Borrower. Borrower shall, in its reasonable business judgment, protect and defend Borrower's title to the Collateral and Lender's Lien thereon against all Persons claiming any interest adverse to Borrower or Lender other than Permitted Liens.

7.4 Amendments to Other Agreements. No Borrower may amend, modify or waive any provision of (a) any Royalty Agreement to modify (i) the scope of the Royalty Collateral or (ii) Section 5.11(c)(iv) of the Royalty Assignment Agreement, (b) any of Borrower's organizational documents, unless the net effect of such amendment, modification or waiver is not adverse in any material respect to Borrower or Lender (it being agreed for the avoidance of doubt that any amendment or modification to the organization documents of Borrower to permit the issuance of equity on terms and conditions that are not prohibited under this Agreement shall not be considered adverse to Borrower or Lender), or (c) any document relating to any of the Subordinated Indebtedness, in each case, without the prior written consent of Lender. For clarity, this Section does not restrict conversion of any Subordinated Indebtedness into equity, or any amendment to the organization documents of Borrower to increase the number of authorized shares of Borrower, in each case in connection with the IPO.

7.5 Indebtedness. Such Borrower shall not create, incur, assume, guarantee or be or remain liable with respect to any Indebtedness, or permit any Subsidiary so to do, other than Permitted Indebtedness, or prepay any Indebtedness or take any actions which impose on such Borrower an obligation to prepay any Indebtedness, except for the conversion of Indebtedness into equity securities and the payment of cash in lieu of fractional shares in connection with such conversion.

7.6 Collateral. Such Borrower shall at all times keep the Collateral and all other property and assets used in such Borrower's business or in which such Borrower now or hereafter holds any interest free and clear from any legal process or Liens whatsoever (except for Permitted Liens), and shall give Lender prompt written notice of any legal process affecting the Collateral, such other property and assets, or any Liens thereon. Such Borrower shall cause its Subsidiaries to protect and defend such Subsidiary's title to its assets from and against all Persons claiming any interest adverse to such Subsidiary, and such Borrower shall cause its Subsidiaries at all times to keep such Subsidiary's property and assets free and clear from any legal process or Liens whatsoever (except for Permitted Liens), and shall give Lender prompt written notice of any legal process affecting such Subsidiary's assets. Such Borrower shall not enter into any agreement (other than the Royalty Agreements, Permitted Licenses and Permitted Transfers) in which a negative pledge in the Intellectual Property is granted to any Person other than Lender.

7.7 Investments. Such Borrower shall not directly or indirectly acquire or own, or make any Investment in or to any Person, or permit any of its Subsidiaries so to do, other than Permitted Investments.

7.8 Restricted Payments. Such Borrower shall not, and shall not allow any Subsidiary to, (a) repurchase or redeem any class of stock or other equity interest other than pursuant to employee, director or consultant repurchase plans or other similar agreements, provided, however, in each case the repurchase or redemption price does not exceed the original consideration paid for such stock or equity interest, and in any case does not exceed $200,000 in any fiscal year for all such repurchases or redemptions, or (b) declare or pay any cash dividend or make a cash distribution on any class of stock or other equity interest, except that a Subsidiary may pay dividends or make distributions to Borrower, or (c) lend money to any employees, officers or directors or guarantee the payment of any such loans granted by a third party in excess of $100,000 in the aggregate or (d) waive, release or forgive any indebtedness owed by any employees, officers or directors in excess of $100,000 in the aggregate, or (e) make any payments to the Trust other than scheduled periodic payments required to be made pursuant to the terms and conditions of the Royalty Assignment Agreement, or (f) permit any Subsidiary to be a party to, or bound by, any agreement that restricts such Subsidiary from paying dividends or otherwise distributing property to Borrower.

7.9 Transfers. Except for Permitted Transfers, such Borrower shall not voluntarily or involuntarily transfer, sell, lease, license, lend or in any other manner convey any equitable, beneficial or legal interest in any material portion of their assets.

7.10 Mergers or Acquisitions. Such Borrower shall not merge or consolidate, or permit any of its Subsidiaries to merge or consolidate, with or into any other business organization (other than mergers or consolidations of a Subsidiary into another Subsidiary or into Borrower), or acquire, or permit any of its Subsidiaries to acquire, all or substantially all of the capital stock or property of another Person.

7.11 Taxes. Such Borrower and its Subsidiaries shall pay when due all taxes, fees or other charges of any nature whatsoever (together with any related interest or penalties) now or hereafter imposed or assessed against such Borrower, Lender or the Collateral or upon Borrower's ownership,

possession, use, operation or disposition thereof or upon Borrower's rents, receipts or earnings arising therefrom. Borrower shall file on or before the due date therefor all personal property tax returns in respect of the Collateral. Notwithstanding the foregoing, Borrower may contest, in good faith and by appropriate proceedings, taxes for which Borrower maintains adequate reserves therefor in accordance with GAAP.

7.12 Corporate Changes. Neither Borrower nor any Subsidiary shall change its corporate name, legal form or jurisdiction of formation without 10 days' prior written notice to Lender. Neither Borrower nor any Subsidiary shall suffer a Change in Control. Neither Borrower nor any Subsidiary shall relocate its chief executive office or its principal place of business unless: (i) it has provided prior written notice to Lender; and (ii) such relocation shall be within the continental United States. Neither Borrower nor any Subsidiary shall relocate any item of Collateral (other than (w) Permitted Transfers, (x) sales of Inventory in the ordinary course of business, (y) relocations of Equipment having an aggregate value of up to $150,000 in any fiscal year, (z) relocations of Collateral from a location described on Exhibit C to another location described on Exhibit C) unless (i) it has provided prompt written notice to Lender, (ii) such relocation is within the continental United States and, (iii) if such relocation is to a third party bailee, it has delivered a bailee agreement in form and substance reasonably acceptable to Lender.

7.13 Deposit Accounts. Neither Borrower nor any Subsidiary shall maintain any Deposit Accounts, or accounts holding Investment Property, except (i) with respect to which Lender has an Account Control Agreement and (ii) constituting Royalty Accounts.

7.15 Compliance. Such Borrower shall not, and Borrower shall not permit any of its Subsidiaries to, fail to comply in any material respect with, or violate in any material respect, any law or regulation applicable to it.

7.16 SBA. Lender has received a license from the U.S. Small Business Administration ("SBA") to extend loans as a small business investment company ("SBIC") pursuant to the Small Business Investment Act of 1958, as amended, and the associated regulations (collectively, the "SBIC Act"). Portions of the loan to Borrower will be made under the SBA license and the SBIC Act. Whenever possible, each provision of this Agreement shall be interpreted in such manner as to be effective and valid under applicable law, but if any provision of this Agreement shall be prohibited by or invalid under such law, such provision shall be ineffective only to the extent and duration of such prohibition or invalidity, without invalidating the remainder of such provision or the remaining provisions of this Agreement.

11.6 Survival. All agreements, representations and warranties contained in this Agreement, the Notes and the other Loan Documents or in any document delivered pursuant hereto or thereto shall be for the benefit of Lender and shall survive the execution and delivery of this Agreement and the expiration or other termination of this Agreement.

11.7 Successors and Assigns. The provisions of this Agreement and the other Loan Documents shall inure to the benefit of and be binding on Borrower and its permitted assigns (if any). No Borrower may assign its obligations under this Agreement, the Notes or any of the other Loan Documents without Lender's express prior written consent, and any such attempted assignment shall be void and of no effect. Lender may assign, transfer, or endorse its rights hereunder and under the other Loan Documents without prior notice to Borrowers, and all of such rights shall inure to the benefit of Lender's successors and assigns.

11.8 Governing Law. This Agreement, the Notes and the other Loan Documents have been negotiated and delivered to Lender in the State of California, and shall have been accepted by Lender in the State of California. Payment to Lender by a Borrower of the Secured Obligations is due in the State of California. This Agreement, the Notes and the other Loan Documents shall be governed by, and construed and enforced in accordance with, the laws of the State of California, excluding conflict of laws principles that would cause the application of laws of any other jurisdiction.

11.9 Consent to Jurisdiction and Venue. All judicial proceedings (to the extent that the reference requirement of Section 11.10 is not applicable) arising in or under or related to this Agreement, the Notes or any of the other Loan Documents may be brought in any state or federal court located in the State of California. By execution and delivery of this Agreement, each party hereto generally and unconditionally: (a) consents to nonexclusive personal jurisdiction in Santa Clara County, State of California; (b) waives any objection as to jurisdiction or venue in Santa Clara County, State of California; (c) agrees not to assert any defense based on lack of jurisdiction or venue in the aforesaid courts; and (d) irrevocably agrees to be bound by any judgment rendered thereby in connection with this Agreement, the Notes or the other Loan Documents. Service of process on any party hereto in any action arising out of or relating to this Agreement shall be effective if given in accordance with the requirements for notice set forth in Section 11.2, and shall be deemed effective and received as set forth in Section 11.2. Nothing herein shall affect the right to serve process in any other manner permitted by law or shall limit the right of either party to bring proceedings in the courts of any other jurisdiction.

11.10 Mutual Waiver of Jury Trial / Judicial Reference.

(a) Because disputes arising in connection with complex financial transactions are most quickly and economically resolved by an experienced and expert person and the parties wish applicable state and federal laws to apply (rather than arbitration rules), the parties desire that their disputes be resolved by a judge applying such applicable laws. EACH BORROWER AND LENDER SPECIFICALLY WAIVES ANY RIGHT IT MAY HAVE TO TRIAL BY JURY OF ANY CAUSE OF ACTION, CLAIM, CROSS-CLAIM, COUNTERCLAIM, THIRD PARTY CLAIM OR ANY OTHER CLAIM (COLLECTIVELY, "CLAIMS") ASSERTED BY BORROWER AGAINST LENDER OR ITS ASSIGNEE OR BY LENDER OR ITS ASSIGNEE AGAINST BORROWER. This waiver extends to all such Claims, including Claims that involve Persons other than a Borrower and Lender; Claims that arise out of or are in any way connected to the relationship between a Borrower and Lender; and any Claims for damages, breach of contract, tort, specific performance, or any equitable or legal relief of any kind, arising out of this Agreement, any other Loan Document.

(b) If the waiver of jury trial set forth in Section 11.10(a) is ineffective or unenforceable, the parties agree that all Claims shall be resolved by reference to a private judge sitting without a jury, pursuant to Code of Civil Procedure Section 638, before a mutually acceptable referee or, if the parties cannot agree, a referee selected by the Presiding Judge of the Santa Clara County, California. Such proceeding shall be conducted in Santa Clara County, California, with California rules of evidence and discovery applicable to such proceeding.

(c) In the event Claims are to be resolved by judicial reference, either party may seek from a court identified in Section 11.9, any prejudgment order, writ or other relief and have such prejudgment order, writ or other relief enforced to the fullest extent permitted by law notwithstanding that all Claims are otherwise subject to resolution by judicial reference.

11.11 Professional Fees. Each Borrower promises to pay Lender's fees and expenses necessary to finalize the loan documentation, including but not limited to reasonable attorneys fees, UCC searches, filing costs, and other miscellaneous expenses. In addition, Borrower promises to pay any and all reasonable attorneys' and other professionals' fees and expenses (including fees and expenses of in-house counsel) incurred by Lender after the Closing Date in connection with or related to: (a) the Loan; (b) the administration, collection, or enforcement of the Loan; (c) the amendment or modification of the Loan Documents; (d) any waiver, consent, release, or termination under the Loan Documents; (e) the protection, preservation, sale, lease, liquidation, or disposition of Collateral or the exercise of remedies with respect to the Collateral; (f) any legal, litigation, administrative, arbitration, or out of court proceeding in connection with or related to Borrower or the Collateral, and any appeal or review thereof; and (g) any bankruptcy, restructuring, reorganization, assignment for the benefit of creditors, workout, foreclosure, or other action related to Borrower, the Collateral, the Loan Documents, including representing Lender in any adversary proceeding or contested matter commenced or continued by or on behalf of Borrower's estate, and any appeal or review thereof.

11.12 Publicity. Lender may use a Borrower's name and logo, and include a brief description of the relationship between such Borrower and Lender, in Lender's marketing materials provided such use does not violate the Securities Act and provided Borrower has consented to such use at all times prior to the Initial Public Offering, such consent not to be unreasonably withheld.

11.13 Confidentiality. Lender acknowledges that certain items of Collateral and information provided to Lender by a Borrower are confidential and proprietary information of Borrower, if and to the extent such information either (x) is marked as confidential by Borrower at the time of disclosure, or (y) should reasonably be understood to be confidential (the "Confidential Information"). Accordingly, Lender agrees that any Confidential Information it may obtain in the course of acquiring, administering, or perfecting Lender's security interest in the Collateral shall not be disclosed to any other person or entity in any manner whatsoever, in whole or in part, without the prior written consent of such Borrower, except that Lender may disclose any such information: (a) to its own directors, officers, employees, accountants, counsel and other professional advisors and to its affiliates if Lender in its sole discretion determines that any such party should have access to such information in connection with such party's responsibilities in connection with the Loan or this Agreement and, provided that such recipient of such Confidential Information either (i) agrees to be bound by the confidentiality provisions of this paragraph or (ii) is otherwise subject to confidentiality restrictions that reasonably protect against the disclosure of Confidential Information; (b) if such information is generally available to the public; (c) if required or appropriate in any report, statement or testimony submitted to any governmental authority having or claiming to have jurisdiction over Lender; (d) if required or appropriate in response to any summons or subpoena or in connection with any litigation, to the extent permitted or deemed advisable by Lender's counsel; (e) to comply with any legal requirement or law applicable to Lender; (f) to the extent reasonably necessary in connection with the exercise of any right or remedy under any Loan Document, including Lender's sale, lease, or other disposition of Collateral after default; (g) to any participant or assignee of Lender or any prospective participant or assignee; provided, that such participant or assignee or prospective participant or assignee agrees in writing to be bound by this Section prior to disclosure; or (h) otherwise with the prior consent of such Borrower; provided, that any disclosure made in violation of this Agreement shall not affect the obligations of Borrower or any of its affiliates or any guarantor under this Agreement or the other Loan Documents.

11.14 Assignment. Each Borrower acknowledges and understands that Lender may sell and assign all or part of its interest hereunder and under the Note(s) and Loan Documents to any person or entity (an "Assignee"). After such assignment the term "Lender" as used in the Loan Documents shall mean and include such Assignee, and such Assignee shall be vested with all rights, powers and remedies

of Lender hereunder with respect to the interest so assigned; but with respect to any such interest not so transferred, Lender shall retain all rights, powers and remedies hereby given. No such assignment by Lender shall relieve Borrower of any of its obligations hereunder. Each Lender agrees that in the event of any transfer by it of the Note(s), it will endorse thereon a notation as to the portion of the principal of the Note(s), which shall have been paid at the time of such transfer and as to the date to which interest shall have been last paid thereon.

11.15 Revival of Secured Obligations. This Agreement and the Loan Documents shall remain in full force and effect and continue to be effective if any petition is filed by or against a Borrower for liquidation or reorganization, if a Borrower becomes insolvent or makes an assignment for the benefit of creditors, if a receiver or trustee is appointed for all or any significant part of a Borrower's assets, or if any payment or transfer of Collateral is recovered from Lender. The Loan Documents and the Secured Obligations and Collateral security shall continue to be effective, or shall be revived or reinstated, as the case may be, if at any time payment and performance of the Secured Obligations or any transfer of Collateral to Lender, or any part thereof is rescinded, avoided or avoidable, reduced in amount, or must otherwise be restored or returned by, or is recovered from, Lender or by any obligee of the Secured Obligations, whether as a "voidable preference," "fraudulent conveyance," or otherwise, all as though such payment, performance, or transfer of Collateral had not been made. In the event that any payment, or any part thereof, is rescinded, reduced, avoided, avoidable, restored, returned, or recovered, the Loan Documents and the Secured Obligations shall be deemed, without any further action or documentation, to have been revived and reinstated except to the extent of the full, final, and indefeasible payment to Lender in Cash.

11.16 Counterparts. This Agreement and any amendments, waivers, consents or supplements hereto may be executed in any number of counterparts, and by different parties hereto in separate counterparts, each of which when so delivered shall be deemed an original, but all of which counterparts shall constitute but one and the same instrument.

11.17 No Third Party Beneficiaries. No provisions of the Loan Documents are intended, nor will be interpreted, to provide or create any third-party beneficiary rights or any other rights of any kind in any person other than Lender and Borrower unless specifically provided otherwise herein, and, except as otherwise so provided, all provisions of the Loan Documents will be personal and solely between the Lender and the Borrower

11.18 Surety Waivers. Each Borrower may, acting singly, request Advances. Each Borrower appoints the other Borrower as agent for the other for all purposes hereunder, including with respect to requesting Advances hereunder. Each Borrower shall be jointly and severally obligated to repay all Advances made hereunder, regardless of which Borrower actually receives said Advance, as if each Borrower hereunder directly received all Advances. Each Borrower waives (a) any suretyship defenses available to it under the Code or any other applicable law, including, without limitation, the benefit of California Civil Code Section 2815 permitting revocation as to future transactions and the benefit of California Civil Code Sections 1432, 2809, 2810, 2819, 2839, 2845, 2847, 2848, 2849, 2850, and 2899 and 3433, and (b) any right to require Lender to: (i) proceed against any Borrower or any other person; (ii) proceed against or exhaust any security; or (iii) pursue any other remedy. Lender may exercise or not exercise any right or remedy it has against any Borrower or any security it holds (including the right to foreclose by judicial or non-judicial sale) without affecting any Borrower's liability. Notwithstanding any other provision of this Agreement or other related document, each Borrower irrevocably waives all rights that it may have at law or in equity (including, without limitation, any law subrogating Borrower to the rights of Lender under this Agreement) to seek contribution, indemnification or any other form of reimbursement from any other Borrower, or any other Person now

or hereafter primarily or secondarily liable for any of the Obligations, for any payment made by Borrower with respect to the Obligations in connection with this Agreement or otherwise and all rights that it might have to benefit from, or to participate in, any security for the Obligations as a result of any payment made by Borrower with respect to the Obligations in connection with this Agreement or otherwise. Any agreement providing for indemnification, reimbursement or any other arrangement prohibited under this Section shall be null and void. If any payment is made to a Borrower in contravention of this Section, such Borrower shall hold such payment in trust for Lender and such payment shall be promptly delivered to Lender for application to the Obligations, whether matured or unmatured.

Table of Addenda, Exhibits and Schedules

ADDENDUM 1 to LOAN AND SECURITY AGREEMENT

(a) *Borrower's Business.* For purposes of this Addendum 1, Borrower shall be deemed to include its "affiliates" as defined in Title 13 Code of Federal Regulations Section 121.103. Borrower represents and warrants to Lender (as of the Closing Date and for a period of one year thereafter) and covenants to Lender as follows:

1. Size Status. Borrower does not have in excess of 500 employees as of the Closing Date;
2. No Relender. Borrower's primary business activity does not involve, directly or indirectly, providing funds to others, purchasing debt obligations, factoring, or long-term leasing of equipment with no provision for maintenance or repair;
3. No Passive Business. Borrower is engaged in a regular and continuous business operation (excluding the mere receipt of payments such as dividends, rents, lease payments, or royalties). Borrower's employees are carrying on the majority of day to day operations. Borrower will not pass through substantially all of the proceeds of the Loan to another entity;
4. No Real Estate Business. Borrower is not classified under Major Group 65 (Real Estate) or Industry No. 1531 (Operative Builders) of the SIC Manual. The proceeds of the Loan will not be used to acquire or refinance real property unless Borrower (x) is acquiring an existing property and will use at least 51 percent of the usable square footage for its business purposes; (y) is building or renovating a building and will use at least 67 percent of the usable square footage for its business purposes; or (z) occupies the subject property and uses at least 67 percent of the usable square footage for its business purposes.
5. No Project Finance. Borrower's assets are not intended to be reduced or consumed, generally without replacement, as the life of its business progresses, and the nature of Borrower's business does not require that a stream of cash payments be made to the business's financing sources, on a basis associated with the continuing sale of assets (e.g., real estate development projects and oil and gas wells). The primary purpose of the Loan is not to fund production of a single item or defined limited number of items, generally over a defined production period, where such production will constitute the majority of the activities of Borrower (e.g., motion pictures and electric generating plants).
6. No Farm Land Purchases. Borrower will not use the proceeds of the Loan to acquire farm land which is or is intended to be used for agricultural or forestry purposes, such as the production of food, fiber, or wood, or is so taxed or zoned.
7. No Foreign Investment. The proceeds of the Loan will not be used substantially for a foreign operation. At the time of the Loan, Borrower will not have more than 49 percent of its employees or tangible assets located outside the United States. The representation in this subsection (7) is made only as of the date hereof and shall not continue for one year as contemplated in the first sentence of this Section 1.

(b) *Small Business Administration Documentation* . Lender acknowledges that Borrower completed, executed and delivered to Lender SBA Forms 480, 652 and 1031 (Parts A and B) together with a business plan showing Borrower's financial projections (including balance sheets and income and cash flows statements) for the period described therein and a written statement (whether included in the purchase agreement or pursuant to a separate statement) from Lender regarding its intended use of proceeds from

the sale of securities to Lender (the "Use of Proceeds Statement"). Borrower represents and warrants to Lender that the information regarding Borrower and its affiliates set forth in the SBA Form 480, Form 652 and Form 1031 and the Use of Proceeds Statement delivered as of the Closing Date is accurate and complete.

(c) *Inspection*. The following covenants contained in this Section (c) are intended to supplement and not to restrict the related provisions of the Loan Documents. Subject to the preceding sentence, Borrower will permit, for so long as Lender holds any debt or equity securities of Borrower, Lender or its representative, at Lender' expense, and examiners of the SBA to visit and inspect the properties and assets of Borrower, to examine its books of account and records, and to discuss Borrower's affairs, finances and accounts with Borrower's officers, senior management and accountants, all at such reasonable times as may be requested by Lender or the SBA.

(d) *Annual Assessment*. Promptly after the end of each calendar year (but in any event prior to February 28 of each year) and at such other times as may be reasonably requested by Lender, Borrower will deliver to Lender a written assessment of the economic impact of Lender' investment in Borrower, specifying the full-time equivalent jobs created or retained in connection with the investment, the impact of the investment on the businesses of Borrower in terms of expanded revenue and taxes, other economic benefits resulting from the investment (such as technology development or commercialization, minority business development, or expansion of exports) and such other information as may be required regarding Borrower in connection with the filing of Lender's SBA Form 468. Lender will assist Borrower with preparing such assessment. In addition to any other rights granted hereunder, Borrower will grant Lender and the SBA access to Borrower's books and records for the purpose of verifying the use of such proceeds. Borrower also will furnish or cause to be furnished to Lender such other information regarding the business, affairs and condition of Borrower as Lender may from time to time reasonably request.

(e) *Use of Proceeds.* Borrower will use the proceeds from the Loan only for general working capital purposes. Borrower will deliver to Lender from time to time promptly following Lender's request, a written report, certified as correct by Borrower's Chief Financial Officer, verifying the purposes and amounts for which proceeds from the Loan have been disbursed. Borrower will supply to Lender such additional information and documents as Lender reasonably requests with respect to its use of proceeds and will permit Lender and the SBA to have access to any and all Borrower records and information and personnel as Lender deems necessary to verify how such proceeds have been or are being used, and to assure that the proceeds have been used for the purposes specified in this Section 7.16.

(f) *Activities and Proceeds*. Neither Borrower nor any of its affiliates (if any) will engage in any activities or use directly or indirectly the proceeds from the Loan for any purpose for which a small business investment company is prohibited from providing funds by the SBIC Act, including 13 C.F.R. §107.720. Without obtaining the prior written approval of Lender, Borrower will not change within 1 year of the date hereof, Borrower's current business activity to a business activity which a licensee under the SBIC Act is prohibited from providing funds by the SBIC Act.

(g) *Redemption Provisions.* Notwithstanding any provision to the contrary contained in the Certificate of Incorporation of Borrower, as amended from time to time (the "Charter"), if, pursuant to the redemption provisions contained in the Charter, Lender is entitled to a redemption of its Warrant, such redemption (in the case of Lender) will be at a price equal to the redemption price set forth in the Charter (the "Existing Redemption Price"). If, however, Lender delivers written notice to Borrower that the then current regulations promulgated under the SBIC Act prohibit payment of the Existing Redemption Price in the case of an SBIC (or, if applied, the Existing Redemption Price would cause the Series C Preferred Stock to lose its classification as an "equity security" and Lender has determined that such classification

is unadvisable), the amount Lender will be entitled to receive shall be the greater of (i) fair market value of the securities being redeemed taking into account the rights and preferences of such securities plus any costs and expenses of the Lender incurred in making or maintaining the Warrant, and (ii) the Existing Redemption Price where the amount of accrued but unpaid dividends payable to the Lender is limited to Borrower's earnings plus any costs and expenses of the Lender incurred in making or maintaining the Warrant; provided, however, the amount calculated in subsections (i) or (ii) above shall not exceed the Existing Redemption Price.

(h) *Cost of Money.* Notwithstanding any provision to the contrary contained in the Loan Documents, all interest and fees charged pursuant to the Loan Documents shall comply with the provisions of 13 C.F.R. § 107.855, including, without limitation, that such amounts shall not exceed the Cost of Money ceiling (as defined hereafter). The current Cost of Money ceiling for this Loan is 14.5%, not including the valuation of the Warrant.

(i) *Compliance and Resolution.* Borrower agrees that a failure to comply with Borrower's obligations under this Addendum, or any other set of facts or circumstances where it has been asserted by any governmental regulatory agency (or Lender believes that there is a substantial risk of such assertion) that Lender and its affiliates are not entitled to hold, or exercise any significant right with respect to, any securities issued to Lender by Borrower, will, subject to the provisions in the remainder of this clause (i), constitute a breach of the obligations of Borrower under the financing agreements between Borrower and Lender. In the event of (i) a failure to comply with Borrower's obligations under this Addendum; or (ii) an assertion by any governmental regulatory agency (or Lender believes that there is a substantial risk of such assertion) of a failure to comply with Borrower's obligations under this Addendum, then (A) Lender and Borrower will meet and resolve any such issue in good faith to the satisfaction of Borrower, Lender, and any governmental regulatory agency, and (B) upon request of Lender, Borrower will cooperate and assist with any assignment of the financing agreements from Hercules Technology III, L.P. to Hercules Technology Growth Capital, Inc. (the "Assignment Remedy"). Notwithstanding anything to the contrary in this Agreement, pending the completion of such resolution meeting pursuant to clause (B) above, no default or Event of Default shall have, or be deemed to have, occurred, provided that if such resolution meeting does not result in a cure or waiver of any such failure to comply, the Assignment Remedy shall be effectuated and, for clarity, no default or Event of Default shall have or be deemed to have occurred.

GUARANTY

This GUARANTY (this "Guaranty"), dated as of November 24, 2010, is entered into by and among each of the guarantors signatory hereto as specified on Schedule 2.1 hereto (each a "VC Guarantor" and collectively, the "VC Guarantors"), and HERCULES TECHNOLOGY GROWTH CAPITAL, INC. and HERCULES TECHNOLOGY III, L.P. (individually, a "Lender" and, collectively, the "Lenders").

W I T N E S S E T H:

WHEREAS, pursuant to the Loan and Security Agreement, dated of even date, among Pacira Pharmaceuticals, Inc., a California corporation ("Pacira California"), Pacira Pharmaceuticals, Inc., a Delaware corporation (" Parent" and, together with Pacira California, the " Borrowers"), and Lender (as amended, restated, supplemented or otherwise modified from time to time, the " Loan Agreement"), the Lender has agreed to make certain Term Loans and to extend certain financial accommodations to Borrowers;

WHEREAS, Parent owns 100% of the outstanding capital stock of Pacira California, and each VC Guarantor is a shareholder of Parent, and as such each VC Guarantor will derive direct and indirect economic benefits from the making of the Term Loans and other financial accommodations provided to Borrowers pursuant to the Loan Agreement;

WHEREAS, in order to induce Lenders to enter into the Loan Agreement and the other Loan Documents and to induce Lenders to make the Term Loan A Loan as provided for in the Loan Agreement, each VC Guarantor has agreed to guarantee payment of certain of the Secured Obligations incurred in connection with the Term Loan A Loan; and

WHEREAS, each VC Guarantor acknowledges that the Lenders would not enter into the Loan Agreement but for such VC Guarantor's entering into this Guaranty;

NOW, THEREFORE, in consideration of the premises and the covenants hereinafter contained, and to induce Lenders to provide the Term Loans and other financial accommodations under the Loan Agreement, it is agreed as follows:

1. DEFINITIONS.

(a) Capitalized terms used herein shall have the meanings assigned to them in the Loan Agreement, unless otherwise defined herein. "Loan Party" shall mean each Borrower and each VC Guarantor.

(b) References to this "Guaranty" shall mean this Guaranty, including all amendments, restatements, modifications and supplements and any annexes, exhibits and schedules to any of the foregoing, and shall refer to this Guaranty as the same may be in effect at the time such reference becomes operative.

2. THE GUARANTY.

2.1 Guaranty of Term Loan A Loan. Each VC Guarantor hereby unconditionally, on a several and not joint basis, (i) guarantees to Lenders, and their respective successors, endorsees, transferees and assigns, the prompt payment (whether at stated maturity, by acceleration or otherwise) and performance of such VC Guarantor's Pro Rata Portion (as defined below) of the principal amount of the Term Loan A Loan, all interest thereon, and all fees, expenses (including without limitation, costs of collection) incurred in connection with the Term Loan A Loan (collectively, the "Obligations"), provided that the aggregate liability of each VC Guarantor under this clause (i) shall be limited to a maximum amount of (1) such VC Guarantor's Pro Rata Portion of the principal amount of all Obligations plus (2) such VC Guarantor's Pro Rata Portion of all interest, fees, expenses (including, without limitation, costs of collection) and other Obligations under the Loan Documents, and provided further that for each VC Guarantor the aggregate amount of clauses (1) and (2) shall not exceed an amount equal to such VC Guarantor's Pro Rata Portion multiplied by $11,250,000 (the aggregate amount of clauses (1) and (2), the "Maximum Amount"), (ii) agrees to pay interest on any amount due and payable under this Guaranty by such VC Guarantor after the date such payment becomes due and payable until payment in full of such amounts due and payable by such VC Guarantor at the highest rate then applicable to the Term Loan A Loan, and (iii) agrees to pay all expenses (including reasonable counsel fees and expenses) incurred by Lenders in enforcing their rights against such VC Guarantor under this Guaranty, or obtaining advice of counsel with respect to this Guaranty with respect to such VC Guarantor, and all other reasonable costs of collection against such VC Guarantor (collectively, the aggregate amount of in clauses (i), (ii) and (iii), the " Guaranteed Obligations"). No VC Guarantor shall be required to pay to the Lenders its Pro Rata Portion of the Guaranteed Obligations until the earlier of (1) the date that is thirty (30) days after a Lender has given written notice (an "Acceleration Notice") to MPM BioVentures IV-QP, L.P. that Lenders have accelerated the Obligations under the Loan Agreement and (2) the date on which any proceeding shall be instituted by or against a Borrower or any VC Guarantor seeking to adjudicate it a bankrupt or insolvent or seeking liquidation, winding up, reorganization, arrangement, adjustment, protection, relief, composition of it or its debts or any similar order under any law relating to bankruptcy, insolvency or reorganization or relief of debtors. Each VC Guarantor agrees that this Guaranty is a guaranty of payment and performance and not of collection, and that its obligations under this Guaranty shall be primary, absolute and unconditional, irrespective of, and unaffected by:

(a) the genuineness, validity, regularity, enforceability or any future amendment of, or change in this Guaranty, any other Loan Document or any other agreement, document or instrument to which any Loan Party and/or VC Guarantor is or may become a party;

(b) the absence of any action to enforce this Guaranty or any other Loan Document or the waiver or consent by a Lender with respect to any of the provisions thereof;

(c) the existence, value or condition of, or failure to perfect Lenders' Liens against, any Collateral for the Guaranteed Obligations or any action, or the absence of any action, by a Lender in respect thereof (including, without limitation, the release of any such security);

(d) the insolvency of any Loan Party; or

(e) any other action or circumstances which might otherwise constitute a legal or equitable discharge or defense of a surety or guarantor,

it being agreed by each VC Guarantor that its obligations under this Guaranty shall not be discharged until the Termination Date. Subject to the limitations and notice provisions in this Section 2.1, each VC Guarantor shall be regarded, and shall be in the same position, as principal debtor with respect to the Guaranteed Obligations. Each VC Guarantor agrees that any notice or directive given at any time to a Lender which is inconsistent with the waiver in the immediately preceding sentence shall be null and void and may be ignored by Lenders, and, in addition, may not be pleaded or introduced as evidence in any litigation relating to this Guaranty for the reason that such pleading or introduction would be at variance with the written terms of this Guaranty, unless Lenders have specifically agreed otherwise in writing. It is agreed among each VC Guarantor and Lenders that the foregoing waivers are of the essence of the transaction contemplated by the Loan Documents and that, but for this Guaranty and such waivers, Lenders would decline to enter into the Loan Documents and to provide the Term Loan A Loan. As used in this Guaranty with respect to any VC Guarantor, the term "Pro Rata Portion" shall mean the percentage set forth opposite such VC Guarantor's name on Schedule 2.1 hereto.

2.2 Demand by Lenders. In addition to the terms of the Guaranty set forth in Section 2.1 hereof, and in no manner imposing any limitation on such terms, it is expressly understood and agreed that, if, at any time, the outstanding principal amount of the Guaranteed Obligations under the Loan Agreement (including all accrued interest thereon) is declared to be immediately due and payable in accordance with the terms thereof, then each VC Guarantor shall, without demand (other than the giving of any Acceleration Notice), pay to the Lenders (for the benefit of the holders of the Guaranteed Obligations) the entire outstanding Guaranteed Obligations due and owing by such VC Guarantor to such holders. Payment by each VC Guarantor shall be made to Lenders in United States dollars and by wire transfer or ACH transfer in immediately available funds (which shall be the exclusive means of payment hereunder) to an account, designated by Lenders and shall be credited and applied to the Guaranteed Obligations,

2.3 Enforcement of Guaranty. In no event shall a Lender have any obligation (although it is entitled, at its option) to proceed against Borrowers or any other Loan Party or any Collateral pledged to secure the Obligations or the Guaranteed Obligations before seeking satisfaction from the VC Guarantor (provided that a Lender shall have given the Notice of Acceleration pursuant to Section 2.1, if applicable), and Lender may proceed, prior or subsequent to, or simultaneously with, the enforcement of Lender's rights hereunder, to exercise any right or remedy which it may have against any Collateral, as a result of any Lien it may have as security for all or any portion of the Obligations or the Guaranteed Obligations.

2.4 Waiver. In addition to the waivers contained in Section 2.1 hereof, each VC Guarantor waives and agrees that it shall not at any time insist upon, plead or in any manner whatever claim or take the benefit or advantage of, any appraisal, valuation, stay, extension,

marshaling of assets or redemption laws, or exemption, whether now or at any time hereafter in force, which may delay, prevent or otherwise affect the performance by such VC Guarantor of its Guaranteed Obligations under, or the enforcement by Lenders of, this Guaranty against such VC Guarantor. Each VC Guarantor hereby waives diligence, presentment and demand (whether for non-payment or protest or of acceptance, maturity, extension of time, change in nature or form of the Guaranteed Obligations, acceptance of further security, release of further security, composition or agreement arrived at as to the amount of, or the terms of, the Guaranteed Obligations, notice of adverse change in any Loan Party's financial condition or any other fact which might increase the risk to such VC Guarantor) with respect to any of the Guaranteed Obligations or all other demands whatsoever and waives the benefit of all provisions of law which are or might be in conflict with the terms of this Guaranty. Each VC Guarantor represents, warrants and agrees that, as of the date of this Guaranty, its obligations under this Guaranty are not subject to any offsets or defenses against Lenders or any Loan Party of any kind. Each VC Guarantor further agrees that its obligations under this Guaranty shall not be subject to any counterclaims, offsets or defenses against any Lender or against any Loan Party of any kind which may arise in the future. Each VC Guarantor waives the benefit of California Civil Code Sections 2815, 2809, 2810, 2819, 2839, 2845, 2848, 2849, 2850, 2899 and 1432.

2.5 Benefit of Guaranty. The provisions of this Guaranty are for the benefit of Lenders and their respective successors, transferees (to the extent such transfer is made in accordance with the terms and conditions of the Loan Agreement), endorsees and assigns, and nothing herein contained shall impair, as between any Loan Party and Lenders, the obligations of any Loan Party under the Loan Documents. In the event all or any part of the Guaranteed Obligations are transferred, indorsed or assigned by any Lender to any Person or Persons, any reference to "Lender" herein shall be deemed to refer equally to such Person or Persons.

2.6 Modification of Guaranteed Obligations, Etc. Each VC Guarantor hereby acknowledges and agrees that Lenders may at any time or from time to time, with or without the consent of, or notice to, any VC Guarantor:

(a) change or extend the manner, place or terms of payment of, or renew or alter all or any portion of, the Guaranteed Obligations;

(b) take any action under or in respect of the Loan Documents (other than actions under this Guaranty, which may only be taken by Lenders in accordance with the terms and conditions hereof) in the exercise of any remedy, power or privilege contained therein or available to it at law, equity or otherwise, or waive or refrain from exercising any such remedies, powers or privileges;

(c) amend or modify, in any manner whatsoever, the Loan Documents (other than this Guaranty, which may only be amended in accordance with the terms and conditions hereof);

(d) extend or waive the time for any Loan Party's performance of, or compliance with, any term, covenant or agreement on its part to be performed or observed under the Loan Documents, or waive such performance or compliance or consent to a failure of, or departure from, such performance or compliance;

(e) take and hold Collateral for the payment of the Guaranteed Obligations guaranteed hereby or sell, exchange, release, dispose of, or otherwise deal with, any property pledged, mortgaged or conveyed, or in which Lenders have been granted a Lien, to secure any Obligations;

(f) release anyone who may be liable in any manner for the payment of any amounts owed by any VC Guarantor or any Loan Party to any Lender;

(g) modify or terminate the terms of any intercreditor or subordination agreement pursuant to which claims of other creditors of VC Guarantor or any Loan Party are subordinated to the claims of Lenders; and/or

(h) apply any sums by whomever paid or however realized to any amounts owing by any VC Guarantor or any Loan Party to any Lender in such manner as any Lender shall determine in its discretion;

and Lenders shall not incur any liability to any VC Guarantor as a result thereof, and no such action shall impair or release the Guaranteed Obligations of any VC Guarantor under this Guaranty.

2.7 Reinstatement. This Guaranty shall remain in full force and effect and continue to be effective should any petition be filed by or against any Loan Party or any VC Guarantor for liquidation or reorganization, should any Loan Party or any VC Guarantor become insolvent or make an assignment for the benefit of creditors or should a receiver or trustee be appointed for all or any significant part of such Loan Party's or such VC Guarantor's assets, and shall continue to be effective or be reinstated, as the case may be, if at any time payment and performance of the Guaranteed Obligations, or any part thereof, is, pursuant to applicable law, rescinded or reduced in amount, or must otherwise be restored or returned by any Lender, whether as a "voidable preference", "fraudulent conveyance", or otherwise, all as though such payment or performance had not been made (provided that (1) as any such rescission, reduction or requirement to return payments relates to a payment made by the Borrowers, such liability of the VC Guarantors under this Section 2.7 shall be reinstated against each VC Guarantor based on such VC Guarantor's Pro Rata Portion of the amount of such payment so rescinded, reduced or required to be returned, and (2) any such reinstatement or revival shall be subject to the limitation on each VC Guarantor's Guaranteed Obligations pursuant to Section 2.1 herein). In the event that any payment, or any part thereof, is rescinded, reduced, restored or returned, the Guaranteed Obligations shall be reinstated and deemed reduced only by such amount paid and not so rescinded, reduced, restored or returned.

2.8 Waiver of Subrogation, Etc. Notwithstanding anything to the contrary in this Guaranty, or in any other Loan Document, until the Termination Date each VC Guarantor hereby:

(a) expressly and irrevocably waives, on behalf of itself and its successors and assigns (including any surety), any and all rights at law or in equity to subrogation, to reimbursement, to exoneration, to contribution, to indemnification, to set off or to any other rights that could accrue to a surety against a principal, to a guarantor against a

principal, to a guarantor against a maker or obligor, to an accommodation party against the party accommodated, to a holder or transferee against a maker, or to the holder of any claim against any Person, and which such VC Guarantor may have or hereafter acquire against any Loan Party in connection with or as a result of such VC Guarantor's execution, delivery and/or performance of this Guaranty, or any other documents to which such VC Guarantor is a party or otherwise; and

(b) acknowledges and agrees (i) that this waiver is intended to benefit Lenders and shall not limit or otherwise affect such VC Guarantor's liability hereunder or the enforceability of this Guaranty, and (ii) that Lenders and their respective successors and assigns are intended third party beneficiaries of the waivers and agreements set forth in this Section 2.8 and their rights under this Section 2.8 shall survive payment in full of the Guaranteed Obligations.

2.9 Election of Remedies. If a Lender may, under applicable law, proceed to realize benefits under any of the Loan Documents giving Lenders a Lien upon any Collateral, either by judicial foreclosure or by non-judicial sale or enforcement, such Lender may, at its sole option, determine which of such remedies or rights it may pursue without affecting any of such rights and remedies under this Guaranty. If, in the exercise of any of its rights and remedies, a Lender shall forfeit any of its rights or remedies, including its right to enter a deficiency judgment against any Loan Party, whether because of any applicable laws pertaining to "election of remedies" or the like, each VC Guarantor hereby consents to such action by such Lender and waives any claim based upon such action, even if such action by such Lender shall result in a full or partial loss of any rights of subrogation which such VC Guarantor might otherwise have had but for such action by such lender. Any election of remedies which results in the denial or impairment of the right of a Lender to seek a deficiency judgment against any Loan Party shall not impair any VC Guarantor's obligation to pay the full amount of its Guaranteed Obligations. In the event a Lender shall bid at any foreclosure or trustee's sale or at any private sale permitted by law or the Loan Documents, such Lender may bid all or less than the amount of the Guaranteed Obligations and the amount of such bid need not be paid by such Lender but shall be credited against the Guaranteed Obligations. The amount of the successful bid at any such sale shall be conclusively deemed to be the fair market value of the collateral and the difference between such bid amount and the remaining balance of the Guaranteed Obligations shall be conclusively deemed to be the amount of the Guaranteed Obligations guaranteed under this Guaranty, notwithstanding that any present or future law or court decision or ruling may have the effect of reducing the amount of any deficiency claim to which Lenders might otherwise be entitled but for such bidding at any such sale.

2.10 This Guaranty shall terminate upon the earliest to occur of the following: (a) a Borrower's receipt after the Closing Date of at least $75,000,000 in net new cash proceeds in any 12-month period from one or more of an Initial Public Offering, an equity financing, or convertible debt financing or strategic partnership, or any combination thereof, or (b) (i) a Borrower's receipt after the Closing Date of at least $50,000,000 in net new cash proceeds from an Initial Public Offering, equity financing, convertible debt or strategic partnership, or any combination thereof, in any 12-month period, and (ii) the FDA approves EXPAREL or (c) a Borrower completes an Initial Public Offering, and after giving effect thereto, such Borrower has a market capitalization of at least $400,000,000 and a balance of unrestricted cash (other than

Permitted Liens) of at least $50,000,000. A Borrower shall provide prompt notice to the VC Guarantors of the occurrence of any such event. Such termination shall be effective upon Lender's receipt of a Borrower's notice to terminate, together with such evidence as Lender may reasonably request of the satisfaction of the occurrence of any of (a), (b), or (c).

3. REPRESENTATIONS AND WARRANTIES.

To induce Lenders to make the Term Loans under the Loan Agreement, each VC Guarantor makes the following representations and warranties with respect to such VC Guarantor to each Lender, each and all of which shall survive the execution and delivery of this Guaranty:

3.1 Corporate Existence; Compliance with Law. Such VC Guarantor (i) is a corporation, limited partnership or other business organization duly organized or formed, validly existing and in good standing under the laws of its jurisdiction of organization; (ii) is duly qualified to do business and is in good standing under the laws of each jurisdiction where its ownership or lease of property or the conduct of its business requires such qualification; (iii) has the requisite organizational power and authority and the legal right to own, pledge, mortgage and operate its properties, to lease the property it operates under lease, and to conduct its business as now, heretofore and proposed to be conducted (including, without limitation, to execute, deliver and perform this Guaranty); (iv) has all licenses, permits, consents or approvals from or by, and has made all material filings with, and has given all notices to, all Governmental Authorities having jurisdiction, to the extent required for such ownership, operation and conduct (including, without limitation, to execute, deliver and perform this Guaranty); (v) is in compliance with its charters and bylaws, limited partnership agreement or other applicable operating agreement; (vi) has unfunded commitments from its investors in an amount equal to one and one-half (1.5) times such VC Guarantor's Maximum Amount (including, for the avoidance of doubt and as of any date of determination, the VC Guarantor's Pro Rata Portion of all Final Payment Fees that would be due and payable if all of the Term Loans were repaid on such date), in each case after taking into account all direct and contingent liabilities for indebtedness, letters of credit, deferred liabilities or similar obligations (including guarantees thereof) that may be required to be paid with proceeds of such commitments; (vii) is not subject to, nor is any of such VC Guarantor's properties subject to, any pending or threatened action, suit or proceeding before any court or other Governmental Authority or any arbitrator (a) which challenges the validity or enforceability of this Guaranty, or (b) which could reasonably be expected to have a Material Adverse Effect on such VC Guarantor, (viii) has and will continue to have an independent means of obtaining information concerning the affairs, financial condition and business of Borrowers and the other Loan Parties, and has no need of, or right to obtain from, any Lender, any credit or other information concerning the affairs, financial condition or business of Borrowers or the other Loan Parties that may come into the possession of any Lender, and (ix) is in compliance with all applicable provisions of law, except where the failure to comply, individually or in the aggregate, would not have a Material Adverse Effect on such Guarantor.

3.2 Executive Offices. Each VC Guarantor's jurisdiction of organization, federal employer identification number, organizational identification number, executive office and principal place of business are as set forth in Schedule 3.2 hereto.

3.3 Corporate Power; Authorization; Enforceable Guaranteed Obligations . The execution, delivery and performance of this Guaranty, any other Loan Document to which each VC Guarantor is a party and all other instruments and documents to be delivered by each VC Guarantor (including, without limitation, the making of capital calls by VC Guarantor to pay the Guaranteed Obligations) are within such VC Guarantor's organizational power, have been duly authorized by all necessary or proper organizational action, including the resolution of its board of directors or similar governing body and the consent of equityholders, are not in contravention of any provision of such VC Guarantor's bylaws, limited partnership agreement, operating agreement or other applicable governing document (including, without limitation, any restrictions under such governing document that prevent a VC Guarantor from incurring or guarantying indebtedness that exceeds any specified percentage of such VC Guarantor's aggregate capital commitments or its aggregate uncalled capital commitments), do not violate any law or regulation, or any order or decree of any Governmental Authority, do not conflict with or result in the breach of, or constitute a default under, or accelerate or permit the acceleration of any performance required by, any indenture, mortgage, deed of trust, lease, agreement or other instrument to which such VC Guarantor is a party or by which such VC Guarantor or any of its property is bound, do not result in the creation or imposition of any Lien upon any of the property of such VC Guarantor, and the same do not require the consent or approval of any Governmental Authority or any other Person. On or prior to the date hereof, this Guaranty and each other Loan Document to which each VC Guarantor is a party shall have been duly executed and delivered for the benefit of or on behalf of such VC Guarantor, and each shall then constitute a legal, valid and binding obligation of such VC Guarantor, enforceable against such VC Guarantor in accordance with its terms.

4. COVENANTS.

To induce Lenders to make the Term Loan A Loan under the Loan Agreement, each VC Guarantor hereby covenants and agrees as follows:

4.1 Maintenance of Unfunded Commitments . Such VC Guarantor shall maintain at all times unfunded commitments from its investors (minus all direct and contingent liabilities for indebtedness, letters of credit, deferred liabilities or similar obligations (including guarantees thereof)) in an amount equal to one and one-half (1.5) times such VC Guarantor's Maximum Amount (including, for the avoidance of doubt and as of any date of determination, the VC Guarantor's Pro Rata Portion of all Final Payment Fees that would be due and payable if all of the Advances were repaid on such date).

4.2 Change of Control.

(a) MPM Bioventures IV GP LLC shall at all times be the (i) general partner of MPM BioVentures IV-QP, L.P., (ii) managing limited partner of MPM BioVentures IV GmbH & Co. Beteiligungs KG, and (iii) manager of MPM Asset Management Investors BV4 LLC, in each case with sole authority to direct the day-to-day operations, management and administration of the entity.

(b) OrbiMed Capital GP III, LLC shall at all times be the general partner of OrbiMed Private Investments III, LP, with sole authority to direct the day-to-day operations, management and administration of the entity.

(c) OrbiMed Advisors, LLC shall at all times be the general partner of OrbiMed Associates III, LP, with sole authority to direct the day-to-day operations, management and administration of the entity.

(d) Middleton, McNeil, Mills & Associates VI, LLC shall at all times be the general partner of each of Sanderling Venture Partners VI, L.P., Sanderling Venture Partners VI Co-Investment, L.P., Sanderling VI Beteiligungs GmbH & Co. KG and Sanderling VI Limited Partnership, in each case with sole authority to direct the day-to-day operations, management and administration of the entity.

(e) Each of the parties hereto further agrees to provide the Lenders with prompt written notice should its respective representations in this Section 4.2 no longer be true.

4.3 No Conflicts. No VC Guarantor shall enter into any indenture, mortgage, deed of trust, lease, agreement or other instrument or modify any of its organizational documents, in each case, that restricts the ability of the VC Guarantor to use its assets (including, without limitation, unfunded commitments) to pay the VC Guarantor's obligations hereunder.

4.4 Delivery of Compliance Certificate. Each VC Guarantor shall deliver to Lenders within 30 days after the end of each calendar quarter a compliance certificate in the form attached hereto as Exhibit A signed by an authorized officer of such VC Guarantor.

5. FURTHER ASSURANCES.

Each VC Guarantor agrees, upon the written request of any Lender, to execute and deliver to such Lender, from time to time, any additional instruments or documents reasonably requested by such Lender to cause this Guaranty to be, become or remain valid and effective in accordance with its terms.

6. PAYMENTS FREE AND CLEAR OF TAXES.

All payments required to be made by any VC Guarantor hereunder shall be made to Lenders free and clear of, and without deduction for, any and all present and future taxes, withholdings, duties, impositions or other charges (other than taxes on the overall net income of any Lender and comparable taxes).

7. OTHER TERMS.

7.1 Entire Agreement. This Guaranty, together with the other Loan Documents, constitutes the entire agreement between the parties with respect to the subject matter hereof and supersedes all prior agreements relating to a guaranty of the Obligations under the Loan Documents.

7.2 Headings. The headings in this Guaranty are for convenience of reference only and are not part of the substance of this Guaranty.

7.3 Severability. Whenever possible, each provision of this Guaranty shall be interpreted in such a manner to be effective and valid under applicable law, but if any provision of this Guaranty shall be prohibited by or invalid under applicable law, such provision shall be ineffective to the extent of such prohibition or invalidity, without invalidating the remainder of such provision or the remaining provisions of this Guaranty.

7.4 Notices. Whenever it is provided herein that any notice, demand, request, consent, approval, declaration or other communication shall or may be given to or served upon any of the parties by any other party, or whenever any of the parties desires to give or serve upon another any such communication with respect to this Guaranty, each such notice, demand, request, consent, approval, declaration or other communication shall be in writing and shall be addressed to the party to be notified as follows:

WARRANT AGREEMENT

To Purchase Shares of Preferred Stock of

Pacira Pharmaceuticals, Inc.

Dated as of November 24, 2010 (the "Effective Date")

WHEREAS, Pacira Pharmaceuticals, Inc., a Delaware corporation (the "Company"), has entered into a Loan and Security Agreement of even date herewith (the "Loan Agreement") with Hercules Technology Growth Capital, Inc., a Maryland corporation (the "Warrantholder") and Hercules Technology III, L.P., a Delaware limited partnership;

WHEREAS, the Company desires to grant to Warrantholder, in consideration for, among other things, the financial accommodations provided for in the Loan Agreement, the right to purchase shares of Preferred Stock (as defined below) pursuant to this Warrant Agreement (the "Agreement");

NOW, THEREFORE, in consideration of the Warrantholder executing and delivering the Loan Agreement and providing the financial accommodations contemplated therein, and in consideration of the mutual covenants and agreements contained herein, the Company and Warrantholder agree as follows:

SECTION 1. GRANT OF THE RIGHT TO PURCHASE PREFERRED STOCK.

For value received, the Company hereby grants to the Warrantholder, and the Warrantholder is entitled, upon the terms and subject to the conditions hereinafter set forth, to subscribe for and purchase, from the Company, One Million Nine Hundred Twenty Five Thousand (1,925,000) fully paid and non-assessable shares of the Preferred Stock (as defined below). The Exercise Price is a price equal to the lower of (a) $1.25 per share if this Agreement is exercised for Series A Preferred Stock (as defined below) or (b) the price per Share paid in the next private institutional equity financing of the Company prior to an Initial Public Offering if this Agreement is exercised for securities sold in such private institutional equity financing. The number of shares and Exercise Price are subject to adjustment as provided in Section 8. As used herein, the following terms shall have the following meanings:

"Act" means the Securities Act of 1933, as amended.

"Charter" means the Company's Articles of Incorporation, Certificate of Incorporation or other constitutional document, as may be amended from time to time.

"Common Stock" means the Company's common stock, $0.001 par value per share;

"Initial Public Offering" means the initial underwritten public offering of Common Stock pursuant to a registration statement under the Act, which registration statement for the public offering has been declared effective by the Securities and Exchange Commission (" SEC");

"Merger Event" means a merger or consolidation involving the Company in which the Company is not the surviving entity, or in which the outstanding shares of the Company's capital stock are otherwise converted into or exchanged for shares of capital stock of another entity.

"Preferred Stock" means the Series A Preferred Stock, $0.001 par value per share, of the Company (the " Series A Preferred Stock ") and any other stock into or for which the Series A Preferred Stock may be converted or exchanged; provided that if the Company issues its equity securities in a private institutional equity financing after the date hereof but before the date of the Initial Public Offering then, at Holder's option, the Preferred Stock shall be of the class and type sold in such financing. Upon and after the occurrence of an event which results in the automatic or voluntary conversion, redemption or retirement of all (but not less than all) of the outstanding shares of such Preferred Stock, including, without limitation, the consummation of an Initial Public Offering of the Common Stock in which such a conversion occurs, then from and after the date upon which such outstanding shares are so converted, redeemed or retired, "Preferred Stock" shall mean such Common Stock. Notwithstanding the foregoing, in no event shall "Preferred Stock" include any debt security or other evidences of indebtedness of the Company.

"Purchase Price" means, with respect to any exercise of this Agreement, an amount equal to the Exercise Price as of the relevant time multiplied by the number of shares of Preferred Stock requested to be exercised under this Agreement pursuant to such exercise.

"Rights Agreement" means that certain Investor's Rights Agreement, between the Company and certain of its stockholders, dated March 23, 2007.

SECTION 2. TERM OF THE AGREEMENT.

Except as otherwise provided for herein, the term of this Agreement and the right to purchase Preferred Stock as granted herein (the "Warrant) shall commence on the Effective Date and shall be exercisable for a period ending upon the earlier to occur of (i) ten (10) years from the Effective Date; or (ii) five (5) years following the effective date of the registration statement for the Initial Public Offering (the earlier of (i) and (ii), the " Expiration Date").

SECTION 3. EXERCISE OF THE PURCHASE RIGHTS.

(a) Exercise. The purchase rights set forth in this Agreement are exercisable by the Warrantholder, in whole or in part, at any time, or from time to time, prior to the Expiration Date, by tendering to the Company at its principal office a notice of exercise in the form attached hereto as Exhibit I (the "Notice of Exercise"), duly completed and executed. Promptly upon receipt of the Notice of Exercise and the payment of the Purchase Price in accordance with the terms set forth below, and in no event later than three (3) days thereafter, the Company shall issue to the Warrantholder a certificate for the number of shares of Preferred Stock purchased and shall execute the acknowledgment of exercise in the form attached hereto as Exhibit II (the "Acknowledgment of Exercise") indicating the number of shares which remain subject to future exercises, if any.

The Purchase Price may be paid at the Warrantholder's election either (i) by cash or check, or (ii) by surrender of all or a portion of the Warrant for shares of Preferred Stock to be exercised under this Agreement and, if applicable, an amended Agreement representing the remaining number of shares purchasable hereunder, as determined below ("Net Issuance"). If the Warrantholder elects the Net Issuance method of exercise, the Company will issue Preferred Stock in accordance with the following formula:

$$X = \frac{Y(A-B)}{A}$$

Where: X = the number of shares of Preferred Stock to be issued to the Warrantholder.

Y = the number of shares of Preferred Stock requested to be exercised under this Agreement.

A = the fair market value of one (1) share of Preferred Stock at the time of issuance of such shares of Preferred Stock.

B = the Exercise Price.

For purposes of the above calculation, current fair market value of Preferred Stock shall mean with respect to each share of Preferred Stock:

(i) if the exercise is in connection with an Initial Public Offering, and if the Company's Registration Statement relating to such Initial Public Offering has been declared effective by the SEC, then the fair market value per share shall be the product of (x) the initial "Price to Public" of the Common Stock specified in the final prospectus with respect to the offering and (y) the number of shares of Common Stock into which each share of Preferred Stock is convertible at the time of such exercise;

(ii) if the exercise is after, and not in connection with an Initial Public Offering,:

(A) if the Common Stock is traded on a securities exchange, then the fair market value shall be deemed to be the product of (x) the average of the closing prices over a five (5) day period ending three days before the day the current fair market value of the securities is being determined and (y) the number of shares of Common Stock into which each share of Preferred Stock is convertible at the time of such exercise; or

(B) if the Common Stock is traded over-the-counter, then the fair market value shall be deemed to be the product of (x) the average of the closing bid and asked prices quoted on the NASDAQ system (or similar system) over the five (5) day period ending three days before the day the current fair market value of the securities is being determined and (y) the number of shares of Common Stock into which each share of Preferred Stock is convertible at the time of such exercise;

(iii) if at any time the Common Stock is not listed on any securities exchange or quoted in the NASDAQ National Market or the over-the-counter market, the current fair market value of Preferred Stock shall be the product of (x) the highest price per share which the Company could obtain from a willing buyer (not a current employee or director) for shares of Common Stock sold by the Company, from authorized but unissued shares, as determined in good faith by its Board of Directors and (y) the number of shares of Common Stock into which each share of Preferred Stock is convertible at the

time of such exercise, unless the Company shall become subject to a Merger Event, in which case the fair market value of Preferred Stock shall be deemed to be the per share value received by the holders of the Preferred Stock on an as-converted-to common stock basis pursuant to such Merger Event.

Upon partial exercise by either cash or Net Issuance, the Company shall promptly issue an amended Agreement representing the remaining number of shares of Preferred Stock purchasable hereunder. All other terms and conditions of such amended Agreement shall be identical to those contained herein, including, but not limited to the Effective Date hereof.

(b) Exercise Prior to Expiration. To the extent this Agreement is not previously exercised as to all Preferred Stock subject hereto, and if the fair market value of one share of the Preferred Stock is greater than the Exercise Price then in effect, this Agreement shall be deemed automatically exercised pursuant to Section 3(a) (even if not surrendered) immediately prior to the Expiration Date. For purposes of such automatic exercise, the fair market value of one share of the Preferred Stock upon such Expiration Date shall be determined pursuant to Section 3(a). To the extent this Agreement or any portion thereof is deemed automatically exercised pursuant to this Section 3(b), the Company agrees to promptly notify the Warrantholder of the number of shares of Preferred Stock, if any, the Warrantholder is to receive by reason of such automatic exercise.

SECTION 4. RESERVATION OF SHARES.

During the term of this Agreement, the Company will at all times have authorized and reserved a sufficient number of shares of its Series A Preferred Stock to provide for the exercise of the rights to purchase Series A Preferred Stock as provided for herein, and shall have authorized and reserved a sufficient number of shares of Common Stock to provide for the conversion of the Series A Preferred Stock available hereunder.

SECTION 5. NO FRACTIONAL SHARES OR SCRIP.

No fractional shares or scrip representing fractional shares shall be issued upon the exercise of this Agreement, but in lieu of such fractional shares the Company shall make a cash payment therefor in an amount equal to the product of (i) the Exercise Price then in effect, multiplied by (ii) the fraction of a share.

SECTION 6. REGISTRATION RIGHTS; NO OTHER RIGHTS AS STOCKHOLDER.

The Common Stock into which the Preferred Stock is convertible shall be “Registrable Securities”, and Warrantholder shall have the rights of an “Investor” under the Rights Agreement. This Agreement does not entitle the Warrantholder to any voting rights or other rights as a stockholder of the Company prior to the exercise of this Agreement.

SECTION 7. WARRANTHOLDER REGISTRY.

The Company shall maintain a registry showing the name and address of the registered holder of this Agreement. Warrantholder’s initial address, for purposes of such registry, is set forth below Warrantholder’s signature on this Agreement. Warrantholder may change such address by giving written notice of such changed address to the Company.

SECTION 8. ADJUSTMENT RIGHTS.

The Exercise Price and the number of shares of Preferred Stock purchasable hereunder are subject to adjustment, as follows:

(a) Merger Event. If at any time there shall be Merger Event, then, as a part of such Merger Event, lawful provision shall be made so that the Warrantholder shall thereafter be entitled to receive, upon exercise of this Agreement, the number of shares of preferred stock or other securities or property of the successor corporation resulting from such Merger Event that would have been issuable if Warrantholder had exercised this Agreement immediately prior to the Merger Event. In any such case, appropriate adjustment (as determined in good faith by the Company's Board of Directors) shall be made in the application of the provisions of this Agreement with respect to the rights and interests of the Warrantholder after the Merger Event to the end that the provisions of this Agreement (including adjustments of the Exercise Price and number of shares of Preferred Stock purchasable) shall be applicable in their entirety, and to the greatest extent possible. Without limiting the foregoing, in connection with any Merger Event, upon the closing thereof, the successor or surviving entity shall assume the obligations of this Agreement. In connection with a Merger Event and upon Warrantholder's written election to the Company, the Company shall cause this Warrant Agreement to be exchanged for the consideration that Warrantholder would have received if Warrantholder chose to exercise its right to have shares issued pursuant to the Net Issuance provisions of this Warrant Agreement without actually exercising such right, acquiring such shares and exchanging such shares for such consideration.

(b) Reclassification of Shares. Except as set forth in Section 8(a), if the Company at any time shall, by combination, reclassification, exchange or subdivision of securities or otherwise, change any of the securities as to which purchase rights under this Agreement exist into the same or a different number of securities of the same class or any other class or classes, this Agreement shall thereafter represent the right to acquire such number and kind of securities as would have been issuable as the result of such change with respect to the securities which were subject to the purchase rights under this Agreement immediately prior to such combination, reclassification, exchange, subdivision or other change.

(c) Subdivision or Combination of Shares. If the Company at any time shall combine or subdivide its Preferred Stock, (i) in the case of a subdivision, the Exercise Price shall be proportionately decreased, and the number of shares of Preferred Stock issuable upon exercise of this Agreement shall be proportionately increased, or (ii) in the case of a combination, the Exercise Price shall be proportionately increased, and the number of shares of Preferred Stock issuable upon the exercise of this Agreement shall be proportionately decreased.

(d) Stock Dividends. If the Company at any time while this Agreement is outstanding and unexpired shall:

(i) pay a dividend with respect to the Preferred Stock payable in Preferred Stock, then the Exercise Price shall be adjusted, from and after the date of determination of stockholders entitled to receive such dividend or distribution, to that price determined by multiplying the Exercise Price in effect immediately prior to such date of determination by a fraction (A) the numerator of which shall be the total number of shares of Preferred Stock outstanding immediately prior to such dividend or distribution, and (B) the denominator of which shall be the total number of shares of Preferred Stock outstanding immediately after such dividend or distribution; or

(ii) make any other distribution with respect to Preferred Stock (or stock into which the Preferred Stock is convertible), except any distribution specifically provided for in any other clause of this Section 8, then, in each such case, provision shall be made by the Company such that the Warrantholder shall receive upon exercise or conversion of this Warrant a proportionate share of any such distribution as though it were the holder of the Preferred Stock (or other stock for which the Preferred Stock is convertible) as of the record date fixed for the determination of the stockholders of the Company entitled to receive such distribution.

(e) Antidilution Rights. Additional antidilution rights applicable to the Preferred Stock purchasable hereunder are as set forth in the Charter and shall be applicable with respect to the Preferred Stock issuable hereunder. The Company shall promptly provide the Warrantholder with any restatement, amendment, modification or waiver of the Charter; provided, that no such amendment, modification or waiver shall impair or reduce the antidilution rights applicable to the Preferred Stock as of the date hereof unless such amendment, modification or waiver affects the rights of Warrantholder with respect to the Preferred Stock in the same manner as it affects all other holders of Preferred Stock. The Company shall provide Warrantholder with prior written notice of any issuance of its stock or other equity security to occur after the Effective Date, which notice shall include (a) the price at which such stock or security is to be sold, (b) the number of shares to be issued, and (c) such other information as is reasonably necessary for Warrantholder to determine if a dilutive event has occurred. For the avoidance of doubt, there shall be no duplicate anti-dilution adjustment pursuant to this subsection (e), the forgoing subsection (d) and the Charter.

(f) Notice of Adjustments. If: (i) the Company shall declare any dividend or distribution upon its stock, whether in stock, cash, property or other securities; (ii) the Company shall offer for subscription prorata to the holders of any class of its Preferred Stock or other convertible stock any additional shares of stock of any class or other rights; (iii) there shall be any Merger Event; (iv) there shall be an Initial Public Offering; (v) the Company shall sell, lease, exclusive license or otherwise transfer all or substantially all of its assets; or (vi) there shall be any voluntary dissolution, liquidation or winding up of the Company; then, in connection with each such event, the Company shall send to the Warrantholder: (A) at least ten (10) days' prior written notice of the date on which the books of the Company shall close or a record shall be taken for such dividend, distribution, subscription rights (specifying the date on which the holders of Preferred Stock shall be entitled thereto) or for determining rights to vote in respect of such Merger Event, dissolution, liquidation or winding up; (B) in the case of any such Merger Event, sale, lease, exclusive license or other transfer of all or substantially all assets, dissolution, liquidation or winding up, at least ten (10) days' prior written notice of the date when the same shall take place (and specifying the date on which the holders of Preferred Stock shall be entitled to exchange their Preferred Stock for securities or other property deliverable upon such Merger Event, dissolution, liquidation or winding up); and (C) in the case of an Initial Public Offering, the Company shall give the Warrantholder at least five (5) days' written notice prior to the effective date of the registration statement therefore. .

Each such written notice shall set forth, in reasonable detail, (i) the event requiring the notice, and (ii) if any adjustment is required to be made, (A) the amount of such adjustment, (B) the method by which such adjustment was calculated, (C) the adjusted Exercise Price (if the Exercise Price has been adjusted), and (D) the number of shares subject to purchase hereunder after giving effect to such adjustment. Such written notice shall be given by first class mail, postage prepaid, by reputable overnight courier with all charges prepaid or via electronic transmission, addressed to the Warrantholder at the address for Warrantholder set forth in Section 12(g).

(g) Election. At least ten (10) days prior to the consummation of any private institutional equity financing of the Company to be consummated prior to the Initial Public Offering (an "Equity Financing"), the Company shall give written notice to the Warrantholder of such Equity Financing (the " Financing Notice") setting forth a summary of the material terms of such Equity Financing. Within three (3) days following the date of such Financing Notice, the Warrantholder

shall deliver written notice to the Company electing to have the securities set forth in the following clause (i) or (ii) be issuable upon exercise of this warrant (i) Series A Preferred Stock of the Company or (ii) the class and series of equity securities issued in such Equity Financing, be issuable upon exercise of this Warrant. From and after such election, the equity securities set forth in such notice shall be deemed "Preferred Stock" for all purposes hereof.

SECTION 9. REPRESENTATIONS, WARRANTIES AND COVENANTS OF THE COMPANY.

(a) Reservation of Preferred Stock. The Series A Preferred Stock issuable upon exercise of the Warrantholder's rights has been duly and validly reserved and, when the Preferred Stock is issued in accordance with the provisions of this Agreement, will be validly issued, fully paid and non-assessable, and will be free of any taxes, liens, charges or encumbrances of any nature whatsoever; provided, that the Preferred Stock issuable pursuant to this Agreement may be subject to restrictions on transfer under state and/or federal securities laws. The Company has made available to the Warrantholder true, correct and complete copies of its Charter and bylaws currently in effect. The issuance of certificates for shares of Preferred Stock upon exercise of this Agreement shall be made without charge to the Warrantholder for any issuance tax in respect thereof, or other cost incurred by the Company in connection with such exercise and the related issuance of shares of Preferred Stock; provided, that the Company shall not be required to pay any tax which may be payable in respect of any transfer and the issuance and delivery of any certificate in a name other than that of the Warrantholder.

(b) Due Authority. The execution and delivery by the Company of this Agreement and the performance of all obligations of the Company hereunder, including the issuance to Warrantholder of the right to acquire the shares of Preferred Stock and the Common Stock into which it may be converted, have been duly authorized by all necessary corporate action on the part of the Company. This Agreement: (1) does not violate the Charter or current bylaws; (2) does not contravene any law or governmental rule, regulation or order applicable to it; and (3) does not and will not contravene any provision of, or constitute a default under, any indenture, mortgage, contract or other instrument to which it is a party or by which it is bound. This Agreement constitutes a legal, valid and binding agreement of the Company, enforceable in accordance with its terms except (a) as limited by applicable bankruptcy, insolvency, reorganization, moratorium, and other laws of general application affecting enforcement of creditors' rights generally, and (b) as limited by laws relating to the availability of specific performance, injunctive relief, or other equitable remedies.

(c) Consents and Approvals. No consent or approval of, giving of notice to, registration with, or taking of any other action in respect of any state, federal or other governmental authority or agency is required with respect to the execution, delivery and performance by the Company of its obligations under this Agreement, except for the filing of notices pursuant to Regulation D under the Act and any filing required by applicable state securities law, which filings will be effective by the time required thereby.

(d) Issued Securities. All issued and outstanding shares of Common Stock, Series A Preferred Stock or any other securities of the Company have been duly authorized and validly issued and are fully paid and nonassessable. All outstanding shares of Common Stock, Series A Preferred Stock and any other securities were issued in full compliance with all federal and state securities laws. In addition, as of the date immediately preceding the date of this Agreement:

(i) The authorized capital of the Company consists of (A) 120,000,000 shares of Common Stock, of which 6,171,755 shares are issued and outstanding, and (B)

88,000,000 shares of Series A Preferred Stock, of which 68,000,000 shares are issued and outstanding and are convertible into 68,000,000 shares of Common Stock at $1.25 per share.

(ii) The Company has reserved 18,600,750 shares of Common Stock for issuance under its Stock Option Plan(s), under which 16,170,553 options are outstanding. Other than warrants to purchase (i) an aggregate of 1,700,000 shares of Common Stock and (ii) an aggregate of 250,000 shares of Series A Preferred Stock, there are no other options, warrants, conversion privileges or other rights presently outstanding to purchase or otherwise acquire any authorized but unissued shares of the Company's capital stock or other securities of the Company. The Company has no outstanding loans to any employee, officer or director of the Company, and the Company agrees not to enter into any such loan or otherwise guarantee the payment of any loan made to an employee, officer or director by a third party.

(iii) Except as set forth in the Rights Agreement, , no stockholder of the Company has preemptive rights to purchase new issuances of the Company's capital stock.

(e) Other Commitments to Register Securities. Except as set forth in this Agreement and the Rights Agreement, the Company is not, pursuant to the terms of any other agreement currently in existence, under any obligation to register under the Act any of its presently outstanding securities or any of its securities which may hereafter be issued.

(f) Exempt Transaction. Subject to the accuracy of the Warrantholder's representations set forth in Section 10, the issuance of the Preferred Stock upon exercise of this Agreement, and the issuance of the Common Stock upon conversion of the Preferred Stock, will each constitute a transaction exempt from (i) the registration requirements of Section 5 of the Act, in reliance upon Section 4(2) thereof, and (ii) the qualification requirements of the applicable state securities laws.

(g) Compliance with Rule 144. If the Warrantholder proposes to sell Preferred Stock issuable upon the exercise of this Agreement, or the Common Stock into which it is convertible, in compliance with Rule 144 promulgated by the SEC, then, upon Warrantholder's written request to the Company, the Company shall furnish to the Warrantholder, within ten (10) days after receipt of such request, a written statement confirming the Company's compliance with the filing requirements of the SEC as set forth in such Rule, as such Rule may be amended from time to time.

(h) Information Rights. During the term of this Warrant, Warrantholder shall be entitled to the information rights contain in Section 7.1 of the Loan Agreement, and Section 7.1 of the Loan Agreement is hereby incorporated into this Agreement by this reference as though fully set forth herein, provided, however, that the Company shall not be required to deliver a Compliance Certificate once all Indebtedness (as defined in the Loan Agreement) owed by the Company to Warrantholder has been repaid.

SECTION 10. REPRESENTATIONS AND COVENANTS OF THE WARRANTHOLDER.

This Agreement has been entered into by the Company in reliance upon the following representations and covenants of the Warrantholder:

(a) Investment Purpose. This Agreement and the Preferred Stock issuable upon exercise of the Warrantholder's rights contained herein are and will be acquired for investment

and not with a view to the sale or distribution of any part thereof, and the Warrantholder has no present intention of selling or engaging in any public distribution of the same except pursuant to a registration or exemption.

(b) Private Issue. The Warrantholder understands (i) that the Preferred Stock issuable upon exercise of this Agreement is not registered under the Act or qualified under applicable state securities laws on the ground that the issuance contemplated by this Agreement will be exempt from the registration and qualifications requirements thereof, and (ii) that the Company's reliance on such exemption is predicated on the representations set forth in this Section 10.

(c) Financial Risk. The Warrantholder has such knowledge and experience in financial and business matters as to be capable of evaluating the merits and risks of its investment, and has the ability to bear the economic risks of its investment.

(d) Risk of No Registration. The Warrantholder understands that if the Company does not register with the SEC pursuant to Section 12 of the Securities Exchange Act of 1934 (the "1934 Act"), or file reports pursuant to Section 15(d) of the 1934 Act, or if a registration statement covering the securities under the Act is not in effect when it desires to sell (i) the rights to purchase Preferred Stock pursuant to this Agreement or (ii) the Preferred Stock issuable upon exercise of the right to purchase, it may be required to hold such securities for an indefinite period. The Warrantholder also understands that any sale of (A) its rights hereunder to purchase Preferred Stock or (B) Preferred Stock issued or issuable hereunder which might be made by it in reliance upon Rule 144 under the Act may be made only in accordance with the terms and conditions of that Rule.

(e) Accredited Investor. Warrantholder is an "accredited investor" within the meaning of the Securities and Exchange Rule 501 of Regulation D, as presently in effect.

SECTION 11. TRANSFERS.

Subject to compliance with applicable federal and state securities laws, this Agreement and all rights hereunder are transferable, in whole or in part, without charge to the holder hereof (except for transfer taxes) upon surrender of this Agreement properly endorsed. Each taker and holder of this Agreement, by taking or holding the same, consents and agrees that this Agreement, when endorsed in blank, shall be deemed negotiable, and that the holder hereof, when this Agreement shall have been so endorsed and its transfer recorded on the Company's books, shall be treated by the Company and all other persons dealing with this Agreement as the absolute owner hereof for any purpose and as the person entitled to exercise the rights represented by this Agreement. The transfer of this Agreement shall be recorded on the books of the Company upon receipt by the Company of a notice of transfer in the form attached hereto as Exhibit III (the "Transfer Notice"), at its principal offices and the payment to the Company of all transfer taxes and other governmental charges imposed on such transfer. Until the Company receives such Transfer Notice, the Company may treat the registered owner hereof as the owner for all purposes. Notwithstanding the foregoing, this Agreement shall not be transferable to any competitor of the Company prior to the Initial Public Offering (as determined in good faith by the Board of Directors of the Company).

SECTION 12. MISCELLANEOUS.

(a) Effective Date. The provisions of this Agreement shall be construed and shall be given effect in all respects as if it had been executed and delivered by the Company on the date hereof. This Agreement shall be binding upon any successors or assigns of the Company.

(b) Remedies. In the event of any default hereunder, the non-defaulting party may proceed to protect and enforce its rights either by suit in equity and/or by action at law, including but not limited to an action for damages as a result of any such default, and/or an action for specific performance for any default where Warrantholder will not have an adequate remedy at law and where damages will not be readily ascertainable. The Company expressly agrees that it shall not oppose an application by the Warrantholder or any other person entitled to the benefit of this Agreement requiring specific performance of any or all provisions hereof or enjoining the Company from continuing to commit any such breach of this Agreement.

(c) Additional Documents. The Company, upon execution of this Agreement, shall provide the Warrantholder with certified resolutions with respect to the representations, warranties and covenants set forth in Sections 9(a) through 9(d) and 9(f). The Company shall also supply such other documents as the Warrantholder may from time to time reasonably request.

(d) Attorney's Fees. In any litigation, arbitration or court proceeding between the Company and the Warrantholder relating hereto, the prevailing party shall be entitled to attorneys' fees and expenses and all costs of proceedings incurred in enforcing this Agreement. For the purposes of this Section 12(e), attorneys' fees shall include without limitation fees incurred in connection with the following: (i) contempt proceedings; (ii) discovery; (iii) any motion, proceeding or other activity of any kind in connection with an insolvency proceeding; (iv) garnishment, levy, and debtor and third party examinations; and (v) post-judgment motions and proceedings of any kind, including without limitation any activity taken to collect or enforce any judgment.

(e) Severability. In the event any one or more of the provisions of this Agreement shall for any reason be held invalid, illegal or unenforceable, the remaining provisions of this Agreement shall be unimpaired, and the invalid, illegal or unenforceable provision shall be replaced by a mutually acceptable valid, legal and enforceable provision, which comes closest to the intention of the parties underlying the invalid, illegal or unenforceable provision.

(f) Notices. Except as otherwise provided herein, any notice, demand, request, consent, approval, declaration, service of process or other communication that is required, contemplated, or permitted under this Agreement or with respect to the subject matter hereof shall be in writing, and shall be deemed to have been validly served, given, delivered, and received upon the earlier of: (i) the day of transmission by facsimile, electronic transmission or hand delivery if such transmission or delivery occurs on a business day at or before 5:00 pm in the time zone of the recipient, or, if transmission or delivery occurs on a non-business day or after such time, the first business day thereafter, or the first business day after deposit with an overnight express service or overnight mail delivery service; or (ii) the third calendar day after deposit in the United States mails, with proper first class postage prepaid, and shall be addressed to the party to be notified as follows:

or to such other address as each party may designate for itself by like notice, provided that any notice delivered to Warrantholder or Company shall be valid notwithstanding the failure to deliver a copy of such notice to any other person or entity.

(g) No Strict Construction. The parties hereto have participated jointly in the negotiation and drafting of this Agreement. In the event an ambiguity or question of intent or interpretation arises, this Agreement shall be construed as if drafted jointly by the parties hereto and no presumption or burden of proof shall arise favoring or disfavoring any party by virtue of the authorship of any provisions of this Agreement.

(h) No Waiver. No omission or delay by Warrantholder at any time to enforce any right or remedy reserved to it, or to require performance of any of the terms, covenants or provisions hereof by the Company at any time designated, shall be a waiver of any such right or remedy to which Warrantholder is entitled, nor shall it in any way affect the right of Warrantholder to enforce such provisions thereafter.

(i) Survival. All agreements, representations and warranties contained in this Agreement or in any document delivered pursuant hereto shall be for the benefit of Warrantholder and shall survive the execution and delivery of this Agreement and the expiration or other termination of this Agreement.

(j) Governing Law. This Agreement have been negotiated and delivered to Warrantholder in the State of California, and shall have been accepted by Warrantholder in the State of California. Delivery of Preferred Stock to Warrantholder by the Company under this Agreement is due in the State of California. This Agreement shall be governed by, and construed and enforced in accordance with, the laws of the State of California, excluding conflict of laws principles that would cause the application of laws of any other jurisdiction.

(k) Consent to Jurisdiction and Venue. All judicial proceedings arising in or under or related to this Agreement may be brought in any state or federal court of competent jurisdiction located in the State of California. By execution and delivery of this Agreement, each party hereto generally and unconditionally: (a) consents to personal jurisdiction in Santa Clara County, State of California; (b) waives any objection as to jurisdiction or venue in Santa Clara County, State of California; (c) agrees not to assert any defense based on lack of jurisdiction or venue in the aforesaid courts; and (d) irrevocably agrees to be bound by any judgment rendered thereby in connection with this Agreement.

(l) Mutual Waiver of Jury Trial; Judicial Reference. Because disputes arising in connection with complex financial transactions are most quickly and economically resolved by an experienced and expert person and the parties wish applicable state and federal laws to apply (rather than arbitration rules), the parties desire that their disputes be resolved by a judge applying such applicable laws. EACH OF THE COMPANY AND WARRANTHOLDER SPECIFICALLY WAIVES ANY RIGHT IT MAY HAVE TO TRIAL BY JURY OF ANY CAUSE OF ACTION, CLAIM, CROSS-CLAIM, COUNTERCLAIM, THIRD PARTY CLAIM OR ANY OTHER CLAIM (COLLECTIVELY, "CLAIMS") ASSERTED BY THE COMPANY AGAINST WARRANTHOLDER OR ITS ASSIGNEE OR BY WARRANTHOLDER OR ITS ASSIGNEE AGAINST THE COMPANY. This waiver extends to all such Claims, including Claims that involve Persons other than the Company and Warrantholder; Claims that arise out of or are in any way connected to the relationship between the Company and Warrantholder; and any Claims for damages, breach of contract, specific performance, or any equitable or legal relief of any kind, arising out of this Agreement. If this waiver of jury trial is ineffective or unenforceable, the parties agree that all Claims shall be resolved by reference to a private judge sitting without a jury, pursuant to Code of Civil Procedure Section 638, before a mutually acceptable referee or, if the parties cannot agree, a referee selected by the Presiding Judge of the Santa Clara County, California. Such proceeding shall be conducted in Santa Clara County, California, with California rules of evidence and discovery applicable to such proceeding. In the event Claims are to be resolved by judicial reference, either party may seek from a court identified in this Section, any prejudgment order, writ or other relief and have such prejudgment order, writ or other relief enforced to the fullest extent permitted by law notwithstanding that all Claims are otherwise subject to resolution by judicial reference

(m) Counterparts. This Agreement and any amendments, waivers, consents or supplements hereto may be executed in any number of counterparts, and by different parties hereto in separate counterparts, each of which when so delivered shall be deemed an original, but all of which counterparts shall constitute but one and the same instrument.

(n) Specific Performance. The parties hereto hereby declare that it is impossible to measure in money the damages which will accrue to Warrantholder by reason of the Company's failure to perform any of the obligations under this Agreement and agree that the terms of this Agreement shall be specifically enforceable by Warrrantholder. If Warrantholder institutes any action or proceeding to specifically enforce the provisions hereof, any person against whom such action or proceeding is brought hereby waives the claim or defense therein that Warrantholder has an adequate remedy at law, and such person shall not offer in any such action or proceeding the claim or defense that such remedy at law exists.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed by its officers thereunto duly authorized as of the Effective Date.
